Sec. 74-161. Annexation fees.

All annexations shall be accomplished in accordance with state annexation laws. Fees for requests for annexation of land into the city limits are as provided for in the city fee schedule. Annexation fees shall be refundable upon final annexation approval.
(Code 1996, § 1.12.001)

Secs. 74-162—74-190. Reserved.

ARTICLE VI. NONCONFORMING CONDITIONS

Sec. 74-191. Intent of provisions.

(a) Within the districts established by this chapter or amendments thereto, there may exist lots, structures, uses of land and structures, and characteristics of use which were lawfully in existence and operating before the ordinance from which this chapter is derived was enacted, amended or otherwise made applicable to such lots, structures or uses, but which do not now conform to the regulations of the district in which they are located. It is the intent of this chapter to permit such nonconforming uses to continue, as long as the conditions with this section and other applicable sections of this chapter are met.

(b) It is, further, the intent of this article that nonconforming uses and structures shall not be enlarged upon, expanded or extended, and shall not be used as a basis for adding other structures or uses prohibited elsewhere in the same district, except as may otherwise be provided in this article.

(c) Nonconforming uses are declared to be incompatible with the permitted uses in the districts involved.
(Code 1996, ch. 14, exh. 14A, art. VI, § 1)

Sec. 74-192. Nonconforming status.

(a) A nonconforming status shall exist under the following provisions:

(1) When a use, platted lot, or structure which does not conform to the regulations prescribed in the district in which such use, platted lot, or structure is located was in existence and lawfully operating prior to the adoption of the ordinance from which this chapter is derived and has been operating since, without discontinuance, providing that:

a. The use, platted lot, or structure was in existence and lawfully constructed, located and operating in accordance with previous zoning regulations or which was a nonconforming use thereunder, and which use or structure does not now conform to the regulations herein prescribed for the district in which the use or structure is located; or

b. The use, platted lot, or structure was in existence at the time of annexation into the city, was a legal use of the land at such time and has been in regular and continuous use since such time;

(2) Any other use, platted lot, or structure which does not conform with the regulations of the zoning district in which it is located on the effective date of the ordinance from which this chapter is derived or any amendment hereto, and except as provided in subsection (a)(3) of this section, shall be deemed to be in violation of this chapter, and the city shall be entitled to enforce fully the terms of this chapter with respect to such use, platted lot, or structure;

(3) The following types of platted lots shall be deemed in conformance with the provisions of this chapter, notwithstanding the fact that such lot does not meet the standards of this chapter in the district in which it is located:

a. Any vacant lot that conformed to the city's zoning district regulations at the time that it was platted; or

b. Any lot occupied by a single-family dwelling authorized under the zoning district regulations in which the lot is located;

(4) A lot of record that is nonconforming may be occupied by a single-family dwelling, provided that all appropriate zoning district regulations (i.e., height, setbacks, lot coverage, etc.) are met.

(b) Continuing lawful use of land and structures.

(1) A nonconforming use or structure may continue to be used, operated or occupied in accordance with the terms of the zoning regulations by which it was established, or in the case of annexed property, in accordance with the regulations under which it was created;

(2) A nonconforming structure occupied by a nonconforming use may be re-occupied by a conforming use, following abandonment of the nonconforming use.

(Code 1996, ch. 14, exh. 14A, art. VI, § 2)

Sec. 74-193. Expansion or reconstruction of nonconforming uses and structures.

(a) A nonconforming use or structure may not be enlarged, expanded or increased to occupy a greater area of land than was occupied at the time the use or structure became nonconforming, except to provide off-street parking or loading areas as required by this chapter upon the recommendation of the planning and zoning commission and approval of the city council.

(b) A nonconforming use occupying a structure shall not be extended to occupy land outside the structure.

(c) A nonconforming use may be extended throughout the structure in which it is located, provided that:

(1) The structure or its premises shall not be enlarged or increased in height, in floor area or in land area to accommodate extension of the nonconforming use; and

(2) No alteration shall be made to the structure occupied by the nonconforming use, except those alterations that are required by law to preserve the integrity of the structure and alterations that would upgrade the quality, safety or aesthetic appeal of the structure; and

(3) The number of dwelling units or families occupying the structure shall not exceed the number of dwelling units or families existing at the time the use became nonconforming.

(d) Repairs and normal maintenance may be made to a nonconforming building, provided that no structural alterations, expansions, or extensions shall be made, except those required by law or ordinance, unless the building is changed to a conforming use.

(e) Any nonconforming use may be changed to a conforming use, and once such change is made, the use shall not thereafter be changed back to a nonconforming use.

(f) Where a conforming use is located in a nonconforming structure, the use may be changed to another conforming use by securing a certificate of occupancy from the building official but shall not be changed to a nonconforming use.

(g) A nonconforming use located in a conforming or nonconforming structure shall not be changed to another nonconforming use.

(h) Any nonconforming use located in a conforming structure may be changed to a conforming use, provided a new certificate of occupancy is secured from the city, and once such change is made, the use shall not thereafter be changed back to a nonconforming use.

(i) When a nonconforming use is abandoned, all nonconforming rights shall cease and the use of the premises shall thenceforth be in conformity with this chapter. The intent of the user or owner to discontinue a nonconforming use for a period of six months, coupled with a non-use of the nonconforming use for such period, shall be construed as conclusive proof of intent to abandon the nonconforming use. Any nonconforming use which, not involving a permanent type of structure, is moved from the premises shall be considered to have been abandoned.

(j) If a structure occupied by a nonconforming use is destroyed by fire, acts of God, neglect, or other cause, it may not be rebuilt except to conform to the provisions of this chapter. In the case of partial destruction of a nonconforming use not exceeding 40 percent of its appraised value as determined by the appropriate county appraisal district, reconstruction will be permitted, but the size or function of the nonconforming use cannot be expanded.

(k) If more than 40 percent of the total appraised value, as determined by the appropriate county appraisal district, of a nonconforming structure is destroyed by fire, the elements or some other cause, then the structure may be rebuilt only in conformity with the standards of this chapter.

(l) Provisions applicable to Willow Run Addition. Notwithstanding any of the provisions of subsections (a) through (k) of this section, with regard to any parcel located within Willow Run Addition, a development of approximately 104 acres as shown more fully on the zoning map of the city, which was, prior to the passage and adoption of Ordinance No. 843-07, zoned as SF-1 Single-Family Residential-1 (minimum 20,000-square-foot lots) District and had, at that time, a structure existing thereon, the owners of such qualifying parcels may renovate, expand and rebuild a structure existing thereon at the time of passage of Ordinance No. 843-07, subject to the following provisions:

(1) The owner of record of a qualifying parcel at the time of the passage of Ordinance No. 843-07 may expand a structure in existence thereon at the time of the passage of Ordinance No. 843-07; provided, however, that if the owner converts to retail uses, the owner shall not be allowed to revert to residential use thereafter;

(2) Upon the death of the owners of a qualifying parcel or upon the sale or other transfer of the property by title, deed, or otherwise, the parcel may thereafter be used solely for retail/commercial uses;

(3) The owner of record of a qualifying parcel at the time of the passage of Ordinance No. 843-07 shall have a period of one year within which to rebuild if a structure on a qualifying parcel is destroyed. If no attempt to rebuild occurs or if rebuilding is not completed within that one-year period, the owners may petition for an extension of that time period by submitting evidence to the city council or the zoning board of adjustment of a hardship encountered in the rebuild process;

(4) The rebuilding of any structure in existence at the time of passage of Ordinance No. 843-07 shall be nonconforming with the previous vested rights. The retail/commercial criteria will not be considered if this is done within 12 months; however, rebuilding beyond a year shall be only with city council or zoning board of adjustment approval;

(5) All rules regarding nonconforming uses that are not in conflict with this subsection (l) remain in effect.

(Code 1996, ch. 14, exh. 14A, art. VI, § 3; Ord. No. O-03-09, 4-20-2009; Ord. No. O-11-18, 9-18-2018)

Sec. 74-194. Moving of nonconforming structure.

No nonconforming structure or building shall be moved in whole or in part to any other location on the lot, or to any other location or lot, unless every portion of such structure is in compliance with all the regulations of the zoning district wherein the structure is to be

relocated. The building relocation shall also require a structure relocation permit from the city and may also require platting of the intended building site pursuant to the subdivision regulations (chapter 72) as well as site plan approval per section 74-263.
(Code 1996, ch. 14, exh. 14A, art. VI, § 4)

Sec. 74-195. Nonconforming lots.

Nothing in this chapter shall be construed to prohibit the use of a lot that does not meet the minimum lot standards of the zoning district in which it is located, provided that the lot is zoned for the land uses intended and the lot was platted as a lot of record prior to the effective date of the ordinance from which this chapter is derived.
(Code 1996, ch. 14, exh. 14A, art. VI, § 5)

Sec. 74-196. Registration, termination and amortization of nonconforming uses.

(a) *Registration of nonconforming uses and properties.* Nonconforming uses and properties must be registered with the city within six months of the official action making such a use or property nonconforming. City staff shall make all reasonable and good faith efforts to notify property owners when the use or property becomes nonconforming through official city action. Property owners are responsible for knowing the legal status of the property over which such owner has care, custody or control. Property owners are responsible for such registration, and failure of city staff to notify the owners of the nonconforming status of the property does not negate the registration requirement or the burden to so register upon the property owner.

(1) Upon failure to file the registration within the designated six-month time period, the nonconforming use lapses and the nonconforming use of the property must terminate. City staff shall maintain as a public record the nonconforming use registry;

(2) Any nonconforming structure, including a fence over legal height, obstruction, sign, junkyard and automobile salvage or storage yard, billboard, landfill, or fenced outdoor commercial or industrial storage area shall be removed after a period of five years after the effective date of registration;

(3) The board of adjustment shall, after the five-year period has elapsed, provide notice and a hearing to the affected property owner and to all properties within 200 feet of the affected property. The purpose of the hearing is to determine whether an order of termination shall be issued;

(4) The board of adjustment may extend the amortization period at any time upon application of the affected property owner upon establishment that the amortization period deprives the owner of all or substantial economic use of the property as set forth in the procedures herein, including appeals of determinations of automatic termination due to the failure to register;

(5) The burden is on the party seeking to continue to maintain the nonconforming use, such proof to include, but not be limited to, the following:

a. Prior existence of the use before the effective date of the change in regulations that render the use nonconforming;

b. The use was lawful when established;

c. The use has been lawfully continued from its inception;

(6) Contradictory, insufficient or incomplete evidence may be the basis to sustain a denial of the right to maintain a nonconforming use.

(b) *Termination/amortization of certain nonconforming uses.*

(1) *Determination of need for expedited compliance.*

a. The city council, upon its own motion or upon the written request of any affected person, may discontinue a nonconforming use or structure. The city council shall determine whether there is a public necessity for expedited compliance with the applicable zoning district regulations. The following factors shall be considered by the city council in determining the public necessity for expedited compliance:

1. The character of the surrounding neighborhood;

2. The degree of incompatibility of the use or structure to the zoning district in which it is located; and

3. The effect of the nonconforming use or structure on the surrounding area and the effect of its cessation on that area.

b. If the city council finds that there is not a public necessity for expedited compliance with the zoning district regulations, it may choose to reevaluate the current zoning to determine if it is appropriate for the property on which the use or structure is located.

(2) *Determination of amortization period.*

a. If the city council passes a resolution under subsection (b)(1) of this section for expedited compliance with the zoning district regulations, the board of adjustment shall, in accordance with these provisions and any order of the city council, determine an amortization period for the nonconforming use whereby the owner's actual investment in the use before the time that the use became nonconforming can be amortized within a definite time period;

b. Notice of the hearing before the board of adjustment shall be given to the owner of the property as listed in the most recent property or deed records of the county in which the property is located and to all property owners within 200 feet of the affected property. The notice shall be by certified mail, return receipt requested, by U.S. Postal Service signature delivery or personal service. If the certified mail is returned refused or unclaimed, notice shall be deemed delivered. The hearing shall be not less than 30 days after the date of notice of

such hearing. A copy of the amortization formula shall accompany the notice letter, or a listing of the factors to be considered by the board of adjustment. The notice shall also contain notice that the burden is on the property owner to bring forth sufficient evidence to establish the right to continue the nonconforming use or the factors to determine the amortization period;

c. The following factors must be considered by the board of adjustment in determining the amortization period:

1. The owner's capital investment in structures, fixed equipment and other assets (excluding inventory and other assets feasibly transferred to another site) on the property before the time the use became nonconforming. The owner's capital investment in property shall be calculated based upon the recoupment of the owner's actual cost in such property, as opposed to the full value, market value or replacement value;

2. Any costs that are directly attributable to the establishment of a compliance date, including demolition expenses, relocation expenses, termination of leases and discharge of mortgages existing prior to the nonconforming status;

3. Any return on investment since inception of the use, including net income and depreciation;

4. The anticipated annual recovery of investment, including net income and depreciation;

d. The amortization formula may consider past depreciation of the structures or the ability to move the structures to another location. The formula need not consider appreciation of land value, improvements or profit from an advantageous acquisition of the property;

e. The board of adjustment may use the advice or services of city staff, or outside professionals if approved by the city council, to calculate the amortization period;

f. Evidence necessary for the determination of the amortization period shall be provided by the owner. The board is authorized to compel the production of additional information and consider additional information in making its determination.

(c) *City council action.* Once the board of adjustment determines the amortization period for a nonconforming use, it shall submit such finding to the city council, and, upon notice to the owner and hearing, the city council may:

(1) Establish a compliance date for full amortization of the nonconforming structure; or

(2) Order a compliance date which is prior to the full amortization of the investment and determine what compensation, if any, is appropriate; or

(3) Modify or rescind its resolution for expedited compliance and issue orders consistent therewith.

(d) *Compliance requirement.* If a compliance date for a nonconforming use is established by the city council, the use shall cease operations on that date and it may not operate thereafter unless it becomes a conforming use. If the city council establishes a compliance date for a nonconforming structure, the structure shall be demolished or made conforming by the compliance date. Any appeals of the decision of the city council shall be to a court of competent jurisdiction.
(Code 1996, ch. 14, exh. 14A, art. VI, § 6)

Sec. 74-197. Right to proceed.

Nothing contained in this article is intended to alter any rights that may have accrued to proceed under prior regulations, pursuant to V.T.C.A., Local Government Code §§ 43.002 and 245.001 through 245.006.
(Code 1996, ch. 14, exh. 14A, art. VI, § 7)

Secs. 74-198—74-217. Reserved.

ARTICLE VII. BUILDING PERMITS, CERTIFICATES OF OCCUPANCY AND COMPLIANCE

Sec. 74-218. Building permits required.

(a) No building or other structure shall be erected, moved, added to, or structurally altered without a building permit issued by the city building official or designee. A building permit shall not be issued except in conformity with the provisions of this chapter and section 50-4, unless otherwise authorized by the zoning board of adjustment in the form of a variance or special exception as provided in section 74-137. A building permit shall not be issued until the property is properly zoned for the intended use, until the property is platted in accordance with the subdivision regulations in chapter 72, nor until all appropriate plans have been approved by the city (including, but not limited to, a preliminary plat, a detailed plot plan, a final site plan, landscaping and façade plans, building structural plans, etc.).

(b) Plans for any permanent structure to be constructed or otherwise located within the city must be approved by the building official or designee, who, upon approval, shall issue a building permit. A complete application for a building permit shall contain details of foundation and the structure that is sufficient to determine compliance with the city's adopted building codes. Upon submission of a complete application, the building official or designee shall review it for compliance and shall issue a building permit if compliance with all applicable city building codes, with this chapter, and with the subdivision regulations in chapter 72 is verified. After issuance of a building permit and prior to issuance of a

certificate of occupancy, the building official or designee shall conduct inspections on, including, but not limited to, foundation, plumbing, electrical and framing, to determine compliance with city-adopted building codes.
(Code 1996, ch. 14, exh. 14A, art. VII, § 1)

Sec. 74-219. Cancellation of building permit.

Failure of an applicant or any of the applicant's agents, representatives or contractors to erect, construct, reconstruct, alter, use or maintain any building, structure or premises in conformance with the approved plans upon which a building permit was issued, when such failure constitutes a violation of any provision of this chapter, shall render such building permit void, and the building official or designee is authorized and directed to revoke any such permit by giving written notice to the applicant or agent or representative, and all work upon such building, structure or premises shall be immediately discontinued until such building, structure or premises shall be brought into conformance with the approved plans and with all applicable provisions of this chapter.
(Code 1996, ch. 14, exh. 14A, art. VII, § 2)

Sec. 74-220. Certificate of occupancy.

(a) *Required.*

(1) Except as exempted in the adopted International Residential Code (IRC), the International Building Code (IBC) and the North Central Texas Council of Governments (NCTCOG) amendments, a certificate of occupancy shall be required for any of the following:

a. Occupancy and use of a building hereafter erected or structurally altered;

b. Change in use of an existing building to a different use;

c. Change in the use of land to a different use; and

d. Any change in the use of a nonconforming use;

(2) No such use, or change of use, shall take place until a certificate of occupancy therefor shall have been issued by the building official or designee.

(b) *Record on file.* A record of all certificates of occupancy shall be kept on file in the building official or designee's office, and copies shall be furnished upon request to any person in accordance with state laws governing public records.

(c) *Procedure for new or altered buildings.* Written application for a certificate of occupancy for a new building or for an existing building that is to be altered shall be made at the same time as the application for the building permit for such building. After submittal of the written application and payment of any required fee as adopted by ordinance and provided in the city's fee schedule, the certificate shall be issued after the building official or designee orders the building or structure inspected and finds no violations of the provisions of this chapter or other regulations that are enforced by the building official or designee. The

certificate shall be issued by the building official or designee, after the erection or alteration of such building or part thereof has been completed in conformity with all applicable provisions of this chapter, and any applicable regulations and ordinances of the city.

(d) *Procedure for vacant land or a change in building use.* Written application for a certificate of occupancy for the use of vacant land, a change in the use of land or a change in the use of a building, or for a change from a nonconforming use to a conforming use, shall be made to the building official or designee. If the proposed use is a conforming use, as herein provided, written application shall be made to the building official or designee. If the proposed use is found to be in conformity with the provisions of this chapter and other applicable provisions of this Code, the certificate of occupancy shall be issued after the application for same has been made and all required inspections are completed and approved by the building official or designee, within ten days following receipt of the application and payment of all applicable fees.

(e) *Contents of certificate.* Every certificate of occupancy shall contain the following, and it shall be maintained by the building official:

(1) The building permit number; and

(2) The address of the building; and

(3) The name and address of the owner; and

(4) A description of that portion of the building for which the certificate is issued; and

(5) A statement that the described portion of the building has been inspected for compliance with the requirements of this Code, including specifically the city building and fire codes, for the particular group and division of occupancy; and

(6) The name of the building official or designee; and

(7) Uses allowed; and

(8) The maximum number of persons/occupants; and

(9) The issue date of certificate of occupancy; and

(10) Any other information as may be required by the public information provisions of V.T.C.A., Government Code § 552.001 et seq.

(f) *Posting of certificates.* The property owner or occupant shall post the certificate of occupancy in a conspicuous place on the premises, and the certificate of occupancy shall not be removed except by the building official or designee.

(g) *Revocation of certificates.* The building official or designee may, in writing, suspend or revoke a certificate of occupancy issued under the provisions of this chapter whenever the certificate is issued in error, or on the basis of incorrect information supplied, or when it is determined that the building or structure or portion thereof is in violation of any ordinance or regulation or any of the provisions of this chapter or the building code and other codes adopted by the city, and any amendments thereto.

(h) *Certificates for nonconforming uses.* No later than 180 days after the adoption of the ordinance from which this chapter is derived, the city manager shall cause designee to survey all properties within the jurisdiction of the city and notify property owners of nonconforming uses and buildings. Thereafter, a certificate of occupancy shall be required for all lawful nonconforming uses of land or buildings created by adoption of the ordinance from which this chapter is derived. Application for such certificate of occupancy for a nonconforming use shall be filed with the building official or designee by the owner or occupant of the structure or land that is occupied by the nonconforming use within one year (i.e., 365 calendar days) following the effective date of the ordinance from which this chapter is derived. It shall be the duty of the building official or designee to issue a certificate of occupancy for a lawful nonconforming use upon receipt of application for same, but failure to apply for such certificate for a nonconforming use (i.e., by the owner or occupant of the premises) shall be evidence that the nonconforming use was either illegal or did not lawfully exist as of the effective date of the ordinance from which this chapter is derived.
(Code 1996, ch. 14, exh. 14A, art. VII, § 3)

Sec. 74-221. Completion of buildings in progress.

Nothing contained herein shall require any change in the plans, construction or designated use of a building, the foundation for which has been completely constructed as of the effective date of the ordinance from which this chapter is derived, and the remaining construction of which shall have been completed within one year (i.e., 365 calendar days) following the effective date of the ordinance from which this chapter is derived. In addition, any nonresidential building or structure for which a building permit has been approved by the city not more than one year (i.e., 365 calendar days) prior to the effective date of the ordinance from which this chapter is derived may be constructed according to the terms of that building permit.
(Code 1996, ch. 14, exh. 14A, art. VII, § 4)

Secs. 74-222—74-250. Reserved.

ARTICLE VIII. CONCEPT PLAN AND SITE PLAN REVIEW PROCESSES

Sec. 74-251. Purpose.

This article establishes a site plan review process for proposed planned development requests, specific use permit requests, nonresidential, mixed-use and other higher density residential developments. The purpose of the review is to ensure efficient and safe land development, harmonious use of land, compliance with the comprehensive plan and other appropriate design standards, safe and efficient vehicular and pedestrian circulation, adequate parking and loading, and adequate water supply, drainage and stormwater management, sanitary facilities, coverage and other utility services.
(Code 1996, ch. 14, exh. 14A, art. VIII, § 1)

Sec. 74-252. Applicability.

(a) Site plan review and approval shall be required for all nonresidential, mixed-use, townhouse, single-family attached, and multifamily residential projects, and for all planned development district or specific use permits.

(b) No building permit shall be issued for any of the developments described in subsection (a) of this section until a site plan and all other required engineering/construction plans are first approved by the city. No certificate of occupancy shall be issued until all construction and development conforms to the site plan and engineering/construction plans, as approved by the city. The site plan review process shall include up to four steps:

(1) Pre-application conference between applicant and city staff; and

(2) Concept plan review (voluntary, except for planned developments or specific use permits); and

(3) Site plan and other associated plan (i.e., preliminary plat, engineering plans) review; and

(4) Final plat review and approval; and

(5) Construction of project (after city approval of all required plats and plans).

(Code 1996, ch. 14, exh. 14A, art. VIII, § 2)

Sec. 74-253. Exemptions and exceptions.

Site plan review shall not be required for single-family (detached) or two-family residential developments, unless the proposed subdivision will include a private amenity or facility comprised of one or more buildings (such as a private recreation/swimming facility, clubhouse, etc.) or a golf course, unless the proposed subdivision will have private (not public) streets. In these instances, site plan submission and approval (in accordance with this article) will be required for the project, including the private amenity or facility, the golf course clubhouse/hospitality area, and the gated (restricted access) entrances.

(Code 1996, ch. 14, exh. 14A, art. VIII, § 3)

Sec. 74-254. Site plan submission requirements.

(a) An application for concept plan (voluntary except for planned developments or specific use permits) or site plan approval shall be comprised of the following (all required items/information must be received by the city manager or designee in order for a concept plan or site plan application to be considered complete (see section 74-256); incomplete submissions will not be reviewed until all deficient items and information have been received):

(1) An application, provided by the city, with notarized signatures of the owner or designated representative if the applicant is not the owner of the subject property;

(2) Filing fee;

(3) Verification that all taxes and assessments on the subject property have been paid (see section 74-255);

(4) Copies of the concept plan or site plan (on a 24-inch by 36-inch sheet, and drawn to a known engineering scale that is large enough to be clearly legible), and other required information, the quantity of which shall be determined by the city manager or designee;

(5) Reduced copies (11-inch by 17-inch or smaller) of the site plan as required by the city manager or designee;

(6) Landscaping and irrigation plans (with site plan; not required with concept plan), the quantity of which shall be determined by the city manager or designee;

(7) Building façade (elevation) plans (with site plan; not required with concept plan) drawn to scale, the quantity of which shall be determined by the city manager or designee;

(8) Any additional information/materials (such as plans, maps, exhibits, legal description of property, information about proposed uses, etc.) as deemed necessary by the city manager or designee in order to ensure that the development request is understood;

(9) If the application is for a single-family subdivision, a land study may qualify as a site plan, notwithstanding other information contained herein that may still be deemed as required with the application.

(Code 1996, ch. 14, exh. 14A, art. VIII, § 4)

Sec. 74-255. Payment of all indebtedness attributable to subject property.

No person who owes delinquent taxes, fees, delinquent paving assessments, impact fees, or any other delinquent debts or obligations to the city, and which are directly attributable to a piece of property, shall be allowed to submit an application for concept plan or site plan until the taxes, fees, assessments, debts, or obligations directly attributable to the property and owed by the owner or previous owner thereof shall have been first fully paid, or until an arrangement satisfactory to the city has been made for the payment of such debts or obligations. It shall be the applicant's responsibility to provide evidence or proof that all taxes, debts and obligations have been paid.

(Code 1996, ch. 14, exh. 14A, art. VIII, § 5)

Sec. 74-256. Official submission date and completeness of application.

For the purpose of this article, the official submission date shall be the date upon which a complete application for approval of a concept plan or site plan (that contains all elements and information required by this article) is submitted to the city manager or designee, as provided by section 74-135(e).

(Code 1996, ch. 14, exh. 14A, art. VIII, § 6)

Sec. 74-257. Supplemental requirements.

The city manager may require other information and data for specific concept plans or site plans. This data may include, but is not limited to, geologic information, water yields, flood data and/or hydrological studies, environmental information, traffic impact analysis, road capacities, market information, economic data for the proposed development, hours of operation, elevations and perspective drawings, lighting, and similar information. approval of a concept plan or site plan may establish conditions for construction based upon such information.
(Code 1996, ch. 14, exh. 14A, art. VIII, § 7)

Sec. 74-258. Principles and standards for review and evaluation.

The following criteria have been set forth as a guide for evaluating the adequacy of proposed development within the city, and to ensure that all developments are, to the best extent possible, constructed according to the city's adopted codes and ordinances:

(1) The city manager or designee shall review the concept plan or site plan for compliance with all applicable provisions of this Code and with the comprehensive plan; for harmony with surrounding uses and with long-range plans for the future development of the city; for the promotion of the health, safety, order, efficiency, and economy of the city; and for the maintenance of property values and the general welfare;

(2) Concept plan or site plan review and evaluation by the city manager or designee shall be performed with respect to the following:

a. The plan's compliance with all provisions of this chapter and provisions of other applicable chapters of this Code;

b. The impact of the development relating to the preservation of existing natural resources on the site and the impact on the natural resources of the surrounding properties and neighborhood;

c. The relationship of the development to adjacent uses in terms of harmonious design, façade treatment, setbacks, building materials, maintenance of property values, and any possible negative impacts;

d. The provision of a safe and efficient vehicular and pedestrian circulation system;

e. The design and location of off-street parking and loading facilities to ensure that all such spaces are usable and are safely and conveniently arranged;

f. The sufficient width and suitable grade and location of streets designed to accommodate prospective traffic and to provide access for firefighting and emergency equipment to buildings;

g. The coordination of streets so as to arrange a convenient system consistent with the thoroughfare plan of the city;

h. The use of landscaping and screening to provide adequate buffers to shield lights, noise, movement, or activities from adjacent properties when necessary, and to complement and integrate the design and location of buildings into the overall site design;

i. Exterior lighting to ensure safe movement and for security purposes, which shall be arranged so as to minimize glare and reflection upon adjacent properties;

j. The location, size, accessibility, and configuration of open space areas to ensure that such areas are suitable for intended recreation and conservation uses;

k. Protection and conservation of soils from erosion by wind or water or from excavation or grading;

l. Protection and conservation of watercourses and areas that are subject to flooding;

m. The adequacy of water, drainage, sewerage facilities, solid waste disposal, and other utilities necessary for essential services to residents and occupants;

n. Consistency with the comprehensive master plan of the city as adopted or amended.

(Code 1996, ch. 14, exh. 14A, art. VIII, § 8)

Sec. 74-259. Approval process and revisions.

(a) *Pre-application conference.*

(1) The applicants should avail themselves of the advice and assistance of the city officials and should consult early and informally with the city manager, the building official, the city planner, the city engineer, and other applicable administrative officers before preparing a concept plan (a voluntary plan, except for planned developments or specific use permits) or a site plan in order to save time, money and to avoid potential unnecessary delays;

(2) Prior to formal application for approval of any concept plan or site plan, the applicants shall request and attend a pre-application conference with the city manager or designee, the city planner, the city engineer, the building official, and any other pertinent city officials in order to become familiar with the city's development regulations and the development process. At the pre-application conference, the developer may be represented by an attorney, land planner, engineer, agent or surveyor.

(b) *City staff review.* Upon official submission of a complete application for concept plan or site plan approval, the city shall commence technical review of the development proposal by forwarding a copy of the application to development review committee (DRC) (such as the city manager, community development director, municipal services director, city planner, building official, police chief, fire chief, etc.). The DRC shall review the application and shall ascertain its compliance with these and other applicable city regulations. Following DRC

and other city staff review of the plan and supporting documents and following discussions with the applicant on any revisions deemed advisable and the kind and extent of improvements to be installed, the applicant shall resubmit additional copies of the corrected plan to the city manager or designee no later than seven calendar days prior to the commission meeting. Failure to resubmit corrected copies of the plan back to the city in time shall be cause for the city manager or designee to forward the plan application to the commission as it was originally submitted rather than the corrected version (corrected copies of the plan resubmitted to the city less than seven days prior to the meeting date shall not be accepted or forwarded to the commission). If, upon resubmission of the corrected plan to the city, the city manager or designee determines that the application is still incomplete or not correct (i.e., not ripe for consideration), the plan application shall be subject to denial.

(c) *Action by the planning and zoning commission and the city council.*

(1) All concept plan and site plan applications shall be reviewed by the planning and zoning commission, and, if in conformance with the provisions of this chapter and all other applicable regulations and codes of the city, they shall then be considered for approval by the city council;

(2) The city manager, or designee, shall schedule consideration of the concept plan or site plan on the regular agenda of the planning and zoning commission in a timely manner after the submission is received (or, in the case of an incomplete submission, after the submission is deemed complete). The commission shall review the concept plan or site plan and shall recommend approval, approval subject to certain conditions, or disapproval of the concept plan or site plan;

(3) If the commission recommends approval (with or without conditions) of the plan, then it will be forwarded to the city council for consideration. If the commission recommends disapproval of a plan application, the commission shall state such disapproval and the reasons therefor;

(4) The applicant or property owner may appeal such decision to city council by filing a written notice of appeal in the office of the city manager or designee no later than ten calendar days after the date upon which the commission denied the application. The notice of appeal shall set forth in clear and concise fashion the basis for the appeal;

(5) The city council shall consider the appeal at a public meeting no later than 30 calendar days after the date upon which the notice of appeal was filed. The city council may change the decision of the commission by vote of three-fourths majority of the full city council. The city council may also, where appropriate, remand the concept plan or site plan application back to the commission for reconsideration if it believes that there is a compelling reason to do so (such as the introduction of significant new facts or testimony, etc.). The city council shall determine final approval or disapproval of all concept plan or site plan applications.

(d) *Revisions to the approved site plan.*

(1) *Minor revisions/amendment.* It is recognized that final architectural and engineering design may necessitate minor changes in the approved site plan. In such cases, the city manager or designee, after review and comments from the city planner, shall have the authority to approve minor modifications to an approved site plan (which shall be submitted as an amended site plan which substantially conforms to the previously approved site plan), provided that such modifications do not significantly change traffic circulation, building locations on the site, or proximity of buildings to nearby residential areas, increase the size or height of buildings, or change any other conditions specifically attached as part of the city council's approval of the site plan. Submission materials and requirements for approval of an amended site plan shall be as determined by the city manager or designee;

(2) *Major revisions.* In the event of revisions that are more extensive in nature (i.e., do not conform to the description for minor amendments in subsection (d)(1) of this section), a revised site plan must be resubmitted, reviewed by the city manager or designee, and reconsidered by the commission and the city council in accordance with the procedures set forth in this section.

(Code 1996, ch. 14, exh. 14A, art. VIII, § 9)

Sec. 74-260. Lapse of concept plan or site plan approval.

The approval of a concept plan or site plan shall be effective for a period of six months (i.e., 180 calendar days) beyond the date that the plan was approved by the city council except as provided herein. By 12:01 a.m. on the 181st day following council approval of the plan, the applicant must have completed a city-required progress benchmark, as set forth below. If this is not accomplished, then the approved concept plan or site plan shall be deemed to have expired and shall become null and void. The series of progress benchmarks for a project, pursuant to the provisions of this section, are as follows:

Approved Plan	*Next Progress Benchmark*
Concept plan	Approval of the final site plan (per this chapter), and voluntary, except approval of the preliminary plat (per subdivision regulations in chapter 72) and with PDs and SUPs continued active engineering review of the engineering/construction plans (which were submitted along with the preliminary plat and final site plan)
Site plan	Engineering release and commencement of construction of public improvements, and application for a building permit for at least one of the buildings on the approved site plan, within six months following approval of the site plan

(Code 1996, ch. 14, exh. 14A, art. VIII, § 10)

Sec. 74-261. Extension and reinstatement procedure.

(a) Prior to the lapse of approval for a concept plan or site plan, the applicant may petition the city, in writing, to extend the plan approval. The petition shall be considered at a public meeting before the commission and then city council, and an extension may be granted by

city council at such meeting. If no petition for extension of concept plan or site plan approval is submitted, then the plan shall be deemed to have expired and shall become null and void. Any new request for concept plan or site plan approval shall be deemed a new project; shall be submitted with a new application form, with a new filing fee, and with new plans and materials in accordance with the procedures set forth in this section; and shall be reviewed for compliance with the ordinances and regulations in effect at the time the new application is made.

(b) In no instance shall more than one extension be considered or granted for a concept plan or site plan.

(c) In determining whether to grant a request for extension, the city council shall take into account the reasons for the lapse, the ability of the property owner to comply with any conditions attached to the original approval, and the extent to which development regulations would apply to the concept plan or site plan at that point in time. The commission and city council shall either extend the concept plan or site plan or deny the request, in which instance the originally approved plan shall be deemed null and void. The property owner must thereafter submit a new concept plan or site plan application for approval as a new project and shall conform to the zoning and development regulations then in effect.
(Code 1996, ch. 14, exh. 14A, art. VIII, § 11)

Sec. 74-262. Concept plan requirements.

(a) *Applicability.*

(1) Submission and approval of a concept plan (a voluntary plan except for planned development or specific use zoning requests) can be the first step in the approval process for a development project (either residential or nonresidential) if the applicant prefers to do so. City review and approval of a concept plan has many benefits for both the city and the applicant. The applicant benefits in that the applicant gains preliminary review and scrutiny (as well as input and suggestions) on the overall conceptual layout of the proposed development from the city's DRC. Approval of a concept plan may also offer the applicant some level of confidence that subsequent plan submissions will be favorably received and approved with few major changes to the project's design and layout, provided that the project complies with city regulations. For example, once the site plan and preliminary plat (and corresponding engineering plans) are submitted for a nonresidential project, unforeseen changes in site layout can prove to be expensive in terms of design and engineering costs and time lost due to major plan revisions. The city benefits in that it is allowed to become familiar with and involved in the project early in the development process (which is particularly important for large-scale developments and subdivisions). This allows the city to plan for and closely coordinate the provision of public facilities

and services, thereby potentially avoiding future problems, such as undersized utility lines, inadequate roadway capacities, unanticipated shortfalls in public services, and fiscal inefficiencies resulting from lack of planning and coordination;

(2) Submission and approval of a concept plan is mandatory for a zoning request for a planned development or specific use permit. Submission and approval of a concept plan is encouraged (but not required) in the following circumstances:

a. In conjunction with a zoning or rezoning request for a property that is intended for development; or

b. Prior to submission of an application for a site plan (and preliminary plat) for a property that is intended for development (particularly large land parcels); or

c. In conjunction with any project where a road is to be established or realigned.

(b) *Purpose.* The purpose of a concept plan is to allow opportunity for the planning and zoning commission and city council to preview various development-related aspects of the project, including proposed major thoroughfare and collector street patterns; land use patterns and trends; environmental issues and constraints; building orientation and massing; conformance to the comprehensive plan, this chapter (if the subject property is within the city's corporate limits), subdivision regulations in chapter 72, future land use plan, thoroughfare plan and other applicable plans and guidelines; and the property's relationship to adjoining subdivisions or properties. Review of a concept plan would also assist the city in evaluating the possible impacts of the proposed development in terms of provision of essential public facilities and services, respecting and preserving important natural features and the environment, provision of open space and recreational opportunities, and protecting the general health, safety and welfare of the community.

(c) *Extent of area that should be included in a concept plan.* When the overall development project is to be developed in phases, the concept plan area shall include the entire zoned property from which the phases are being developed, as well as an approximate development schedule. When significant natural or human-made features, such as thoroughfares or creeks, make inclusion of the entire property in the concept plan unnecessary to adequately review the items to be shown on a concept plan, the plan may include a smaller study area. Boundaries, such as major thoroughfares (existing or proposed), creeks, political subdivisions, or other such natural or human-made features, may be used to delineate the smaller study area.

(d) *Procedures and submission requirements for concept plan approval.* Submission of an application for concept plan approval shall be preceded by a pre-application conference with the city staff (see section 74-259(a)). The concept plan shall be prepared by a qualified civil engineer, land planner, architect or surveyor, at a scale no smaller than one inch equals 200 feet and on sheets 24 inches by 36 inches, and it shall show the following:

(1) A title block within the lower right-hand corner of the concept plan with the proposed name of the project/subdivision, the name and address of the owner/developer and the land planner, engineer, architect or surveyor responsible for the design or survey,

the scale of the drawing (both written and graphic scale), the date the drawing was prepared, total site acreage, and the location of the property according to the abstract and survey records of Dallas or Ellis County, whichever is appropriate;

(2) A vicinity or location map that shows the location of the proposed development within the city (or its ETJ) and in relationship to existing roadways;

(3) The boundary survey limits of the tract and scale distances with north clearly indicated;

(4) The names of adjacent subdivisions (or the name of the owners of record and recording information for adjacent parcels of unplatted land), including parcels on the other sides of roads, creeks, etc. The concept plan shall include a depiction of all contiguous holdings of the property owners, the existing/proposed uses of the subject property, a general arrangement of future land uses, including the approximate number of lots and any residential uses anticipated, and a generalized circulation plan for the subject property;

(5) The existing zoning and existing/proposed uses on adjacent land; the location, width and names of all existing or platted streets or other public ways within or adjacent to the tract; any existing easements (with recording information, width and purpose); existing buildings; railroad rights-of-way; topography (contours at five-foot intervals) with existing drainage channels or creeks (including the 100-year floodplain, if applicable); any other important natural features (such as rock outcroppings, caves, wildlife habitats, etc.); all substantial natural vegetation; and adjacent political subdivisions, corporate limits, or school district boundaries;

(6) Proposed strategies for tree preservation (showing individual trees or tree masses that will be preserved, and the techniques that will be used to protect them during construction);

(7) The layout and width (right-of-way lines) of existing and proposed thoroughfares, collector streets or intersections, and a general configuration of proposed streets, lots and blocks, including proposed median openings and left turn lanes on future divided roadways (existing and planned driveways on the opposite side of divided roadways must also be shown for coordination and sharing of future median openings);

(8) A general arrangement of land uses and buildings, including, but not limited to, proposed nonresidential and residential densities; building heights, square footages, massing, orientation, loading/service areas, recycling containers, compactors and dumpster enclosures, pedestrian walkways, and parking areas; any proposed sites for parks, schools, public facilities, public or private open space; floodplains/drainageways; and other pertinent development-related features; and

(9) The phasing of development (the anticipated order of development for the overall property).

(e) *Effect of review.*

(1) The concept plan shall be used only as an aid to show the anticipated layout of the proposed development, and to assess the adequacy of public facilities or services that will be needed to serve the proposed development. Any proposed use or development depicted on the concept plan shall not be deemed formal authorization or approval by the city until a final site plan is approved for the development (concept plan approval is to be thought of as a general acknowledgment by the city that the proposed layout generally conforms to the city's zoning regulations, and that the proposed development can be adequately served by required public facilities or services). If the applicant chooses to construct only the initial phases of a multi-phase project designated in the concept plan, a new concept plan may be required for site plan approval of subsequent phases, if the proposed development layout, character, or other conditions affecting the development substantially change from one phase to the next;

(2) The approved concept plan shall be valid for a period of six months (i.e., 180 calendar days) from the date of concept plan approval by city council.

(Code 1996, ch. 14, exh. 14A, art. VIII, § 12)

Sec. 74-263. Site plan review.

(a) *Applicability and purpose.* Submission and city approval of a site plan is required as stated in section 74-254. The purpose of final site plan approval is to ensure that a development project is in compliance with all applicable provisions of this Code and guidelines prior to commencement of construction. Approval of the site plan, preliminary plat, landscape plan, building façade plan, and engineering plans are required prior to site construction.

(b) *Extent of area that should be included in a site plan.* When the overall development project is to be developed in phases, the site plan area shall include only the portion of the overall property that is to be developed/constructed.

(c) *Procedures and submission requirements for site plan approval.*

(1) Submission of an application for site plan approval shall be preceded by a pre-application conference with the city staff. The site plan shall be prepared by a qualified civil engineer, land planner, architect or surveyor, at a scale no smaller than one inch equals 100 feet and on sheets 24 inches by 36 inches and 11 inches by 17 inches, and it shall clearly show in detail how the site will be constructed (such as paving, buildings, landscaped areas, utilities, etc.). The site plan shall include, but not be limited to, the following:

a. A title block within the lower right-hand corner of the site plan with the proposed name of the project/subdivision, the name, address and telephone number of the owner/developer and the land planner, engineer, architect or surveyor responsible for the plan, the scale of the drawing (both written and

graphic scale), the date the drawing was prepared, total site acreage, and the location of the property according to the abstract and survey records of Dallas or Ellis County, whichever is appropriate;

b. A vicinity or location map (at a scale of no less than one inches equals 1,000 feet) that shows the location of the proposed development within the city (or its ETJ) and in relationship to existing roadways;

c. The boundary survey limits of the tract (and each proposed lot) and scale distances with north clearly indicated;

d. The names of adjacent additions or subdivisions (or, if individually owned, the name of the owners of record and recording information for adjacent parcels of platted or unplatted land), including parcels on the other sides of roads, creeks, etc.;

e. The existing zoning and existing/proposed uses on adjacent land; the location, width and names of all existing or platted streets or other public ways within or adjacent to the tract; any existing easements (with recording information, width and purpose); existing buildings; railroad rights-of-way; topography (contours at two-foot intervals) with existing drainage channels or creeks (including the 100-year floodplain, if applicable); any other important natural features (such as rock outcroppings, caves, wildlife habitats, etc.); and all substantial natural vegetation;

f. Proposed strategies for tree preservation (showing individual trees or tree masses that will be preserved, and the techniques that will be used to protect them during construction), as further provided by this chapter;

g. The layout and width (right-of-way lines and curblines) of existing and proposed thoroughfares, collector streets or intersections, and specific configuration of proposed streets, lots and blocks, proposed driveways (show driveway widths and distances between driveways), and proposed median openings and left turn lanes on future divided roadways (existing and planned driveways on the opposite side of divided roadways must also be shown for coordination and sharing of future median openings);

h. Specific locations and footprints of buildings, including, but not limited to, proposed nonresidential and residential densities; building heights, square footages (for multi-tenant or multi-purpose buildings, show square footage for each intended use), massing, orientation, loading/service areas (including proposed screening), recycling containers, compactors and dumpster enclosures (including proposed screening), pedestrian walkways, and parking areas (including parking ratio calculations); any proposed sites for parks, schools, public facilities, public or private open space; floodplains/drainageways; all proposed and existing utilities and easements; drainage structures; retention/detention

ponds with proposed aesthetic treatments; screening walls; fences; signage; fire lanes and fire hydrants; lighting; visibility easements; and other pertinent development-related features;

i. A landscape plan showing turf areas, tree types and sizes, screening walls, ornamental plantings, planting schedule (including species, planted height, spacing, container/caliper size, numbers of each plant material, etc.), any existing wooded areas, trees to be planted, and irrigation plans (if required), as further provided by this chapter; and

j. Building façade (elevation) plans showing elevations with any attached (wall-mounted) signage to be used, as determined appropriate by the city manager or designee;

(2) Permit of the items set forth in subsection (c)(1) of this section shall conform to the principles and standards of this chapter and the comprehensive master plan. To ensure the submission of adequate information, the city is empowered to maintain and distribute a separate list of specific requirements for site plan review applications. Upon periodic review, the city manager or designee shall have the authority to update such requirements for site plan and development review applications. It is the applicant's responsibility to be familiar with, and to comply with, these requirements.

(d) *Effect of review.* The site plan shall be considered authorization to proceed with construction of the site provided all other required city approvals are obtained (such as preliminary plat, engineering plans, landscape plan, building façade plans, building permits, etc.). The approved site plan shall be valid for a period of six months (i.e., 180 calendar days) from the date of approval by the city council.
(Code 1996, ch. 14, exh. 14A, art. VIII, § 13)

Secs. 74-264—74-289. Reserved.

ARTICLE IX. ZONING DISTRICTS

Sec. 74-290. Established.

The city is divided into the following zoning districts. The use, height and lot area regulations, and other standards, as set out herein, apply to each district, as set out in this section. The districts established herein shall be known as:

Abbreviated Designation	*Zoning District Name*
Base Districts	
A	Agricultural
SF-E	Single-Family Estate Residential (minimum 40,000-square-foot lots)
SF-1	Single-Family Residential-1 (minimum 20,000-square-foot lots)

Abbreviated Designation	*Zoning District Name*
SF-2	Single-Family Residential-2 (minimum 12,000-square-foot lots)
SF-3	Single-Family Residential-3 (minimum 9,000-square-foot lots)
O	Office
NS	Neighborhood Service
R	Retail
TC	Town Center Commercial
C	Commercial
I	Industrial
Provisional Districts	
SF-4	Single-Family Residential-4 (minimum 7,500-square-foot lots)
SF-PH	Single-Family Residential-Patio Home (zero-lot-line homes)
MF	Multifamily Residential
MH	Manufactured Home
Overlay Districts	
PD	Planned Development
PD-ED	Planned Development-Economic Development
SUP	Specific Use Permit
Obsolete Districts	
SF-5	Single-Family Residential-5 (minimum 5,500-square-foot lots)
BP	Business Park
HC	Highway Commercial

(Code 1996, ch. 14, exh. 14A, art. IX, § 1)

Sec. 74-291. Zoning classifications; regulations and purposes.

(a) *A Agricultural District.*

(1) *General purpose and description.* The A Agricultural District provides for the use of land for farming, ranching, gardening and similar uses of vacant land. Single-family uses on large lots are also appropriate for this district. When land in the A district is needed for urban purposes, it is anticipated the zoning will be changed to the appropriate zoning districts to provide for orderly growth and development in accordance with the comprehensive master plan. This district shall serve as the interim zoning district for any land annexed into the city until such time as it is zoned in accordance with the provisions herein;

(2) *Permitted uses.* Those uses listed for the A district in section 74-352 as "X" (permitted) or "S" (specific use permit) are authorized uses permitted by right or specially permitted uses, respectively. Special permitted uses must be approved utilizing procedures set forth in section 74-293(d);

(3) *Maximum height.* Maximum height standards for the A district are as follows:

a. 2½ stories or 35 feet for the main building/house;

b. 45 feet for uninhabited agricultural structures (e.g., barns, silos, water towers, etc.), provided they are no closer than 100 feet from any residential structure on the premises, and they are set back at least 100 feet or three times their height (whichever is greater) from any front, side or rear property line;

c. 15 feet for other accessory buildings, including detached garage, garden shed, accessory dwelling units, etc.;

d. Other requirements as set forth in section 74-418(i);

(4) *Area regulations.* Area regulations for the A district are as follows:

a. Size of lots:

1. Minimum lot area: three acres;

2. Minimum lot width: 250 feet;

3. Minimum lot depth: 200 feet;

b. Size of yards:

1. Minimum front yard: 50 feet;

2. Minimum side yard: 15 percent of the lot width, but need not exceed 50 feet; 25 feet from a street right-of-way line for a corner lot;

3. Minimum rear yard: 40 feet;

c. Maximum lot coverage: 15 percent for main buildings and accessory buildings;

d. Minimum lot access: No lot shall have less than 35 feet access measured at the right-of-way line;

(5) *Parking regulations.* Parking regulations in the A district are as follows:

a. Single-family dwelling unit: A minimum of two enclosed, attached or detached, parking spaces no less than 24 feet by 24 feet, on the same lot as the main structure, plus two additional parking spaces on a paved driveway having a minimum length of 55 feet as measured from ten feet interior of any paved or improved public surface (i.e., roadway, sidewalk);

b. Other: See article XIV of this chapter;

(6) *Minimum floor area.* Minimum floor area per dwelling unit in the A district is as follows: 2,250 square feet. Minimum dwelling unit areas specified shall be computed exclusive of breezeways, garages, open porches, carports and accessory buildings;

(7) *Minimum exterior construction standards.* Minimum exterior construction standards in the A district are as follows:

a. Masonry: See section 74-293(c)(10)a ;

b. Roof pitch: See section 74-293(c)(10)f.5;

c. Roofing systems: See section 74-293(c)(10)f;

d. Chimney design: See section 52-2;

(8) *Mailboxes.* Standards for mailboxes in the in the A district are as follows: See section 52-23;

(9) *Accessory buildings.* Accessory buildings in the A district are as follows: See section 52-24;

(10) *Driveways.* Driveway standards in the A district are as follows:

a. In A districts, circle driveways are permitted with front yard setbacks of 30 feet or more and where the driveway is a minimum of 15 feet from the front door;

b. All other driveway requirements are found in section 52-25;

(11) *Sidewalks.* Sidewalk standards in the A district are as follows: See section 52-26;

(12) *Lighting.* Lighting standards in the A district are as follows: See section 56-60(s);

(13) *Special requirements.* Special requirements in the A district are as follows: See section 52-27;

(14) *Other regulations.* Other regulations in the A district are as follows: As established by articles XIII, XIV, and XV of this chapter and subdivision regulations in chapter 72.

(b) *SF-E Single-Family Estate Residential District.*

(1) *General purpose and description.* The SF-E Single-Family Estate Residential District is intended to provide for development primarily composed of single-family detached dwellings on larger lots that are not less than 40,000 square feet in size. Areas zoned for the SF-E district shall have, or shall make provision for, city water and sewer services. They shall be designed to adequately accommodate storm drainage; they shall have paved concrete streets with logical and efficient vehicular circulation patterns that discourage non-local traffic; they shall be properly buffered from nonresidential uses; and they shall be protected from pollution and undesirable environmental and noise impacts;

(2) *Permitted uses.* Those uses listed for the SF-E district in section 74-352 as "X" (permitted) or "S" (specific use permit) are authorized uses permitted by right or specially permitted uses, respectively. Special permitted uses must be approved utilizing procedures set forth in section 74-293(d);

(3) *Maximum height.* Maximum height standards for the SF-E district are as follows:

a. 2½ stories, or 35 feet for the main building/house;

b. 15 feet for other accessory buildings, including detached garage, garden shed, accessory dwelling units, etc.;

c. Other requirements (see section 74-418(i));

(4) *Area regulations.* Area regulations for the SF-E district are as follows:

a. Size of lots:

1. Minimum lot area: 40,000 square feet; maximum density one dwelling unit per acre;

2. Minimum lot width: 140 feet;

3. Minimum lot depth: 140 feet;

b. Size of yards:

1. Minimum front yard: 40 feet;

2. Minimum side yard: 25 feet; 25 feet measured from a street right-of-way line for a corner lot;

3. Minimum rear yard: 40 feet;

c. Maximum lot coverage: 25 percent for the main building; 50 percent for the main building and any accessory buildings, driveways and parking areas combined;

d. Minimum lot access: No lot shall have less than 35 feet access measured at the right-of-way line;

(5) *Parking regulations.* Parking regulations in the SF-E district are as follows:

a. Single-family dwelling unit: A minimum of two enclosed, attached or detached, parking spaces no less than 24 feet by 24 feet, on the same lot as the main structure, plus two additional parking spaces on a paved driveway having a minimum length of 30 feet as measured from ten feet interior of any paved or improved public surface (i.e., roadway, sidewalk);

b. Other: See article XIV of this chapter;

(6) *Minimum floor area.* Minimum floor area per dwelling unit in the SF-E district is as follows per dwelling unit: 3,500 square feet. Minimum dwelling unit areas specified shall be computed exclusive of breezeways, garages, open porches, carports and accessory buildings;

(7) *Minimum exterior construction standards.* Minimum exterior construction standards in the SF-E district are as follows:

a. Masonry: See section 74-293(c)(10)a ;

b. Roof pitch: See section 74-293(c)(10)f.5;

c. Roofing systems: See section 74-293(c)(10)f;

d. Chimney design: See section 52-2;

(8) *Mailboxes.* Standards for mailboxes in the in the SF-E district are as follows: See section 52-23;

(9) *Accessory buildings.* Accessory buildings in the SF-E district are as follows: See section 52-24;

(10) *Driveways.* Driveway standards in the SF-E district are as follows:

a. In SF-E districts, circle driveways are permitted with front yard setbacks of 25 feet or more and where the driveway is a minimum of ten feet from the front door;

b. All other driveway requirements are found in section 52-25;

(11) *Sidewalks.* Sidewalk standards in the SF-E district are as follows: See section 52-26;

(12) *Lighting.* Lighting standards in the SF-E district are as follows: See section 56-60(s);

(13) *Special requirements.* Special requirements in the SF-E district are as follows: See section 52-27;

(14) *Other regulations.* Other regulations in the SF-E district are as follows: As established by articles XIII, XIV, and XV of this chapter and subdivision regulations in chapter 72.

(c) *SF-1 Single-Family Residential-1 District.*

(1) *General purpose and description.* The SF-1 Single-Family Residential-1 District is intended to provide for development and be composed of primarily low-density single-family detached dwellings on lots that are not less than 20,000 square feet in size. Areas zoned for the SF-1 district shall have, or shall make provision for, city water and sewer services. They shall be designed to adequately accommodate storm drainage; they shall have paved concrete streets with logical and efficient vehicular circulation patterns that discourage non-local traffic; they shall be properly buffered from nonresidential uses; and they shall be protected from pollution and undesirable environmental and noise impacts;

(2) *Permitted uses.* Those uses listed for the SF-1 district in section 74-352 as "X" (permitted) or "S" (specific use permit) are authorized uses permitted by right or specially permitted uses, respectively. Special permitted uses must be approved utilizing procedures set forth in section 74-293(d);

(3) *Maximum height.* Maximum height standards for the SF-1 district are as follows:

a. 2½ stories, or 35 feet for the main building/house;

b. 15 feet for other accessory buildings, including detached garage, garden shed, accessory dwelling units, etc.;

c. Other requirements (see section 74-418(i));

(4) *Area regulations.* Area regulations for the SF-1 district are as follows:

a. Size of lots:

1. Minimum lot area: 20,000 square feet; maximum density two dwelling units per acre;

2. Minimum lot width: 125 feet;

3. Minimum lot depth: 140 feet;

b. Size of yards:

1. Minimum front yard: 35 feet;

2. Minimum side yard: 15 feet; 25 feet from a street right-of-way line for a corner lot;

3. Minimum rear yard: 30 feet;

c. Maximum lot coverage: 35 percent for the main building; 50 percent for the main building and any accessory buildings, driveways and parking areas combined;

d. Minimum lot access: No lot shall have less than 35 feet access measured at the right-of-way line;

(5) *Parking regulations.* Parking regulations in the SF-1 district are as follows:

a. Single-family dwelling unit: A minimum of two enclosed, attached parking spaces no less than 24 feet by 24 feet, on the same lot as the main structure, plus two additional parking spaces on a paved driveway having a minimum length of 30 feet as measured from ten feet interior of any paved or improved public surface (i.e., roadway, sidewalk);

b. Other: See article XIV of this chapter;

(6) *Minimum floor area.* Minimum floor area per dwelling unit in the SF-1 district is as follows per dwelling unit: 2,700 square feet. Minimum dwelling unit areas specified shall be computed exclusive of breezeways, garages, open porches, carports and accessory buildings;

(7) *Minimum exterior construction standards.* Minimum exterior construction standards in the SF-1 district are as follows:

a. Masonry: See section 74-293(c)(10)a ;

b. Roof pitch: See section 74-293(c)(10)f.5;

c. Roofing systems: See section 74-293(c)(10)f;

d. Chimney design: See section 52-2;

(8) *Mailboxes.* Standards for mailboxes in the in the SF-1 district are as follows: See section 52-23;

(9) *Accessory buildings.* Accessory buildings in the SF-1 district are as follows: See section 52-24;

(10) *Driveways.* Driveway standards in the SF-1 district are as follows: See section 52-25;

(11) *Sidewalks.* Sidewalk standards in the SF-1 district are as follows: See section 52-26;

(12) *Lighting.* Lighting standards in the SF-1 district are as follows: See section 56-60(s);

(13) *Special requirements.* Special requirements in the SF-1 district are as follows: See section 52-27;

(14) *Other regulations.* Other regulations in the SF-1 district are as follows: As established by articles XIII, XIV, and XV of this chapter and subdivision regulations in chapter 72.

(d) *SF-2 Single-Family Residential-2 District.*

(1) *General purpose and description.* The SF-2 Single-Family Residential-2 District is intended to provide for development and be composed of low-density single-family detached dwellings on lots that are not less than 12,000 square feet in size. Areas zoned for the SF-2 district shall have or shall make provision for city water and sewer services. They shall be designed to adequately accommodate storm drainage; they shall have paved concrete streets with logical and efficient vehicular circulation patterns that discourage non-local traffic; they shall be properly buffered from nonresidential uses; and they shall be protected from pollution and undesirable environmental and noise impacts;

(2) *Permitted uses.* Those uses listed for the SF-2 district in section 74-352 as "X" (permitted) or "S" (specific use permit) are authorized uses permitted by right or specially permitted uses, respectively. Special permitted uses must be approved utilizing procedures set forth in section 74-293(d);

(3) *Maximum height.* Maximum height standards for the SF-2 district are as follows:

a. 2½ stories, or 35 feet for the main building/house;

b. 15 feet for other accessory buildings, including detached garage, garden shed, accessory dwelling units, etc.;

c. Other requirements (see section 74-418(i));

(4) *Area regulations.* Area regulations for the SF-2 district are as follows:

a. Size of lots:

1. Minimum lot area: 12,000 square feet; also, the minimum average lot area shall be 13,500 square feet in order to provide diversity in lot sizes within each SF-2 neighborhood; maximum density three dwelling units per acre;

2. Minimum lot width: 85 feet;

3. Minimum lot depth: 120 feet;

b. Size of yards:

1. Minimum front yard: 30 feet;

2. Minimum side yard: ten feet for interior side yard; 25 feet from a street right-of-way line for a corner lot;

3. Minimum rear yard: 20 feet;

c. Maximum lot coverage: 35 percent for the main building; 50 percent for the main building and any accessory buildings, driveways and parking areas combined;

d. Minimum lot access: No lot shall have less than 35 feet access measured at the right-of-way line;

(5) *Parking regulations.* Parking regulations in the SF-2 district are as follows:

a. Single-family dwelling unit: A minimum of two enclosed parking spaces no less than 24 feet by 24 feet, on the same lot as the main structure, plus two additional parking spaces on a paved driveway having a minimum length of 30 feet as measured from ten feet interior of any paved or improved public surface (i.e., roadway, sidewalk);

b. Other: See article XIV of this chapter;

(6) *Minimum floor area.* Minimum floor area per dwelling unit in the SF-2 district is as follows per dwelling unit: 2,000 square feet; also, the minimum average floor area shall be 2,200 square feet in order to provide diversity in house sizes within each SF-2 neighborhood;

(7) *Minimum exterior construction standards.* Minimum exterior construction standards in the SF-2 district are as follows:

a. Masonry: See section 74-293(c)(10)a ;

b. Roof pitch: See section 74-293(c)(10)f.5;

c. Roofing systems: See section 74-293(c)(10)f;

d. Chimney design: See section 52-2;

(8) *Mailboxes.* Standards for mailboxes in the in the SF-2 district are as follows: See section 52-23;

(9) *Accessory buildings.* Accessory buildings in the SF-2 district are as follows: See section 52-24;

(10) *Driveways.* Driveway standards in the SF-2 district are as follows: See section 52-25;

(11) *Sidewalks.* Sidewalk standards in the SF-2 district are as follows: See section 52-26;

(12) *Lighting.* Lighting standards in the SF-2 district are as follows: See section 56-60(s);

(13) *Special requirements.* Special requirements in the SF-2 district are as follows: See section 52-27;

(14) *Other regulations.* Other regulations in the SF-2 district are as follows: As established by articles XIII, XIV, and XV of this chapter and subdivision regulations in chapter 72.

(e) *SF-3 Single-Family Residential-3 District.*

(1) *General purpose and description.* The SF-3 Single-Family Residential-3 District is intended to provide for development of and be composed of primarily single-family detached dwellings on smaller and more compact lots of not less than 9,000 square feet. Areas zoned for the SF-3 district shall have, or shall make provision for, city water and sewer services. They shall be designed to adequately accommodate storm

drainage; they shall have paved concrete streets with logical and efficient vehicular circulation patterns that discourage non-local traffic; they shall be properly buffered from nonresidential uses; and they shall be protected from pollution and undesirable environmental and noise impacts;

(2) *Permitted uses.* Those uses listed for the SF-3 district in section 74-352 as "X" (permitted) or "S" (specific use permit) are authorized uses permitted by right or specially permitted uses, respectively. Special permitted uses must be approved utilizing procedures set forth in section 74-293(d);

(3) *Maximum height.* Maximum height standards for the SF-3 district are as follows:

a. 2½ stories, or 35 feet for the main building/house;

b. 15 feet for other accessory buildings, including detached garage, garden shed, accessory dwelling units, etc.;

c. Other requirements (see section 74-418(i));

(4) *Area regulations.* Area regulations for the SF-3 district are as follows:

a. Size of lots:

1. Minimum lot area: 9,000 square feet; also, the minimum average lot area shall be 11,000 square feet in order to provide diversity in lot sizes within each SF-3 neighborhood; maximum density 3½ dwelling units per acre;

2. Minimum lot width: 70 feet;

3. Minimum lot depth: 120 feet;

b. Size of yards:

1. Minimum front yard: 30 feet;

2. Minimum side yard: eight feet for interior side yard; 15 feet for a corner lot on a residential or collector street; 25 feet for a corner lot on an arterial street;

3. Minimum rear yard: 20 feet;

c. Maximum lot coverage: 40 percent for the main building; 60 percent for the main building and any accessory buildings, driveways and parking areas combined;

d. Minimum lot access: No lot shall have less than 35 feet access measured at the right-of-way line;

(5) *Parking regulations.* Parking regulations in the SF-3 district are as follows:

a. Single-family dwelling unit: A minimum of two enclosed, attached parking spaces no less than 24 feet by 24 feet, on the same lot as the main structure, plus two additional parking spaces on a paved driveway having a minimum length of 30 feet as measured from ten feet interior of any paved or improved public surface (i.e., roadway, sidewalk);

b. Other: See article XIV of this chapter;

(6) *Minimum floor area.* Minimum floor area per dwelling unit in the SF-3 district is as follows per dwelling unit: 1,750 square feet; also, the minimum average floor area shall be 1,850 square feet in order to provide diversity in house sizes within each SF-3 neighborhood;

(7) *Minimum exterior construction standards.* Minimum exterior construction standards in the SF-3 district are as follows:

a. Masonry: See section 74-293(c)(10)a ;

b. Roof pitch: See section 74-293(c)(10)f.5;

c. Roofing systems: See section 74-293(c)(10)f;

d. Chimney design: See section 52-2;

(8) *Mailboxes.* Standards for mailboxes in the in the SF-3 district are as follows: See section 52-23;

(9) *Accessory buildings.* Accessory buildings in the SF-3 district are as follows: See section 52-24;

(10) *Driveways.* Driveway standards in the SF-3 district are as follows: See section 52-25;

(11) *Sidewalks.* Sidewalk standards in the SF-3 district are as follows: See section 52-26;

(12) *Lighting.* Lighting standards in the SF-3 district are as follows: See section 56-60(s);

(13) *Special requirements.* Special requirements in the SF-3 district are as follows: See section 52-27;

(14) *Other regulations.* Other regulations in the SF-3 district are as follows: As established by articles XIII, XIV, and XV of this chapter and subdivision regulations in chapter 72.

(f) *O Office District.*

(1) *General purpose and description.* The O Office District is established to provide an appropriate setting for low intensity office and professional uses, such as for the use of land on which two-story garden office buildings can be constructed. The O district can be used as a transition district between residential uses and more intense uses, and, with appropriate buffers and landscaping, this district may be located in close proximity to residential districts. Permitted uses should be compatible with adjacent residential areas by limiting heights to one or two stories and shall not include uses that create excessive amounts of traffic, noise, trash or late-night business operations. Traffic generated by uses in this district shall not be designed or encouraged to travel through residential areas. Adaptive reuse of existing structures is encouraged. Buildings in this district should be compatible and similar in scale with residential uses and adjacent property;

(2) *Permitted uses.* Those uses listed for the O district in section 74-352 as "X" (permitted) or "S" (specific use permit) are authorized uses permitted by right or specially permitted uses, respectively. Special permitted uses must be approved utilizing procedures set forth in section 74-293(d);

(3) *Maximum height.* Maximum height standards for the O district are as follows:

a. Two stories or 35 feet for the main buildings;

b. One story for accessory buildings;

c. Other (see section 74-418(i));

(4) *Area regulations.* Area regulations for the O district are as follows:

a. Size of lots:

1. Minimum lot area: 6,000 square feet; 12,000 square feet on Interstate 35 and other regional thoroughfare frontage;

2. Minimum lot width: 60 feet, except 120 feet along Interstate 35 and other regional thoroughfare frontage;

3. Minimum lot depth: 100 feet;

b. Size of yards:

1. Minimum front yard: 30 feet from ultimate right-of-way line of roadway; 50 feet from ultimate right-of-way line on Interstate 35 and other regional thoroughfare frontage; all yards adjacent to a street shall be considered a front yard (see section 74-418(5) for additional setback requirements);

2. Minimum side and rear yard: 20 feet, plus one foot for every foot in height over 15 feet adjacent to a residentially zoned or use of property (see below);

3. Interior side yards: The interior side yard setback between two nonresidential buildings may be reduced to zero feet where the two buildings share a common interior lot line, where construction of a party wall in accordance with the city's building codes is used, and when approved by the city council on the site plan following a favorable recommendation by the planning and zoning commission. When such a reduced side yard setback is utilized, the equivalent open space and landscape plantings and buffers that are normally required along a shared side property boundary shall be provided elsewhere on each respective affected lot (i.e., shall not be waived, just provided somewhere else). Approval of a site plan that shows such a reduced zero-foot side yard setback between two nonresidential buildings shall be discretionary in nature and shall be based upon an analysis of the location, the configuration, and the impact and compatibility of the proposed construction with respect to adjacent land uses and structures;

c. Maximum lot coverage: 50 percent, including main and accessory buildings; maximum 80 percent impervious coverage (including all buildings, parking areas, sidewalks, etc.);

d. Minimum lot access: No lot shall have less than 35 feet access measured at the right-of-way line;

e. Maximum floor area ratio (FAR): 1:1;

f. Maximum building size: The maximum building footprint (first floor) area of a structure shall be determined and limited by applying the lot's size, minimum building setbacks, maximum of 50 percent lot coverage, minimum parking requirement, minimum landscaping percentage and areas, and other pertinent development requirements.

(5) *Parking requirements.* Parking requirements in the O district are as follows: As established by article XIV of this chapter;

(6) *Building material.* Building material standards in the O district are as follows: See section 52-24;

(7) *Special district requirements.* Special district requirements in the O district are as follows:

a. Driveway spacing: See section 52-58;

b. Swimming pools: See section 52-60;

c. Lighting: See section 52-24;

d. Site plan review: See section 52-61;

e. Landscaping requirements: See chapter 58;

f. Screening requirements: See chapter 58;

g. Long-term or permanent open storage and temporary or permanent outside display of merchandise and seasonal items are prohibited;

(8) *Building façade plans (elevations).* Building façade plans in the O district are as follows: See section 52-62;

(9) *Specific on-site storage.* Specific on-site storage in the O district is prohibited as follows: See section 52-63;

(10) *Signs.* Sign standards in the O district are as follows: See chapter 66;

(11) *Other regulations.* Other regulations in the O district are as follows: See articles XIII, XIV, and XV of this chapter and standards established in the subdivision regulations in chapter 72.

(g) *NS Neighborhood Service District.*

(1) *General purpose and description.* The NS Neighborhood Service District provides a district for retail use which provides limited local neighborhood, low intensity retail and service facilities for the retail sales of goods and services to surrounding

residential uses. These shopping areas shall utilize established landscape and buffering requirements. The NS district should be located along or at the intersection of major collectors or thoroughfares to accommodate higher traffic volumes, but it can also act as a buffer against residential areas;

(2) *Permitted uses.* Those uses listed for the NS district in section 74-352 as "X" (permitted) or "S" (specific use permit) are authorized uses permitted by right or specially permitted uses, respectively. Special permitted uses must be approved utilizing procedures set forth in section 74-293(d);

(3) *Maximum height.* Maximum height standards for the NS district are as follows:

a. Two stories or 35 feet for the main buildings;

b. One story for accessory buildings;

c. Other (section 74-418(i));

(4) *Area regulations.* Area regulations for the NS district are as follows:

a. Size of lot:

1. Minimum lot area: 10,000 square feet, or a minimum of 6,000 square feet on a collector or local/residential street with a specific use permit;

2. Minimum lot width: 60 feet;

3. Minimum lot depth: 100 feet;

b. Size of yards:

1. Minimum front yard: 30 feet from ultimate right-of-way line of roadway; all yards adjacent to a street shall be considered a front yard (see section 74-418(5) for additional setback requirements);

2. Minimum side and rear yard: 15 feet unless adjacent to a residentially zoned or use of property (see subsection (g)(4)b.3 of this section);

3. Minimum side or rear yard adjacent to a residential district: 20 feet for one-story building, and an additional one feet for every one foot (or fraction thereof) above one story in height;

4. The interior side yard setback between two nonresidential buildings may be reduced to zero feet where the two buildings share a common interior lot line, where construction of a party wall in accordance with the city's building codes is used, and when approved by the city council on the site plan following a favorable recommendation by the planning and zoning commission. Where such a reduced side yard setback is utilized, the equivalent open space and landscape plantings and buffers that are normally required along a shared side property boundary shall be provided elsewhere on each respective affected lot (i.e., shall not be waived, just provided somewhere else). Approval of a site plan that shows such a reduced zero-foot side yard setback between two nonresidential buildings

shall be discretionary in nature and shall be based upon an analysis of the location, the configuration, and the impact and compatibility of the proposed construction with respect to adjacent land uses and structures;

c. Maximum lot coverage: 50 percent, including main and accessory buildings; maximum 80 percent impervious coverage (including all buildings, parking areas, sidewalks, etc.);

d. Maximum floor area ratio (FAR): 0.5:1;

e. Maximum building size: The maximum building footprint (first floor) area of a structure shall be determined and limited by applying the lot's size, minimum building setbacks, maximum of 50 percent lot coverage, minimum parking requirement, minimum landscaping percentage and areas, and other pertinent development requirements;

(5) *Parking requirements.* Parking requirements in the NS district are as follows: As established by section XIV of this chapter;

(6) *Building material.* Building material standards in the NS district are as follows: See section 52-24;

(7) *Special requirements.* Special requirements in the NS district are as follows:

a. Driveway spacing: See section 52-58;

b. Lighting: See section 52-24;

c. Site plan review: See section 52-61;

d. Landscaping requirements: See chapter 58;

e. Screening requirements: See chapter 58;

f. Temporary outside display: Temporary (i.e., not long-term or permanent) outside display of seasonal items (e.g., Christmas trees, pumpkins, landscape vegetation, etc.) shall be allowed, but limited to, the following:

1. A permit from the city is required for each seasonal display;

2. The display in any of the parking spaces that are required by this chapter for the primary uses of the property is prohibited. Additional parking spaces or improved surface, constructed for the purpose of temporary outside display, shall be specifically identified on the required site plan and shall be clearly and distinctively marked (i.e., different paint color) as a designated display area;

3. Temporary outside display located in the designated parking spaces shall be surrounded by a temporary fence (i.e., materials such as wood and cinder block);

4. Merchandise shall not pose a safety or visibility hazard, nor impede public vehicular or pedestrian circulation, either on site or off site, in any way;

5. At no time shall public rights-of-way, pedestrian walkways or adjacent properties be obstructed by display merchandise;
6. All merchandise shall be displayed in an orderly manner, and the display area shall be maintained in a clean, litter-free manner;

g. Long-term or permanent open storage: Long-term or permanent open storage is prohibited;

(8) *Building façade plans (elevations).* Building façade plans (elevations) in the NS district are as follows: See section 52-62;

(9) *Specific on-site storage.* Specific on-site storage in the NS district is prohibited as follows: See section 52-63;

(10) *Signs.* Sign standards in the NS district are as follows: See chapter 66;

(11) *Other regulations.* Other regulations in the NS district are as follows: See articles XIII, XIV, and XV of this chapter and standards established in the subdivision regulations in chapter 72.

(h) *R Retail District.*

(1) *General purpose and description.* The R Retail District is established to provide for retail areas and service facilities serving a neighborhood or several neighborhoods and designed as a retail center. These shopping areas should utilize established landscape and buffering requirements. The retail district should be located along or at the intersection of major collectors or thoroughfares to accommodate higher traffic volumes;

(2) *Permitted uses.* Those uses listed for the R district in section 74-352 as "X" (permitted) or "S" (specific use permit) are authorized uses permitted by right or specially permitted uses, respectively. Special permitted uses must be approved utilizing procedures set forth in section 74-293(d);

(3) *Maximum height.* Maximum height standards for the R district are as follows:

a. Two stories or 35 feet for the main buildings;

b. One story for accessory buildings;

c. Other (section 74-418(i));

(4) *Area regulations.* Area regulations for the R district are as follows:

a. Size of lot:

1. Minimum lot area: 43,560 square feet or one acre, or a minimum of 10,000 square feet on a collector or local/residential street only with a specific use permit;
2. Minimum lot width: 100 feet, except 150 feet along Interstate 35 or other regional major thoroughfare frontage;
3. Minimum lot depth: 100 feet;

b. Size of yards:

1. Minimum front yard: 30 feet from ultimate right-of-way line of roadway on all roadways; all yards adjacent to a street shall be considered a front yard (see section 74-418(5) for additional setback requirements);

2. Minimum side and rear yard: 20 feet unless adjacent to a residentially zoned or use of property;

3. Minimum side or rear yard adjacent to a residential district: 25 feet for one-story building, and an additional one foot for every one foot (or fraction thereof) above one story in height;

4. Interior side yards: The interior side yard setback between two nonresidential buildings may be reduced to zero feet where the two buildings share a common interior lot line, where construction of a party wall in accordance with the city's building codes is used, and when approved by the city council on the site plan following a favorable recommendation by the planning and zoning commission. Where such a reduced side yard setback is utilized, the equivalent open space and landscape plantings and buffers that are normally required along a shared side property boundary shall be provided elsewhere on each respective affected lot (i.e., shall not be waived, just provided somewhere else). Approval of a site plan that shows such a reduced zero-foot side yard setback between two nonresidential buildings shall be discretionary in nature and shall be based upon an analysis of the location, the configuration, and the impact and compatibility of the proposed construction with respect to adjacent land uses and structures;

c. Maximum lot coverage: 50 percent, including main and accessory buildings; maximum 80 percent impervious coverage (including all buildings, parking areas, sidewalks, etc.);

d. Maximum floor area ratio (FAR): 1:1;

e. Maximum building size: The maximum building footprint (first floor) area of a structure shall be determined and limited by applying the lot's size, minimum building setbacks, maximum of 50 percent lot coverage, minimum parking requirement, minimum landscaping percentage and areas, and other pertinent development requirements;

(5) *Parking requirements.* Parking requirements in the R district are as follows: As established by section XIV of this chapter;

(6) *Building materials.* Building materials in the R district are as follows: See section 52-24;

(7) *Special requirements.* Special requirements in the R district are as follows:

a. Driveway spacing: See section 52-58;

b. Lighting: See section 52-24;

c. Site plan review: See section 52-61;

d. Landscaping requirements: See chapter 58;

e. Screening requirements: See chapter 58;

f. Temporary outside display: Temporary (i.e., not long-term or permanent) outside display of seasonal items (e.g., Christmas trees, pumpkins, landscape vegetation, etc.) shall be allowed, but limited to, the following:

1. A permit from the city is required for each seasonal display;

2. Displays in any of the parking spaces that are required by this chapter for the primary uses of the property is prohibited. Additional parking spaces or improved surface constructed for the purpose of temporary outside display shall be specifically identified on the required site plan and shall be clearly and distinctively marked (i.e., different paint color) as a designated display area;

3. Temporary outside displays located in the designated parking spaces shall be surrounded by a temporary fence (i.e., materials such as wood and cinder block);

4. Merchandise shall not pose a safety or visibility hazard, nor impede public vehicular or pedestrian circulation, either on site or off site, in any way;

5. At no time shall public rights-of-way, pedestrian walkways or adjacent properties be obstructed by display merchandise;

6. All merchandise shall be displayed in an orderly manner, and the display area shall be maintained in a clean, litter-free manner;

g. Long-term or permanent outside display: Long-term or permanent outside display area shall be allowed if the following criteria are followed:

1. All display merchandise shall be limited to the area in front of the main building between the fire lane and the front building façade. In the event the subject project has multiple entrances (i.e., multiple front façades), only one side shall be allowed to have outside display;

2. The amount of display area shall not exceed 60 percent of the front façade of the main building, exclusive of doors, windows and driveways;

3. Display merchandise shall not encroach into the fire lane, parking lot/spaces, walkways, rights-of-way or roadways;

4. Merchandise shall not pose a safety or visibility hazard, nor impede public vehicular or pedestrian circulation, either on site or off site, in any way, nor obstruct any designated fire lane;

5. All merchandise shall be displayed in a neat, orderly manner, and the display area shall be maintained in a clean, litter-free manner;

h. Long-term or permanent open storage:

1. Long-term or permanent open display and storage shall require the application for, approval of and issuance of a specific use permit (SUP) in accordance with section 74-293(d). A maximum of five percent of the total lot area may be designated for long-term, permanent open storage and shall be screened from public view, shall not be located on top of the building. Screening for long-term, permanent open storage shall conform to the following:

(i) Open display and storage for merchandise, such as garden supplies, landscape vegetation, lawn mowers, building materials, etc., requires an extension of the masonry wall of the front façade and, at a minimum, chain-link fencing and solar screening with masonry columns. The masonry columns shall be a minimum of 30 feet apart and are required on the sides exclusive of the front façade and the wall adjacent to the main structure. Also, the screening of chain-link fencing and solar screening is inclusive of the roof. The storage area, as an extension of the main building, is at least the same height as the product to be screened but extending no higher than the roof of the main building and constructed to one side of the main building. Solar screening shall be maintained in good condition. No tarps or other fabric-like screening shall be allowed. No merchandise from this area shall be placed outside the open storage area. The required site plan shall reflect the open storage area with a detailed description of building materials;

(ii) In the event this open display and storage area abuts a similar nonresidential district or is not visible from any public right-of-way or the general public, the planning and zoning commission and city council, upon proper request by applicant, may consider a proposal for less screening;

2. Long-term, permanent open storage of shopping carts requires a designated area, identified in the required site plan, adjacent to and made a part of the main building. The designated area shall be along the front façade of the project and be screened from public view by an approved masonry wall, not to exceed four feet in height, and may include an ornamental feature reaching above the wall. The ornamental feature may take the form of a waterfall, live vegetation, lighting or other items that enhance the beauty of the main building and, for purposes of the safety of the general public, does not entirely block the view from persons inside and outside the open storage area. The designated open storage area is not to be confused with the various shopping cart cages (temporary storage) located in the parking lot for the convenience of the customers;

i. Additional open storage behind the main building: Open storage may also be allowed behind the main building, but in no instance shall the storage be visible from any public street or adjacent property. Screening in accordance with the provisions of article XII of this chapter is required;

(8) *Building façade plans (elevations).* Building façade plans (elevations) in the R district are as follows: See section 52-62;

(9) *Specific on-site storage.* Specific on-site storage in the R district is prohibited as follows: See section 52-63;

(10) *Signs.* Sign standards in the R district are as follows: See chapter 66;

(11) *Other regulations.* Other regulations in the R district are as follows: See articles XIII, XIV, and XV of this chapter and standards established in the subdivision regulations in chapter 72.

(i) *TC Town Center.*

(1) *General purpose and description.* The TC Town Center District is available only for use as a planned development district, requirements of which are set forth in subsection (i)(2) of this section, and only within the area zoned for the town center. The standards of the town center base district, as well as the permitted uses, shall remain in effect unless requested, amended and approved at the time of application. The development standards in the TC district are designed to maintain and encourage the development of a downtown area of the city in a pedestrian-friendly environment that is conducive to special events, such as sidewalk sales, street dances, festivals, and other similar events. Standards are generally intended to regulate development such that this district becomes the focal point of the city. The Town Center District is premised upon the development and promotion of a pedestrian-oriented and community-friendly area with an architectural style of the 1920s-Style Town Center (as depicted on Illustration A, attached to the ordinance from which this section is derived and made a part of this chapter by reference);

(2) *Permitted uses.* Those uses listed for the TC district in section 74-352 as "X" (permitted) or "S" (specific use permit) are authorized uses permitted by right or specially permitted uses, respectively. Special permitted uses must be approved utilizing procedures set forth in section 74-293(d);

(3) *Maximum height.* Maximum height standards for the TC district are as follows:

a. Two stories or 35 feet for the main buildings;

b. One story for accessory buildings;

c. Other (section 74-418(i));

(4) *Area regulations.* Area regulations for the TC district are as follows:

a. Size of lot:

1. Minimum lot area: none specified;

2. Minimum lot width: none specified;

3. Minimum lot depth: none specified;

b. Size of yards:

1. Minimum front yard: to accommodate sidewalks with a minimum width of eight feet from the back of the street curb to the front of the building;

2. Minimum side yard: zero feet if next to another town center district building, or shall match the required front yard setback if on a street or alley corner;

3. Minimum rear yard: 25 feet;

c. Maximum lot coverage: 65 percent, including main and accessory buildings;

d. Maximum floor area ratio (FAR): 1:1;

(5) *Design standards for the TC district.* In combination with the design standards set out below, the city requires development within the TC district to meet the architectural style of 1920s-Style Town Center as depicted on Illustration A, attached to the ordinance from which this section is derived and made a part of this chapter by reference:

a. Building massing and scale: A building's massing is its exterior volume and its scale is the relationship of its overall size and its component parts with its adjoining buildings, spaces and people:

1. A building's massing shall:

(i) Relate to its site, use and to the massing of adjacent buildings; and

(ii) Serve to define entry points and help orient pedestrians;

2. The scale of individual building façade components shall relate to one another and the human scale, particularly at the street level;

3. Buildings or façades shall emphasize and frame or terminate important vistas;

b. Building rhythm: A building's rhythm is the pattern created by the regular recurrence or alteration of its constituent architectural components:

1. Nonresidential and mixed use buildings shall be used in the town center to the extent practicable;

2. Variations in the rhythms within individual building façades shall be achieved within any block of building façades;

3. Breaks in the predominant rhythm may also be used to reinforce changes in massing and important elements, such as building entrances or pedestrian pass-throughs;

c. Architectural elements: Architectural elements are the individual components of a building, including walls, doors, windows, cornices, parapets, roofs, pediments and other features. Architectural composition is the relationship

between the architectural elements in an individual building. Architectural elements shall be designed to the appropriate scale and proportions of the selected architectural style (i.e., building designs based on an Art Deco style shall utilize architectural elements of a scale and proportion characteristic of that style):

1. Entrances: The design and location of building entrances in the TC district are important to help define the pedestrian environment and create retail- and community-friendly environments:
   (i) Entrances shall be easily identifiable as primary points of access to buildings;
   (ii) Building entrances may be defined and articulated by architectural elements, such as lintels, pediments, pilasters, columns, porticos, porches, overhangs, railings, balustrades and others as appropriate. All building elements should be compatible with the architectural style, materials, colors and details of the building as a whole;
   (iii) Entrances to upper-level uses may be defined and integrated into the design of the overall building façade;
2. Façade treatments: Façade treatments are that portion of a building's elevation façade facing any public street extending from the ground to the roof that consists of a single layer or architectural expression:
   (i) Retail ground floors shall have windows covering a minimum of 40 percent of the major street fronting façades. Other ground level uses shall have façade treatments appropriate to such uses;
   (ii) All sides of a building shall be consistent with respect to style, material, colors and details only to the extent that they establish continuity with the main street-front façade;
   (iii) On façades fronting on service or parking areas and along secondary streets, windows need not be provided at the ground floor level. However, buildings should avoid long, monotonous, uninterrupted walls. Building wall offsets, including projections, recesses, niches, fenestration, or changes of materials or color, shall be used to add architectural variety and interest, and to relieve the visual impact of a blank wall;
   (iv) Parapet and roofline offsets between façades may be provided in order to break down the scale of the block and create architectural interest and variety;
   (v) Architectural elements, such as canopies, awnings, roof and floor overhangs, and colonnades shall be provided as appropriate to protect pedestrians, help unify parts of a building or block, provide human scale, or provide a backdrop for signage and graphics;

3. Storefronts: Retailers located at the street level primarily use storefronts to orient and advertise merchandise to customers:
   (i) Retail buildings shall provide street-level pedestrian-oriented uses at the ground floor level;
   (ii) Storefronts on façade treatments that span multiple tenants shall use architecturally compatible materials, colors, details, awnings, signage and lighting fixtures;
4. Building materials: See section 52-24;

d. Pedestrian network and streetscape:
1. Pedestrian network: Sidewalks are a critical part of pedestrian connectivity in the TC district. In order to enhance the safety of the pedestrian environment, all development in the TC district shall be subject to the following:
   (i) The street network, with its adjoining sidewalks, shall function as the primary pedestrian network;
   (ii) Where necessary, mid-block pedestrian connections from the street to parking lots at the rear of the buildings shall be provided at key points;
   (iii) Pedestrian crosswalks shall be clearly designated and provided at all key street intersections;
   (iv) Sidewalks shall be constructed from the back of curb to the building front or property line;
   (v) Sidewalks shall be a minimum of eight feet measured from the back of the curb to the building façade. That portion of the sidewalk that is free of any obstructions to allow for the passage of pedestrians shall be a minimum of six feet;
2. Streetscape treatment: The following guidelines for streetscape standards are provided in order to create an attractive and animated sidewalk environment; the developer shall propose a well-designed and unified streetscape plan for key streets in the TC district:
   (i) Street trees shall be selected and placed with the approval of the city at the time of site plan submittal, review and consideration;
   (ii) Street trees shall be planted in accordance with the landscape plan proposed by the developer and approved by city council;
   (iii) Street furnishings shall be installed in accordance with a streetscape plan proposed by the developer and approved by city council. Street furnishings may include planting strips, raised planters, trash receptacles, streetlight standards, street signs, way-finding signs, media boxes, seating, public art, water features, fire hydrants, etc.;

(iv) Street furnishings shall be constructed of a long-life, low-maintenance material and shall be the responsibility of the owner;

(6) *Parking requirements.* Parking requirements in the TC district are as follows: One space per 100 square feet of gross floor area, and each use shall provide a minimum of four spaces. On-street parking (parallel or head-in) shall be permitted in this district. Parking shall not be located and designed in such a manner to discourage or conflict with pedestrians. For any use which cannot provide off-street parking due to the size or location of the lot, such parking may be provided on other property not more than 200 feet from the site, in accordance with article XIV of this chapter. In cases where the parking requirement cannot be achieved, up to 25 percent of the parking requirement may be waived by the city council on the site plan, or may be provided as head-in parking spaces or off site with city council approval on the site plan for such an alternative arrangement;

(7) *Special requirements.* Special requirements in the TC district are as follows:

a. Driveway spacing: See section 52-58;

b. Site plan review:

1. Public hearing, review and approval of a site plan by the planning and zoning commission and the city council (in accordance with section 74-259(c)) shall be required for site development and construction of any structure within the TC district. No certificate of occupancy shall be issued unless all construction and development conforms to the site plan as approved by the city council;

2. For site development and construction, building façade (i.e., elevation) plans shall be submitted for review and approval along with the site plan. Façade plans shall clearly show how the buildings will look, especially as viewed from the roads upon which the property faces or sides, and will portray a reasonably accurate depiction of the materials and colors to be used. Architectural style and scale of buildings within the TC district shall be compatible with the styles and scale of other adjacent buildings to create and preserve the unique character of the downtown area;

3. The city manager or designee may, as the city manager deems appropriate, require submission of additional information and materials (possibly actual samples of materials to be used) during the site plan review process;

4. A public hearing is required by the planning and zoning commission and the city council for all site plans within the TC district. Development standards for all uses in the TC district shall be established on the site plan and all supporting information will be required at the time of approval;

c. Utilities: All utility lines to business establishments shall be placed underground;

d. Landscaping requirements: See chapter 58;

e. Screening requirements: See chapter 58;

f. Lighting: See section 52-24;

g. Temporary outside display: Temporary (i.e., not long-term or permanent) outside display of seasonal items (e.g., Christmas trees, pumpkins, live vegetation etc.) shall be allowed, but limited to, the following:

1. A permit from the city is required for each seasonal display;

2. Display merchandise may be placed/located at the front façade of the main building but, at no time, shall display merchandise inhibit pedestrian traffic on the sidewalks, be located in required parking spaces, restrict rights-of-way, or obstruct adjacent properties;

3. Merchandise shall not pose a safety or visibility hazard, nor impede public vehicular or pedestrian circulation, either on site or off site, in any way (i.e., sidewalk sales cannot block the sidewalk or extend out into the street);

4. Merchandise shall only be located in front of the property/business that is selling the items;

5. All outside display items shall be removed at the end of business each day (except for large seasonal items, such as Christmas trees);

6. All merchandise shall be displayed in an orderly manner, and the display area shall be maintained in a clean, litter-free manner;

h. Long-term and permanent open storage: Long-term and permanent open storage is prohibited in the TC district;

(8) *Building façade plans (elevations).* Building façade plans (elevations) in the TC district are as follows: See section 52-62;

(9) *Specific on-site storage.* Specific on-site storage in the TC district is prohibited as follows: See section 52-63;

(10) *Other regulations.* Other regulations in the TC district are as follows: See articles XIII, XIV, and XV of this chapter and standards established in the subdivision regulations in chapter 72.

(j) *C Commercial District.*

(1) *General purpose and description.* The C Commercial District is intended to provide a location for commercial and service-related establishments, such as wholesale product sales, welding/contractor shops, automotive repair services, upholstery shops, region-serving shopping centers with large-scale anchor businesses, and other similar higher intensity retail and commercial uses. Uses in this district may utilize open storage areas that are screened from public view (see chapter 58). Some light manufacturing may also be allowed with certain conditions. The uses envisioned for the district will typically utilize smaller sites and have operation characteristics that

are generally not compatible with residential uses and some nonresidential uses. Convenient access to thoroughfares and collector streets shall also be a primary consideration;

(2) *Permitted uses.* Those uses listed for the C district in section 74-352 as "X" (permitted) or "S" (specific use permit) are authorized uses permitted by right or specially permitted uses, respectively. Special permitted uses must be approved utilizing procedures set forth in section 74-293(d);

(3) *Maximum height.* Maximum height standards for the C district are as follows:

a. Two stories or 35 feet for the main buildings;

b. One story for accessory buildings;

c. Other (section 74-418(i));

(4) *Area regulations.* Area regulations for the C district are as follows:

a. Size of lot:

1. Minimum lot area: one-half acre (21,780 square feet);

2. Minimum lot width: 120 feet;

3. Minimum lot depth: 175 feet;

b. Size of yards:

1. Minimum front yard: 60 feet from ultimate right-of-way line of roadway; all yards adjacent to a street shall be considered a front yard (see section 74-418(5) for additional setback requirements);

2. Minimum side and rear yard: 20 feet unless adjacent to a residentially zoned or use of property (see subsection (j)(4)b.3 of this section);

3. Minimum side or rear yard adjacent to a residential district: 20 feet for a one-story building, and an additional one foot for every one foot (or fraction thereof) above one story in height;

4. Interior side yards: The interior side yard setback between two nonresidential buildings may be reduced to zero feet where the two buildings share a common interior lot line, where construction of a party wall in accordance with the city's building codes is used, and when approved by the city council on the site plan following a favorable recommendation by the planning and zoning commission. Where such a reduced side yard setback is utilized, the equivalent open space and landscape plantings and buffers that are normally required along a shared side property boundary shall be provided elsewhere on each respective affected lot (i.e., shall not be waived, just provided somewhere else). Approval of a site plan that shows such a reduced zero-foot side yard setback between two nonresidential buildings shall be discretionary in nature and shall be based upon an

analysis of the location, the configuration, and the impact and compatibility of the proposed construction with respect to adjacent land uses and structures;

c. Maximum lot coverage: 50 percent, including main and accessory buildings; maximum 80 percent impervious coverage (including all buildings, parking areas, sidewalks, etc.);

d. Minimum lot access: No lot shall have less than 35 feet access measured at the right-of-way;

e. Maximum floor area ratio (FAR): 0.5:1;

f. Minimum building size: The maximum building footprint (first floor) area of a structure shall be determined and limited by applying the lot's size minimum building setbacks, maximum of 50 percent lot coverage, minimum parking requirement, minimum landscaping percentage and areas, and other pertinent development requirements;

(5) *Parking requirements.* Parking requirements in the C district are as follows: As established by article XIV of this chapter;

(6) *Building materials.* Building material standards in the C district are as follows: See section 52-24;

(7) *Special requirements.* Special requirements in the C district are as follows:

a. Driveway spacing: See section 52-58;

b. Lighting: See section 52-24;

c. Site plan review: See section 52-61;

d. Landscaping requirements: See chapter 58;

e. Screening requirements: See chapter 58;

f. Temporary outside display: Temporary (i.e., not long-term or permanent) outside display of seasonal items (e.g., Christmas trees, pumpkins, landscape vegetation, etc.) shall be allowed, but limited to, the following:

1. A permit from the city is required for each seasonal display;

2. The display in any of the parking spaces that are required by this chapter for the primary uses of the property is prohibited. Additional parking spaces or improved surface constructed for the purpose of temporary outside display shall be specifically identified on the required site plan and shall be clearly and distinctively marked (i.e., different paint color) as a designated display area;

3. Temporary outside display located in the designated parking spaces shall be surrounded by a temporary fence (i.e., materials such as wood and cinder block);

4. Merchandise shall not pose a safety or visibility hazard, nor impede public vehicular or pedestrian circulation, either on site or off site, in any way;
5. At no time shall public rights-of-way, pedestrian walkways or adjacent properties be obstructed by display merchandise;
6. All merchandise shall be displayed in an orderly manner, and the display area shall be maintained in a clean, litter-free manner;

g. Long-term or permanent outside display: Long-term or permanent outside display area shall be allowed if the following criteria are followed:

1. All display merchandise shall be limited to the area in front of the main building between the fire lane and the front building façade. In the event the subject project has multiple entrances (i.e., multiple front façades), only one side shall be allowed to have outside display;
2. The amount of display area shall not exceed 60 percent of the front façade of the main building, exclusive of doors, windows and driveways;
3. Display merchandise shall not encroach into the fire lane, parking lot/spaces, walkways, rights-of-way or roadways;
4. Merchandise shall not pose a safety or visibility hazard, nor impede public vehicular or pedestrian circulation, either on site or off site, in any way, nor obstruct any designated fire lane;
5. All merchandise shall be displayed in a neat, orderly manner, and the display area shall be maintained in a clean, litter-free manner;

h. Long-term or permanent open storage: Long-term or permanent open display and storage shall require the application for, approval of and issuance of a specific use permit (SUP) in accordance with section 74-293(d). A maximum of five percent of the total lot area may be designated for long-term, permanent open storage and shall be screened from public view but shall not be located on top of the building. Screening for long-term, permanent open storage shall conform to the following:

1. Open display and storage for merchandise, such as garden supplies, landscape vegetation, lawn mowers, building materials, etc., requires an extension of the masonry wall of the front façade and, at a minimum, chain-link fencing and solar screening with masonry columns. The masonry columns shall be a minimum of 30 feet apart and are required on the sides, exclusive of the front façade and the wall adjacent to the main structure. Also, the screening of chain-link fencing and solar screening is inclusive of the roof. The storage area, as an extension of the main building, is at least the same height as the product to be screened but extending no higher than the roof of the main building and constructed to one side of the main building. Solar screening shall be maintained in good condition. No tarps or other fabric-like screening shall be allowed. No

merchandise from this area shall be placed outside the open storage area. The required site plan shall reflect the open storage area with a detailed description of building materials;

2. In the event this open display and storage area abuts a similar nonresidential district or is not visible from any public right-of-way or the general public, the planning and zoning commission and city council, upon proper request by applicant, may consider a proposal for less screening;

3. Long-term, permanent open storage of shopping carts requires a designated area, identified in the required site plan, adjacent to and made a part of the main building. The designated area shall be along the front façade of the project and be screened from public view by an approved masonry wall, not to exceed four feet in height, and may include an ornamental feature reaching above the wall. The ornamental feature may take the form of a waterfall, live vegetation, lighting or other items that enhance the beauty of the main building and, for purposes of the safety of the general public, does not entirely block the view from persons inside and outside the open storage area. The designated open storage area is not to be confused with the various shopping cart cages (temporary storage) located in the parking lot for the convenience of the customers;

i. Additional open storage behind the main building: Open storage may also be allowed behind the main building, but in no instance shall the storage be visible from any public street or adjacent property. Screening in accordance with the provisions of chapter 58 is required;

(8) *Building façade plans (elevations).* Building façade plans (elevations) in the C district are as follows: See section 52-62;

(9) *Specific on-site storage.* Specific on-site storage in the C district is prohibited as follows: See section 52-63;

(10) *Signs.* Sign standards in the C district are as follows: See chapter 66;

(11) *Other regulations.* Other regulations in the C district are as follows: See articles XIII, XIV, and XV of this chapter and standards established in the subdivision regulations in chapter 72.

(k) *I Industrial District.*

(1) *General purpose and description.* The I Industrial District provides for a wide range of commercial and industrial uses, all of which should be comparatively nuisance free and may be governed by appropriate business regulations. This district may take the form of an industrial or business park. Activities primarily intended are light manufacturing, assembling and fabrication activities, warehousing, research and development, wholesaling and service operations that do not typically depend upon frequent customer or client visits. The uses do require accessibility to major thoroughfares, major highways, or other means of transportation, such as the

railroad. The district specifically excludes residences on the basis that the mixture of residential use and public services and facilities for residences with those for industry is contrary to the purpose of these regulations;

(2) *Permitted uses.* Those uses listed for the I district in section 74-352 as "X" (permitted) or "S" (specific use permit) are authorized uses permitted by right or specially permitted uses, respectively. Special permitted uses must be approved utilizing procedures set forth in section 74-293(d);

(3) *Maximum height.* Maximum height standards for the I district are as follows:

a. 35 feet for main buildings;

b. One story for accessory buildings;

c. Other (section 74-418(i));

(4) *Area regulations.* Area regulations for the I district are as follows:

a. Size of lot:

1. Minimum lot area: One acre (43,560 square feet); industrial zoning shall not be located closer than 1,000 feet from I-35 or other major regional thoroughfares; however, an industrial zoned lot or site may derive access from I-35 or other major regional thoroughfare via a public street, but no less than a collector street, or a private entrance that passes through other appropriately zoned property, provided that the applicable street right-of-way or common fire lane/access easement is dedicated by plat or by other recorded instrument that is acceptable to the city;

2. Minimum lot width: 100 feet; an entrance for an industrial zoned lot or site from I-35 or other major regional thoroughfare shall be the width of the access-giving public street or private fire lane/access easement;

3. Minimum lot depth: 150 feet from the front (i.e., addressed) street right-of-way line;

b. Size of yards:

1. Minimum front yard: 60 feet from ultimate right-of-way line of roadway; all yards adjacent to a street shall be considered a front yard (see section 74-418(5) for additional setback requirements);

2. Minimum side and rear yard: 25 feet unless adjacent to a residentially zoned or use of property (see subsection (k)(4)b.3 of this section);

3. Minimum side or rear yard adjacent to a residential district: 50 feet for one-story building, and an additional one foot for every story (or fraction thereof) above one story in height;

c. Maximum lot coverage: 60 percent, including main and accessory buildings; maximum 80 percent impervious coverage (including all buildings, parking areas, sidewalks, etc.);

d. Maximum floor area ratio (FAR): 0.5:1;

e. Maximum building size: The maximum building footprint (first floor) area of a structure shall be determined and limited by applying the lot's size, minimum building setbacks, maximum of 60 percent lot coverage, minimum parking requirement, minimum landscaping percentage and areas, and other pertinent development requirements;

(5) *Parking requirements.* Parking requirements in the I district are as follows: As established by article XIV of this chapter;

(6) *Building materials.* Building material standards in the I district are as follows: See section 52-24;

(7) *Special requirements.* Special requirements in the I district are as follows:

a. Driveway spacing: See section 52-58;

b. Lighting: See section 52-24;

c. Site plan review: See section 52-61;

d. Landscaping requirements:

1. Any industrial district deriving its access (driveway) from a private entrance from I-35 or another major regional thoroughfare shall landscape a minimum of 75 percent of the front yard setback along the thoroughfare and 30 percent of the remaining private entrance. See chapter 58 for landscaping requirements;

2. For additional landscaping requirements: See chapter 58;

e. Screening requirements: See chapter 58;

f. Temporary outside display: Temporary (i.e., not long-term or permanent) outside display of seasonal items (e.g., Christmas trees, pumpkins, landscape vegetation, etc.) shall be allowed, but limited to, the following:

1. A permit from the city is required for each seasonal display;

2. The display in any of the parking spaces that are required by this chapter for the primary uses of the property is prohibited. Additional parking spaces or improved surface constructed for the purpose of temporary outside display shall be specifically identified on the required site plan and shall be clearly and distinctively marked (i.e., different paint color) as a designated display area;

3. Temporary outside display located in the designated parking spaces shall be surrounded by a temporary fence (i.e., materials such as wood and cinder block);

4. Merchandise shall not pose a safety or visibility hazard, nor impede public vehicular or pedestrian circulation, either on site or off site, in any way;

5. At no time shall public rights-of-way, pedestrian walkways or adjacent properties be obstructed by display merchandise;

6. All merchandise shall be displayed in an orderly manner, and the display area shall be maintained in a clean, litter-free manner;

g. Long-term or permanent outside display: Long-term or permanent outside display area shall be allowed if the following criteria are followed:

1. All display merchandise shall be limited to the area in front of the main building between the fire lane and the front building façade. In the event the subject project has multiple entrances (i.e., multiple front façades), only one side shall be allowed to have outside display;

2. The amount of display area shall not exceed 60 percent of the front façade of the main building, exclusive of doors, windows and driveways;

3. Display merchandise shall not encroach into the fire lane, parking lot/spaces, walkways, rights-of-way or roadways;

4. Merchandise shall not pose a safety or visibility hazard, nor impede public vehicular or pedestrian circulation, either on site or off site, in any way, nor obstruct any designated fire lane;

5. All merchandise shall be displayed in an orderly manner, and the display area shall be maintained in a clean, litter-free manner;

h. Long-term or permanent open storage: Long-term or permanent open display and storage shall require the application for, approval of and issuance of a specific use permit (SUP) in accordance with section 74-293(d). A maximum of five percent of the total lot area may be designated for long-term, permanent open storage and shall be screened from public view but shall not be located on top of the building. Screening for long-term, permanent open storage shall conform to the following:

1. Open display and storage for merchandise, such as garden supplies, landscape vegetation, lawn mowers, building materials, etc., requires an extension of the masonry wall of the front façade and, at a minimum, chain-link fencing and solar screening with masonry columns. The masonry columns shall be a minimum of 30 feet apart and are required on the sides, exclusive of the front façade and the wall adjacent to the main structure. Also, the screening of chain-link fencing and solar screening is inclusive of the roof. The storage area, as an extension of the main building, is at least the same height as the product to be screened but extending no higher than the roof of the main building and constructed to one side of the main building. Solar screening shall be maintained in good condition. No tarps or other fabric-like screening shall be allowed. No merchandise from this area shall be placed outside the open storage area. The required site plan shall reflect the open storage area with a detailed description of building materials;

2. In the event this open display and storage area abuts a similar nonresidential district or is not visible from any public right-of-way or the general public, the planning and zoning commission and city council, upon proper request by applicant, may consider a proposal for less screening;

3. Long-term, permanent open storage of shopping carts requires a designated area, identified in the required site plan, adjacent to and made a part of the main building. The designated area shall be along the front façade of the project and be screened from public view by an approved masonry wall, not to exceed four feet in height, and may include an ornamental feature reaching above the wall. The ornamental feature may take the form of a waterfall, live vegetation, lighting or other items that enhance the beauty of the main building and, for purposes of the safety of the general public, does not entirely block the view from persons inside and outside the open storage area. The designated open storage area is not to be confused with the various shopping cart cages (temporary storage) located in the parking lot for the convenience of the customers;

i. Additional open storage behind the main building: Open storage may also be allowed behind the main building, but in no instance shall the storage be visible from any public street or adjacent property. Screening in accordance with the provisions of chapter 58 is required;

(8) *Building façade plans (elevations).* Building façade plans (elevations) in the I district are as follows: See section 52-62;

(9) *Specific on-site storage.* Specific on-site storage in the I district is prohibited as follows: See section 52-63;

(10) *Signs.* Sign standards in the I district are as follows: See chapter 66;

(11) *Other regulations.* Other regulations in the I district are as follows: See articles XIII, XIV, and XV of this chapter and standards established in the subdivision regulations in chapter 72.

(Code 1996, ch. 14, exh. 14A, art. IX, § 2; Ord. No. O-03-09, 4-20-2009; Ord. No. O-01-20, § 2, 3-17-2020; Ord. No. O-01-20, § 3, 3-17-2020; Ord. No. O-01-20, § 4, 3-17-2020; Ord. No. O-01-20, § 5, 3-17-2020; Ord. No. O-01-20, § 6, 3-17-2020; Ord. No. O-01-20, § 7, 3-17-2020)

Sec. 74-292. Provisional districts.

(a) *Generally.* Provisional districts are available only for use within a planned development and only in combination with base districts as listed in section 74-290. The standards set for the base district shall remain in effect unless requested and approved at the time of application. The provisional districts are adopted and offered for use as incentive for a more dense residential development, but in no instance shall more than one provisional district be used within a planned development district. A successful application for a planned development district, including one of the provisional districts, shall also include retail or neighborhood services in an amount no less than 20 percent and common open space at a

ratio of one acre per 50 residential dwelling units, single-family or multifamily, unless otherwise approved by the city manager or designee. Open space may be developed as one large park or with a maximum of 25 percent as neighborhood pocket parks, shall include playground equipment, walking and biking trails, pavilions, etc., but shall be approved at the time of site plan. No concept plan or site plan shall be approved without a mix of uses. Phasing of a planned development district, including a provisional district, shall account for proportional amounts of nonresidential development and open space with residential development. No building permit for construction of a provisional district may be issued until a certificate of occupancy is issued for the non-provisional district uses and development of the required open space is in progress.

(b) *SF-4 Single-Family Residential-4 District.*

(1) *General purpose and description.* The SF-4 Single-Family Residential-4 District is intended to provide for development of and be composed of primarily single-family detached dwellings on smaller and more compact lots of not less than 7,500 square feet. SF-4 is available only as a provisional district and shall, in no instance, account for more than 15 percent of the total residential units within the approved development. Lots meeting the SF-4 district criteria shall be grouped together and may be used as a buffer between residential and nonresidential districts. Areas zoned for the SF-4 district shall have, or shall make provision for, city water and sewer services. They shall be designed to adequately accommodate storm drainage; they shall have paved concrete streets with logical and efficient vehicular circulation patterns that discourage non-local traffic; they shall be properly buffered from nonresidential uses; and they shall be protected from pollution and undesirable environmental and noise impacts;

(2) *Permitted uses.* Those uses listed for the SF-4 district in section 74-352 as "X" (permitted) or "S" (specific use permit) are authorized uses permitted by right or specially permitted uses, respectively. Special permitted uses must be approved utilizing procedures set forth in section 74-293(d);

(3) *Maximum height.* Maximum height standards for the SF-4 district are as follows:

a. 2½ stories, or 35 feet for the main building/house;

b. 15 feet for other accessory buildings, including detached garage, garden shed, accessory dwelling units, etc.;

c. Other requirements (see section 74-418(i));

(4) *Area regulations.* Area regulations for the SF-4 district are as follows:

a. Size of lots:

1. Minimum project area: determined by planned development and maximum percentage for provisional district;

2. Minimum lot area: 7,500 square feet; also, the minimum average lot area shall be 9,000 square feet in order to provide diversity in lot sizes within each SF-4 neighborhood; maximum density 3½ dwelling units per acre;
3. Minimum lot width: 70 feet;
4. Minimum lot depth: 100 feet;

b. Size of yards:

1. Minimum front yard: 25 feet;
2. Minimum side yard: ten percent or five feet for interior side yard; 15 feet for a corner lot on a residential or collector street; 25 feet for a corner lot on an arterial street;
3. Minimum rear yard: 20 feet;

c. Maximum lot coverage: 35 percent for the main building; 60 percent for the main building and any accessory buildings, driveways and parking areas combined;

d. Minimum lot access: No lot shall have less than 35 feet access measured at the right-of-way line;

(5) *Parking regulations.* Parking regulations in the SF-4 district are as follows:

a. Single-family dwelling unit: A minimum of two enclosed, attached parking spaces behind the front building line on the same lot as the main structure, plus two additional parking spaces on a paved driveway having a minimum length of 30 feet as measured from ten feet interior of any paved or improved public surface (i.e., roadway, sidewalk);

b. Other: See article XIV of this chapter;

(6) *Minimum floor area.* Minimum floor area per dwelling unit in the SF-4 district is as follows, per dwelling unit: 1,550 square feet; also, the minimum average floor area shall be 1,700 square feet in order to provide diversity in house sizes within each SF-4 neighborhood;

(7) *Minimum exterior construction standards.* Minimum exterior construction standards in the SF-4 district are as follows:

a. Masonry: See section 74-293(c)(10)a ;

b. Roof pitch: See section 74-293(c)(10)f.5;

c. Roofing systems: See section 74-293(c)(10)f;

d. Chimney design: See section 52-2;

(8) *Mailboxes.* Standards for mailboxes in the in the SF-4 district are as follows: See section 52-23;

(9) *Accessory buildings.* Accessory buildings in the SF-4 district are as follows: See section 52-24;

(10) *Driveways.* Driveway standards in the SF-4 district are as follows: See section 52-25;

(11) *Sidewalks.* Sidewalk standards in the SF-4 district are as follows: See section 52-26;

(12) *Building façade plans (elevations).* Building façade plans (elevations) in the SF-4 district are as follows: For any on-site facilities within the SF-4 district, see section 52-62;

(13) *Lighting.* Lighting standards in the SF-4 district are as follows: See section 56-60(s);

(14) *Special requirements.* Special requirements in the SF-4 district are as follows: See section 52-27;

(15) *Other regulations.* Other regulations in the SF-4 district are as follows: As established by articles XIII, XIV, and XV of this chapter and subdivision regulations in chapter 72.

(c) *SF-PH Single-Family Residential-Patio Home District (zero-lot-line homes).*

(1) *General purpose and description.* The SF-PH Single-Family Residential-Patio Home District is designed to provide for development of primarily detached single-family residences on compact lots having one side yard reduced to zero feet (i.e., zero-lot-line) and having not less than 4,000 square feet. Patio home developments shall be arranged in a clustered lot pattern with a common usable open space system that is an integral part of the development. Individual ownership of each lot is required, and this district may serve as a buffer or a transition between lower density residential areas or nonresidential areas along major thoroughfares. SF-PH is available only as a provisional district and shall, in no instance, account for more than 15 percent of the total residential units within the approved development. Areas zoned for the SF-PH district shall have, or shall make provision for, city water and sewer services. They shall be designed to adequately accommodate storm drainage; they shall have paved concrete streets with logical and efficient vehicular circulation patterns that discourage non-local traffic; they shall be properly buffered from nonresidential uses; and they shall be protected from pollution and undesirable environmental and noise impacts;

(2) *Permitted uses.* Those uses listed for the SF-PH district in section 74-352 as "X" (permitted) or "S" (specific use permit) are authorized uses permitted by right or specially permitted uses, respectively. Special permitted uses must be approved utilizing procedures set forth in section 74-293(d);

(3) *Maximum height.* Maximum height standards for the SF-PH district are as follows:

a. 2½ stories, or 35 feet for the main building/house;

b. Ten feet for other accessory buildings, including detached garage, garden shed, accessory dwelling units, etc.;

c. Other requirements (see section 74-418(i));

(4) *Area regulations.* Area regulations for the SF-PH district are as follows:

a. Size of lots:

1. Minimum lot area: 4,000 square feet; also, the minimum average lot area shall be 4,700 square feet in order to provide diversity in lot sizes within each SF-PH neighborhood; maximum density eight dwelling units per acre;

2. Maximum project size: The maximum size of a patio home development shall be determined by the planned development and maximum percentage for a provisional district;

3. Minimum lot width: 45 feet;

4. Minimum lot depth: 80 feet;

b. Size of yards:

1. Minimum front yard: 20 feet; 25 feet to the garage door face for front-entry homes;

2. Minimum side yard: one side yard reduced to zero feet; other side yard a minimum of ten feet required with 15 feet required on corner lots adjacent to a residential or collector street, and 25 feet required on corner lots adjacent to an arterial street;

3. Minimum rear yard: 15 feet; 20 feet for rear garage entry;

c. Maximum lot coverage: 50 percent for the main building; 65 percent for the main building and any accessory buildings, driveways and parking areas combined;

(5) *Parking regulations.* Parking regulations in the SF-PH district are as follows:

a. Single-family dwelling unit: A minimum of two enclosed parking spaces behind the front building line on the same lot as the main structure, plus one additional parking space on the paved driveway;

b. Visitor parking: one parking space per dwelling unit (off-street) which is located within 300 feet of each dwelling unit;

c. Other: See article XIV of this chapter;

(6) *Minimum floor area.* Minimum floor area per dwelling unit in the SF-PH district is as follows: 1,500 square feet;

(7) *Minimum exterior construction standards.* Minimum exterior construction standards in the SF-PH district are as follows: All exterior wall elevations of each primary structure and any detached garage shall be constructed of 100 percent masonry construction, to include brick, stone, granite or marble; excluding doors and windows;

(8) *Chimney design.* Chimney design standards in the SF-PH district are as follows: See section 52-2;

(9) *Minimum lot access.* Minimum lot access standards in the SF-PH district are as follows: No lot shall have less than 35 feet access measured at the right-of-way line;

(10) *Minimum landscaping requirements.* Minimum landscaping requirements in the SF-PH district are as follows: 60 percent of the street yard; see chapter 58;

(11) *Screening requirements.* Screening requirements in the SF-PH district are as follows: See chapter 58;

(12) *Special requirements.* Special requirements in the SF-PH district are as follows:

a. One side yard shall be reduced to zero feet, while the other side yard shall be a minimum of ten feet; 15 feet for a corner lot on the residential or collector street side, or 25 feet for a corner lot on an arterial street. A minimum six-foot-wide maintenance easement shall be placed on the adjacent lot (i.e., the other side of the zero-lot-line) to enable the property owner to maintain that portion of his/her house that is on the zero-lot-line. Side yards and maintenance easements shall be shown on the subdivision plat. A minimum separation between patio homes of ten feet shall be provided. Roof overhangs will be allowed to project into the maintenance easement a maximum of 24 inches;

b. All utilities shall be provided separately to each lot in the SF-PH district so that each dwelling unit is individually metered;

c. Maintenance requirements for common areas: A homeowners' association (HOA) is required for continued maintenance of common land and facilities;

d. Usable open space requirements: The required percentage of open space shall be in compliance with those set forth in the provisional district requirements, section 74-292;

e. Landscaped areas: Additional common open space and landscaped areas that do not qualify as usable open space may be provided but shall not be counted toward the usable open space requirement;

f. Single-family lots and detached dwellings constructed in this district shall conform to the standards as set forth in the SF-3 zoning district;

g. The elimination of a garage space by enclosing the garage with a stationary building wall shall be prohibited unless another garage of the same size (i.e., that has the same number of parking spaces) is built, simultaneously with the garage enclosure, elsewhere on the same lot within the proper setbacks, not exceeding the maximum lot coverage, etc.;

h. Recreational vehicles, travel trailers, camper trailers, campers, trailers, boats, boat trailers, motor homes or other recreational vehicles or equipment may not be used for on-site dwelling purposes, and shall be prohibited from being parked in this zoning district;

i. Electrical fencing and barbed wire is prohibited as perimeter fencing;

j. Open storage is prohibited (except for usable materials for the resident's personal use or consumption, such as firewood, garden materials, lawn equipment that is in usable and running condition, etc., which cannot be stored in any required setback and which shall be screened from view of public streets and neighboring properties);

k. Single-family homes with side-entry garages where lot frontage is only to one street (not a corner lot) shall have a minimum of 25 feet from the door face of the garage to the side property line for maneuvering. The minimum setback from any garage door to a street or alley right-of-way line shall also be 25 feet;

l. Swimming pools, spas and hot tubs shall comply with the standards set forth in the ICC International Swimming Pool and Spa Code, adopted in section 50-27, and other provisions of this Code pertaining to same;

m. Site plan approval shall be required for any nonresidential use (e.g., school, church, child care center, private recreation facility, etc.) in the SF-PH district. Any nonresidential land use which may be permitted in this district shall conform to the NS Neighborhood Service District standards with respect to building setbacks, landscaping, exterior building construction, screening requirements, lighting, signage, etc.;

(13) *Other regulations.* Other regulations in the SF-PH district are as follows: See articles XIII, XIV, and XV of this chapter, chapter 52, and standards established by the subdivision regulations in chapter 72.

(d) *MF Multifamily Residential District.*

(1) *General purpose and description.* The MF Multifamily Residential District is intended to promote the development of and be comprised of attached residential dwellings for more than two families. The maximum density is 14 dwelling units per acre. The principal permitted land uses will include low- and mid-rise multiple-family dwellings and garden apartments. MF is available only as a provisional district and may only be approved through the planned development rezoning process. Development meeting the MF district criteria shall be grouped together and may be used as a buffer between residential and nonresidential districts. Recreational, religious, health and educational uses normally located to service residential areas are also permitted in this district. This district should be located adjacent to a major thoroughfare and serve as a buffer between nonresidential development or heavy automobile traffic and medium- or low-density residential development. Areas zoned for the MF district shall have, or shall make provision for, city water and sewer services. They shall be designed to adequately accommodate storm drainage; they shall have paved concrete drive aisles with logical and efficient vehicular circulation patterns; they shall be properly buffered from nonresidential uses; and they shall be protected from pollution and undesirable environmental and noise impacts;

(2) *Permitted uses.* Those uses listed for the MF district in section 74-352 as "X" (permitted) or "S" (specific use permit) are authorized uses permitted by right or

specially permitted uses, respectively. Special permitted uses must be approved utilizing procedures set forth in section 74-293(d). Permitted uses in the MF district are as follows:

a. Multiple-family dwellings greater than two units per building;

b. Municipally owned facilities and uses;

c. Leasing offices for the apartment complex;

d. Temporary field construction offices for uses incidental to construction work on the premises, which the buildings shall be removed upon the completion or abandonment of construction work, by order of the building official. Specific time allowed and location shall be specified by the building official;

e. Accessory buildings and uses customarily incidental to the uses in subsection (d)(2)a through d of this section and located on the same lot therewith, but not involving the conduct of a retail business, except as provided herein:

1. The term "accessory use" shall include home occupations as defined in section 74-2;

2. Accessory buildings greater than 250 square feet require a specific use permit (SUP), must be site built and must conform to the following conditions:

(i) The exterior must be constructed of like and similar materials to those of the primary structure;

(ii) The accessory building, including any item attached to its roof, shall not exceed a maximum height of 15 feet at its tallest point;

(iii) The accessory building shall be constructed with a roof pitch matching that of the primary structure;

(iv) Accessory buildings located closer than ten feet from a side or rear lot line of a corner lot, must be screened from the side and rear with an opaque fence of a minimum six feet in height; and

(v) See section 52-24 for additional accessory building regulations;

f. Swimming pool (available for use by the residents and guests of the multifamily complex);

g. Common areas, community center, recreation center, and other facilities or amenities, provided they are for use by the residents and guests of the multifamily complex;

h. The uses as may be permitted under the provisions of specific use permits, section 74-293(d), for MF Multiple-Family Districts;

(3) *Maximum height.* Maximum height standards for the MF district are as follows:

a. 2½ stories, or 35 feet for the main building/house; where a structure exceeds 25 feet in height, it shall be set back from the front property line one additional foot beyond the required front yard setback for each foot above 25 feet in height;

b. 15 feet for other accessory buildings, including detached garage, garden shed, carports, gazebo, clubhouse, mail kiosks, laundry rooms, etc.;

c. Other requirements (see section 74-418(i));

(4) *Area regulations.* Area regulations for the MF district are as follows:

a. Size of lots:

1. Minimum project area: determined by planned development and maximum percentage for provisional district;

2. Minimum lot area: 3,000 square feet per dwelling unit, not to exceed 14 dwelling units per acre (calculated on gross platted acreage);

3. Minimum lot width: 100 feet;

4. Minimum lot depth: 120 feet;

5. Special exception: If a property was platted or zoned for MF prior to the effective date of the ordinance from which this chapter is derived, then it can remain its original size and configuration and does not have to meet the minimum project size, lot width or lot depth stated above. The property shall conform to all other MF development standards herein, unless the building setbacks shown on a recorded plat vary from those contained herein, in which case the platted setbacks shall prevail unless a replat modifies same;

b. Size of yards:

1. Minimum front yard: 40 feet. All areas adjacent to a street shall be deemed front yards;

2. Minimum side and rear yard: 20 feet, unless adjacent to a single-family or patio home district then side and rear setbacks shall be according to the height of the multifamily building, as follows:

(i) One-story building: 20 feet;

(ii) Two-story building: 60 feet;

(iii) Over two-story building: 75 feet;

3. Building separation:

(i) One-story buildings: 15 feet for buildings without openings; 25 feet for buildings with openings;

(ii) Two-story buildings (or a two-story building adjacent to a one-story building): 20 feet for buildings without openings; 35 feet for buildings with openings;

(iii) Over two-story buildings (or an over two-story building adjacent to a one- or two-story building): 35 feet for buildings with or without openings;

c. Minimum floor area: Minimum floor area per dwelling unit in the MF district is as follows per dwelling unit:

1. Efficiency unit: 500 square feet per unit;
2. One-bedroom unit: 800 square feet per unit;
3. Two- or three-bedroom units: An additional 150 square feet for every bedroom over one (e.g., three-bedroom unit must have 1,100 square feet, etc.);
4. No units larger than three-bedroom is allowed;

d. Dwelling unit mix: Not more than 15 percent of the dwelling units within a complex may be efficiency-type units and not more than ten percent of the dwelling units within a complex may have three bedrooms. The remaining minimum of 75 percent shall be a mix of one- and two-bedroom dwelling units;

e. Maximum lot coverage: 40 percent total, including main and accessory buildings; 60 percent for the main building and any accessory buildings, driveways and parking areas combined;

f. Minimum lot access: No lot shall have less than 35 feet access measured at the right-of-way line;

(5) *Parking regulations.* Parking regulations in the MF district are as follows:

a. One enclosed, attached space for each efficiency unit;

b. Two enclosed, attached spaces for each one-bedroom unit;

c. Two enclosed, attached spaces and one covered space for each two- and three-bedroom unit;

d. An additional one-half parking space shall be provided for each bedroom, including efficiency, within the development. The additional parking spaces are not required to be enclosed or covered;

e. The average number of parking spaces for the total development shall be no less than two spaces per dwelling unit. The minimum required enclosed parking spaces for dwelling units shall be enclosed and attached to the dwelling unit it serves. The remaining required parking spaces for each dwelling unit shall be covered. Both enclosed and covered parking spaces shall be constructed of a masonry product consistent and complementary to the main structure and roof pitch to match the main buildings;

f. No covered parking space may be located closer than six feet from any building or closer than two feet from any side or rear lot line;

g. All parking areas adjacent to public streets shall be screened from view. Screening may be in the form of live plant materials, berms, low masonry walls that match the exterior finish of main buildings, or any combination of the above;

h. See article XIV of this chapter, for additional requirements;

(6) *Minimum exterior construction standards.* Minimum exterior construction standards in the MF district are as follows: All exterior wall elevations of each primary structure shall be constructed of 100 percent masonry construction to include brick, stone, granite or marble; excluding doors and windows;

(7) *Refuse facilities.* Refuse facility standards in the MF district are as follows:

a. Every multifamily dwelling unit shall be located within 200 feet of a refuse facility measured along the designated pedestrian and vehicular travelway. A refuse facility shall provide at least six cubic yards of refuse container for every 30 dwelling units (or portion thereof). A refuse facility shall be a dumpster or other similar receptacle designed for receiving garbage in bulk for more than one dwelling, and all refuse containers shall be maintained in accordance with local public health and sanitary regulations. Refuse dumpsters shall be no closer than 30 feet to any adjacent single-family residential property and shall be located so as to provide safe and convenient pickup by refuse collection agencies;

b. Each refuse facility shall be screened from view, from persons standing at ground level on the site or immediately adjoining property, on three sides by a solid screening wall of brick or stone masonry not less than six feet, nor more than eight feet in height or enclosed within a building, and on the fourth side by gates. Refuse containers shall be provided and maintained in a manner to satisfy local public health and sanitary regulations. Each refuse facility shall have a gate and be located so as to provide safe and convenient pickup by refuse collection agencies. To the extent practicable, the location of the refuse facility shall be identified on the site or concept plan;

(8) *Special requirements.* Special requirements in the MF district are as follows:

a. Driveway spacing: See section 52-58;

b. Site plan review: See section 52-61;

c. Single-family dwelling units constructed in this district shall conform to SF-E, SF-1, SF-2, SF-3 or SF-PH district standards, respectively;

d. Recreational vehicles, travel trailers, camper trailers, campers, trailers, boats, boat trailers, motor homes, other recreational vehicles or equipment or storage units may not be parked or stored in this district nor used for on-site dwelling purposes;

e. Open storage is prohibited;

f. A site plan with façade elevations is required for all multifamily developments in this district in accordance with the requirements for planned development districts and shall be an exhibit to the authorizing ordinance. See section 52-62;

g. Fire lanes, fire hydrants and dwelling unit distances from fire lanes and fire hydrants shall be in compliance with the International Fire Code (IFC) as adopted and as amended;

h. A four-foot-wide paved walkway shall connect the front door of each ground floor unit to the adjacent parking area. The minimum width of any sidewalk parallel and adjacent to head-in parking spaces shall be six feet to accommodate a two-foot bumper overhang for vehicles;

i. Buildings shall not exceed 200 feet in length;

j. All parking areas shall have appropriate lighting and shall be positioned such that no light adversely impacts adjacent residential areas. See section 52-24;

k. All multifamily dwelling units shall have roof slopes with a minimum of 4:12 pitch;

l. Buildings with façades that are longer than 50 feet shall have their façades broken up into smaller areas through the use of varying façade setbacks, arcades, architectural features, such as recessed vestibules, columns, canopies, or other acceptable means;

m. Boats, campers, trailers, and other recreational vehicles shall be prohibited unless oversize parking areas are provided as part of the approved site plan. This parking area shall not be used to meet the minimum parking requirements and shall not be in view from a public street;

n. All buildings containing residential units shall provide a sign, visible from the entrances, identifying the unit numbers (i.e., addresses) within the building. Signage shall be visible from entrances into the complex or from vehicular drive aisles within the complex such that each individual unit is easy to locate by visitors, delivery persons, or emergency personnel;

o. All mechanical, heating, and air conditioning units shall be screened or hidden from view. See chapter 58;

p. Multifamily complexes shall have screening surrounding the property and have a security gate at each point of ingress/egress. All screening walls or other devices shall be placed on the property line (see chapter 58);

q. All living units will be equipped with washer and dryer connections;

r. Landscape area requirements: A minimum of 90 percent of the street yard and 20 percent of the total lot area shall be devoted to a combination of landscaping (i.e., pervious surface area) and usable open space (see above). See chapter 58 for landscaping requirements;

s. Screening requirements: See chapter 58 for screening requirements;

t. Building façade plans (elevations): For any on-site facilities within the MF district, see section 52-62;

u. Site plan approval (see section 74-263(c)) shall be required for any multifamily or nonresidential use (e.g., school, church, child care center, private recreation facility, etc.) in the MF district. Any nonresidential land use which may be

permitted in this district shall conform to the NS Neighborhood Service District standards with respect to building setbacks, landscaping, exterior building construction, screening requirements, lighting, signage, etc.;

v. Additional special requirements are as provided in section 52-27;

(9) *Special provisional district requirements.* Special provisional district requirements in the MF district are as follows: See section 74-292;

(10) *Other regulations.* Other regulations in the MF district are as follows: As established by articles XIII, XIV, and XV of this chapter, chapter 52, and subdivision regulations in chapter 72.

(e) *MH Manufactured Home District.*

(1) *General purpose and description.* The MH Manufactured Home District is a detached residential district establishing standards for the development of manufactured, HUD-code mobile home subdivisions. MH is available only as a provisional district and shall, in no instance, account for more than 15 percent of the total residential units within the approved development. Lots meeting the MH district criteria shall be grouped together and may be used as a buffer between residential and nonresidential districts. Manufactured/mobile home subdivisions include individually platted lots for sale within the subdivision, for the placement of manufactured/mobile home units. The manufactured home district establishes area and design requirements for subdivisions. Subdivisions shall provide open space and recreational areas appropriate for the acreage and number of units contained. Areas zoned for the MH district shall have, or shall make provision for, city water and sewer services. They shall be designed to adequately accommodate storm drainage; they shall have paved concrete streets with logical and efficient vehicular circulation patterns that discourage non-local traffic; they shall be properly buffered from nonresidential uses; and they shall be protected from pollution and undesirable environmental and noise impacts;

(2) *Permitted uses.*

a. Those uses listed for the MH district in section 74-352 as "X" (permitted) or "S" (specific use permit) are authorized uses permitted by right or specially permitted uses, respectively. Special permitted uses must be approved utilizing procedures set forth in section 74-293(d);

b. The installation of mobile homes for use or occupancy as residential dwellings in the city is prohibited. This provision is prospective and shall not apply to any mobile home used and occupied as a residential dwelling in the city on the effective date of the ordinance from which this chapter is derived. An existing mobile home located in the city, as of the date of the ordinance from which this chapter is derived, will be allowed to remain on its existing site until it is removed from the city, or until the condition of the mobile home violates the codes of the city. When the condition of the mobile home violates city codes, the

building official shall require the owner to repair, demolish or move the mobile home out of the city. To the extent required by state and federal law a mobile home may be replaced a by a HUD-code manufactured home with the limitation of one replacement and a HUD-code manufactured home may be replaced by another HUD-code manufactured home, provided it is a newer manufactured home and is at least as large in living space as the prior manufactured home. Any and all structural repair or remodeling of a mobile home shall require a building permit and all work shall be done by a state-certified, licensed contractor or home-occupied owner. An existing, but temporarily vacant, mobile home located in the city as of the date of the ordinance from which this chapter is derived, will be considered occupied for purposes of this provision if it has been an actual residential use within 30 days prior to enactment of the ordinance from which this chapter is derived, is vacant for purposes of refurbishment for future residential use at the time of enactment of the ordinance from which this chapter is derived or subsequently becomes vacant for purposes of refurbishment for future residential use after enactment of the ordinance from which this chapter is derived, and such vacancy is terminated by actual residential use of a mobile home within 60 days of enactment of the ordinance from which this chapter is derived;

(3) *Area regulations.* Area regulations for the MH district are as follows:

a. Size of lot:

1. Minimum project size: Determined by planned development and maximum percentage for provisional district;

2. Minimum lot area: 7,500 square feet; also, the minimum average lot area shall be 9,000 square feet in order to provide diversity in lot sizes within each MH neighborhood; maximum density 3½ dwelling units per acre;

3. Minimum lot width: 70 feet;

4. Minimum lot depth: 100 feet;

b. Size of yards:

1. Minimum front yard: 25 feet from a publicly dedicated street or driveway;

2. Minimum side yard: ten percent or seven feet for interior side yard; 15 feet for a corner lot on a residential or collector street; 25 feet for a corner lot on an arterial street;

3. Minimum rear yard: 20 feet;

c. Maximum lot coverage:

1. 35 percent for the main building; 60 percent for the main building and any accessory buildings, driveways and parking areas combined:

2. The entry (i.e., door) side of any garage shall have a 35-foot setback as measured from any property or street right-of-way line;

d. Minimum floor area per dwelling unit: 1,550 square feet; also, the minimum average floor area shall be 1,700 square feet in order to provide diversity in dwelling sizes with each MH neighborhood;

e. Maximum lot coverage: 35 percent for the main building/unit; 60 percent for the main building and any accessory buildings, driveways and parking areas combined;

f. Minimum lot access: No lot shall have less than 35 feet access measured at the right-of-way line;

(4) *Parking regulations.* Parking regulations in the MH district are as follows: A minimum of two enclosed spaces attached to the dwelling unit by a covered breezeway and located on the same lot as the dwelling unit, plus two additional parking space on a paved driveway having a minimum length of 30 feet as measured from ten feet interior of any paved or improved public surface (i.e., roadway, sidewalk);

(5) *Maximum height limit.* Maximum height limits in the MH district are as follows:

a. 2½ stories, or 35 feet for the main building/house; where a structure exceeds 25 feet in height, it shall be set back from the front property line one additional foot beyond the required front yard setback for each foot above 25 feet in height;

b. 15 feet for other accessory buildings, including detached garage, garden shed, carports, gazebo, clubhouse, mail kiosks, laundry rooms, etc.;

c. Other requirements (see section 74-418(i));

(6) *Minimum exterior construction standards.* Minimum exterior construction standards in the MH district are as follows: Skirting of a HUD-code manufactured home or mobile home shall be of a product with the visual effect of brick or stone;

(7) *Site plan requirement.* Site plan requirements in the MH district are as follows: All new manufactured home subdivisions are allowed only as part of a planned development and, therefore, require a site plan submission for the city's consideration. site plans shall conform to the requirements set forth in section 74-254;

(8) *Mailboxes.* Standards for mailboxes in the in the MH district are as follows: See section 52-23;

(9) *Accessory buildings.* Accessory buildings in the MH district are as follows: See section 52-24;

(10) *Driveways.* Driveway standards in the MH district are as follows: See section 52-25;

(11) *Sidewalks.* Sidewalk standards in the MH district are as follows: See section 52-26;

(12) *Anchorage of manufactured / mobile homes.* Anchorage requirements of manufactured/ mobile homes in the MH district are as follows: To ensure against natural hazards, such as tornados, high winds and electrical storms, full anchorage for each manufactured/mobile home shall be provided according to the following:

a. All manufactured/mobile homes shall be provided an adequate foundation for the placement of tie-downs, thereby securing the superstructure against uplift, sliding, rotation and overturning;

b. The pad shall be constructed of concrete which shall adequately support the weight of the HUD-code manufactured home which may be placed thereon and be durable and well drained under normal use and weather conditions;

c. The height of the HUD-code manufactured home frame above ground elevation, measured at 90 degrees to the frame, shall not exceed four feet from the top of the pad;

d. Provide anchors and tie-downs, such as cast-in-place concrete dead men, eyelets embedded in concrete foundations or runway screw augers, arrowhead anchors, or other devices which secure the stability of the HUD-code manufactured home, and shall be placed at least at each corner of the HUD-code manufactured home; and

e. Cover an area of at least 240 square feet or at least one-third the area of the largest HUD-code manufactured home which may be placed on the space, whichever is greater. No surface provided for a purpose other than the foundation of HUD-code manufactured/mobile home shall be considered a part of such pad;

(13) *Skirting.* Skirting standards in the MH district are as follows:

a. All manufactured/mobile home units located in the city limits shall provide skirting from the top of the unit's frame to grade prior to resident move-in. Also, see subsection (e)(6) of this section;

b. All manufactured/mobile homes located in the city limits as of the effective date of the ordinance from which this chapter is derived shall be required to have skirting no later than 90 days from the enactment of this chapter. However, before being subject to a penalty for violation of this subsection, the city manager or designee shall serve the owner or occupant of any manufactured/mobile home without skirting with written notice, delivered by certified mail, of violation hereof, requiring compliance within such time as designated therein;

c. Access to the underneath of the manufactured/mobile home shall be available for repair purposes only and not for storage or trash accumulation; and

d. A permit shall be applied and paid for prior to the installation of skirting;

(14) *Special requirements.* Special requirements in the MH district are as follows:

a. Single-family, patio home, or townhouse residential units constructed in this district shall conform to SF-E, SF-1, SF-2, SF-3, or SF-PH district standards, respectively;

b. Site plan approval shall be required for any nonresidential use (e.g., school, church, child care center, private recreation facility, etc.) in the MH district. Any nonresidential land use which may be permitted in this district shall conform to the NS Neighborhood Service District standards with respect to building setbacks, landscaping, exterior building construction, screening requirements, lighting, signage, etc. See sections 74-263(c) and 74-291(g);

c. Building façade plans (elevations): For any on-site facilities within the MH district, see section 52-62;

d. Specific on-site storage prohibited: See section 52-63;

e. The storage, handling and use of liquefied petroleum gases and flammable liquids shall be done in compliance with all applicable state law and rules and this Code;

f. All applicable city codes and ordinances, including all building, plumbing, electrical and fire codes as adopted and all applicable state law, are in force in this district;

g. Additional special requirements are as provided in section 52-27;

(15) *Special provisional district requirements.* Special provisional district requirements in the MH district are as follows: See article XII of this chapter;

(16) *Other regulations.* Other regulations in the MH district are as established by chapter 52 and articles XIII, XIV, and XV of this chapter and subdivision regulations in chapter 72.

(Code 1996, ch. 14, exh. 14A, art. IX, § 3; Ord. No. O-03-09, 4-20-2009; Ord. No. O-10-20, 8-18-2020)

Sec. 74-293. Overlay and special districts.

(a) *Purpose.* Overlay districts shall be used in conjunction with base zoning districts where it is appropriate to do so. In the use of the following overlay zoning classifications, the base district shall remain in effect as it is already in existence unless changed by zoning amendment and in accordance with the provisions of article IV of this chapter. New base districts or changes in existing base districts may be requested at the same time overlay or special prefix districts are requested.

(b) *PD Planned Development District.*

(1) *General description and purpose.*

a. The PD Planned Development District is a district which accommodates planned associations of uses or mixed uses developed as integral land use units, such as industrial districts, offices, commercial or service centers, shopping centers, residential developments of multiple or mixed housing, including attached single-family dwellings or any appropriate combination of uses which may be planned, developed or operated as integral land use units either by a single owner or a combination of owners. A PD district may be used to permit new or innovative concepts in land utilization not permitted by other zoning districts in this chapter. While greater flexibility is given to allow special conditions or restrictions which would not otherwise allow the development to occur, procedures are established herein to ensure against misuse of increased flexibility;

b. A planned development district is a tool to permit new or innovative concepts in land utilization not permitted by other zoning districts in this chapter, to ensure the compatibility of land uses, and to allow for the adjustment of changing demands to meet the current needs of the community. This tool shall be required to meet one or more of the following purposes:

1. To provide for a superior design on lots or buildings;

2. To provide for increased recreation and open space opportunities for public use and enjoyment;

3. To provide amenities or features that would be of special benefit to the property users or to the overall community;

4. To protect or preserve natural amenities and environmental assets, such as trees, creeks, ponds, floodplains, slopes, viewscapes, or wildlife habitats;

5. To protect or preserve existing historical buildings, structures, features or places;

6. To provide an appropriate balance between the intensity of development and the ability to provide adequate supporting public facilities and services; and

7. To meet or exceed the standards of this chapter;

c. Planned development applications that do not meet or exceed the minimum requirements of this chapter shall be recommended by staff to be denied. Staff will provide to the planning and zoning commission and city council a written report of deficiencies.

(2) *Permitted uses.*

a. An application for a PD district shall specify the base zoning districts upon which the PD is based, and the use or the combination of uses proposed (particularly if any of the proposed uses are not allowed by right in the base zoning district). PD designations shall not be attached to SUP requirements. Specific use permits allowed in a base zoning districts are allowed in a PD only if specifically identified as allowable by SUP at the time of PD approval, and if specifically cited as an additional use (i.e., to those allowed by right in the PD) in the ordinance establishing the PD. Any use that is not specifically cited as permitted (by right or by SUP) in the applicable base zoning districts or the PD ordinance shall be prohibited unless the PD ordinance is amended using the procedures set forth in this section and in article IV of this chapter;

b. In the case of residential PD districts, the proposed lot sizes shall generally be no smaller than the lot sizes allowed in the base zoning district for each type of housing (e.g., single-family) except for minor changes in a small percentage of the lots in order to provide improved design, or to provide flexibility in the layout of the subdivision or diversity in lot size choices. A residential PD shall

strive to provide choice and variety in lot sizes throughout the neighborhood by specifying an average lot size that is larger than the minimum lot size, and that will truly accomplish the purpose of providing a variety of lot sizes.

(3) *Planned development requirements.*

a. In the PD district, uses shall conform to the standards and regulations of the zoning district to which it is most similar, and the particular zoning district must be stated in the granting ordinance as the base zoning district. All applications to the city shall list all requested deviations from the standard requirements set forth throughout this chapter (applications without this list will be considered incomplete);

b. The city council, after public hearing and proper notice to all parties affected and after recommendation from the planning and zoning commission, may authorize the creation of a PD overlay district;

c. The ordinance granting a PD district shall include a statement as to the purpose and intent of the PD district granted therein. A specific list is required of deviations in each district and general statement citing the reason for the PD request;

d. Development requirements for each separate PD district shall be set forth in the amending ordinance granting the PD district and may include, but not be limited to, uses, density, lot area, lot width, lot depth, yard depths and widths, building height, building elevations, coverage, floor area ratio, parking, access, screening, landscaping, buffer zones between uses, accessory buildings, signs, lighting, project phasing or scheduling, management associations, and other requirements as the city council and planning and zoning commission may deem appropriate. The planned development district shall conform to all other sections of this chapter, the subdivision regulations in chapter 72 and this Code, unless specifically excluded in the granting ordinance;

e. The planned development request shall require a minimum of two distinct uses, residential or nonresidential. A PD district shall not be utilized to vary the standard requirements of a single straight zoning district to accommodate the financial or development desires of the applicant;

f. The minimum acreage for a planned development request shall be as follows:

1. Single-family residential development (e.g., A, SF-E, SF-1, SF-2, SF-3): 30 contiguous acres;

2. Provisional districts (e.g., SF-4, SF-PH, MF, MH): Minimum acreage of a provisional district shall be determined by the maximum acreage set in subsections (a), (b), (c), and (d) of this section and the accompanying mix of uses proposed in the planned development application;

3. Nonresidential development (including office, neighborhood service, retail, commercial or industrial) development: ten contiguous acres;

4. Mixed-use development: The minimum acreage for each portion of a mixed-use PD district shall be as set forth above for each type of land use within the mixed-use district (unless this requirement is recommended by the planning and zoning commission, and waived by city council upon approval of the PD district, due to unusual size constraints that are unique to the subject land parcel itself);

5. Any type of development within the TC area: No minimum acreage requirement, provided that the request is deemed to be in substantial conformance with the TC district regulations with some minor flexibility that would allow and encourage favorable development or redevelopment of a property, and provided that the request cannot be construed as spot zoning;

g. A PD request, which shall be based upon more than one base zoning district, shall also include a legal (i.e., metes and bounds) description and graphic exhibit describing/showing the proposed boundaries of each respective area and its base zoning district (e.g., shown as Proposed PD-SF-2, Proposed PD-NS, etc.);

h. While greater flexibility is given to allow special conditions or restrictions that would not otherwise allow the development to occur, procedures are established herein to ensure against misuse of increased flexibility;

i. As part of the zoning application for a planned development, the city manager or designee may require submission of a written report that discusses the impact the proposed PD will have on city water and wastewater utility systems, the local and regional storm drainage system, private utility service systems (i.e., cable TV, telephone, electric, gas, etc.), solid waste collection, city and other entities' tax base, public safety (i.e., police, fire, emergency medical services, etc.), public schools (i.e., number of school-age children anticipated) and traffic on surrounding and other nearby roadways. Letters from the city's utility and engineering personnel, the school district, and private utility providers may be required prior to approval of the PD in order to ensure that the proposed development will not unreasonably overload these essential systems and services;

j. See article VIII of this chapter for platting standards:

1. Upon written request of the applicant, the city manager may grant a waiver of the minimum acreage requirements for a planned development enumerated in subsection (b)(3)f of this section, but in no event shall any waiver:

(i) Allow a planned development of less than 20 acres minimum acreage for a planned development or component thereof with single-family residential base zoning; or

(ii) Allow a planned development of less than two acres minimum acreage for a planned development or component thereof with a nonresidential base zoning;

2. Any waiver granted hereunder by the city manager shall be based upon the city manager's determination of the following factors:

(i) Whether the proposed use/base zoning for the planned development implements the policies adopted in the comprehensive plan, including the future land use plan;

(ii) Population density impacts of the proposed planned development, including, but not limited to, traffic impacts;

(iii) Whether the proposed use/base zoning for the planned development will be appropriate in the immediate area and for its relationship to the general area and the city as a whole;

(iv) Whether the proposed use/base zoning for the planned development will be in accordance with existing or proposed plans for providing schools, streets, water supply, sanitary sewer, or other utilities in the area;

(v) The amount of vacant land currently classified for developments similar to what is being proposed in the vicinity and elsewhere in the city; and

(vi) The anticipated impact on areas that are already designated for similar development.

(4) *Establishment.*

a. In establishing a planned development district in accordance with this subsection (b), the city council shall approve and file as part of the amending ordinance appropriate plans and standards for each planned development district. To facilitate understanding of the request during the review and public hearing process, the concurrent submission of a concept plan for the proposed nonresidential or provisional district project, or a land study for a proposed single-family residential project, shall be required along with the PD zoning application. A preliminary plat may be submitted in lieu of the concept plan for a single-family PD (see the subdivision regulations in chapter 72 for submission and other requirements) if the applicant prefers to do so, and if the applicant wishes to expend the resources and funds necessary to prepare a complete preliminary plat submission:

b. The concept plan shall be submitted by the applicant at the time of the PD request. The plan shall show the applicant's intent for the use of the land within the proposed planned development district in a graphic manner and, as

may be required, supported by written documentation of proposals and standards for development. The city may prepare application forms which further describe and explain the following requirements:

1. *Residential concept plan.* A concept plan for residential land use shall show general use, thoroughfares and preliminary lotting arrangements (see section 74-262 for concept plan requirements and procedures):
   (i) A concept plan shall be submitted with any residential PD zoning request for a development comprised of single-family dwellings on individually platted lots, and shall show general uses, phasing of the development, access, thoroughfares, alleys (if proposed), preliminary lot arrangements, proposed densities, proposed screening, landscaped or private amenity areas, project scheduling and other pertinent development data;
   (ii) For residential development which does not propose platted lots, the concept plan shall set forth the size, type and location of buildings and building sites, access, density, building height, fire lanes, screening, parking areas, landscaped areas, project scheduling, and other pertinent development data;
2. *Nonresidential concept plan.* A concept plan shall be submitted with any nonresidential, single-family, or provisional district PD zoning request, and shall clearly show all pertinent aspects of the type and nature of the proposed development. Data which may be submitted by the applicant, or required by the planning and zoning commission or city council, may include, but is not limited to, the types of uses, access, topography and boundary of PD area, physical features of the site, existing and proposed streets, alleys and easements, location of existing and proposed public facilities, building heights and locations, parking areas and ratios, fire lanes, screening and landscaped areas, project phasing and scheduling, buffer zones between residential and nonresidential uses, and other information to adequately describe the proposed development and to provide data for approval which is to be used in drafting the preliminary plat (see section 74-262 for concept plan requirements and procedures):
   (i) For a single-family PD (or portion of a PD): A preliminary plat (see the subdivision regulations in chapter 72) shall be submitted for approval within one year from the approval date of the PD covered by the overall PD concept plan. If a preliminary plat is not submitted within one year, then the PD concept plan shall be subject to review by the planning and zoning commission and the city council to determine its continued validity. If the city determines that the PD concept plan is no longer valid or that the proposed development is no longer viable, then a new PD concept plan (along with a zoning application to amend the PD ordinance and its accompanying concept

plan) must be submitted for review and approval prior to preliminary plat review/approval (and any subsequent issuance of a building permit) for any single-family portion of the PD district;

(ii) For a nonresidential, single-family attached, or provisional district PD (or portion of a PD): A detailed site plan and preliminary plat shall be submitted for approval (in accordance with subsection (b)(4)a.3 of this section, and with section 74-254, and with the subdivision regulations in chapter 72) within one year from the approval date of the concept plan for all or some portion of the PD covered by the overall PD concept plan. If a detailed site plan and preliminary plat are not submitted within one year, then the PD concept plan may be subject to review by the planning and zoning commission and the city council to determine its continued validity. If the city determines that the PD concept plan is no longer valid or that the proposed development is no longer viable, then a new PD concept plan (along with a zoning application to amend the PD ordinance and its accompanying concept plan) must be submitted for review and approval prior to detailed site plan and preliminary plat review/approval (and any subsequent issuance of a building permit) for any nonresidential, single-family attached, or provisional district PD or portion of the PD district;

3. *PD site plan (detailed):*

(i) Submission and approval of the detailed PD site plan shall be in accordance with section 74-254, and shall accompany an application for a nonresidential, multifamily, single-family attached, or provisional district planned development zoning if the applicant prefers to submit the detailed site plan in lieu of the required PD concept plan. The detailed PD site plan will establish the final plans for development of the planned development district (or any portion thereof), and it shall substantially conform to the site layout and development data approved on the PD concept plan (adopted along with the PD ordinance). If a PD concept plan was previously approved for the overall PD district, then a detailed PD site plan (along with the required engineering/architectural site construction plans and preliminary plat) may be submitted for only the sections or lots that are proposed for immediate development rather than for the entire PD. If no concept plan was approved with the ordinance establishing the PD, then a concept plan for the entire PD must be submitted and approved prior to approval of a detailed site plan (along with the required engineering/architectural site construction plans and preliminary plat) for only the portions of the PD that are proposed for immediate development (see section 74-254 for site plan requirements and procedures);

(ii) For any single-family residential district (A, SF-E, SF-1, SF-2, SF-3, SF-4, SF-PH, MH), a final plat shall qualify as the site plan;

4. *Lapse, extension and reinstatement.* Lapse, extension and reinstatement of a PD concept plan or PD site plan shall be in accordance with the provisions of section 74-260.

(5) *Approval process and procedures.* The procedure for establishing a planned development district shall follow the procedure for zoning amendments as set forth in article IV of this chapter. This procedure is further expanded as follows for approval of concept or site plan:

a. The planning and zoning commission shall consider and make a recommendation to city council on the concept plan or site plan after holding a public hearing. For the planning and zoning commission to make a recommendation:

1. The applicant submits adequate data with the request for the planned development district to fulfill the requirement for a concept plan or detailed site plan;

2. Information on the concept plan and attached application is sufficient to determine the appropriate use of the land, and the preliminary plat will not deviate substantially from it;

3. If the conditions of subsections (b)(5)a.1 and 2 are not met, then the applicant shall submit any and all additional required information and another public hearing must be held by the planning and zoning commission prior to a recommendation of the concept plan or detailed site plan;

b. After sufficient public notice of a separate public hearing on the application and upon the city council receiving the recommendation from the commission, the city council shall consider the PD application, all development requests and the concept plan or detailed site plan;

c. The ordinance establishing the planned development district shall not be approved or adopted until the concept or site plan is approved by city council and until all other procedural requirements set forth in article VIII of this chapter are satisfied. The concept plan or site plan, architectural plan (elevations), legal description, proof of ownership and other required documents shall be attached to the PD ordinance as an exhibit:

1. The concept plan or site plan may be approved in sections. When the plan is approved in sections, then separate approvals by the planning and zoning commission and city council for the initial and subsequent sections will be required;

2. A concept plan or site plan shall be submitted for approval within six months from the approval of the concept plan for some portion of the concept plan. If a partial development plan is not submitted within six months, the concept plan is subject to review by the planning and zoning

commission and city council. If the entire project is not started within two years, the planning and zoning commission and city council may review the original concept plan to ensure its continued validity. If the city determines the concept is not valid, a new plan must be approved prior to issuing a building permit for any portion of the PD district;

3. Although a public hearing may not be required for the development plan, approval by the planning and zoning commission and city council is still required.

(6) *Written report.* When a zoning request for a PD district is being considered, a written report from the city manager or designated representative, discussing the impact on planning, engineering, water utilities, electric, sanitation, building inspection, tax, police, fire, and traffic, and written comments from the applicable public school district and from private utilities, may be submitted to the planning and zoning commission prior to the commission making any recommendations to the city council. In the event written comments are not forthcoming in a reasonable amount of time, the commission may, at its discretion, make a recommendation to the city council without the comments or advisement.

(7) *Detail site plan.* If three or more buildings are situated on one lot, regardless of the zoning classification, a conceptual plan or a development plan (detail site plan) shall be submitted for consideration and possible approval by the planning and zoning commission and city council. No public hearing is required unless such plan is/are attached to the original zoning amendment or PD ordinance.

(8) *Compliance and record.* All planned development districts approved in accordance with the provisions of this chapter in its original form, or by subsequent amendments thereto, shall be referenced on the zoning district map, and a list of such planned development districts shall be maintained in the city secretary's office. All approved planned development districts shall comply with this article.

(9) *Applicable provisions.* Prior to adoption of the ordinance from which this chapter is derived, the city council had established various planned development districts, some of which are to be continued in full force and effect. The ordinances or parts of ordinances approved prior to this Code shall be carried forth in full force and effect and are the conditions, restrictions, regulations and requirements which apply to the respective planned development districts shown on the zoning map at the date of adoption.

(c) *PD-ED Planned Development-Economic Development District.*

(1) *Purpose and intent.*

a. The PD-ED Economic Development-Planned Development District is a tool that can provide greater flexibility for a variety of large retail and light commercial uses by allowing for unique and innovative concepts in land use not permitted by other zoning districts in this chapter. These projects will promote economic

development while encouraging reliable sales tax revenue streams and enhancing the quality of life for the citizens of the city. While greater flexibility is given to permit special conditions or restrictions which would not otherwise allow the development to occur, procedures are established herein to ensure against misuse of increased flexibility. The approval and creation of a PD-ED district, a successful economic development incentive application and combined with herein specified conditions, the city may choose to participate with the owner/developer in an economic development incentive package;

b. The PD-ED district may only be applied to property of high visibility and has ease of ingress and egress. Two planned development (PD) classifications are created by this subsection (c). Properties adjacent to, within 1,200 feet of or which are tracts with a point of beginning within the 1,200 feet of the Interstate 35 and future Loop 9 corridors may be available for Planned Development-Economic Development Tier 1 (PD-ED Tier 1) classification. Properties adjacent to, within 300 feet of or which are tracts with a point of beginning within the 300 feet of other major arterials (e.g., four-lane divided or larger) may be available for Planned Development-Economic Development Tier 2 (PD-ED Tier 2) classification. Unless otherwise referenced independently, the overall classification shall be referred to as "PD-ED." Each classification, PD-ED Tier 1 and PD-ED Tier 2, is depicted on Illustration B, attached to the ordinance from which this section is derived and made a part of this chapter by reference;

c. All regulations of the underlying base district that are not in conflict with the regulations of the PD-ED district shall apply. In the event of conflict between the regulations of the PD-ED district and the underlying base district, regulations of the PD-ED district shall control.

(2) *Economic development incentives.*

a. Owners or developers of the property have the right to apply for economic development incentives offered by the city, provided the applicant meets all applicable guidelines as set forth in the city's economic development incentive program as adopted by Resolution No. 298-97, as it may be amended. PD-ED district approval is subject to specific requirements satisfying the city's economic development goals as set forth in the city's economic development incentive program;

b. New private capital investment, exclusive of land values and related to targeted retail, commercial and industrial uses will be considered for economic development incentives and will be considered in accordance with the city's economic development incentive program, as it exists and as it may be amended. Targeted uses include large retail facilities, office complexes, shopping and personal service centers, hotels, restaurants, movie theaters, museums or any combination of uses which may be planned, developed or operated as integral land use units either by a single owner or a combination of owners. Further

targeted uses include corporate campuses, business parks, resort uses, business uses related to the telecommunications industry, clean manufacturing uses related to the telecommunications industry or electronic components and logistical warehousing and distribution uses related to the telecommunications industry, electronic components or other high-value products;

c. The incentives will be considered and negotiated on a project-by-project basis commensurate with the quality and character of the development and the extent to which it contributes to accomplishing community character and quality of life objectives. Incentives will be considered for approval by the city council only after community input and public hearing and may include, but are not limited to, expedited development review, permit fee waivers, infrastructure assistance, public-private partnerships and performance-based ad valorem tax abatements. Give-back provisions shall be included in the event of non-performance. The purpose of this criterion is to promote a vigorous, diversified and regionally competitive economy, while creating a balanced tax base to ensure the city's long-term financial ability to respond to the service demands of both new and existing development without placing a disproportionate tax burden on homeowners;

d. At the request of the applicant for a targeted retail, commercial or industrial use exceeding the amount specified in the city's economic development incentive program for new private capital investment, exclusive of land values, the city council may consider approval of certain project-specific waivers or incentives only after community input and public hearing. The waivers or incentives may include, but are not limited to, expedited development review, permit fee waivers, infrastructure assistance, public-private partnerships and performance-based tax abatements. Give-back provisions shall be included in the event of non-performance. Consideration of such waivers or incentives shall precede consideration of the PD-ED.

(3) *Go Green incentives.*

a. The city desires to take a proactive approach in improving the environment. The city recognizes how we grow today will influence not only how we live, but how future generations live. If we unanimously "Go Green" by developing a healthier and more environmentally responsible community, a difference can be realized not only in our community but in the nation and the world;

b. The city is taking a progressive approach in the Go Green movement by making available Go Green development incentives for those projects that seek to mitigate the effects of urbanization, ensure growth does not occur at the expense of environmental quality, preserves natural landscapes and sensitive ecological resources and as much open space as possible;

c. Following are the principles by which the Go Green development incentives will be judged and awarded. In order to qualify for incentives, no less than 50 percent of the following points shall be included in a submitted project:

1. Mix land uses to produce a "live, work, play" community;
2. Take advantage of compact building design;
3. Provide a variety of transportation choices and encourage walkable projects;
4. Design landscape utilizing SmartScape™ or xeriscape criteria;
5. Preserve open space, natural landscape and ecological resources while reducing impervious surfaces;
6. Water conservation (i.e., E.T. irrigation sensors);
7. Promote and utilize recycling;
8. Utilize environmentally friendly lighting sources, appliances, mechanical equipment, etc.; and
9. Exceed the minimum energy standards as adopted in the current International Energy Code (IEC);

d. The incentives will be considered and negotiated on a project-by-project basis commensurate with the quality and character of the development and the extent to which it contributes to accomplishing community goals for improving the environment and quality of life. Incentives will be considered for approval by the city council only after community input and public hearing and may include, but are not limited to, expedited development review, permit fee waivers, infrastructure assistance, public-private partnerships and performance-based ad valorem tax abatements. Give-back provisions shall be included in the event of non-performance. The purpose of this criterion is to promote a vigorous, diversified and regionally competitive economy, while creating a balanced tax base to ensure the city's long-term financial ability to respond to the service demands of both new and existing development without placing a disproportionate tax burden on homeowners;

e. At the request of the applicant who offers a Go Green project and a targeted retail, commercial or industrial use exceeding the amount specified in the city's economic development incentive program for new private capital investment, exclusive of land values, the city council may consider approval of certain project specific waivers or incentives only after community input and public hearing. The waivers or incentives may include, but are not limited to, expedited development review, permit fee waivers, infrastructure assistance, public-private partnerships and performance-based tax abatements. Give-back provisions shall be included in the event of non-performance. Consideration of such waivers or incentives shall precede consideration of the PD-ED;

f. An incentive package available to qualifying developments shall not extend longer than ten years, unless otherwise permitted under the city's economic development incentive program and agreed upon by city council, and will be awarded incrementally depending on the characteristics and quantity of the proposed project.

(4) *Permitted uses.*

a. PD-ED Tier 1:

1. Any permitted use in the base zoning district for the subject property shall be allowed in a PD-ED Tier 1 District;

2. Variations from the base zoning uses shall be identified by the applicant in the zoning request. After consideration by the planning and zoning commission and upon approval by the city council, the permitted uses and conditions necessary for the change shall specifically be identified in the establishing ordinance granting a PD-ED Tier 1 District. The size, location, façade, appearance and method of operation may be specified to the extent necessary to ensure compliance with the purpose of this chapter and the comprehensive plan. The PD-ED Tier 1 District shall conform to all other regulations of the applicable base zoning districts which are not specifically changed or excluded in the granting ordinance;

3. Targeted retail uses for the PD-ED Tier 1 District include land use that qualifies for sales tax or hotel/motel tax generation. These uses include, but are not limited to:

(i) Convenience store;

(ii) Department store;

(iii) Electronic and home appliance store;

(iv) Garden center (five percent outside/sidewalk display);

(v) Grocery store (minimum 20,000 square feet);

(vi) Health-related store;

(vii) Home improvement centers (seasonal outside display only with SUP);

(viii) Medical supplies store;

(ix) Retail service, incidental;

(x) Restaurant (drive-through with SUP)

(xi) Sporting goods store;

4. Targeted professional uses for the PD-ED Tier 1 District include, but are not limited to:

(i) Bank and savings and loan;

(ii) Hospital, clinic and medical facilities;

(iii) Museum or art gallery;

(iv) Neighborhood service (maximum 5,000 square feet);

(v) Professional office complex;

(vi) Radio broadcasting without tower;

5. Targeted leisure/entertainment uses for the PD-ED Tier 1 District include, but are not limited to:

(i) Arts and cultural establishments;

(ii) Commercial amusement (primarily indoor);

(iii) Hotel (minimum 100 units, no outside unit entry);

(iv) Indoor movie theater;

(v) Personal fitness facilities;

(vi) Resort;

6. In unique circumstances, residential uses may be incorporated into the PD-ED Tier 1 District as a mixed use development; however, the residential uses may only constitute a minor portion (less than ten percent) of the use and value generated from the development and may not occupy any ground-level space. The residential development, in whole or in part, will not qualify for economic development incentives, unless the city council, through an economic development agreement, takes such appraised taxable value into account in determining the appropriate incentive;

b. PD-ED Tier 2:

1. Any permitted use in the base zoning district for the subject property shall be allowed in a PD-ED Tier 2 District;

2. Variations from the base zoning uses shall be identified in the zoning request by the applicant. After consideration by the planning and zoning commission and upon approval by the city council, the permitted uses and conditions necessary for the change shall specifically be identified in the establishing ordinance granting a PD-ED Tier 2 District. The size, location, façade, appearance and method of operation may be specified to the extent necessary to ensure compliance with the purpose of this chapter and the comprehensive plan. The PD-ED Tier 2 District shall conform to all other regulations of the applicable base zoning districts which are not specifically changed or excluded in the granting ordinance;

3. Targeted retail uses for the PD-ED Tier 2 District include land use that qualifies for sales tax or hotel/motel tax generation. These uses include, but are not limited to:

(i) Bakery;

(ii) Convenience store;

(iii) Department store;

(iv) Electronic and home appliance store;

(v) Garden center (maximum 15 percent outside display);

(vi) Grocery store (minimum 12,000 square feet);

(vii) Health-related store;

(viii) Home improvement centers (maximum ten percent outside display);

(ix) Medical supplies store;

(x) Retail service, incidental;

(xi) Restaurant (drive-through with SUP);

(xii) Sporting goods store;

4. Targeted professional uses for the PD-ED Tier 2 District include, but are not limited to:

(i) Bank and savings and loan;

(ii) Funeral parlor or mortuary;

(iii) Golf course and country club;

(iv) Greenhouses and nurseries;

(v) Hospital, clinic and medical facilities;

(vi) Museum or art gallery;

(vii) Neighborhood service uses (maximum 5,000 square feet);

(viii) Professional office complex;

(ix) Radio broadcasting without tower;

5. Targeted leisure/entertainment uses for the PD-ED Tier 2 District include, but are not limited to:

(i) Arts and cultural establishments;

(ii) Commercial amusement, inside (outdoor with SUP);

(iii) Hotel (minimum 75 units, no outside unit entry);

(iv) Indoor movie theater;

(v) Miniature golf, driving range and putting course;

(vi) Drive-in movie theater (with SUP);

(vii) Personal fitness facilities;

(viii) Private club with alcoholic beverage sales;

(ix) Resort;

(x) Roller skating rink;

6. Targeted industrial uses for the PD-ED Tier 2 District include, but are not limited to:

(i) Assembly of electronic instruments and devices;

(ii) Automotive repair shop;

(iii) Commercial school;

(iv) Distribution warehouse;

(v) Drugs and pharmaceutical manufacturing;

(vi) Dry cleaning plant or commercial laundry;

(vii) Electronic manufacturing;

(viii) Glass products from previously manufactured glass;

(ix) Instrument and meter manufacturing;

(x) Medical laboratory;

(xi) Optical goods manufacturing;

(xii) Research and scientific laboratories;

7. In unique circumstances, residential uses may be incorporated into the PD-ED Tier 2 District as a mixed use development; however, the residential uses may only constitute a minor portion (less than 20 percent) of the use and value generated from the development and may not occupy any of the ground-level space. The residential development, in whole or in part, will not qualify for economic development incentives unless the city council, through an economic development agreement, takes such appraised taxable value into account in determining the appropriate incentive.

(5) *Conditional uses.* Requested uses which are to be conditioned on other criteria shall be clearly identified and defined by the applicant. Conditional uses shall be considered by the planning and zoning commission and city council, utilizing procedures set forth in article IV of this chapter. If approval is given, the conditions will be detailed in the amending ordinance.

(6) *Permitted accessory uses.* When varying from the uses within the underlying zoning district, the applicant shall provide a list of requested accessory uses and the conditions necessary for change in standards from the underlying zoning district. These permitted accessory uses shall be considered by the planning and zoning commission and city council and, if approved, will be detailed in the amending ordinance.

(7) *Limitation of uses.* Uses prohibited shall be those uses specifically prohibited within the underlying zoning district. The following uses are expressly prohibited within any PD-ED district and cannot be established as a permitted, conditioned or accessory use under any circumstances:

a. Batch plants;

b. Commercial parking lots;

c. Freight forwarding warehouses;

d. Mini-warehouses;

e. Office warehouses;

f. Off-premises/billboard signage;

g. Outside storage of material/equipment;

h. Pawnshops;

i. Retail establishments for used car sales and service;

j. Retail sales of building materials displayed in an unenclosed or incompletely enclosed area with outside storage;

k. Salvage/wrecking yards.

(8) *Density requirements.* The city encourages the applicant to be creative with the design and layout of PD-ED districts. Flexibility may be granted for requirements associated with density, lot size, open space, building coverage and impervious coverage; however, the following are examples of appropriate guidelines. When varying from the guidelines, the applicant shall provide adequate information for consideration:

a. Maximum building height, PD-ED Tier 1 and PD-ED Tier 2:

1. Two stories or 35 feet for the main buildings;

2. One story for accessory buildings;

b. Area regulations:

1. Size of lot:

(i) Minimum lot area:

A. PD-ED Tier 1: ten acres (435,600 square feet);

B. PD-ED Tier 2: two acres (87,120 square feet);

(ii) Minimum lot width:

A. PD-ED Tier 1: 500 feet;

B. PD-ED Tier 2: 200 feet;

C. In the event an I Industrial District achieves access from the PD-ED Tier 1 frontage, the minimum access shall be 50 feet and meet or exceed all required landscaping;

(iii) Minimum lot depth:

A. PD-ED Tier 1: 500 feet;

B. PD-ED Tier 2: 200 feet;

2. Size of yards:

(i) Minimum front yard:

A. PD-ED Tier 1: 60 feet; and

B. PD-ED Tier 2: 30 feet from ultimate right-of-way line of roadway;

C. All yards adjacent to a street shall be considered a front yard;

(ii) Minimum side and rear yard: 15 feet unless adjacent to a residentially zoned property;

(iii) Minimum side and rear yard adjacent to a residential district: 25 feet for a building of 15 feet, and an additional one foot for each foot above 15 feet;

(iv) Interior side yards: The interior side yard setback between two nonresidential buildings may be reduced to zero feet where the two buildings share a common interior lot line, where construction of a party wall in accordance with the city's building codes is used, and when approved by the city council on the site plan following a favorable recommendation by the planning and zoning commission. Where such a reduced side yard setback is utilized, the equivalent open space and landscape plantings and buffers that are normally required along a shared side property boundary shall be provided elsewhere on each respective affected lot (i.e., this requirement shall not be waived but provided elsewhere on site). Furthermore, the applicant shall display on the site plan all required fire access. Approval of a site plan that shows such a reduced zero-foot side yard setback between two nonresidential buildings shall be discretionary in nature and shall be based upon an analysis of the location, the configuration, and the impact and compatibility of the proposed construction with respect to adjacent land uses and structures;

3. Maximum lot coverage: 50 percent, including main and accessory buildings; maximum 80 percent impervious coverage (including all buildings, parking areas, sidewalks, etc.);

4. Maximum floor area ratio (FAR);

   (i) PD-ED Tier 1: 1:1;

   (ii) PD-ED Tier 2: 0.5:1;

5. Maximum building size: The maximum building footprint (first floor) area of a structure shall be determined by applying the lot's size, minimum building setbacks, maximum of 50 percent lot coverage, minimum parking requirement, minimum landscaping percentage and other pertinent development requirements.

(9) *Off-street parking and loading requirements.* Requirements associated with off-street parking shall be initially established in accordance with article XIV of this chapter and the underlying use or zoning district. When varying from these guidelines, the applicant shall provide the method for establishing the new standards and the conditions necessary for the change in standards from those established.

(10) *Exterior building material.* The city encourages the development of properties unique in design and that aids in creating and following through with a theme. The façade of a building should be utilized to create an inviting atmosphere and excitement about the associated business. However, the city also requires materials

to be used that will create integrity of the facility, withstand harsh elements and that will endure time. These requirements allow adequate variations for independent and unique design:

a. Masonry requirements: 100 percent of the exterior of all new buildings (excluding doors and windows) shall be finished in one or more of the following materials indicated below:

   1. Brick, stone, cast stone, rock, marble and granite;

   2. Stucco may be used on up to 40 percent of a building façade but must be an authentic lath and stucco technology. Dryvit type systems (exterior insulation and finish surfaces (EIFS) or Styrofoam™ products may not be used. Control joints in stucco must be coordinated with the architectural design and should be indicated on the plans submitted. No stucco board is permitted;

   3. Architectural glass with less than 20 percent reflectance. However, only a maximum of 25 percent of a building façade may be constructed in architectural glass;

   4. Split-face concrete block, poured-in-place concrete and tilt-wall concrete. Concrete products shall have an integrated color and be textured or patterned. Tilt-wall concrete structures shall include reveals, punch-outs or other similar surface characteristics and adornments to enhance the façade on at least ten percent of each façade;

   5. Allowed wall systems include tilt-up concrete panels and engineered steel wall panels with masonry-like exterior finish. The exterior surface of wall systems must be textured masonry or covered with brick or stone. When tilt-up concrete wall systems are used, the visual effect of the design must reflect the wall support of structural systems that allow attenuated subdivision between openings. Large areas of blank wall, typically seen when such systems are used for retail/industrial/distribution facilities, are not allowed. Rather the exterior wall must be finished providing a predominantly masonry or themed (e.g., Texas star) appearance. Any portion of the tilt-up concrete wall system visually exposed in the building skin must be subdivided in a design that modulates with the features of the building elevation design (such as window bands or lines of structure);

   6. Cementitious board materials (i.e., Hardie® plank) shall not be allowed;

b. Additional accent materials: In addition, a minimum of ten percent of the following accent materials may be allowed, excluding all windows, doors and glass construction, in order to establish a unique architectural theme for the establishment:

   1. Baked-on color finish or anodized aluminum with specific exclusion to galvanized metal;

   2. Glass block; or

3. Tile;

c. Side and rear façades: Sides not facing a road or residential area and rear façades shall be finished in a similar color, texture and material as the main front façade of the building;

d. Architectural features: In addition to the features described in subsection (c)(10)a of this section, the façades of all primary commercial structures which face a street shall also include key architectural features, such as:

1. All primary structures shall be designed with distinguishable architectural elements, such as a distinct base, wall and cornice or top;

2. The use of arcades, covered walkways, architectural awnings, canopies or porticos is required along 25 percent of the primary façade and/or street facing façades;

3. Use of gables is permitted. Gables must be designed as gable parapet, brick gables or craftsmanship gable;

4. No building façade shall extend for a distance greater than three times the mean elevation of the wall's height without having an offset of 15 percent or more of the wall's height. This offset shall extend for a distance equal to at least 25 percent of the maximum length of either adjacent plane;

5. No horizontal wall shall extend for a distance greater than three times the height of the wall without changing height by a minimum of 15 percent of the wall's height. The height change shall continue for a minimum distance equal to at least 25 percent of the maximum length of either adjacent plane;

e. Changes in materials: The location of exterior wall material changes (e.g., brick to stucco or brick to stone) shall have a logical relationship to changes in the form of the structure and not be dictated by the simple economy. Material changes in the same wall plane are prohibited unless the dominant material is terminated with an architectural element, such as a column or an offset. All materials must wrap the corner and change in one of the manners described above;

f. Roof: The implied visible purpose of the roof form is to perform those functions associated with a roof. This is to provide protection, sunshade or water shedding. A roof which exists only to conceal mechanical equipment is not allowed. Roof guidelines are as follows:

1. Sloped roof materials shall be one of the following:

(i) Metal R panel (baked-on color finish or anodized aluminum with specific exclusion to galvanized metal);

(ii) Natural stone;

(iii) High quality clay or concrete tile in warm gray or dark earth tone color range;

(iv) High quality composition shingle with a 40-year warranty or longer. Composition shingles shall be in gray or weathered blend color or other dark color. All roof colors shall be limited to a green, dark bronze or naturally weathered or earth tone color;

2. In instances where pitched roofs are constructed, it is important that the roof mass be balanced with the remainder of the building. Furthermore, design should allow for the intersecting of gables, dormers and other compositional components to achieve asymmetrical balance;

3. Flat roofs shall be concealed behind a parapet or an extension of the wall plane;

4. No plumbing stacks, venting stacks or roof-mounted attic ventilators (except gable or dormer vents) shall penetrate the roof surfaces facing the street. Roof projections must be mounted straight and perpendicular to the ground plane and be painted to blend with the roof color. Roof projections and HVAC equipment mounted on the roof shall be screened from view and shall not be visible from any streets abutting or adjacent to the structure;

5. The minimum roof pitch, visible from the street, shall be 8:12;

g. Outdoor storage and accessory buildings: Any accessory building or storage building, which is allowed under this chapter, shall be of like appearance to the primary building.

(11) *Landscaping and open space requirements.* As the city intends to promote SmartScape™ and xeriscape with the adoption of the ordinance from which this chapter is derived and desires to reward incentives for the use of those practices, the submission of creative open space and landscaping are encouraged.

(12) *Alternatives to SmartScape™ or xeriscape practices.* If the applicant does not desire to utilize SmartScape™ or xeriscape practices or benefit from the incentives associated with those practices, the requirements associated with landscaping and open space shall be initially established in accordance with article III of this chapter and other specific, adopted city ordinances. When varying from the guidelines within the landscaping and open space regulations, the applicant shall provide the method for establishing the new standards and the conditions necessary for the change in standards from those established.

(13) *Utility services.* All utility service lines shall be underground.

(14) *Mechanical equipment.* All air conditioning compressors, boilers, power and meter boxes and satellite dishes must be completely screened from public view. Screening materials must consist of architectural devices that are logical visual extensions of the building design.

(15) *Building services.* All building services (i.e., delivery entrance) must be located on that side of the building which does not front public streets and shall be screened or hidden from the view of adjacent residential uses. Screening materials must consist of architectural devices that are logical visual extensions of the building design.

(16) *Fencing, walls and screening requirements.*

a. In the event that a PD-ED district sides or backs upon any type of residential district, screening is required. See article IV of this chapter for available screening options. Screening shall be erected on the property line separating these districts. The purpose of the screening wall or fence is to provide a visual and protective barrier between the properties;

b. When screening is required between nonresidential and residential uses, it is the responsibility of the nonresidential use to construct and maintain the screening wall;

c. No wall or fence shall be erected in any front or side yard which is adjacent to a public street unless the wall or fence is required to screen the development from an adjacent residential area (particularly if the residence has, or could have, a back yard fence that would be exposed to view from the street if the required screening wall were not extended out to the street right-of-way). In this case, the wall or fence shall be extended out to the street right-of-way line by the developer of the nonresidential development and the wall or fence shall be finished on both sides in a material, manner and color that is compatible to the exterior finish materials used on the main building. Screening walls or fences shall be placed such that they do not impede the visibility of vehicles entering or exiting the nonresidential development;

d. Buffer yards may be allowed in the front yard or side yard of a PD-ED district in a manner that does not impede visibility for vehicles entering and exiting the development. With the construction of buffer yards in the front yard or side yard, masonry monument signs, approximately eight feet tall by ten feet long with uplighting on the face of the sign, shall be constructed immediately interior of the public right-of-way for identification;

e. All wall or fence construction requires a permit;

f. If open storage is approved by the city council, the screening wall or fence shall be a minimum of six feet in height and shall be constructed according to article III of this chapter. No outside storage may exceed the height of the wall, fence or buffer. Outside storage exceeding eight feet shall require approval by the city in the site plan process;

g. Refuse storage areas (e.g., dumpsters) which are not within a screened rear storage area and which are visible from any public right-of-way shall be visually screened by a minimum six-foot solid brick or stone wall on at least three sides. The fourth side, which is to be used for garbage pickup service, must provide a gate to secure the refuse storage area. Each refuse facility shall be located so as

to facilitate pickup by refuse collection agencies. Reinforced concrete-paved pad sites and approaches (according to the city's standard construction details as adopted or as may be amended) shall be provided for refuse facilities for loading and unloading;

h. Plans and specifications for screening walls or fences around ground-mounted utility structures (e.g., transformers, natural gas regulating stations, etc.) shall be approved in writing by the affected utility company and shall be submitted, along with an approval letter from the utility company, to the city manager or designee for review and approval prior to construction of the screening/fencing.

(17) *Lighting.* In an effort to reduce negative effects on the environment, the city encourages the use of Go Green light sources. As stated in subsection (c)(3) of this section, the city desires to participate in this initiative by offering incentives for these practices. Standards of controlling lighting and glare are set forth to reduce the annoyance and inconvenience to property owners and traffic hazards to motorists. These standards are intended to allow reasonable enjoyment of adjacent and nearby properties by their owners and occupants while requiring adequate levels of lighting of parking areas:

a. The city desires to encourage and promote the development of properties unique in design and that which aids in creating or following through with a theme. The outside lighting of a building/complex/project should be utilized to complement an inviting atmosphere and excitement about the associated business. However, the city requires materials to be used that will create integrity of the facility, withstand harsh elements and that will endure time. Minimum standards for light standards are set forth in section 52-24;

b. In order to preserve the night sky and to reduce glare on roadways, pedestrian areas and adjacent properties, light sources (e.g., light bulbs) shall be oriented toward the center of the site or shielded so not to be visible from the nearest property line. This applies to refractory lenses that extend beyond the lighting fixture and are designed to redirect the lighting source horizontally. This does not apply to neon or internally lit signs;

c. The allowable maximum intensity measured at the property line of a residential use in a residential district shall be 0.25 footcandles;

d. Bare bulbs of 15 watts or more or strings of lamps are prohibited, except for temporary lighting not exceeding 45 days per year;

e. All off-street parking areas, for nonresidential uses in a PD-ED district, which are used after dark shall be illuminated beginning at sunset and continuing throughout the hours of use or until 12:00 midnight, whichever is earlier. However, beginning at the close of business for each property and until sunrise, a minimum of 20 percent of all parking area lighting shall remain illuminated. The following minimum requirements are set for lighting of parking areas:

1. On the parking area surface, an average of at least two footcandles, initial measurement, and a minimum average of one footcandle on a maintained basis;

2. Luminaires located in an off-street parking area on privately owned property shall be mounted at a height not to exceed 30 feet as measured vertically from the horizontal surface of the nearest parking pavement.

(18) *Signs.* On-premises signage shall be provided in accordance with the city's sign regulations. The city encourages the use of monument signs constructed of brick or stone and also encourages the submission of a comprehensive sign package to encompass all on-premises and off-premises signage that blends with the overall design of the project and avoids visual blight and pollution:

a. The purpose of this subsection (c)(18) is to allow for a specialized review of signs which may have meritorious design and seek to promote a unique quality for the proposed development, but which require special consideration. The specialized review shall encompass the number, size, height, color, location, lighting or relation to adjacent property, to promote the public health, safety and welfare and be consistent with the goals of community character. The permitting of such evaluation of the physical impact of the proposed sign on adjacent properties, including considerations for size, placement, and lighting, is necessary to ensure compliance with this chapter, to minimize negative effects on the surrounding area, and to ensure adequate mitigation of potentially unfavorable factors, such as the number, size, height, color, location, lighting and other potentially unfavorable impacts. Under these provisions, any form of monument, statue, artwork, tower, signage, as defined herein, or as proposed for a particular development as an architectural feature, other than a prohibited sign, may be presented as a comprehensive sign package for approval as stated herein;

b. No building permit shall be issued in any PD-ED district for any use for which a comprehensive sign package is sought under this section until a special sign permit has been approved according to the requirements of this section;

c. Any person, firm or corporation having a proprietary interest in any property within the city corporate limits requesting approval of a special sign permit as part of a PD-ED district shall submit an application and appropriate filing fee at the same time as the submittal of the zoning application with the following:

1. A clear description of the proposed comprehensive sign package;

2. A drawing, at a scale of not less than one-quarter inch to one foot, including the following:

(i) Each sign proposed;

(ii) The location of each proposed sign on a site plan at a scale of not less than one inch to 200 feet;

3. An 8½-inch by 11-inch photo matte (PMT) reduction of any of the drawings in subsection (c)(18)e.2 of this section;

d. The city council, after public hearing and proper notice to all parties affected and after public hearing and recommendation by the planning and zoning commission, may authorize the issuance of special sign permits for the comprehensive sign package as part of the PD-ED;

e. The planning and zoning commission, in considering and determining its recommendations to the city council on any request for a special sign permit, may require from the applicant plans, information, operating data and expert evaluation concerning the location, function and characteristics of any sign proposed;

f. The city council may, in the interest of the public welfare and to ensure compliance with this chapter, establish conditions of operation, location, arrangement and construction of any use for which a permit is authorized. In authorizing the location of any use listed as a special sign permit, the city council may impose such development standards and safeguards as the conditions and location indicate important to the welfare and protection of adjacent property from glare, offensive view of other undesirable conditions;

g. All special sign permits approved in accordance with the provisions of this subsection (c)(18) shall be referenced on the zoning district map, and a file containing all documents relevant to the application and disposition of such special sign permit shall be maintained by the city manager or designee.

(19) *Temporary outside display.* Temporary (i.e., not long-term or permanent) outside display of seasonal items (e.g., Christmas trees, pumpkins, live vegetation etc.) shall be allowed, but limited to, the following:

a. A permit from the city is required for each seasonal display;

b. Display merchandise may be placed/located at the front façade of the main building but at no time shall display merchandise inhibit pedestrian traffic on the sidewalks, be located in required parking spaces, restrict rights-of-way, or obstruct adjacent properties;

c. Merchandise shall not pose a safety or visibility hazard, nor impede public vehicular or pedestrian circulation, either on site or off site, in any way (i.e., sidewalk sales cannot block the sidewalk or extend out into the street);

d. Merchandise shall only be located in front of the property/business that is selling the items;

e. All outside display items shall be removed at the end of business each day (except for large seasonal items, such as Christmas trees);

f. All merchandise shall be displayed in an orderly manner, and the display area shall be maintained in a clean, litter-free manner.

(20) *Long-term and permanent open storage.* Long-term and permanent open storage is prohibited in the TC district.

(21) *Special requirements.* Driveway spacing (i.e., distance between driveways, measured edge-to-edge):

a. Driveway spacing in a PD-ED Tier 1 shall be determined by the rules and regulations of the Texas Department of Transportation (TxDOT). Driveways accessing a local collector street shall be no less than one driveway per 100 linear feet of frontage. From time to time, adjoining properties may be required to share driveways for ingress and egress;

b. Driveway spacing in a PD-ED Tier 2 shall be no less than one driveway per 200 linear feet of frontage. Driveways accessing a local collector street shall be no less than one driveway per 100 linear feet of frontage. From time to time, adjoining properties may be required to share driveways for ingress and egress;

c. Minimum distance from driveway to street corner shall be no less than 75 feet as measured from the street corner radius point of tangency. Fifty feet may be permitted via site plan approval by city council, upon recommendation by the planning and zoning commission, provided that the lesser distance of 50 feet is approved in writing by the city manager, or designee, or, if located on a state roadway, it is approved in writing by the local representative of TxDOT.

(22) *Submittal requirements.* To facilitate understanding of the request during the review and public hearing process, the concurrent submission of a concept plan for the proposed project shall be required along with the PD-ED zoning application:

a. *Concept plan.* A concept plan shall be submitted by the applicant at the time of the PD-ED zoning request. The plan shall show the applicant's intent for the use of the land within the proposed PD-ED district in a graphic manner and, as may be required, supported by written documentation of proposals and standards for development. The city may prepare application forms that further describe and explain the following requirements:

1. A concept plan shall be submitted with any zoning district allowed under this chapter and shall clearly show all pertinent aspects of the type and nature of the proposed development. The concept plan shall show the types of uses proposed; access, topography and boundaries of the PD-ED area; existing physical features of the site; existing and proposed streets, alleys, easements and lot lines; location of existing or proposed public facilities; building heights and locations; parking areas and ratios; fire lanes; screening and landscaped areas; project phasing and scheduling; and other pertinent development data to adequately describe the proposed development;

2. A detailed site plan and preliminary plat shall be submitted in accordance with this chapter for approval within one year from the approval date of the concept plan for all or some portion of the PD-ED district covered by the overall PD-ED concept plan. If the detailed site plan and preliminary plat are not submitted within one year, then the PD-ED concept plan may

be subject to review by the planning and zoning commission and the city council to determine its continued validity. If the city determines that the PD-ED concept plan is no longer valid or that the proposed development is no longer viable, then a new PD-ED concept plan, along with a PD-ED zoning application to amend the PD-ED ordinance and its accompanying concept plan, must be submitted for review and approval prior to detailed site plan and preliminary plat review/approval and any subsequent issuance of a building permit for any portion of the PD-ED district;

b. *PD-ED site plan (detailed) and preliminary plat.* Submission and approval of the detailed PD-ED site plan shall be in accordance with this chapter and shall accompany the preliminary plat. The detailed PD-ED site plan will establish the final plans for development of the PD-ED district, or any portion thereof, and it shall substantially conform to the concept plan and development data approved on the city council. A PD-ED site plan, along with the required engineering and architectural site construction plans and preliminary plat, may be submitted for only the sections or lots that are proposed for immediate development rather than for the entire PD-ED district. Building façade (i.e., elevation) plans shall be submitted for review and approval along with the site plan. Façade plans shall clearly show how the buildings will look, especially as viewed from the major thoroughfare upon which the property faces or sides and will portray a reasonably accurate depiction of the materials and colors to be used. The city manager, or designee, may require submission of additional information and materials (possibly actual samples of materials to be used) during the site plan review process;

c. *Lapse, extension or reinstatement.* Lapse, extension or reinstatement of PD-ED concept plan or PD-ED site plan shall be in accordance with the provisions of article VIII of this chapter.

(23) *Approval process and procedures.*

a. The procedure for establishing a PD-ED district shall follow the procedures for zoning amendments as set forth in article IV of this chapter;

b. The ordinance establishing the PD-ED district shall not be adopted until the accompanying concept plan is approved by the city council, and until all other procedural requirements set forth in this chapter are satisfied;

c. When considering a PD-ED zoning request, the planning and zoning commission and/or city council may require a written report from the city manager, or designee, discussing the project's impact upon planning, engineering, water and wastewater utilities, electric, sanitation, building inspection, tax, police, fire and traffic, as well as written comments from applicable public agencies (e.g., school district, TxDOT, etc.). In the event written comments and advisement

are not forthcoming in a reasonable amount of time, the commission may, at its discretion, make a recommendation to the city council without the comments or advisement;

d. Upon final approval, the PD-ED district, in accordance with the provisions of this chapter, shall be prefixed by a "PD-ED1" or "PD-ED2" designation and assigned a unique identification number (e.g., PD-ED1-1, PD-ED2-1) or title (e.g., PD-ED1-Target, PD-ED2-Hampton Plaza) and shall also be referenced on the official zoning map. A list of such PD-ED districts, showing the developer's (i.e., zoning applicant's) name, acreage and location of the property, base zoning districts, PD-ED ordinance adoption date, uses permitted and any other special stipulations of each PD-ED district, shall be maintained in the city secretary's office;

e. Prior to the adoption of the ordinance from which this chapter is derived, the city council previously established certain PD-ED districts, some of which are to be continued in full force and effect.

(d) *Specific use permits (SUPs).*

(1) *Purpose and intent.*

a. *Nature of conditional, or specific, use.* A conditional or specific use is a land use which, because of its unique nature, is compatible with the permitted land uses in a given zoning district only upon a determination that the external effects of the use in relation to the existing and planned uses of adjoining property and the neighborhood can be mitigated through imposition of certain standards and conditions. This subsection (d), along with the comprehensive master plan, sets forth the standards used to evaluate proposed conditional uses and the procedures for approving specific use permit applications;

b. *Permit required.* No conditional use shall be established and no building permit shall be issued for any use designated as a conditional use within any zoning district until a specific use permit (SUP) is issued in accordance with the provisions of this subsection (d). An application for a specific use permit shall be accompanied by a concept plan or a detailed site plan prepared in the manner described in article VIII of this chapter. The concept plan or site plan shall illustrate the proposed use to be established, its relationship to adjoining properties, and how it meets the approval standards set forth in article VIII of this chapter.

(2) *Status of conditionally permitted uses.* The following general rules apply to all conditional uses:

a. The designation of a use in a zoning district as may be permitted by SUP in this subsection (d) does not constitute an authorization or assurance that such use will be approved;

b. Approval of a specific use permit shall authorize only the particular use for which the SUP is issued. An SUP may only be issued to the identified property and to the applicant. Any change in applicant shall render the SUP null and void. An SUP cannot be transferred to any other owner, applicant or property;

c. No use authorized by a specific use permit shall be enlarged, extended or relocated, nor may the number of dwelling units be increased, unless an application is made for approval of a new specific use permit in accordance with the procedures set forth in this subsection (d);

d. Development of the use shall not be carried out until the applicant has secured all the permits and approvals required by this chapter, this Code, and any permits that may be required by regional, state or federal agencies.

(3) *Application for specific use permit.*

a. *Application requirements.* An application for a specific use permit may be submitted by the property owner or by the property owner's designated representative to the city. The application shall be accompanied by a concept plan or site plan prepared in accordance with the requirements of article VIII of this chapter. If a base zoning district amendment is required or requested, such rezoning application shall accompany the application for a specific use permit;

b. *Subdivision approval.* If the proposed use requires a division of land or requires platting the property, an application for subdivision approval (e.g., site plan or preliminary plat) shall be submitted in conjunction with the application for a specific use permit (see subdivision regulations in chapter 72). Approval of the specific use permit shall not become effective until final approval of the subdivision application, provided that, if the land is to be divided and developed in phases, the approval of the specific use permit shall take effect upon final plat approval of the phase of the subdivision containing the property on which the conditional use is to be located.

(4) *Procedures for specific use permits.*

a. *Planning and zoning commission recommendation.* Upon receipt of the recommendation from the city manager, the planning and zoning commission shall advertise, post and conduct a public hearing in order to formulate its recommendations to the city council on the specific use permit application. Following the public hearing and determination of conformance with the comprehensive master plan, the planning and zoning commission shall recommend approval, approval subject to modification, or denial of the proposal to the city council in accordance with section 74-49(g). If the appropriateness of the use cannot be ensured at the location, the planning and zoning commission shall recommend denial of the application as being incompatible with existing uses or with other uses permitted by right in the district;

b. *City council action.* The city council shall be the final decision-maker on applications for specific use permits. Following a duly advertised and posted public hearing, consideration of the planning and zoning commission's recommendations and determination of conformance with the comprehensive master plan, the city council shall approve, modify or deny the proposal for a specific use permit in accordance with this subsection (d). If the appropriateness of the use cannot be ensured at the location, the application for specific use permit shall be denied as being incompatible with existing uses or with other uses permitted by right in the district.

(5) *Approval criteria and required findings.*

a. *Factors for consideration.* When considering applications for a specific use permit, the planning and zoning commission in making its recommendation and the city council in rendering its decision on the application shall, on the basis of the concept plan/site plan and other information submitted, evaluate the impact of the conditional use on, and the compatibility of the use with, surrounding properties and neighborhoods to ensure the appropriateness of the use at a particular location. The planning and zoning commission and the city council shall specifically consider the extent to which:

1. The proposed use at the specified location is consistent with the goals, objectives and policies contained in the adopted comprehensive master plan;
2. The proposed use is consistent with the general purpose and intent of the applicable zoning district regulations;
3. The proposed use meets all supplemental standards specifically applicable to the use as set forth in article XIII of this chapter;
4. The proposed use is compatible with and preserves the harmony, character and integrity of adjacent development and neighborhoods and, as required by the particular circumstances, includes improvements or modifications either on-site or within the public rights-of-way to mitigate development-related adverse impacts, including, but not limited to:
   (i) Situational suitability, which may include, but is not limited to, lighting, noise restrictions, hours of operation, business regulations and loading zones;
   (ii) Adequate ingress and egress to property and proposed structures thereon with particular reference to vehicular and pedestrian safety and convenience, and access in case of fire;
   (iii) Off-street parking and loading areas;
   (iv) Refuse and service areas;
   (v) Utilities with reference to location, availability, and compatibility;
   (vi) Screening and buffering, features to minimize visual impacts, or setbacks from adjacent uses;

(vii) Control of signs, if any, and proposed exterior lighting with reference to glare, traffic safety, economic effect, and compatibility and harmony with properties in the district;

(viii) Required yards and open space;

(ix) Height and bulk of structures;

(x) Hours of operation;

(xi) Exterior construction material and building design; and

(xii) Roadway adjustments, traffic control devices or mechanisms, and access restrictions to control traffic flow or divert traffic as may be needed to reduce or eliminate development-generated traffic on neighborhood streets;

5. The proposed use is not materially detrimental to the public health, safety, convenience and welfare, or results in material damage or prejudice to other property in the vicinity;

b. *Conditions.* In approving the application, the planning and zoning commission may recommend, and the city council may impose, such additional conditions (e.g., hours of operation, etc.) as are reasonably necessary to ensure compliance with these standards and the purpose and intent of this section, in accordance with the procedures in article IV of this chapter. The additional conditions shall exceed the minimum standards contained herein or in any other applicable provision of this Code, and they cannot, in effect, relax or grant relief from any of the city's minimum standards (see subsection (d)(5)c of this section). Any conditions imposed shall be set forth in the ordinance approving the conditional use and shall be incorporated into or noted on the concept plan or site plan for final approval. Other than additional conditions specifically amended or altered in the approving ordinance or site plan, all other district regulations of the base zoning district shall apply. The city manager or designee shall verify that the plan incorporates all conditions set forth in the ordinance authorizing the conditional use and shall sign the plan to indicate final approval. The city shall maintain a record of such approved conditional uses and the site plans and conditions attached thereto;

c. *Prohibition on waivers and variances.* The foregoing additional conditions (i.e., standards of development for the SUP) shall not be subject to variances that otherwise could be granted by the zoning board of adjustment, nor may conditions imposed by the city council subsequently be waived or varied by the ZBA. In conformity with the authority of the city council to authorize conditional uses, the city council may waive or modify specific standards otherwise made applicable to the use by this chapter, to secure the general objectives of this section; provided, however, that the city council shall not waive or modify any approval factor set forth in subsection (a) of this section;

d. *General provisions of specific use permit.* A specific use permit shall contain the following provisions, among any others deemed necessary and advisable by the city council for the conduct of operation of a particular use and to ensure continuation of situational suitability:

1. The specific use permit is specific to an identified physical or legal location and to the owner/applicant and shall not be transferred to any other location, entity or person without the approval of the city council in accordance with the procedures for approval of a new SUP; and

2. Any violations of the terms and conditions of the specific use permit shall render the SUP null and void without further notice or hearing.

(6) *Expiration and extension.* A specific use permit may be rescinded by the city council, on its own motion and at its discretion, for failure to commence development or for failure to extend the time for performance for the concept plan or site plan approved along with the SUP.

(7) *Amendment.* No proposed or existing building, premises or land use authorized as a conditional use may be established, enlarged, modified, structurally altered, or otherwise changed from that approved in the specific use permit, unless such amendment is authorized in accordance with the standards and procedures set forth in this subsection (d), and the specific use permit and approved concept plan or site plan are amended accordingly.

(8) *Other regulations.* The zoning board of adjustment shall not have jurisdiction to hear, review, reverse, or modify any decision, determination, or ruling with respect to the specific land use designated by any specific use permit.

(9) *Use regulations.* Uses allowed by SUP are specified in section 74-352.

(10) *Identification of specific use permits.* All SUPs approved in accordance with the provisions of this chapter, as may be amended, shall be prefixed by an SUP designation and assigned a unique identification number (e.g., SUP-1, SUP-2, SUP-3, and so on), and shall also be referenced on the zoning map. A list of such SUPs, showing the developer's (i.e., zoning applicant's) name, acreage and location of the property, base zoning districts, SUP ordinance adoption date, uses permitted and any other special stipulations of each SUP, shall be maintained in the city secretary's office.

(11) *Prior specific use permit ordinances remaining in effect.* Prior to adoption of the ordinance from which this chapter is derived, the city council previously established certain SUPs, some of which are to be continued in full force and effect. The ordinances or parts of ordinances approved prior to the effective date of the ordinance from which this chapter is derived shall be carried forth in full force and effect and are the conditions, restrictions, regulations and requirements which apply to the respective SUPs shown on the zoning map as of the effective date of the ordinance from which this chapter is derived. Each prior SUP ordinance is assigned

a unique identification number (e.g., SUP-1, SUP-2, SUP-3, and so on), and subsequent SUP ordinances adopted after the effective date of the ordinance from which this chapter is derived shall be similarly numbered for identification purposes.

(Code 1996, ch. 14, exh. 14A, art. IX, § 4; Ord. No. O-03-24, 1-23-2024)

Sec. 74-294. Obsolete districts.

The zoning regulations of this section shall apply only to planned development districts approved prior to the effective date of the ordinance from which this chapter is derived. This section contains the following types of obsolete zoning regulations:

(1) *Former zoning districts.* The SF-5, BP and HC districts have been removed from the remainder of this chapter and shall not henceforth be applied to any property in the city. The standards of these districts shall continue to apply only in planned development districts approved prior to the effective date of the ordinance from which this chapter is derived that reference the regulations of these districts in the adopting ordinance;

(2) *Modified dimensional regulations.* Some of the dimensional regulations for single-family detached dwellings have been modified as of the effective date of the ordinance from which this chapter is derived. The original regulations existing prior to the effective date of the ordinance from which this chapter is derived and retained in this section shall continue to apply only to planned development districts approved prior to the effective date of the ordinance from which this chapter is derived that reference the dimensional regulations of such districts in the adopting ordinance;

(3) *Obsolete use.* Some planned development districts approved prior to the effective date of the ordinance from which this chapter is derived authorize the development of single-family detached (medium density) dwellings. The development standards for single-family detached (medium density) dwellings contained in this section shall continue to apply to such districts;

(4) *Obsolete planned development standards.* Prior to the effective date of the ordinance from which this chapter is derived, the city's zoning ordinance contained specific development standards for uses other than single-family detached (medium density) dwellings in planned development districts. These standards applied in planned development districts where no other standards were specifically referenced in the adopting ordinance. These standards shall continue to apply to such districts but shall not be applicable to planned development districts approved after the effective date of the ordinance from which this chapter is derived.

(Code 1996, ch. 14, exh. 14A, art. IX, § 5)

Secs. 74-295—74-321. Reserved.

ARTICLE X. ZONING DISTRICT MAP

Sec. 74-322. Purpose.

The zoning regulations and districts as herein established have been prepared in consonance with the adopted comprehensive plan. The regulations are designed to promote the health, safety, morals and general welfare of the city. They have been designed to lessen the congestion in the streets; to secure safety from fire, panic and other dangers; to ensure adequate light and air; to prevent the overcrowding of land, to avoid undue concentration of population; to facilitate the adequate provision of transportation, circulation, water, sewerage, schools, parks, and other public requirements. They have been made with reasonable consideration, among other things, for the character of the district and its peculiar suitability for the particular uses specified; and with a view to conserving the value of buildings and encouraging the most appropriate use of land throughout the city.
(Code 1996, ch. 14, exh. 14A, art. X, § 1; Ord. No. O-03-09, 4-20-2009)

Sec. 74-323. Zoning map.

(a) *Division of city into boundaries.* The city is divided into zones, or districts, and the boundaries of zoning districts set out herein are delineated upon a zoning district map (the zoning map) of the city, adopted as a part of Ordinance No. O-06-18 as if the same were set forth herein in detail.

(b) *Original zoning map.* One original of the zoning map shall be filed in the office of the city secretary and labeled as "Official Zoning Map of the City of Glenn Heights, Texas, Exhibit A to Ordinance No. O-06-18." This original shall be the official zoning map and shall bear the signature of the mayor and attestation of the city secretary. This original shall not be changed in any manner. In case of any question, this original, together with subsequent amending ordinances, shall be controlling. Reproductions for informational purposes may be made of the official zoning map.

(c) *Replica zoning map.* An additional copy (replica copy) of the official zoning map shall be placed in the office of the city manager or designee. The replica copy shall be used for reference and shall be maintained up-to-date by posting thereon all subsequent amendments, including annexations.

(d) *Changes or amendments.* Any changes or amendments made to the zoning map shall be made on the replica copy promptly after the amendment has been approved by the city council, together with a descriptive entry on the map that shows the ordinance number and the date upon which each official action was taken by the city council to amend the zoning map, and the effective date of such map change.
(Code 1996, ch. 14, exh. 14A, art. X, § 2; Ord. No. O-06-18, 6-5-2018)

Sec. 74-324. Delineation and interpretation of district boundaries.

The district boundary lines shown on the zoning map are usually along streets, alleys, property lines, or extensions thereof. Where uncertainty exists as to the boundaries of districts as shown on the official zoning map, the following rules shall apply:

(1) Boundaries indicated as approximately following the centerlines of streets, highways or alleys shall be construed to follow such centerlines;

(2) Boundaries indicated as approximately following platted lot lines shall be construed as following such lot lines;

(3) Boundaries indicated as approximately following city limits shall be construed as following city limits;

(4) Boundaries indicated as following stream lines shall be construed to follow such stream lines, and in the event of change in the stream line shall be construed as moving with the actual stream line;

(5) Boundaries indicated as following railroad lines shall be construed to be located along the centerline of the railroad right-of-way lines;

(6) Boundaries indicated as parallel to or extensions of features indicated in subsections (1) through (5) of this section shall be so construed. Distances not specifically indicated on the original zoning maps shall be determined by the scale of the map;

(7) When any street, alley, or other public way is vacated by official action of the city council or whenever such area is franchised for building purposes, the zoning district line adjoining each side of such street, alley, or other public way shall be automatically extended to the centerline of such vacated street, alley, or way, and all areas so involved shall then and henceforth be subject to all regulations of the extended districts;

(8) The zoning classification applied to a tract of land adjacent to a street shall extend to the centerline of the street unless, as a condition of zoning approval, it is stated that the zoning classification shall not apply to the street;

(9) Where physical features on the ground are at variance with information shown on the official zoning district map or when there arises a question as to how or whether a parcel of property is zoned and such question cannot be resolved by the application of sections 74-322 and 74-323, the property shall be considered as classified A Agricultural District in the same manner as provided for newly annexed territory;

(10) If the zoning of property is invalidated by a judgment of a court of competent jurisdiction, the property shall be considered classified as A Agricultural District in the same manner as provided for newly annexed territory until such time as the property can be rezoned;

(11) Zoning changes which are still valid and which were made between the effective date of the previous version of this chapter (Ordinance No. O-10-08, as amended), adopted on April 21, 2008, and the effective date of the ordinance from which this chapter is

derived are indicated in approximate locations on the zoning map. For exact legal descriptions, refer to adopting ordinances for each particular permanent zoning change.

(Code 1996, ch. 14, exh. 14A, art. X, § 2; Ord. No. O-03-09, 4-20-2009)

Secs. 74-325—74-351. Reserved.

ARTICLE XI. PERMITTED USES

Sec. 74-352. Use charts.

The use of land or buildings shall be in accordance with those listed in the following use charts. No land or building shall hereafter be used and no building or structure shall be erected, altered, or converted other than for those uses specified in the zoning district in which it is located. The following legend indicates the status of each land use in a corresponding district:

X: Permitted

____: Not Permitted

S: Specific Use Permit

a. For clarification and understanding of each use set out below, see section 74-2;

b. If a use is not listed or if the designation remains blank, it is not allowed in the zoning district. (see the legend above).

(Code 1996, ch. 14, exh. 14A, art. XI, § 1; Ord. No. O-03-09, 4-20-2009; Ord. No. O-14-15, § 1, 10-20-2015; Ord. No. O-13-15, § 1, 11-16-2015; Ord. No. O-15-15, § 1, 12-1-2015; Ord. No. O-16-24, exh. A, 9-3-2024)

Sec. 74-353. Classification of new and unlisted uses.

It is recognized that new types of land use will develop and arise in the future, and forms of land use not anticipated may seek to locate in the city and the possible change in intensity of use for a listed use may occur. In order to provide for such changes and contingencies, a determination as to the appropriate classification of any new or unlisted form of land use, or modification for listing of a use of land, shall be made as follows:

(1) Initiation:

a. A person, city department, the commission or the city council may propose zoning amendments to regulate new and previously unlisted uses;

b. A person requesting the addition of a new or unlisted use shall submit to the city manager or designee all information necessary for the classification of the use, including, but not limited to:

1. The nature of the use and whether the use involves dwelling activity, sales, services or processing;
2. The type of product sold or produced under the use;
3. Whether the use has enclosed or open storage and the amount and nature of the storage;
4. Anticipated employment typically associated with the use;
5. Transportation requirements;
6. The nature and time of occupancy and operation of the premises;
7. The off-street parking and loading requirements;
8. The amount of noise, odor, fumes, dust, toxic materials and vibration likely to be generated;
9. The requirements for public utilities, such as sanitary sewer and water and any special public services that may be required; and
10. Impervious surface coverage.

(2) The city manager or designee shall refer the question concerning any new or unlisted use to the commission requesting an interpretation as to whether a new use shall be permitted or into which zoning district a new use may be placed. The referral of the use interpretation question shall be accompanied by a statement of facts from the applicant, if requested by a city department, from the city manager or designee. This statement of facts shall be directed by items delineated in subsection (1)b of this section. An amendment to this chapter shall be required as set forth in section 74-135.

(3) The planning and zoning commission shall consider the nature and described performance of the proposed use and its compatibility with the uses permitted in the various districts and determine the zoning district within which such use is most similar and should be permitted, whether by right or by SUP.

(4) The planning and zoning commission shall transmit its findings and recommendations to the city council as to the classification proposed for any new or unlisted use. The city council shall, by zoning amendment, approve or deny the recommendation of the planning and zoning commission or make such determination concerning the proper placement of such use as is determined appropriate based upon its findings. If approved, the new or unlisted use shall be amended in the use charts of this chapter according to article IV of this chapter after notification and public hearing as required.

(5) Standards for new and unlisted uses may be interpreted by the city manager or designee as those of a similar use. When determination of the appropriate zoning district and minimum requirements cannot be readily ascertained, the same process outlined in subsections (1), (2), and (3) of this section shall be followed for determination of the new standards. The decision of the city manager or designee may be appealed according to the process outlined in subsections (2), (3), and (4) of this section.

(Code 1996, ch. 14, exh. 14A, art. XI, § 2)

Sec. 74-354. Special residential use; home occupation.

(a) *General regulations.* The following are the general regulations for home occupations:

(1) *Purpose.* Standards for controlling home occupations are set forth to minimize annoyance and inconvenience to neighboring property owners within residential areas. These standards are intended to allow reasonable and comfortable enjoyment of adjacent and nearby property by their owners and by occupants of neighboring residential dwellings, while providing opportunities for the pursuit of home-based businesses.

(2) *Special provisions for home occupations.*

a. Home occupations shall be permitted as accessory use in single-family residential zoning districts A, SF-E, and SF-1, provided that they comply with all restrictions herein;

b. The occupation shall produce no alteration or change in the character or exterior appearance of the principal building from that of a residential dwelling, and performance of the occupation activity shall not be visible from the street;

c. The use shall be incidental and secondary to the use of the premises for residential purposes, and shall not utilize floor area exceeding 20 percent of the combined gross floor area of dwelling unit and any accessory buildings that are used for the home occupation (in no case shall the combined floor area utilized for a home occupation exceed 500 square feet);

d. The occupation shall not employ more than one person who is not a member of the household in which the home occupation occurs;

e. Not more than two patron or business-related vehicles shall be present at one time, and the proprietor shall provide adequate off-street parking on the property where the use is located;

f. The operation of such an occupation shall be between the hours of 8:00 a.m. and 6:00 p.m. for outdoor activities, and between 7:00 a.m. and 10:00 p.m. for indoor activities;

g. One commercial vehicle, capacity of one ton or less (according to the manufacturer's classification), may be used or parked (behind the front building line) on the property in connection with the home occupation, but the vehicle may not be parked in the street or within the front yard setback;

h. The occupation activity shall not increase vehicular traffic flow beyond what normally occurs within a residential district, and shall not require regular and frequent deliveries by large delivery trucks or vehicles with a rated capacity in excess of 1.5 tons, according to the manufacturer's classification;

i. There shall be no outside storage, including trailers, or outside display related to the home occupation use;

j. No mechanical or electrical equipment shall be employed on the premises other than that which is customarily found in a home environment, and that which is customarily associated with a hobby or a vocation which is conducted solely for pleasure and not for profit or financial gain;

k. The home occupation shall not generate noise, vibration, glare, fumes/odors, heat or electrical interference beyond what normally occurs within a residential district;

l. The occupation shall not require the use of chemicals on the property that are noxious or hazardous to the welfare of the neighborhood;

m. The home occupation shall not involve the use of advertising signs or window displays, or any other device that calls attention to the business use of the premises through audio or visual means;

n. Inventory for the home occupation of any commodity for sale located on the premises shall not occupy or utilize floor area exceeding the allowed 20 percent (and not to exceed 500 square feet) as identified in subsection (a)(2)c of this section; and

o. The occupation shall not be harmful or detrimental to the health, welfare and safety of the neighborhood, nor shall it interfere with the comfortable enjoyment of life, property and recreation by residents of the area.

(b) *Applicability of other regulations.* Home occupations shall also be subject to any and all other provisions of local, state or federal regulations and laws that govern such uses.

(c) *Uses allowed as home occupations.* Subject to the provisions of subsection (a)(2) of this section, home occupations may be limited in the use charts but can include the following uses:

(1) Office facility of an accountant, architect, landscape architect, attorney, engineer, consultant, insurance agent, realtor, broker, or similar profession;

(2) Author, artist or sculptor;

(3) Dressmaker, seamstress or tailor;

(4) Music/dance teacher, or similar types of instructor, provided that instruction shall be limited to no more than one pupil at a time;

(5) Individual tutoring and home schooling;

(6) Millinery;

(7) Office facility of a minister, rabbi, priest or other clergy;

(8) Home crafts, such as rug weaving, model making, etc.;

(9) Office facility of a salesperson, sales or manufacturer's representative, etc., provided that no retail or wholesale transactions or provisions of services are personally and physically made on the premises;

(10) Repair shop for small electrical appliances, cameras, watches/clocks, and other small items, provided that the items can be carried by one person without using special equipment, provided that there are no items stored or displayed outside, and provided that the items are not equipped with an internal combustion engine;

(11) Food preparation establishments, such as cake making/decorating and catering, provided that there is no on-premises consumption by customers, and provided that all aspects of the business comply with all state and local health regulations;

(12) Registered family homes (see definition in section 74-2), in compliance with applicable state laws, which are incorporated herein by reference, with no more than four children;

(13) Swimming lessons and water safety instruction, provided that such instruction involves no more than six pupils at any one time; and

(14) Bed and breakfast facility (see definition in section 74-2), provided that no more than five guests are accommodated/served at a time.

(d) *Uses prohibited as home occupations.* Home occupations shall not, in any event, be deemed to include the following uses:

(1) Animal hospitals or clinics, commercial stables, or kennels;

(2) Schooling or instruction, except swimming/water safety classes and home schooling with no more than one pupil at one time;

(3) Restaurants or on-premises food or beverage (including private clubs) consumption of any kind, except for limited food/meal consumption associated with the operation of a licensed registered family home or a bed and breakfast facility;

(4) Automobile, boat or trailer paint or repair shops; small engine or motorcycle repair shops; welding shops; large household appliance repair shops; or other similar type of businesses;

(5) Office facilities for a doctor, dentist, veterinarian or other medical-related professions;

(6) On-premises retail or wholesale sales of any kind, except for items that are produced entirely on the premises in conformance with this chapter, and except for occasional garage sales (see subsection 74-354(c)(9) of this section);

(7) Commercial clothing laundering or cleaning;

(8) Mortuaries or funeral homes;

(9) Trailer, vehicle, tool or equipment rentals;

(10) Repair shops or services, except as specifically provided in subsection (c)(10) of this section;

(11) Drapery or furniture upholstery shops;

(12) Antique, gift or specialty shops;

(13) Repair shops for any items having internal combustion engines; and

(14) Any uses that would be defined by the building code as assembly, factory/industrial, hazardous, institutional or mercantile occupancy.

(e) *Home occupation uses not classified.* Any use that is neither expressly allowed nor expressly prohibited in subsection (c) or (d) of this section, respectively, is considered prohibited, unless and until such use is classified by amendment to this chapter upon recommendation by the planning and zoning commission and approval by the city council, as required for any zoning amendment.

(f) *Effect upon existing home occupations.*

(1) Any home occupation that was legally in existence as of the effective date of the ordinance from which this chapter is derived and that is not in full conformity with the provisions herein shall be deemed a legal nonconforming use, and is subject to the provisions of section 74-192(a), provided that the owner/proprietor of such home occupation registers the business with the city within 90 days of the effective date of the ordinance from which this chapter is derived, and provided that the home occupation use was not in violation of any other local, state or federal law or regulation on that date. Proof of the existence of such home occupation use prior to the effective date of the ordinance from which this chapter is derived shall be required upon registration;

(2) Any home occupation that was legally in existence as of the effective date of the ordinance from which this chapter is derived and that conforms with (i.e., is not in violation of) the provisions herein shall be authorized to continue, provided that the home occupation use is registered with the city as described in subsection (a) of this section.

(Code 1996, ch. 14, exh. 14A, art. XI, § 3)

Sec. 74-355. Modular or industrialized housing.

A modular home may be permitted in the MH Manufactured Home District only provided that the following requirements are met:

(1) The dwelling meets or exceeds all building code requirements that apply to other dwelling units concerning on-site construction;

(2) The dwelling conforms to all applicable zoning standards for the respective zoning district;

(3) The dwelling is affixed to a permanent foundation;

(4) The building official is so notified in writing for the purpose of establishing procedures for the inspection, issuing of building permits, and compliance with V.T.C.A., Occupations Code ch. 1202.

(Code 1996, ch. 14, exh. 14A, art. XI, § 4)

Secs. 74-356—74-383. Reserved.

ARTICLE XII. PROVISIONAL DISTRICT SPECIAL REQUIREMENTS

Sec. 74-384. Recreational facilities.

Each provisional district shall provide recreational facilities designed for use by the residents and guests of residents of the project.

(1) Recreational facilities shall consist of swimming pools for projects with 30 or more dwelling units and a swimming pool for each additional 100 dwelling units or fraction thereof;

(2) One playground area shall be provided for each 50 dwelling units, or fraction thereof. The playground shall contain a minimum of five pieces of play equipment. The playground equipment shall be of heavy-duty and weather-resistant construction, such as is normally used in public parks or on public school playgrounds.

(Code 1996, ch. 14, exh. 14A, art. XIII, § 1)

Sec. 74-385. Community building.

Each complex or subdivision shall have a community building that meets all required exterior construction standards and is available for use by all residents and guests of residents of the project.
(Code 1996, ch. 14, exh. 14A, art. XIII, § 2)

Sec. 74-386. Swimming pools.

Swimming pools, spas and hot tubs shall comply with the standards set forth in the ICC International Swimming Pool and Spa Code, adopted in section 50-27, and other provisions of this Code pertaining to same. All swimming pools shall be enclosed behind the main structure.
(Code 1996, ch. 14, exh. 14A, art. XIII, § 3)

Sec. 74-387. Usable open space.

Each lot or parcel of land, which is within a provisional district shall provide, within the same project, usable open space (as defined below) in accordance with the following requirements:

Number of Bedrooms or Sleeping Rooms	*Amount of Open Space for Each Sleeping Room*
1 or less	600 square feet
Each additional bedroom over 1	300 square feet

(1) An area of common usable open space shall have a slope not exceeding ten percent and shall have no dimension of less than ten feet and may include landscaping, walkways, recreational facilities, water features, playgrounds and decorative objects, such as artwork or water fountains. Usable open space shall not include rooftops, accessory buildings, parking areas, driveways, turnaround areas, or the right-of-way or easement for streets or alleys;

(2) At the time of site plan approval, the planning and zoning commission may recommend and the city council may approve credit for usable open space requirements under the following conditions:

a. Up to three square feet for each one square foot of area provided for the following recreational facilities:

1. Swimming pools, tennis courts, racquetball courts, or similar facilities;
2. Decks, patios, or lounge areas adjacent to or within ten feet of swimming pools;
3. Children's play areas developed with play equipment as identified in section 74-384(2);
4. Portions of recreational buildings dedicated to the use of residents and guests of residents of the complex or subdivision;

b. Partial or full credit may be given for on-site open space that exceeds the minimum slope (as defined in subsection (1) of this section) if it is determined that such areas are environmentally or aesthetically significant and their preservation would enhance the development and community. In determining environmental and aesthetic significance, the planning and zoning commission will consider:

1. Preservation of significant trees or other natural vegetation;
2. Contribution to on-site retention of stormwater or natural control of drainage;
3. Presentation of vistas and other qualities;
4. Buffer or transition between the multifamily use and other uses;

c. Within usable open space areas, there shall be at least one large shade tree for every 1,000 square feet of space. New trees planted to meet this requirement shall be a minimum three-inch caliper, and at least 25 percent of the trees shall be nondeciduous;

d. Available off-site open space may be credited for up to one-third of the usable open space requirement if:

1. 15 percent or more of the project boundary is adjacent to and has direct access to parkland;
2. There are defined pedestrian connections between the project and parkland;
3. Permanent usable open space is within 100 feet of the development that is available for use by the general public;
4. The design of the development provides a significant visual and pedestrian connection to public parkland;

e. The combined credit for areas calculated at a three-to-one basis and off-site parks or usable open space shall not exceed 50 percent of the total usable open space requirement for each development within a provisional district.

(Code 1996, ch. 14, exh. 14A, art. XIII, § 4)

Secs. 74-388—74-417. Reserved.

ARTICLE XIII. SUPPLEMENTAL DEVELOPMENT REGULATIONS

Sec. 74-418. General standards applicable to land use.

(a) *Public and semi-public institutional uses.* Public and semi-public institutional uses, such as hospitals, churches, and schools located in any district shall have a minimum site area of one acre.

(b) *Number of buildings.* Only one main building for single-family and two-family use, with permitted accessory buildings, may be located upon a lot or unplatted tract.

(c) *Approval required when.* When two or more main buildings, or portions thereof, are placed upon a single lot or tract and such buildings do not face upon a public street, the same may be permitted when the site plan for such development is approved by the planning and zoning commission so as to comply with the city subdivision regulations (in chapter 72) requirements for platting. No parking area, storage area, or required open space for one building shall be computed as being the open space, yard, or area requirements for any other dwelling or other use.

(d) *Measurement.*

(1) *Measuring setbacks.* All setback measurements shall be measured from the property line;

(2) *Configuration of lots.* Flag lots (i.e., lots with minimal, or panhandle-type, frontage) and through lots (i.e., double frontage), particularly within residential zoning districts, shall be prohibited;

(3) *Building setbacks.* All setbacks established on a recorded plat shall be enforced, even if they are less than or they exceed the required setbacks in this chapter. Setbacks established on a recorded plat shall only be changed through replat proceedings as set out in the subdivision regulations in chapter 72.

(e) *Front yard.*

(1) On corner lots, the front yard setback shall be observed along the frontage of both intersecting streets, unless approved specifically otherwise on a final plat. When single-family and duplex lots have double frontage, extending from one street to another, or are on a corner, a required front yard shall be provided on both streets unless a side or rear yard building line has been established along one frontage on the plat, in which event only one required front yard need be observed. The side or rear yards, in the case of single-family and duplex uses, shall be identified and the front of the structure shall not face the side or rear yard;

(2) When the frontage on one side of a street between two intersecting streets is divided by two or more zoning districts, the front yard shall comply with the requirements of the most restrictive district for the entire frontage;

(3) When a building line has been established by a plat approved by the city council or by ordinance, and such line required a greater or lesser front yard setback than is prescribed by this chapter for the district in which the building line is located, the required front yard shall comply with the building line so established by such authorizing ordinance or plat, provided no such building line shall be less than 20 feet;

(4) The front yard shall be measured from the property line to the front face of the building, to the nearest supporting member of a covered porch or covered terrace, or to any attached accessory building. Eaves and roof extensions or a porch without posts or columns may project into the required front yard setback for a distance not to exceed four feet, and subsurface structures, platforms or slabs may not project into

the front yard setback to a height greater than 30 inches above the average grade of the yard. Open porches extending into the front yard setback shall not be enclosed. Fireplaces, bay windows and other similar construction not exceeding seven feet in width may extend two feet into a required setback, provided the total length of all such projections into a setback shall not exceed one-third the length of the exterior wall;

(5) Minimum lot widths for lots with predominant frontage on the curved radius of a street (e.g., cul-de-sac or "eyebrow" portion of a street) shall be measured as the linear distance of the curved front building line and shall be shown on the subdivision plat. The same shall be enforced on a street curvilinear in design. (The term "curvilinear in design" shall refer to any street segment which is designed with a degree of curvature not less than three degrees, 30 minutes and not greater than 22 degrees, 55 minutes, and which shall offset a minimum distance of 30 feet, the offset being measured perpendicular to the initial tangent line of the curve. Computation of percentage of curvilinear streets shall utilize the centerline of all interior streets.) Lot widths for all lots shall be as set forth in the respective zoning district for each lot;

(6) The minimum front yard setback requirements may be reduced by five feet in all single-family districts, provided that at least 50 percent of the structures on a given block are set back an additional five feet from the original setback. The average setback would equal the original setback requirements. The purpose of this requirement is to encourage a variety of front yard setbacks along a street creating a more pleasing appearance of houses in the subdivision. In no case shall the setback be less than 20 feet. The desired setbacks for each lot shall be designated on the approved final plat;

(7) Gasoline service station pump islands that parallel a public street may not be located less than 18 feet to the front property line adjacent to a public street. For pump islands that are perpendicular or diagonal to a public street, the setback shall be 30 feet in order to prevent vehicles stacking out into the street while waiting for a pump position. Pump islands may extend beyond the front building line as described above (provided that all other requirements of this chapter are met) but shall not be closer than 15 feet to any property line that is not adjacent to a public street. An unenclosed canopy for a gasoline filling station pump island may extend beyond the front building line but shall never be closer than ten feet to any property line or street right-of-way line;

(8) Where a future right-of-way line has been established for future widening or opening of a street or thoroughfare, upon which a lot abuts, then the front, side or rear yard shall be measured from the future right-of-way line.

(f) *Front yard accessory building setbacks.* Attached front accessory buildings shall have a front yard not less than the main building and as specified in the particular district. Detached accessory buildings shall be located in the area defined as the rear yard (setback), with a minimum setback of 60 feet from the front property line.

(g) *Side and rear yards.*

(1) In the planned development district, the minimum rear yard for residential uses shall be in accordance with the defining base district unless the site plan approval requires a greater depth;

(2) On a corner lot used for one- or two-family dwellings, both street exposures shall be treated as front yards on all lots platted after the effective date of the ordinance from which this chapter is derived, except where one street exposure is designated as a side yard for both adjacent lots or where the two lots are separated by an alley, street right-of-way, creek/floodplain area, or other similar phenomenon. In such case, a building line may be designated by the city manager or designee with a minimum side yard of 15 feet or more (as determined by the applicable zoning district standards). On lots which were official lots of record prior to the effective date of the ordinance from which this chapter is derived, the minimum side yard adjacent to a side street shall comply with the minimum required side yard for the respective district unless otherwise established on the filed plat (in which case replatting is necessary to change the setback lines, per the subdivision regulations in chapter 72);

(3) Every part of a required side and rear yard setback shall be open and unobstructed except for the ordinary projections of windowsills, belt courses, cornices, and roof eaves and other architectural features not to exceed 12 inches into the required side or rear yard setbacks. Air conditioning compressors and similar equipment are not permitted in the side yard setbacks. Open porches and patios (on ground floors only) extending into side or rear yard setbacks shall not be enclosed, but upper story balconies may not encroach into a side or rear yard setback. A canopy may project into a required side or rear yard setback, provided that it is not enclosed, and provided that it is at least five feet from the property line. No obstruction of setbacks, as discussed herein, shall be permitted in the SF-PH district;

(4) Where a future right-of-way line has been established for future widening or opening of a street or thoroughfare, upon which a lot abuts, then the front, side, or rear yard shall be measured from the future right-of-way line.

(h) *Conforming lot coverage or floor area ratio.* Any existing building at the effective date of the ordinance from which this chapter is derived, having a greater percentage of lot coverage or a higher floor area ratio than herein prescribed, shall be considered conforming.

(i) *Special height regulations.* In the districts where the height of buildings is restricted to two or more stories or 35 feet or less, cooling towers, roof gables, chimneys and vent stacks may extend an additional height and not to exceed 40 feet above the average grade line of the building. Water standpipes and tanks, church steeples, domes, and spires, ornamental cupolas, city and school buildings, and institutional buildings may be erected to exceed the particular zoning district, provided that one additional foot shall be added to the width and depth of front, side, and rear yards for each foot that such structures exceed the district height limit.

(j) *Communications, antennas and support structures / towers.*

(1) *Applicability.*

a. This subsection (j) applies to all commercial and amateur antennas and support structures, unless exempted in subsections (j)(2) and (3) of this section;

b. Direct broadcast satellite reception, multi-channel multi-point distribution (as defined by the FCC), television reception antennas, and amateur radio antennas meeting the following requirements do not require a permit unless mounted on a pole or mast that is 20 feet or more in height:

1. In any zoning district, antennas that are one meter (i.e., 39 inches) or less in diameter;

2. In a nonresidential zoning district, antennas that are two meters or less in diameter;

3. In any zoning district, antennas designed to only receive television broadcasts;

4. In any zoning district, amateur radio antennas concealed behind or located upon or within attics, eaves, gutters or roofing components of the building; and

5. In any zoning district, amateur radio ground-mounted whips and wire antennas, unless mounted upon a pole or mast over 20 feet in height;

c. Antennas mounted on existing city water towers shall be exempt from the requirements of this subsection (j), provided a license or lease authorizing such antennas has been approved by the city council. All other antennas or towers located on property owned, leased or otherwise controlled by the city shall be subject to the requirements herein;

d. Support structures or antennas legally installed before the effective date of the ordinance from which this chapter is derived are not required to comply with this subsection (j), but must meet all applicable state, federal and local requirements, building codes and safety standards.

(2) *Special definitions.* For the purpose of this section, the following special definitions shall apply:

a. *Antenna, microwave reflector and antenna support structure.* An antenna is the arrangement of wires or metal rods used in transmission, retransmission or reception of radio, television, electromagnetic or microwave signals (includes microwave reflectors/antennas). A microwave reflector is an apparatus constructed of solid, open mesh, bar-configured, or perforated materials of any shape/configuration that is used to receive or transmit microwave signals from a terrestrial or orbitally located transmitter or transmitter relay. Microwave reflectors are also commonly referred to as satellite receive only earth stations

(TVROs), or satellite dishes. An antenna support structure is any tower, mast, pole, tripod, box frame, or other structure utilized for the purpose of supporting one or more antennas or microwave reflectors;

b. *Antenna (noncommercial/amateur).* An antenna or antenna support structure used for the purpose of transmission, retransmission, or reception of radio, television, electromagnetic, or microwave signals for private or personal use and not for the purpose of operating a business or for financial gain. A satellite dish antenna not exceeding six feet in diameter shall also be considered as a noncommercial antenna;

c. *Antenna (commercial).* An antenna or antenna support structure used for the purpose of transmission, retransmission, or reception of radio, television, electromagnetic, or microwave signals primarily for the purpose of operating a business or for financial gain (e.g., commercial broadcasting, cellular/wireless telecommunications, etc.). A satellite dish antenna that exceeds six feet in diameter shall also be considered as a commercial antenna;

d. *Co-location.* The use of a single support structure or site by more than one communications provider;

e. *Communications operations (noncommercial/amateur).* The transmission, retransmission or reception of radio, television, electromagnetic, or microwave signals for private or personal use, and not for the purpose of operating a business and/or for financial gain;

f. *Communications operations (commercial).* The transmission, retransmission, or reception of radio, television, electromagnetic, or microwave signals primarily for the purpose of operating a business or for financial gain;

g. *Height.* The distance measured from the finished grade of the lot/parcel to the highest point on the support structure or other structure, including the base pad and any antennas;

h. *Radio, television or microwave tower.* See subsection (j)(2)a of this section;

i. *Telecommunications tower or structure.* See subsection (j)(2)a of this section;

j. *Temporary/mobile antenna.* An antenna and any associated support structure/equipment (including, but not limited to, a support pole, a vehicle, etc.) that is placed or used on a temporary basis only (i.e., not intended to be permanent), usually in conjunction with a special event, news coverage or emergency situation, or in case of equipment failure or temporary augmentation of permanent communications equipment;

k. *Wireless communication tower or structure.* See subsection (j)(2)a of this section.

(3) *General requirements.*

a. Antennas and support structures may be considered either principal or accessory uses;

b. Antenna installations shall comply with all other requirements of this Code with the exception of those specifically cited within this subsection (j);

c. No commercial antenna support structure shall be closer to any residential district boundary line or residential dwelling than a distance equal to twice the height of the support structure. The setback/distance shall be measured as the shortest possible distance in a straight line from the structure to the closest point of a residential district boundary line or residential dwelling. Setbacks from residentially zoned property do not apply to antennas attached to utility structures that exceed 50 feet in height or to antennas placed wholly within or mounted upon a building;

d. No amateur or commercial antenna, antenna support structure, microwave reflector/antenna, or associated foundations or support wires or appurtenances shall be located within any required setback area for the front, side or rear yards;

e. All antennas and support structures must meet or exceed the current standards and regulations of the Federal Communications Commission (FCC), the Federal Aviation Administration (FAA), or all other applicable federal, state and local authorities. If those standards change, then the owner/user of an antenna or support structure must bring the antenna/structure into compliance within six months (i.e., 180 calendar days) or as may otherwise be required by the applicable regulating authority;

f. A building permit is required to erect or install an antenna, antenna support structure and related structures/equipment, unless the particular antenna is exempt from this subsection (j). All installations shall comply with applicable federal, state and local building codes and the standards published by the Electronic Industries Association. Owners/users shall have 30 days after receiving notice that an installation is in violation of applicable codes in order to bring it into full compliance;

g. Antennas (amateur or commercial) shall not create electromagnetic or other interference with the city, county, or any other government agency radio frequencies and public safety operations, as required by the FCC. Antennas also shall not interfere with radio or television reception of nearby property owners. In no manner shall the use of such equipment infringe upon adjoining property owners;

h. No antenna or support structure shall be located so as to create a visual obstruction within critical visibility areas (such as at street intersections or where a private driveway enters a roadway) or a traffic safety problem;

i. Safeguards shall be utilized to prevent unauthorized access to an antenna installation (e.g., on a water tower or utility structure, a freestanding installation, etc.). Safeguards include certain devices identified/recommended by the

manufacturer of the antenna or support structure, a fence, a climbing guard, or other commercially available safety devices. Climbing spikes or other similar climbing devices, if utilized, shall be removed immediately following use;

j. Temporary antennas shall only be allowed in the following instances:

1. In conjunction with a festival, carnival, rodeo or other special event/ activity;

2. In case of an emergency (e.g., severe weather, etc.) or a news coverage event;

3. When needed to restore service on a temporary basis after failure of an antenna installation;

The city must be notified prior to the placement of a temporary antenna. If the temporary antenna is to be needed for more than seven days, then the owner/user must apply for and acquire a permit for the temporary installation on or before the eighth day following initial placement of the antenna;

k. Co-location is greatly encouraged by the city:

1. All new support structures over 50 feet in height shall be constructed to support antennas for at least two carriers, unless the structure is an alternative or stealth design or the support structure is replacing an existing utility structure or light standard. Sufficient area for associated structures and equipment shall also be provided;

2. A support structure which is modified or reconstructed in order to accommodate co-location shall be of the same type, design and height as the existing structure, and it may be moved on the same property within 50 feet of its original location, provided that it is not moved any closer to residentially zoned or use of property (if the structure was allowed by SUP, then its new location shall be within the physical/land boundaries of the SUP). The original (i.e., former) support structure shall be removed from the property within 90 days following completion of the new structure;

3. Where an additional antenna is to be attached to an existing support structure that already has an antenna mounted upon it, the new antenna shall comply with and be compatible with the design of the existing antenna on the co-located structure;

l. Support buildings and equipment storage areas/buildings shall be screened from public view if mounted on a rooftop. When ground-mounted, they shall meet all applicable front, side and rear yard setback requirements of the applicable base zoning district. They shall also be of a neutral color and shall use exterior finish colors and materials that are compatible with nearby structures. A six-foot solid masonry wall may be used to screen the area provided exterior finish materials are compatible with nearby structures. The use of a wood fence for screening is prohibited; however, a wrought iron fence

with masonry columns may be used in conjunction with a dense, opaque evergreen landscaped screen with an initial planting height of three feet, and which will attain an ultimate height of six feet within two years;

m. Satellite dishes and other similar antennas shall be permitted on the roof of a building, as long as satellite dishes do not exceed one meter (39 inches) in diameter and antennas do not extend over ten feet above the roof of the building. A letter certifying the roof's/building's structural stability shall be written and sealed by a registered architect or engineer and shall be submitted to the city manager or designee prior to any approval of a roof-mounted antenna. Roof-mounted antennas that comply with the provisions of this subsection (j) do not require additional yard setbacks or setbacks from residential areas or dwellings;

n. Only one amateur antenna/support structure shall be permitted per residential lot, except that a maximum of two satellite dishes may be allowed if both units are no larger than one meter (39 inches) in diameter (only one allowed if over one meter in diameter). Satellite dishes in any residential district shall not exceed 12 feet in diameter and must be approved by the city prior to installation. A written request shall be submitted to the city manager or designee prior to applying for a permit. The city manager or designee may require additional information to ensure the safety of the structure. The city manager or designee may or may not approve the request. In the event the request is approved, installation of the satellite dish shall be screened, be behind the main building and meet all other requirements of this subsection (j) and other applicable provisions of this Code;

o. All commercial signs, flags, lights and attachments other than those required for emergency identification, communications operations, structural stability, or as required for flight visibility by the FAA or FCC, shall be prohibited on any antenna or antenna support structure. However, lights may remain or be placed upon light standards that are altered or replaced in order for them to serve as antenna support structures, provided that the lights are not commercial (i.e., for-profit) in nature, and provided that the lights are placed/replaced as the same size, configuration, number of bulbs, degree of luminance, etc., as they previously existed prior to support structure modification/replacement;

p. Any publicly owned antennas or antenna support structures shall be permitted in any zoning district (e.g., public safety communications, etc.);

q. In all residential zoning districts (including A, SF-E, SF-1, SF-2, SF-3, SF-4, SF-PH, MF and MH), commercial antennas and antenna support structures are prohibited, except as specified as follows:

1. A commercial antenna may be attached to a utility structure (e.g., electrical transmission/distribution tower, elevated water storage tank,

etc.), provided that the utility structure exceeds 50 feet in height, and provided that the antenna does not extend more than ten feet above the height of the utility structure;

2. A commercial antenna may be placed wholly within any building permitted in the zoning district. A commercial antenna may also be mounted flush to the exterior of a building/structure if it is painted or disguised to integrate into the overall architectural design and it is not readily visible/identifiable as an antenna from public roadways or from neighboring residential properties;

r. In nonresidential zoning districts (including O, NS, R, TC, C, and I), commercial antennas and antenna support structures are allowed as follows:

1. Commercial antenna support structures are allowed by right if they do not exceed the maximum building height allowed for the zoning district in which they are located. Structures in excess of the height allowed in the zoning district may be allowed by specific use permit (SUP), provided the structure conforms in all other aspects of the base zoning district's regulations, and provided that all applicable setback requirements are satisfied. In all nonresidential zoning districts, antenna support structures must meet all setback requirements, particularly from residential zoning districts;

2. A commercial antenna may be attached to a utility structure (e.g., electrical transmission/distribution tower, elevated water storage tank, etc.), provided that the utility structure exceeds 50 feet in height, and provided that the antenna does not extend more than ten feet above the height of the utility structure;

3. A commercial antenna may be placed wholly within any building permitted in the zoning district. A commercial antenna may also be mounted flush to the exterior of a building/structure if it is painted or disguised to integrate into the overall architectural design, and it is not readily visible/identifiable as an antenna from public roadways or from neighboring residential properties.

(k) *Minimum dwelling unit area.* Minimum dwelling unit areas specified in this chapter shall be computed exclusive of breezeways, garages, open porches, carports and accessory buildings.

(l) *Open storage areas.* Open storage of materials, commodities or equipment (where allowed in the specific zoning district) shall be located behind the front building line and observe all setback requirements for the main structure or building. This subsection does not apply to outside display.

(m) *Sight visibility.*

(1) Visual clearance shall be provided in all zoning districts so that no fence, wall, architectural screen, earth mounding, landscaping or other feature obstructs the

vision of a motor vehicle driver approaching any street, alley, or driveway intersection. When an intersection of streets, alley, or driveway occurs, a triangular visibility area shall be created. Landscaping, fences, signs, walls, earthen berms and other features within the triangular visibility area shall be designed so as to provide unobstructed cross-visibility at a level between 30 inches and eight feet above the ground. The triangular areas are defined as follows:

a. *Alley intersects a public street right-of-way.* The areas on both sides of the intersection of an alley and a public street shall have a triangular visibility area with two sides of each triangle being a minimum of ten feet in length from the point of intersection, and the third side being a line connecting the ends of the other two sides;

b. *Street intersection or intersection of private driveway onto a public street.* These areas shall have a triangular visibility area with two sides of each triangle being a minimum of 25 feet in length along the right-of-way lines (or along the driveway curbline and the street right-of-way line) from the point of the intersection, and the third side being a line connecting the ends of the other two sides;

(2) Shrubs and plant materials that are typically less than 30 inches in height at maturity may be located within sight visibility areas, provided that they are kept maintained at a maximum height of 30 inches;

(3) A limited number of single-trunked trees having a clear trunk (i.e., no branching) height of at least eight feet may be located within sight visibility areas, provided that they are trimmed in such a manner that no limbs or foliage extend into the cross-visibility area defined in subsection (m)(1) of this section, and provided that they are spaced and positioned such that their trunks will not produce a visibility-inhibiting "picket-fence" effect when they attain mature size.

(n) *Nonresidential structures in residential districts.* Nonresidential structures (e.g., churches, schools, day care centers, etc.) which are permitted in residential zoning districts (A, SF-E, SF-1, SF-2, SF-3, SF-4, SF-PH, MF and MH) shall be designed and constructed such that they conform to the development standards set forth in the NS district (i.e., with respect to maximum height, minimum lot size, minimum front/side/rear setbacks, screening, exterior building construction, etc.) unless otherwise stated in this chapter or in an ordinance establishing a PD.

(Code 1996, ch. 14, exh. 14A, art. XV, § 1)

Secs. 74-419—74-449. Reserved.

ARTICLE XIV. OFF-STREET PARKING AND LOADING REQUIREMENTS

Sec. 74-450. Purpose.

(a) *Special off-street parking provisions—Residential districts.*

(1) All required enclosed off-street parking spaces within single-family residential districts shall be located behind all front building lines. A minimum of two spaces shall be enclosed and two additional spaces on an approved paved driveway;

(2) Additional parking spaces, in excess of those required in subsection (a)(1) of this section, shall have a minimum paved surface of eight feet by 20 feet, and in no instance shall all development on the site/lot, including the additional parking spaces, occupy more than the maximum lot coverage as defined in the specific residential districts;

(3) Required off-street parking shall be provided on the same lot/site as the use it is to serve;

(4) No required parking shall be allowed except on a paved concrete or asphalt surface as defined in the city's standard construction details and according to the city's adopted standard construction details;

(5) No required parking space, garage, carport, or other automobile storage space shall be used for the storage of any heavy load vehicle, as defined in section 74-2.

(b) *Special off-street parking provisions—Nonresidential and MF districts.*

(1) To prevent nuisance situations, all parking area lighting shall be designed and operated so as not to reflect or shine on adjacent properties and in accordance with the standards established in section 56-60(s);

(2) For safety and firefighting purposes, free access through to adjacent nonresidential parking areas shall be provided as set forth in section 74-450(k);

(3) In office, retail, town center, commercial and industrial zoning districts, all required parking, maneuvering, loading and storage areas shall be provided on paved concrete. Paved concrete shall be in accordance with the city's standard construction details as adopted and as may be amended. All driveway approaches shall be of reinforced concrete as described above and shall be curbed to city standards. No paved parking space or area shall be designed such that a vehicle has to back up into a public street or across a public sidewalk, except for single-family dwellings, which are only allowed to egress onto a local (50-foot right-of-way) or residential collector (74-foot right-of-way) street but not onto any larger or more heavily traveled street. All parking spaces shall be permanently and clearly identified by stripes, buttons, tiles, curbs, barriers, or other approved methods. Non-permanent type marking, such as paint, shall be regularly maintained to ensure continuous clear identification of the space;

(4) Each standard off-street surface parking space shall be in accordance with the design standards for space size and design as set forth below. Concrete paving standards are as defined in subsection (c) of this section. Specific parking space sizes, exclusive of aisles, driveways and maneuvering areas, shall be in accordance with the following minimum sizes:

a. Standard: Nine feet by 20 feet, exclusive of access drives and aisles, shall have wheel stops and shall be of usable shape and condition. Where it is possible for

a vehicle to overhang the front of a parking space above a paved, stoned, mulched, or grassed area other than a sidewalk, street right-of-way or adjacent property the length of the standard space length may be reduced to 18 feet;

b. Compact: Eight feet by 16 feet; must be clearly designated with appropriate signage and pavement markings. Compact parking spaces may only make up ten percent of the total required parking spaces;

c. Parallel: Eight feet by 22 feet; must be clearly striped with appropriate pavement markings and shall only make up ten percent of the total required parking spaces;

(5) All parking, loading spaces, and vehicle sales areas on private property shall have a vehicle stopping device (e.g., curb, wheel stop, etc.) installed so as to prevent parking of motor vehicles in any required landscaped areas, to prevent vehicles from hitting buildings, to protect public or private utility structures/facilities, and to prevent any parked vehicle from overhanging a public right-of-way line, public sidewalk or private property. An extra-wide sidewalk on private property may be permitted so as to allow encroachment of vehicle overhang while maintaining an unobstructed four-foot minimum sidewalk width. This requirement shall apply only where spaces are adjacent to the walks, right-of-way, and landscaping on private property. Parking shall not be permitted to encroach upon the public right-of-way in any case. For new construction only, all vehicle maneuvering shall take place on site. No public right-of-way shall be used for backing or maneuvering into or from a parking space or for circulation within the parking lot. All entrances into parking lots shall be at least 50 feet from the beginning point of any street corner radius. All entrances into parking lots shall be at least 24 feet in width, or a maximum of 45 feet in width or 50 feet for a divided entrance. Divided entrances into parking lots shall have a minimum ingress lane of 18 feet in width, a minimum landscaped median width of five feet, and a minimum egress lane of 22 feet;

(6) In all nonresidential and multifamily zoned districts, the perimeter of all parking lots and driveways shall be provided with concrete curbs or other means to control traffic. Any driveway onto a state- or county-controlled roadway shall be reviewed and approved by the appropriate entities (i.e., TxDOT, Dallas County, Ellis County, etc.), and written evidence of such approval shall be submitted to the city prior to release for construction of the driveway or for improvements on the site;

(7) Refuse storage facilities placed in a parking lot shall not be located in a designated parking or loading space. Each refuse facility shall be maintained so as to comply with all public health and sanitary regulations. Each refuse facility shall be located so as to facilitate pickup by refuse collection agencies and ease of egress from the site without having to back up further than 20 feet and without having to go the wrong way in a traffic aisle. Masonry screening or city council-approved landscape screening of all refuse storage facilities is required on three sides with gates concealing the fourth side;

(8) Parking spaces for persons with disabilities and other associated provisions (e.g., clear and unobstructed pathways into buildings, crosswalks across parking lots, etc.) shall be provided according to current building codes, state laws, and requirements of the Americans with Disabilities Act (ADA). Parking spaces for persons with disabilities shall be as close as possible to the main entrance of the building, and shall be appropriately and clearly marked;

(9) In all nonresidential and multifamily zoned districts, designated parking and loading areas shall not be used for the repair, storage, dismantling or servicing of vehicles or equipment, for the placement of signs or refuse facilities, or for the storage of materials or supplies, or for any other use in conflict with the designated parking and loading areas (i.e., advertising or open storage of raw materials);

(10) To ensure that all requirements set forth in this section are carried forward, it will be the responsibility of the owner of the parking area to adequately maintain the facility. All off-street parking areas shall be kept free of trash, debris, vehicle repair operation or display and advertising uses. At no time after initial approval of the parking area layout can changes be made in the location and number of provided spaces without approval of a revised site plan.

(c) *Off-street stacking requirements for drive-through facilities.*

(1) A stacking space shall be an area on a site measuring eight feet by 20 feet with direct forward access to a service window or station of a drive-through facility which does not constitute space for any other traffic circulation, driveway, parking space, or maneuvering area. An escape lane of at least eight feet in width and with negotiable geometric design must be provided to allow vehicles to get out of stacking lane in the event of a stalled vehicle, emergency, accidental entry, etc.;

(2) For financial institutions with drive-through facilities, each teller window or station, human or mechanical, shall be provided with a minimum of five stacking spaces. One escape lane shall be provided;

(3) For each service window of a drive-through restaurant, a minimum of five spaces shall be provided for the first vehicle stop (usually the menu/order board), and two spaces shall be provided for each additional vehicle stop (order/pickup windows, etc.). One escape lane shall be provided from the beginning of the stacking lane to the first stop (e.g., menu order board);

(4) For retail operations (other than restaurants, banks, etc.) and kiosks that provide drive-up service (e.g., pharmacy, dry cleaner, etc.), a minimum of three stacking spaces for each service window shall be provided;

(5) For a full-service carwash, each vacuum or gas pump lane shall be provided with a minimum of four stacking spaces. For the finish/drying area, adequate vehicle stacking and storage space must be provided to keep finished vehicles out of circulation aisles, access easements, fire lanes, streets, etc.;

(6) For each automated self-service (drive-through/rollover) carwash bay, a minimum of three stacking spaces, in addition to the wash bay itself, shall be provided. One stacking space shall be provided at the exit end of each wash bay for window-drying and other detailing;

(7) For each wand-type self-service (open) carwash bay, a minimum of two stacking spaces, in addition to the wash bay itself, shall be provided. One stacking space shall be provided at the exit end of each wash bay for window-drying and other detailing, unless a separate area/shade structure is provided (outside of circulation aisles) for these activities;

(8) For automobile quick-lube type facilities, a minimum of three stacking spaces shall be provided for each service bay in addition to the service bay itself;

(9) Dead-end parking areas shall be avoided if possible. If dead-end parking is necessary, then it shall be designed such that it is no more than three parking spaces deep unless adequate turnaround space is provided. A minimum five-foot deep hammerhead backup space shall be provided at the end of any dead-end parking area;

(10) All parking structures must conform to the construction and design standards of the zoning district in which they are located;

(11) For multifamily uses (i.e., apartment complexes), all parking spaces shall be located behind the required front setback line on all street frontages.

(d) *Off-street loading space; all districts.*

(1) All retail and similar nonresidential structures shall provide and maintain off-street facilities for receiving and loading merchandise, supplies and materials within a building or on the lot or tract. All drives and approaches shall provide adequate space and clearances to allow for the maneuvering of trucks off-street. Each site shall provide a designated on-site maneuvering area for trucks. The off-street loading space may be adjacent to (but not any portion of) a public alley or private service drive, or it may consist of a truck berth within the structure. The minimum dimensions of a regular loading space shall be 12 feet by 30 feet, and a large loading space shall be at least 12 feet by 65 feet. Loading spaces or berths shall be provided in accordance with the following schedule:

a. Office uses, or portions of a building devoted to office uses:

1. Zero to 9,999 square feet: zero spaces;

2. 10,000 to 49,999 square feet: one regular space;

3. 50,000 to 99,999 square feet: one regular space and one large space;

4. 100,000 to 150,000 square feet: two regular spaces and one large space;

5. Each additional 50,000 square feet, or portion thereof, over 150,000 square feet: one additional regular space;

b. Retail/commercial and restaurant uses, or portions of a building devoted to retail/commercial and restaurant uses:

1. Zero to 3,999 square feet: zero spaces;
2. 4,000 to 9,999 square feet: one regular space;
3. 10,000 to 29,999 square feet: one regular space and one large space;
4. 30,000 to 99,999 square feet: two regular spaces and one large space;
5. 100,000 to 200,000 square feet: two regular spaces and two large spaces;
6. Each additional 100,000 square feet, or portion thereof, over 200,000 square feet: one additional large space;

c. Industrial or warehouse uses, or portions of a building devoted to industrial or warehouse uses:

1. Zero to 10,000 square feet: two large spaces;
2. Each additional 15,000 square feet, or portion thereof, over 10,000 square feet: one additional large space;

d. Schools: one large space per main school building on the campus;

(2) In all nonresidential zoning districts, loading docks or service/delivery entrances shall not be constructed facing any public street (except for large industrial uses; see subsection (d)(3) of this section), and shall not be visible from any public street. The loading areas shall be screened from view of any public street by the building itself, or by a masonry screening wing wall at least 12 feet in height with large evergreen trees and shrubs planted in front of it such that limited portions of the wing wall will be visible when the trees and shrubs are mature. The masonry wing wall shall match the exterior construction materials and colors of the main building and shall be located no closer than 100 feet to any public street right-of-way line;

(3) For large industrial or warehouse uses in the I district only, the loading docks may face a public street, and shall not be required to provide a masonry screening wing wall, provided that a minimum 30-foot-wide landscape buffer area is provided adjacent to the street right-of-way line. One large shade tree (minimum three inches caliper, and minimum ten feet planted height) shall be provided within the landscape buffer area for every 20 feet of street frontage, or one small ornamental tree (minimum 1.5 inch caliper, and minimum seven feet planted height) shall be provided for every 12 feet of street frontage (or some combination thereof). At least 50 percent of the required street buffer trees shall be large shade trees, and the rest of the trees may be small ornamental trees. In addition, a solid massing of large evergreen shrubs and three- to four-foot-tall berms shall be provided to further screen loading area from view of the street;

(4) Loading docks for any establishment which customarily receives goods between the hours of 9:00 p.m. and 8:00 a.m. and is adjacent to or within 300 feet of a residential use or district shall be designed and constructed so as to enclose the loading operation on at least three sides in order to reduce the effects of the noise of the

operation on adjacent residences. Other screening/buffering alternatives may be required and approved on the site plan, provided that the city council makes a finding that the alternative method of screening/buffering will be adequate to protect nearby residences;

(5) Nonresidential districts with loading docks shall not design and construct parking and loading facilities in a manner that there is a dead-end loading dock area. Maneuvering space and clearances shall be provided. In no instance shall a loading facility allow for trucks backing into roadways or interfering with the flow of traffic due to ingress and egress of the parking and loading facility. Adequate clearances shall be designated on the site plan;

(6) Kindergartens, elementary schools, day schools, and similar child training and care establishments shall provide one paved off-street pedestrian loading and unloading space for an automobile on a through or circular drive for each ten students cared for (excluding childcare in a residence). An additional lane shall also be required to allow pass-by or through traffic to move while automobiles waiting or parked to pick up children occupy loading/unloading areas;

(7) For large shopping centers only, loading spaces that are adjacent and easily accessible to several buildings or uses, including buildings and uses on separate lots, shall be allowed to satisfy the loading requirements for the individual buildings or uses, provided that:

a. The number of spaces satisfies the requirements for the combined square footages for the buildings or uses in question; and

b. For loading spaces to be shared among separate lots, they must be in reasonably close proximity to all potential users and an agreement granting mutual use by the owners of each building shall be executed, filed of record in deed records of the county where the property is located, in conjunction with the filing of the final plat. The shared use agreement must be submitted and approved at the time of final plat, with a file-marked copy provided to the city.

(e) *Parking access from a public street; all districts.*

(1) In all districts (except all residential districts) the site plan and paving plans shall provide for entrance/exit drives appropriately designed and located to minimize traffic congestion or conflict within the site and with adjoining public streets as approved by the city manager or designee. When requested, the applicant shall submit a traffic impact analysis, as defined in section 74-2, performed by a certified professional traffic operations engineer (PTOE) for the purpose of determining how the impact of projected volumes of traffic entering or leaving the proposed development are likely to interfere with the projected peak traffic flow volumes on adjoining streets, additional right-of-way and paving in the form of a deceleration lane, a turn lane, or other roadway improvements may be required to be furnished by the developer in order to reduce such interference and to help ensure traffic safety and

efficiency. The dedication of additional right-of-way or street paving may also be required and shall be determined at the time of site plan and preliminary plat approval;

(2) In the approval of a development plan (site plan), consideration shall be given to providing entrance/exit drives which extend into the site to provide adequate queuing of vehicles on the site. The drives shall have curbs or other barriers to prohibit access from parking areas and other drives;

(3) The radius of all drive approaches shall be constructed so that the curb return shall not extend beyond any projection of the property line which the drive does not cross, except by platted easement or written agreement of both property owners filed for record with the county clerk with proof supplied to the city;

(4) Vehicular access to nonresidential uses shall not be permitted from alleys serving residential areas and shall not be configured as head-in parking spaces that are accessed directly from the street.

(f) *Parking requirements based on use.* In all districts, there shall be provided at the time any building or structure is erected or structurally altered, or change of use, off-street parking spaces in accordance with the following requirements, unless a shared agreement is approved by city council:

(1) Automobile carwash (full-service) and detail shop: one space per 500 square feet of gross floor area;

(2) Automobile parts sales (indoor): one space per 500 square feet of gross floor area;

(3) Automobile sales and service: see motor vehicle sales;

(4) Bank, savings and loan, or similar institution: one space per 300 square feet in addition to required queuing spaces;

(5) Bed and breakfast facility: one space per guest room in addition to the requirements for a normal residential use;

(6) Bowling alley or center: six parking spaces for each alley or lane;

(7) Business or professional office (general): one space per 300 square feet of gross floor area except as otherwise specified herein;

(8) Carwash (self-service): one space per washing bay or stall in addition to the washing areas/stalls themselves and required queuing spaces;

(9) Church, rectory, or other place of worship: one parking space for each three seats in the main auditorium/sanctuary;

(10) College, university or technical school: one space for each three students, based upon maximum enrollment or design capacity, whichever is greater;

(11) Commercial amusement (indoor): one space per 100 square feet of gross floor area, or as follows:

a. Racquetball or handball courts: three spaces for each court;

b. Indoor tennis courts: six spaces for each court;

c. Gymnasium, skating rink, and martial arts school: one space for each three seats at a maximum seating capacity (based upon maximum occupancy), plus one space for each 200 square feet;

d. Swimming pool: one space for each 100 square feet of gross water surface and deck area;

e. Weightlifting or exercise area: one space for each 100 square feet;

f. Indoor jogging or running track: one space for each 100 linear feet;

g. Motion picture theater (which does not include live performances): one space for each three seats for single-screen theaters or one space for each five seats for motion picture theaters with two or more screens;

h. Amusement center: one space for each game table and one space for each amusement device;

i. All areas for subsidiary uses not listed above or in other parts of this section (such as restaurant, office, etc.) shall be calculated in with the minimum specified for those individual uses;

(12) Commercial amusement (outdoor): ten spaces, plus one space for each 500 square feet over 5,000 square feet of building and recreational area;

(13) Commercial uses: one space per 250 square feet of floor area;

(14) Community center, library, museum, or art gallery: ten parking spaces, plus one additional space for each 300 square feet of floor area in excess of 2,000 square feet. If an auditorium is included as a part of the building, its floor area shall be deducted from the total and additional parking provided on the basis of one space for each four seats that it contains;

(15) Convenience store (with gasoline pumps): one space per 200 square feet of floor area, plus one parking space for each side of a gasoline pump unit (a unit may have up to six nozzles for gasoline disbursement). Spaces within pump areas qualify as spaces for the parking requirement. If no gasoline sales are provided, then the parking requirements shall be the same as for a retail store. Adequate space shall be provided for waiting, stacking, and maneuvering automobiles for refueling;

(16) Country club, golf club: one parking space for each 150 square feet of floor area or for every five members, whichever is greater;

(17) Dance hall, dance/aerobics studio, assembly or exhibition hall without fixed seats: one parking space for each 100 square feet of floor area thereof;

(18) Day nursery, day care center: one space per ten pupils (based upon maximum occupancy or licensing capacity), plus one space per teacher, plus one space for each bus or van stored on the property (and sized to accommodate the vehicle);

(19) Dwelling units (all except MF): two spaces for each unit;

(20) Dwelling units, multifamily: two spaces per one- and two-bedroom units and 2½ spaces per three-bedroom unit and one space for visitor parking for each five units;

(21) Fast food or drive-in restaurant: one parking space per 100 square feet of gross floor area (including indoor/outdoor play areas and patio dining areas), or one space for every three seats under maximum seating arrangement (i.e., occupancy), whichever is greater; required parking spaces are in addition to any stacking spaces that may be needed/provided for drive-through or drive-in facilities;

(22) Fraternity, sorority, or dormitory: one parking space for each two beds;

(23) Furniture or appliance store, hardware store, wholesale establishments, machinery or equipment sales and service, clothing or shoe repair or service: two parking spaces, plus one additional parking space for each 300 square feet of floor area over 1,000;

(24) Gasoline station: one space per 200 square feet of floor area, plus one space for each side of a gasoline pump unit (a unit may have up to six nozzles for gasoline disbursement). Spaces within pump areas qualify as spaces for the parking requirement. A minimum of six spaces for employees. Adequate space shall be provided for waiting, stacking, and maneuvering automobiles for refueling;

(25) Golf course: three parking spaces per hole or green, plus requirements for retail, office and clubhouse areas and one space per each two employees;

(26) Golf driving range: 1½ spaces for each driving tee;

(27) Health club, health spa or exercise club: one space per 150 square feet of floor area;

(28) Hospital: one space per employee on the largest shift, plus 1½ spaces per each bed or examination room, whichever is applicable;

(29) Hotel or motel: one parking space for each sleeping room or suite or two spaces for any guest room provided with full kitchen facilities, plus one space for each four seats (based on maximum occupancy) of commercial area contained therein, plus one space per 125 square feet of meeting/conference areas, plus one space for every two employees during peak (i.e., busiest) time periods when the hotel/motel is fully occupied;

(30) Institutions of a philanthropic nature: ten spaces, plus one space for each employee;

(31) Library or museum: ten spaces, plus one space for every 300 square feet;

(32) Lodge or fraternal organization: one space per 200 square feet;

(33) Lumber yard/home improvement center: one space per 400 square feet display area, plus one space per 1,000 square feet of warehouse;

(34) Manufactured/mobile home or manufactured/mobile home park: two spaces for each manufactured/mobile home unit, plus one visitors/supplemental parking for each dwelling unit, plus additional spaces as required herein for accessory uses;

(35) Manufacturing or industrial establishment, research or testing laboratory, creamery, bottling plant, warehouse, printing or plumbing shop, or similar establishment: one parking space for each employee on the maximum working shift, plus space to accommodate all trucks and other vehicles (in appropriate sizes) used in connection therewith, but not less than one parking space for each 1,000 square feet of floor area;

(36) Medical or dental office: one space per 150 square feet of floor area; facilities over 20,000 square feet shall use the parking standards set forth for hospitals;

(37) Mini-warehouse: four spaces per complex, plus one additional space per 5,000 square feet of storage area, plus two spaces for an on-site manager's residence (if applicable), plus one appropriately sized space for any type of vehicle to be stored on-site (e.g., rental trucks, boats, RVs, etc.);

(38) Mortuary or funeral home: one parking space for each 100 square feet of floor space in slumber rooms, parlors or individual funeral service rooms, or one space for each three seats in the auditorium/sanctuary, whichever is greater. Adequate on-site stacking spaces shall also be provided for the organization and forming of processions such that these activities do not cause excessive or extended traffic congestion/delays on a public roadway;

(39) Motor vehicle salesroom and used car lots: one parking space for each 500 square feet of sales floor/office or other indoor uses, or one parking space for each 1,000 square feet of lot area for outdoor storage, sales and parking areas, plus one parking space per repair bay in service areas (indoors or outdoors), plus one parking space per service/towing vehicle to be stored on-site (required parking spaces are in addition to those to be used for the storage/display of vehicles for sale/lease);

(40) Nursing home, convalescent home, or home for the aged: one space per five beds, plus one parking space for each 1,000 square feet of lot area for outdoor uses, plus one parking space for each 300 square feet of floor area devoted to offices, cafeterias, exercise/therapeutic rooms and other similar ancillary uses, plus one space for every two employees at full occupancy;

(41) Office (administrative or professional): one space for each 300 square feet of floor area;

(42) Outdoor display: one space for each 600 square feet of open sales/display area;

(43) Pawnshop: one space for each 200 square feet of floor area;

(44) Places of public assembly not listed: one space for each three seats provided;

(45) Restaurant, private club, nightclub, café or similar recreation or amusement establishment: one parking space for each 100 square feet of gross floor area (including indoor/outdoor play areas and patio dining areas), or one space for every three seats under maximum seating arrangement (i.e., occupancy), whichever is greater; required parking spaces are in addition to any stacking spaces that may be needed/provided for drive-through or drive-in facilities;

(46) Retail store or personal service establishment, except as otherwise specified herein: one space per 200 square feet of gross floor area in addition to any required stacking spaces for drive-through facilities;

(47) Roominghouse/boardinghouse or group quarters: one parking space for each sleeping room, plus one parking space for each host resident or employee during maximum (i.e., peak) shift;

(48) School, elementary (grades K—6): one parking space for each 15 students (design capacity);

(49) School, secondary or middle (grades 7—8): one parking space for each 12 students (design capacity);

(50) School, high school (grades 9—12): one space for each 1.5 students, faculty and staff (design capacity);

(51) Storage or warehousing and light manufacturing: one space for each two employees on duty at peak shifts, or one space for each 1,000 square feet of total floor area, whichever is greater;

(52) Telemarketing: one space for each 250 square feet of floor space;

(53) Terminal facilities (truck, bus depot, or other): for warehouse and staging/loading areas, one space for each two employees on duty at peak shifts, or one space for each 1,000 square feet of floor area, whichever is greater; for bus depot or other human transportation use, one space per 100 square feet of passenger waiting area, plus parking spaces for any warehouse and staging/loading areas on the premises (as above);

(54) Theater (indoor or outdoor), auditorium (except school), or sports arena, stadium: one parking space for each three seats or bench seating spaces (see subsection (g)(2) of this section);

(55) Veterinarian clinic: one space per 300 square feet of gross floor space;

(56) Warehouse, wholesale, manufacturing and other industrial type uses: one space for each two employees on duty at peak shifts, or 1,000 square feet of gross floor area, whichever is greater.

(g) *Rules for computing number of parking spaces and miscellaneous off-street parking requirements.* In computing the number of parking spaces required for each of the above uses, the following rules shall govern:

(1) The term "floor area" means the gross floor area of the specific use;

(2) The term "seat" shall be interpreted as follows:

a. For fixed (e.g., church pews, grandstands, benches, etc.) seating, one seat equals 1.75 feet of length; and

b. For flexible (e.g., folding chairs, etc.) seating areas, one seat equals eight square feet of floor area occupied by such seating area (including aisles);

(3) Where fractional spaces result, the parking spaces required shall be constructed to be the next higher whole number;

(4) The parking space requirements for a new or unlisted use not specifically mentioned herein shall be the same as required for a use of similar nature. If the proposed use is not similar to any of the uses listed herein, a determination shall be made by the city manager or designee, in accordance with the requirements for the most closely related use specified in this section. In the event the applicant disagrees with this determination, then the applicant may submit a request for determination by the planning and zoning commission and the city council using the same process as provided in article IV of this chapter for classifying new and unlisted uses;

(5) When a building or use is changed or enlarged in floor area, number of employees, number of dwelling units, seating capacity or otherwise, to create a need for an increase of ten percent or more in the number of existing parking spaces, such spaces shall be provided on the basis of the enlargement or change. When a building or use existing prior to the effective date of the ordinance from which this chapter is derived is enlarged to the extent of 50 percent or more in floor area, number of employees, number of dwelling units, seating capacity or otherwise, then the building or use shall be required to conform with the parking requirements herein for the entire building or use;

(6) In the case of mixed uses in the same building or on the same premises (such as retail or office), the off-street parking spaces required shall equal the sum of the requirements of the various uses computed separately. No parking space for one particular use shall be allowed to count toward the parking requirement for some other use on the premises except in the case of a shared parking arrangement (see subsection (g)(7) of this section);

(7) Shared parking, with determination to be feasible, may be allowed in the case of mixed uses (different/separate buildings) under the following conditions:

a. Up to 60 percent of the parking spaces required for a theater or other place of evening entertainment (after 6:00 p.m.), or for a church, may be provided and used jointly by banks, offices, and similar uses not normally open, used, or operated during evening hours;

b. Shared parking must be on the same parking lot and specifically recommended by the planning and zoning commission and city council at the time of the site plan approval under the shared parking provisions. The approval may only be denied by the city council and additional parking obtained by the owners in the event that the city council determines that such joint use is resulting in a public nuisance by providing an inadequate number of parking spaces or otherwise adversely affecting the public health, safety, or welfare;

c. To ensure retention of the shared parking spaces, each property owner shall properly draw and execute an irrevocable mutual parking agreement, approved by the city attorney, expressing the same, shall file this agreement in the deed records of the county where the property is located, and shall provide a copy of the filed agreement to the city prior to the filing of the final plat and shall be a condition of final plat approval;

(8) Compact car and parallel parking spaces in the O, NS, R, C and IP districts only, and for nonresidential uses (e.g., school, church, day care facility, etc.) that are allowed in residential zoning districts, compact car or parallel parking spaces may be permitted when approved as part of a detailed site plan by the planning and zoning commission and the city council, providing at least one of the following conditions apply:

a. Where it is necessary to preserve the natural landscape and native trees, a maximum of ten percent of required parking may be designated for compact cars or parallel parking spaces (either one, or in combination);

b. For parking lots larger than 100 spaces involving a shopping center, a maximum of ten percent of the required parking may be for compact cars and/or parallel parking spaces (either one, or in combination);

c. For parking lots larger than 100 spaces involving large single-tenant industrial or office buildings, a maximum of ten percent of the required parking may be for compact cars or parallel parking spaces (either one, or in combination);

The city shall not be responsible for policing the use of compact car or parallel parking spaces on private property, or for citing violations thereof.

(h) *Location of parking spaces.* All residential parking spaces required herein shall be located on the same lot with the building or use served. In the case of nonresidential building/uses, the required parking shall be within no more than 200 feet, except as follows:

(1) Where an increase in the number of spaces is required by a change or enlargement of use, or where such spaces are provided collectively or used jointly by two or more buildings or establishments, the required additional spaces may be located not to exceed 200 feet from any nonresidential building served and as set forth in the mutual parking agreement;

(2) In any case where the required parking spaces are not located on the same lot with the building or use served, or where such spaces are collectively or jointly provided and used, approval by the planning and zoning commission and the city council is

required, the parking spaces must be located on an immediately contiguous lot or tract or on a lot or tract within 200 feet of such building or structure, and shall be filed with the appropriate county and a file-marked "copy" shall be included with the application for a building permit according to either:

a. A permanent, irrevocable easement of the parking facilities in favor of the premises benefitted and shall be dedicated and recorded as a condition of such use; or

b. An irrevocable mutual parking agreement with the approval first of the city attorney and also by the city as a condition of such use. The agreement shall be recorded in the deed records of the county where the property is located.

(i) *Use of parking spaces; all districts.* Required off-street parking and loading spaces shall be used only for these respective purposes and shall not be used for storage or permanent display of goods, materials, or products for sale/lease/rent, refuse containers, cart corrals, recycling kiosks, signs or sign support structures, telecommunications towers or support structures.

(j) *Handicap parking.* Handicap parking spaces shall be provided according to the elimination of architectural barriers program at the state department of licensing and regulation (V.T.C.A., Government Code ch. 469) and shall conform to the Americans with Disabilities Act (ADA) of 1991, accessibility guidelines or the Uniform Federal Accessibility Standards.

(k) *Fire lanes.* Fire lanes shall be provided in all multifamily, single-family attached, manufactured (mobile) home and nonresidential developments, as required by the adopted fire code of the city (also see the subdivision regulations in chapter 72 for certain fire lane regulations). Fire lanes shall be a minimum width of 24 feet of paving, or as may be amended by the fire code or NCTCOG amendments. The fire lanes shall also have a minimum inside turning radius at curves of 20 feet, or as required by the fire code or the fire chief. The minimum overhead vertical clearance over fire lanes shall be 14 feet for a linear distance of 50 feet on each side (i.e., in front of and behind, as a fire apparatus would traverse underneath) of any overhead structure (e.g., canopy, roof overhang, vertical height control device, etc.).

(l) *Parking regulations for special motor vehicles.*

(1) For purposes of these regulations, the term "special motor vehicles" is defined as including boats, boat trailers, travel trailers, pickup campers and coaches (designed to be mounted upon automotive vehicles), motorized dwellings (RVs), tent trailers and the like, as well as cases or boxes used for transporting such vehicles, whether occupied by such vehicles or not. No such vehicles shall be used for living, sleeping or housekeeping or similar purposes when parked or stored on a residential lot, or in any location not approved for such use, except as specified in this chapter;

(2) No special motor vehicle, heavy load vehicle (as defined in section 74-2) or recreational vehicle shall be left unattended or parked for more than 24 hours within

any parking lot, parking spaces, drive aisle, vacant or unused property, or pervious/unpaved surface area (except an appropriately zoned and approved/paved parking lot for such vehicles);

(3) No required parking space, garage, carport, or other automobile storage space shall be used for the storage of any special motor vehicle, limousine, RV, trailer, boat, wrecker, truck tractor rig or trailer, camper or camper shell, or other similar recreational, dwelling or business vehicle;

(4) No heavy load vehicles are allowed to be stored or parked in residential areas on a regular or repetitive basis.

(Code 1996, ch. 14, exh. 14A, art. XVI, § 1)

Secs. 74-451—74-468. Reserved.

ARTICLE XV. MINIMUM ZONING DESIGN CRITERIA

Sec. 74-469. Utilities.

All utility service lines shall be constructed underground.

(Code 1996, ch. 14, exh. 14A, art. XVII, § 3)

Sec. 74-470. Accessory buildings and dwelling units.

(a) *Accessory buildings in residential districts.*

(1) In a residential or multifamily district, an accessory building is a subordinate or incidental building, attached to or detached from the main building without kitchen facilities but may include a separate bath, not used for commercial purposes and not rented or used as a dwelling unit. Accessory buildings shall be located toward the rear portion of the property, generally behind the main buildings, and accessory buildings that exceed 250 square feet in floor area shall be site built (i.e., cannot be a pre-manufactured or kit building), and shall conform with applicable exterior construction requirements for accessory buildings and be designed and constructed so that they are in keeping with the general architecture of the adjoining residential development. Accessory buildings of any size shall conform to applicable setbacks for the appropriate zoning district and shall conform to all applicable city building codes;

(2) Accessory buildings shall not be permitted without a main building or primary use being in existence. In the event the main or primary building becomes dilapidated, substandard or destroyed, or removed, and not replaced within six months of the destruction or removal, the accessory building must be removed, unless additional time for the construction of the main structure is granted by the board of adjustment after application, hearing and evidence of the financial ability and work plan for the construction of such main building.

(b) *Accessory buildings in nonresidential districts.*

(1) In any nonresidential district, an accessory building or incidental accessory use is a subordinate building or use, the use of which is incidental to and used only within or in conjunction with the main building. The accessory shall not have kitchen or bath facilities. Accessory buildings shall not be permitted without a main building or primary use being in existence. Accessory buildings shall be located toward the rear portion of the property, generally behind the main buildings, and accessory buildings that exceed 250 square feet in floor area shall be site built (i.e., cannot be a pre-manufactured or kit building), and shall conform with applicable exterior construction requirements for accessory buildings and be designed and constructed so that they are in keeping with the general architecture of the adjoining residential development;

(2) Accessory buildings of any size shall conform to the same setbacks as the main building and shall conform to all applicable city building codes;

(3) Accessory buildings shall not be permitted without a main building or primary use being in existence. In the event the main or primary building becomes dilapidated, substandard or destroyed, or removed, and not replaced within six months of the destruction or removal, the accessory building must be removed, unless additional time for the construction of the main structure is granted by the board of adjustment after application, hearing and evidence of the financial ability and work plan for the construction of such main building.

(c) *Accessory dwelling units.* Accessory dwelling units shall only be allowed in A, SF-E and SF-1 districts and shall require a specific use permit. Accessory dwelling units are for guests on a temporary and intermittent residential use only and may be on the same lot as the main dwelling unit, provided they meet the following standards:

(1) Accessory dwelling buildings must be designed and constructed so that they are in keeping with the general architecture of the adjoining residential development;

(2) As a separate dwelling unit, the accessory dwelling building shall only be occupied by a blood relative or guest of those in the main residence and an independent water meter shall be required;

(3) Accessory buildings shall be constructed of similar and complementary material and color to the main structure;

(4) The accessory dwelling unit must be constructed to the rear of the main dwelling. Accessory dwelling units shall be allowed in the residential A, SF-E and SF-1 districts only and shall comply with all required setbacks and total lot coverage;

(5) An accessory dwelling unit shall not exceed 650 square feet;

(6) The accessory dwelling unit may be constructed only with the submission and approval of a specific use permit and site plan. Failure to comply with the

requirements of the SUP shall render it null and void and the city may take all necessary action to render the accessory dwelling unit uninhabitable by removal of kitchen and plumbing facilities;

(7) The accessory dwelling unit may not be sold separately from sale of the entire property, including the main dwelling unit, and shall not be rented or leased.

(d) *Special regulations for accessory buildings and dwelling units.*

(1) All detached accessory buildings shall, in no instance, be less than 60 feet from the front building line or in front of the main building;

(2) All side and rear yard setbacks shall be in accordance with the requirements for that zoning district;

(3) Garages or carports with required minimum exterior construction, located and arranged so as to be entered from an interior side yard, shall have a minimum of 25 feet from the side lot line. Carports or garages arranged to be entered from the side yard, facing a public street, or from a rear or side alley shall have a minimum distance equal to the required yard for the main building or 25 feet, whichever is greater;

(4) Carports with required minimum exterior construction shall be measured from the columns supporting the roof nearest to the street or alley;

(5) Accessory buildings shall not exceed the height allowed in the specific zoning district, except taller accessory buildings may be allowed in nonresidential districts by specific use permit (SUP) only.

(Code 1996, ch. 14, exh. 14A, art. XVII, § 4)

Sec. 74-471. Alternate bodies of water.

(a) An alternate body of water shall be defined as any at- or below-grade pond, lake or open tank that is not constructed as a swimming pool (i.e., concrete- or gunite-lined pool, or a prefabricated masonry, plastic or plexiglass pool) and that contains water in any portion of it at a depth of 1.5 feet, or a greater depth, at any given time.

(b) No alternate body of water shall be constructed, maintained or operated in any zoning district except the A districts without issuance of a specific use permit (SUP) or without specific incorporation into the ordinance and development standards of an approved PD Planned Development District.

(c) Construction of any approved alternate body of water shall require issuance of a grading permit from the city prior to any construction activity on the site and shall be designed such that it facilitates, and will not hinder, stormwater drainage in the area.

(d) Any approved alternate body of water (i.e., by SUP or in a PD district) shall be shown on the plat (and on the site plan, if such is required for the development), and language shall be shown on the plat and site plan (if applicable) that describes ownership and maintenance responsibility for such body of water.

(e) Any approved alternate body of water (i.e., by SUP or in a PD district) shall comply with all city, county, state and federal laws pertaining to safety, and shall have the following safety features:

(1) Shall be lighted at night for pedestrian and user safety (not required in the agricultural district) unless it is secured by fencing;

(2) Shall include an adequate water circulation device (e.g., pump, fountain, aerator, etc.) that will minimize stagnation and the growth of algae and other undesirable aquatic growths; and

(3) Shall be posted with visible signage that prohibits swimming and wading, and that warns users of potential dangers (i.e., no lifeguard on duty, the presence of aquatic wildlife, etc.).

(Code 1996, ch. 14, exh. 14A, art. XVII, § 6)

Sec. 74-472. Performance standards; noise, smoke, particulate matter, etc.

(a) *All uses must conform.* In all zoning districts, any use indicated in the permitted use list shall conform in operation, location, and construction to the performance standards as administered by county, state and federal agencies. All uses, including those which may be allowed by PD or SUP, shall conform in operation, location, and construction to appropriate performance standards for noise, smoke, and particulate matter, odorous matter, fire, or explosive hazard material, toxic and noxious matter, vibration, and glare.

(b) *Must comply with federal and state regulations.* All federal and state pollution, noise, and requirements for toxic waste disposal shall be observed.

(c) *Noise.* At no point at the bounding property line of any use shall the sound pressure level of any operation or land use exceed the decibel limits specified in the octave band groups designated in the following table:

(1) Maximum permissible daytime* octave band:

	*Decibel Limits at the Bounding Property Line***								
Octave band (CPS)	37—75	75—150	150—300	300—600	600—1,200	1,200—2,400	2,400—4,800	4,800—9,600	A Scale
Decibel band limit (dB re 0.0002 microbar)	86	76	70	65	63	58	55	53	65

Note: "A scale" levels are provided for monitoring purposes only and are not applicable to detailed sound analysis:

* "Daytime" shall refer to the hours between sunrise and sunset on any given day;

** "Bounding property line" shall be interpreted as being at the near side of any street, alley, stream, or other permanently dedicated open space from the noise

source when such open space exists between the property line of the noise source and adjacent property. When no such open space exists, the common line between two parcels of property shall be interpreted as the bounding property line.

(2) The following corrections shall be made to the table of octave band-decibel limits above in determining compliance with the noise level standards:

a. When noise is present at nighttime, subtract (-7 dB);

b. When noise contains strong pure-tone components or is impulsive (i.e., when meter changes at ten decibels or more per second), subtract (-7 dB);

c. When noise is present for not more than the following, add (+10 dB):

1. One-half minute in any half-hour period;

2. One minute in any one-hour period;

3. Ten minutes in any two-hour period;

4. 20 minutes in any four-hour period.

(3) Measurement of noise shall be made with a sound level meter on octave band analyzer meeting the standards prescribed by the American Standards Association.

(4) Exemptions: The following uses and activities shall be exempt from the noise level regulations herein specified:

a. Noises not directly under control of the property owner or user;

b. Noises emanating from construction and maintenance activities between the hours of 7:00 a.m. and 7:00 p.m. (i.e., daylight hours);

c. Noises of safety signals, warning devices and emergency pressure relief valves;

d. Transient noise of moving sources, such as automobiles (i.e., not to include idling automobiles), trucks, and airplanes;

e. Events sanctioned by the city.

(d) *Smoke and particulate matter.* No operation or use shall cause, create, or allow the emission for more than three minutes in any one hour of air contaminants that at the emission point or within the bounds of the property are:

(1) Of such opacity as to obscure an observer's view to a degree equal to or greater than does smoke or contaminants in the standard prescribed by the ASTM except for when the presence of uncombined water is the only reason for failure to comply, or when such contaminants are emitted inside a building which prevents their escape into the atmosphere;

(2) The emission of particulate matter from all sources shall not exceed 0.5 pounds per acre of property within the operation's site per any one hour;

(3) Open storage and open processing operations, including on-site transportation movements which are the source of wind-borne or airborne dust or other particulate matter; or which involves dust or other particulate air contaminants, generating

equipment, such as used in paint spraying, grain handling, sand or gravel processing or storage or sandblasting, shall be so conducted that dust and other particulate matter so generated are not transported across the boundary line of the tract on which the use is located in concentrations exceeding four grains per 1,000 cubic feet of air.

(e) *Odorous matter.*

(1) No use shall be located or operated which involves the emission of odorous matter from a source of operation where the odorous matter exceeds the odor threshold at the bounding property line or any point beyond the tract on which such use or operation is located;

(2) The odor threshold as herein set forth shall be determined by observation by the city manager or designee. In any case, where uncertainty may arise or where the operator or owner of an odor-emitting use may disagree with the enforcing officer or where specific measurement of odor concentration is required, the method and procedures specified by the American Society for Testing Materials (ASTMD) shall be followed.

(f) *Fire or explosive hazard material.*

(1) No use involving the manufacture or storage of compounds or products which decompose by detonation shall be permitted, except that chlorates, nitrates, perchlorates, phosphorus, and similar substances and compounds in small quantities for use by industry, school laboratories, druggists or wholesalers may be permitted when approved by the city fire chief;

(2) The storage and use of all flammable liquids and materials, such as pyroxylin plastics, nitrocellulose film, solvents, and petroleum products shall be permitted only when such storage or use conforms to the standards and regulations of the city's adopted fire code or are approved by the fire chief;

(3) Commercial fireworks displays shall be allowed in accordance with this Code.

(g) *Toxic and noxious matter.* No operation or use shall emit a concentration across the bounding property line of the tract on which such operation or use is located of toxic or noxious matter which will exceed ten percent of the concentration (exposure) considered as the threshold limit for an industrial worker as such standards are set forth by the state department of health in Threshold Limit Values Occupational Health Regulation No. 3, a copy of which is incorporated by reference.

(h) *Vibration.* No operation or use shall at any time create earth-borne vibrations which, when measured at the bounding property line of the source operation, exceed the limits of displacement set forth in the following table in the frequency ranges specified:

Frequency in Cycles per Second	*Displacement in Inches*
0 to 10	0.0010
10 to 20	0.0008
20 to 30	0.0005
30 to 40	0.0004
40 and over	0.0003

(Code 1996, ch. 14, exh. 14A, art. XVII, § 7)

Sec. 74-473. Required visual sight distance.

(a) Visual clearance shall be provided in all zoning districts so that no fence, wall, architectural screen, earth mounding or landscaping, or other feature obstructs the vision of a motor vehicle driver approaching any street, alley, or driveway intersection. When an intersection of a street, alley, or driveway occurs, a triangular visibility area shall be created. Landscaping, fences, signs, walls, earthen berms and other features within the triangular visibility area shall be designed so as to provide unobstructed cross-visibility at a level between 30 inches and eight feet above the ground. The triangular areas are defined as follows:

(1) Street intersection or intersection of private driveway onto a public street area shall have a triangular visibility area, with two sides of each triangle being a minimum of 25 feet in length along the right-of-way (or along the driveway curb line and the street right-of-way line) from the point of the intersection and the third side being a line connecting the ends of the other two sides;

(2) When an alley intersects a public street right-of-way, the areas on both sides of the intersection of an alley and a public street shall have a triangular visibility area, with two sides of each triangle being a minimum of ten feet in length from the point of intersection and the third side being a line connecting the ends of the other two sides;

(3) Fences, walls, and hedges three feet in height or less may be located in the visual clearance areas of all districts, provided that they are kept maintained at a maximum height of three feet;

(4) A limited number of single-trunked trees having no branching below the height of eight feet may be located within sight visibility areas, provided that they are trimmed in such a manner that no limbs or foliage extend into the cross-visibility area defined above, and provided that they are spaced and positioned such that their trunks will not produce a visibility-inhibiting, picket-fence effect when they attain mature size.

(b) Nonresidential structures (e.g., churches, schools, day care centers, etc.) which are permitted in residential zoning districts (A, SF-E, SF-1, SF-2, SF-3, SF-PH, PD) shall be designed and constructed such that they conform to the development standards set forth in

the NS Neighborhood Service District (i.e., with respect to maximum height, minimum lot size, minimum front/side/rear setbacks, screening, exterior building construction, etc.) unless otherwise stated in this chapter or in the ordinance establishing a PD.
(Code 1996, ch. 14, exh. 14A, art. XVII, § 9)

Sec. 74-474. Supplementary standards for uses selling alcoholic beverages.

(a) Any use or business which sells alcoholic beverages shall be no closer than 300 feet to church or public hospital, or to a day care or child care facility, as defined in V.T.C.A., Human Resources Code § 42.002, measured along property lines along public streets from front door to front door and in a direct line across intersections.

(b) To the extent allowed by applicable law, as it exists and as it may be amended, any use or business which sells alcoholic beverages shall be no closer than 1,000 feet to a public school or private school as measured in a direct line from property line of the school to property line of the use or business, and in a direct line across intersections, if the board of trustees of the school district or the governing body of a private school requests such separation in writing. Otherwise, the distance shall be as provided in subsection (a) of this section.

(c) The distance standards in subsection (a) of this section do not apply to a day care or child care facility if the use or business selling alcoholic beverages and day care or child care facility are on different stories of a multi-story building, or are located in separate buildings and the use or business or the day care or child care facility is located on the second story or higher of a multi-story building.

(d) The sale of beer and wine is expressly prohibited in residential areas.

(e) If the establishment derives 75 percent or more of its gross revenue from the on-premises sale of alcoholic beverages, the applicant must obtain a SUP for such use in accordance with the procedure set forth for SUPs in zoning districts that permit the use with an SUP.
(Code 1996, ch. 14, exh. 14A, art. XVII, § 10; Ord. No. O-03-09, 4-20-2009)

Sec. 74-475. Supplementary standards for credit access businesses.

(a) A structure containing a credit access business shall be located at least 1,000 feet from another structure containing another credit access business, as measured in a straight line between the nearest points of one structure to the other structure.

(b) A lot containing a credit access business shall be located at least 1,000 feet from any lot zoned or used for residential purposes, churches, schools and pawn shops, as measured in a straight line between the nearest points of one lot to the residential lot.

(c) A lot containing a credit access business shall not be located on property fronting a street classified as a major arterial or greater.

(d) A credit access business shall be situated only within a freestanding structure and shall not be co-located in the same structure as other uses.
(Code 1996, ch. 14, exh. 14A, art. XVII, § 1; Ord. No. O-13-15, § 3, 11-16-2015)

Sec. 74-476. Supplementary standards for pawnshops.

(a) A structure containing a pawnshop shall be located at least 1,000 feet from another structure containing another pawnshop or credit access business, as measured in a straight line between the nearest points of one structure to the other structure.

(b) A lot containing a pawnshop shall be located at least 1,000 feet from any lot zoned or used for residential purposes, churches and schools, as measured in a straight line between the nearest points of the pawnshop lot to the residential lot.

(c) A lot containing a pawnshop shall not be located on property fronting a street classified as a major arterial or greater.

(d) A pawnshop shall be situated only within a freestanding structure and shall not be co-located in the same structure as other uses.
(Code 1996, ch. 14, exh. 14A, art. XVII, § 12; Ord. No. O-14-15, § 2, 10-20-2015)

Sec. 74-477. Supplementary standards for vapor shops.

(a) A structure containing a vapor shops shall be located at least 1,000 feet from another structure containing another credit access business, as measured in a straight line between the nearest points of one structure to the other structure.

(b) A lot containing a vapor shops shall be located at least 1,000 feet from any lot zoned or used for residential purposes, churches and schools as measured in a straight line between the nearest points of the vapor shop lot to the residential lot.

(c) A lot containing a vapor shops shall not be located on property fronting a street classified as a major arterial or greater.

(d) A credit access business shall be situated only within a freestanding structure and shall not be co-located in the same structure as other uses.
(Code 1996, ch. 14, exh. 14A, art. XVII, § 13; Ord. No. O-15-15, § 4, 12-1-2015)

Secs. 74-478—74-507. Reserved.

ARTICLE XVI. TEMPORARY USES AND PERMITS

Sec. 74-508. General authorization and requirements.

(a) *Temporary uses.* The temporary uses addressed in this section shall be permitted, as a temporary use permit (TUP), in all zoning district categories unless otherwise indicated in this chapter. The applicant for a temporary use permit must meet all of the conditions for such temporary use as set forth in this section. Temporary use permits may be issued by the

city manager or designee subject to the provisions of this section. An appeal to the city council may be made by an applicant whose temporary use permit was denied by the city manager. The appeal shall be submitted within ten calendar days of the city manager's decision and be in writing and accompanied by the appropriate fee. Any exceptions to the terms and provisions of this section must be approved by the city council, which the council may authorize if it determines that an exception or waiver of the provisions of this section is warranted due to special conditions. All temporary use permits shall contain a specified time limit for the discontinuance of the temporary use.

(b) *Asphalt or concrete batching plant.* A temporary asphalt or concrete batching plant permit may be approved by the city manager, subject to the conditions of this section. Any exceptions to the following conditions shall require approval of the city council:

(1) The batching plant site shall comply with all applicable provisions of city, state and federal laws;

(2) The batch plant shall not be located within 500 feet of an inhabited residence;

(3) Hours of operation and hauling shall be limited to Monday through Friday, 7:00 a.m. to 6:00 p.m., and Saturday, 9:00 a.m. to 5:00 p.m. Aggregate trucks shall be prohibited from hauling to or from the site on Sunday;

(4) The batch plant permit shall be valid for a three-month period. No extensions will be allowed without approval of the city council;

(5) No portion of the batch plant or its operation shall be located on a public or private street, or on land dedicated to the city for parks and open space;

(6) The batch plant shall only furnish concrete, asphalt, or both, to the specific project for which the temporary permit is issued. The placement of a temporary batching plant for a private project is restricted to the site of the project;

(7) The temporary plant shall be operated in a manner that eliminates unnecessary dust, noise and odor (as illustrated by, but not limited to, covering trucks, hoppers, chutes, loading and unloading devices and mixing operations, and maintaining driveways and parking areas free of dust);

(8) A bond issued to the city, in the amount determined by the city manager or designee, shall be required prior to the issuance of the TUP for the restoration of the site. The site must be clear of all equipment, material and debris as well as all contaminated soil, chemicals and hazardous waste within seven calendar days of completion of the project. In the event the site has been restored the bond will be returned to the applicant. In the event the site has not been restored to the satisfaction of the city manager, the city will make every attempt to have the repairs complete within a period of 180 days thereupon returning any dollar amount in excess of the bond;

(9) A bond issued to the city, in an amount determined by the city manager or designee, shall be required prior to the issuance of the TUP for the repair of all public improvements that are damaged by any and all equipment necessary for and during

the operation of the temporary batching plant. The applicant may choose to make the necessary repairs or replacements within 30 calendar days of completion of the project for the return of the bond. In the event these repairs and replacements have not been made to the satisfaction of the city manager, the city will make every attempt to have the repairs complete within a period of 180 days thereupon returning any dollar amount in excess of the bond;

(10) Upon issuance and expiration of the temporary permit and cessation of activities, the city building official and permittee shall walk the site to verify compliance with these special conditions;

(11) Every attempt should be made by the applicant to ensure that no residential street is utilized for ingress and egress to the batch plant.

(c) *Sales trailer.*

(1) A temporary permit allowing sales from a modular trailer (mobile office) shall be valid until the issuance of a certificate of occupancy for a model home or for 150 days, whichever comes first. There shall be no extensions of such temporary permit. A trailer shall not be used for living or sleeping purposes;

(2) The trailer must be removed within 30 days after the issuance of a certificate of occupancy for a model home or 150 days, whichever comes first;

(3) The trailer must be single-wide with a maximum length of 70 feet;

(4) The trailer must have ground anchors for every ten feet of the length of the trailer;

(5) The trailer must have skirting around the trailer to conceal the undercarriage;

(6) The trailer must be located in a platted subdivision on a lot which is owned by the applicant, builder, or developer and be located behind the front yard building lot line;

(7) Location of the trailer and landscaping plans must be approved by the city manager or designee;

(8) At a minimum, landscaping shall include foundation plantings for the front of the trailer to conceal the skirting, and the front yard (25 feet or building line whichever is greater) and side yards (four feet minimum) must be grassed. Side yards must have a one to five gallon shrubs every three feet with seasonal flowers between;

(9) A temporary three-foot-wide concrete sidewalk to the parking area is required from the trailer to the curb;

(10) Building permit fees for the temporary sales trailer will be required and assessed according to the fee schedule and any necessary utility connection fees shall be paid;

(11) Temporary off-street parking of an approved all-weather surface shall be provided at a minimum rate of two spaces per proposed model home on the same side of the street as the models. Parking must also include at least one hard surface (i.e., concrete, asphalt, etc.) parking space for handicapped citizens;

(12) Upon issuance and expiration of the temporary permit and cessation of activities, the city building official and permittee shall walk the site to verify compliance with these special conditions. Upon the expiration of the temporary permit or the completion of the model home, whichever comes first, the city building official and permittee shall walk the site and verify that all temporary facilities have been removed.

(d) *Model homes.* The construction of model homes after approval of the final plat and prior to the acceptance of public improvements by the city shall be subject to the conditions of this section. Any exceptions to the following conditions shall require the approval of the city council:

(1) No model home may be constructed prior to the approval of the final plat and issuance of a building permit by the city;

(2) No model home shall be sold until a final certificate of occupancy has been issued for the structure;

(3) The developer/owner shall file a hold harmless agreement, in a form acceptable to the city attorney, with the city agreeing to fully indemnify and release the city from all claims, suits, judgments and demands against the city which have accrued or which may accrue, and to hold the city harmless from all claims, suits, judgments and demands against the city, either severally or jointly, which have accrued or which may accrue as a result of the improvements, including sidewalks, streets, water and sewer lines, installations of electricity and other utilities, not having been fully inspected and approved by the city;

(4) The hold harmless agreement shall also indicate that the city shall assume no liability for the development or construction of the development or the improvements. The city only grants permission for the construction and showing of the model homes and in no way shall be held liable for the development of the subdivision/project or for any injury or damages which may result from the improvements, including those mentioned in subsection (d)(3) of this section, not having been fully inspected and accepted by the city;

(5) Upon expiration of the temporary permit and cessation of activities, the city building official and permittee shall walk the site to verify compliance with these special conditions;

(6) Failure to fully construct a model home within six months of the issuance of the building permit shall constitute a substandard structure and a public nuisance that may subject the structure to proceedings associated with the repair or demolition of substandard structures and to permit a lien to be placed upon the property.

(e) *Seasonal sales.* A temporary use permit may be issued by the city manager or designee for a seasonal sales use. The city manager or designee shall consider each request independently and may or may not approve the request. Temporary use permits for seasonal sales shall be subject to the following conditions:

(1) Temporary use permits shall be issued only for the seasonal sales merchandise, such as Christmas trees, pumpkins, landscape vegetation and fresh produce;

(2) The outdoor display and sales of seasonal items, such as mentioned in subsection (e)(1) of this section shall only be allowed in nonresidential districts;

(3) A temporary permit shall only be issued to any applicant and for any property twice per calendar year and only for 30-day periods;

(4) The use shall not involve more than one tent or temporary building on a lot;

(5) The applicant shall have written permission from the property owner;

(6) No structure or activity relating to the temporary use shall be located within the required yard setbacks, easements, pedestrian walkways or rights-of-way;

(7) All outdoor displays shall be removed within two calendar days after the expiration of the permitted time;

(8) Upon both the issuance and expiration of the temporary permit and cessation of activities, the city building official and permittee shall walk the site to verify compliance with these special conditions.

(f) *Carnival, circus, tent revival or special event.* A temporary use permit for a carnival, circus, tent revival or special event may be issued by the city manager or designee, subject to the following conditions:

(1) Coordination with the city manager or designee shall begin a minimum of 90 days prior to submission of an application for TUP. Application for a permit shall be made no less than ten business days prior to the date such temporary carnival, circus, tent revival or special event shall commence operation;

(2) The fee for such permit shall be charged according to the fee schedule. Nonprofit organizations shall be exempt from permit fees upon submission of evidence of the nonprofit status of the organization;

(3) The application for a permit shall contain the following:

a. The name, address and telephone number of person, organization or company conducting the event;

b. The dates and times of operation of the carnival, circus, tent revival or special event;

c. A plan showing in detail the different component parts of the temporary carnival, circus, tent revival or special event, including all shows, concessions, amusements, businesses, and the locations of each on the property;

d. A written lease or agreement from the owner of such property stating permission to the applicant to operate a temporary carnival, circus, tent revival or special event on the property;

e. A written agreement with the city, signed by all parties, dictating all pertinent understanding regarding reimbursement to the city for expenses incurred relevant to this event;

f. The proposed location and size of parking area;

g. The location and quantity of sanitary facilities, including, but not limited to, toilets and hand washing stations;

h. The approximate number of persons who are attending and, if applicable, the number and types of animals and vehicles that will constitute such event;

i. The location and orientation of loudspeakers or sound amplification devices, if any;

j. Proof of public liability insurance with minimum combined limits of $5,000,000. The city shall be named as an additional insured on the policy;

k. Any other information the city shall deem necessary under the standards for issuance;

(4) Safe and orderly movement of normal vehicular and pedestrian traffic shall not be interrupted. However, street closures may be coordinated with and approved by the city manager or designee;

(5) The temporary use shall not impede the movement of firefighting equipment, police, ambulances or public works;

(6) Police security (state certified police officer) must be provided at the applicant's expense. However, the city police chief shall have the discretionary authority to determine the number of officers and hours of operation when the police security shall be necessary;

(7) Waste from animals shall be removed frequently, but no less than daily, from the premises. Reduction of odor and insurance of a sanitary environment shall determine the frequency of animal waste removal. Animals shall not be kept closer than 300 feet to any residence or commercial establishment during non-operating hours of such event. Should the event involve the use of wild animals as defined by state law and city ordinances, regulations associated with such animals shall apply and require compliance;

(8) The application shall be reviewed by the building official and police and fire departments for security, fire and safety related issues;

(9) The permit will be valid for a maximum period of ten consecutive days which time includes event set-up, take-down and cleanup;

(10) The city will review the permit application in conjunction with the city's special event regulations;

(11) Prior to the opening of the carnival, circus, tent revival or special event and upon expiration of the temporary permit and cessation of activities, the city building official and permittee shall walk the site to verify compliance with these special conditions.

(g) *Refreshment stands.* A temporary use permit for a refreshment stand may be issued by the city manager or designee, subject to compliance with the following conditions:

(1) A portable building may be used on a temporary basis as a refreshment stand for a period not to exceed six months on the same lot or parcel within any consecutive 12-month period, measured from the date of the issuance of the temporary permit;

(2) It shall be the responsibility of the applicant to comply with all provisions of this section;

(3) A deposit in a sum according to the fee schedule shall be required at the time the temporary permit for the refreshment stand is obtained to ensure the removal of the stand if the use is discontinued and the stand is not removed from the site within ten calendar days of the expiration or abandonment of the permit. The deposit will be refunded once the stand has been removed, prior to ten calendar days after the permit expires, and all other requirements have been met. Failure to timely remove the stand and otherwise comply with these requirements shall cause the deposit to be forfeited and deposited into the city's general fund;

(4) All other applicable permits relative to providing food service must be obtained and satisfy all applicable state and local regulations associated with food sanitation. Failure to so comply may render the permit null and void and require immediate cessation of food service;

(5) A refreshment stand and all appurtenances thereto, shall comply with all applicable requirements of the zoning district in which it is located. The facility shall not be required, however, to meet the landscaping, exterior masonry or underground utility requirements of the applicable zoning district;

(6) A refreshment stand may only be located on parking spaces of retail or commercial property, provided that such spaces are not necessary to meet the minimum parking requirements of the other uses on the lot or parcel;

(7) A refreshment stand in a portable building shall not be located within, nor encroach upon, a fire lane, maneuvering aisle, vehicle stacking space or required landscaping areas of the lot or parcel upon which the facility is placed. The location of such facility shall comply with all visibility obstruction regulations of the city;

(8) A site plan shall be submitted providing a well-delineated safety area to keep vehicles from entry into the stand and table area. The site plan shall be prepared to scale and reviewed and approved by the building official and the fire marshal;

(9) The refreshment stand shall be located on an approved concrete surface;

(10) The refreshment stand shall be no more than a maximum of eight feet by 12 feet in size;

(11) The refreshment stand shall obtain a health permit and meet all health requirements promulgated by Dallas or Ellis County (whichever is applicable) health regulations and the state department of health and as set forth in the city's regulations governing same. Failure to so comply shall render the permit null and void and require the immediate cessation of food services;

(12) Upon both the issuance and expiration of the temporary permit and cessation of activities, the city building official and permittee shall walk the site to verify compliance with these special conditions.

(Code 1996, ch. 14, exh. 14A, art. XVIII, § 1; Ord. No. O-03-09, 4-20-2009; Ord. No. O-06-21, 7-20-2021)

Secs. 74-509—74-539. Reserved.

ARTICLE XVII. ENFORCEMENT AND REVIEW

Sec. 74-540. Effect of interpretation.

In interpreting and applying the provisions of this chapter, they shall be held to be the minimum requirements for the promotion of the public safety, health, convenience, comfort, prosperity or to annul any easements, covenants or other agreements between parties; provided, however, that where this chapter imposes a greater restriction upon this use of buildings or premises or upon height of buildings, or requires larger open spaces than are imposed or required by agreements, the provisions of this chapter shall govern. This chapter is also not intended to abrogate or annul any lawfully obtained permit issued prior to the effective date of the ordinance from which this chapter is derived.

(Code 1996, ch. 14, exh. 14A, art. XX, § 1)

Sec. 74-541. Preserving rights in pending litigation and violations under existing ordinances.

By the passage of the ordinance from which this chapter is derived, no presently illegal use shall be deemed to have been legalized unless such use specifically falls within a use district where the actual use is a conforming use. Otherwise, such uses shall remain nonconforming uses where recognized, or an illegal use, as the case may be. It is further the intent and declared purpose of this chapter that no offense committed, and no liability, penalty or forfeiture, either civil or criminal, incurred prior to the time the chapter previous to this chapter was repealed and this ordinance from which this chapter is derived was adopted, shall be discharged or affected by such repeal and adoption; but prosecutions and suits for such offenses, liabilities, penalties or forfeitures may be instituted or causes presently pending proceeded with in all respects as if such prior chapter had not been repealed.

(Code 1996, ch. 14, exh. 14A, art. XX, § 2)

Sec. 74-542. Complaints regarding violations; parties liable; procedures upon discovery of violations.

(a) *Complaints regarding violations.* When the city manager receives a written, signed complaint alleging a violation of this chapter, the city manager shall investigate the complaint, take whatever action is warranted, and inform the complainant in writing what actions have been or will be taken.

(b) *Parties liable.* The owner, tenant, or occupant of any building or land or part thereof and any architect, building contractor, agent, or other person who participated in, assists, directs, creates, or maintains any situation that is contrary to the requirements of this chapter, or has care, custody or control of the building, land or part thereof may be held responsible for the violation and suffer the penalties and be subject to the remedies herein provided.

(c) *Procedures upon discovery of violations.*

(1) If the city manager finds that any provision of this chapter is being violated, the city manager shall send a written notice to the person responsible for such violation, indicating the nature of the violation and ordering the action necessary to correct it. Additional written notices may be sent at the city manager's discretion;

(2) The final written notice (an initial written notice may be the final notice) shall state what action the city intends to take if the violation is not corrected and shall advise that the city manager's decision or order may be appealed to the board of adjustment in accordance with section 74-137 if a zoning matter, or the city planning and zoning commission if a platting matter;

(3) Notwithstanding the foregoing, in cases when delay would seriously threaten the effective enforcement of this chapter or pose a danger to the public health, safety, or welfare, the city manager may seek enforcement without prior written notice by invoking any of the penalties or remedies authorized in section 74-543.

(Code 1996, ch. 14, exh. 14A, art. XX, § 3)

Sec. 74-543. Penalties and remedies for violations.

(a) Any person, firm, or corporation who shall intentionally or knowingly violate any of the provisions of this chapter, or who shall fail to comply with any requirement or provision hereof within the territorial limits of the city, shall be guilty of a misdemeanor and, upon conviction, shall be subject to a fine not to exceed $2,000.00, and every day that such violation continues shall constitute a separate offense and shall be punishable accordingly. In addition to the penalty provided for, the right is conferred and extended upon any property owner owning property in any district, where such property owner may be affected or invaded, by a violation of the terms of this chapter, to bring suit in such court having jurisdiction thereof and obtain such remedies as may be available at law and equity in the protection of the rights of such property owners.

(b) Any violation of this Code which occurs outside the territorial limits of the city and within the ETJ of the city shall not constitute a misdemeanor under this chapter; however, under this Code, the city shall have the right to institute an action in the district court to enjoin the violation of any provision of such Code in such extraterritorial jurisdiction, and the district court shall have the power to grant any or all types of injunctive relief in such cases.

(c) Notwithstanding the potential criminal penalties outlined herein, nothing herein shall prevent or preclude the city from taking all appropriate legal actions and seeking such legal redress as permitted by law, including civil, administrative, and injunctive relief.
(Code 1996, ch. 14, exh. 14A, art. XX, § 4)

The city manager shall have authority to propose new fees and amendments to the following fee schedule as he or she deems appropriate or necessary. Said proposed or amended fees shall become effective after being placed on a city council meeting agenda and approved by the council.
(Ord. No. O-13-11, 9-19-2011; Ord. No. O-13-17, 9-12-2017; Ord. No. O-14-17, 9-12-2017; Ord. No. O-12-23, 10-3-2023)

ARTICLE A2.000. PLANNING DEPARTMENT

Sec. A2.001. Planning department.

(a) Annexation: $750.00

(b) Zoning Change:

(1) $1,000.00: (1—10 acres).

(2) $1,500.00: (11—29 acres).

(3) $1,500.00 + $15.00/acre: (30 + acres).

* A total of $2,800.00 is the maximum amount for zoning change under this subsection.

(c) Special Use Permit (SUP): $750.00 + $10/Acre

(d) Planned Development (PD): $1,500.00, plus $10.00/acre, plus actual cost of third-party review fee(s).

(e) Temporary Use Permit or Renewal: $500.00 and $250.00 for Renewal

(f) Zoning Verification Letter: $60.00.

(g) Appeal/Variance: $600.00

(h) Site Plan Review: $350.00 + $20.00/acre, plus actual cost of third-party review fee(s).

(i) In-house Plan Review: $120.00 hourly.

(j) Plan Review by Third Party: Actual cost.

(k) County Recording Fee: Actual Cost.

* All acreage will be rounded to the nearest whole acre.

(l) Platting (fees below do not include recordation fee or third-party review cost):

(1) Preliminary Plat: $400.00 + $25.00/Lot

(2) Final Plat: $325.00 + $50.00/Lot

(3) Replat/Amending/Vacating Plat: $575.00 + $35.00/acre.

(4) In-house Plat Review: $120.00 hourly.

(5) Plat Review by Third Party: Actual cost.

(6) Refiling: Expiration of a final plat caused by failure to construct a s soc i a t ed public improvements will require the applicant to begin platting process again, including payment of above noted fees.

(m) Preapplication meeting fee: Free.

(Ord. No. O-13-11, 9-19-2011; Ord. No. O-13-17, 9-12-2017; Ord. No. O-14-17, 9-12-2017; Ord. No. O-14-22, 11-22-2022; Ord. No. O-12-23, 10-3-2023; Ord. No. O-19-25, exh. A(A2.001), 10-21-2025)

ARTICLE A3.000. BUILDING INSPECTION DEPARTMENT

Sec. A3.001. General fees.

(a) General Contractor/License Registration: $100.00 annually. (Does not apply to mechanical, electrical and plumbing contractors.)

(b) Impact Fee and Park Fee: Per current impact fee and parkland dedication ordinance.

(c) Building Permit: See section A3.002.

(d) Electrical: $150.00 for Residential and $250.00 for Commercial

(e) Plumbing: $150.00 for Residential and $250.00 for Commercial

(f) Mechanical: $150.00 for Residential and $250.00 for Commercial

(g) Remodel, Move, Demolition:

(1) Building addition: $0.72/SF under the roof, plus plan review fee.

(2) Remodel/alteration: $150.00, plus plan review fee.

(h) Minor Building Repair: $150.00 For Residential and $250.00 for Commercial (No Structural or MEP included.)

(i) Demolition: $250.00 for Residential and $350.00 for Commercial

(j) Reinspection Fees (for any/all inspections):

(1) Initial Inspection: $0.00 (included in permit fee).

(2) First Reinspection: $75 for Residential and $125.00 for Commercial

(3) Second Reinspection: $75 for Residential and $125.00 for Commercial

(4) Third and Each Subsequent Reinspection: $100 for Residential and $150.00 for Commercial

(k) After Hours Inspection: $100.00 hour (minimum 2 hours including travel time). Subject to availability.

(l) Engineering and Plan Review:

(1) Third Party: Actual cost.

(2) In-house: $120.00 hourly.

(m) Energy Code Review and Inspection: Actual cost of third-party inspection.

(n) Miscellaneous Fees:

(1) Commercial Certificate of Occupancy (C/O): $250.00

(2) Permit Fee Not Specified: $150.00 for Residential and $250.00 for Commercial + number of inspections needed × $75.00.

(3) Grading: $100.00.

(4) Subdivision Mass Grading: $750.00 + $10.00/Acre

(o) Infrastructure Inspection Fee:

(1) Infrastructure Plan Review Fee: Actual cost of third-party review.

(2) Infrastructure Inspection Fee: Actual cost of third-party inspection.

(p) Concrete, Flatwork, Driveway: $150.00 Residential and $250.00 Commercial

(q) Roofing: $150.00 Residential and $250.00 Commercial

(r) Fence:

(1) Residential: $150.00

(2) Commercial: See section A3.002.

(3) Screening Wall (plus engineering review): See section A3.002.

(4) Retaining Wall (plus engineering review): See section A3.002.

(s) Moving Structure:

(1) Into City Limits (including Inspections): $500.00.

(2) Through City Limits (including Escort): $150.00 first hour, plus $100.00 each additional 30 minutes.

(3) Mileage: Current IRS rate.

(t) Accessory Structures:

(1) Shed, Free-Standing Carport, Barn, Pergola, Gazebo, Pavillion, Etc.: $150.00, plus Plan review fee, plus MEP.

(2) Detached structure (Residential): Detached garage, Carport Attached to Roofline, Awning or Patio Attached to Roofline, Accessory Dwelling Unit, Pool House, Guest House, etc.: $0.54/Squarefoot under the roof, plus plan review fee by 3rd party

(u) Pools and Spas:

(1) In-ground, Site-built Pool: $250.00, plus plan review fee.

(2) Above-ground Pool: $150.00 and trade permit (as needed). (Pools with height less than 36" does not require permit if no plumbing or electrical work is needed.)

(3) Site-built Spa: $250.00, plus plan review fee.

(v) HUD-code Manufactured Home - Move in and Setup: Flatwork + any trade permit (e.g. MEP). Will be permitted and inspected the same as a new single-family residence.

(w) Signs: Sign contractor must be registered. Requires any trade permits, plus actual cost of plan review fee by third party or, at city's option, permit fee in the amount of $150.00 permit fee or, as applicable, the following amount:

Type of Sign	*Definition and/or Ordinance Specifications*	*Fee*
New Development, New Project, Builder Directional, or New Subdivision Sign (Coming Soon)	On-premises identifying any new development (commercial, retail, office, mixed use, etc.) in the city shall not exceed six feet (6') in height and the sign face shall not exceed sixteen square feet (16 sq. ft.). Such development signs are allowed for up to one (1) year after the building permit has been issued or until the certificate of occupancy (C/O) is issued, whichever comes first. One (1) sign is permitted per project and should be set back at least twenty feet (20') from public right-of-way.	$175 for 1 year
Grand opening Sign	For grand openings; pennants, flags, streamers, searchlights, and one (1) banner not to exceed fifty square feet (50 sq. ft.) in area may be displayed one time for a maximum of thirty (30) days. All signs must be removed after the thirty-day period. Small balloons less than fourteen inches (14") in diameter (one or a cluster) are exempt from sign permit requirements and are permitted at the time of grand opening or national holidays. If another grand opening or advertising event is required for the same business then signs associated with such event including the event itself should be processed under special events permit as outlined under section 15.01.031(g) [66-39(g)].	$125 for 60 days

Type of Sign	*Definition and/or Ordinance Specifications*	*Fee*
Special Event Sign	No permit shall be required for special event banners that are associated with a special event that has obtained a special events permit from the city's planning and permitting division. The banner should contain a message directly relating to a special event provided, however, that such banners may be displayed no more than seven (7) days prior to the special event and must be removed within two (2) days after the conclusion of the special event. The size of the banner is limited to fifty square feet (50 sq. ft.) and at least one-half (½) of the banner shall contain a message relating to the special event. Such banners shall be located within the private property where such event is taking place and not within any public rights-of-way.	$0
Model Home Sign	Signs identifying model homes, model home centers, and sales office. Model home signs shall not exceed twenty square feet (24') [sic] in area and four feet (4') in height.	$175 for 6 months
Real-Estate Sign (Larger than 6 FT)	No permit shall be required for signs not exceeding six square feet (6 sq. ft.) in sign area and three feet (3') in height advertising the sale, lease or rental of real estate in residential zoning districts. For nonresidential and agricultural zoning districts, no permit shall be required for signs not exceeding thirty-six square feet (32 sq. ft.) [sic] in sign area and five feet (6') [sic] in heights advertising the sale, lease or rental of real estate. For agricultural and non-residential-zoned land, one (1) such sign shall be allowed per property, parcel or lot of record.	$75
Outdoor Displays or Miscellaneous Temporary Signs (portable, flags, pennants, banners, inflatables, etc.)	Not to exceed 60 days or become a nuisance to neighboring properties.	$100 for 60 days

Type of Sign	*Definition and/or Ordinance Specifications*	*Fee*
Flag Poles	Flags are permitted to include state, national, local, religious or institutional flag or emblem, in nonresidential zoning district classification within the city, provided the number of flagpoles does not exceed three (3) flagpoles per platted lot with a maximum height of the flagpole not to exceed twenty-five feet (25') and the maximum flag area does not exceed fifteen square feet (40 sq. ft.) [sic]. The state flag and all other assembled flags shall be arranged in accordance with the Texas constitution and flag etiquette rules. Governmental flags shall be maintained in good repair and shall be externally lit at night. Institutional or other uses allowed in residential zoning may have flags subject to the provisions of this section. Residential lots in a residential subdivision are allowed one (1) flagpole not to exceed twenty-five feet (25') in height and maximum flag area not to exceed thirty square feet (30 sq. ft.).	$150 per flagpole
Awning/Canopy Sign	An awning or canopy sign is only allowed in town center (TC) zoning districts and can be used as the primary sign in lieu of a wall sign	$150
Neon Light Sign	In nonresidential zoning districts one monument style neon sign per parcel is allowed in lieu of a regular monument sign (as defined in section 15.01.011 [66-2]). For parcels with more than one street frontage one such sign is allowed for each street frontage. Monument neon signs shall not exceed eight feet (8') (including the masonry base) in height, twelve feet (12') in width and the sign face area shall not exceed sixty square feet (60 sq. ft.) per sign face.	$150

Type of Sign	*Definition and/or Ordinance Specifications*	*Fee*
Monument Sign	Monument signs are not intended to have gaps, cutouts, or penetrations but instead should be a solid face or area without openings or cutouts. The sign face shall be designed with materials that harmonize with the architecture of the establishment it services. All monument signs shall have landscaping comprised of shrubbery and flowering plants, not exceeding three feet (3') in height near the base of the sign. Only one (1) monument sign per property along the street frontage shall be allowed. Monument signs shall be set back a minimum twelve feet (12') from any public right-of-way and shall not obstruct traffic visibility triangles. Monument signs shall be at least one hundred and twenty feet (120') apart. Monument signs shall be illuminated externally for visibility after dark.	$200
Wall Sign	Wall signs are allowed in every zoning district and shall be placed on the principal structure only, and may be internally and externally illuminated.	$200
Pole Sign	On-premise pole signs may be permitted on properties with at least 200 feet of continuous frontage along and adjacent to the I-35E corridor and shall be subject to the regulations of the Texas Highway Beautification Act-Outdoor Advertising Signs and this code. Off-premise pole signs are prohibited. Only one pole sign may be permitted for each 200 feet of roadway frontage along the I-35E corridor. Pole signs shall not exceed fifty (50) feet in height, shall not be attached to or supported by any part of a building, and shall not be configured such that the sign is located between 2 and 10 feet above average grade where located within 15 feet of an adjacent roadway. The overall surface area of each face of the sign shall not exceed three hundred (300) square feet… ETC.	$150

Type of Sign	*Definition and/or Ordinance Specifications*	*Fee*
Pylon Sign	Masonry pylon signs are allowed only on nonresidential properties with a minimum of three hundred feet (300') continuous frontage along IH-35E frontage road or any other four (4) or more lane freeways or on F.M. 664 or Ovilla Road, except the height for such signs on F.M. 664 shall not exceed thirty-five feet (35'). Masonry pylon signs are large signs with two masonry columns supporting a sign face that is surrounded by minimum two feet (2') wide masonry border and a minimum three feet (3') high decorative cap on top. Two and a half feet (2.5') high masonry planter with landscaping should surround the base of the pylon sign. For multitenant premises the sign face area shall not exceed four hundred and fifty square feet (450 sq. ft.) and for single-tenant premises the sign face area shall not exceed three hundred square feet (300 sq. ft.). Maximum height of masonry pylon sign shall not exceed fifty feet (50') above the adjacent pavement level. Masonry pylon signs shall be set back at least two hundred feet (200') from public right-of-way. Section 15.01.091(e) [66-93(e)] shows an example of a similar sign in the city.	$150
Sign Repair		$100

(x) Annual donation box permit: $50

(y) Solar permit: $175

*All permit fees double if construction or work is performed without the required permit. (Ord. No. O-13-11, 9-19-2011; Ord. No. O-13-17, 9-12-2017; Ord. No. O-14-17, 9-12-2017; Ord. No. O-12-23, 10-3-2023; Ord. No. O-19-25, exh. A(A3.001), 10-21-2025)

Sec. A3.002. Building permit fee schedule.

(a) Building permit fee for other than residential one- and two-family new construction, additions, alterations and remodels shall be as set forth in table 1-A in this section.

(b) Building permit fee for residential one- and two-family new construction is $0.72 Per Square foot under the roof area.

(c) Plan review fees:

(1) When submittal documents are required by IBC section 107 or IRC section R106, a plan review fee shall be paid at the time of submitting the submittal documents for plan review. Said plan review fee shall be 65-percent of the building permit fee as shown in table 1-A or, as applicable, table 2-A.

(2) The plan review fees specified in this section are separate fees from the permit fees and are in addition to the building permit fees.

(d) Building permit valuation: For other than residential new construction, additions, alterations, remodels, repairs and other improvements, the building official may require the applicant to provide satisfactory verification of the declared value.

Table 1-A. Building Permit Fees for Other than Residential One- and Two-Family New Construction, Additions, Alterations, Remodels, Repairs and Other Improvements

Valuation	*Fee*
$1.00 to $10,000.00	$150.00
$10,001.00 to $25,000.00	150.00 for the first $10,000.00, plus $17.00 for each additional $1,000.00, or fraction thereof, to and including $25,000.00
$25,001.00 to $50,000.00	$391.25 for the first $25,000.00, plus $13 for each additional $1,000.00, or fraction thereof, to and including $50,000.00
$50,001.00 to $100,000.00	$643.75 for the first $50,000.00, plus $9.50 for each additional $1,000.00, or fraction thereof, to and including $100,000.00
$100,001.00 to $500,000.00	$993.75 for the first $100,000.00, plus $7.00 for each additional $1,000.00, or fraction thereof, to and including $500,000.00
$500,001.00 to $1,000,000.00	$3,233.75 for the first $500,000.00, plus $5.55 for each additional $1,000.00, or fraction thereof, to and including $1,000,000.00
$1,000,001.00 and up	$5,608.75 for the first $1,000,000.00, plus $4.00 for each additional $1,000.00, or fraction thereof

(e) Other Inspections and Fees (hourly charge).

(1) Inspections outside of normal business hours: $100.00 per hour* (minimum charge - two hours). Subject to availability.

(2) Reinspection fees assessed under provisions of section 1.01.009 [sic]: $75.00 per hour.*

(3) Inspections for which no fee is specifically indicated: $50.00 per hour* (minimum charge - one-half hour).

(4) Additional plan review required by changes, additions or revisions to plans: $120.00 per hour* (minimum charge - one-half hour).

(5) For use of outside consultants for plan checking and inspections, or both: Actual costs.**

* Or the total hourly cost to the jurisdiction, whichever is the greatest. This cost shall include supervision, overhead, equipment, hourly wages and fringe benefits of the employees involved.

** Actual costs include administrative and overhead costs.
(Ord. No. O-05-19, 10-1-2019; Ord. No. O-12-23, 10-3-2023; Ord. No. O-19-25, exh. A(A3.002), 10-21-2025)

Sec. A3.003. Rental registration and inspection fees.

(a) Residential Rental Registration Fees:

(1) Registration Fee (per Rental Dwelling Unit): $150.00 (Includes one-time inspection)

(b) Residential Property Inspection Fees:

(1) Single-Family and Two-Family Rental Units: $100.00 ($50.00 each additional inspection.)

(2) Multifamily Rental Units containing 3—25 Dwelling Units: $100.00 ($50.00 each additional inspection.)

(3) Multifamily Rental Units Containing 26—100 Dwelling Units: $90.00 Base Fee + a Multi-Unit Fee of $12.50 × (total number of rental units multiplied by $0.30).

(4) Multifamily Rental Units containing 101+ Dwelling Units: $115.00 Base Fee + a Multi-Unit Fee of $12.50 × (total number of rental units multiplied by $0.30).

(5) Reinspection Fee: $75.00.
(Ord. No. O-04-16, 3-1-2016; Ord. No. O-12-23, 10-3-2023; Ord. No. O-19-25, exh. A(A3.003), 10-21-2025)

</table>

(a) All cottage food products must be prepared in a primary residence kitchen using standard household appliances. Operators are required to provide labeling information to consumers before accepting payment and must ensure that all labels include:

(1) the operator's name and address or DSHS registration number,

(2) the common name of the product,

(3) allergen information, and

(4) the statement: "This food is made in a home kitchen and is not inspected by the Department of State Health Services or a local health department."

Additional requirements apply to online and mail-order sales, canned or fermented goods, and frozen produce. If selling TCS foods, DSHS registration is mandated to obtain a permit from the state, not the city. State rules must be followed in full, even if not expressly stated in this ordinance.

These fees do not include state-required health inspections. No annual, temporary, or seasonal permit will be issued without a valid and current health inspection report, certificate, and state issued permit (applicable).
(Ord. No. O-13-11, 9-19-2011; Ord. No. O-12-23, 10-3-2023; Ord. No. O-19-25, exh. A(A4.001), 10-21-2025)

Sec. A4.002. Food service inspection fees.

(a) Annual fee covering two yearly inspections: $210.00.

(b) Subsequent inspections in calendar year: $105.00.

(c) Reinspections shall not occur within 60 days unless there is a serious health risk or immediate need for corrective action.

(d) Subject to the Fire Inspection Fees listed in A14.001.
(Ord. No. O-11-23, 9-19-2023; Ord. No. O-19-25, exh. A(A4.002), 10-21-2025)

Sec. A4.003. Food service definitions.

(a) Time and Temperature Control for Safety Food (TCS Food): A food that requires time and temperature control for safety to limit pathogen growth or toxin production. The term includes a food that must be held under proper temperature controls, such as refrigeration, to prevent the growth of bacteria that may cause human illness. TCS food may include a food that contains protein and moisture and is neutral or slightly acidic, such as meat, poultry, fish, and shellfish products, pasteurized and unpasteurized milk and dairy products, raw seed sprouts, baked goods that require refrigeration, including cream or custard pies or cakes, and ice products. The term does not include a food that uses TCS food as ingredients if the final food product does not require time or temperature control for safety to limit pathogen growth or toxin production.

(b) Bed & Breakfast, Extended: A lodging facility that either

(1) offers more than seven rooms for rent, or

(2) provides food service beyond breakfast to overnight guests, or

(3) serves food to customers who are not overnight guests. This includes any bed and breakfast that operates with expanded lodging capacity or food service beyond the traditional scope.

(c) Bed & Breakfast, Limited: An establishment that has seven or fewer rooms for rent, only serves a breakfast meal to overnight guests.

(d) Catering Operation: Serves food directly to consumers or via transit, including delivery.

(e) Commercial Catering Operation: Serves food directly to consumers or via transit, including delivery.

(f) Cottage Food Production Operation or Home Kitchen: Home-based business producing non-TCS food with less than $150,000 in income. Includes a baked good that is not a time and temperature control for safety food (TCS food), candy, coated and uncoated nuts, unroasted nut butters, fruit butters, a canned jam or jelly, a fruit pie, dehydrated fruit or vegetables, including dried beans, popcorn and popcorn snacks, cereal, including granola, dry mix, vinegar, pickled fruit or vegetables, including beets and carrots, that are preserved in vinegar, brine, or a similar solution at an equilibrium pH value of 4.6 or less, mustard, roasted coffee or dry tea, a dried herb or dried herb mix, plant-based acidified canned goods, fermented vegetable products, including products that are refrigerated to preserve quality, and any other food that is not a TCS food. Not required to be permitted per Texas DSHS unless selling and/or preparing TCS foods.

(1) Does NOT include: meat, meat products, poultry, or poultry products, seafood, including seafood products, fish, fish products, shellfish, and shellfish products, ice or ice products, including shaved ice, ice cream, frozen custard, popsicles, and gelato, low-acid canned goods, products containing cannabidiol or tetrahydrocannabinol, or raw milk and raw milk products, or other TCS foods.

(g) Food Bank: Nonprofit or public entity providing food to those in need.

(h) Food Processing Plant: Facility manufacturing food for distribution—not retail-facing. Not classified as food establishment under DSHS.

(i) Mobile Food Unit (MFU) or Food Truck: A vehicle-mounted, self or otherwise propelled, self-contained food service operation designed to be readily movable (including catering trucks, trailers, push carts, and roadside vendors) and used to store, prepare, display, serve or sell food. An MFU must completely retain its mobility at all times. An MFU does not include a stand or a booth. A roadside food vendor is classified as an MFU.

(j) Produce Stand (Whole, Uncut): Stand offering only whole, uncut fresh fruits and vegetables. Does not include TCS foods. If TCS foods are prepared or sold, refer to the definition and fee for MFU.

(k) Restaurant: Operation that stores, prepares, packages, serves, or vends food to consumers.

(l) Retail Food Store: Section of an establishment offering food products for off-premises consumption, requires permit if handling TCS food.

(m) Roadside Food Vendor: A person who operates a mobile retail food store from a temporary location adjacent to a public road or highway. Food is not prepared or processed by a roadside food vendor. A roadside food vendor is classified as an MFU.

(n) School Food Establishment: Food prep site on school grounds, includes school event vendors. Permitted as food establishment under school operations.

(o) Temporary Food Establishment, Single-Event: Temporary vendor operating from one individual food both or unit, limited to a single event for no more than 14 days.

(p) Temporary Food Establishment, Multiple Events: Temporary vendor operating from one individual food both or unit, limited to no more than 14 days per event. Valid for 2 years.

(q) Vending Machine Location: The room, enclosure, space, or area where one or more vending machines are installed and operated and that includes the storage areas and areas on the premises that are used to service and maintain the vending machines. This does not include self-service food markets. Facility itself may be regulated if not exempt. Exemption may be given if selling room-temperature, pre-packaged foods only.
(Ord. No. O-19-25, exh. A(A4.003), 10-21-2025)

ARTICLE A5.000. UTILITIES

Sec. A5.001. Water rates and charges.

The monthly water rates to be charged and collected by the city from all customers within the city limits and in the city's Certificate of Convenience and Necessity (CCN) obtaining city services for water shall be hereby fixed as follows:

	FY 2024	*FY 2025*	*FY 2026*
Residential Inside			
Minimum Charge			
¾" or less	$20.83	$23.02	$25.44

Sec. A5.003. Irrigation rates and charges.

The monthly irrigation rates to be charged and collected by the city from all customers obtaining city services for irrigation water shall be hereby fixed as follows:

Meter Charge	
¾ inch	$6.31
1 inch	$15.76
1-½ inch	$31.53
2 inch	$50.44
3 inch	$94.58
4 inch	$157.75
Volumetric Charge per 1,000 Gallons	
0—6,000	$3.67
6,001—12,000	$4.59
12,001—18,000	$5.74
18,001 and over	$7.17

(Ord. No. O-20-10, 9-7-2020; Ord. No. O-12-23, 10-3-2023)

Sec. A5.004. Utility billing.

(a) Utility deposit:

(1) Homeowner: $100.00.

(2) Renter: $150.00.

(3) Clean up deposit, one week (7 calendar days): $30.00.

(4) Clean up deposit, two weeks (14 calendar days): $60.00.

(b) Late fee: $25.00 or 15% of total due, whichever is greater.

(c) Reconnection for nonpayment: $35.00.

(d) Meter pull: $150.00.

(e) Meter reset: $50.00.

(f) Irrigation meter removal (customer): $35.00.

(g) Irrigation meter reinstall (customer): $50.00.

(h) Irrigation meter lock-out (noncompliance): $50.00.

(i) Leak check: $35.00.

(j) Test meter: $35.00, plus cost of test.

(k) Re-read meter (after first re-read): $35.00.

(l) Temporary meter: $50.00 for processing and setting meter for up to 48 hours, plus water use.

(m) Transfer service: $35.00 for processing and field work.

* All monthly water, sewer and solid waste rates are adopted by separate city ordinance.
(Ord. No. O-13-11, 9-19-2011; Ord. No. O-14-22, 11-22-2022; Ord. No. O-12-23, 10-3-2023)

Sec. A5.005. Tap fees.

(a) As of October 3, 2023, the city generally will not conduct any water and sewer tap. General contractors desiring to perform a water and/or sewer tap must request inspection in advance. In specific cases, the director of public works may determine that a tap shall be performed by the city and in such case, the fees for these taps are as follows:

(1) Water tap fee:

⅝"—¾"	$900.00
1"	$975.00
1-¼"—1-½"	$1,100.00
2"	Actual cost, plus $500.00
Over 2	Actual cost, plus $600.00

* Installation means connection of meter where a service is existing.

(2) Sewer tap fee:

3"	$500.00
4"	$600.00
6" or larger	$700.00

* Additional costs may be added to the tap fee depending on construction required.

(b) Additional cost above tap fee:

(1) Street cuts and/or road bores: Actual cost, plus $100.00 admin.

(2) All taps exceeding 4' depth: Actual cost, plus $100.00 admin.

(Ord. No. O-13-11, 9-19-2011; Ord. No. O-12-23, 10-3-2023)

Sec. A5.006. Backflow device inspection.

Installation or replacement: $25.00.

(Ord. No. O-13-11, 9-19-2011; Ord. No. O-12-23, 10-3-2023)

Sec. A5.007. Solid waste collection.

Actual cost charged by third-party collection service, plus 10% per contract.

(Ord. No. O-13-11, 9-19-2011; Ord. No. O-12-23, 10-3-2023)

Sec. A5.008. Smart water meter fees.

The smart water meter fee shall be based upon the size and type of the smart water meter as follows:

Size	*Type*	*Price*
¾" × ⅝"	ALD	$363.00
¾" × ⅝"	AMI	$264.00
1" × 1"	ALD	$489.50

Size	*Type*	*Price*
1-½" × 1-½"	AMI	$737.00
2" × 2"	ALD	$1,072.50
3" × 3"	AMI	$2,420.00
4" × 4"	AMI	$3,520.00

(Ord. No. O-08-21, 8-3-2021; Ord. No. O-12-23, 10-3-2023; Ord. No. O-02-24, § 1, 2-27-2024)

Sec. A5.009. Water well drilling permit fee.

A city-issued permit is required prior to the drilling and installation of water wells within the territorial limits of the city or its extraterritorial jurisdiction. A permit fee of $100.00 is established to administer and inspect the installation of water wells within the territorial limits of the city or its extraterritorial jurisdiction.
(Code 1996, §§ 13.11.001—13.11.004; Ord. No. O-17-08, 6-16-2008)

Sec. A5.010. Appeals application fee.

If an owner or a person legally authorized to represent a nonresidential property owner wishes to appeal a municipal drainage system fee amount, they may do so by filing a notice of appeal with the city engineer and paying a $100.00 application fee. An appeal can be filed by completing a form that describes the basis for the claimant appealing the data, including the provision of independent engineering reports supporting a more accurate area calculation. The information submitted to the city must be complete in order to conduct an evaluation of the appeal. A response will be provided within ten days of the receipt of the completed appeal form and supporting material. Any utility billing adjustments made after adoption of this article shall be applied only to the next billing cycle following a decision made by the city.
(Code 1996, § 13.12.007; Ord. No. O-08-09, § 8, 9-21-2009)

ARTICLE A6.000. CODE ENFORCEMENT

Sec. A6.001. Code enforcement.

(a) Code violation abatement admin. fee: $250.00.

(b) Code violation abatement: Actual costs.

(c) Substandard/dangerous structure: 20% of value of property but not less than $250.00.

* Delinquency in payment of these costs and fees shall result in addition of interest at the rate of 10% and filing a lien against the property. Also, the city reserves the right to take appropriate steps to foreclose on the lien as provided by law.

(d) Peddler/solicitor: $25.00 per solicitor per occurrence.
(Ord. No. O-13-11, 9-19-2011; Ord. No. O-02-16, 1-11-2016; Ord. No. O-14-22, 11-22-2022; Ord. No. O-12-23, 10-3-2023)

ARTICLE A7.000. COIN-OPERATED MACHINES

Sec. A7.001. Coin-operated machines.

(a) Coin-operated machine operator (annually): $250.00.

(b) Machines each (annually): $15.00.

(Ord. No. O-13-11, 9-19-2011; Ord. No. O-02-16, 1-11-2016; Ord. No. O-12-23, 10-3-2023)

ARTICLE A8.000. ANIMAL CONTROL

Sec. A8.001. Animal control.

(a) Animal registration fee:

(1) Spayed or neutered animal: $10.00.

(2) Intact animal: $50.00.

(b) Dangerous dog registration fee: $200.00.

(c) Owner surrender fee:

(1) Adult animal: $50.00.

(2) Litter (under 12 weeks with mother): $10.00, plus $50.00 for mother.

(3) Litter without mother: $50.00.

(d) Impounded domestic animal:

(1) First impound within one year: $40.00.

(2) Second impound within one year: $50.00.

(3) Third impound within one year: $75.00.

(4) Fourth impound within one year: $85.00.

(5) Additional impound within one year: $100.00.

(e) Daily boarding charge:

(1) Not quarantined: $15.00 or cost, plus 20%, whichever is greater.

(2) Quarantined: $20.00 or cost, plus 20%, whichever is greater.

(f) Impounded livestock: $35.00, plus boarding of third party.

* Boarding will be handled and paid directly by the third party. Owner will still owe the city impound fee.

(g) Identification tag: $10.00.

(h) Wild or exotic animal permit: $200.00.

(i) Pickup and disposal of dead animal: $50.00.

(j) Residential breeder/foster license: $35.00.

ARTICLE A9.000. CITY SECRETARY

Sec. A9.001. Business-related fees.

(a) Licensing inspection (Ord. O-04-09): $475.00.

(b) License renewal (Ord. O-04-09) (initial and renewal): ½ TABC licensing and renewal fee.

(c) Filing fee (county): Actual cost, plus $60.00 per hour.

(Ord. No. O-13-11, 9-19-2011; Ord. No. O-02-16, 1-11-2016; Ord. No. O-12-23, 10-3-2023)

ARTICLE A10.000. MISCELLANEOUS FEES

Sec. A10.001. Credit card service charge and returned check fee.

Relevant to all departments:

(1) Convenience fee (use of credit card): No charge unless it is a pass-through to a third-party collection agency.

(2) Service charge (denied credit card transaction): $35.00.

(3) Returned check fee: $35.00.

(Ord. No. O-13-11, 9-19-2011; Ord. No. O-02-16, 1-11-2016; Ord. No. O-14-22, 11-22-2022; Ord. No. O-12-23, 10-3-2023)

Sec. A10.002. Garage sales.

Garage sale: No fee (Permit is required.)

(Ord. No. O-13-11, 9-19-2011; Ord. No. O-02-16, 1-11-2016; Ord. No. O-12-23, 10-3-2023; Ord. No. O-19-25, exh. A(A10.002), 10-21-2025)

ARTICLE A11.000. MUNICIPAL COURT

Sec. A11.001. Warrant fee.

As adopted in the Code of Criminal Procedure.

(Ord. No. O-13-11, 9-19-2011; Ord. No. O-02-16, 1-11-2016; Ord. No. O-12-23, 10-3-2023)

Sec. A11.002. Appeals; transcript preparation fee.

In the event of an appeal, the appellant shall pay a transcript preparation fee in the amount of $25.00. The transcript preparation fee does not include the fee for an actual transcript of the proceedings. The clerk shall note the payment of the fee on the docket of the court. If the case is reversed on appeal, the transcript preparation fee in the amount of $25.00 shall be refunded to the appellant. In addition to the transcript preparation fee, the fee for the actual transcript of the proceedings and statement of facts must be paid by the appellant, pursuant to V.T.C.A., Government Code §§ 30.00014 and 30.00019.
(Code 1996, § 7.01.006; Ord. No. O-31-08, 10-6-2008)

ARTICLE A12.000. PARKS AND RECREATION

Sec. A12.001. Parks and recreation.

(a) Park pavilion rental:

(1) Resident: $15.00 hour—2 hour minimum.

(2) Nonresident: $30.00 hour—2 hour minimum.

(b) Ballfield rental:

(1) Resident: $25.00 hour—2 hour minimum.

(2) Nonresident: $35.00 hour—2 hour minimum.

(c) Community Center membership fees:

(1) Monthly membership resident senior (age 55+), active military, or veteran: $15.00.

(2) Monthly Membership nonresident senior (age 55+), active military, or veteran: $30.00

(3) Monthly membership single adult—resident: $20.00.

(4) Monthly membership—single adult nonresident: $40.00.

(5) Monthly membership family—resident: $40.00.

(6) Monthly membership family—nonresident: $80.00.

(7) Annual membership resident senior (age 55+), active military, or veteran: $150.00

(8) Annual membership nonresident senior (age 55+), active military, or veteran: $300.00

(9) Annual membership single adult—resident: $200.00.

(10) Annual membership single adult—nonresident: $400.00.

(11) Annual membership family—resident: $400.00.

(12) Annual membership family—nonresident: $800.00.

(13) Youth room fee: $3.00.

For purposes of this subsection (c), the term "family" means persons who live in the same household and who are related by blood or marriage, such that they may be claimed as a spouse, domestic partner, or dependent.

(d) Community center daily use:

(1) Youth (age 5—15) or adult (age 16 and older)—resident: $5.00.

(2) Adult (16 years and older)—nonresident: $10.00.

(e) Parks and recreation facility rentals:

(1) Family center: 1932 S. Hampton Rd. rental block includes set-up time:

(A) Deposit (resident/nonresident): $150.00.

(B) Set-up fee (optional): $100.00.

(C) Rental—2 hours (resident): $150.00.

(D) Rental—2 hours (nonresident): $250.00.

(E) Hourly rental (resident): $75.00/hour.

(F) Hourly rental (nonresident): $125.00/hour.

(G) Kitchen rental (resident/nonresident): $30.00 flat fee.

(H) Audio/video usage (resident/nonresident): $30.00 flat fee.

(2) Community center banquet room (rooms A and B): 1938 S. Hampton Rd.:

(A) Deposit (resident/nonresident): $250.00.

(B) Set-up fee (optional): $100.00.

(C) Rooms A and B—4 hours (resident) (capacity 150): $600.00.

(D) Rooms A and B—4 hours (nonresident): $700.00.

(E) Each additional hour (resident): $150.00/hour.

(F) Each additional hour (nonresident): $175.00/hour.

(G) Kitchen rental (resident/nonresident): $75.00 flat fee.

(H) Audio/video usage (resident/nonresident): $30.00 flat fee.

(I) 5-ft. linen tablecloths: $10.00 each.

(J) 18 by 18 dance floor rental (resident/nonresident): $400.00.

(K) LED uplighting (resident/nonresident): $30.00

(3) Room A—Community center banquet room:

(A) Deposit (resident/nonresident): $250.00.

(B) Room A—2 hours (resident): $200.00.

(C) Room A—2 hours (nonresident): $250.00.

(D) Each additional hour (resident): $100.00/hour.

(E) Each additional hour (nonresident): $125.00/hour.

(F) Kitchen rental (resident/nonresident): $75.00 flat fee.

(G) Audio/video usage (resident/nonresident): $30.00 flat fee.

(H) 5-ft. linen tablecloths: $10.00 each.

(4) Room B—Community center banquet room:

(A) Deposit (resident/nonresident): $250.00.

(B) Room B—2 hours (resident): $100.00.

(C) Room B—2 hours (nonresident): $150.00.

(D) Each additional hour (resident): $50.00/hour.

(E) Each additional hour (nonresident): $75.00/hour.

(F) Audio/video usage (resident/nonresident): $30.00 flat fee.

(G) 5-ft. linen tablecloths: $10.00 each.

(5) Community center gymnasium (available for rental for training or practice for basketball, pickleball, or volleyball):

(A) Deposit (resident/nonresident): $250.00.

(B) Half court rental (resident): $50.00/hour.

(C) Half court rental (nonresident): $60.00/hour.

(D) Full court rental (resident): $100.00/hour.

(E) Full court rental (nonresident): $120.00/hour.

(6) Youth room rental (max capacity 25):

(A) Deposit (resident/nonresident): $50.00.

(B) Set up fee (optional): $20.00.

(C) Youth room—2 hours (resident): $50.00.

(D) Youth room—2 hours (nonresident): $60.00.

(E) Each additional hour (resident): $25.00.

(F) Each additional hour (nonresident): $30.00.

(G) Projector fee (resident/nonresident): $10.00.

(f) Recreation programs:

(1) Individual recreation classes - range from $5.00—$50.00 per class/day.

(2) Recreation programs (recreation programs will vary by week or by month) - range from $20.00—$200.00 per week/month/session.

(3) Recreation team sports—range from $100.00—$500.00 per team/season.

(g) Special Event Permits (for any organization sponsoring or participating in the event):

(1) Any vendor engaged in information distribution: $50.00 per event.

(2) Any vendor engaged in sale of consumables: $100.00 per event.

(3) Any nonprofit organization: $50.00 per event.

(4) Mobile Food Vendor Permit: $100.00 per event.

(5) Optional Fee for 1 table + a max of 4 chairs: $100.00 per event in addition to items (1) through (4)

(6) Optional Permit to sell alcoholic beverages: $200.00 per event in addition to items (1) through (4)

For purposes of this subsection (g), the term "alcoholic beverage" means any beverage containing more than one-half of one percent of alcohol by volume, which is capable of use for beverage purposes, either alone or when diluted.

(h) The city manager shall have the authority to waive special event permit fees (under (e)(7) or (g) of this section) as deemed appropriate or necessary for the scheduled event.

(g) For purposes of subsections (a), (b), and (c) of this section, the term "resident" includes residents of the City and persons whose residence is serviced by Glenn Heights water and/or wastewater utilities.
(Ord. No. O-13-11, 9-19-2011; Ord. No. O-02-16, 1-11-2016; Ord. No. O-14-22, 11-22-2022; Ord. No. O-01-23, 5-16-2023; Ord. No. O-12-23, 10-3-2023; Ord. No. O-04-24, § 1, 1-23-2024; Ord. No. O-14-24, att.(A12.001), 6-18-2024; Ord. No. O-23-24, exh. A, 1-21-2025)

Sec. A12.002. Supplement fees established; citywide park fee and a neighborhood park fee.

The city has established a citywide park fee and a neighborhood park fee. A citywide park fee of $618.00 per dwelling unit shall be imposed on all residential development in the city. A neighborhood park fee shall be calculated and collected as provided in section 24-74.
(Code 1996, §§ 1.18.042, 1.18.043; Ord. No. O-04-08, 2-4-2008)

ARTICLE A13.000. POLICE DEPARTMENT

Sec. A13.001. Police department.

(a) Sexually oriented business (annually): $2,500.00.

(b) Dance hall (annually): $1,000.00. Late hour: $1,000.00.

(c) Peddler/solicitor: $25.00 per solicitor per occurrence.

(i) Foster home: $50.00.

(j) Licensed nursing home: $200.00.

(k) Fire watch/standby: $50.00/hr.

(l) Special event site inspection: $25.00.
(Ord. No. O-03-17, § 1, 3-21-2017; Ord. No. O-12-23, 10-3-2023)

Sec. A14.002. Ambulance service.

(a) Advanced life support I:

(1) Resident: $780.00.

(2) Nonresident: $855.00.

(b) Advanced life support II:

(1) Resident: $825.00.

(2) Nonresident: $900.00.

(c) Basic life support:

(1) Resident: $712.00.

(2) Nonresident: $787.00.

(d) Treatment/no transport: $175.00.

(e) Emergency "loaded" mileage/mile: $15.00.

(f) Oxygen, administration and supplies/hour: $119.00.

(g) I.V. administration, drug therapy, equipment and supplies/hour: $119.00.

(h) *Definitions:

ALS1 (advanced life support). Paramedic skills available but no advanced skills used. ALS2 (advanced life support). Paramedic skills available and advanced skills used.

Basic life support emergency services. Paramedic skills are not available. Care provided by basic level emergency medical technician.

Mileage. From the scene to final destination of delivery. Nonresident. Not a resident of the City of Glenn Heights. Resident. A resident of the City of Glenn Heights.

(i) Any resident or nonresident delivered to a location for helicopter transportation shall be charged the fees accumulated as if delivered to a medical facility. This cost is in addition to those accrued for the helicopter transport.

(j) The ambulance service charges set forth herein may be adjusted by the city manager or designee to reflect changes in the cost of supplies and/or equipment and to add new items that have been added to medical protocol.
(Ord. No. O-13-11, 9-19-2011; Ord. No. O-12-23, 10-3-2023)

Sec. A14.003. Plan review and acceptance testing fees.

(a) Plan review < 10,000 sq. ft: $150.00.

(b) Plan review > 10,000 sq. ft: $200.00.

(c) Underground fire main hydro: $50.00.

(d) Fire alarm acceptance testing: $25.00/hour.

(e) Fire protection sprinkler acceptance testing: $25.00/hour.

(f) Hydrant flow test: $50.00.

(Ord. No. O-03-17, §§ 2—4, 3-21-2017; Ord. No. O-12-23, 10-3-2023)

Sec. A14.004. EMS fees.

(a) CPR class: $50.00.

(b) First-aid class: $50.00.

(Ord. No. O-03-17, §§ 2—4, 3-21-2017; Ord. No. O-12-23, 10-3-2023)

Sec. A14.005. Report fees.

(a) Copy of EMS report: $10.00.

(b) Copy of fire report: $10.00.

(Ord. No. O-03-17, §§ 2—4, 3-21-2017; Ord. No. O-12-23, 10-3-2023)

ARTICLE A15.000. BUSINESSES AND OCCUPATIONS

Sec. A15.001. Permit application fee.

A nonrefundable application fee for a peddler/itinerant merchant permit in the amount of $50.00 shall be paid upon application for such permit; provided, however, when any person, firm, company, partnership, corporation or association acts through one or more agents or employees, such person, firm, company, partnership, corporation or association shall, in addition to such $50.00 fee, pay an application fee of $25.00 for each agent or employee so engaged.

(Code 1996, § 4.04.008; Ord. No. O-26-10, 10-18-2010)

ARTICLE A16.000. GAS AND WELL DRILLING

Sec. A16.001. Gas well fees.

For services rendered, the following schedule of fees and charges is hereby adopted:

(1) New gas well permit: $6,500.00 each;

(2) Amended permit: $540.00;

(3) Extended permit: $270.00;

(4) Supplemental permit: $180.00;

(5) Operator transfer: $720.00;

(6) Seismic site inspection: $360.00;

(7) Seismic test of city property: fee determined by city council;

(8) Annual inspection fee (per well): $1,000.00;

(9) Appeal to city council fee: $500.00;

(10) Request to city council for deviation: $500.00.

(Code 1996, § 4.09.020; Ord. No. O-18-08, 6-16-2008)

ARTICLE A17.000. MANUFACTURED HOMES

Sec. A17.001. Park license requirements; license, application and transfer fees.

The following fees shall apply to manufactured park licenses:

(1) Initial license issuance fee: $____.

(2) License renewal fee, annually: $____.

(3) Transfer fee: $____.

(Code 1996, § 14.04.007(b); Ord. No. 833-06, § 7, 12-4-2006)

ARTICLE A18.000. OFFENSES AND NUISANCES

Sec. A18.001. Permits for relief; processing permit application.

A fee of $25.00 shall be charged to each applicant for processing permit applications.

(Code 1996, § 8.02.005; Ord. No. O-859-07, 11-19-2007)

ARTICLE A19.000. SIGNS AND ADVERTISING

Sec. A19.001. Temporary signs; zoning change application.

The city shall charge a fee of $50.00 to provide signs related to a zoning change application, if the applicant so desires.

(Code 1996, § 15.01.064; Ord. No. O-18-12, 9-18-2012; Ord. No. O-06-25, § 4, 4-1-2025)

ARTICLE A20.000. STORMWATER MANAGEMENT AND CONTROL

Sec. A20.001. Administration procedure; permit review fees.

The city establishes a permit fee of $250.00, plus all actual costs associated with the professional review of the plans. If an application is withdrawn prior to review and inspection, the city may refund this fee minus reasonable administrative costs. This fee may be amended and updated as deemed necessary from time to time.

(Code 1996, § 13.10.044; Ord. No. O-09-11, 7-18-2011)

ARTICLE A21.000. STREETS, SIDEWALKS, AND OTHER PUBLIC PLACES

Sec. A21.001. City authorization required; construction permit application fee.

Any person seeking to place facilities on, in or over the public rights-of-way shall pay a $500.00 construction permit application fee except as exempted by V.T.C.A., Local Government Code ch. 283 and V.T.C.A., Utilities Code ch. 66.
(Code 1996, § 3.19.004; Ord. No. O-860-07, 11-19-2007)

CODE COMPARATIVE TABLE

LEGISLATION

The following table gives the location of ordinances and other legislation within the Code.

Legislation	Date	Section	Code Section
Ord. No. 140	1-17-1983	—	2-30
Ord. No. 688-00	9-5-2000	—	2-366
Ord. No. 696-00	12-4-2000	—	12-1
		—	12-23—12-26
		—	18-19—18-21
Ord. No 695-01	3-5-2001	—	4-162
Ord. No. 695-01	3-5-2001	—	4-1—4-3
		—	4-6—4-14
		—	4-32—4-37
		—	4-63—4-68
		—	4-95—4-100
		—	4-129—4-138
		—	4-160, 4-161
		—	4-163
		—	4-195—4-200
		—	32-116
Ord. No. 698-01	3-19-2001	—	16-19—16-32
Ord. No. 700-01	4-16-2001	—	30-86
Ord. No. 705-01	5-21-2001	—	60-124
		—	60-159
		—	60-182—60-186
Ord. No. 724-01	12-17-2001	—	32-63
Ord. No. 720-02	3-4-2002	—	50-92
Ord. No. 748-03	4-7-2003	—	22-6
		—	32-1
		—	32-109
		—	32-111
		—	32-115
		—	32-117
		—	32-148—32-150
		—	32-169, 32-170
Ord. No. 749-03	4-7-2003	—	72-2
Ord. No. 755-03	6-16-2003	—	30-21
Ord. No. 764-03	11-3-2003	—	2-103

Land use and development	50-4(c) et seq.
See: LAND USE AND DEVELOPMENT	
Offenses and nuisances	22-60 et seq.
See: OFFENSES AND NUISANCES	
Parks and recreation	
Penalties	24-9
Solid waste	
Penalty for violations	26-3
Streets, sidewalks, and other public places	
Right-of-way management	
Unauthorized use of public rights-of-way; penalty	28-62
Taxation	30-122 et seq.
See: TAXATION	
Utilities	
Cross connection control	
Penalty for violation	34-136
Water conservation and drought contingency plan	
Violation and penalty	34-107
FIRE CHIEF	
Businesses and occupations	
Emergency management and services	
City ambulance service	
Under supervision of fire chief	8-49
Fire prevention and protection	
Fire department	
Fire chief's duties and powers generally	12-25
FIRE DEPARTMENT	
Fire prevention and protection	12-23 et seq.
See: FIRE PREVENTION AND PROTECTION	
FIRE PREVENTION AND PROTECTION	
Arson reward	12-2
Authority of city manager to provide central management and oversight	12-1
Businesses and occupations	
Emergency management and services	
City ambulance service	
Under supervision of fire chief	8-49
Fire department	
Created and established; purpose	12-23
Fire chief's duties and powers generally	12-25
Officers, members, and employees	12-24
Organization	12-26
Fire marshal	
Inspections	12-148
Investigation	12-147
Notice required	12-150
Office created	12-146

	Section
FIRE PREVENTION AND PROTECTION (Cont'd.)	
Penalties	12-151
Responsibility of owner and occupant	12-149
Fire protection and emergency services fees	
Collection of fees	12-171
Enforcement	12-173
Fee schedule	12-172
Fire regulations	
Appeals	12-60
Fire code and other publications adopted by reference	12-56
Fireworks	
Definitions	12-85
Exceptions	12-87
Fireworks as a public nuisance	12-88
Fireworks prohibited	12-86
Not necessary to negate exceptions	12-90
Territorial applicability	12-89
New materials, processes or occupancies which may require permits	12-61
Outdoor burning	12-62
Penalties	12-63
Smoke detectors	
Definitions	12-109
Duty to	
Inspect and repair	12-112
Install in existing units	12-111
Replace batteries	12-113
Exemptions	12-114
Location and installation standards	12-110
Required in hotels and motels	12-116
Waiver not permitted	12-115
Storage of	
Certain flammable or combustible liquids prohibited	12-57
Explosives and blasting agents prohibited	12-59
Liquefied petroleum gases restricted	12-58
Land use and development	50-28(d) et seq.
See: LAND USE AND DEVELOPMENT	
Parks and recreation	
Fires and excavations within the city park restricted	24-5
FIREARMS AND WEAPONS	
Law enforcement	
Police reserve force	
Weapons	18-55
Offenses and nuisances	
Unlawful discharge of firearms within city limits	22-5
FIREWORKS	
Fire prevention and protection	12-85 et seq.

FIRST ROUGH CODE DRAFT
(Unedited Legal Review)

Prepared by:
Sandra S. Fox, Senior Code Attorney

POWERED BY

GENERAL COMMENTS

This and the following chapters comprise the "manuscript" (first rough draft) of the city's new code of ordinances, to which the following general statements apply:

- The manuscript is a rough draft in which my recommendations are indicated by strike-through (language is deleted) or underlining (language is added). No attempt has been made to correct numbering and other anomalies. Actual editing and complete renumbering occur after this first review, when the final draft is being prepared.
- If the reason for an instance of underline or strike-through is obvious or has been previously mentioned, no additional comment will be made. For all other strike-through or underlining instances, a comment will be included as a footnote. Note that I may have made routine corrections throughout the manuscript without footnote comment. Those corrections, except syntax adjustments, appear in red font using strike-through and underlining for additions and deletions.
- All footnotes used in this manuscript are for purposes of discussion only. They will be removed before the final code is printed as will underline and strike-through. They are summarized for convenience immediately following this introduction.
- The city may accept or reject any suggested language updates or new code provisions which are provided throughout.
- The manuscript is a working draft and is not an example of the final appearance of the code. The code will be printed in single columns with Times New Roman 11-point font unless the city has selected different specifications or directs otherwise. All final print details will be confirmed before the codes are completed and printed.
- All chapters and sections will be renumbered, and all internal cross references to other portions of this code will be updated to correspond with that numbering, when the manuscript is edited and renumbered in preparation of the final draft (proof).
- Unless otherwise requested, the "running head" at the top of each left page of the code will contain the shortened title "Glenn Heights Municipal Code."
- Throughout the code, history notes at the end of sections indicate the source of material included.
- Titles of people, agencies, departments, divisions, etc. will not be capitalized in the final code. Similarly, standard MCC styling and numbering will be applied, and grammar, style, and other errors will be corrected during editing.
- Throughout the code, references to sections, articles, chapters, etc. will be corrected as the code is divided and subdivided during editing to the end that the reference refers to the appropriate portion of the chapter.
- Where possible throughout the code, internal references have been eliminated to avoid difficulties that arise with future supplementation of the code. Cross references are unnecessary with indices and global search capabilities and often overlooked when code sections are amended and renumbered, so they are difficult to maintain. Similarly, unnecessary textual references to state statutes increase necessary code maintenance. Editorial and textual cross references and unnecessary statutory cites

have been deleted where possible and appropriate. Statutory cites retained in the text have been updated as necessary.

- In incorporating ordinances into this new code, "head and tails" (preamble/ "whereas" paragraphs and closing provisions—conflicts, severability, effective date), and provisions made unnecessary by codification (e.g., short titles) are all omitted. Language is edited to conform to a consistent code "style," spelling, and sentence structure errors are corrected, etc. Fine tuning of style elements will take place during the next phase of the recodification project.
- Legal review does not include review of technical specifications such as those associated with plumbing, sewer, and water installations; fire ratings; flood control provisions; etc. All mechanical or technical specifications should be reviewed by the city's building, zoning, and utility personnel, the city engineer, or such other personnel as appropriate. Legal review encompasses comparison of the city's code of ordinances with state statutes. It does not include review of state administrative rules and regulations or, with certain exceptions, review of federal law.
- The city's contract includes a base number of pages and a rate to be paid per page above that base number. This manuscript is not an approximation of finished pages.
- Monetary amounts throughout the code should be verified by the city for accuracy. See suggestions in Appendix A that the fee schedule be changed to table format and removed from the code.

EXECUTIVE SUMMARY
(Summary of Footnote Comments)

Chapter 1. General Provisions

(1) **Sec. 1.01.001. Designation and citation of code.** Section is updated for the current on-going recodification.

(2) **Art. 1.08. Recognition of incorporation.** Unnecessary text is stricken as shown.

(3) **Sec. 1.01.004. Definitions and rules of construction.** A definition of the city's fee schedule and of citation conventions to state law and rules are added. The definition of the city is altered to exclude the word "town". Any references to the city as a town throughout the code will be corrected by editing staff during the next phase of this project.

(4) **Sec. 1-#. Certain ordinances not affected by Code.** Certain ordinances are saved from repeal by adoption of the recodified code at the end of this project.

Chapter 2. Administration

(5) **Sec. 1.09. City seal and logo form and design; use requirements and restrictions.** Unnecessary print specifications are stricken as shown.

(6) **Sec. 1.02.002. Place system adopted.** Unnecessary examples are stricken as shown.

(7) **Sec. 1.02.046. Orientation for new members; keeping council members informed.** Citation is corrected and completed as shown.

(8) **Sec. 1.02.047. Public notices, disclosures, and records; investigation of officers and employees.** Citation is corrected and completed as shown.

(9) **Sec. 1.02.003. Meeting schedule; call of meetings; meeting procedure.** Sections are combined as indicated in history note and duplicative text eliminated. Also, state law citation is correct and completed as shown.

(10) **Sec. 9.04.002. Powers and duties generally.** Text duplicative of prior section is stricken as shown.

(11) **Sec. 9.12.001. Health officer.** This position is referred to as "health authority" in V.T.C.A., Health and Safety Code, § 121.028. Also, cite is corrected and completed as shown.

(12) **Sec. 1.24.001. Definitions.** A standardized introduction is substituted for consistency.

(13) **Sec. 9.11.001. Established; composition; member appointment, terms, and compensation.** Unnecessary text is stricken as shown.

(14) **Sec. 1.20.002. Appointment and removal of members.** Text regarding removal is brought together in this section as indicated in the history note. Since removal with cause is authorized in (a) is (b) needed at all? Strike?

(15) **Sec. 1.20.036. Chair to inform members of pending issues.** Citation is corrected and shown.

(16) **Sec. 1.20.033. Types of meetings; schedule; notice.** Citations are corrected and shown.

(17) **Sec. 1.20.035. Parliamentary rules; parliamentarian.** Text is adding regarding resolution of conflicting rules. Please confirm.

(18) **Sec. 1.20.035. Members addressing a board or commission as a member of the public.** Citations are corrected as shown.

(19) **Sec. 1.20.035. Rules of conduct for citizens and visitors.** Unnecessary and conflicting text is stricken as shown.

(20) **Sec. 9.11.001. Established; composition; member appointment, terms, and compensation.** Unnecessary text is stricken as shown.

(21) **Sec. 9.04.002. City manager to act as or designate purchasing agent; purchasing authority.** Duplicative ranges are adjusted. Also, have these maximum amounts been changed? In addition, the

citation is corrected as shown.

(22) **Sec. 1.11.001. Notice required.** This section does not address the six-month notice requirement for matters cognizable under the state Tort Claims Act.

(23) **Art. VII. Records Management.** This are old provisions that might be amenable to replacement with adoption of relevant state law, rules, and schedules. Please review.

(24) **Sec. 1.17.001. Definitions.** A standardized introduction is substituted for consistency.

(25) **Sec. 1.17.004. Policy.** Citation is corrected as shown.

(26) **Sec. 1.17.008. Duties of records management officer.** Citation is completed as shown.

(27) **Sec. 1.17.016. Time limits for responding to certain requests.** Citations are completed and corrected as shown.

Chapter 4. Animal Care and Control

(28) **Sec. 2.01.001. Definitions.** A standardized introduction is substituted for consistency and definition duplicative of chapter 1 is stricken as shown.

(29) **Sec. 2.04.003. State law regarding cat and dog sterilization adopted.** Unnecessary text is stricken.

(30) **Sec. 2.03.001. Rabies control law adopted by reference; local rabies control authority.** Unnecessary text is stricken as shown.

(31) **Sec. 2.03.004. Vaccination and license identification.** Stricken as duplicative of preceding section.

(32) **Art. #. Dangerous Animals.** It is unclear as to whether the provisions in this article are intended to apply to dangerous animals generally or dangerous dogs only. Please clarify.

Chapter 6. Animal Care and Control

(33) **Art. II. Massage Establishments.** Throughout this article, sections have been conformed to the provisions of V.T.C.A., Occupations Code, ch. 455, including 2025 amendments. I suggest that the city attorney review this article specifically to ensure that he/she concurs with the recommended updates.

(34) **Sec. 4.02.001. Definitions.** A standardized introduction is substituted for consistency, self-defining term is stricken, and definition of massage establishment is conformed to V.T.C.A., Occupations Code, § 455.001. (Art. 4512K cited in the stricken definition was repealed in 1999.)

(35) **Sec. 4.02.006. Information required on license application.** Requirement for proof of state licensure is added as shown.

(36) **Sec. 4.02.015. Sanitation requirements.** Stricken as preempted by V.T.C.A., Occupations Code, § 455.005.

(37) **Sec. 4.02.016. Administering massage.** Stricken as preempted by V.T.C.A., Occupations Code, § 455.005.

(38) **Art. III. Coin-Operated Amusement Devices.** Note that an occupation tax for these devices is authorized by V.T.C.A., Occupations Code, § 2153.451.

(39) **Sec. 4.03.001. Definitions.** A standardized introduction is substituted for consistency.

(40) **Sec. 4.03.007. Minors prohibited on premises licensed to sell alcoholic beverages.** Change age to 18 years old?

(41) **Sec. 4.04.001. Definitions.** A standardized introduction is substituted for consistency.

(42) **Sec. 4.05.001. Purpose and intent.** Citation is updated as shown.

(43) **Sec. 4.05.002. Definitions.** A standardized introduction is substituted for consistency. Self-defining term and term duplicative of chapter 1 provisions are stricken as shown.

(44) **Sec. 4.06.001. Definitions. A standardized introduction is substituted for consistency.** Also, definitions duplicative of chapter

1 are stricken as shown.

(45) **Sec. 4.10.002. Definitions.** Definitions duplicative of chapter 1 are stricken as shown.

(46) **Art. VIII. Vehicles for Hire.** The city should review this article carefully in light of local circumstances and the current provisions of V.T.C.A., Occupations Code, ch. 2402. Depending on the type of local for hire vehicles the city has to regulate some or all of this article may be obsolete. The city can regulate traditional taxis and, in certain circumstances, limousines, but not TNCs which may fall under the definition of vehicles for hire above. Please review and advise.

(47) **Sec. 4.11.002. Applicability of article; exclusions.** Obsolete text is stricken as shown.

(48) **Sec. 4.12.001. Definitions.** A standardized introduction is substituted for consistency.

Chapter 8. Emergency Management and Services

(49) **Sec. 1.14.009. Declaration of state of emergency by mayor.** VTCS art. 5890e was repealed in 1987. See suggested corrections.

(50) **Sec. 1.14.002. Emergency management director; designation, powers, and duties.** Citation corrected as shown.

(51) **Sec. 1.14.003. Emergency management plan.** Is this different than the basic emergency operations plan in article I? If not, has this plan been adopted?

(52) **Art. III, City Ambulance Service.** I assume this is now EMS, which indicates this article needs updating, at a minimum with regard to current titles and terminology. Also, see the provisions in the fire chapter regarding collection of fees (including EMS fees). Should those be moved into this chapter? Please review and advise.

(53) **Sec. 1.16.001. Emergency service fee.** Citation is corrected as shown.

Chapter 10. Ethics

(54) **Sec. 1.23.003. Definitions.** Definitions from throughout the chapter are combined in this section.

Chapter 12. Fire Prevention and Protection

(55) **Sec. 5.07.001. Arson reward.** Does the city wish to retain this section? Also, the details for posting and distribution are stricken in that I assume those acts have been accomplished.

(56) **Sec. 5.03.001. Fire code and other publications adopted by reference.** A reference to the fire code adoption as part of the adoption of the ICC code family in the buildings chapter is inserted.

(57) **Sec. 5.03.006. Storage of explosives and blasting agents prohibited.** Please update the table reference, if necessary, to that appearing in the 2021 code rather than the 2006 code.

(58) **Sec. 5.06.001. Definitions.** Definition of fireworks is conformed to V.T.C.A., Occupations Code, § 2154.001. A definition of 1.3G fireworks is added, and duplicative definition of "person" is stricken.

(59) **Sec. 5.06.003. Exceptions.** Art. 5.43-4 was repealed in 1999. Class C (1.4G) fireworks are now defined in V.T.C.A., Occupations Code, § 2154.001 as shown in the definitions section.

(60) **Sec. 5.06.003. Exceptions—Contd.** In subsection (2), what is the complete date (June ?, 1994)? Also, is subsection (2) obsolete?

(61) **Sec. 5.06.003. Exceptions—Contd.** Art. 5.43-4 was repealed in 1999. V.T.C.A., Occupations Code, § 2154.202(g) provides the permissible time for retail sales and 2154.202(h) allows the county to establish additional permissible time frames. Does the city wish to conform to the cited statute? Does the city wish to authorize retail sales at all times that the county authorizes such sales?

(62) **Sec. 5.06.003. Exceptions—Contd.** Citations to TAC are corrected as shown.

(63) **Sec. 5.08.001. Definitions.** A standardized introduction is substituted for consistency.

(64) **Sec. 5.08.003. Duty to install in existing units.** Do we have the actual date of adoption of this section? Also, obsolete text is stricken as shown.

Chapter 14. Health and Public Welfare

(65) **Chapter 14. Health and Public Welfare.** The nuisance provisions formerly in this chapter have been moved to the offenses and nuisances chapter and grouped with other nuisance regulations with the exception of the smoking article which is moved here from the offenses chapter.

(66) **Sec. #. Standards of care for city youth programs adopted.** I suggest that the standards be omitted from codification and replaced with this acknowledgment of their adoption.

(67) **Sec. 8.06.001. Definitions.** A standardized introduction is substituted for consistency and definition duplicative of chapter 1 stricken as shown. .

(68) **Sec. 8.06.002. Smoking prohibited in enclosed public places.** References to food establishment and workplace restrictions are added for clarity.

(69) **Sec. 8.06.002. Prohibited in certain outdoor public places.** References to food establishment and workplace restrictions are added for clarity.

(70) **Sec. 8.06.004. Posting of signs and removal of ashtrays.** Obsolete provision is stricken as shown.

(71) **Sec. 6.03.004. State rules adopted.** Definitions are replaced with an adoption by reference of the state rules. The remaining two definitions are duplicative of chapter 1.

(72) **Sec. 6.03.015. Suspension; notice and hearing.** Duplicative and conflicting sentence is stricken. Please clarify 10 vs. 20 days in this section. The time within which a hearing must be requested is 10 days or 20 days? Does the stricken sentence intend to state that the hearing must be held within 20 days? If so, 20 days of what—the suspension or the request for hearing?

(73) **Sec. 6.03.012. Procedure when infection is suspected.** Duplicative sentence is stricken as shown.

(74) **Sec. 6.04.002. Definitions.** A standardized introduction is substituted for consistency and definitions duplicative of chapter 1 are stricken as shown.

(75) **Sec. 6.04.005. Application to existing donation boxes.** Obsolete grandfather provision is stricken.

Chapter 16. Human Relations and Social Services

(76) **Art. II. Fair Housing.** Has the city been certified by the federal department of housing and urban development as a substantially equivalent fair housing agency? Also, is this article needed? Both federal and state law prohibit housing discrimination and provide mechanisms to address it. Should this article be replaced with a reference to the Texas Workforce Commission which is responsible for enforcement of the state Fair Housing Act.

Chapter 18. Law Enforcement

(77) **Sec. 9.07.012. Penalties.** The penalty section is duplicative of chapter 1 general penalties. Also, is this intended to apply to police department reserve personnel or all personnel? If so, language to that effect should be added to the section regarding disciplinary action and a penalty provision should clarify that violations may be charged and punished as code violations.

(78) **Sec. 7.01.001. Court of record established.** Incomplete and unnecessary text is stricken as shown. Also, Vernon's Ann. C.C.P. art. 45.002 was repealed effective January 1, 2025.

Chapter 20. Municipal Court

(79) **Sec. 7.01.002. Jurisdiction of court.** Subsection (a)(1) is conformed to V.T.C.A., Government Code, § 30.00005. The remainder of the citations are corrected as to citation form.

(80) **Sec. 7.01.005. Appointment of court clerk and court personnel.**

Citations are corrected as shown.

(81) **Sec. #. Consolidated municipal court building security and technology fund.** See Vernon's Ann. C.C.P. art.102.0175 effective May 29, 2025. The city may wish to adopt this new provision by ordinance rather than by recodification inclusion.

Chapter 22. Offenses and Nuisances.

(82) **Sec. 6.02.001. Definitions.** A standardized introduction is substituted for consistency and definitions duplicative of chapter 1 are stricken as shown.

(83) **Sec. 6.02.002. Prohibited nuisance conditions.** A reference to the weed and grass restriction is added for clarity.

(84) **Sec. 8.02.002. Definitions.** A standardized introduction is substituted for consistency and definitions duplicative of chapter 1 are stricken as shown.

(85) **Sec. 8.03.001. Definitions**. A standardized introduction is substituted for consistency.

(86) **Sec. 8.08.001. Definitions.** A standardized introduction is substituted for consistency and definitions from throughout the division are combined in this section and duplication eliminated.

(87) **Sec. 8.08.001. Duty of property owner to remove.** Duplicative defense is stricken as shown.

(88) **Sec. 8.09.001. Definitions.** A standardized introduction is substituted for consistency.

Chapter 24. Parks and Recreation

(89) **Sec. 1.18.105. Alcoholic beverages at scheduled events.** Definition from state statute is inserted for clarity.

(90) **Sec. 1.18.081. Definitions.** A standardized introduction is substituted for consistency.

Chapter 26. Solid Waste

(91) **Sec. 13.06.001. Definitions.** A standardized introduction is substituted for consistency.

(92) **Sec. 13.06.004. Charges, billing, and delinquencies.** Clarification of "franchise" is added as shown.

(93) **Sec. 13.06.003. Pickup schedule.** Minor text adjustment is recommended as shown.

Chapter 28. Streets, Sidewalks, etc.

(94) **Sec. 3.17.001. Definitions.** Unnecessary definitions are stricken.

(95) **Art. III. Right-of-Way Management.** This article would benefit from reorganization but I think some updates may also be in order which we should do first. Please review for current accuracy.

(96) **Sec. 3.19.002. Authority; scope.** Citation is corrected as shown.

(97) **Sec. 3.19.003. Definitions.** A standardized introduction is substituted for consistency. Also, does the city still use the title "public works director"? The title is used in various places in the code, but these definitions indicate that the title has been replaced with "municipal services director."

Chapter 30. Taxation

(98) **Sec. 11.02.003. Residence homestead exemptions for elderly and disabled.** Unnecessary dates are stricken as shown.

(99) **Sec. 11.02.006. Recovery of costs and expenses.** Citation is corrected as shown.

(100) **Sec. 11.03.001. Local sales tax adopted.** Citation is added as shown.

(101) **Sec. 11.03.002. Local sales tax retained on residential gas and electricity.** Citations are updated

(102) **Sec. 11.03.003. Taxation of telecommunications services.** Unnecessary text is stricken as shown.

(103) **Sec. 11.04.001. Coin-operated machines tax.** Tax amount is stricken as unnecessary.

(104) **Sec. 11.05.001. Definitions.** Definition duplicative of chapter 1 is stricken as shown.

Chapter 32. Traffic and Vehicles.

(105) **Sec. 12.01.004. City traffic engineer designated; authority and duties.** Text duplicative of the following sections is stricken as shown.

(106) **Sec. 12.02.001. Authority to install traffic-control devices.** Section duplicative of section below is stricken as shown.

(107) **Sec. 12.02.002. Duty and authority to city traffic engineer install and maintain traffic control devices.** Sections are combined as indicated in history note.

(108) **Sec. 12.02.003. Specifications for traffic-control devices.** Citation is corrected as shown.

(109) **Sec. 12.02.004. Obedience to official traffic-control devices.** Sections are combined in new subsection (b) and text of four sections stricken as shown.

(110) **Sec. 12.03.004. Other speed zones.** Citation is corrected as shown.

(111) **Sec. #. Unauthorized parking prohibited; presumption of vehicle ownership.** Penalty is stricken as duplicative of chapter 1 general penalty.

(112) **Sec. 12.05.001. Definitions.** A standardized introduction is substituted for consistency.

(113) **Sec. 12.05.002. Parking in residential districts.** Introductory phrases are added as shown.

(114) **Sec. 12.10.001. Definitions.** A standardized introduction is

substituted for consistency. A definition of the preferred term "manufactured home" is added and the definition of "mobile home" is replaced, both from V.T.C.A., Occupations Code, § 1201.003. Note that V.T.C.A., Occupations Code, § 1201.004 provides that the 1201.003 definitions are "are binding as a matter of law on each person and agency in this state, including a home-rule municipality or other political subdivision" and "a mobile home is not a HUD-code manufactured home and a HUD-code manufactured home is not a mobile home for any purpose under state law. Those terms may not be defined in a manner that is not identical to the definitions provided by V.T.C.A., Occupations Code, § 1201.003.

(115) **Sec. 12.10.001. Definitions—Contd.** A definition of the preferred term "manufactured home" is added and the definition of "mobile home" is replaced, both from V.T.C.A., Occupations Code, § 1201.003. Note that V.T.C.A., Occupations Code, § 1201.004 provides that the 1201.003 definitions are "binding as a matter of law on each person and agency in this state, including a home-rule municipality or other political subdivision." I recommend that we change both definitions to "the meaning provided in V.T.C.A., Occupations Code, § 1201.003."

(116) **Sec. 12.12.001. Definitions.** A standardized introduction is substituted for consistency.

(117) **Sec. 12.07.002. Definitions**. A standardized introduction is substituted for consistency.

(118) **Sec. 12.07.011. Disposition of impounded vehicles.** Sections are combined as indicated in the history note.

Chapter 34. Utilities

(119) **Chapter 34. Utilities.** The various provisions of this chapter have been rearranged for improved cohesion.

(120) **Sec. #. Definitions.** Definitions are created as shown.

(121) **Sec. 13.02.009. Connection to water and sewer system.** Should solid waste service be added to the application since all utilities are billed together?

(122) **Sec. 13.02.005. Voluntary park system development**

contribution. Unnecessary text is stricken.

(123) **Sec. 13.02.008. Billing and payment.** See subsection (e). Aren't water and wastewater always included in one bill, along with garbage collection?

(124) **Sec. 13.07.001. Natural gas rates.** This section is derived from a 1988 franchise. I assume that it is largely if not completely obsolete. Please review.

(125) **Sec. 13.00.000. Short Title.** Short titles are unnecessary after codification and should be stricken as shown.

(126) **Sec. 13.05.004. Definitions.** A standardized introduction is substituted for consistency.

(127) **Sec. 13.05.004. Definitions—Contd.** Is this definition of credit obsolete?

(128) **Sec. 13.05.006. Impact fees per dwelling unit equivalent.** Are Schedules 1 and 2 included in the city fee schedule? If not, could they be?

(129) **Sec. 13.05.007. Assessment of impact fees.** Is subsection (a)(1) of this section obsolete?

(130) **Sec. 13.05.009. Offsets and credits against impact fees.** I assume the highlighted sentence in subsection (b) is obsolete. Please confirm.

(131) **Sec. 13.05.009. Offsets and credits against impact fees—Contd.** I assume the highlighted text in subsection (c) is obsolete. Please confirm.

(132) **Sec. 13.05.031. Facilities land use assumptions and benefits area.** Is referring to Exhibit A as "on file" still acceptable?

(133) **Sec. 13.05.032. Multiyear financial plan.** Is referring to Exhibit B as "on file" still acceptable?

(134) **Sec. 13.05.033. Impact fee study**. Is referring to Exhibit C as "on file" still acceptable?

(135) **Sec. VII: Definitions.** A standardized introduction is substituted for consistency. Also, self-defining terms and terms duplicative of

chapter 1 definitions are stricken.

(136) **Sec. XIII: Severability.** Section duplicative of chapter 1 general provisions is stricken.

(137) **Sec. 13.08.001. General.** The Texas Natural Resource Conservation Commission (TNRCC) was renamed the Texas Commission on Environmental Quality (TCEQ) in 2001.

(138) **Sec. 13.12.006. Creation of drainage utility fund; drainage charges.** Fee amounts are stricken below and a reference to the fee schedule is inserted here.

Chapter 50. Buildings and Construction

(139) **Sec. 3.03.001. Fees.** References to fees in this article have been adjusted based on the inclusion of this section to eliminate duplication.

(140) **Sec. 3.04.001. Technical codes adopted by reference.** I have regrouped code adoptions and amendments and rewritten the sections to eliminate extensive duplicative provisions. I have also moved the property maintenance adoption into this chapter, but I have stricken the local amendments (at the end of this chapter) in that they amend the 2015 edition while the 2021 edition is adopted. Please review.

(141) **Sec. 3.04.002. Amendments to adopted codes.** See preceding footnote.

(142) **Sec. 3.06.002. Conflicting provisions.** Limiting language is added. Without it, this section would negate all amendments to the electric code in this chapter since they are in conflict with the adopted code provisions.

(143) **Sec. 3.06.007. Registration of electricians.** V.T.C.A., Occupations Code, § 1305.151, requires a state license for most electrical work (subject to exceptions). If the electrician holds a state license the city is prohibited from charging a fee for local licensure (V.T.C.A., Occupations Code, § 1305.201 as amended in 2017). Should this section be changed to simply require state licensure, to require state and local licensure with no local fee, or stricken entirely?

(144) **Sec. 3.11.002. Permit fees.** Duplicative section is stricken as shown.

(145) **Sec. 3.20.002. Definitions.** A standardized introduction is substituted for consistency and unnecessary and duplicative definitions are stricken as shown.

(146) **Sec. 3.20.002. Definitions—Contd.** V.T.C.A., Occupations Code, § 1201.004 prohibits this definition of manufactured home which deems mobile and manufactured home terms synonymous. See suggested correction.

(147) **Sec. 3.20.004. Registration required.** Obsolete text is stricken.

(148) **Sec. 3.13.002. International Property Maintenance Code.** See footnote at section 3.04.001 in article II.

Chapter 52. Design and Construction Standards

(149) **Sec. 15.04.007. Special requirements.** Reference to current swimming pool and spa code is corrected as shown.

(150) **Sec. 15.04.031. Driveway spacing.** Introductory text is added as shown.

(151) **Sec. 15.04.033. Building materials.** Duplicative text is stricken. See article I.

(152) **Sec. 15.04.034. Swimming pools, spas, and hot tubs.** Reference to current swimming pool and spa code is corrected as shown.

Chapter 54. Floodplain Management

(153) **Chapter 54. Floodplain Management.** I note that this model ordinance is more than a decade old. The city may wish to adopt a more recent model.

(154) **Sec. 3.12.002. Definitions.** A standardized introduction is substituted for consistency.

(155) **Sec. 3.12.002. Definitions—Cntd.** The mandatory definition is

substituted and is consistent with the manufactured home chapter definition. See footnotes in that chapter.

Chapter 56. Gas and Well Drilling

(156) **Sec. 4.09.002. Definitions.** Self-defining terms and terms duplicative of chapter 1 provisions are stricken as shown.

Chapter 58. Landscaping, Fencing, Screening, and Lighting

(157) **Sec. 15.02.001. Title.** Short titles are unnecessary after codification and should be stricken as shown. Also, definitions duplicative of chapter 1 are stricken.

(158) **Sec. 15.02.064. Incentives.** Is the correct percentage here 10% or 20%?

Chapter 60. Manufactured Homes

(159) **Sec. 14.04.002. Mobile home prohibition.** I assume this section was first enacted on December 4, 2006. Please confirm and we will substitute that date for "as of the date of this article" throughout the section (unless the section is now obsolete)?

(160) **Sec. 14.04.005. Skirting requirements.** "Placed"? Should that be "permanently placed" or "installed and ready for occupancy" or something similar? Also, obsolete provision is stricken as shown.

(161) **Sec. 14.04.006. On-site parking.** Sentence is completed as shown.

(162) **Sec. 14.04.012. Existing park management requirements.** Obsolete section is stricken as shown.

(163) **Sec. 14.04.013. Existing park owner/occupant requirements.** Is this section now obsolete also?

(164) **Sec. 3.10.001. Definitions.** Duplicative definitions section is stricken.

Chapter 62. Property Maintenance Standards

(165) **Chapter 62. Property Maintenance Standards.** I suspect that much of this chapter is outdated and some duplication of the 2021 (or 2015?) ICC Property Maintenance Code adopted by the city by reference. I have kept the chapter mostly intact but after I receive feedback and direction from the city, I suggest that we rewrite provisions as necessary and reorganize the chapter to make navigation more user friendly.

(166) **Sec. 3.13.001. Authority; purpose and intent; liberal construction.** Short titles are unnecessary after codification and should be stricken as shown. Also, since "this Code" is defined in chapter 1 as this code of ordinances in its entirety, it cannot be used elsewhere in the code to describe only a chapter or other part of the compiled code.

Chapter 64. Roadway Impact and Facilities Fees

(167) **Sec. 10.03.001. Short title.** Short titles are unnecessary after codification and should be stricken as shown.

(168) **Sec. 10.03.006. Impact fees per service unit.** Duplicative section is stricken as shown.

(169) **Sec. 10.03.023. Fees adopted by reference.** This section is stricken and definitions are substituted in the definitions section above for improved clarity.

(170) **Sec. 10.03.008. Payment and collection of impact fees.** Duplicative text is stricken as shown.

Chapter 66. Signs and Advertising

(171) **Sec. 15.01.001. Title.** Short titles are unnecessary after codification and should be stricken as shown.

(172) **Sec. 15.01.003. Conflict and compliance.** Edition is updated to conform to the building chapter code adoptions.

(173) **Sec. 15.01.031. Exempt signs for which no permit is required.**

Please provide the correct measurement: 36 or 32 square feet? Five feet or six feet?

(174) **Sec. 15.01.063. Detached permanent signs.** Regarding subsection (f), please provide the correct measurement—15 or 40 square feet?

(175) **Sec. 15.01.064. Temporary signs.** Regarding subsection (d), please provide the correct measurement—20 or 24 square feet? Regarding subsection (e)(1)(A—D), please provide the correct measurement—four or five feet?

Chapter 68. Soil Erosion and Sediment Control

No comments.

Chapter 70. Stormwater Management and Control

(176) **Sec. 13.10.001. Definitions.** Minor corrections have been made throughout this section and definitions duplicative of chapter 1 have been stricken as shown.

(177) **Sec. 13.10.042. Definitions.** A standardized introduction is substituted for consistency and definitions duplicative of chapter 1 are stricken as shown.

Chapter 72. Subdivisions

(178) **Sec. 10.01.009. Final plat requirements.** Forms are stricken and replaced with a general reference.

(179) **Sec. 10.01.009. Final plat requirements—Contd.** The last sentence in subsection O is incomplete. Please provide the missing text.

(180) **Sec. 10.01.041. Definitions.** Definitions duplicative of chapter 1 is stricken as shown.

Chapter 74. Zoning

(181) **Chapter 74, Zoning.** Throughout this chapter citations to state law or rules have been reformatted as necessary for consistency. Also,

references to a or the zoning ordinance, have been changed to "this chapter" etc.

(182) **Sec. 1. Title.** Short titles are unnecessary after codification. Section is stricken as shown.

(183) **Sec. 2. Enacting clause.** Unnecessary text is stricken as shown.

(184) **Sec. 1. Definitions.** A standardized introduction is substituted for consistency.

(185) **Sec. 1. Definitions—Contd.** Corrections are made to preserve correct date for pre-existing garages.

(186) **Sec. 1. Definitions—Contd.** Correction are made to preserve correct date for pre-existing auto repair establishments.

(187) **Sec. 1. Definitions—Contd.** V.T.C.A., Occupations Code, ch. 1601 was repealed in 2021. See suggested correction.

(188) **Sec. 1. Definitions—Contd.** V.T.C.A., Occupations Code, ch. 1601 was repealed in 2021. See suggested correction.

(189) **Sec. 1. Definitions—Contd.** Definitions duplicative of chapter 1 should be stricken as shown.

(190) **Sec. 1. Definitions—Contd.** Citation is corrected as shown.

(191) **Div. 2. Planning and Zoning Commission.** Should the portion of this division establishing the commission be moved to chapter 2 and grouped with other boards, commissions etc. (retaining procedural provisions related to zoning in this chapter)?

(192) **Div. 3. Zoning Board of Adjustments.** Should the portion of this division establishing the board be moved to chapter 2 and grouped with other boards, commissions etc. (retaining procedural provisions related to zoning in this chapter)?

(193) **Sec. 2. Zoning board of adjustment.** Citation is corrected as shown.

(194) **Sec. 2. Zoning board of adjustment—Contd.** Citation is corrected as shown.

(195) **Sec. 1. Zoning amendments.** Citation is corrected as shown.

(196) **Art. VII. Building Permits etc.** Should this article be moved to the building chapter?

(197) **Sec. 1. Building permits required.** A reference to section 3.04.003 (conditions for issuance of building permits) is added as shown.

(198) **Sec. 3. Certificate of occupancy.** Citation is corrected as shown.

(199) **Sec. 3. Provisional districts.** Pool and spa code is changed to refer to the adopted code as shown.

Sec. 3. Swimming pools. Changed to refer to the adopted pool and spa code as indicated.

(200) **Sec. 4. Usable open space**. Since less than one bedroom is zero, there would be nothing to regulate in that class. Should "Rooms 1 or less" be changed to something like "For the first bedroom" (600) and then "for each additional bedroom" (300).

APPENDICES

(201) **Appendix A. Fee Schedule.** I suggest that the fee schedule not be included in the code but instead be posted on the city's website. The chapter should also be reduced to table format.

Part I

HOME RULE CHARTER

Editor's note: Printed herein is the Home Rule Charter of the city effective September 16, 1969, the date the city was officially incorporated. Amendments to the Charter (except the August 1987 amendment) are indicated by parenthetical history notes following amended provisions. The absence of a history note indicates that the provision remains unchanged from the original Charter. In the publication of this Charter, obvious misspellings and syntax and other grammatical errors have been corrected without notation. For stylistic purposes, a uniform system of capitalization, numbering, headings, catchlines and citations to state statutes has been used. Additions made for clarity are indicated by brackets.

PREAMBLE

This Charter is dedicated to the citizens of the City of Glenn Heights, Texas, for the purpose of ensuring such powers, rights, and duties as are herein provided and to encourage the citizens' participation in the democratic government for proper and efficient progress of our city. To this end we ordain this home rule charter as prescribed by law and with the guidance of God.

ARTICLE 1. INCORPORATION, FORM OF GOVERNMENT AND POWERS

§ 1.01. Incorporation.

The citizens of the City of Glenn Heights in Dallas and Ellis Counties, Texas within the corporate limits as now established, or hereafter established in the manner prescribed by this Charter, shall be and shall continue to be a municipal body politic and corporate in perpetuity under the name of the "City of Glenn Heights."

§ 1.02. Form of Government.

The municipal government provided by this Charter shall be known as the "Council-Manager" government. Pursuant to its provisions and subject only to the limitations imposed by the State constitution, by the statutory laws of Texas, and by this Charter, all powers of the City shall be vested in an elective Council, hereinafter referred to as the "Council," which shall enact local legislation, adopt budgets, determine policies, appoint the City Attorney, Judge of the Municipal Court, and the City Manager, who shall execute the laws and administer the government of the City.

§ 1.03. General Powers of the City.

The City of Glenn Heights shall have all powers granted to municipalities by the Constitution and laws of the State of Texas, together with all of the implied powers necessary to carry into execution such granted powers. The city may:

(a) Use a corporate seal;

(b) Sue and be sued;

(c) Contract and be contracted with;

Unedited First Draft

(d) Cooperate with the government of the state of Texas or any agency or any political subdivision thereof or with the federal government or any agency thereof, to accomplish any lawful purpose for the advancement of the interest, welfare, health, morals, comfort, safety, and convenience of the city and its citizens;

(e) Acquire property within or without its corporate limits for any municipal purpose in fee simple, or in any lesser interest or estate, by purchase, gift, devise, lease or condemnation, and subject to the provisions of this charter;

(f) Sell, lease, mortgage, hold, manage, improve and control such property as may now of [or] hereafter be owned by it provided however, the city shall not sell, convey, mortgage, or otherwise alienate any public utility without prior approval of the voters of the city;

(g) Exercise the power of eminent domain where necessary or desirable to carry out any of the powers conferred upon it by this charter, or by the constitution and laws of the state of Texas;

(h) Pass ordinances and enact such regulations as may be expedient for the maintenance of the city and the welfare, health, morals, comfort, safety and convenience of its citizens.

The powers hereby conferred upon the City shall include, but are not restricted to, the powers conferred expressly and permissively by Chapter 147, Page 307, of the Acts of the 33rd Legislature, Regular Session, enacted in 1923 pursuant to the Home Rule Amendment of the Constitution of Texas, known as the Enabling Act and including Articles 1175, 1176, 1177, 1180, of the Revised Civil Statutes of Texas, 1925 [V.T.C.A., Local Government Code, chs. 51—54], as now or hereafter amended, all of which are hereby adopted. In addition to the powers enumerated herein, and subject only to the limitations imposed by the State Constitution, the State laws, and this Charter, the City shall have, without the necessity of express enumeration in this Charter, each and every power which, by virtue of Article 11, Section 5 of the Constitution of Texas [Tex. Const. art. 11, § 5], the people of the City are empowered by election to grant to or confer upon the city by expressly and specifically granting and enumerating the same herein. All such powers, whether expressed or implied, shall be exercised and enforced in the manner prescribed in this Charter; or when not prescribed herein, in such manner as shall be provided by the ordinance of the Council.

§ 1.04. Streets and Public Property.

The City shall have exclusive dominion, control, and jurisdiction in, upon, over, and under the public streets, sidewalks, alleys, highways, public squares, and public ways within the corporate limits of the City, and in, upon, over, and under all public property of the City. With respect to each and every public street, sidewalk, alley, highway, public square, public park, or other public way within the corporate limits of the City, the City shall have the power to establish, maintain, improve, alter, abandon, or vacate the same, to regulate the use thereof and to abate and remove in a summary manner any encroachment thereon.

§ 1.05. Street Development and Improvement.

The City shall have the power to develop and improve, or cause to be developed and improved, any and all public streets, sidewalks, alleys, highways, and other public ways within the corporate limits of the City by laying out, opening, narrowing, widening, straightening, extending, lighting and establishing building lines along the same by purchasing, condemning, and taking property therefor by filling,

Unedited First Draft

grading, raising, lowering, paving, repaving, and repairing, in a permanent manner, the same and by constructing, reconstructing, altering, repairing, and realigning curbs, gutters, drains, sidewalks, culverts, and other appurtenances and incidentals in connection with such development and improvement authorized hereinabove, or any combination or parts thereof. The cost of such development and improvement may be paid partly or entirely by assessments levied as a lien against the property abutting thereon and against the owners thereof, and such assessments may be levied in any amounts and under any procedure not prohibited by State Law provided, that no assessment shall be made against such land or owners in excess of the enhancement in value of such property occasioned by such improvement.

As an alternate and cumulative method of developing, improving, and paving any and all public streets, sidewalks, alleys, highways, and other public ways within its corporate limits, the City shall have the power and authority to proceed in accordance with Chapter 106, Page 489, Acts 1927, Fortieth Legislature, First Called Session, as now or hereafter amended, the same being Article 1105b of the Revised Civil Statutes of Texas, 1925 [V.T.C.A., Transportation Code, ch. 313].

§ 1.06. Boundaries.

The boundaries and limits of the City of Glenn Heights, until changed in the manner herein provided, shall be the same as have heretofore been established and exist on the date of the adoption of this Charter, which boundaries are more fully set out and described by metes and bounds in a book called, Official Record Describing the Metes and Bounds of the City of Glenn Heights, which is now and shall hereafter be in the office of the City Secretary of the City of Glenn Heights.

§ 1.07. Annexation and Disannexation.

The City shall have all powers possible for a city to have under the Constitution and laws of the State of Texas to fix the boundaries of the City, exchange area with other municipalities, extend the boundaries of the City and annex area adjacent to the City. The Council shall have the power by ordinance to fix the boundary limits of the City of Glenn Heights, Texas, and to provide for the alteration and extension of said boundary limits, and the annexation of additional territory lying adjacent to it whether said territory be inhabited or uninhabited. Should the territory be inhabited, the Council may also, upon a petition signed by a majority of the registered voters in such territory, consider such petition for annexation. Whenever, in the opinion of the Council, there exists within the corporate limits of the City any territory, either inhabited or uninhabited, not suitable or necessary for City purposes, or upon a petition signed by a majority of the qualified voters residing in said inhabited territory, the Council may, upon a public hearing and by ordinance duly passed, discontinue said territory as part of the City of Glenn Heights. The City shall comply with all applicable procedural rules and notice requirements set forth in Chapters 42 and 43 of the Texas Local Government Code [V.T.C.A., Local Government Code, chs. 42 and 43], as now and hereafter amended, as well as any other applicable laws of the State of Texas.
(Amended at election of May 4, 2002)

ARTICLE 2 CITY COUNCIL[1]

Editor's note–Former section 2.08 pertaining to the city secretary, was renumbered as section 5.11 by Ord. O-846-07 At an election held May 12, 2007, Prop. 4, to more accurately reflect the organization structure of the city. Former section 2.16 pertaining to "interim government" was deleted in its entirety by Ord. O-846-07 at an election held May 12, 2007, Prop. 7.

§ 2.01. Number, Selection, Term of Office and Compensation.

Unofficial First Draft

The governing and lawmaking body of the City of Glenn Heights shall consist of a Mayor and six (6) Councilmembers, and said body shall be known as the "City Council of the City of Glenn Heights." The members of the City Council of the City of Glenn Heights shall be the only elective officers of the City and shall run for office by place and be elected from the City at-large in the manner provided in Article 3, for a term of three (3) years, or until their successors are duly elected and qualified. Beginning in 2013, the General Election in the City of Glenn Heights for the Mayor and Councilmembers shall be held on the uniform election date occurring in November. The terms of office of those Councilmembers whose terms of office would have expired with a regular election in May shall each have their term of office of extended by six (6) months, until the following November. All seven elected positions shall be subject to term limits. No person shall be a member of the City Council for more than three (3) consecutive three-year terms, and any person who does serve as a member of the City Council for three (3) consecutive terms shall not be eligible for election to a position on the City Council until a period of three (3) years has expired from the last date of that person's service as a member of the City Council. Said Mayor and Councilmembers shall draw no compensation as such for their duties, but shall be reimbursed for any lawful expenditures made in behalf of the City or expenses incurred in the performance of their duties when approved by the Council.
(Amended at election of May 4, 2002; Amended by Ordinance O-09-12 at an election held on May 12, 2012, Prop. 1)

§ **2.02. Prohibiting Holding or Running for Other Office.**

No person elected to the City Council shall, during the term for which he/she was elected, be appointed to any office or position in the service of the City. If a member of the Council shall become a candidate for nomination or election to any publicly elected office, other than a position on the City Council, or if any employee or officer other than a member of a City board or commission becomes a candidate for a position on the City Council, he/she shall forfeit his/her place or position with the City effective immediately upon the filing as a candidate for the nomination or election to such public office.
(Amended by Ordinance 728-02 at an election held on May 4, 2002; Amended by Ordinance O-09-12/Res. R-19-12 at an election held on May 12, 2012, Prop. 2)

§ **2.03. Qualifications.**

Each of the six (6) Councilmembers and Mayor shall be a citizen of the United States of America and a registered qualified voter of the State of Texas and shall be at least 18 years of age; and shall live within the Corporate Limits of the City of Glenn Heights shall have resided for at least one (1) year preceding the election at which they are candidates within the corporate limits of the City of Glenn Heights, and shall not be in arrears in the payment of any taxes or other liability due the City nor be disqualified by reason of any provision of any other section of this Charter. Each member of the City Council shall have taken the oath of office to qualify to serve in his or her official capacity on the City Council.

A member of the Council ceasing to possess any of the qualifications specified in this section or any other section of this Charter, or convicted of a felony while in office, shall immediately forfeit his office. No member of the Council shall hold any other public office within the city except that of Notary Public or member of the National Guard or naval or military reserve or a retired member of the Armed Forces.
(Amended by Res. R-27-18 at an election held on November 6, 2018, prop. F)

§ **2.04. Council to Be the Judge of the Qualification of its Own Members.**

The City Council shall be the judge of the qualifications of its own members, and for such purpose shall

Unedited First Draft

have power to subpoena witnesses, require the production of records, conduct an investigation, hold a hearing, and determine by majority vote whether a member is guilty of an infraction for which a member may be censured or removed from office for cause. Cause shall include:

(a) knowingly and intentionally violating the provisions of this Charter;

(b) official misconduct, which shall be defined as intentional unlawful behavior relating to official duties, including corrupt failure, refusal, or neglect of a duty imposed by law;

(c) incompetency, which shall be defined as gross ignorance of official duties; gross carelessness in the discharge of official duties; or inability or unfitness to promptly and properly discharge official duties because of a serious mental or physical defect that did not exist at the time of the officer's election;

(d) intoxication while performing the duties of office by consuming alcoholic beverages or other chemical substances that cause intoxication;

(e) unexcused absence from three consecutive regular meetings or five unexcused absences from regular and special meetings within any six month period.

The Council may adopt an ordinance or resolution further specifying the procedure for investigation, notice, hearing, censure, and removal of a council member, and for excuse of absences, as provided herein.

In censuring a Councilmember, the Council shall have the authority to issue a public reprimand or to suspend the member from office for a specific period of time. In the event the Council removes a Councilmember, that member's seat shall become vacant and may be filled as provided in this Charter. (Amended by Ordinance O-846-07 at an election held May 12, 2007, prop. 2)

§ **2.05. Vacancies.**

In the event a vacancy occurs in the office of Mayor or Council members from any cause whatsoever, a special election shall be held after the vacancy occurs on the earliest date permitted by state law for the purpose of filling such position for the remainder of the unexpired term.

§ **2.06. Powers of the Council.**

All powers and authority which are explicitly conferred on or possessed by the City shall be vested in and exercised by the City Council, provided however, that the Council shall have no power to exercise those powers which are expressly conferred upon other City officers by this Charter.

All members of the Council present, including the Mayor, shall vote upon every resolution or ordinance, except where there is a conflict of interest, the reason for which shall be stated concisely in the records.

§ **2.07. Mayor–Mayor Pro Tem.**

The Mayor of the City shall preside over the meetings of the City Council and perform such other duties consistent with the office as may be imposed upon him/her by this Charter and the ordinances and resolutions passed in pursuance hereof. He/she may participate in the discussion of all matters coming before the Council and shall be required to vote, but shall have no veto power. He/she shall sign conveyances made or entered into by the City and all bonds issued under the provisions of this Charter.

Unedited First Draft

He/she shall be recognized as the official head of the City by the court for the purpose of serving civil process, by the Governor for the purpose of enforcing military law, and on all ceremonial purposes. In time of danger or emergency, the Mayor may with the consent of the Council take command of the police and govern the City by proclamation and maintain order and enforce all laws.

The Mayor Pro Tem shall be elected from among the six (6) Councilmembers shall be selected each year at the first regular meeting following the general city election, and shall in the absence or disability of the Mayor perform all the Mayor's duties.
(Amended by Ordinance O-846-07 at an election held May 12, 2007, prop. 3)

§ 2.08. City Attorney.

The City Council shall appoint or remove a City Attorney who shall be duly licensed and admitted to the practice of law by the State of Texas. The City Attorney shall be legal advisor of and attorney for all officers of the City and shall represent the City in all litigation and legal proceedings.

§ 2.09. Meeting of the Council.

The City Council shall hold two (2) regular meetings in each month, except December, at a time to be fixed by it for such regular meetings. The City Council may hold as many additional meetings during the month as may be necessary for the transaction of the business of the City and its citizens.
(Amended by Ordinance O-846-07 at an election held May 12, 2007, prop. 5)

§ 2.10. Rules of Procedure.

The City Council shall determine its own rules of procedure and order of business and may compel the attendance of its members. Five (5) members of the City Council shall constitute a quorum to do business however, the affirmative vote of at least four (4) of those attending any meeting at which there is a quorum present shall be necessary to adopt any ordinance or resolution. All meetings of the City Council shall be open to the public, as provided by state law, and minutes of all proceedings shall be kept, to which any citizen may have access at all reasonable times and which shall constitute one of the archives of the City. The vote upon the passage of all ordinances and resolutions shall be taken by ayes and nays made in open meeting by a canvass of the Council, and the vote of each Councilmember shall be entered upon the minutes, and every ordinance or resolution, upon its final passage, shall be recorded in a book kept for that purpose and shall be authenticated by the signature of the presiding officer and the City Secretary.

§ 2.11. Procedure to Enact Legislation.

The City Council shall legislate by ordinance and the enacting clause of every ordinance shall be: "Be it ordained by the City Council of the City of Glenn Heights." No ordinance may be adopted by the City Council unless the ordinance is considered at two separate meetings of the Council, provided, however, that if two-thirds of the number of Councilmembers in attendance at a meeting at which an ordinance is considered for the first time determine and vote that circumstances involving public urgency or other important public purpose required that the ordinance be adopted after consideration at only one meeting, the ordinance may be adopted following such two-thirds vote.

Every ordinance enacted by the Council shall be signed by the Mayor or Mayor Pro Tem and shall be filed with and recorded by the City Secretary. The descriptive caption of all ordinances enacted by the Council shall be read in open meeting of the Council at one (1) regular or special Council meeting. All

Unedited First Draft

ordinances, unless otherwise provided by law or by the terms of such ordinance, shall take effect in accordance with Article 2, Section 2.13.
(Amended by Ordinance O-846-07 at an election held May 12, 2007, prop. 6)

§ **2.12. Publication of Ordinances.**

Except as otherwise provided by law, or by this Charter, the City Secretary shall give notice of the enactment of every ordinance imposing any penalty, fine or forfeiture for any violation of any of its provisions and of every other ordinance required by law, or this Charter, to the public, by causing the said ordinance, or its caption and penalty, to be published at least one time after final passage thereof in the official newspaper of the City. The affidavit of such publication by the publisher of such newspaper, taken before any officer authorized to administer oaths, and filed with the City Secretary shall be conclusive proof of the legal publication and promulgation of such ordinance in all courts. Such ordinance shall take effect upon publication as required by law.

§ **2.13. Adoption and Ratification of Existing City Ordinances and Prior City Actions.**

All ordinances of the City of Glenn Heights adopted prior to the adoption of this Charter and not inconsistent with the provisions of this Charter shall remain in full force and effect until altered, amended or repealed by the City Council.

All official actions taken by the City of Glenn Heights, its City Councils or other City officials, and all previous elections, contracts, bonds, warrants and other evidence of indebtedness and any annexations, prior to the adoption of this Home Rule Charter, are hereby adopted, validated, confirmed and ratified.

§ **2.14. Code of Ordinances.**

The City Council shall have power to cause the ordinances of the City of Glenn Heights to be printed in code form and shall have the same arranged and digested as often as the Council may deem advisable however, failure to print the ordinances as herein provided shall not affect the validity of same.

ARTICLE 3 ELECTIONS

§ 3.01. General Elections.

The regular City Election shall be held on the first Saturday in November, or at such other time as is prescribed by state law, at which time officers shall be elected to fill those offices which become vacant that year. The City Council shall fix the hours and place for holding such elections. All candidates for the City Council shall file for one place and shall be elected to that place by obtaining greater than 50% of the votes cast. Places 1, 3, and 5 shall be up for election and filled in the same year. The Mayor's office and places 2, 4 and 6 shall be up for election and filled in the same year.
(Amended at election of May 4, 2002; Amended by Ordinance 728-02 at an election held on May 4, 2002; Amended by Res. R-27-18 at an election held on November 6, 2018, prop. A)

§ **3.02. Regulation of Elections.**

The Council shall make all regulations considered to be necessary or desirable which are not inconsistent with this Charter or the laws of the State of Texas, for the conduct of municipal elections, or for the prevention of fraud, and shall make provisions for recount of the ballots in case of doubt or fraud. The

Unedited First Draft

Council will appoint election officials who will conduct the municipal elections consistent with this Charter, regulations made by the Council and the laws of the State of Texas. The Council shall provide for the compensation of all election officials in City Elections and for all other expenses of holding such elections.

§ **3.03. Filing for Office.**

Any qualified person who desires to become a candidate for election to the office of Mayor or City Council Member shall file with the City Secretary, not less than forty-five (45) days prior to the election, an application on the form provided by the City Secretary, which form shall be in accordance with State law.
(Amended by Ordinance 728-02 at an election held on May 4, 2002)

§ **3.04. Official Ballot.**

The official ballot shall be drawn up by the City Secretary and approved by the City Attorney and will contain the names of all candidates for office, except those who may have been withdrawn, deceased or become ineligible. The ballot shall have the designation of the particular office (Mayor or Councilmember) and under the appropriate designation shall appear the applicable place numbers. Names will be placed under each place without party designation and position will be determined by drawing conducted by the City Secretary.

§ 3.05. Conducting and Canvassing Elections.

The returns of every municipal election shall be delivered forthwith by the election judges to the Mayor. The Council shall canvass the returns, investigate the qualifications of the candidates and declare the official results of the election in the manner and within the time provided by law and deliver the votes to the City Secretary. Returns of every municipal election shall be recorded in the minutes of the Council. The candidate for Mayor who receives the majority of ballot votes, by qualified voters at the election, shall be declared elected. The candidates for election to the places of Councilmembers, who receive the majority of ballot votes, for each place cast by qualified voters voting at the election shall be declared elected. The results of said election shall be posted in the City Hall as soon as they are declared official.

The City Council shall be the judge of the election and qualifications of its own members, but the decision of the Council in any case shall be subject to review by the Courts.

§ **3.06. Election Runoff.**

In the event any candidate for any of said officers fails to receive greater than fifty percent (50%) of all votes cast for all the candidates for such office at such election, the Council shall on the first day following completion of the official counting of the ballots cast at said first election, issue a call for a second election to be held in the City within thirty (30) days, at which said second election the two candidates receiving the highest number of votes for any such office in the first election at which no one was elected at the first election by receiving greater than fifty percent (50%) of all votes cast for all candidates for such election, shall again be voted for. In the event of a tie between two candidates for any office at said second election, they shall cast lots to determine who shall be elected to such office.
(Amended at election of May 4, 2002)

§ **3.07. Special Elections.**

Unedited First Draft

The Council may, by ordinance or resolution, call such special election as are authorized by the state law and this Charter, fix the time and place of holding same, and provide all means for holding such special elections, provided that every special election shall be called and held as nearly as practicable according to the provisions of the general election laws of the State of Texas.

ARTICLE 4. INITIATIVE, REFERENDUM AND RECALL

§ 4.01. Power of Initiative.

The citizens of the City of Glenn Heights reserve the power of direct legislation by initiative, and in the exercise of power, may propose any ordinance not in conflict with this Charter, the State Constitution, or the state laws, except an ordinance appropriating money or authorizing the levy of taxes, or an ordinance repealing an ordinance appropriating money, levying taxes, or an ordinance involving zoning or annexation. Any initiated ordinance may be submitted to the Council by a petition signed by registered qualified voters of the City of Glenn Heights equal in number to at least twenty- five (25%) percent of the number of registered voters in the city.
(Amended by Ordinance O-846-07 at an election held May 12, 2007, prop. 8)

§ 4.02. Power of Referendum.

The citizens reserve the power to approve or reject at the polls any legislation enacted by a Council which is subject to the initiative process under this Charter, except an ordinance which is enacted for the immediate preservation of the public peace, health or safety which contains a statement of its urgency. Prior to the effective date of any ordinance which is subject to referendum, a petition signed by registered qualified voters of the City, equal in number to at least twenty-five (25%) percent of the registered voters in the city, may be filed with the City Secretary requesting that such ordinance be either repealed or submitted to a vote of the people. When such a petition has been certified as sufficient by the City Secretary, the ordinance specified in the petition shall not go into effect, or further action thereunder shall be suspended if it shall have gone into effect, until and unless it is approved by the voters as herein provided.
(Amended by Ordinance O-846-07 at an election held May 12, 2007, prop. 8)

§ 4.03. Form of Petition.

Initiative petition papers shall contain the full text of the proposed legislation in the form of an ordinance, including a descriptive caption. The signatures to the initiative or referendum need not be all appended to one paper, but each signer shall sign his/her name in ink or indelible pencil, shall add his/ her signature and his/her place of residence by street and number and his/her voter registration number. One of the signers of each separate paper petition shall make an affidavit that he/she, and he/she only, personally circulated such petition and that signature appended thereto was made in his/her presence and is the genuine signature of the person whose name it purports to be, and further that no signature shall have been placed thereon forty-five (45) days prior to the filing of such petition.

§ 4.04. Filing, Examination and Certification of Petition.

Within ten (10) business days after an initiative or referendum petition is filed, the City Secretary shall determine whether the same is signed by the requisite number of registered voters. The City Secretary shall declare void any petition paper which does not have an affidavit attached thereto as required by Section 4.03 of this Article. In examining the petitions, the City Secretary shall write the letters “D.V.” in red ink opposite the names of signers found not registered to vote. After completing examination of the

Unedited First Draft

petition, the City Secretary shall certify the results thereof to the Council at its next regular meeting, stating the number of persons found on the petition who are registered to vote and the number of persons found on the petition who are not registered to vote. If the certificate of the City Secretary shall show an initiative or referendum petition to be insufficient the City Secretary shall notify the person filing the petition, and it may be amended within ten (10) business days from the date of such notice by filing a supplementary petition upon additional papers signed and filed as provided for in the original petition. Within ten (10) business days after such amendment is filed, the City Secretary shall examine the amended petition and certify as to its sufficiency. If the amended petition is found to be insufficient, the City Secretary shall return the petition to the person filing same, without prejudice to the filing of a new petition for the same purpose: provided however, that upon finding the amended petition to be insufficient, no new petition covering the same subject matter shall be filed until six (6) months shall have elapsed from the date of filing of the original petition.

§ **4.05. Council Consideration and Submission to Voters.**

When the Council receives an authorized initiative petition certified by the City Secretary to be sufficient, the Council shall either:

(a) Pass the initiated ordinance without amendment within thirty (30) days after the date of the certification to the Council;

(b) Submit said initiated ordinance without amendment to a vote of the registered voters of the City at a regular or special election to be held within ninety (90) days after the date of the certification to the Council; or

(c) At such election, submit the initiated ordinance without amendment and an alternative ordinance proposed by the Council to a vote of the qualified voters of the City. The ballot shall state the captions of the initiated ordinance and the alternative ordinance, clearly designating them “Ordinance No. 1” and “Ordinance No. 2,” respectively, and shall set forth below the captions on separate lines the words “For Ordinance No. 1,” “For Ordinance No. 2,” and “Against Both Ordinances.” Each voter shall vote “For” only one ordinance, or “Against Both Ordinances,” and a vote for one ordinance shall be counted as a vote against the other ordinance.

When the Council receives an authorized referendum petition certified by the City Secretary to be sufficient, the Council shall reconsider the referred ordinance, and if upon such reconsideration such ordinance is not repealed, it shall be submitted to the voters at a regular or special election to be held not more than ninety (90) days after the date of the certification to the Council. Special elections on initiated or referred ordinances shall not be held more frequently than once each six (6) months, and no ordinance on the same subject as an initiated ordinance which has been defeated at any election may be initiated by the voters within two (2) years from the date of such election.
(Amended by Ordinance O-09-12/Res. R-19-12 at an election held on May 12, 2012, prop. 3)

§ **4.06. Ballot Form and Results of Election.**

The ballot used in voting upon an initiated or referred ordinance shall state the caption of the ordinance and below the caption shall set forth on separate lines the words: “For the Ordinance” and “Against the Ordinance.”

An initiated ordinance and an alternative ordinance proposed by the Council which are submitted at the same election shall be appropriately identified as the initiated or referred ordinance and as the ordinance

Unedited First Draft

proposed by the Council.

Any number of ordinances may be voted upon at the same election in accordance with the provisions of this Article. An ordinance submitted and receiving an affirmative majority of the votes cast, shall thereupon be effective as an ordinance of the City. An ordinance so adopted may be repealed or amended at any time after the expiration of two (2) years by a four-fifths (4/5) vote of the Council. A referred ordinance which is not approved by a majority of the votes cast shall be deemed thereupon repealed.

§ **4.07. Power of Recall.**

The citizens of the City reserve the power to recall any member of the Council for acts of misfeasance, malfeasance, incompetence, or official misconduct and may exercise such power by filing with the City Secretary a petition, signed by registered qualified voters of the City equal in number to at least thirty percent (30%) of the number of votes cast at the last regular municipal election of the City, or by 150 registered qualified voters, whichever is greater, demanding the removal of a member of the City Council. The petition shall be signed and verified in the manner required, by the form prescribed below. Such petition shall contain a statement of the specific acts of misfeasance, malfeasance, incompetence, and/or official misconduct for which the removal is sought, and one of the signers of each petition paper shall make an affidavit as prescribed below. “Malfeasance” is a wrongful act that a person has no legal right to do. “Misfeasance” is the improper doing of an act that a person might lawfully do. “Incompetence” means gross ignorance of official duties, gross carelessness in the discharge of official duties, or inability or unfitness to promptly and properly discharge official duties because of a serious mental or physical defect that did not exist at the time of the Council Member’s election. “Official misconduct” means intentional unlawful behavior relating to official duties of a Councilmember, including the intentional or corrupt failure, refusal, or neglect of a Council Member to perform a duty imposed upon the Councilmember by law. The following form of petition and acknowledgement is herein prescribed:

> “By our signatures affixed hereto, we hereby affirm that we seek the recall of _____ who holds the elected office of _____, for the following specific grounds of misfeasance, malfeasance, incompetence, and/or official misconduct as prescribed in Article 4, Section 4.07 of the Charter of the City of Glenn Heights:
>
> “And we further affirm that the information given below is true and correct:
>
> Voter Registration Number
>
> STATE OF TEXAS
>
> Printed Name Address Signature Date Signed
>
> COUNTIES OF DALLAS AND ELLIS
>
> “BEFORE ME, the undersigned authority, personally appeared , who, after being duly sworn by me stated, upon his/her oath, that he/she circulated the above Petition; that he/she was personally present when each of the above signatures were affixed thereto; and that each person whose signature is affixed thereto, affirmed to him/her that the information provided by them was true and correct.
>
> SWORN TO AND SUBSCRIBED BEFORE ME this the __ day of ___, 20__ . Notary Public, State of Texas

Unedited First Draft

My Commission Expires:
(Amended by Ordinance 728-02 at an election held on May 4, 2002; Amended by Ordinance O-846-07 at an election held May 12, 2007, prop. 8)

§ **4.08. Recall Election.**

Within fifteen (15) days after the date of the filing of the papers constituting the recall petition, the person performing the duties of City Secretary shall verify the signatures on the petition and then present such petition to the Council.

The officer whose removal is sought may, after such recall petition has been presented to the Council, request in writing to the Council at the next regular meeting a public hearing to be held to permit him/ her to present facts pertinent to the charges specified in the recall petition. In this event, the Council shall order such public hearing to be held, not less than five (5) days nor more than fifteen (15) days after receiving such request for a public hearing.

If the officer whose removal is sought does not resign, then it shall become the duty of the Council to order an election and fix a date for holding such recall election. The date of such election shall be held at the earliest date as permitted by state law.

§ **4.09. Recall Ballot.**

Ballots used at recall elections shall conform to the following requirements:

(a) With respect to each person whose removal is sought the question shall be submitted Shall (Name) be removed from the office of City Council.

(b) Immediately below each such question there shall be printed the two following propositions, one above the other, in the order indicated: “For the recall of (Name)” “Against the recall of (Name)”

§ **4.10. Results of a Recall Election.**

If a majority of the votes cast at a recall election shall be against removal of the individual named on the ballot, he/she shall continue in office. If a majority of the votes cast at such election be for the removal of the individual named on the ballot, the Council shall immediately declare his/her office vacant and such vacancy shall be filled in accordance with the provisions of the Charter for the filling of vacancies. An individual thus removed shall not be a candidate to succeed himself in an election called to fill the vacancy thereby created.

§ **4.11. Limitations on Recall.**

No recall petition shall be filed against any officer of the City within six (6) months after his/her election, or within one (1) year after an election for such officer’s recall.
(Amended by Ordinance O-846-07 at an election held May 12, 2007, prop. 9)

§ **4.12. Failure of the Council to Call an Election.**

In case all the requirements of this Charter shall have been met and the Council shall fail or refuse to receive the recall petition or order such recall election, or discharge any other duties imposed upon said

Unedited First Draft

Council by the provisions of the Charter with reference to such recall, then the County Judge of Dallas County, Texas, shall discharge any such duties herein provided to be discharged by the person performing the duties of the City Secretary or by the Council, or in the event the County Judge shall fail to discharge such duty, an action for Writ of Mandamus to compel the discharge of such duty may be brought in any district court of Dallas or Ellis Counties, Texas.
(Amended by Ordinance O-846-07 at an election held May 12, 2007, prop. 10)

§ **4.13. Fraud in the Petition Process.**

In the event that, with regard to any petition for initiative, referendum, or recall filed with the City Secretary, the City Council is presented with credible evidence that signatures on such petition were secured or added by means of fraud or other false inducement, the Council may, by majority vote, order the investigation of such evidence by the police department or other law enforcement agency and may delay ordering an election until such investigation is completed provided, however, that it shall be grounds for removal from office for any member of the council to vote for such an investigation solely for the purpose of delay. In the event such investigation reveals the substantial likelihood of fraud or other false inducement, the Council may decline to order an election and may refer such matter to the appropriate state or county official for prosecution. In the event such investigation reveals no substantial likelihood of fraud or other false inducement, the Council shall order an election for the next available uniform election date.
(Amended by Ordinance O-846-07 at an election held May 12, 2007, prop. 11)

ARTICLE 5 ADMINISTRATIVE ORGANIZATION

§ 5.01. The City Manager.

The Council shall appoint a City Manager for an indefinite term, who shall be the chief administrative officer of the City. He/she shall be chosen by the Council solely on the basis of his/her executive and administrative training, experience, ability and character, and without regard to political [conside]ration. The City Manager shall reside within a reasonable response time as determined by the City Council. No member of the Council shall, during the term for which elected, be chosen as City Manager. The City Manager shall receive such compensation as may fixed by the Council.

§ **5.02. Powers and Duties of the City Manager.**

The City Manager shall be responsible to the Council for the proper administration of all the affairs of the City. The powers herein conferred upon the City Manager shall include, but shall not be limited to the following:

(a) Appoint and, when necessary for the welfare of the City, remove any officer or employee of the City, except as otherwise provided by this Charter and except as he/she may authorize the head of a department to appoint and remove subordinates in such department.

(b) Serve as Budget Officer for the City, prepare and submit to the Council an annual budget, and be responsible for its administration after adoption.

(c) Prepare and submit to the Council as of the end of the fiscal year a complete report on the finances and administrative activities of the preceding year.

(d) Keep the Council advised of the financial condition and future needs of the City and make such

Unedited First Draft

recommendations as may seem to him/her desirable.

(e) Perform such other duties as may be prescribed by this Charter or required of him/her by the Council, not inconsistent with this Charter.

(f) Attend all meetings of the Council, and he/she shall be notified of all meetings of the Council. (Amended by Ordinance O-09-12 at an election held on May 12, 2012, prop. 4)

§ 5.03. Removal of City Manager.

The council may remove the City Manager, upon the affirmative vote of a majority of the entire Council. If removed after serving six (6) months, he/she may demand written charges and the right to he/she [be] heard thereon at a public meeting of the Council prior to the date on which his/her final removal shall take effect; but pending such hearing the Council may suspend him/her from office. The action of the Council in suspending or removing the City Manager shall be final, it being the intention of the Charter to vest all authority and fix all responsibility for such suspension or removal in the Council.

§ 5.04. Investigation by the City Council.

The City Council shall have power to inquire into the conduct of any office, department, agency, officer or employee of the City and to make investigations as to municipal affairs, and for that purpose may subpoena witnesses, administer oaths and compel the production of books, papers and other evidence. Failure to obey such subpoena or produce books, papers or other evidence, as ordered under the provisions of this section shall constitute a misdemeanor and shall be punishable by fine not to exceed One Thousand ($1,000.00) Dollars.

§ 5.05. Council Not to Interfere in City Manager's Appointments, or Removal.

Neither the Council nor any of its members shall direct or request the appointment of any person to or his/her removal from office by the City Manager or by any of his/her subordinates. However, the Council may consult and advise the City Manager, make inquiry regarding the appointments or removals and may express their opinion in regard thereto. In regard to administrative and executive duties under the City Manager, the Council and its members shall deal solely through the City Manager and neither the Council nor any member thereof shall give orders to any subordinate of the City Manager, either privately or publicly. Willful violation of the foregoing provisions of the Charter by any member of the Council shall constitute official misconduct and shall authorize the Council by a vote of a majority of its membership to expel such offending member from the Council if found guilty after a public hearing and thereby create a vacancy in the place held by such member.

§ 5.06. Absence of the City Manager.

The City Manager, by letter filed with the City Secretary, may designate a qualified administrative officer of the City to perform his/her duties during his/her temporary absence or disability. In the event of failure of the City Manager to make such designation, the Council may by resolution appoint an officer of the City to perform the duties of the City Manager until he/she shall return or his/her disability shall cease.

§ 5.07. Administrative Departments.

There shall be such administrative departments as are established by this Charter and such other administrative departments as may be deemed necessary by the Council and as are established by

Unedited First Draft

ordinance, all of which shall be under the control and direction of the City Manager. The Council may abolish or combine one or more departments created by it and may assign or transfer duties of any departments of the City from one department to another by ordinance.

§ 5.08. Directors of Departments.

At the head of each department there shall be a director who shall be appointed and who may be removed by the City Manager. Such directors shall have supervision and control over their respective departments and may serve as chiefs of divisions within their respective departments. Two or more departments may be headed by the same individual and the City Manager may head one or more departments.

§ 5.09. Fire Department.

The City shall take all necessary measures to protect the City and the property of its citizens from destruction by fire or conflagration; and shall have the authority to establish and maintain a fire department within the City at such time as state statutes may require, and to cooperate with any person, other governmental body, association or corporation in the operation of the fire department, under such terms as the City Council may prescribe. Authority is also granted to support and assist in the maintenance of a volunteer fire department.

§ 5.10. Police Department.

The City of Glenn Heights shall establish a Police Department and Reserve Force to protect and serve the citizens within the City and to cooperate with any person, governmental body, association or corporation in the operation of the Police Department, under such terms as the City Council may prescribe. Duties will be, but not limited to: maintaining public order, enforcement of regulations, traffic control, police patrol, investigations, crime prevention, accident investigation, and training.
(Amended at election of May 4, 2002)

§ 5.11. City Secretary.

The City Manager shall appoint and remove the City Secretary and such Assistant City Secretaries as the City Council shall deem advisable. The duties of the City Secretary, or an Assistant City Secretary shall be as required by law and as established by the Job Description as adopted with the City's Pay Classification Plan.
(Amended by Ordinance O-846-07 at an election held May 12, 2007, prop. 4)

ARTICLE 6. MUNICIPAL COURT

§ 6.01. Municipal Court.

There shall be a court known as the Municipal Court of the City of Glenn Heights, with such jurisdiction, powers, and duties as are given and prescribed by the laws of the State of Texas.

§ 6.02. Judge of the Municipal Court.

The Municipal Court shall be presided over by a Magistrate who shall be known as the City Judge. The City Judge shall be appointed by the Council for a two-year term, subject to removal by the City Council, with or without cause. The City Judge shall receive such compensation as may be set by the Council. The

Unedited First Draft

City Council by ordinance may provide for the appointment of one (1) or more Alternate City Judges for a two-year term, subject to removal by the City Council, with or without cause, and to serve if the City Judge is temporarily unable to act or is unavailable. In the event the City Judge is unable to act for any reason or in the event of a vacancy, the Alternate City Judge shall act in the place of the City Judge until such vacancy shall be filled.
(Amended at election of May 4, 2002; Amended by Res. R-27-18 at an election held on November 6, 2018, prop. B)

§ 6.03. Clerk of the Municipal Court.

There shall be a clerk of the Municipal Court who shall be appointed by, and who shall serve at the pleasure of the City Manager. The Clerk shall have power to administer oaths and affidavits, make certificates, affix the seal of the court thereto, and otherwise perform any and all acts necessary in issuing process of such Court, and conducting the business thereof.

There shall be such deputy clerks of the Municipal Court as may be authorized and appointed by the City Manager, who shall have authority to act for and on behalf of the Clerk of the Municipal Court.

§ 6.04. Procedure in the Municipal Court.

All complaints, prosecutions, the service process, commitment of those convicted of offenses, the collection and payment of fines, the attendance and service of witnesses and juries, punishment for contempt[,] bail and the taking of bonds shall be governed by the provisions of Title 2 of the Code of Criminal Procedure [Vernon's Ann. C.C.P. tit. 2] of the State of Texas applicable to Municipal Courts.

ARTICLE 7. FINANCE

§ 7.01. Fiscal Year.

The fiscal year of the City of Glenn Heights shall begin on October 1st of each calendar year and will end on September 30th of the following calendar year. The fiscal year will also be established as the accounting and budget year. All funds collected by the City during any fiscal year including both current and delinquent revenue shall belong to such fiscal year and, except funds derived to pay interest and create a sinking fund on the bonded indebtedness of the City, may be applied to the payment of the expenses incurred during such fiscal year. Any revenues uncollected at the end of any fiscal year, and any unencumbered funds actually on hand, shall become resources of the next fiscal year.

§ 7.02. Preparation and Submission of Budget.

The City Manager, prior to August 1st of each year, shall prepare and submit the budget, covering the next fiscal year, to the Council, which shall contain the following information. In preparing the budget, each employee, officer, board and department shall assist the City Manager by furnishing all necessary information.

(a) The City Manager’s budget message shall outline the proposed financial policies for the next year with explanations of any change from previous years in expenditures and any major changes of policy and complete statement regarding the financial conditions of the City.

(b) An estimate of all revenue from taxes and other sources, including the present tax structure rates

Unedited First Draft

and property evaluation for the ensuing year.

(c) A carefully itemized list of proposed expenses by office department, agency, employee and project for the budget year as compared to actual expenses of the last fiscal year, and the present year-to-date.

(d) A description of all outstanding bond indebtedness, showing amount, purchaser, date of issue, rate of interest, and maturity date, as well as any other indebtedness which the City had incurred and which has not been paid.

(e) A statement proposing any capital expenditures deemed necessary for undertaking during the next budget year and recommended provisions for financing.

§ 7.03. Budget a Public Record.

The budget and all supporting schedules shall [be] filed with the City Secretary when submitted to the Council and shall be open to public inspection by anyone interested.

§ 7.04. Public Hearing on Budget.

At the Council meeting at which time the budget is submitted, the Council shall name the date and place of a public hearing and shall cause to be published in the official newspaper of the City the time and place, which will be not less than seven (7) days nor more than fifteen (15) days after the date of the notice. At this hearing, interested citizens may express their opinions concerning items of expenditure, giving their reasons for wishing to increase or decrease any items of expense.

§ 7.05. Proceeding on Adoption of Budget.

After public hearing the Council shall analyze the budget, making any additions or deletions which they feel appropriate, and shall, prior to the beginning of the next fiscal year, adopt the budget by a favorable majority vote of all members of the Council.

§ 7.06. Budget, Appropriation and Amount to Be Raised by Taxation.

On final adoption, the budget shall be in effect for the budget year. Final adoption of the budget by the Council shall constitute the official appropriation as proposed expenditures for the current year and shall constitute the basis of the official levy of the property tax as the amount of tax to be assessed and collected for the corresponding tax year. Estimated expenditures will in no case exceed proposed revenue plus cash on hand. Unused appropriations may be transferred to any line item budgeted for the same general purpose.

§ 7.07. Unallocated Reserve Fund.

The City Manager may recommend for action by the Council, an unallocated reserve fund to be used for unexpected items of expense which were not contained as original items of expenditures.

§ 7.08. Administration of Budget.

No obligation shall be incurred against the City except for appropriations duly made in the budget. Furthermore, no payment shall be made nor obligations incurred against the City until the City Manager

Unedited First Draft

or his/her designee first verifies that there is or will be sufficient funds or monies available to cover the claim or meet the obligation when it becomes due and payable. There shall be no transfer of funds or monies from one fund to another fund to cover a claim or meet an obligation when it becomes due and payable without prior Council approval.
(Amended by Ordinance O-09-12 at an election held on May 12, 2012, prop. 5)

§ 7.09. Financial Reports.

The City Manager shall submit to the Council each month a report of the financial condition of the City by budget item, budget estimate compared to expenditures for the preceding month and for the fiscal year-to-date. The financial records of the City will be maintained on an modified accrual basis to support this type of financial management. The City Manager shall make available to the City Council monthly a cash disbursements journal of the City of all funds and accounts.

§ 7.10. Amending the Budget.

When conditions arise which could not reasonably have been foreseen in the normal process of planning the budget, the Council may amend or change the budget for any municipal or public purpose; however, the total expenditures from all City funds for the fiscal year may not be increased except by a vote of five (5) members of the City Council following a posted public hearing at which members of the public may provide input on such proposed amendment. In the event that a proposed budget amendment is in order to meet a grave public necessity, the City Council may, by a vote of five (5) of its members, waive the requirement for the public hearing. Amendments shall be by ordinance and shall become an attachment to the original budget.
(Amended by Ordinance O-09-12 at an election held on May 12, 2012, prop. 6)

§ 7.11. Certification: Copies Made Available.

A copy of the budget, as finally adopted, shall be filed with the City Secretary. The final budget shall be printed, or otherwise reproduced and sufficient copies shall be made available for the use of all offices agencies and for the use of interested persons and civic organizations.

§ 7.12. Defect Shall Not Invalidate the Tax Levy.

Errors or defects in the form or preparation of the budget or the failure to perform any procedural requirements shall not nullify the tax levy or the tax rate.

§ 7.13. Independent Audit.

At the close of each fiscal year, and at such other times as it may be deemed necessary, the Council shall direct that an independent audit be made of all accounts of the City by a Certified Public Accountant. The Certified Public Accountant shall have no personal interest, directly or indirectly, in the financial affairs of the City or any of its officers. Upon completion of the audit, the results thereof shall be placed on file in the City Secretary's office for public record.

§ 7.14. Purchase Procedure.

All sales of City property, purchases made, and contracts executed by the City shall be made in accordance with the requirements of the Constitution and laws of the State of Texas, including all laws related to the purchasing and contracting authority of municipalities, bids for public works contracts, high

Unedited First Draft

technology procurements, and professional services procurements.
(Amended at election of May 4, 2002)
Editor's note—Ord. No. 688-00, 9-05-2000, codified in section 1.19.001 of the city's Code of Ordinances, provides in pertinent part that "V.T.C.A., Local Government Code, ch. 252, shall supersede the provisions of the charter of the city where there is conflict between that statute chapter and the Charter as it relates to the notice of contracts, advertisement of the notice, requirements for the taking of sealed bids based on specifications for public improvements or purchases, the manner of publicly opening bids or reading them aloud, or the manner of letting contracts."

ARTICLE 8. BONDS, WARRANTS, AND OTHER EVIDENCE OF INDEBTEDNESS

§ 8.01. Powers to Issue.

In keeping with the Constitution of the State of Texas and not contrary thereto, the City of Glenn Heights shall have the power to borrow money on the credit of the City for any public purpose not now or hereafter prohibited by the Constitution and laws of the State of Texas, and shall have the right to issue all tax bonds, revenue bonds, funding and City refunding bonds, time warrants and other evidence of indebtedness as now authorized or as may hereafter be authorized to be issued by cities and ices towns by the laws of the State of Texas.

No bonds, warrants or certificates of indebtedness shall be made and the City shall not become obligated for same, to be used for the operation of the regular administrative and operating budgets of the City of Glenn Heights.

§ 8.02. Manner of Issuance.

Bonds and warrants of the City of Glenn Heights shall be issued in the manner provided by the general laws of the State of Texas.

§ 8.03. Sale of Bonds.

No bonds issued by the City of Glenn Heights shall be invalid because they are sold for less than par value and accrued interest. The Council shall have the right to reject any or all bids. In the event the City shall have received authorization for the issue of bonds but shall not have issued said bonds within ten (10) years from the date of voter authorization, such authorization shall become null and void.

§ 8.04. Interest and Sinking Funds.

It shall be the duty of the Council to levy an annual tax sufficient to pay the interest on and approve the necessary sinking fund required by law on all outstanding general obligation bonds of the City. The interest and sinking fund shall be deposited in a separate account and in shall not be diverted to or used for any other purpose than to pay the interest and principal on all such bonds issued by the City of Glenn Heights. The sinking fund maintained for the redemption of any debt may be invested in any interest bearing bonds of the United States Government, and/or secured bonds of the State of Texas as may be provided by the laws of this State. City monies may also be deposited in any state or nationally chartered bank in interest bearing accounts.

§ 8.05. Revenue.

Unedited First Draft

The City shall have power to borrow money for the purpose of construction, purchasing, improving, extending, or repairing of public utilities, recreational facilities or any other function not now or hereafter prohibited by the general laws of the State, and issue revenue bonds to evidence the obligation created thereby. Such bonds shall be a charge upon and payable solely from the properties, or interest therein acquired and the income therefrom, and shall never be a debt of the City.

Revenue bonds issued by the City may, within discretion of the City Council, be submitted for approval by a majority of qualified voters, voting at an election held for such purpose. The Council shall have authority to provide for the terms and force of any purchase agreement, contract, mortgage, bond or document desired or necessary for the issuance of revenue bonds, and the acquisition and operation of any property or interest.

§ 8.06. Execution and Registration of Bonds.

All bonds, warrants and certificates of indebtedness shall be signed by the Mayor, countersigned by the City Secretary, and sealed with the seal of the City in the manner provided by general law, and shall be payable at such times and place or places as may be fixed, not more than forty (40) years from their date. It shall be the duty of the Mayor, when such bonds are issued, to forward the same to the Attorney General of the State of Texas for approval and for registration by the Comptroller of Public Accounts.

§ 8.07. Bond Register.

The Director of Finance or other officer of the City designated by the City Council shall keep, or cause to be kept, for and on behalf of the City a complete bond registry and books, showing all bonds, warrants and certificates of indebtedness issued, the date and amount thereof, the rate of interest, maturity, etc., of all bonds or other indebtedness surrendered and other transactions of the Council having reference to the refunding of the indebtedness of said City.

ARTICLE 9. TAXATION

§ 9.01. Powers of Taxation.

The Council shall have power to levy, for general purposes, an ad valorem tax on real, personal, and mixed property within the territory of the City of Glenn Heights, not exempt from taxation by the Constitution and laws of the State of Texas, based upon its true value as provided by law to the extent of the constitutional limit permitted by the State of Texas to cities of over 5,000 population.

The Council may levy taxes on all property, privileges and franchises of every kind and description within the city limits or having its situs therein on January first, of each year, and from any other local source, and provide for rendition thereof, the place, time, and manner of payment thereof; with penalties, as the Council may deem best, not in violation

§ 9.02. Assessment of Property for Tax Purposes.

Every person, partnership, association or corporation holding, owning, or controlling property within the limits of the City shall on January 1st of each year be assessed as prescribed by State law.
(Amended by Res. R-27-18 at an election held on November 6, 2018, prop. C)

§ 9.03. Exempt Property.

Unedited First Draft

The City hereby exempts such personal property from taxation as may be provided for by the State Constitution and laws of the State of Texas and may grant any exemption allowed by the Texas State Property Tax Code [V.T.C.A., Property Code, tit. 1].

§ 9.04. Payment of Taxes.

The taxes herein and hereby authorized to be levied shall become due and payable October 1st of the year assessed, and same shall be payable in cash at the office of the Collector of Taxes or such other officer as the City may, by ordinance, prescribe.

§ 9.05. Delinquent Taxes.

Taxes shall be deemed and become delinquent if not paid prior to February 1st the year following assessment, and such delinquent taxes shall be subject to six (6%) percent penalty.

In addition to the penalty therein prescribed, such delinquent taxes shall bear interest at the rate of one (1%) percent per month for each month of delinquency up to a maximum penalty interest rate of twelve (12%) percent per annum from the original delinquent date. In addition to the penalty interest herein prescribed, such delinquent taxpayer shall be subject to the payment of all costs and expenses incurred in the advertisement of such delinquent property and the collection of such taxes through any method provided by this Charter and/or the laws of the State of Texas. Such penalties and interest shall be an obligation of the taxpayer and shall be secured by the same lien and collected in the same manner as other taxes.

§ 9.06. Tax Lien and Liability.

A special lien is hereby created on all real personal, and mixed property, located in the City of Glenn Heights, in favor of the City of Glenn Heights for all taxes, ad valorem, occupational or otherwise.

Said lien shall exist from January 1st in each year until the taxes are paid. Such lien shall be prior to all other claims, and no gift, sale, assignment or transfer of any kind, or judicial writ of any kind, can ever defeat such lien, but the Assessor and Collector of Taxes can pursue such property, and whenever found out may, by judicial writ, seize and sell enough thereof to satisfy such taxes.

All persons or corporations owning real, personal, or mixed property on the first day of January of each year shall be liable for all municipal taxes levied thereon for such year.

§ 9.07. Appeal of Appraised Value.

The City Council or the property owner shall have the right as prescribed by Law to contest the appraised values on all parcels before the Appraisal Review Board.

§ 9.08. Tax Remission, Discount and Compromise, Correction of Error.

Except as herein provided, neither the Council or any other official of the City shall extend the time for payment of taxes nor remit, discount or compromise any tax due the City, nor waive the penalty and interest that may be due thereon to any person, firms or corporations owing taxes to the City for such year or years, unless a clerical error or omission by a city employee is made. However, this provision shall not prevent the compromise of any tax suit, or the correction of any errors in assessment or preparation of tax rolls or preparation of a tax statement. Such compromise shall first have the approval of the Council.

Unedited First Draft

ARTICLE 10 PLANNING

§ 10.01. The Planning and Zoning Commission.

There shall be established a Planning and Zoning Commission which shall consist of seven (7) citizens from the City of Glenn Heights. The members of said Commission shall be appointed by the City Council for a term of three (3) years. The initial appointment of the Planning and Zoning Commission members by the Council shall designate which members shall serve three (3) years, which members shall serve two (2) years and which members shall serve one (1) year, and on each succeeding year thereafter, the Council shall select replacements for the Planning and Zoning Commission members whose terms have expired. The Commission shall elect a Chairman and Vice Chairman from among its members. The Commission shall meet not less than once each month. Vacancies and unexpired terms shall be appointed by the Council for the remainder of the term. A majority of the members shall constitute a quorum, and the affirmative vote of four (4) members shall be necessary for the passage of any recommendation to the City Council. Members of the Commission may be removed by the Council after public hearing.

The Commission shall keep minutes of its proceedings which shall be of public record. The Commission shall serve without compensation.

Commission members and officers holding such office on the effective date of the Charter shall continue in office until the expiration of their term of membership or office and shall thereafter be appointed as provided in this Section.

§ 10.02. Planning and Zoning Commission Powers and Duties.

The Planning and Zoning Commission shall recommend to the City Council approval or disapproval of proposed changes in the Zoning Ordinance, Master Plan, Master Thoroughfare Plan and shall review and recommend approval or disapproval of all subdivision plats.

The Commission shall be responsible to and act as an advisory body to the Council and shall have and perform such additional duties as may be prescribed by ordinance.

§ 10.03. The Master Plan.

A Master Plan for the physical development of the City of Glenn Heights shall be adopted by the City Council and it shall contain recommendations for growth, development and beautification of the City.

The City Council shall have the authority to amend the Master Plan in whole or in part after one public hearing on the proposed action.

§ 10.04. Legal Effect of the Master Plan.

Upon the adoption of a Master Plan by the City Council, no subdivision street, park or any public way, ground or space, public building or structure, or public utility whether publicly or privately owned, which is in conflict with the Master Plan shall be constructed or authorized by the City until and unless the location and extent thereof shall have been submitted to and approved by the City Council. The widening, narrowing, relocating, vacating or change in the use of any street, alley or public way, or ground or the sale of any public building or real property, shall be submitted for approval by the City Council.

Unedited First Draft

ARTICLE 11 FRANCHISES AND PUBLIC UTILITIES

§ 11.01. Powers of the City.

In addition to the City's power to buy, own, construct, maintain and operate utilities within or without the City Limits, and to manufacture and distribute electricity, gas or anything else that may be needed or used by the public, the City shall have further power as may now or hereafter be granted under the Constitution and laws of the State of Texas.

§ 11.02. Inalienability of Control of Public Property.

The right of control and use of the public streets, highways, sidewalks, alleys, parks, public squares and public places of the City is hereby declared to be inalienable by the City, except by ordinances not in conflict with the provisions of this Charter. No act or omission by the Council or any officer or agent of the City shall be construed to grant, renew, extend or amend, expressly or by estoppel or implication any right, franchise or easement affecting said public streets, highways, sidewalks, alleys, parks, public squares, public places and other real property, except as provided in this Charter.

§ 11.03. Ordinance Granting Franchises.

All ordinances granting, amending, renewing, or extending franchises for public utilities shall be read at two separate regular meetings of the Council and shall not be finally passed until thirty (30) days after the first reading and no such ordinance shall take effect until thirty (30) days after its final passage; and pending such time, the full text of such ordinance shall be published once each week for four (4) consecutive weeks in the official newspaper of the City of Glenn Heights and the expense of such publication shall be borne by the proponent of the franchise. The granting of franchises by the City Council shall be governed by the following regulations:

(a) No exclusive franchise or privilege shall ever be granted;

(b) No determinate or fixed term franchise shall ever be granted for longer term than twenty (20) years;

(c) Within five (5) years prior to the date of expiration of any fixed term franchise, the City Council may grant a new franchise to commence upon the expiration date of the franchise in question, or grant a new franchise if the existing franchise is released;

(d) All holders of franchises for public services from the City, their successors or assigns, as compensation for the right or privilege of such franchise enjoyed, shall pay to the City a percentage of the gross receipts of the business activities by the franchise holder rendered in the City. Such sum shall be exclusive of, and in addition to, all special assessments and taxes of whatever nature, including ad valorem taxes upon the value of the franchise and other property of the franchise holder. The sum due hereunder shall be due and payable in accordance with the specific ordinance.

For purposes of this section of the Charter, an agreement for the collection, transportation, disposal, recycling, or other management of solid waste shall not be considered to be a franchise or privilege. (Amended by Ordinance O-846-07 at an election held May 12, 2007, prop. 12)

§ 11.04. Transfer of Franchise.

Unedited First Draft

No franchise shall be transferable except to persons, firms, or corporations taking all or substantially all of the holder's business in the City of Glenn Heights and except with the approval of the Council expressed by ordinance. All liabilities to the City of Glenn Heights shall be paid in full at the time of the transfer.

§ 11.05. Franchise Value Not to be Allowed.

No value of any franchise granted by the City under this Charter shall be considered in fixing reasonable rates and charges for utility service within the City or determining the just compensation to be paid by the City for property which the City may acquire by condemnation or otherwise.

§ 11.06. Regulation of Rates.

The Council shall have full power after notices and hearing to regulate by ordinance the rates, charges and fares of every franchise holder operating in the City, to the fullest extent authorized by law, provided that no such ordinance shall be passed as an emergency measure. Every franchise holder who shall request an increase in rate, charges, or fares, shall have, at the hearing of the Council called to consider such request, the burden of establishing by clear, competent and convincing evidence, the value of its investment property allocable to service in the City, and the amount and character of its expenses and revenues connected with the rendering of such service.
(Amended at election of May 4, 2002)

§ 11.07. Consent of Property Owners.

The consent of abutting and adjacent property owners shall not be required for the construction, extension, maintenance or operation of any public utility; but nothing in this Charter or in any franchise granted thereunder shall ever be construed to deprive any such property owners of any right of action for damage or injury to his/her property as now or hereafter provided by law.

§ 11.08. Extensions.

All extensions of public utilities within the City Limits shall become a part of the aggregate property of the public utility, shall be operated as such, and shall be subject to all the obligations and reserved rights contained in this Charter and in any original grant hereinbefore made. The right to use and maintain any extensions shall terminate with the original grant. In case of an extension of public utility operated under a franchise hereafter granted, such right shall be terminable at the same time and under the same conditions as the original grant.

§ 11.09. Temporary Permits.

Permits unconditionally revocable at the will of the governing body for minor or temporary privileges in the streets, public ways, and public places of the City may be granted and revoked by ordinances from time to time, and such permits shall not be deemed franchises as the term is used in this Charter.

§ 11.10. Other Conditions.

All franchises heretofore granted are recognized as contracts between the City of Glenn Heights and the grantee, and contractual rights as contained in any such franchises shall not be impaired by the provisions of this Charter, except that the power of the City of Glenn Heights to exercise the right of eminent domain in the acquisition of any utility property is in all things reserved, and except the general powers of the City heretofore existing and herein provided for to regulate the rates and services of a utility, which shall

Unedited First Draft

include the right to require adequate and reasonable extension of plant and service and the maintenance of the plant fixtures at the standard necessary to render the highest reasonable quality of utility service to the public shall be reserved. Every franchise hereafter granted shall be held subject to all the terms and conditions contained in the various sections of this Article whether or not such terms are specifically mentioned in the franchises. Nothing in this Charter shall operate to limit in any way, as specifically stated, the discretion of the Council or the electors of the City in imposing terms and conditions as may be reasonable in connection with any franchise grant, including the right to require such compensation or rental as may be permitted by the laws of the State of Texas.

§ 11.11. Franchise Records.

Within six months after this Charter takes effect, every owner of a franchise shall file with the City, as may be prescribed by ordinance, certified copies of all franchises owned or claimed, or under which such utility is operated in the City of Glenn Heights. The City shall compile and maintain a public record of franchises.

§ 11.12. Accounts of Municipally Owned Utilities.

Accounts shall be kept for each public utility owned or operated by the City, in such manner as to show the true and complete financial results of such City ownership and operation, including all assets, appropriately divided into different classes, all liability subdivided by classes, depreciation reserve, other reserves, and surplus; also revenues, operating expenses including depreciation, interest payments, rental, and other disposition of annual income. The accounts shall show the actual capital cost to the City of each public utility owned, also the cost of all extensions, additions, and improvements and the source of the funds expended for such capital purposes. They shall show as nearly as possible the cost of any service furnished or rendered by any such utility to any other City or governmental department. The Council shall annually cause to be made by a certified public accountant, and shall publish, a report showing the financial condition of said public utility and the financial results of such City ownership and operation, giving the information specified in this section and such additional data Council shall deem expedient.

ARTICLE 12. BOARDS AND COMMISSIONS

§ 12.01. Boards and Commissions.

The City Council shall have authority to establish by ordinance such boards and commissions as it may deem necessary for the conduct of City business and management of municipal affairs including appointments of city hall officers to such boards and commissions except as otherwise provided in the Charter. The authority, functions and responsibilities of such the boards and commissions shall be such as is spelled out in the ordinance establishing them. All existing boards and commissions heretofore established shall be continued in accordance with the ordinance or other acts under which they have been created, or until the City Council shall by ordinance abolish, modify or alter the ordinances or acts under which they exist. Notwithstanding any other provision of this Charter, the elected City Council shall have paramount authority over all matters affecting the budgets, appropriation of funds, expenditures, purchases and sale of properties and procedures for accounting therefor, consistent with the express provisions of this Charter and applicable provisions of the State constitution and laws of this State.

ARTICLE 13. GENERAL PROVISIONS

§ 13.01. Public Records of the City.

Unedited First Draft

Every ordinance or resolution, upon its becoming effective, shall be recorded in a book kept for that purpose and shall be authenticated by the signature of the Mayor or Mayor [Pro tem] and attested by the City Secretary as herein provided, which book and a duplicate copy thereof shall be kept in a fireproof City depository. All public records of every office, department, or agency of the City shall be open to, inspection by any citizen at all reasonable times, provided that police records and vital statistics records, and any other records closed to the public by law, shall not be considered public records for the purposes of this Section.

§ 13.02. Personal Interest in City Contracts.

No officer or employee of the City of Glenn Heights shall have a financial interest, direct or indirect, in any contract with the City, or be financially interested directly, or indirectly in the sale to the City of any land, materials, supplies, or services, except on behalf of the City as an officer or employee. Any knowing and willful violation of this Section shall constitute malfeasance in office and any officer or employee guilty thereof shall be removed from his/her office or position. Any violation of this Section with the knowledge, expressed or implied, of the person or corporation contracting with the governing body of the City shall render the contract involved void.

§ 13.03. Nepotism.

No person related within the second degree by affinity, or the third degree consanguinity to the Mayor, any member of the City Council, or the City Manager shall be appointed to any paid office, position, clerkship, or other service of the City. This prohibition shall not apply, however, to any person who shall have been employed by the City prior to and at the time of the election of the Councilmembers, or appointment of the City Manager, so related to him/her.

§ 13.04. Officers Not to be interested in Franchises: Forfeiture.

No officer or employee of the City of Glenn Heights shall accept, directly or indirectly, any gift, favor, privilege or employment from any public utility corporation enjoying a grant of any franchise privilege or easement from said City, during the term of office of such officer or during the employment of such employee of the City, except as may be authorized by law or ordinance. Any employee or officer of the City who shall violate the provisions of this Section shall be guilty of a misdemeanor and shall be punished by such fine as may be prescribed by ordinance for this offense, and may be forthwith, removed from office.

§ 13.05. Mechanic, Material or Labor Claim.

All subcontractors, materialmen, mechanics and laborers upon any public works of the City of Glenn Heights are hereby required to notify the City of all claims they may have against the contractor on account of such work, subject to proof of payments by the said contractor, and where such notice has been given, the City shall retain an amount from any funds due the contractors, sufficient to satisfy such claims; provided that such notice must be given at any time after such indebtedness becomes due and before the City's final settlement with the contractor and provided further, that no contractor or subcontractor shall issue any checks on or on account of, any public works of said City.

§ 13.06. Notice of Claim.

The City of Glenn Heights shall not be held responsible on account of any claim for damages to any person unless the person making such complaint or claiming such damages shall, within ninety (90) days

Unedited First Draft

after the time at which it is claimed such damages were inflicted upon such person, file with the City Secretary, a true statement under oath, as to the nature and character of such damages or injuries, the extent of the same, and the place where same happened, the circumstances under which same happened, the conditions causing same, with a detailed statement of each item of damages and the amount thereof, and if it be for personal injuries, giving a list of the witnesses, if any known to affiants, who witnessed such accident.

§ 13.07. Assignment, Execution and Garnishment.

The property, real and personal, belonging to said City shall not be liable to be sold or appropriated under any writ of execution or cost bill, nor shall the funds belonging to said City, in the hands of any person, be liable to garnishment on account of any debt the City may owe or funds the City may have on hand due any person, nor any of its officers or agents shall be required to answer any writ of garnishment on any account whatsoever, nor shall said City be liable to the assignee of any wages of any officer, agent or employee of said City, whether earned or unearned, upon any claim or account whatsoever, and any such attempted assignment shall be absolutely void as to the City.

§ 13.08. Bond of Contractors.

The governing body of the City of Glenn Heights shall require sufficient payment and performance bonds of all contractors, with a good corporate surety thereon, acceptable to the governing body of the City of Glenn Heights.

§ 13.09. Condemnation of Dangerous Structures.

Whenever, in the opinion of the governing body of the City of Glenn Heights, or appropriate city official, any building, fence, shed, awning, eave, excavation, structure, object or thing of any kind or part thereof may fall or collapse and injure persons or property, the City may order the owner or agent of the same or occupant of the premises to take such corrective measures as the governing body may direct, and may punish by fine all persons failing to do so. Upon his failure to comply, the governing body shall have the additional power to remove the same on account of the owner of the property and assess the expenses thereof, including condemnation proceedings, as a special tax against the land or improvements, and the same may be collected as other special taxes provided for in this Charter, or by suit in any court of competent jurisdiction.

§ 13.10. Building Permits.

The City of Glenn Heights shall have the power to prohibit the erection or construction of any building or structure of any kind within the City of Glenn Heights without a permit first having been issued by the City for the construction or erection of such building or structure, and may authorize a fee to be charged for such permit, and in pursuance of said authority may authorize the inspection by the City of all buildings or structures during the progress of their construction and may require that all buildings shall be constructed in conformity with the building code which exists in said City or shall hereafter be passed.

§ 13.11. Pool, Ponds, and Lakes.

The City of Glenn Heights shall have the power to control or prohibit construction of pools, ponds, or lakes, receiving water from a recognizable stream, creek, branch, or natural drainage. The City may control location, construction, height of structure, depth and size of body of water to be impounded. No pool, pond, or lake, receiving water from a recognizable stream, creek, branch, or natural drainage, shall

Unedited First Draft

be constructed without first obtaining a permit issued by the City.

§ 13.12. Bonds of City Officials, Employee, or Department Director.

In addition to any bonding provisions herein provided, the Council shall require not less than $25,000 for the Tax Collector, and may require any city official, department director or city employee before entering upon his/her duties, to execute a good and sufficient bond with a surety company doing business in the State of Texas, and approved by the Council, as surety thereon, said bond to be in such amount as Council may demand payable to the City of Glenn Heights, and conditioned for the faithful performance of the duties of his office [the] premium of such bond to be paid by the City.

§ 13.13. Amendment of the Charter.

This Charter may be amended no more than once every two (2) years as provided by the laws of the State of Texas.

§ 13.14. Severability Clause.

If any Section or part of a Section of this Charter is held to be invalid or unconstitutional by a court of competent jurisdiction, such invalidity shall not invalidate or impair the validity, force or effect of any other Section or part of a Section of this Charter.

§ 13.15. Construction of the Charter.

In the wording of the Charter, the use of the singular number shall include the plural, and the plural shall include the singular. Words used in the masculine gender shall include the feminine also unless by reasonable construction, it appears that such was not the intention of this Charter.

§ 13.16. Construction of Power.

This Charter shall not be construed as a mere grant of enumerated powers but shall be construed as a general grant of power and as a limitation of power on the government of the City of Glenn Heights in the same manner on as the Constitution of Texas is construed as a limitation on the powers by of the Legislature. Except where expressly prohibited by this Charter, each and every power under Article 11, Section 5 of the Constitution of Texas [Tex. Const. art. 11, § 5], which it would be competent for the citizens of the City of Glenn Heights to grant expressly to the City, shall be construed to be granted to the City by the Charter.

§ 13.17. Churches and School Property Not Exempt From Special Taxes and Assessments.

No property of any kind, church, school, or otherwise, in the City shall be exempt from any of the special taxes and assessments authorized by it this Charter for local improvements unless the exemption is required by a state law.
(Ordinance O-06-17 adopted 7/18/17)

§ 13.18. Damages.

No member of the City Council shall be individually liable or accountable in damages as a result of any actions taken by the member in performance of official duties.

Unedited First Draft

§ 13.19. Rearrangement and Renumbering.

The Council shall have the power, by ordinance, to renumber and rearrange all Articles, Sections, and paragraphs of the Charter or any amendments thereto, as it shall deem appropriate, and upon the passage of any such ordinance, a copy thereof certified by the City Secretary, shall be forwarded to the Secretary of State for filing.

§ 13.20. Effective Date of Charter.

This Charter, if adopted, shall become effective from and after the votes cast at the election at which it is submitted to the voters shall have been counted and the result of said election declared and an order or ordinance shall have been entered upon the records of the City Council declaring it adopted. All amendments to this Charter shall become effective from and after the votes cast at the election at which such amendments are submitted to the voters shall have been counted and the result of said election declared and an order or ordinance shall have been entered upon the records of the City Council declaring such amendments to be adopted.
(Amended at election of May 4, 2002)

§ 13.21. Non-Substantive Errors.

In the event that a typographical, grammatical, gender-specific or other non-substantive error in the Charter are identified, that the Council may, by a majority vote, correct the same, provided that no such correction may alter the substantive meaning of any provision of the Charter.
(Amended by Ordinance O-846-07 at an election held May 12, 2007, prop. 14; Amended by Res. Res. R-27-18 at an election held on November 6, 2018, prop. D)

§ 13.22. Disaster Response.

The City Manager shall ensure that a current disaster response plan is maintained by the City that is consistent with state and federal law regarding disaster response. The City Council shall, by ordinance, define an order of succession of authority, also consistent with state and federal law, to address chain of command in the event of disaster and/or the multiple deaths, injuries, or unavailability of City officials.
(Amended by Ordinance O-846-07 at an election held May 12, 2007, prop. 13; Ordinance O-06-17 adopted 7/18/17)

§ 13.23. Code of Ethics.

Within eighteen (18) months of adoption of this section, the City Council shall, by Ordinance, adopt a Code of Ethics to govern the conduct of all City officials, including all members of all City councils, boards, committees, or commissions, while such persons hold such position or office. The Code of Ethics will not apply to or govern employees or independent contractors of the City. At a minimum, the Code of Ethics shall incorporate the conflict of interest standards that appear in chapter 171 of the Texas Local Government Code and all state law as presently exists or may hereafter be amended or adopted. The City Council may adopt more stringent standards than those that appear in state law, but the Code of Ethics shall at a minimum include the following components: (a) definition of a prohibited improper economic interest and personal gain; (b) definition of recusal and improper participation when a potential conflict of interest is present; (c) avoidance of appearance of conflict of interest; and

(d) administration and enforcement of the Code of Ethics coupled with strong and meaningful remedies for infraction. Prior to adoption of the Code of Ethics, the City Council may establish and appoint

Unedited First Draft

qualified voters to serve as members of an Ethics Advisory Commission, which Commission shall be charged with preparing and presenting to the City Council for its consideration a proposed Code of Ethics.

(Added by Res. R-27-18 at an election held on November 6, 2018, prop. E)

Unedited First Draft

Part II

GENERAL CODE OF ORDINANCES

Chapter 1

GENERAL PROVISIONS

Sec. 1.01.001. Designation and citation of code.[1]

This Code is a codification of the general ordinances of the city which have been enacted and published in accordance with the authority granted in V.T.C.A., Local Government Code, ch. 53. The ordinances embraced in this Code shall constitute and be designated the "Code of Ordinances, City of Glenn Heights, Texas," and may be so cited. This Code may also be cited as the "Glenn Heights Municipal Code." ~~There is hereby adopted the Code of Ordinances of the city as compiled, edited and published by Franklin Legal Publishing, Inc.~~
(Code 1996, §§ 1.01.001, 1.01.002)

~~Art. 1.08. At a meeting of the city council held on the 16th day of September, 1969, the city council accepted the provisions of title 28, chapters 1–10, Revised Civil Statutes of the state and subsequent amendments thereto. The city also assumed the corporate name of "The City of Glenn Heights." (Code 1996, Art. 1.08)~~[2]

Sec. 1.01.003. Catchlines of articles and sections.

The catchlines of the several articles and sections of this code are intended as mere catchwords to indicate the contents of the article or section and shall not be deemed or taken to be titles of such articles and sections, nor as any part of the articles and sections, nor, unless expressly so provided, shall they be so deemed when any of such articles and sections, including the catchlines, are amended or reenacted.
(Code 1996, § 1.01.003)

Sec. 1.01.004. Definitions and rules of construction.[3]

In the construction of this code, and of all ordinances and resolutions passed by the city council, the following rules shall be observed, unless such construction would be inconsistent with the manifest intent of the city council:

Generally. Words shall be construed in their common and usual significance unless the contrary is clearly

---

[1] **Sec. 1.01.001. Designation and citation of code.** Section is updated for the current on-going recodification.

[2] **Art. 1.08. Recognition of incorporation.** Unnecessary text is stricken as shown.

[3] **Sec. 1.01.004. Definitions and rules of construction.** A definition of the city's fee schedule and of citation conventions to state law and rules are added. The definition of the city is altered to exclude the word "town". Any references to the city as a town throughout the code will be corrected by editing staff during the next phase of this project.

Unedited First Draft

indicated.

City ~~and town. Each~~ means the City of Glenn Heights, Texas.

City manager, city secretary, chief of police or other city officers. The words "city manager," "city secretary," "chief of police" or other city officers or departments shall be construed to mean the city manager, city secretary, chief of police or such other municipal officers or departments, respectively, of the City of Glenn Heights, Texas.

Computation of time. The time in which an act is to be done shall be computed by excluding the first day and including the last day. If a deadline or required date of action falls on a Saturday, Sunday or holiday observed by the city, the deadline or required date of action shall be the next day that is not a Saturday, Sunday or holiday observed by the city. References to days are calendar days unless otherwise stated.

Conjunctions. Unless the context clearly indicates the contrary, conjunctions shall be interpreted as follows: The word "and" indicates that all connected items, conditions, provisions or events apply. The word "or" indicates that one or more of the connected items, conditions, provisions, or events apply.

Council. Whenever the words "council" or "this council" or "the council" are used, they shall mean the city council of the City of Glenn Heights, Texas.

County. The term "county" or "this county" shall mean the Counties of Dallas and Ellis, Texas. May. Is permissive.

Fee schedule means the comprehensive schedule of city fees as approved from time to time by the city commission, a copy of which is on file in the office of the city secretary and available on the city website.

Mandatory and discretionary terms. The words "shall," "must," and "will" are mandatory in nature, establishing an obligation or duty to comply with the particular provision. The words "may" and "should" are permissive in nature.

Month. The word "month" shall mean a calendar month. Must and shall. Are each mandatory.

Number. Any word importing the singular number shall include the plural, and any word importing the plural number shall include the singular.

Oath. The word "oath" shall be construed to include an affirmation in all cases in which, by law, an affirmation may be substituted for an oath, and in such cases the words "swear" and "sworn" shall be equivalent to the words "affirm" and "affirmed."

Official time standard. Whenever certain hours are named herein they shall mean standard time or daylight saving time as may be in current use in the city.

Owner. The word "owner," applied to a building or land, shall include any part owner, joint owner, tenant in common, tenant in partnership, joint tenant or tenant by the entirety, of the whole or of a part of such building or land.

Person. The word "person" shall extend and be applied to associations, corporations, firms, partnerships and bodies politic and corporate as well as to individuals.

Unedited First Draft

Property. Means and includes real and personal property.

Real property. Means and includes lands, tenements and hereditaments.

References to statutes, regulations and documents. Whenever reference is made to a resolution, ordinance, statute, regulation, manual, or document, it shall be construed as a reference to the most recent edition of such that has been finalized and published with the due provision for notice and comment, unless otherwise specifically stated.

Sidewalk. That portion of a street between the curbline and the adjacent property line intended for the use of pedestrians.

Signature or subscription. Shall include a mark when a person cannot write.

State. The words “the state” or “this state” shall be construed to mean the State of Texas.

Street. Shall have its commonly accepted meaning and shall include highways, sidewalks, alleys, avenues, recessed parking areas and other public rights-of-way including the entire right-of-way.

Tense. Words used in the past or present tense include the future as well as the past and present.

Tex. Adm. Code. The abbreviation "Tex. Adm. Code" means the latest edition or supplement of the Texas Administrative Code.

Vernon's Ann. Civ. St. The abbreviation "Vernon's Ann. Civ. St." means the latest edition or supplement to Vernon's Annotated Civil Statutes.

Vernon's Ann. CCP. The abbreviation "Vernon's Ann. CCP" means the latest edition or supplement to Vernon's Annotated Code of Criminal Procedure.

V.T.C.A. The abbreviation "V.T.C.A." means the latest edition or supplement of Vernon's Texas Code Annotated.

~~V.T.C.C.P., V.T.C.A. Refer to the divisions of Vernon’s Texas Statutes Annotated.~~

Written or in writing. The term “written” or “in writing” shall be construed to include any representation of words, letters, or figures, whether by printing or otherwise.

Year. Shall mean a calendar year.
(Code 1996, § 1.01.004)

Sec. 1.04.001. Ordinances.

(a) *Style.* The style of all ordinances shall be “Be it ordained by the City Council of the City of Glenn Heights.”

(b) *Introduction and action.* All ordinances shall be in writing and shall be introduced by some member of the city council at an open meeting of the city council when it shall be read and acted upon. It shall not be necessary to read the ordinance in its entirety, but the caption shall be read and a brief summary and explanation of the purpose of the ordinance provided prior to voting on the ordinance.

Unedited First Draft

(c) *Disposition.* All ordinances upon passage shall be approved by the mayor and attested by the city secretary, and shall be recorded by the city secretary, in chronological order, in a book of ordinances provided for such purpose, together with proof of publication, if required.
(Code 1996, §§ 1.01.001—1.04.003)

Sec. 1.01.006. Repeal of ordinances.

The repeal of an ordinance or any portion thereof shall not repeal the repealing clause of an ordinance or revive any ordinance which has been previously repealed.
(Code 1996, § 1.01.006)

Sec. 1.01.007. Amendments or additions to code.

All ordinances of a general and permanent nature, and amendments to such ordinances, hereafter enacted or presented to the city council for enactment, shall be drafted, so far as possible, as specific amendments of, or additions to, the Code of Ordinances. Amendments to this code shall be made by reference to the chapter and section of the code which is to be amended, and additions shall bear an appropriate designation of chapter, article and section; provided, however, the failure so to do shall in no way affect the validity or enforceability of such ordinances.
(Code 1996, § 1.01.007)

Sec. 1.01.008. Supplementation of code.

(a) By contract or by city personnel, supplements to this code shall be prepared and printed whenever authorized or directed by the city council. A supplement to the code shall include all substantive permanent and general parts of ordinances passed by the city council or adopted by initiative and referendum during the period covered by the supplement and all changes made thereby in the code. The pages of a supplement shall be so numbered that they will fit properly into the code and will, where necessary, replace pages which have become obsolete or partially obsolete, and the new pages shall be so prepared that, when they have been inserted, the code will be current through the date of the adoption of the latest ordinance included in the supplement.

(b) In preparing a supplement to this code, all portions of the code which have been repealed shall be excluded from the code by omission thereof from reprinted pages.

(c) When preparing a supplement to this code, the codifier (meaning the person, agency or organization authorized to prepare the supplement) may make formal, nonsubstantive changes in ordinances and parts of ordinances included in the supplement, insofar as it is necessary to do so to embody them into a unified code. For example, the codifier may:

(1) Organize the ordinance material into appropriate subdivisions;

(2) Provide appropriate catchlines, headings and titles for articles, sections and other subdivisions of the code printed in the supplement and make changes in such catchlines, headings and titles;

(3) Assign appropriate numbers to articles, sections and other subdivisions to be inserted in the code and, where necessary to accommodate new material, change existing article or section or other subdivision numbers;

Unedited First Draft

(4) Change the words “this ordinance” or words of the same meaning to “this chapter,” “this article,” “this section,” “this subsection,” etc., as the case may be; and

(5) Make other nonsubstantive changes necessary to preserve the original meaning of ordinance articles or sections inserted into the code; but, in no case, shall the codifier make any change in the meaning or effect of ordinance material included in the supplement or already embodied in the code. (Code 1996, § 1.01.008)

Sec. 1-#. Certain ordinances not affected by Code.[4]

(a) Nothing in this Code or the ordinance adopting this Code shall be construed to repeal or otherwise affect the validity of any of the following:

(1) Any ordinance promising or guaranteeing the payment of money for the city or authorizing the issuance of any bonds of the city or any evidence of the city's indebtedness.

(2) Any appropriation ordinance, including those providing for or related to an annual budget or prescribing salaries for city officers and employees.

(3) Any ordinance describing the boundaries of the city, annexing territory to the city or discontinuing territory as a part of the city.

(4) Any ordinance granting a franchise.

(5) Any ordinance adopting or affecting the license code or requiring or related to any privilege or occupational license or tax, including alcoholic beverages.

(6) The levy, imposition or assessment of any licenses or taxes.

(7) Any ordinance ordering an election.

(8) Any ordinance making appointments to positions, offices or boards.

(9) Any ordinance providing for local improvements or levying assessments for public improvements.

(10) Ordinances authorizing deeds, leases, contracts or other such instruments.

(11) Ordinances under which vested rights may have accrued as to persons in whom such rights may have vested.

(12) Any ordinance dedicating, accepting, naming, establishing, locating, relocating, opening, paving, widening or vacating any street or other public way in the city or relating to municipal street maintenance agreements with the state or establishing or prescribing grades for streets in the city.

(13) Any ordinance which, by its own terms, is effective for a stated or limited term.

(14) Any ordinance dedicating or accepting any subdivision plat.

(15) Any ordinance adopted for purposes which have been consummated.

(16) Any ordinance which is temporary, although general in effect.

(17) Any ordinance which is special, although permanent in effect.

(18) Any ordinance providing for and regulating flood management unless otherwise specifically

---

[4] **Sec. 1-#. Certain ordinances not affected by Code.** Certain ordinances are saved from repeal by adoption of the recodified code at the end of this project.

Unedited First Draft

provided herein.

(b) All such ordinances are recognized as continuing in full force and effect to the same extent as if set out at length in this Code.

Sec. 1.01.009. General penalty for violations of code; continuing violations.

(a) When in this Code or in any ordinance of the city an act is prohibited or is made or declared to be unlawful or an offense or a misdemeanor, or whenever in such code or ordinance the doing of any act is required or the failure to do any act is declared to be unlawful, and no specific penalty is provided therefor, the violation of any such provisions of this code or any such ordinance shall be punished by a fine not exceeding $500.00 except that:

(1) A fine or penalty for the violation of a rule, ordinance or police regulation that governs fire safety, zoning or public health and sanitation including the dumping of refuse may not exceed $2,000.00; and

(2) No penalty shall be greater or less than the penalty provided for the same or a similar offense under the laws of the state.

(b) Each day any violation of this code or of any ordinance shall continue shall constitute a separate offense. In the event that any such violation is designated as a nuisance under the provisions of this code, such nuisance may be summarily abated by the city. In addition to the penalty prescribed above, the city may pursue other remedies such as abatement of nuisances, injunctive relief and revocation of licenses or permits.
(Code 1996, § 1.01.00)

Sec. 1.01.005. Severability of parts of code.

It is hereby declared to be the intention of the city council that the sections, paragraphs, sentences, clauses and phrases of this code are severable and, if any phrase, clause, sentence, paragraph or section of this code shall be declared unconstitutional by the valid judgment or decree of any court of competent jurisdiction, such unconstitutionality shall not affect any of the remaining phrases, clauses, sentences, paragraphs and sections of this code, since the same would have been enacted by the city council without the incorporation in the code of any such unconstitutional phrase, clause, sentence, paragraph or section.
(Code 1996, § 1.01.005)

Unedited First Draft

Chapter 2

ADMINISTRATION

ARTICLE I. IN GENERAL

Sec. 1.03. Fiscal year.

The fiscal year of the city is hereby designated as beginning October 1 of each year and ending September 30 of the following year.
(Code 1996, Art. 1.03)

Sec. 1.09. City seal and logo form and design; use requirements and restrictions.[5]

(a) The city has adopted and is the sole owner of the official seal or logo of the city depicted below:

[GRAPHIC - City Seal]

(b) The seal or logo consists of two concentric circles, the outer circle being a field of blue bounded along its outer edge by white rope braid with blue shading and on its inner edge by a solid white line.

(c) Upon the field of blue the following words appear: at the top of the circle, “CITY OF” in white, all caps, Times New Roman font and on the lower portion of the circle, in white, all caps, Times New Roman font the words ‘GLENN HEIGHTS”, with a white, five-pointed star appearing before the word “GLENN” and another appearing after the word ‘HEIGHTS”.

(d) The center circle is a field of white bounded by the shared blue line. Centered within the white field are the stylized letters “G” and “H”. The stylized “G” is solid blue with the center of the letter forming a white, five-pointed star. The top portion of the stylized “H” is white, outlined in blue and the lower portion of the stylized “H” is burgundy with no outlining. There is a small white space between the top and bottom portions of the stylized “H”. ~~The original and default pantone colors for the City seal or logo are as follows: CMYK Blue: 82-75-48-47, Red: 37-88-80-44, White: 0-0-0-0. RGB Blue: 46-49-68, Red: 108-39-38, White: 255-255-255~~

(e) For all official use, the seal or logo shall employ the official and default pantone colors or shall be in black and white; however, the recognition of the original and default pantone colors shall not be deemed to prevent the city’s official use of other colors or color combinations for the city seal or logo.

(f) An official digital copy of the city seal or logo shall be on file with the city secretary’s office. The city secretary will affix the city seal or logo or a facsimile or reproduction, black-and-white or original color, thereof to all certificates and documents as may be required by law, by this article or by ordinance of the city.

(g) All other uses of the city seal or logo are restricted to official city business and such other appropriate uses that further the operations of the city as may be authorized in writing by the city manager or the city manager’s designee as otherwise specifically permitted in this article. Except as provided in

---

[5] **Sec. 1.09. City seal and logo form and design; use requirements and restrictions.** Unnecessary print specifications are stricken as shown.

Unedited First Draft

this article, no person shall make, use, employ, print, publish or make use of the official seal or logo of the city or any facsimile or reproduction thereof or make or use any seal or logo which is an imitation of or may be mistaken for the city seal or logo.

(h) City officers, city employees, members of the city council, and members of city boards and commissions may use stationery, printed materials, and other articles bearing the city seal or logo or a facsimile or reproduction of the city seal or logo while acting within the scope of their office or employment.

(i) No person, including any elected or appointed officer of the city, may use the city seal or logo or facsimile thereof in any correspondence or other printed materials distributed in favor of or against any ballot measure or in favor of or against any candidate for public office.

(j) Outside entities or agencies may request use, for a limited time, of the city seal or logo for events co-hosted or supported by the city. All such requests must be submitted in writing to the city manager or the city manager's designee, who has the sole discretion to approve or deny such requests in writing, and to promulgate the manner, timing, and format of such requests and uses. When considering such requests, the city manager or designee will consider the ultimate benefit to the city of such use, the effects of association by the city with the event or occurrence, the city's traditional sponsorship activities, and other criteria which shall be fairly and neutrally applied to all requestors. The decision of the city manager or designee regarding the use of the city seal or logo may be appealed to the city council by submitting a written protest to the city secretary's office within 14 days of the city manager or designee's written decision.

(k) From time to time, an elected or appointed official of the city may wish to incorporate the city seal or logo into a pin, insignia, or other article for use in ceremonial occasions or for other civic purposes, but not for sale or commercial purposes. Unless previously approved by a majority of the city council, each such proposed design must be submitted to the city manager for approval. Production of such items, after approval, shall, unless otherwise authorized by a majority of the city council, be at the sole expense of the creator of the design. The decision of the city manager may be appealed within 14 days to the city council.
(Code 1996, Art. 1.09; Ord. no. O-152-3, 1-23-2024)

Sec. 1.06 . Membership in council of governments authorized.

The city shall be a member of the North Central Texas Council of Governments for the purpose of joint planning and coordination of governmental services and policies, and the city secretary is authorized to pay the annual dues required for membership in the council of governments.
(Code 1996, Art. 1.06)

Sec. 1.07. Membership in state municipal league authorized.

The city shall be a member of the Texas Municipal League for the purpose of better representation, information, advice, and other such services which may be provided. The city secretary is hereby authorized to pay the annual dues required for membership in said league.
(Code 1996, Art. 1.07)

Sec. 1.05 Municipal elections.
All elections pertaining to municipal affairs shall be governed by and conducted in accordance with the V.T.C.A., Election Code, § 1.001 et seq.

Unedited First Draft

(Code 1996, Art. 1.05)

ARTICLE II. CITY COUNCIL

DIVISION 1. GENERALLY

Sec. 1.02.001. Governing body; election of members generally.

The city council shall be the governing body of the city. The city council shall consist of a mayor and six councilmembers, all of whom shall run for office by place and be elected from the city at-large in the manner provided in article 3 of the home rule charter, for a term of three years, or until their successors are duly elected and qualified. Places 1, 3, and 5 shall be up for election and filled in the same year and the mayor's office and places 2, 4, and 6 shall be up for election and filled in the same year.
(Code 1996, § 1.02.001; Ord. No. O-21-20, 11/10/20)

Sec. 1.02.002. Place system adopted.[6]

(a) The city has adopted the place system for the election of the council members. Each office of council member shall be assigned a place number, so that each such office shall bear its own separate designation~~, such as, council member, Place No. 1; council member, Place No. 2; council member, Place No. 3; council member, Place No. 4; council member, Place No. 5; council member, Place No. 6~~.

(b) As the terms of incumbent council members expire, each candidate for the office of council member shall file his application for a specific place on the city council. In such election the ballot shall show each office of council member as a separate office by place number, with the name of each candidate printed thereon under the specific office for which he is a candidate.
(Code 1996, § 1.02.002; Ord. No. 140, 1-17-1983)

Sec. 1.02.004. Selection of mayor; mayor to act as presiding officer.

The mayor shall be the presiding officer of the city council. At the first meeting of each new city council, or as soon thereafter as practicable, the city council shall elect one council member to serve as mayor pro tempore for a term of one year and to perform the duties of the mayor in the event of the mayor's failure, inability, or refusal to act.
(Code 1996, § 1.02.004)

Sec. 1.02.042. Selection of mayor pro tem; duties.

At the first meeting after the city council general elections are final and all members are sworn in, or at the first meeting in November in a year in which there is no election, the city council shall elect a mayor pro tem from among its members. The mayor pro tem shall act in the absence or illness of the mayor or failure or refusal of the mayor to act.
(Code 1996, § 1.02.041; Ord. No. O-27-12, 2/19/13)

Sec. 1.02.005. Quorum.

The mayor shall, with four of the council members, constitute a quorum for the transaction of business. In

---

[6] **Sec. 1.02.002. Place system adopted.** Unnecessary examples are stricken as shown.

Unedited First Draft

the mayor's absence, any five council members shall constitute a quorum. The quorum has the power to appoint any council member as a presiding officer at any meeting at which the mayor and mayor pro tem are absent. The quorum, with the affirmative vote of at least four members, shall have the power to enact such resolutions and ordinances not inconsistent with the laws and constitution of this state, as shall be deemed proper for the government of the city.
(Code 1996, § 1.02.005)

Sec. 1.02.006. Vacancies.

In the event a vacancy occurs in the office of mayor or council members from any cause whatsoever, a special election shall be held after the vacancy occurs on the earliest date permitted by state law for the purpose of filling such position for the remainder of the unexpired term.
(Code 1996, § 1.02.006)

Sec. 1.02.046. Orientation for new members; keeping council members informed.[7]

(a) The city manager is responsible for seeing that all newly elected councilmembers are provided with an orientation regarding municipal facilities, staff procedures and other information of interest to municipal officials.

(b) The mayor is responsible for informing all councilmembers of any and all issues related to the city, provided that doing so is accomplished in compliance with the open meetings requirements of V.T.C.A., Government Code, §§ 551.001 et seq. ~~Texas Open Meetings Act~~.
(Code 1996, § 1.02.06; Ord. No. O-27-12, 2/19/13)

Sec. 1.02.008. Absences of councilmembers from regular and special meetings.

(a) *Attendance; excused absences.* Members of the city council shall be required to attend regular and called meetings of the city council. A special meeting shall be synonymous with a called meeting or a workshop of the city council. A member of the city council may be excused from attending a regular or special meeting of the city council by presenting his or her reasons for the absence either at a meeting preceding the meeting at which the absence will occur or at the next regular meeting following the meeting at which the absence occurred, provided that a majority of the council in attendance at the meeting at which the reasons are presented vote to excuse the absence. An absence not excused pursuant to this section shall be considered an unexcused absence.

(b) *Multiple unexcused absences; notice and hearing.* A member of the city council who accumulates unexcused absences from three consecutive regular meetings or five unexcused absences from regular and special meetings within any six-month period shall be presumed to have resigned from office, and the following action shall be taken:

(1) At the next regular meeting following either the third regular meeting for which a member of the city council accumulated an unexcused absence or the fifth regular or special meeting in a six-month period for which a member of the city council accumulated an unexcused absence, a hearing shall be scheduled on the agenda to allow that member to present evidence to rebut the presumption of his or her having resigned from office.

---

[7] **Sec. 1.02.046. Orientation for new members; keeping council members informed.** Citation is corrected and completed as shown.

Unedited First Draft

(2) The city secretary shall send notice by certified mail to the council member who is presumed to have resigned, no less than five days prior to the meeting at which the hearing is scheduled, informing him or her of the hearing and that he or she shall have the opportunity to present evidence to rebut the presumption of his or her having resigned from office.

(3) The hearing may be continued or postponed no more than one time until the next regular city council meeting.

(4) Following the hearing, the council shall determine, by majority vote of those council members attending and voting, whether the evidence presented at the hearing has satisfactorily rebutted the presumption of resignation.

(5) Should the council vote that the presumption is rebutted, it may also specify which absences, if any, remain unexcused.

(6) Should the council vote that the presumption has not been rebutted, the office occupied by such resigned council member shall be vacant and may be filled in the manner provided by the charter.

(Code 1996, § 1.02.008; Ord. No. 830-06, 11/6/06)

Sec. 1.02.007. Suspension of councilmember for felony indictment or charge.

(a) *Suspension.* When any member of the city council shall be indicted, arrested for, or otherwise officially charged with a felony offense under state or federal law by a law enforcement agency of the state or federal government, the council may, by vote of two-thirds of the remaining members, suspend such member until such time as the felony indictment or charge is resolved by conviction, acquittal, dismissal, or other final action of a court of competent jurisdiction or law enforcement agency. The office of such member shall not be vacant during the pendency of the felony matter, but the member shall not be allowed to officially occupy the same, to vote on, or to otherwise participate in any matter of city business. If the city council votes to suspend a member under this section:

(1) It may vote in the same manner to request that the affected member of the city council voluntarily resign from his or her office; and

(2) The city secretary shall notify the affected council member by certified mail, return receipt requested, of such action and the effect thereof and, if the city council also voted to request that the member resign, the city secretary shall include such request and specify that a written response thereto be provided to the city within ten days of receipt of the certified mail notice to the council member.

(b) *Dismissal, acquittal, and similar resolutions.* In the event the felony indictment or charge is dismissed, the member is acquitted, or the matter is otherwise finally resolved in any manner except by conviction, plea of guilty or plea of nolo contendere, the member shall be fully reinstated to his or her office on the council.

(c) *Plea of guilty or nolo contendere or conviction.* In the event the member pleads guilty or nolo contendere, or is convicted of the felony charge, such member shall immediately forfeit his or her office as provided in section 2.03 of the city charter, and such office shall be vacant.

(Code 1996, § 1.02.007; Ord. No. 826-06, 9/18/06)

Unedited First Draft

Sec. 1.02.046. Authority of council to initiate investigations.

The council shall have the authority to initiate investigations into any city business, and councilmembers may make inquiries into items and issues before council in accordance with law and the charter.
(Code 1996, § 1.02.046; Ord. No. O-27-12, 2/19/13)

Sec. 1.02.047. Public notices, disclosures, and records; investigation of officers and employees.[8]

(a) *Conference calls; polling of members.* Members of the council and mayor should avoid conference call meetings not posted in accordance with V.T.C.A., Government Code, §§ 551.001 et seq. ~~Texas Open Meetings Act~~ and shall not poll its members regarding matters of public concern.

(b) *Providing public records; fees.* Upon a written request of a citizen, public records shall be copied and distributed according to the state law. Fees will be charged in accordance with the fee schedule promulgated by the general services commission. A form will be provided at the city office.

(c) *Internal investigations.* Council is required to investigate allegations of ethical wrongdoing by employees or officers only when such an allegation is not the responsibility of the city manager or is an allegation involving the city manager.
(Code 1996, §§ 1.02.06, 1.02.047; Ord. No. O-27-12, 2/19/13)

Sec. 1.02.009. Reimbursement of council member expenditures and expenses.

(a) *Generally.* The mayor and members of the city council shall be entitled to be reimbursed, from funds available and budgeted as the councilmember travel and training fund, for expenditures as allowed in this section which are made on behalf of the city and incurred in the performance of their duties. Compliance with the procedure provided in this section shall be considered approval by the city council for purposes of section 2.01 of the city charter.

(b) *Types of reimbursable expenditures.* Reimbursable expenditures, when made on behalf of the city and incurred in the performance of official duties, and supported by proper documentation shall include:

(1) Items within the traditional scope of supplies, equipment, and consumables utilized and furnished by the city for use or consumption by city officers or employees, including office supplies;

(2) Refreshments for official city functions or meetings;

(3) Gasoline for vehicles transporting multiple city representatives;

(4) Registration at training seminars or other city-related functions for multiple persons;

(5) Meals attended by multiple city representatives or guests;

(6) Repairs of city-owned vehicles or equipment;

---

[8] **Sec. 1.02.047. Public notices, disclosures, and records; investigation of officers and employees.** Citation is corrected and completed as shown.

Unedited First Draft

(7) Mileage incurred for performance of official duties, at the current federal reimbursement rate, for the most direct route to/from the place of residence or employment, measured as accurately as possible (e.g. using an odometer);

(8) Costs of taxi, bus, or light rail incurred in the performance of official duties, on the most direct route to/from places of residence or employment;

(9) Parking costs incurred to attend city functions;

(10) Tuition or registration for city-related seminars, training, and conferences such as TML or Council of Government sessions;

(11) Meals if travel to or from a meeting takes more than one hour and occurs over a normal meal period and a meal has not been provided for a city function;

(12) Breakfast reimbursement if the individual is away from home or work overnight or departs for a city function or meeting before 6:00 a.m.;

(13) Dinner reimbursement if the individual is away from home or work overnight or is traveling to or from a city function other than regular or special council meetings (including workshops) until after 7: 00 p.m.;

(14) Lunch if the individual is over 35 miles from the city on city business that extends over the normal meal period not to exceed the maximum rate allowed as a per diem rate under current Internal Revenue Service regulations and provided that receipts are submitted for all reimbursements exceeding the per diem;

(15) Lodging, if the individuals is required to travel more than two hours one way to attend a city-related meeting or function if the individual is required to leave home before 6:00 a.m. in order to arrive on time for the meeting or if the individual is required to be on the road after 8:00 p.m. in order to arrive home from a meeting, provide that reimbursement is limited to the maximum rate allowed as a per diem rate under current Internal Revenue guidelines;

(16) Access to a city-paid cellular telephone and city-issued laptop computer but only for the mayor and city council members; and

(17) Other expenditures not listed in this subsection that are preapproved in writing by the city manager or a majority of the city council.

(c) *Expenses that are not reimbursable.* Expenditures that will not be reimbursed by the city include, but are not limited to, the following:

(1) Alcoholic beverages;

(2) Personal entertainment costs such as movie tickets, sports event admission, and night club shows;

(3) Expenses of a spouse or other family member of the mayor or councilmember; and

Unedited First Draft

(4) Expenses related to an event sponsored by one or a group of individual councilmembers, including the mayor, but less than the full council.

(d) *Reimbursement form; receipts required.* Expense reimbursement forms are available from the finance director and shall be completed and signed by the mayor or councilmember seeking reimbursement. Receipts for all costs incurred except mileage, bus/light rail fare, and meter parking shall be submitted with the completed form and shall be submitted to the finance director within 30 days of the expenditure for which reimbursement is sought.

(e) *Approval; time for payment.* Reimbursement, if approved, shall occur no more than 30 days after the completed forms and receipts are received by the finance director.

(f) *Denial of reimbursement; review by city manager or city council.* Any request for reimbursement that is denied by the finance director or which is not included above may be submitted to the city manager or the city council for review. A decision by the majority of the city council that an expenditure may not be reimbursed shall be final.

(g) *Exemption for annual state of the city address.* Expenditures associated with the mayor's annual state of the city address shall be paid or reimbursed from city funds and shall be exempt from the requirements of this section.
(Code 1996, § 1.02.009; Or. No. O-25-10, 9/20/10; Ord. No. O-17-22, 10/18/2022)

DIVISION 2. MEETINGS

Sec. 1.02.041. Duties of mayor.

The mayor shall preside over the meetings of the city council, shall preserve order and decorum, speak upon all questions, and may vote but shall have no veto power.
(Code 1996, § 1.02.041; Ord. No. O-27-12, 2/19/13)

Sec. 1.02.048. Sergeant-at-arms; code of conduct for public attendees.

(a) The police chief shall act as sergeant-at-arms. In the absence of the police chief the presiding officer of a majority of the council shall appoint a person to act as sergeant-at-arms for that meeting. The city manager shall furnish whatever assistance is needed to enforce the rules of the city council.

(b) A copy of the code of conduct relative to citizens and other visitors shall be available to the public at all open meetings of the city council and shall provide the requisite notice and requirements of the code of conduct.
(Code 1996, § 1.02.048; Ord. No. O-27-12, 2/19/13)

Sec. 1.02.003. Meeting schedule; call of meetings; procedure.[9]

(a) The city council shall hold two regular meetings each month, except for the month of December,

[9] **Sec. 1.02.003. Meeting schedule; call of meetings; meeting procedure.** Sections are combined as indicated in history note and duplicative text eliminated. Also, state law citation is correct and completed as shown.

Unedited First Draft

and may hold as many special meetings as may be necessary to conduct city business. ~~Regular meetings. The city council shall hold at least two regular meetings in each month at a time to be designated by ordinance or resolution as provided for in the section 2.10 of the city charter.~~

(b) Special meetings may be called by the mayor upon written notice. Special meetings can also be requested through the mayor by the city manager. Notice of special meetings shall be given by the city secretary personally to each member of the council including the mayor and the city manager, by notice left at such person's residence or voice mail message when possible. The time, place, and purpose of such meetings shall be stated in each instance in accordance with law.

(c) The regular meetings of the city council shall be held on the first and third Tuesdays of each month at 7:00 p.m. in the city hall, unless otherwise authorized by the city council. Each such regular meeting shall adjourn no later than 10:00 p.m. unless a motion is approved by a two-thirds vote of the councilmembers in attendance to extend the time for adjournment to a later time. Such motion shall be made before 10:00 p.m. or as soon thereafter as practicable. If no such motion has been made by 10:00 p.m., the city secretary shall inform the council when that hour arrives and a motion to either adjourn or to extend the meeting to a time certain shall be in order. If extended, the time for adjournment may be further extended by the same procedure before, at, or as soon as practicable after such time certain.

(d) On the motion of the mayor, or on the application of at least three councilmembers, a special meeting may be called by notice to each member of the city council, the city secretary, and the city attorney with notice provided to the official email address of those officials.

(e) Notice of all meetings shall be posted in accordance with the requirements of V.T.C.A., Government Code, §§ 551.001 et seq. regarding open meetings ~~Texas Open Meetings Law~~.

(f) The procedure at all meetings of the city council shall be in accordance with the provisions of the latest edition of Robert's Rules of Order.
(Code 1996, §§ 1.02.003, 1.02.043; Ord. No. O-27-12, 2/19/13; Ord. No. O-16-21, 2/1/2022)

Sec. 1.02.045. Council to determine rule of procedure; compel attendance of members.

The city council shall determine its own rules of procedure and may compel the attendance of its members.
(Code 1996, § 1.02.045; Ord. No. O-27-12, 2/19/13 ; Ord. No. O-08-22, 7/19/2022)

Sec. 1.02.044. Meeting agenda.

(a) The mayor, in conjunction with the city manager, shall establish the agenda for each council meeting.

(b) Any councilmember desiring a particular item to be placed on the council agenda shall contact the city manager or city secretary on or before 1:00 p.m. on Wednesday of the week preceding regular council meetings, who shall forward the request to the mayor and the mayor shall place the item on the next agenda. The councilmember requesting the agenda item shall be responsible for the agenda briefing or presentation of the item at the meeting. Any staff assistance should be requested through the city manager's office. Completed agenda items must reach the city secretary's office at city hall by 1:00 p.m., Wednesday, of the week preceding regular council meetings.

(c) Any resident of the city or any member of the city staff may request, in writing, that an item be

Unedited First Draft

placed on the council agenda by submitting a request to the city manager. In such cases, the mayor and city council shall be notified of the request and the mayor and city manager shall determine whether to place the item on the agenda.

(d) Once an item is placed on an agenda which has been posted, it may only be removed prior to the 72-hour deadline for posting of the agenda and with permission of the person who requested the item, or by action of the council at the meeting for which the item is posted.

(e) Upon objection by any councilmember, any matter on the agenda shall be considered out of its regular order only upon a two-thirds vote of the members present.
(Code 1996, §§ 1.02.044, 1.02.045(3); Ord. No. O-27-12, 2/19/13)

Sec. 1.02.045(5). Parliamentary rules.

(a) Robert's Rules of Order shall be followed to the fullest extent possible for the purpose of conducting orderly meetings. The city attorney and city secretary shall be familiar with Robert's Rules of Order and shall serve as parliamentarian.

(b) In the event a parliamentarian is not present at a meeting or cannot be reached by telephone, electronic mail or other reasonable means, or in the event that attempting to contact a parliamentarian will result in unnecessary delay, the mayor shall decide all questions of order unless a majority of council votes to decide such a question in an alternative, reasonable manner.

(c) Robert's Rules of Order shall not be used for the purpose of delay, intimidation, thwarting the will of the council, or to make ineffective a lawful vote of the council.
(Code 1996, § 1.02.045(5); Ord. No. O-27-12, 2/19/13 ; Ord. No. O-08-22, 7/19/2022)

Sec. 1.02.045. Procedural constraints and rules of decorum for mayor and city council members.

(a) Each councilmember shall, while the council is in session, occupy his or her assigned seat. Members away from their seats shall not be allowed to speak or vote on any matter before the council by telephone, electronic mail or other means of communication without council approval.

(b) During city council meetings, the mayor and city council members shall assist in preserving order and decorum and shall neither by conversation or otherwise delay or interrupt the proceedings nor refuse to obey the orders of the presiding officer or the rules of the city council.

(c) Each councilmember may speak at any time with respect and courtesy to other members, visitors, and the mayor. The mayor shall ensure that all councilmembers desiring to speak may do so, including him/her. If the mayor is in debate with another councilmember, the mayor shall restrain his or her prerogative so as not to limit a response from the other member.

(d) A city council member desiring to speak shall address the chair by hand or voice signal, and upon recognition by the presiding officer, shall confine discussion to the question under debate, avoid discussion of personalities and indecorous language, and shall refrain from personal attacks and verbal abuse. The presiding officer shall recognize each member desiring to speak, in the order of request, unless a member's comments have become disruptive, confrontational, or disorderly.

(e) A city council member desiring to question a member or members of city staff shall address questions to the city manager, who shall be entitled either to answer the inquiries or to designate some

Unedited First Draft

member of city staff for that purpose. The mayor and city council member shall not berate nor admonish staff members in open session.

(f) A city council member, once recognized, shall not be interrupted while speaking unless called to order by the presiding officer, a point of order is raised by another member, or unless the speaker chooses to yield to questions from another member. If a city council member is called to order while speaking, that member shall cease speaking immediately until the question of order is determined. If ruled to be in order, the member shall be permitted to proceed. If ruled to be not in order, the member shall remain silent or make additional remarks only for the purpose of complying with rules of the city council.

(g) If a member in debate transgresses the rules, the mayor shall, or any member may, call him/ her to order. Should the mayor fail to do so, a majority vote of the remainder of the council shall require him/her to enforce the procedures.

(h) Members of the city council shall wear appropriate business attire at meetings of the city council and shall avoid wearing clothing and accessories that would detract from the professional image of the city. To the end, the following restrictions shall apply:

(1) The city council has a business casual dress code and within that dress code, councilmembers are expected to project a professional image to citizens and city partners. Clothing that is appropriate for the beach, yard work, exercise sessions, and sports contests may not be appropriate business casual attire.

(2) Clothing should be pressed and never wrinkled. Torn, dirty, or frayed clothing is unacceptable. All seams must be finished.

(3) Any clothing that has words, terms or pictures that may be offensive to others is unacceptable. Clothing that displays the city logo is encouraged.

(4) Reasonable accommodations for clothing necessitated by medical conditions and for religious or ethnic clothing will be made consistent with the business necessity to present a professional appearance to the public.

(Code 1996, § 1.02.045(1); Ord. No. O-27-12, 2/19/13 ; Ord. No. O-08-22, 7/19/2022)

Sec. 1.02.045(4). Voting.

The ayes and nays may be demanded on any question, by any member, and in all cases of calling the ayes and nays, every member may vote unless abstention is required by law.
(Code 1996, § 1.02.045(4); Ord. No. O-27-12, 2/19/13 ; Ord. No. O-08-22, 7/19/2022)

Sec. 1.02.045. Citizens and other visitor participation in meetings.

(a) Citizens and other visitors are welcome to attend all public meetings of the city council and will be admitted to the city council chamber or other room in which the city council is meeting in open session up to the fire safety capacity of the room.

(b) Any person desiring to address the council during a regular, special or workshop meeting shall fill out a visitor's card, provided by the city, prior to the meeting. The card shall contain, at a minimum, the person's name, address, and the topic on which he or she wishes to speak. Visitors shall give their completed sheets to the city secretary prior to the convening of the meeting. Cards shall not be accepted

Unedited First Draft

after the meeting has convened unless invited or approved by the mayor or a majority of the council. Visitors shall observe the rules of decorum and courtesy and shall speak only upon recognition of the mayor.

(c) Public comment shall be allowed regarding subjects on the agenda or not on the agenda. No formal action shall be taken on any issue not listed on the agenda. The mayor or a majority of the city council may set a uniform speaking time limit per speaker. The speakers will be called in the order in which their visitor's cards are received.

(d) No one except councilmembers and officers and employees of the city in the discharge of their official duties shall be permitted to participate in the deliberations of the council concerning agenda items. Members of the public may not participate in deliberations of the council regarding items on the agenda or during a council workshop meeting unless invited to do so.

(e) Members of the public may not address or be present during any executive session unless such presence is allowed by law and the person is invited to be present by the mayor or majority of the council.

(f) Public hearings may be held as determined by the mayor or as required by the laws of the state. Citizens shall be given the opportunity to speak for or against an item after being recognized by the mayor in accordance with the procedures outlined above.

(g) Everyone attending the meeting will refrain from private conversations while the city council is in session.

(h) Citizens and other visitors attending city council meetings shall observe the same rules of propriety; decorum and good conduct applicable to members of the city council. Any person making personal, impertinent, profane or slanderous remarks or who becomes boisterous while addressing the city council or while attending the city council meeting shall be removed from the room if the sergeant-at-arms is so directed by the presiding officer, and the person shall be barred from further audience before the city council during that session of the city council. If the presiding officer fails to act, any member of the city council may move to require enforcement of the rules, and the affirmative vote of a majority of the city council shall require the presiding officer to act.

(i) Unauthorized remarks from the audience, stamping of feet, whistles, yells, and similar demonstrations shall not be permitted by the presiding officer who may direct the sergeant- at-arms to remove offenders from the room. Aggravated cases shall be prosecuted on appropriate complaint signed by the presiding officer. If the presiding officer fails to act, any member of the city council may move to require enforcement of the rules, and the affirmative vote of the majority of the city council shall require the presiding officer to act.

(j) No cards, banners, or signs shall be permitted in the city council chamber or in any other room in which the city council is meeting. Exhibits, displays, and visual aids used in connection with presentations to the city council, however, are permitted.

(k) Citizens and other visitors attending city council meetings shall not bring food or drink into the city council chamber or into any room in which the city council is meeting.
(Code 1996, § 1.02.045(2)(K); Ord. No. O-27-12, 2/19/13 ; Ord. No. O-08-22, 7/19/2022)

ARTICLE III. OFFICERS AND EMPLOYEES

Unedited First Draft

DIVISION 1. GENERALLY

Sec. 9.02.001. City manager authority regarding personnel management.

The city manager is authorized to hire, fire, promote, demote, or transfer employees of the city, except as otherwise provided by the city charter and except as he may authorize. The head of a department to appoint and remove subordinates in such department.
(Code 1996, § 9.02.001)

Sec. 9.02.002. City council authority to make inquiries regarding city offices and personnel.

(a) In accordance with section 5.04 of the city charter, the city council shall have the power to inquire into the conduct of any office, department, agency, officer, or employee of the city and to make investigation as to municipal affairs. For that purpose, the council may subpoena witnesses, administer oaths, and compel the production of books, papers, and other evidence.

(b) Any person who shall fail to obey such subpoena or who shall fail to produce such books, papers or other evidence shall be guilty of a misdemeanor.
(Code 1996, § 9.02.002)

Sec. 9.03.001. Organizational chart.

The city council has established an organizational chart as maintained on file in the office of the city secretary for the officers, officials and employees of the city. The various positions for officers and employees of the city, as shown on the organizational chart, have been approved by the city council.
(Code 1996, § 9.03.001)

Sec. 9.09. Personnel policy manual adopted.

That certain manual adopted and approved by the city council and entitled “City of Glenn Heights, Personnel Policies Manual” dated June 2010, as amended, shall be the official policy of the city with regard to personnel administration. A copy of the manual is on file in the office of the city secretary who shall maintain the manual and keep it up to date.
(Code 1996, art. 9.09; Ord. No. O-06-10, 6/7/10)

Sec. 9.10. State municipal retirement system ordinances saved from repeal.

The ordinances of the city regarding participation in the Texas Municipal Retirement System (TMRS) have not been included in this Code but are hereby specifically saved from repeal and shall be maintained on file in the office of the city secretary.
(Code 1996, art. 9.10)

Sec. 9.14.001. City retiree health benefits.

(a) *Availability*. The city offers health and dental insurance to retirees subject to the terms and conditions described in this section.

(b) *Administration of benefits; costs of coverage.* A retiree receiving medical and dental insurance benefits is subject to all rules and procedures of the city’s insurance carrier, as such carrier may change from time to time. The retiree shall also be responsible for any out-of-pocket payments, co-pay fees and

Unedited First Draft

required employee contribution to costs of coverage for the retiree and the retiree's dependents, if any. A retiree shall communicate directly with the carrier or health care provider regarding question of coverage and benefits.

(c) *Coverage restricted to those existing at retirement.* A retiree is eligible to continue to receive city insurance, at retiree's cost, only those types of insurance coverage that are offered at the time of retirement. If at any time following the retirement of a city employee the city provides additional types of health insurance coverage that is different from the health insurance benefits offered at the employee's retirement, the retiree shall not be eligible for the additional benefits.
(Code 1996, §§ 9.14.001, 9.14.004; Ord. No. 764-03, 11/3/03)

DIVISION 2. CITY MANAGER

Sec. 9.04.001. Conditions of employment.

(a) *Surety bond required.* The city manager shall furnish such surety bond as may be required by the city council, by ordinances, with the premiums to be paid by the city.

(b) *Contract of employment required.* The city manager shall enter into a written contract of employment which has been approved by a majority of the city council, and which shall be signed by each member, the mayor and attested by the city secretary.

(c) *Term of employment; suspension and removal.* The city manager shall not be appointed for a definite term and may be removed at the will and pleasure of the city council by a vote of the majority of the entire city council. The action by the city council in suspending or removing the city manager shall be final.

(d) *Absence from office or disability.* In case of absence or disability of the city manager, the city council may designate some qualified person to perform the duties of the office during such absence or disability.

(e) *Compensation.* The city manager shall receive compensation as fixed by the city council from time to time.
(Code 1996, § 9.04.001)

Sec. #. Exclusive authority of city manager for administrative service; exception.

Except for the purpose of inquiry, the mayor and city council and its members shall deal with the administrative service solely through the city manager, and neither the mayor, city council, or any member thereof shall give orders to any of the subordinates of the city manager, either publicly or privately, except during a state of emergency as formally declared by the mayor in accordance with state law
(Code 1996, § 9.04.001)

Sec. 9.04.002. Powers and duties generally.[10]

[10] **Sec. 9.04.002. Powers and duties generally.** Text duplicative of prior section is stricken as shown.

Unedited First Draft

(a) *Responsibility for administration of city affairs.* The city manager shall be the administrative head of the municipal government and shall be responsible to the mayor and city council for the administration of the affairs of the city.

(b) *Department head appointment and discharge.* The city manager shall have the authority to appoint and to discharge heads of all departments except the city attorney and city judge.

(c) *Personal management.* The city manager shall have the authority to hire and discharge all other employees authorized by the council to be hired, at such compensation as may be set or authorized by the city council provided, however, that the city manager may authorize the head of a department to hire and discharge subordinates in his department. All such employees shall perform their duties subject to the direction of the city manager or that of the superior to whom the city manager may assign such employee. ~~It is unlawful for the mayor, the city council, or any of its members to attempt to dictate the appointment, hiring, or firing, of any person to the positions in subsections (1) and (2) of this section subject to the power of the council to confirm appointments as herein provided.~~

(d) *Recommendations for legislation.* The city manager shall recommend to the city council for adoption such measures as he may deem necessary or expedient.

(e) *Attendance at council meetings.* The city manager shall attend all meetings of the city council with the right to take part in the discussion but having no vote.

(f) *Act as budget officer.* The city manager shall act as budget officer and shall prepare, or cause to be prepared, the annual budget to be submitted to the city council for adoption in accordance with state statute. He shall be responsible for its administration after adoption by the city council.

(g) *Quarterly report to city council.* On a quarterly basis, the city manager shall make a full report to the city council showing the operations and expenditures for each department and shall keep the city council fully advised at all times as to the financial condition and needs of the city.

(h) *Recommending employee compensation.* The city manager shall recommend to the city council the salaries, and adoption of a schedule governing compensation for all employees of the city. It shall be the duty of the city council to pass ordinances and resolutions from time to time fixing these rates of compensation. The mayor or individual city councilmembers shall not attempt to dictate such recommendations but act thereon in approving and disapproving.

(i) *Revising job descriptions and position classifications.* The city manager is expressly delegated the authority to make revisions, amendments, and other changes to any and all job descriptions contained in the city's position classification plan that, in the city's manager's professional judgment, are in the best interests of the city. The city manager is not, however, authorized to make changes to the city's payroll classification schedule without council approval.

(j) *Other duties.* The city manager shall perform such other duties as may be provided in this division or prescribed by the city council from time to time.
(Code 1996, § 9.04.002; Ord. No. 776-04, 6-7-2004; Ord No. O-09-22, 8/16/2022)

DIVISION 3. OTHER OFFICERS

Unedited First Draft

Sec. 9.12.001. Health officer.[11]

(a) *Office established; appointment by city manager; compensation.* The city has established the office of city health officer. The city health officer shall be appointed by the city manager. The city health officer shall receive such compensation as may be fixed by the city council.

(b) *Qualifications.* The city health officer shall be a duly licensed medical doctor authorized to practice medicine in the state and be well trained in the science of preventative medicine. The city health officer shall qualify by taking the oath of office prescribed by the state constitution, a copy of which shall be filed by the city secretary with the state board of health.

(c) *State board of health rules and regulations applicable.* The city health officer shall act under and be governed by the rules and regulations prescribed by the state board of health

(d) *Authority to establish additional local rules and regulations.* The city health officer shall have the power to establish such rules and regulations as he may think needful for the health and welfare of the citizens of this city, and shall investigate all conditions within the city limits from which communicable diseases may arise, and with the utmost care and diligence shall study such diseases and disorders; and shall institute and direct such measures as may be necessary to eradicate and destroy such conditions wherever found in the city.

(e) *Duties generally.* The city health officer shall perform such duties as are required by V.T.C.A., Health and Safety Code , § 121.024(c) ~~article 4430, Vernon's Texas Civil Statutes,~~ and other duties as prescribed by state law or the city council.

(f) *Police to assist with enforcement.* When it may be necessary to use any force to secure the observation and execution of any rules, regulations, or order issued by the health officer, under authority of this article, it shall be the duty of the police chief to detail the necessary men and execute the same upon the requisition made by the health officer and approved by the city manager.
(Code 1996, §§ 9.12.001—9.12.008)

DIVISION 4. INDEMNIFICATION AND DEFENSE

Sec. 1.24.001. Definitions.[12]

The following words, terms and phrases, when used in this division, shall have the meanings ascribed to them in this section, except where the context clearly indicates a different meaning:

Employee includes any current or former full-time, part-time, permanent, or temporary employee of the city but does not include independent contractors or the employees of contractors.

Officer includes any person currently or formerly elected or appointed to be a member of any official body of the city, including the city council and boards, commissions, and committees authorized and created under the city's Charter or this Code.

---

[11] **Sec. 9.12.001. Health officer.** This position is referred to as "health authority" in V.T.C.A., Health and Safety Code, § 121.028. Also, cite is corrected and completed as shown.

[12] **Sec. 1.24.001. Definitions.** A standardized introduction is substituted for consistency.

Unedited First Draft

(Code 1996, § 1.24.001; Ord. No. O-05-22, 5/3/2022)

Sec. 1.24.002. Indemnification and defense of city officers and employees.

(a) The city shall provide indemnification and defense of the officers and employees of the city against any loss, cost, or expense, including court costs and attorney's fees, to the extent allowed by law, arising out of any claim, suit, judgment, or settlement thereof, resulting from any alleged act or omission of such officer or employee during the discharge of his duties and within the course and scope of his office or employment with the city, or in any other case where the city is directed or authorized by law to do so.

(b) Such indemnification and defense will not be provided for any act ultimately determined by final judgment to have arisen out of the intentional or knowing violation of any penal statute or ordinance or to have arisen out of any conduct determined by final judgment to be an act of fraud or to have been taken with the intent to deceive or defraud, or for any personal or private business of such officer or employee or for the gross negligence or official misconduct, or willful or wrongful act or omission, of such officer or employee.

(c) In accordance with this section, the city shall pay actual damages awarded against an employee or officer of the city if the damages result from an act or omission of the employee or officer in the course and scope of his employment for the city and payment is not otherwise prohibited by this article or by law. The city shall also pay the court costs and attorney's fees awarded against such officer or employee in such cause of action.

(d) The city may not pay damages awarded against an employee or officer that arise from a cause of action for official misconduct or involve a willful or wrongful act or omission or an act or omission constituting gross negligence or to the extent otherwise disallowed by this section. The city may not pay damages awarded against an employee or officer to the extent that the damages are recoverable under an insurance contract owned by the city, including coverage through a municipal risk pool.

(e) The city shall provide legal counsel to represent any employee or officer entitled to protection under this section. The counsel provided shall be the city attorney, unless there is a potential conflict of interest between the city and the officer or employee, in which case the city shall employ other legal counsel to defend the officer or employee.
(Code 1996, § 1.24.002; Ord. No. O-05-22, 5/3/2022)

Sec. 1.24.003. Requirements for indemnification.

To be entitled to indemnification by the city under the provisions of this section, the officer or employee shall notify the city manager in writing as soon as practicable after receipt of written notice of any claim or suit, or, in the case of a claim or suit against the city manager, he shall notify the city council in writing as soon as practicable after receipt of written notice of the claim or suit. Such officer or employee shall:

(1) Cooperate in the investigation, defense, negotiation, or settlement of any claim or suit.

(2) Attend any hearing or trial held in connection with such claim or suit and assist in securing and giving evidence and obtaining the attendance of witnesses.

(3) Not give any oral or written statement or enter into any stipulation or agreement concerning a claim or suit except upon the advice of the city attorney or other defense counsel provided in

Unedited First Draft

accordance with the provisions of this section or when questioned by a police officer at the scene of an accident.

(4) Not make any voluntary payment or assume any obligation or incur any expense with respect to any claim or suit without the consent of the city manager or, in the case of the city manager, the consent of the city council.

(Code 1996, § 1.24.003; Ord. No. O-05-22, 5/3/2022)

Sec. 1.24.004. Investigation, negotiation, or settlement.

The city may investigate, negotiate or settle any claim or suit against an officer or employee that results from an act for which such officer or employee is entitled to indemnification under the provisions of this section.

(Code 1996, § 1.24.004; Ord. No. O-05-22, 5/3/2022)

Sec. 1.24.005. Notification of carrier.

In the event of any claim or suit against any officer or employee, the insurance carrier for the city, including any municipal risk pool, shall be immediately notified and furnished a copy of any such claim or suit, along with the appropriate documents giving a history of the claim or suit, and a request for provision of coverage and defense.

(Code 1996, § 1.24.005; Ord. No. O-05-22, 5/3/2022)

ARTICLE IV. BOARDS, COMMISSIONS, COMMITTEES AND SIMILAR BODIES

DIVISION 1. GENERALLY

Sec. 9.11.001. Established; composition; member appointment, terms, and compensation.[13]

Sec. 1.20.001. Application process for members of boards, commissions and committees.

(a) All applicants must complete an application for city board, commission and committee appointment. The application must be completed and submitted to the city manager by the appropriate deadline.

(b) The city council shall review the applications for board, commission and committee appointments, and may conduct applicant interviews.

(c) Any appointed member of a board, commission or committee may submit an application for appointment to a different board, commission or committee without forfeiting membership as a member of the initial board, commission or committee. However, acceptance of a position as a member of a new board, commission or committee shall result in automatic resignation of any previously held board, commission or committee membership.

(Code 1996, § 1.20.001; Ord. No. O-857-07, 10/1/07)

---

[13] **Sec. 9.11.001. Established; composition; member appointment, terms, and compensation.** Unnecessary text is stricken as shown.

Unedited First Draft

Sec. 1.20.002. Appointment and removal of members.[14]

(a) Boards and commission members are appointed by the city council and may be removed at any time, with or without cause, by a simple majority vote of the full council either upon its own motion or upon the formal recommendation from the board or commission.

(b) Any member of a board, commission or committee may be removed by the city council on the grounds of incompetence, corruption, misconduct, malfeasance in office, ineffectiveness or causing embarrassment to the city after being provided with written notice and an opportunity for a requested hearing. The request for a hearing must be filed within ten days of receipt of the written notice or the hearing shall be considered to be waived.
(Code 1996, §§ 1.20.002, 1.20.035(1)(A); Ord. No. O-857-07, 10/1/07; Ord. No. O-28-10, 12/6/10)

Sec. 1.20.031. Election and duties of the board or commission chair.

(a) The chair of the appointed board or commission shall be elected from among the body appointed by the city council, and said election shall be held at the first meeting after the annual appointment of the members of any board or commission or upon the appointment of the vacancy of the chair position, after the new appointees are sworn in, or as soon thereafter as is practicable.

(b) The chair shall preside over the meetings of said board or commission, shall preserve order and decorum, may speak on all questions and may vote, but shall have no veto power. It shall be the responsibility of the chair at each meeting to ensure that the board or commission deliberates and takes action only upon the matters that are posted on the agenda for that meeting.
(Code 1996, § 1.20.031; Ord. No. O-28-10, 12/6/10)

Sec. 1.20.032. Election and duties of board or commission vice-chair.

At the first meeting after the annual appointment of members of any board or commission and all newly appointed members are sworn in, or as soon thereafter as is practicable, the board or commission shall elect a vice-chair from among its members. The vice-chair shall act in the absence, illness, or failure or refusal of the chair to act.
(Code 1996, § 1.20.032; Ord. No. O-28-10, 12/6/10)

Sec. 1.20.036. Orientation for new members by city manager.

The city manager is responsible for seeing that all newly appointed board or commission members are provided with an orientation on municipal facilities, staff procedures and other information of interest to municipal officials. Additionally, board and commission members shall be fully informed of all public expectations and responsibilities of the position they have been appointed to and subsequently accepted.
(Code 1996, § 1.20.036(a); Ord. No. O-28-10, 12/6/10)

Sec. 1.20.036. Chair to inform members of pending issues.[15]

---

[14] **Sec. 1.20.002. Appointment and removal of members.** Text regarding removal is brought together in this section as indicated in the history note. Since removal with cause is authorized in (a) is (b) needed at all? Strike?

[15] **Sec. 1.20.036. Chair to inform members of pending issues.** Citation is corrected and shown.

Unedited First Draft

The chair is responsible for informing all board or commission members of any and all issues related to that board or commission's city business, provided that doing so is accomplished in compliance with the requirements of V.T.C.A., Government Code, §§ 551.001 et seq.
(Code 1996, § 1.20.036; Ord. No. O-28-10, 12/6/10)

Sec. 1.20.035. Authority to promulgate rules and compel attendance of members.

The board or commission may determine its own rules of procedure and may compel the attendance of its members.
(Code 1996, § 1.20.035; Ord. No. O-28-10, 12/6/10)

Sec. 1.20.038. Sergeant at arms; preservation of order and decorum.

If present, the police chief or his or her designee shall act as sergeant-at-arms. In the absence of the police chief or a designee, the chair or a majority of the board or commission, may rely on the city manager or his or her designee to furnish whatever assistance is needed or may require the police chief or designee to report to the meeting to enforce the rules of decorum of the city.
(Code 1996, § 1.20.038(a); Ord. No. O-28-10, 12/6/10)

Sec. 1.20.033. Types of meetings; schedule; notice.[16]

(a) *Regular meetings.* Regular meetings shall be held as often as business necessitates or as prescribed by the city charter. Executive sessions and public hearings shall be held as needed and as authorized and notice of such meetings shall be given in accordance with law. Regular meetings of the zoning board of adjustment, parks and recreation board, and any other duly appointed board or commission shall be held as prescribed by this article.

(b) *Special meetings*. Special meetings may be requested through the city manager or his or her designee. Notice of special meetings shall be given by the city secretary personally to each member of the board or commission, respectively, by notice left at such person's residence, voice mail or email message when possible. The time, place, and purpose of such meetings shall be stated in each instance in accordance with the requirements of V.T.C.A., Government Code, §§ 551.001 et seq. ~~Texas Open Meetings Act and any other applicable law~~.

(c) *Workshop meetings.* Workshop meetings may be requested through the city manager or his or her designee. The purpose of a workshop meeting shall be to discuss in detail, or explore in depth, matters of particular interest to the city or the specific board or commission. The public and staff may not participate in the discussions at a workshop meeting unless invited to do so by the board or commission. No formal action shall be taken at a workshop meeting. The time, place, and purpose of such meetings shall be stated in each instance in accordance with the requirements of V.T.C.A., Government Code, §§ 551.001 et seq. ~~Texas Open Meetings Act and any other applicable law~~.
(Code 1996, § 1.20.033; Ord. No. O-28-10, 12/6/10)

Sec. 1.20.034. Agenda.

---

[16] **Sec. 1.20.033. Types of meetings; schedule; notice.** Citations are corrected and shown.

Unedited First Draft

(a) The city manager or his or her designee shall establish the agenda for each board or commission meeting. The chair shall be apprised of the agenda prior to posting.

(b) Any board or commission member desiring that a particular item be placed on the respective agenda shall contact the city manager or his or her designee or city secretary on or before 1:00 p.m. on Monday of the week preceding the scheduled meeting. The board or commission member requesting the agenda item shall be responsible for the agenda briefing or presentation of the item at the meeting. Any staff assistance should be requested through the city manager or his or her designee. Completed agenda items must reach the city manager or his or her designee's office by Monday at 1:00 p.m. of the week preceding the scheduled meeting in order to ensure proper review time. The final documents shall be submitted to the city secretary's office at city hall by 1:00 p.m., Wednesday, of the week preceding the scheduled meeting.

(c) Any resident of the city or any member of the city staff may request, in writing, that an item be placed on a board or commission agenda, with the exception of the zoning board of adjustment, by submitting a request to the city manager or his or her designee. The city manager or his or her designee shall determine whether to place the item on the agenda.

(d) Once an item is placed on an agenda which has been posted in compliance with the 72-hour deadline, it may not be removed from the posted agenda but may be pulled at the meeting by the person who requested the item, or by action of the board or commission at the meeting for which the item is posted.

(e) The current agenda format shall remain in force and effect. Upon objection by any board or commission member, any matter on the agenda shall be considered out of its regular order only upon a two-thirds vote of the members present.
(Code 1996, §§ 1.20.034, 1.20.035(3); Ord. No. O-28-10, 12/6/10)

Sec. 1.20.035. Attendance; absences; attendance records and reports.

(a) Members of boards and commissions, including the chair, shall make a good faith effort to attend all regular, workshop and special meetings, and shall, to the extent possible, provide advance notice of at least 12 hours preceding the meeting of an expected absence and request an absence be excused by notifying the city manager or his or her designee of the anticipated absence and the reason therefor.

(b) Attendance may be excused for good cause by a majority of the board or commission. "Good cause" shall be defined as a personal illness, family emergency or a work-related conflict. Documented proof of cause may be required from any member for any absence.

(c) An absence that is not considered to be for cause may include one of individual choice to miss the meeting in lieu of another activity.

(d) Unless provided otherwise in the charter or by enabling ordinance, three consecutive unexcused absences of regular, workshop or special meetings, or four nonconsecutive unexcused absences during a 12-month period shall cause the office held by such member or chair to become vacant.

(e) At such time a member exceeds the maximum permissible number of absences from duly called meetings, whether for good cause or otherwise, the city council shall be advised and the matter placed on an agenda for consideration.

Unedited First Draft

(f) If a member or chair of a board or commission is found by a majority of the board or commission, or by a majority of the city council, to have been intentionally absent for the purpose of affecting or preventing a vote on a particular matter, such intentional absence shall be addressed by the city council at a council meeting and shall be grounds for reprimand, censure, or removal of that member or chair.

(g) The city secretary shall maintain accurate and up-to-date attendance records of all board and commission members. On a quarterly basis the city council shall be provided with the attendance records.

(h) If the city council deems it necessary, written notification from the council shall be forwarded to those members who have been absent for three or more meetings within a six-month period. Members receiving such written notification will be required to make a personal response to the city council to attempt to arrive at an acceptable resolution. If a resolution is not reached, the matter shall be placed on an agenda. At the meeting, the member shall provide information sufficient for a satisfactory resolution or the city council shall remove the member from the appointed position and consider a satisfactory replacement.
(Code 1996, § 1.20.035(7); Ord. No. O-28-10, 12/6/10)

Sec. 1.20.035. Conflicts of interest.

(a) V.T.C.A., Local Government Code, ch. 171, shall govern each board and commission with regard to conflicts of interest. Members and chairs of boards and commissions should seek legal advice before participating in any matter about which he or she may have a conflict of interest and should avoid any appearance of impropriety at all times.

(b) Members and chairs of boards and commissions should not meet with applicants or other persons who have or may have business before the board or commission outside of a public meeting without first informing the city manager or his or her designee and being provided with legal advice on the propriety of such a meeting.
(Code 1996, § 1.20.035(8); Ord. No. O-28-10, 12/6/10)

Sec. 1.20.035. Voting.

The ayes and nays may be demanded from each individual member on any question, by any member, and in all cases of calling the ayes and nays, every member shall vote unless abstention is required by law.
(Code 1996, § 1.20.035(4); Ord. No. O-28-10, 12/6/10)

Sec. 1.20.035. Legal advice and assistance.

(a) If the chair or a majority of a board or commission desires to receive the advice or assistance of the city attorney, the same may be requested through the city manager or his or her designee. Such advice or assistance from the city attorney, if approved by the city manager, may be by attendance at a meeting, either in person or by telephone, video conferencing, or electronic mail, or by written memo, letter, or other document.

(b) A board or commission should follow such legal advice or direction and, before a majority of a board or commission votes to act in a manner contrary to such advice should ascertain whether doing so may subject the city or individual members to liability.
(Code 1996, § 1.20.035(6); Ord. No. O-28-10, 12/6/10)

DIVISION 2. MEMBER PARTICIPATION, RULES OF ORDER, AND DECORUM

Unedited First Draft

Sec. 1.20.035. Parliamentary rules; parliamentarian.[17]

(a) In addition to the rules of procedure provided in this article, Robert's Rules of Order shall be followed to the fullest extent possible for the purpose of conducting orderly meetings. In the event of conflict, the provisions of this article shall be controlling.

(b) The city attorney and city secretary or his or her designee shall be familiar with Robert's Rules of Order and shall serve as parliamentarian. In the event a parliamentarian is not present at a meeting or cannot be reached by telephone, electronic mail or other reasonable means, or in the event that attempting to contact a parliamentarian will result in unnecessary delay, the chair shall decide all questions of order unless a majority of board or commission votes to decide such a question in an alternative, reasonable manner.

(c) Robert's Rules of Order shall not be used for the purpose of delay, intimidation, thwarting the will of the board or commission, or to make ineffective a lawful vote.
(Code 1996, § 1.20.035(5); Ord. No. O-28-10, 12/6/10)

Sec. 1.20.035. Conduct of members.

(a) *Generally.* Members and chairs of boards and commissions should conduct themselves at all times in a manner that reflects positively on the city. During meetings, the chair and board or commission members shall assist in preserving order and decorum and shall neither by conversation nor otherwise delay or interrupt the proceedings nor refuse to obey the orders of the chair or the rules of the city.

(b) *Members to utilize assigned seating.* Each board or commission member shall, while the respective meeting is in session, occupy his or her assigned seat, and if away, shall not be allowed to speak or vote on any matter before the board or commission by telephone, electronic mail or other means of communication.

(c) *Demeaning and disrespectful conduct prohibited.* Neither the chair nor any member of a board or commission shall speak in a demeaning or disrespectful manner about or to any applicant, witness, staff member, or member of the public in attendance at the meeting.

(d) *Members entitled to speak; procedure; constraints.* After recognition by the chair, each board or commission member may speak at any time with respect and courtesy to other members, visitors, and the chair, subject to the following:

(1) The chair shall ensure that all members desiring to speak may do so, including him/her. If the chair is in debate with another board or commission member, the chair shall restrain his or her prerogative so as not to limit a response from the other member.

(2) A board or commission member desiring to speak shall address the chair by hand or voice signal, and upon recognition by the chair, shall confine discussion to the question under debate, avoid discussion of personalities and indecorous language, and shall refrain from personal attacks and verbal abuse.

---

[17] **Sec. 1.20.035. Parliamentary rules; parliamentarian.** Text is adding regarding resolution of conflicting rules. Please confirm.

Unedited First Draft

(3) The chair shall recognize each member desiring to speak, in the order of request, unless a member's comments have become disruptive, confrontational, or disorderly.

(4) A board or commission member desiring to question a member or members of city staff shall address questions to the city manager or his or her designee, who shall be entitled either to answer the inquiries or to designate another member of city staff for that purpose. The board or commission member shall not berate nor admonish staff members in open session.

(5) A board or commission member, once recognized, shall not be interrupted while speaking unless called to order by the chair or a point of order is raised by another member, or unless the speaker chooses to yield to questions from another member. If a board or commission member is called to order while speaking, that member shall cease speaking immediately until the question of order is determined. If ruled to be in order, the member shall be permitted to proceed. If ruled to be not in order, the member shall remain silent or make additional remarks only for the purpose of complying with decorum rules of the city.

(6) If a member in debate transgresses the rules, the chair shall, or any member may, call him/her to order. Should the chair fail to do so, a majority vote of the remainder of the board or commission shall require him/her to enforce the procedures.

(Code 1996, §§ 1.20.035(1), 1.20.035(2)(B—H); Ord. No. O-28-10, 12/6/10)

Sec. 1.20.035. Members addressing a board or commission as a member of the public.[18]

(a) Due to potential violation of the requirements of V.T.C.A., Government Code, §§ 551.001 et seq. ~~Texas Open Meetings Act and any other applicable law~~, members and chairs of boards and commissions are discouraged from leaving the horseshoe or dais for the purpose of addressing the board or commission during a meeting.

(b) A member or chair desiring to exercise his or her right of freedom of speech by addressing a board of commission as a citizen should first advise the city manager or his or her designee of the desire to do so and should provide information on the topic to be discussed in order that the city manager or his or her designee may seek legal advice from the city attorney, if necessary, in order to avoid possible violation of V.T.C.A., Government Code, §§ 551.001 et seq.

(Code 1996, § 1.20.035(9); Ord. No. O-28-10, 12/6/10)

Sec. 1.20.037. Conference call meetings restricted; unauthorized polling of members prohibited.

Members of the board or commission and chair shall avoid conference call meetings not legally posted or other means of circumventing the requirements of V.T.C.A., Government Code, §§ 551.001 et seq., and shall not poll its members regarding matters of public concern.

(Code 1996, § 1.20.037(a); Ord. No. O-28-10, 12/6/10)

DIVISION 3. PUBLIC PARTICIPATION IN MEETINGS

Sec. 1.20.035. Rules of conduct for citizens and visitors.

---

[18] **Sec. 1.20.035. Members addressing a board or commission as a member of the public.** Citations are corrected as shown.

Unedited First Draft

(a) Citizens and other visitors are welcome to attend all public meetings of the board and commissions and will be admitted to the council chambers or other room in which the board or commission is meeting in open session up to the fire safety capacity of the room.

(b) Persons attending the meeting will refrain from private conversations while the meeting is in session.

(c) Citizens and other visitors attending board or commission meetings shall not bring food or drink into the council chamber or into any room in which the board or commission is meeting.

(d) Public comment may be allowed regarding subjects on the agenda or not on the agenda, but no formal action be taken or deliberation of the board or commission conducted on any issue not on the agenda. The chair or a majority of the board or commission may set a uniform speaking time limit per speaker. The speakers will be called in the order their visitor's cards are received. Citizens and visitors shall observe the rules of decorum and courtesy and shall speak only upon recognition of the chair.

(e) At public hearings [19] ~~may be held as determined by the city manager or his or her designee or as required by the laws of the state and~~ citizens shall be given the opportunity to speak for or against an item after being recognized by the chair in accordance with the procedures provided in this article. Members of the public may not address or be present during any executive session unless such presence is allowed by law and the person is invited to be present by the chair or majority of the board or commission.

(f) Any person desiring to address a board or commission during a regular, special or workshop meeting shall fill out a visitor card provided by the city prior to the meeting. The card shall contain, at a minimum, the person's name, address, and the topic on which he or she wishes to speak. Visitors shall give their completed sheets to the city secretary prior to the convening of the meeting. Cards shall not be accepted after the meeting has convened unless invited or approved by a majority of the board or commission.

(g) No one except board or commission members and officers and employees of the city in the discharge of their official duties shall be permitted to participate in the deliberations of the board or commission concerning agenda items. Members of the public may not participate in deliberations of the board of commission regarding items on the agenda or during a workshop meeting unless invited to do so.

(h) Citizens and other visitors attending board or commission meetings shall observe the same rules of propriety, decorum and good conduct applicable to members of the board or commission. Any person making personal, impertinent, profane or slanderous remarks or who becomes boisterous while addressing the board or commission or while attending the meeting shall be removed from the room if the sergeant-at-arms is so directed by the chair, and the person shall be barred from further audience before the board or commission during that session of the board or commission. If the chair fails to act, any member of the board or commission may move to require enforcement of the rules, and the affirmative vote of a majority of the board or commission shall require the chair to act.

(i) Unauthorized remarks from the audience, stamping of feet, whistles, yells, and similar demonstrations shall not be permitted by the chair who may direct the sergeant-at-arms to remove

---

[19] **Sec. 1.20.035. Rules of conduct for citizens and visitors.** Unnecessary and conflicting text is stricken as shown.

Unedited First Draft

offenders from the room. Aggravated cases shall be prosecuted on appropriate complaint signed by the chair. If the chair fails to act, any member of the board or commission may move to require enforcement of the rules, and the affirmative vote of the majority of the board or commission shall require the chair to act.

(j) No cards, banners, or signs shall be permitted in the council chamber or in any other room in which the board or commission is meeting. Exhibits, displays, and visual aids used in connection with presentations, however, are permitted.
(Code 1996, § 1.20.035(2)(A—K); Ord. No. O-28-10, 12/6/10)

Sec. 1.20.035. Copy of rules to be provided to public meeting attendees.

A copy of the conduct restrictions relative to citizens and other visitors shall be available to the public at all open meetings of the boards and commissions and shall provide the requisite notice and requirements of the code of conduct.
(Code 1996, § 1.20.038(b); Ord. No. O-28-10, 12/6/10)

Sec. 1.20.037. Public records requests.

Upon a written request of a citizen, public records shall be copied and distributed according to the state law. Fees will be charged in accordance with the fee schedule promulgated by the general services commission. A form will be provided at the city office.
(Code 1996, § 1.20.037(b); Ord. No. O-28-10, 12/6/10)

DIVISION 4. PARKS AND RECREATION BOARD

Sec. 9.11.001. Established; composition; member appointment, terms, and compensation.[20]

(a) The city has established an advisory board known as the city parks and recreation board consisting of seven citizens of the city serving staggered three-year terms. The members of the board shall be appointed by majority vote of the city council. ~~The initial appointment of the board members by city council shall designate which three members shall serve three years, which two members shall serve two years and which two members shall serve one year. On each succeeding year thereafter, at the end of the term year, the council shall select replacements for the board members whose terms have expired.~~

(b) In addition to the regular members, the city council shall appoint two alternate members who shall serve in the absence of one or more regular members. The alternates shall also serve staggered three-year terms. ~~a term of three years. The initial term of alternate number 1 shall be three years and alternate number 2 shall be two years.~~ In determining who shall serve in the event of an absence, the alternate with the longest tenure shall so serve. If, for any reason, the alternate with the longest tenure cannot serve, the second alternate shall serve.

(c) For purposes of this board, a term year is from July 1 until the following June 30. The terms of the board members and alternate members shall expire on June 30 of the third year. New members shall begin serving at the first regular meeting following the anniversary date or as soon thereafter as practicable.

---

[20] **Sec. 9.11.001. Established; composition; member appointment, terms, and compensation.** Unnecessary text is stricken as shown.

Unedited First Draft

(d) Any individual who is interested in serving on the board shall submit to the city secretary an application to be obtained from city hall. The city council reviews the applications and may interview said applicants. The appointments are made during the public portion of the council meeting.

(e) The application submitted to the city secretary for consideration by the city council shall be completed in its entirety with an affirmation under oath that all information contained therein is true and correct. This information shall be subject to verification and may also be released for other purposes, such as conducting a background check. Any material misinformation contained on the application, as determined by the city council, shall be cause for immediate removal by majority vote of the city council.

(f) Members and alternate members of the board shall serve without compensation.
(Code 1996, §§ 9.11.001, 9.11.002; Ord. No. 770-04, §§ 3, 4, 2/16/04)

Sec. 9.11.003. Member eligibility.

All board members and alternate members shall be qualified voters of the city and shall remain eligible to vote in city elections during their tenure. Members and alternate members shall demonstrate a genuine interest in city parks and the community generally and the ability to work with the public and the time to devote to service.
(Code 1996, § 9.11.003; Ord. No. 770-04, § 5, 2/16/04)

Sec. 9.11.004. Attendance.

(a) A member of the board may not miss more than two consecutive meetings and in no event shall a member miss more than 25% of the regular meetings during a single term year. The chairman shall record the attendance of the board and submit the findings to the city manager.

(b) When, in the opinion of the chairman, or by virtue of the attendance record, a member has not complied with the attendance requirement, the city manager will be notified and he will advise the council of the need to fill a vacancy on said board.

(c) Alternate members are encouraged to, and should, attend all regularly scheduled and special meetings of the board. Alternates shall be given an opportunity to participate in the discussion and ask questions of staff and the applicant. Only seated members have voting privileges.
(Code 1996, § 9.11.004; Ord. No. 770-04, § 6, 2/16/04)

Sec. 9.11.005. Resignation or removal of members; filling vacancies.

(a) A position shall be declared vacant if a term expires, if a member misses two consecutive regularly scheduled meetings without a valid excuse as determined by council or without otherwise being excused by a majority of the board, or if the member misses more than 25% of the regular meetings during a term year.

(b) The council shall appoint a replacement to fill an unexpired term in case of a vacancy. Current alternate members may be considered prior to new applicants at the discretion of council. The alternate member with the longest tenure shall assume the duties of the vacant position until the expiration of the term of office of the vacated position unless council otherwise appoints a replacement.

(c) If more than one vacancy on the board exists, the alternate member with the longest tenure shall

Unedited First Draft

assume the duties of the vacant positions with the alternate member with the longest tenure assuming the longest remaining term of office, unless council otherwise appoints a replacement.

(d) Resignation of a member of the board shall be in writing. Resignation by a member of the board is effective, and not subject to revocation, upon tendering written notification to the city secretary and such vacancy shall be filled by the city council for the remaining term, as set forth herein.

(e) Regular and alternate members may be removed from office prior to the expiration of the term by a majority decision of the city council.

(f) A member or alternate member who ceases to reside in the city or is no longer a qualified voter during his term of office shall immediately forfeit his office. Notice must be submitted to the city secretary as soon as practicable.
(Code 1996, § 9.11.005; Ord. No. 770-04, § 7, 2/16/04)

Sec. 9.11.006. Powers and duties of city manager and board.

The city manager, or his designee, shall have management and control over all public parks, recreational facilities and programs within the city, and the board shall have the following powers and duties:

(1) Recommend a comprehensive plan for the physical development of the parks and recreation facilities of the city;

(2) Advise the staff and city council in policy matters, such as goals, objectives and programs;

(3) Assist the staff and city council in the planning process for parks, recreational facilities and programs;

(4) Recommend to city council approval or disapproval of proposed changes in the parks, recreational facilities and programs;

(5) Assist the city manager, in an advisory capacity, to supervise, manage and control the parks, recreational facilities and programs;

(6) Promote park use and recreation program participation;

(7) Assist the staff and city council in the recruitment of volunteers and solicitation of voluntary contributions; and

(8) Have and perform such additional duties as may be prescribed by ordinance.
(Code 1996, §§ 9.11.006, 9.11.007; Ord. No. 770-04, §§ 8, 9, 2/16/04)

Sec. 9.11.008. Meetings.

Dates and times. Dates and times of the regular meetings of the board shall be as determined by the city council, but in no event shall the board meet less than once a month. Specially scheduled meetings may be set, in coordination with the city secretary, and as properly noticed. Regular scheduled meetings may be reset upon the majority vote of the members.

Quorum. A meeting of the board must have a quorum of its members present to conduct business. A

Unedited First Draft

quorum is comprised of five members; however, the affirmative vote of at least four of those attending the meeting at which there is a quorum present, shall be necessary to make any decision on behalf of the board.
(Code 1996, § 9.11.008(1); Ord. No. 770-04, § 10, 2/16/04)

Sec. 9.11.008. Chairman and vice-chairman appointment, powers, and duties.

(a) The board shall appoint a chairman and vice-chairman each year at the first meeting following appointments, or as soon as practicable thereafter. Only members may vote for a chairman and vice-chairman. A chairman may serve multiple terms. The chairman may vote on all issues before the board. The vice-chairman acts as a chairman in the absence of the chairman.

(b) The chairman, or in his absence, the vice-chairman, shall preside at all meetings and shall decide all points of order and shall perform duties that ensure that the board achieves the tasks as directed by the city council. Examples of such duties are as follows:

(1) Exercise leadership and make suggestions to ensure that the group reaches a conclusion on the matter before them.

(2) After any debate or discussion, summarize the major points of the issue as discussed.

(3) Ensure that all parties act in accordance with the established rules.

(4) Ensure that the meeting moves along and stays on track.

(5) Ensure that attendance records are maintained and that the minutes of each meeting are acted upon and submitted for council review.

(6) Work with the city staff to ensure that agendas are properly prepared and posted.
(Code 1996, § 9.11.008(2—4); Ord. No. 770-04, § 10, 2/16/04)

Sec. 9.11.008. Rules of order; deliberations and voting.

(a) Robert's Rules of Order shall govern all meetings. The chairman shall rule on all points of order. The purpose of the rules of order are to ensure an orderly, efficient meeting that allows all persons the opportunity to speak.

(b) All official action must be by motion, seconded and receive the affirmative vote of the required number of members. The chairman shall state the motion, call for the vote, and announce the results of the vote.

(c) The vote shall be by ayes and nays and entered into the record. Any abstentions, due to conflict, shall also be noted for the record. Members abstaining due to a conflict of interest shall submit a written statement of abstention to the city secretary.

(d) All official action must take place in open session.

(e) Any member desiring to speak on the matter before the board shall do so only when recognized by the chairman. That member shall hold the floor until the member yields the floor to the chairman. The member shall confine all remarks and discussion to the matter under consideration. Unless otherwise

Unedited First Draft

recognized by the chairman, no member shall speak more than once on a particular subject until every member requesting to be recognized shall have had the opportunity to speak.

(f) Only one agenda item may be discussed at a time, unless logic and practical considerations allow similar topics to be considered together for purposes of convenience and efficiency. Notwithstanding the foregoing, the vote must be on one agenda item at a time and the record shall so reflect.
(Code 1996, § 9.11.008(4—5); Ord. No. 770-04, § 10, 2/16/04)

Sec. 9.11.008. Minutes and audio taping of meetings; board secretary.

(a) The board shall meet in open session to consider issues that may be brought before it for action and must keep minutes of the meetings. A member of the city staff will be designated by the city manager to act as the secretary and record and prepare minutes for the review and submission to the board and the city council. Minutes of each meeting be shall provided to the city council.

(b) The minutes shall reflect the date, time, place, attendance of members, issues that are addressed, vote taken and a brief description of the discussion. The board must vote to accept the minutes of any previous meetings as a standard practice and a standing agenda item. The minutes of the meeting shall be approved by majority vote of the board at the next regularly scheduled meeting or as soon thereafter as practicable.

(c) An audio tape recording of the meetings must be made.

(d) A copy of all minutes, after acceptance by a majority of the voting members, must be filed with the city secretary and become a part of the official city records.
(Code 1996, § 9.11.008(6); Ord. No. 770-04, § 10, 2/16/04)

DIVISION 5. OTHER ENTITIES

Sec. 1.22.001. Youth advisory committee.

(a) *Creation; duties; advisory nature.* The youth advisory committee has been created to provide participation by local youth in municipal government and to routinely report thereon to the city council. The youth advisory committee is advisory in nature only, charged with evaluating relevant issues, and submitting recommendations to the city council and others. The committee shall adopt such bylaws which govern its meetings and duties. The committee shall elect annually from among its members a chairperson and a vice- chairperson. The mayor shall serve as an advisor and one city council member shall serve as council liaison to the youth advisory committee.

(b) *Composition; appointment; terms.* The youth advisory committee shall consist of seven youth members and two alternate members, all being high school students, and one adult sponsor. The adult sponsor shall be appointed by a majority of the city council from among registered voters of the city. Each of the seven youth members and two alternate youth members shall be appointed by a majority of the city council. Terms of office shall be two years for the adult sponsor and one year for the youth members and alternates.

(c) *Applications for appointment.* The appointments to the youth advisory committee shall be made from applications submitted to the mayor and city council.
(Code 1996, §§ 1.22.001—1.22.003; Ord. No. O-17-18, 10/2/18)

Unedited First Draft

ARTICLE V. FINANCE

DIVISION 1. GENERALLY

Sec. 9.04.002. City manager to act as or designate purchasing agent; purchasing authority.[21]

(a) The city manager shall act as or designate a purchasing agent for the city, who shall assure that all merchandise, materials, supplies, equipment, and services utilized by the city are procured in accordance with state law and good municipal purchasing practices.

(b) Purchases shall be based on competitive bid for like quality and function except in instances when competition is impossible or impractical. The bid format shall be in accordance with law and is subject to the following limitations:

(1) Expenditure of $500.00 or less shall be informal.

(2) Expenditure of $500.01 to $2,999.99 ~~$500.00 to $3,000.00~~ shall be by telephone or in writing.

(3) Expenditure of $3,000.00 to $4,999.99 ~~$5,000.00~~ shall be in writing.

(4) Expenditure of $5,000.00 and over shall be by formal public bid.

(c) Bids for public works contracts shall be in conformance with V.T.C.A., Local Government Code, §§ 271.021—271.029 ~~state statutes as covered by article 2368a, V.A.T.S., as amended~~. Procurement involving hi-tech items may utilize provision of state law allowing for negotiated purchases.

(d) The city manager has authority to budget operational purchases and expenditures not exceeding $50,000.00 and, subject to formal procurement policy, those capital equipment purchases approved by the council upon adoption of the budget.

(e) In cases of accident or other circumstances creating an emergency, the city manager may, with consent of the city council, award contracts and make purchases for the purpose of repairing damages caused by such accident or avoiding such public emergency, but immediately after the emergency is abated, he shall file with the council a certificate showing such emergency and necessity for such action, together with an itemized account of all expenditures.
(Code 1996, § 9.04.002(9, 10); Ord. No. 776-04, 6-7-2004; Ord No. O-09-22, 8/16/2022)

Sec. 1.19.001. Conflicts between state law and city Charter regarding purchasing.

V.T.C.A., Local Government Code, ch. 252, shall supersede the provisions of the Charter of the city where there is conflict between that statute chapter and the charter as it relates to the notice of contracts, advertisement of the notice, requirements for the taking of sealed bids based on specifications for public improvements or purchases, the manner of publicly opening bids or reading them aloud, or the manner of letting contracts. This section shall not prevent the city, acting through its city council or its

---

Unedited First Draft

administrators, from adopting administrative procedures as to the matters listed in this section.
(Code 1996, § 1.19.001; Ord. No. 688-00, 9/5/00)

DIVISION 2. CLAIMS AGAINST CITY FOR DAMAGES

Sec. 1.11.001. Notice required.[22]

The city shall never be liable for any claim for property damage or for personal injury, whether such personal injury results in death or not, unless the person damaged or injured, or someone in his behalf, or in the event the injury results in death, the person or persons who may have a cause of action under the law by reason of such death or injury, shall, within 90 days from the date the damage or injury was received, give notice in writing to the mayor and city council of the following facts:

(1) The date and time when the injury occurred and the place where the injured person or property was at the time when the injury was received.

(2) The nature of the damage or injury sustained.

(3) The apparent extent of the damage or injury sustained.

(4) A specific and detailed statement of how and under what circumstances the damage or injury occurred.

(5) The amount for which each claimant will settle.

(6) The actual place of residence of each claimant by street, number, city and state on the date the claim is presented.

(7) In the case of personal injury or death, the names and addresses of all persons who, according to the knowledge or information of the claimant, witnessed the happening of the injury or any part thereof and the names of the doctors, if any, to whose care the injured person is committed.

(8) In the case of property damage, the location of the damaged property at the time the claim was submitted along with the names and addresses of all persons who witnessed the happening of the damage or any part thereof.

(Code 1996, § 1.11.001)

Sec. 1.11.005. Notice to be sworn.

The written notice required under this article shall be sworn to by the person claiming the damage or injuries or by someone authorized by him to do so on his behalf. Failure to swear to the notice as required herein shall not render the notice fatally defective, but failure to so verify the notice may be considered by the city council as a factor relating to the allegations and to the weight to be given to the allegations contained therein.
(Code 1996, § 1.11.005)

---

[22] **Sec. 1.11.001. Notice required.** This section does not address the six-month notice requirement for matters cognizable under the state Tort Claims Act.

Unedited First Draft

Sec. 1.11.006. Exemptions.

The notice provisions required herein shall not be applicable in cases in which the plaintiff can demonstrate good cause, actual notice by the city, or civil rights violation.
(Code 1996, § 1.11.006)

Sec. 1.11.002. Refusal by city council as a prerequisite.

No suit of any nature whatsoever shall be instituted or maintained against the city unless the plaintiff therein shall aver and prove that previous to the filing of the original petition the plaintiff applied to the city council for redress, satisfaction, compensation, or relief, as the case may be, and that the same was by vote of the city council refused.
(Code 1996, § 1.11.002)

Sec. 1.11.003. Address for filing notices.

All notices required by this article shall be effectuated by serving them upon the city manager at City Hall, 1938 South Hampton Road, Glenn Heights, Texas 75154. All such notices shall be effective only when actually received in the office of the city manager.
(Code 1996, § 1.11.003)

Sec. 1.11.004. No authority to waive provisions.

Neither the mayor, a city council member, nor any other officer or employee of the city shall have the authority to waive any provision of this division.
(Code 1996, § 1.11.004)

ARTICLE VI. CITY PROPERTY

DIVISION 1. GENERALLY

Sec. 1.10. Sale of surplus city personal property.

The city may sell surplus personal property owned by the city in any manner not prohibited by state law or the state constitution. All sales are final. No refunds or exchanges will be authorized. All personal property must be removed within five days following the date of sale. No city employee, or city official, or member of their family, may purchase any item, either directly or indirectly.
(Code 1996, Art. 1.10; Ord. No. O-848-07, 8/6/07)

DIVISION 2. CITY VEHICLE MAINTENANCE

Sec. 1.21.001. Findings, purpose, and intent.

(a) The regional transportation council, comprised primarily of local elected officials, is the regional transportation policy body associated with the North Central Texas Council of Governments, and has been and continues to be a forum for cooperative decisions on transportation.

(b) The regional transportation council supports the adoption and implementation of a clean fleet vehicle policy by the city which was resolved on October 6, 2005.

Unedited First Draft

(c) The Dallas-Fort Worth area is a federally designated non-attainment area for the pollutant ozone and air quality impacts the public health of the entire region.

(d) The regional transportation council is responsible for air quality conformity, and the Clean Air Act Amendments of 1990 require that in air quality non-attainment areas transportation plans and improvement programs conform to the applicable air quality implementation plan.

(e) The city wants to set achievable goals and provide workable, cost-effective solutions to improve the Dallas-Fort Worth Metropolitan Area air and implement those measures as soon as practicable to improve air quality.

(f) Approximately 50 percent of the nitrogen oxide (NOx) emissions in the Dallas-Fort Worth non-attainment area come from on-road vehicles.
(Code 1996, § 1.21.001; Ord. No. O-33-08, 10/6/08)

Sec. 1.21.002. Vehicle acquisition.

(a) Vehicle acquisitions for fleet expansion or replacement of model year 2004 or newer shall be newest model year or engine standard only.

(b) Vehicle acquisitions to replace model year 2003 or older vehicles must show at least a 25% reduction in nitrogen oxides (NOx) emissions rate compared to the vehicle being replaced. (Waivers are possible when new technologies or achievements of the required emission reduction are not possible.)

(c) Aftermarket technologies and conversions are acceptable for fleet expansion and fleet replacements.

(1) Aftermarket technologies and conversions must be Environmental Protection Agency (EPA) or CARB verified or certified or technology equivalent or better, as determined by the North Central Texas Council of Governments (NCTCOG) staff.

(2) Conversions must comply with the provisions of EPA Memorandum 1A and Addendum Revision (June 25, 1974, and June 1, 1998).
(Code 1996, § 1.21.002; Ord. No. O-33-08, 10/6/08)

Sec. 1.21.003. Vehicle operation.

(a) Vehicle idling is allowed only for safety, emergency response, vehicle maintenance, equipment activity, warm-up/operations in cold temperature, and manufacturer-recommended minimum idle/warm-up times.

(b) Vehicles with the lowest NOx emissions that are capable of performing the required operational demands shall drive the most miles.

(c) The fleet manager shall abide by latest refueling time/season guidance published by NCTCOG air quality planning.

(d) Non-emergency vehicles shall drive no more than the posted speed limit and avoid rapid acceleration.

Unedited First Draft

(e) All drivers shall be trained on air quality appropriate operational requirements.
(Code 1996, § 1.21.003; Ord. No. O-33-08, 10/6/08)

Sec. 1.21.004. Vehicle maintenance.

(a) Perform annual emission and safety inspections for all vehicles, even for vehicles with no state-mandated inspection requirement.

(b) All vehicles with over 100,000 miles must have emission inspections every 25,000 miles thereafter.

(c) Perform manufacturer's recommended maintenance.

(d) Mandatory participation in any diesel or other state commission on environmental quality or NCTCOG inspection/maintenance program, including applicable test or pilot programs.
(Code 1996, § 1.21.004; Ord. No. O-33-08, 10/6/08)

Sec. 1.21.005. Compliance verification.

(a) The public sector entity shall provide NCTCOG with an annual electronic update of fleet size and activity in a format established by NCTCOG.

(b) The city acknowledges that entities not adopting and complying with the clean fleet vehicle policy or reporting requirements will not be eligible for future clean vehicle funding and RTC may assess city compliance when considering other RTC funding actions.
(Code 1996, § 1.21.005; Ord. No. O-33-08, 10/6/08)

ARTICLE VII. RECORDS MANAGEMENT[23]

Sec. 1.17.001. Definitions.[24]

The following words, terms and phrases, when used in this article, shall have the meanings ascribed to them in this section, except where the context clearly indicates a different meaning:

City records. All documents, papers, letters, books, maps, photographs, sound or video recordings, microfilm, magnetic tape, electronic media, or other information recording media, regardless of physical form or characteristic and regardless of whether public access to it is open or restricted under the laws of the state, created or received by the city or any of its officers or employees pursuant to law or in the transaction of public business are hereby declared to be the records of the city and shall be created, maintained, and disposed of in accordance with the provisions of this article or procedures authorized by it and in no other manner.

Department head. The officer who by ordinance, order, or administrative policy is in charge of an office of the city that creates or receives records.

---

[23] **Art. VII. Records Management.** This are old provisions that might be amenable to replacement with adoption of relevant state law, rules, and schedules. Please review.

[24] **Sec. 1.17.001. Definitions.** A standardized introduction is substituted for consistency.

Unedited First Draft

Essential record. Any record of the city necessary to the resumption or continuation of operations of the city in an emergency or disaster, to the re-creation of the legal and financial status of the city, or to the protection and fulfillment of obligations to the people of the state.

Permanent record. Any record of the city for which the retention period on a records control schedule is given as permanent.

Records control schedule. A document prepared by or under the authority of the records management officer listing the records maintained by the city, their retention periods, and other records disposition information that the records management program may require.

Records liaison officers. The persons designated under section 1.17.010 of this article.

Records management. The application of management techniques to the creation, use, maintenance, retention, preservation, and disposal of records for the purposes of reducing the costs and improving the efficiency of recordkeeping. The term includes the development of records control schedules, the management of filing and information retrieval systems, the protection of essential and permanent records, the economical and space-effective storage of inactive records, control over the creation and distribution of forms, reports, and correspondence, and the management of micrographics and electronic and other records storage systems.

Records management committee. The committee established in section 1.17.006 of this article. Records management officer. The person designated in section 1.17.005 of this article.

Records management plan. The plan developed under section 1.17.007 of this article.

Retention period. The minimum time that must pass after the creation, recording, or receipt of a record, or the fulfillment of certain actions associated with a record, before it is eligible for destruction.
(Code 1996, §§ 1.17.001, 1.17.002)

Sec. 1.17.003. City records declared public property.

All city records are the property of the city. No city official or employee has, by virtue of his or her position, any personal or property right to such records even though he or she may have developed or compiled them. The unauthorized destruction, removal from files, or use of such records is prohibited.
(Code 1996, § 1.17.003)

Sec. 1.17.004. Policy.[25]

It is the policy of the city to provide efficient, economical, and effective controls over the creation, distribution, organization, maintenance, use, and disposition of all city records through a comprehensive system of integrated procedures for the management of records from their creation to their ultimate disposition, consistent with the requirements of the ~~Texas~~ Local Government Records Act, V.T.C.A., Local Government Code, ch. 201 and accepted records management practice.
(Code 1996, § 1.17.004)

Sec. 1.17.005. Designation of records management officer.

---

[25] **Sec. 1.17.004. Policy.** Citation is corrected as shown.

Unedited First Draft

The city secretary, and the successive holders of the office, shall serve as records management officer for the city. As provided by state law, each successive holder of the office shall file his or her name with the director and librarian of the Texas State Library within thirty days of the initial designation or of taking up the office, as applicable.
(Code 1996, § 1.17.005)

Sec. 1.17.006. Establishment and duties of records management committee.

A records management committee consisting of the city manager, city attorney and finance director is hereby established. The committee shall:

(1) Assist the records management officer in the development of policies and procedures governing the records management program;

(2) Review the performance of the program on a regular basis and propose changes and improvements if needed;

(3) Review and approve records control schedules submitted by the records management officer;

(4) Give final approval to the destruction of records in accordance with approved records control schedules; and

(5) Actively support and promote the records management program throughout the city.
(Code 1996, § 1.17.006)

Sec. 1.17.007. Records management plan development, approval and authority.

(a) The records management officer and the records management committee shall develop a records management plan for the city for submission to the city council. The plan must contain policies and procedures designed to reduce the costs and improve the efficiency of recordkeeping, to adequately protect the essential records of the city, and to properly preserve those records of the city that are of historical value. The plan must be designed to enable the records management officer to carry out his or her duties prescribed by state law and this article effectively.

(b) Once approved by the city council, the records management plan shall be binding on all offices, departments, divisions, programs, commissions, bureaus, boards, committees, or similar entities of the city and records shall be created, maintained, stored, microfilmed, or disposed of in accordance with the plan.

(c) State law relating to the duties, other responsibilities, or recordkeeping requirements of a department head do not exempt the department head or the records in the department head's care from the application of this article and the records management plan adopted under it and may not be used by the department head as a basis for refusal to participate in the records management program of the city.
(Code 1996, § 1.17.007)

Sec. 1.17.008. Duties of records management officer.

In addition to other duties assigned in this article, the records management officer shall:

Unedited First Draft

(1) Administer the records management program and provide assistance to department heads in its implementation;

(2) Plan, formulate, and prescribe records disposition policies, systems, standards, and procedures;

(3) In cooperation with department heads identify essential records and establish a disaster plan for each city office and department to ensure maximum availability of the records in order to reestablish operations quickly and with minimum disruption and expense;

(4) Develop procedures to ensure the permanent preservation of the historically valuable records of the city;

(5) Establish standards for filing and storage equipment and for recordkeeping supplies;

(6) Study the feasibility of and, if appropriate, establish a uniform filing system and a forms design and control system for the city;

(7) Provide records management advice and assistance to all city departments by preparation of a manual or manuals of procedure and policy and by on-site consultation;

(8) Monitor records retention schedules and administrative rules issued by the state library and archives commission to determine if the records management program and the city's records control schedules are in compliance with state regulations;

(9) Disseminate to the city council and department heads information concerning state laws and administrative rules relating to local government records;

(10) Instruct records liaison officers and other personnel in policies and procedures of the records management plan and their duties in the records management program;

(11) Direct records liaison officers or other personnel in the conduct of records inventories in preparation for the development of records control schedules as required by state law and this article;

(12) Ensure that the maintenance, preservation, microfilming, destruction, or other disposition of the city is carried out in accordance with the policies and procedures of the records management program and the requirements of state law;

(13) Maintain records on the volume of records destroyed under approved records control schedules, the volume of records microfilmed or stored electronically, and the estimated cost and space savings as the result of such disposal or disposition;

(14) Report annually to the city council on the implementation of the records management plan in each department of the city, including summaries of the statistical and fiscal data compiled under subsection (13); and

(15) Bring to the attention of the city council noncompliance by department heads or other city personnel with the policies and procedures of the records management program or the Local

Unedited First Draft

Government Records Act, V.T.C.A., Local Government Code, ch. 201.[26]
(Code 1996, § 1.17.008)

Sec. 1.17.009. Duties and responsibilities of department heads.

In addition to other duties assigned in this article, department heads shall:

(1) Cooperate with the records management officer in carrying out the policies and procedures established in the city for the efficient and economical management of records and in carrying out the requirements of this article;

(2) Adequately document the transaction of government business and the services, programs, and duties for which the department head and his or her staff are responsible; and

(3) Maintain the records in his or her care and carry out their preservation, microfilming, destruction, or other disposition only in accordance with the policies and procedures of the records management program of the city and the requirements of this article.

(Code 1996, § 1.17.009)

Sec. 1.17.010. Designation of records liaison officers.

(a) Each department head shall designate a member of his or her staff to serve as records liaison officer for the implementation of the records management program in the department.

(b) If the records management officer determines that in the best interests of the records management program more than one records liaison officer should be designated for a department, the department head shall designate the number of records liaison officers specified by the records management officer.

(c) Persons designated as records liaison officers shall be thoroughly familiar with all the records created and maintained by the department and shall have full access to the records of the city maintained by the department.

(d) In the event of the resignation, retirement, dismissal, or removal by action of the department head of a person designated as a records liaison officer, the department head shall promptly designate another person to fill the vacancy. A department head may serve as records liaison officer for his or her department.

(Code 1996, § 1.17.010)

Sec. 1.17.011. Duties and responsibilities of records liaison officers.

In addition to other duties assigned in this article, records liaison officers shall:

(1) Conduct or supervise the conduct of inventories of the records of the department in preparation for the development of records control schedules;

(2) In cooperation with the records management officer coordinate and implement the policies and

---

[26] **Sec. 1.17.008. Duties of records management officer.** Citation is completed as shown.

Unedited First Draft

procedures of the records management program in their departments; and

(3) Disseminate information to department staff concerning the records management program.
(Code 1996, § 1.17.011)

Sec. 1.17.012. Development and approval of records control schedules; filing with state.

(a) The records management officer, in cooperation with department heads and records liaison officers, shall prepare records control schedules on a department-by-department basis listing all records created or received by the department and the retention period for each record. Records control schedules shall also contain such other information regarding the disposition of city records as the records management plan may require.

(b) Each records control schedule shall be monitored and amended as needed by the records management officer on a regular basis to ensure that it is in compliance with records retention schedules issued by the state and that it continues to reflect the recordkeeping procedures and needs of the department and the records management program of the city.

(c) Before its adoption, a records control schedule or amended schedule for a department must be approved by the department head and the members of the records management committee.

(d) Before its adoption, a records control schedule must be submitted to and accepted for filing by the director and librarian as provided by state law. If a schedule is not accepted for filing, the schedule shall be amended to make it acceptable for filing. The records management officer shall submit the records control schedules to the director and librarian.
(Code 1996, § 1.17.012)

Sec. 1.17.013. Implementation of records control schedules; destruction of records under schedule.

(a) A records control schedule for a department that has been approved and adopted under section 1.17.012 shall be implemented by department heads and records liaison officers according to the policies and procedures of the records management plan.

(b) A record whose retention period has expired on a records control schedule shall be destroyed unless an open records request is pending on the record, the subject matter of the record is pertinent to a pending lawsuit, or the department head requests in writing to the records management committee that the record be retained for an additional period.

(c) Prior to the destruction of a record under an approved records control schedule, authorization for the destruction must be obtained by the records management officer from the records management committee.
(Code 1996, § 1.17.013)

Sec. 1.17.014. Destruction of unscheduled records.

A record that has not yet been listed on an approved records control schedule may be destroyed if its destruction has been approved in the same manner as a record destroyed under an approved schedule and the records management officer has submitted to and received back from the director and librarian an approved destruction authorization request.
(Code 1996, § 1.17.014)

Unedited First Draft

Sec. 1.17.015. Records center.

A records center, developed pursuant to the plan required by section 1.17.007, is under the direct control and supervision of the records management officer. Policies and procedures regulating the operations and use of the records center shall be contained in the records management plan developed under section 1.17.007.
(Code 1996, § 1.17.015)

Sec. 1.17.016. Time limits for responding to certain requests.[27]

(a) Annual time limit. Pursuant to ~~Texas~~ V.T.C.A., Government Code, § 552.275(a) and (b), 36 hours is established as the reasonable limit on the amount of time that personnel of the city are required to spend producing public information for inspection or duplication by a requestor in any given 12-month period commencing on October 1 of each year, without recovering the city's costs attributable to that personnel time.

(b) Monthly time limit. Pursuant to ~~Texas~~ V.T.C.A., Government Code § 551.275(a) and (b), 15 hours is hereby established as the reasonable limit on the amount of time that personnel of the city are required to spend producing public information for inspection or duplication by a requestor in any given one-month period, without recovering the city's costs attributable to that personnel time.

(c) Records of time spent fulfilling requests. The city secretary or his or her designee shall be responsible for maintaining records of the cumulative amount of personnel time spent complying with requests for public information from each individual requestor.

(d) Charges for personnel time spent in excess of time limits. Subject to the provisions of ~~Texas~~ V.T.C.A., Government Code, § 551.275, when the 36-hour fiscal year or 15-hour monthly limit is met or exceeded, the city will require a requestor to pay costs attributable to costs of materials, overhead, and personnel time necessary to comply with the request prior to furnishing any responsive information for inspection or duplication by a requestor or providing copies of public information to a requestor. The city secretary shall be responsible for providing all notices to the requestor as required by law, including written statements of accrued time required by ~~Texas~~ V.T.C.A., Government Code, § 552.275(d) and written estimates of charges required by ~~Texas~~ V.T.C.A., Government Code, § 552.275(e).

(e) 'Requestor' defined. For purposes of this section, 'requestor' shall have the meaning set forth in ~~Texas~~ V.T.C.A., Government Code, § 552.003(6).
(Code 1996, § 1.17.016; Ord. No. O-18-22, 12/21/2022)

Chapter 4

ANIMAL CARE AND CONTROL

ARTICLE I. IN GENERAL

Sec. 2.01.001. Definitions.[28]

To the extent not otherwise defined herein, reference may be made, for purposes of clarifying definitions, to state law or generally accepted industry publications. The following words, terms and phrases, when used in this chapter, shall have the meanings ascribed to them in this section, except where the context clearly indicates a different meaning:

Abandon. To dump, desert, or leave any animal on public or private property with the intent of terminating any further responsibility for said animal; and shall also mean failing to timely redeem any animal impounded or quarantined by the city, as specified herein.

Adequate/proper shelter. A shelter for a dog that shall effectively protect the animal from any form of cold, overheating, inclement weather and direct effects of wind, rain, snow, ice or the sun. By way of example, and not limitation, a shelter may consist of a three-sided structure, with a roof. The shelter shall provide shade during hot weather months with provisions for cooling the animal when temperatures exceed 90 degrees Fahrenheit. During temperatures 50 degrees Fahrenheit or lower, auxiliary heat or clean, dry bedding material shall be provided for insulation against the cold.

Animal. Any living creature classified as a member of the animal kingdom including, but not limited to, birds, fish, mammals and reptiles, but specifically excluding human beings.

Animal control officer. The person or persons designated by the city to represent and act for the city in the impoundment of animals, in the controlling of stray animals and all other matters as otherwise required by this chapter.

Animal control facility. An establishment that is operated, controlled or contracted with by the city for the impoundment, confinement, safekeeping, control, caring or destruction of animals which come into the custody of the city.

At large. Any animal, other than a domestic cat, that is not under immediate effective control of its owner as defined in this chapter. A domestic cat shall be considered at large when not located on the premises owned or controlled by its owner and not otherwise under immediate effective control.

(1) Off premises - Any animal:

(A) Which is not under immediate, effective control of a person by means of a cage, leash, physical restraint, or when such animal fails to respond to the voice command or other audible command of the person immediately upon issuance of said command, and is, at all times, within the visible presence of said person and not more than ten feet from said person.

---

[28] **Sec. 2.01.001. Definitions.** A standardized introduction is substituted for consistency and definition duplicative of chapter 1 is stricken as shown.

Unedited First Draft

(B) Which, even when in the visible presence of the owner, or under physical restraint, as defined herein, enters onto the private property of another person, without that property owner's consent.

(2) On premises - Any animal not confined on the premises of the owner by a substantial fence of sufficient strength and height to prevent the animal from escaping therefrom or secured on the premises by a metal chain or leash sufficient in strength to prevent the animal from escaping from the premises, and so arranged that the animal will remain upon the premises and not come any closer than six feet to a public walkway or sidewalk when the restraint leash is stretched to full length.

City enforcement agent. City animal control officers, or other authorized representatives, including but not limited to police officers of the city.

Dangerous animal. Any animal which has been determined to be dangerous as set forth herein by the animal control officer or appropriate court; which demonstrates behavior or possesses the vicious propensity to inflict serious bodily injury or death upon human beings and constitutes a danger to human life or domestic animals; or any animal which has behaved in such a manner that the owner thereof knows, or reasonably should know, that the animal is possessed of tendencies to commit unprovoked attacks or to injure human beings or domestic animals; or any animal certified by a doctor of veterinary medicine, licensed in the state, after observation thereof, as posing a danger to human beings or animals; or any animal that commits an unprovoked attack upon a human being or other domestic animal; or any animal that commits an unprovoked act that causes a person to reasonably believe that the animal will attack and cause bodily injury to that person.

Domestic animal. Any animal whose physiology has been determined or manipulated through selective breeding, and which does not occur naturally in the wild, and which may be vaccinated against rabies with an approved rabies vaccine, and which has an established rabies quarantine observation period.

Enclosure. Any structure or device used to immediately restrict any animal or animals to a limited amount of space, such as a fence, room, pen, run, cage, compartment or hutch.

Exotic animal. Any nondomesticated animal, other than livestock, that is native to a foreign country or of foreign origin or character, is not native to the United States, or was introduced from abroad. This term specifically includes, but is not limited to, animals such as lions, tigers, jackals, dingoes, leopards, elephants, pandas, camels, antelope, anteaters, kangaroos, chimpanzees, gorillas, orangutans, water buffalo, and species of foreign domestic livestock requiring state or federal permits.

Fowl. A bird of any kind, including, but not limited to, chickens, ducks, geese, guineas, pigeons, roosters, turkeys and pheasants.

Guard dog. A dog that has received protection or guard dog training and used by law enforcement, private security, or in protective functions where the dog is responsive to control by its owner or handler and used only for protective functions, irrespective of its status as a personal pet of its owner or handler.

Guide dog. A dog that is trained to assist a handicapped person. Immediate effective control.

(1) Immediate, effective control means an animal which is under the power or restraint of a person by a means of cage, leash or physical restraint. For purposes of this chapter, an animal is not under the immediate effective control of a person when it is not restrained by means of a leash or chain of sufficient strength and not more than six feet in length to control the actions of such animal while off the owner's property.

Unedited First Draft

(2) When such animal responds to the voice command of the person immediately upon issuance of said command, and is, at all times, within the visible presence of said person and not more than ten feet from said person. It shall be prima facie evidence for purposes of this chapter that the animal is at large when the animal is not in the visible presence of the owner or fails to respond immediately to a verbal command.

Inhumane treatment of animals. Any treatment of an animal prohibited by section 42.09 of the Texas Penal Code, chapters 821, 822 or 826 of the Texas Health and Safety Code, as amended, or by any other provision of law including federal, state and local laws, ordinances or rules.

Kennel. Any business or establishment other than a veterinary hospital, whether operated separately or in connection with another business or establishment, that keeps, boards or trains dogs or cats for profit. Kennels must be established, maintained and operated in compliance with all applicable zoning and land use regulations of the city.

Livestock. Any horses, mules, donkeys, cattle, bison, goats, sheet, swine, ostriches, emus or rheas.

Owner. Any person, partnership, corporation or association that harbors, shelters, keeps, controls, manages, possesses or has whole or part interest in any animal. The occupant, owner or head of a household of any premises where an animal remains for 24 hours or more shall be presumed to be the owner of such animal for the purpose of this chapter. This presumption is rebuttable and shall have the effects and consequences set forth in section 2.05 of the Texas Penal Code, as amended.

~~Person. A natural individual, firm, corporation or other legal entity.~~

Pet. Any animal normally kept for pleasure rather than utility, excluding livestock.

Pet store. Any business or establishment other than a veterinary hospital, whether operated separately or in connection with another business or establishment, that buys and sells dogs, cats, or other species of pets for profit. Pet stores or shops must be established, maintained and operated in compliance with all applicable zoning and land use regulations of the city.

Public auction. Any place or facility where animals are sold to the highest bidder. This definition does not apply to individual sales of animals by private owners to other private owners.

Public nuisance. The following:

(1) An owner's failure to control, restrain or otherwise allow, either by conduct or condition, any animal to:

(A) Engage in conduct which establishes such animal as a "dangerous animal"; or

(B) Be "at large" as defined herein; or

(C) Cause a disturbance by excessive, continuous or untimely barking, howling, whining, crowing or otherwise make excessive noise near the private residence of another or continual barking, howling, whining, crowing or other audible noise, in excess of 15 minutes, even if in sporadic bursts, shall be prima facie evidence that the same constitutes a nuisance; or

Unedited First Draft

(D) Produce maggots, flies, odors or unclean conditions sufficient to annoy adjacent property owners or residents; or

(E) Chase vehicles or molest, attack or interfere with other animals or persons on public property; or

(F) Damage, soil, defile, or defecate on private property other than the owner's property or on public walks or recreation areas unless such waste is immediately removed and properly disposed of by the owner; or

(G) Allow such fecal matter or other animal waste to accumulate to such a degree as to cause unsanitary, dangerous or offensive conditions.

(2) Any animal normally found in the wild that has entered onto any public or private property by its presence is committing a threat to public health and safety or is generally interrupting the tranquility of the location.

Quarter or quartered. As it relates to livestock or other animals regulated herein, to provide shelter or to be sheltered.

Residential breeder. Any person licensed by the city to keep, harbor, breed or raise in excess of four but not more than ten dogs and ten cats six months of age or older on any premises used or zoned for residential purposes and less than two acres in area.

Residential foster owner. Any person licensed by the city to keep, harbor or foster in excess of four but not more than ten dogs and ten cats six months of age or older, including dogs or cats belonging to or owned by the foster owner, on any premises used or zoned for residential purposes and less than two acres in area.

Restraint. Secured by a leash, lead, cord, chain or rope six feet or less in length; or by electronic wires, probes or other similar device; or secured within a kennel or pen, or secured within the fenced real property limits of its owner, and may not come any closer than six feet to a public walkway or sidewalk when the restraint lead is stretched to full length.

Serious bodily injury. Bodily injury that creates a substantial risk of death or that causes death, serious permanent disfigurement, or protracted loss or impairment of the function of any bodily member or organ. An injury characterized by severe bite wounds or severe ripping and tearing of muscle that would cause a reasonably prudent person to seek treatment from a medical professional and would require hospitalization without regard to whether the person actually sought medical treatment satisfies this definition. For purposes of this chapter, serious bodily injury includes but is not limited to injuries for which the injured party seeks emergency or inpatient treatment irrespective of length of hospital stay.

Stray. An animal that is improperly restrained and that wanders upon a public place, roadway, street, highway, or the property of another person.

Vaccination. The inoculation of an animal with a rabies vaccine or other medicine that is accepted by the United States Department of Agriculture for use in that species, and which is administered by a veterinarian, licensed in the state, for the purpose of immunizing the animal against rabies or other diseases.

Veterinary hospital or clinic. Any establishment that is maintained and operated by a veterinarian,

Unedited First Draft

licensed in the state, for the diagnosis, treatment or surgery of injuries and diseases to animals.

Wild animal. Any animal not normally considered domesticated and which is now or historically has been found in the wild, or in the wild state, including but not limited to the following:

(1) Reptiles: venomous reptiles, any type of crocodile or alligator; or

(2) Fish: piranha; or

(3) Birds: condors, eagles, hawks, falcons, owls; or

(4) Mammals: ocelots, lions, tigers, jaguars, leopards, cougars, wolves or wolf hybrids, dingoes, coyotes and coyote mixes, jackals, weasels, martens, minks, badgers, skunks, bats, raccoons, pandas, bears, kangaroos, opossums, sloths, anteaters, armadillos, monkeys, chimpanzees, gorillas, orangutans, porcupines, antelope, deer, foxes, elephants, lynx, camels, squirrels; or

(5) Any species of animal illegal to own under federal, state or local law.

Zoonotic disease. An illness which is of animal origin and usually causes illness to other animals but which can be transmitted to and cause illness in humans.
(Code 1996, § 2.01.001; Ord. No. 695-01, 3/5/01)

Sec. 2.02.001. Care standards generally.

Animals shall be provided humane care, treated and transported in a humane manner and not in violation of V.T.C.A., Penal Code, § 42.09, V.T.C.A., Health and Safety Code, Title 10 (Health and Safety of Animals), or any other provision of law, including federal, state and local laws, ordinances and rules.
(Code 1996, § 2.02.001; Ord. No. 695-01, 3/5/01)

Sec. 2.02.002. Animal cruelty and neglect.

A person commits an offense if

(1) A person fails to provide an animal under his or her control or ownership with adequate wholesome food and water, proper shelter and protection from inclement weather, and veterinary care when needed to prevent suffering.

(2) A person having charge, care, custody or control of an animal places or confines such animal, or allows such animal to be placed or confined, in a motor vehicle trailer or other enclosure under such conditions, or for such a period of time, as to endanger the health of the animal due to heat, lack of food or water, or such other circumstances as may cause injury or death to the animal.

(3) A person treats an animal in an inhumane or cruel manner as defined by V.T.C.A., Penal Code, § 42.09 or V.T.C.A., Health and Safety Code, ch. 821.

(4) A person knowingly owns, harbors, trains, sells or offers for sale any animal which is to be used for the purpose of fighting; or to be trained, tormented, badgered or baited for the purpose of causing or encouraging said animal to attack human beings or animals when not provoked, except that this subsection shall not apply to guard dogs.

Unedited First Draft

(5) A person mutilates any animal, whether such animal is dead or alive. This subsection does not apply to medical or veterinary medical research, medical or veterinary medical autopsies, or biology class use of animals for educational purposes.

(6) A person causes an animal to fight another animal or person.

(7) A person, other than a licensed veterinarian, docks an animal's tail, or crops an animal's ears, or castrates an animal; provided, however, this subsection shall not apply to normal livestock operations occurring within the city.

(8) A person dyes or colors chicks, ducks, rabbits, reptiles or birds.

(9) A person transporting an animal fails to effectively restrain an animal so as to prevent the animal from leaving or being accidentally thrown from a vehicle during normal operation of the vehicle or fails to effectively restrain an animal so as to prevent infliction of bodily harm to a passerby; provided, however, the provisions of this subsection shall not prohibit a person from transporting an effectively confined or tethered dog in the open bed of a pickup truck.

(10) A person is in control of a motor vehicle which strikes a domestic animal or livestock within the corporate limits of the city and fails to report the accident to the city enforcement agent as soon as practical.

(11) A person abandons any animal, including the abandonment of an impounded animal at the animal control facility with the intent to readopt the animal to avoid impoundment fees.

(12) A person ties or tethers a dog in such a manner that prevents the animal from access to adequate shelter, food and water.

(13) A person ties or tethers a dog in such a manner that the animal could become entangled or injured.

(14) A person cruelly confines an animal in a manner that prevents the animal from being able to stand to its full height, stretch out, turn around and lie down and make normal postural adjustments comfortably for a period of 24 hours or more.

(15) A person confines an animal in such a way that the animal is forced to stand or lay within its own feces, standing water or other unsanitary conditions.

(Code 1996, § 2.02.002; Ord. No. 695-01, 3/5/01)

Sec. #. Poisoning of animals.

No person shall place any substance or article which has in any manner been treated with any poisonous substance, or is known to be toxic to animals, in any place accessible to human beings, birds, dogs, cats or other animals with the intent to kill or harm animals. This shall include antifreeze purposely left exposed to poison animals. This section, however, does not preclude the use of commercially sold rodent poisons when applied in accordance with the manufacturer's directions for such use, in that person's residence, accessory structure or commercial establishment.

(Code 1996, Art. 2.14)

Unedited First Draft

Sec. 2.13.001. Animal trapping.

(a) *Approval required.* It is unlawful for any person to place, set or bait any trap for the purpose of catching, wounding or killing any animal, fowl or reptile without the permission and assistance of a city animal control officer. This section, however, does not preclude the use of commercially sold rat and mouse traps, to be utilized as intended by the manufacturer in accordance with the manufacturer's direction for use, in that person's residence, accessory structure or commercial establishment.

(b) *Trap type; prohibited traps.* Only humane live animal traps may be used for capturing animals roaming unrestrained in the city. The placing or baiting of any steel jawed trap (commonly known as a bear trap, wolf trap or coyote trap) within the corporate limits of the city is expressly prohibited. As an exception to this subsection, governmental agencies and entities shall be permitted to use such traps and equipment necessary and permitted by state law or regulations.

(c) *Traps on public property.* Any animal traps found on public property are deemed abandoned, and the city enforcement agents are authorized and directed to seize any such trap and process the same as abandoned property in accordance with the applicable provisions of state law and this Code.

(d) *Bait type.* It shall be a violation of this chapter to use anything other than commercially sold animal food to bait any trap used for the purpose of trapping any animal.

(e) *Trap placement.* Unless the adjacent properties are separated by a solid masonry or wood fence at least six feet high, animal traps shall not be placed or located within ten feet of adjacent property lines. If no fence exists and the size, shape or other characteristics of the property preclude traps from being placed or located ten feet from adjacent property lines, the traps shall be placed or located as far from adjacent property lines as practicable.
(Code 1996, §§ 2.13.001—2.13.004; Ord. No. 695-01, 3/5/01)

Sec. 2.15.001. Disposal of dead animals.

(a) *Authority of animal control officer.* The city animal control officer shall have the authority to take custody of and dispose of all deceased animals found on any roadway, street, highway, or public or private property where the owner cannot otherwise be identified.

(b) *Disposal of livestock.* It shall be the specific responsibility of the owner of any livestock to have the livestock removed and properly disposed of within 24 hours of the death of said livestock, consistent with state law.

(c) *Disposal of other animals.* It shall be the owner's responsibility to remove and properly dispose of a deceased animal within 24 hours of the death of the animal. If requested by the owner, the city animal control officer will pick up a deceased domestic animal if the animal has been placed in a sealed clear plastic bag and left in a convenient place adjacent to a public roadway, or at curbside.
(Code 1996, §§ 2.15.001, 2.15.002; Ord. No. 695-01, 3/5/01)

Sec. 2.03.006. Guard dog registration.

(a) Each dog which has received protection or guard dog training and is kept in the city must be registered as a guard dog with animal control annually. It shall be a violation of this chapter for any person who keeps or allows any such dog to be kept upon his premises to fail or refuse to present proof to the city enforcement agent, upon request, that such dog has been registered as a guard dog within the preceding 12-month period.

Unedited First Draft

(b) The city enforcement agent shall issue a permit to each qualifying dog. Such permit and tag shall be valid for a period of 12 months and are not transferable to any other animal. The registration tag shall be prominently displayed on the dog at all times by securely affixing it to a properly fitted collar, harness, or similar device worn by the dog. The tag and permit can only be issued provided the owner first presents proof that the dog is currently vaccinated against rabies. No fee shall be required for the issuance of a guard dog permit as provided herein.
(Code 1996, § 2.03.006; Ord. No. 695-01, 3/5/01)

Sec. 2.04.003. State law regarding cat and dog sterilization adopted.[29]

The city shall comply with all sterilization laws as set forth in V.T.C.A., Health and Safety Code, ch. 828. ~~A copy of the statute may be obtained from the animal control officer.~~
(Code 1996, § 2.04.003; Ord. No. 695-01, 3/5/01)

Sec. 2.03.001. Rabies control law adopted; local rabies control authority. [30]

The Rabies Control Act of 1981, V.T.C.A., Health and Safety Code, ch. 826 and the state minimum standards for rabies control and quarantine are adopted by reference as though fully set forth herein, including particularly V.T.C.A., Health and Safety Code, §§ 826.015 and 826.033. ~~A copy of the statute may be obtained from the animal control officer.~~ The animal control officer shall act as the local rabies control authority for the purposes of this article and enforcing the provisions of V.T.C.A., Health and Safety Code, ch. 826.
(Code 1996, §§ 2.03.001, 2.03.002; Ord. No. 695-01, 3/5/01)

Sec. 2.03.003. Dog and cat identification, registration, and vaccination.

(a) No owner shall have within the city any dog or cat four months of age or older unless the dog or cat is currently registered as required in this section. The animal control facility or city animal control officer shall annually register and issue identification tags to any person living in the city who owns or possesses a dog or cat, provided that no dog or cat shall be registered until it has a current vaccination.

(b) Application for initial issuance or renewal of each registration must be made annually by the owner in writing or in person and must be accompanied by a fee for each animal. If the dog or cat has been spayed or neutered, proof of sterilization shall be provided with the registration application.

(c) Registration certificates shall be renewed annually. The registration period will be from January 1 to December 31. Certificates for the new period shall be available for sale at least 30 days in advance and shall constitute valid registration upon issuance.

(d) Upon registration, a current metal registration tag will be issued by animal control, or a veterinarian authorized by animal control to issue the certificate. The tag must be affixed to a collar or harness that must be worn by the dog or cat all times.

---

[29] **Sec. 2.04.003. State law regarding cat and dog sterilization adopted.** Unnecessary text is stricken.

[30] **Sec. 2.03.001. Rabies control law adopted by reference; local rabies control authority.** Unnecessary text is stricken as shown.

Unedited First Draft

(e) Registration or vaccination certificates (and tags) shall be valid only for the animal for which the certificate or tag was originally issued. If there is a change in ownership of a registered dog or cat, the new owner shall have the identification tag transferred to his or her name within ten days after taking possession of the dog or cat. The application for transfer shall be made to animal control in writing or in person. There shall be no charge for a transfer of registration.

(f) Fees for registration of sterilized and unsterilized dogs and cat shall be as provided in the city fee schedule. Fee-exempt registrations may be issued for police or sheriff's department dogs and service dogs as defined in V.T.C.A., Human Resources Code, § 121.002(4). Veterinarians authorized by animal control to issue animal registration certificates may retain $1.00 of the registration fee for every animal registered in accordance with this section.
(Code 1996, § 2.03.003; Ord. No. 695-01, 3/5/01)

~~Sec. 2.03.004. Vaccination and license identification.~~[31]
~~An identification tag may not be issued for an animal that has not been vaccinated against rabies within the preceding year. The identification tag shall be valid for the length of time the rabies vaccination is valid.~~
~~(Code 1996, § 2.03.004; Ord. No. 695-01, 3/5/01)~~

Sec. 2.17.001. Residential breeder or foster owner license; facility standards.

(a) *License application.* Upon approval of the city council, the animal control officer shall issue annual residential breeder and residential foster owner licenses. The initial and renewal application for a license under this section shall include at a minimum:

(1) Name and permanent address of applicant and, if different, the location or address of the subject property or premises;

(2) The maximum number of dogs or cats that the applicant will keep, harbor, breed, raise and/ or foster on the subject property or premises; and

(3) A drawing showing the dimensions of the subject property or premises and identifying all structures on the premises, all fenced or enclosed areas, and the proximity of adjacent property owners and public streets.

(b) *Public hearing required; notice.* The city council shall hold a public hearing on any application for either a residential breeder license or a residential foster owner license or the renewal thereof. Public notice of the hearing shall be given by depositing written notice thereof in the mail addressed to all owners of real property located within 200 feet of the subject property or premises, as determined from the last approved city tax roll, and by publication thereof in a newspaper of general circulation in the city. Both the mailed and published notices shall be given at least ten days prior to the date set for the hearing.

(c) *Content of notice of hearing.* The notice shall state the date, time and place of the public hearing and adequately identify the location or address of the subject property or premises, state the nature of the application to be considered, and state that any party may appear in person or by attorney or agent. The

[31] **Sec. 2.03.004. Vaccination and license identification.** Stricken as duplicative of preceding section.

Unedited First Draft

public hearing procedure prescribed herein shall apply to the initial application for license and application for renewal thereof.

(d) *Fees.* An annual license and inspection fee shall be paid to the city prior to the issuance of any residential breeder or residential foster owner license or the annual renewal thereof in the amount provided in the city fee schedule.

(e) *Inspections; care and control standards.* The subject property or premises shall be subject to inspection by the city enforcement agent between the hours of 8:00 a.m. and 7:00 p.m. to ensure compliance with the following standards:

(1) The dogs or cats shall be housed in cages or pens inside a residence or a completely enclosed accessory structure.

(2) The dogs or cats shall be kept, harbored, bred, raised or fostered so as not to be a nuisance or detriment to any adjoining property or adjacent neighbors.

(3) The dogs or cats shall not bark, howl, create noises that cause the peace and quiet of the neighborhood or the adjacent premises to be disturbed, or create a public nuisance as defined by this chapter.

(4) The cages or pens in which the dogs or cats are housed shall be maintained in a sanitary condition, subject to the provisions of sections 2.16.002 and 2.16.005 herein, so as not to create any hazards to the general health and welfare of the community.

(5) The subject property or premises shall provide an enclosed or fenced area for the exercise of the dogs or cats that will be kept, harbored, bred, raised or fostered thereon containing a minimum area equal to or greater than 500 square feet multiplied by the number of dogs or cats six months of age or older including dogs or cats belonging to or owned by foster owners.

(6) The enclosed area in which the dogs or cats are to be housed shall be of adequate size, height and construction to prevent the dogs or cats from running at large.

(Code 1996, § 2.17.001; Ord. No. 695-01, 3/5/01)

Sec. 2.11.001. Keeping of fowl, rabbits, and guinea pigs.

(a) *Enclosure requirements.* Fowl, rabbits, and guinea pigs must be kept indoors, or if outdoors, in a secure pen or enclosure. Litter and droppings from these animals must be collected and disposed of in accordance with section 2.16.002 herein. However, the provisions of this section shall not apply to ducks or other waterfowl inhabiting natural or manmade watercourses or bodies of water.

(b) *Locational restrictions.* It is unlawful for any person to be in possession of fowl, rabbits or guinea pigs on any lot or tract of less than one acre or within 150 feet to any human living quarters in the city.

(Code 1996, §§ 2.11.001, 2.11.002; Ord. No. 695-01, 3/5/01)

Sec. 2.12.001. Beekeeping.

It is unlawful for any person to keep, or allow to be kept, bees in such a manner as to deny the reasonable use and enjoyment of adjacent property or endanger the personal health, safety and welfare of the

Unedited First Draft

inhabitants of the city. Honeybees may be kept if the following conditions are met:

(1) All hives shall be located a minimum of one hundred fifty feet (150') from any inhabited dwelling other than that of the person keeping such bees; and

(2) No more than three hives shall be allowed on lots or tracts of land less than one acre in area.

(3) There is an adequate source of water within twenty feet (20') of all hives; and

(4) Any hive contaminated with or known to have Africanized honeybees (killer bees) shall be destroyed by a qualified beekeeper or licensed bee remover at the owner's expense.

(Code 1996, § 2.12.001; Ord. No. 695-01, 3/5/01)

ARTICLE II. LIVESTOCK

Sec. 2.09.001. Keeping of livestock generally.

It is unlawful for any person to keep or permit the keeping of livestock on premises owned by him or under his control, except in compliance with the following regulations:

(1) Livestock shall not be kept on lots and tracts of land less than one acre in area;

(2) On lots and tracts of land between one acre and two acres in area, inclusive, no more than five livestock shall be kept; and

(3) On lots and tracts of land greater than two acres in area, there shall be no limit to the number of livestock that may be kept provided that adequate fences, barriers and other facilities are provided as required in sections 2.09.002 and 2.09.003 herein and, provided further, that a public nuisance is not created.

(4) The provisions of article 2.02 herein, relative to animal care in general, shall specifically apply to the keeping of livestock.

(5) It shall be a defense to prosecution regarding the number of livestock being kept, that the same livestock and no more than the number and kinds of livestock in question were being kept on the same premises, by the same owner, prior to March 5, 2001. Notwithstanding the foregoing, at such times as the livestock on the property dies or is otherwise disposed of by the owner, it may not be replaced until such time as the livestock meets the requirements set forth herein and then may only be replaced to the extent such number and kind is in conformance with this section.

(6) Notwithstanding anything herein to the contrary, it is unlawful for any person, other than a veterinarian, to keep any live swine within the city, except in areas zoned or designated for rural or agricultural purposes by the city zoning ordinance. This section shall not prohibit the keeping of not more than two purebred Vietnamese potbellied pigs with appropriate documentation as to breeding. Such documentation shall be kept available for inspection by a city enforcement agent upon demand. These potbellied pigs shall be no more than forty (40) inches from nose to tail, no higher than 20 inches at the shoulder and no heavier than ninety-five (95) pounds.

(7) Livestock shall not be kept in designated front yard areas as defined in city zoning regulations.

Unedited First Draft

(8) It is unlawful for any person to keep on premises under his or her control, within the city limits, any small or large livestock in such a manner that the livestock will be quartered closer than 150 feet to any human living quarters, other than the living quarters of the owner or keeper.

(9) Notwithstanding the foregoing, should another provision of this Code, such as zoning regulations, govern the setback requirement for a specific structure, or relate to the keeping of livestock, the other provision controls. Further, any structure that is in existence on March 5, 2001, shall constitute a nonconforming structure, which shall be grandfathered until such time as the same is removed with the intent to abandon or relocate the structure or is otherwise deemed to be a nuisance.
(Code 1996, § 2.09.001; Ord. No. 695-01, 3/5/01)

Sec. 2.09.002. Adequate fences and barriers.

(a) It is unlawful for any person to keep on his or her premises any livestock without providing adequate fences or barriers that will prevent such livestock from escaping or damaging neighboring flowers, trees, shrubbery or other property located on adjacent property.

(b) It shall be a rebuttable presumption that such fences or barriers are inadequate for the designated purpose, if livestock escapes from the premises. This presumption is rebuttable and shall have the effects and consequences set forth in V.T.C.A., Penal Code, § 2.05.

(c) A fence or barrier may include but is not limited to electronic barriers, whether underground, electrified wiring, or the erection of any structure of wood or wire, wood and wire, masonry or any other material, whether it encloses land on all sides or only on one or more sides, which is intended to prevent the passage of livestock. Such a fence or barrier is the means by which the land is enclosed so as to prevent the ingress and egress of livestock, and to make a complete enclosure that is sufficient, in unusual circumstances, to turn livestock of ordinary habits and disposition.
(Code 1996, § 2.09.02; Ord. No. 695-01, 3/5/01)

Sec. 2.09.003. Barns, stables and other animal facilities.

All barns, stables, and other animal facilities constructed after March 5, 2001, shall meet the requirements of the city building code and zoning regulations as applicable thereto.
(Code 1996, § 2.09.003; Ord. No. 695-01, 3/5/01)

Sec. 2.09.004. Places livestock prohibited.

It is unlawful for any person to ride or allow any type of livestock upon any public school ground, public park or municipal grounds within the city other than public rights-of-way or areas designated for such purpose; provided, however, the provisions of this section shall not apply to the riding or showing of horses or other livestock in conjunction with authorized parades, carnivals or other school or civic sponsored programs or events.
(Code 1996, § 2.09.004; Ord. No. 695-01, 3/5/01)

Sec. 2.10.001. Authority to impound livestock.

Any livestock found running at large within the corporate limits of the city may be impounded by a city enforcement agent, the county sheriff’s department, or their designee.
(Code 1996, § 2.10.001; Ordinance 695-01 adopted 3/5/01)

Unedited First Draft

Sec. 2.10.002. Disposal of impounded livestock.

(a) In the event that ownership of the impounded livestock can not be determined, the livestock will be held at the Dallas County holding facility for livestock and impounded by the Dallas County sheriff's department. At such time, the livestock shall become the responsibility of Dallas County. Should the owner be located within the five-day period, the owner shall pay all required fees. It is the intent of the city to comply with applicable provisions of state law relative to the impoundment of estrays.

(b) If, for any reason, the livestock are not able to be held at the Dallas County holding facility, the livestock shall be held at the designated animal shelter in use by the city for a period of five days. At such time, the livestock shall become the responsibility of the city. Should the owner be located within the five day period, the owner shall pay all required fees.

(c) If impounded livestock are sold at public auction by the Dallas County sheriff's department, the county holding facility will apply such amount to the proceeds as necessary to satisfy the fees and costs incurred because of animal impoundment and auction, and any fees and costs incurred by the city for impounding the livestock, restitution for any damage sustained by a property owner for said livestock having been at large, upon submission of a notarized affidavit and satisfactory proof of such damage, and shall deposit the remainder of such monies, if any, in the city general fund. Upon payment of all fees, costs and restitution, any remaining monies shall be returned to the owner of the livestock upon submission of a sworn notarized affidavit that the applicant was in fact the owner of the livestock immediately prior to the sale.
(Code 1996, § 2.10.02; Ord. No. 695-01, 3/5/01)

ARTICLE III. WILD AND EXOTIC ANIMALS

Sec. 2.08.001. Keeping of wild or exotic animals prohibited.

Any species of wild or exotic animal, not considered domesticated according to generally accepted animal control or veterinary practices, that poses a potentially serious threat to public health, safety or welfare, or is protected by international, federal or state regulations or any other wild animal, including birds of prey capable of or inclined to do serious bodily harm to humans or other domestic animals or fowl, shall not be kept within the corporate limits of the city.
(Code 1996, § 2.08.001; Ord. No. 695-01, 3/5/01)

Sec. 2.08.002. Exemptions to prohibition to keep wild or exotic animals.

The provisions in section 2.08.001 above shall not apply to the keeping of wild or exotic animals if the owner or possessor:

(1) Is a governmental agency or entity; or

(2) Holds a circus, carnival or zoo license from the state; or

(3) Is a licensed individual, or a member of a non-profit animal rehabilitation organization holding a permit from the state department of parks and wildlife; or

(4) Is a research institution or an accredited educational institution.
(Code 1996, § 2.08.002; Ord. No. 695-01, 3/5/01)

Unedited First Draft

Sec. 2.08.003. Exceptions to prohibition to keep wild or exotic animals.

(a) The following wild or exotic animals may be kept within the city, provided certain requirements are met:

(1) Bison, provided they are kept on lots or tracts of land two acres or greater in area; however, it shall be a defense to prosecution regarding the keeping of bison on lots or tracts of land less than two acres in area that the same bison and no more than the number of bison in question were being kept on the same premises, by the same owner, prior to March 5, 2001.

(2) Exotic birds, provided they are not birds of prey.

(3) Emus, ostriches, or rheas, pursuant to the provisions of article 2.09 herein; however, it shall be a defense to prosecution regarding the number of emus, ostriches or rheas being kept, that no more than the number of emus, ostriches or rheas in question were being kept on the same premises, by the same owner, prior to March 5, 2001.

(4) Any other animal not previously excluded in section 2.08.001 of this chapter and legally procured from breeders, pet stores or other persons, businesses or corporations engaged in the buying, selling or trading of said animals.

(b) The animals listed in this section may be kept within the city provided the owner or possessor of such animals meets the following requirements:

(1) Any area within the city where these animals are kept is zoned so as to allow the keeping of such animals.

(2) Any enclosure, corral, pen, cage or restrictive area in which these animals are kept is constructed so as to prevent their escape.

(3) All necessary international, federal, state, or local licenses or permits have been obtained, if required.
(Code 1996, § 2.08.003; Ord. No. 695-01, 3/5/01)

Sec. 2.06.011. Authority to seize or destroy dangerous and wild or exotic animal.

(a) In the event that any animal is declared to be a dangerous animal, or where a wild or exotic animal is found in violation of any provision of this chapter, a justice court, county court or municipal court may order the city enforcement agent to seize and impound such animal and shall issue a warrant authorizing the seizure.

(b) If the animal is found at large and is presenting a clear and present danger of imminent bodily injury or death to the city enforcement agent or any other person or animal, the animal may be destroyed and the owner notified if the owner can be established.
(Code 1996, § 2.06.011; Ord. No. 695-01, 3/5/01)

Sec. 2.03.005. Wild or exotic animal permits.

(a) The city animal control officer shall register and issue wild or exotic animal permits consistent and in accordance with the applicable provisions of article 2.08 for the purpose of owner identification in

Unedited First Draft

cases where an animal has bitten, scratched, attacked or injured a human being or another animal and in cases where the animal might become impounded, lost or injured. No permits will be issued for the purpose of keeping any wild or prohibited animal as a pet.

(b) If international, federal or state licenses or permits are required, the owner of the wild or exotic animal shall also obtain a wild or exotic animal permit from the city.
(Code 1996, § 2.03.005; Ord. No. 695-01, 3/5/01)

Sec. 2.08.004. Impoundment or quarantine of wild or exotic animals.

(a) The city enforcement agent may seize or order the immediate impoundment or quarantine, at the owner's expense, of any wild or exotic animal found in the city where there is a potentially serious threat to public health, safety or welfare, or if in violation of any provision of this chapter. The city enforcement agent may seek a seizure warrant from a justice court, county court or municipal court, which court, upon probable cause, may issue a warrant authorizing a seizure.

(b) A hearing shall be conducted on this disposition of the animal within ten business days of the date of seizure. The owner or harborer of the animal, to the extent the same is known or can be determined through reasonable due diligence, shall receive written notice of the hearing, by personal service or certified mail, return receipt requested, as soon as practicable but not later than five days prior to the hearing.
(Code 1996, § 2.08.004; Ord. No. 695-01, 3/5/01)

ARTICLE IV. ANIMAL NUISANCES

Sec. 2.16.001. Maximum number of animals.

It is unlawful to keep or harbor more than six dogs or cats or combination thereof that are six months of age or older on any premises used or zoned for residential purposes and less than two acres in area; provided, however, the provisions hereof shall not apply to licensed residential breeders or licensed residential foster owners. The keeping of more than the maximum number of animals permitted by this section shall be a public nuisance.
(Code 1996, § 2.16.001; Ord. No. 695-01, 3/5/01)

Sec. 2.16.002. Disposal of excrement.

(a) All animal manure and other excrement shall be disposed of in such a manner so as to prevent it from becoming a public nuisance.

(b) An owner, harborer, or other person having care, custody, or control of a dog commits an offense if he knowingly permits, or by insufficient control allows, the dog to defecate in the city:

(1) On private property other than property owned, leased, or controlled by the owner, harborer, or person having care, custody, or control of the dog; or

(2) On public property or any other place to which the public or a substantial group of the public has access, including but not limited to a street, sidewalk, alley, park, or playground, or any common area of a school, hospital, apartment house, office building, transport facility, or shop.

(c) It is a defense to a prosecution under subsection (b) that:

Unedited First Draft

(1) The owner, harborer, or other person having care, custody, or control of the dog immediately and in a sanitary manner removed and disposed of, or caused the removal and disposal of, all excreta deposited on the property by the dog;

(2) The dog was specially trained to assist a person with a disability and was in the care, custody, or control of that disabled person at the time it defecated on the property;

(3) The owner or person in control of the property had given prior consent for the dog to defecate on the property; or

(4) The dog was being used in official law enforcement activities.

(d) A person who violates this section is guilty of an offense and, upon conviction, is punishable by a fine not to exceed $50.00 for the first offense, $100.00 for the second offense, and $200.00 for the third and each subsequent offense.
(Code 1996, § 2.16.002; Ord. No. 695-01, 3/5/01)

Sec. 2.16.004. Noise prohibited.

It is unlawful for any owner to allow an animal to cause a disturbance by excessive, continuous, habitual or untimely barking, howling, crowing or noise-making near the private residence of another. A person shall be deemed to have knowingly violated the terms of this section if such person is notified by animal control or the police department of a complaint regarding an animal noise disturbance and fails to cease and thereafter prevent its recurrence.
(Code 1996, § 2.16.004; Ord. No. 695-01, 3/5/01)

Sec. 2.16.005. Odors or unclean conditions prohibited.

(a) It is unlawful for any owner to allow an animal to produce odors or unclean conditions sufficient to create a public nuisance.

(b) It is unlawful for any owner to allow an animal to be kept in a manner or under conditions which creates foul odors, unsanitary conditions, an unreasonable presence of vermin or their offspring, or other harmful or offensive conditions which can be attributed to the presence of the animal or to its physical or environmental conditions, including but not limited to the accumulation of animal excreta.

(c) A person who violates this section is guilty of a misdemeanor offense and, upon conviction, is punishable by a fine in accordance with the general penalty provision found in section 1.01.009 of this code.
(Code 1996, § 2.16.005; Ord. No. 695-01, 3/5/01)

Sec. 2.16.006. Animals at large prohibited.

It is unlawful for any owner to allow an animal to chase vehicles or molest, attack, or interfere with other animals or persons on public property, or be at large in the city. The animal enforcement agent is authorized to impound any animal at large.
(Code 1996, § 2.16.006; Ord. No. 695-01, 3/5/01)

Sec. 2.16.007. Penalty.

Unedited First Draft

Violation of this article, except as otherwise specifically stated herein, is a misdemeanor offense and, upon conviction, is punishable by fine not to exceed $200.00 for the first offense, $300.00 for the second offense, $400.00 for the third offense, and $500.00 for the fourth and each subsequent offense.
(Code 1996, § 2.16.007; Ord. No. 695-01, 3/5/01)

ARTICLE V. DANGEROUS ANIMALS[32]

Sec. 2.06.001. State law adopted.

The city council adopts the regulations and procedures outlined in the V.T.C.A., Health and Safety Code, § 822.001 et seq.
(Code 1996, § 2.06.001; Ordinance 695-01 adopted 3/5/01)

Sec. 2.06.002. Permit required.

No person shall knowingly sell, own, offer for sale, breed, possess, keep, buy or attempt to buy, or train a dangerous animal within the city unless the owner has received the proper permit pursuant to this chapter.
(Code 1996, § 2.06.002; Ord. No. 695-01, 3/5/01)

Sec. 2.06.003. Complaints regarding dangerous animals.

(a) Upon receipt of a written, sworn, notarized affidavit by any person, charging that a particular animal is dangerous, a city enforcement agent shall investigate the incident within three working days to determine whether such animal is, in fact, dangerous. If the animal has bitten a human then the animal must be held at the animal control facility or at an approved quarantine veterinarian clinic for the period required by law. Any written sworn notarized affidavit shall contain at least the following information:

(1) Name, address and telephone number of the complainant and witnesses;

(2) Date, time and location of the incident;

(3) A complete description of the animal including breed, color, sex, size, etc.;

(4) Name, address and telephone number of the animal's owner, if known, or the premises where the animal is kept;

(5) A statement that the animal bit or attacked with as much detail as possible with regard to the incident and whether medical attention was required; and

(6) Any other facts that the complainant believes to be relevant.

(b) The following will apply regarding the investigation to determine whether an animal shall be declared "dangerous":

---

[32] **Art. #. Dangerous Animals.** It is unclear as to whether the provisions in this article are intended to apply to dangerous animals generally or dangerous dogs only. Please clarify.

Unedited First Draft

(1) Notice of such investigation shall be provided by a city enforcement agent to the owner of the animal either in person or by certified mail, return receipt requested. The complainant in the matter shall also be notified either in person or by certified mail, return receipt requested. During the investigation, all parties shall be given the opportunity to present evidence on the issue of whether such animal is to be declared dangerous.

(2) If required by the animal control officer and in accordance with state law, the owner of the animal shall deliver the animal to the city enforcement officer for impoundment within five days of the notice that a sworn complaint has been filed.

(3) The suspect animal shall be seized by the city enforcement agent pursuant to a sworn complaint, impounded, and if necessary, medically examined at the owner's expense if the animal caused serious bodily injury to a person. An animal causing serious bodily injury shall be held at an animal control facility pending the outcome of an investigation and determination as to whether the animal is, in fact, classifiable as dangerous. Such an investigation to determine if an animal is dangerous shall be conducted within ten days after receipt of the complaint or seizure of the animal.

(c) Upon conclusion of the investigation to determine if an animal is dangerous, the city enforcement agent may find that the animal is not dangerous. In such case, the animal shall be returned to the owner, provided the animal has been properly vaccinated and registered and all impoundment and medical fees paid.

(d) Should the animal be classified as a dangerous animal, the owner shall comply with one of the following requirements:

(1) Provide for the keeping of the animal as detailed in sections 2.06.004 and 2.06.005 of this chapter; or

(2) The court may order the seizure and humane destruction of the dangerous animal by a person listed in V.T.C.A., Health and Safety Code, § 822.004 consistent with state law requirements.

(e) No animal shall be declared a dangerous animal if the threat, injury or damages caused by the animal were the result of a willful trespass upon another's property; or the person injured was tormenting, abusing or assaulting the animal or its owner, or was committing or attempting to commit a crime at the time of injury.

(f) If an animal that has been declared to be a dangerous animal causes death or serious bodily injury to a person, the court may order the dangerous animal destroyed, consistent with state law requirements, by a person listed in V.T.C.A., Health and Safety Code, § 822.003 and all related expenses will be paid by the owner.

(g) Findings of the city enforcement agent pertaining to dangerous animals may be appealed to the city municipal court. An owner may appeal the decision of the city enforcement agent to the judge of the municipal court in the same manner as an appeal is made for other criminal cases. During the pendency of such appeal; however, the animal shall be confined in such a manner so as to protect the health and safety of the public until a final disposition is reached, unless otherwise ordered by the court, and provided the requisites for the keeping of a dangerous dog, as stated in this chapter, are satisfied.

(h) The owner may permanently remove the dangerous animal from the city limits, upon compliance with the following conditions:

Unedited First Draft

(1) The new owner must comply with local and state regulations for owning a dangerous dog and acknowledge, by sworn affidavit, that he/she has been advised that the dog has been deemed dangerous, is aware of the state law requirements and agrees to be bound by state law requirements.

(2) The name, address and phone number of the new owner and the location where the animal will be kept must be submitted to the animal control officer.

(3) The animal control officer shall notify the local authority of the classification of said animal as dangerous.

(4) Proof of compliance with the local and state laws from the local authority relating to dangerous Dogs must be provided to the city.
(Code 1996, § 2.06.003; Ord. No. 695-01, 3/5/01)

Sec. 2.06.004. Keeping of dangerous animals; failure to comply.

(a) Responsibility of owner. Not later than the 30th day after a person learns that the person is the owner of a dangerous dog, the person shall:

(1) Register the dangerous animal with the city animal control officer;

(2) Obtain liability insurance or show financial responsibility in an amount of at least one hundred thousand dollars ($100,000.00) to cover damages resulting from an attack by the dangerous dog causing bodily injury or death of any person, or for damages to any person's property, resulting from the keeping of such dangerous animal. Acceptability of such proof of liability insurance coverage or financial responsibility shall be subject to the final review and approval of the city attorney, which coverage shall require that it may not be cancelled without prior written notification to the city not less than 30 days prior to cancellation. It is unlawful for an owner of any dangerous dog found in the city to fail or refuse to present proof to an animal control officer or a designated representative, upon request, of current liability insurance coverage or proof of financial responsibility as required under this subsection.

(3) Restrain the dangerous animal at all times on a leash in the immediate control of the owner, or in a secure pen or enclosure as prescribed in this chapter.

(A) All dangerous Dogs, if not in a secure pen, shall be securely confined indoors.

(B) No dangerous animal may be kept on a porch, patio, or in any part of a house or structure that would allow the animal to exit such building of its own volition. In addition, no dangerous animal may be kept in a house or structure when the windows are open or when screen windows or screen doors are the only obstacles preventing the animal from exiting the structure.

(4) Provide to the city enforcement agent the name and address of the owner, breed, age, sex, color and any other identifying marks of said animal; the location where the animal is to be kept if not at the address of the owner; two color photographs of the dangerous animal, and the aforementioned certificate of liability insurance.

(5) Provide proof of the required documents necessary to register the animal and pay the required registration fee. The city enforcement agent shall provide to the owner a registration tag designating the animal as dangerous. The owner must place the tag on the animal's collar and must ensure that the animal

Unedited First Draft

wears such tag and collar at all times.

(6) Not allow the animal to go outside its pen, cage or enclosure unless the animal is under physical restraint and securely muzzled. No person shall permit a dangerous animal to be kept outside its cage, pen or enclosure on a chain, rope or other type of leash unless the owner is in physical control of the chain, rope or other type of leash. Dangerous animals shall not be leashed to inanimate objects such as trees, posts, buildings, etc. Signs, approved by the animal control officer, giving notice of the dangerous animal shall be prominently displayed so that all persons entering said property are immediately notified that a dangerous animal is being kept at the location.

(7) Microchip the dangerous animal, provide the microchip identification number and proof of insertion from a licensed veterinarian to animal control.

(b) Failure to comply.

(1) If the owner fails to register and restrain the dangerous dog or obtain liability insurance or comply with all other municipal restrictions, regulations or requirements or otherwise deliver the dog to the city enforcement officer, said owner shall deliver the dog to the city enforcement officer not later than the 30th day after the owner learns that the dog is a dangerous dog. If, upon application, a justice court, county court or municipal court finds that the owner failed to comply with subsection (a) herein, the court shall order the city enforcement officer to seize the dog and shall issue a warrant authorizing the seizure of the dog. The city enforcement officer shall seize or cause to be seized the dog and provide for impoundment under secure, humane conditions. The owner shall pay any cost or fee assessed by the city related to the seizure, acceptance and impoundment of the dog. The owner then has eleven days after the seizure to comply or the dog must be ordered humanely destroyed. The court can destroy the dog after 15 days if the owner cannot be found.

(2) Failure to comply constitutes a misdemeanor, which upon conviction is punishable by a fine in accordance with the general penalty provision found in section 1.01.009 of this code. Subsequent offenses are class B misdemeanors and shall be referred to the appropriate court.
(Code 1996, § 2.06.004; Ord. No. 695-01, 3/5/01)

Sec. 2.06.005. Dangerous animal enclosures.

The pen, cage or enclosure for a dangerous animal must be constructed from materials of sufficient strength to prevent the animal's escape, and must have secure sides, a secure top attached to the sides, and a secure bottom which is either attached to the sides or constructed so that the sides of the structure are embedded in the ground no less than two feet.
(Code 1996, § 2.06.005; Ord. No. 695-01, 3/5/01)

Sec. 2.06.006. Seizure of dog.

(a) Basis of seizure. The municipal court shall order the seizure of a dog and issue a warrant authorizing said seizure upon:

(1) A sworn complaint that the dog caused the death or serious bodily injury to a person; and upon

(2) A showing of probable cause to believe that the dog caused death or serious bodily injury to a person; and upon

Unedited First Draft

(3) Any other basis authorized by state law.

The dog is to be seized and impounded until the court orders the disposition of the animal.

(b) Hearing. A hearing is to be set by the court not later than the 10th day after the date on which the warrant is issued. The court is to give written notice to the concerned parties, the owner or person from whom the dog was seized and the complainant, and any other interested party, including the city attorney.

(c) Destruction of dog. The dog must be destroyed if the court finds that the dog caused the death of a person. The dog may be ordered destroyed if the court finds it caused only serious bodily injury by attacking, biting or mauling a person. If such findings are not made, the court is to release the dog to the owner, the person from whom the dog was seized or to any other authorized person.

(d) Exceptions to destruction. Even if the dog caused serious bodily injury to a person by attacking, biting or mauling, the court may not order its destruction if it also finds one of the following to be true:

(1) The dog was being used for protection of a person or a person's property and

(A) The attack, bite or mauling occurred in the dog's enclosure;

(B) The enclosure was reasonably certain to prevent the dog from leaving the enclosure on its own;

(C) Notice was provided of the presence of the dog;

(D) The injured person was at least eight years old; and

(E) Was trespassing in the enclosure at the time of the attack, bite or mauling;

(2) The dog was not being used for the protection of a person or a person's property but

(A) The attack, bite or mauling occurred in the dog's enclosure;

(B) The injured person was at least eight years old; and

(C) Was trespassing in the enclosure at the time of the attack, bite or mauling;

(3) The attack, bite or mauling occurred during an arrest or other action by a peace officer while the peace officer was using the dog for law enforcement purposes;

(4) The dog was defending a person from an assault or person's property from damage or theft by the injured person; or

(5) The injured person was younger than eight years old and

(A) The attack, bite or mauling occurred in the dog's enclosure; and

(B) The enclosure was reasonably certain to keep a person younger than eight years old from entering the enclosure.

(Code 1996, § 2.06.006; Ord. No. 695-01, 3/5/01)

Unedited First Draft

Sec. 2.06.007. Dangerous dog determination.

(a) An owner learns that he/she is the owner of a dangerous dog when one of the following events occurs:

(1) Owner knows of an attack as described in Texas Health and Safety Code section 822.041(2)(A) or (B) and as provided herein;

(2) The dog makes an unprovoked attack on a person that causes bodily injury and occurs in a place other than an enclosure in which the dog was being kept and that was reasonably certain to prevent the dog from leaving the enclosure on its own;

(3) The dog commits unprovoked acts in a place other than an enclosure in which the dog was being kept and that was reasonably certain to prevent the dog from leaving the enclosure on its own and those acts cause a person to reasonably believe that the dog will attack and cause bodily injury to that person;

(4) The owner is informed by the city enforcement agent that the dog is dangerous as determined by the city enforcement agent through investigations and upon sworn statements. The owner may appeal this decision to the municipal court within 15 days, as set forth in section 2.06.008; or

(5) Owner receives notice that the municipal court has found the dog is dangerous after a hearing on the matter, either on a report of an attack that caused bodily injury, or after an owner fails to comply with the requirements of an owner of a dangerous dog.

(b) Criminal responsibility for the keeping of a dangerous dog may be established by intent, knowledge or recklessness.
(Code 1996, § 2.06.007; Ord. No. 695-01, 3/5/01)

Sec. 2.06.008. Appeal of dangerous dog determination.

Findings of the city enforcement agent pertaining to dangerous animals may be appealed to the city municipal court, county court, or justice court of competent jurisdiction in accordance with the Health and Safety Code, section 822.0421(b), as amended. An owner may appeal the decision of the city enforcement agent to the judge of the municipal court in the same manner as an appeal is made for other criminal cases, but not later than the 15th day after the owner is notified of the city enforcement agent's determination. During the pendency of such appeal, the findings of the city enforcement agent shall be suspended; however, the animal shall continue to be impounded at the owner's expense at the designated animal control facility for observation and to protect the health and safety of the public until a final disposition is reached, or compliance with the requirements for the keeping of a dangerous dog are satisfied, unless otherwise ordered by the court. Appeal from the municipal court determination is the same as any other appeal from the municipal court.
(Code 1996, § 2.06.008; Ord. No. 695-01, 3/5/01)

Sec. 2.06.009. Report of dangerous dog to municipal court.

(a) A person may report a section 822.041(2) incident to the municipal court requiring only the establishment of bodily injury and not serious bodily injury.

(b) The dog owner must then deliver the dog to the animal control officer not later than the 5th day from the date the owner receives notice that the report has been filed.

Unedited First Draft

(c) If the owner fails to deliver the animal, the municipal court can issue a warrant authorizing the seizure of the dog. The dog will be impounded, at the owner's expense, until the court orders the disposition of the dog.

(d) Once the court has received an incident report or an application of a violation of section 822.042(c) the court will hold a hearing to determine whether a dog is dangerous or whether the owner has complied with the requirements for an owner of a dangerous dog not later than the 10th day after the dog is seized or delivered. Texas Health and Safety Code, section 822.0423.

(e) The appeal of the municipal court's decision is in the same manner as provided in the appeal of other municipal court cases. Texas Health and Safety Code, section 822.0423.
(Code 1996, § 2.06.009; Ord. No. 695-01, 3/5/01)

Sec. 2.06.010. Dogs that attack domestic animals.

(a) The city enforcement agent, to the extent applicable, shall adhere to procedures relative to Dogs that are a danger to animals, as set forth in subchapter B, section 822.011 et seq. of the Texas Health and Safety Code.

(b) Dogs deemed to be dangerous due to attacks on domestic animals shall be subject to the procedures set forth in this article for registration, hearing, determination or destruction.
(Code 1996, § 2.06.010; Ord. No. 695-01, 3/5/01)

ARTICLE VI. ADMINISTRATION AND ENFORCEMENT

DIVISION 1. GENERALLY

Sec. 2.01.003. Enforcement authority; compliance with citations.

(a) The city enforcement agent shall be responsible for enforcement of this chapter, except as may be provided herein. Enforcement may be by the filing of a complaint in municipal court, by proceedings to enjoin nuisances or in any other manner authorized by law. An animal control officer and the city enforcement agent is authorized to issue citations for a violation of this chapter.

(b) It is unlawful for any person being issued a citation for a violation of this chapter to be filed in municipal court or any civil proceeding to intentionally or knowingly fail to give the city enforcement agent his or her true name and address or to intentionally or knowingly fail to appear in accordance with the terms of a citation or civil process issued by the city enforcement agent.

(c) If the individual who is to receive the citation is not present, the city enforcement agent may send the citation to the alleged offender by certified or registered mail, return receipt requested. If said citation should come back unclaimed, the citation shall be sent regular mail. If this regular mailing does not come back unclaimed, then service shall be deemed completed.
(Code 1996, § 2.01.003; Ord. No. 695-01, 3/5/01)

Sec. 2.07.001. Right of entry; search warrants; seizure warrants.

(a) City enforcement agents are hereby authorized to enter upon any fenced or unfenced lot, tract or parcel of land, to the extent allowed by law, for the purpose of capturing, impounding or quarantining any

Unedited First Draft

animal upon having probable cause to believe said animal to: have bitten, injured or otherwise attacked a human being or other animal; to have, or have been exposed to, rabies or another communicable disease posing a danger to the public health, safety or welfare; or otherwise posing a clear and present danger to human beings or other animals.

(b) This authorization is granted due to the emergency created by the potential rabies hazard or danger of injury to persons or other animals, and in recognition of the likelihood that such animal will otherwise escape capture. As a matter of policy, city enforcement agents shall not enter upon private property to capture or impound any animal known to belong to the owner of said property without probable cause. An animal control agent may enter upon a person's property if it is believed that said animal poses a threat or danger to property, human beings or other animals, or is in violation of the restraint law.

(c) Furthermore, should the city enforcement agent have probable cause to believe an animal has been, or is being, cruelly treated or has rabies or another communicable disease, the city animal control may, pursuant to V.T.C.A., Health and Safety Code, § 821.022, obtain a seizure warrant and impound such animal, even if it is enclosed on private property.

(d) The city enforcement agents may seek all available remedies allowed by law to gain entry onto property, including but not limited to search and seizure warrants.
(Code 1996, § 2.07.001; Ordinance 695-01 adopted 3/5/01)

Sec. 2.07.002. Failure to deliver animal for quarantine upon demand.

It is unlawful, and a violation of this chapter, for any person to fail to deliver an animal to the city enforcement agent, upon demand for impoundment, when an animal must be quarantined for legitimate medical reasons or for other health and safety reasons stated in this chapter.
(Code 1996, § 2.07.002; Ord. No 695-01, 3/5/01)

Sec. 2.01.002. Penalties.

(a) Any person violating any provision of this chapter, upon conviction, shall be deemed guilty of a class C misdemeanor, and fined in accordance with the general penalty provision found in section 1.01.009 of this Code or the amount fixed by state law if the violation is one for which the state has a fixed fine. A separate offense shall be deemed committed upon each day during or on which a violation occurs or continues to occur.

(b) Unless otherwise specifically set forth herein, or in state law as adopted, allegation and evidence of culpable mental state are not required for proof of an offense defined by this chapter.
(Code 1996, § 2.01.002; Ord. No. 695-01, 3/5/01)

DIVISION 2. IMPOUNDMENT, REDEMPTION AND DISPOSITION

Sec. 2.04.001. Authority and duties of enforcement agents.

(a) City enforcement agents are authorized to capture and impound any animal upon having probable cause to believe said animal to be in violation of any provision of this chapter or state law which authorizes or requires the animal's capture and impoundment, and in so doing, to enter upon any fenced or unfenced lot, tract or parcel of land when deemed necessary for the protection of the public health, safety and welfare, as allowed by law. As a matter of policy, city enforcement agents shall not enter upon

Unedited First Draft

private property to capture or impound any animal known to belong to the owner of said property without probable cause. An animal control agent may enter upon the property, as allowed by law, to capture an animal if it is believed that said animal poses a threat or danger to property, human beings or other animals.

(b) Additionally, it is the responsibility of the city enforcement agent to accept any animal delivered to the animal control facility pursuant to the requirements of this chapter, except those animals that are voluntarily released by their owners. For an animal to be voluntarily released, the owner must sign an owner release form and pay necessary fees. In addition, it is the duty of the city enforcement agent to capture and impound wild or non-domesticated animals in response to citizens' complaints of public nuisance or to control feral populations.
(Code 1996, § 2.04.001; Ord. No. 695-01, 3/5/01)

Sec. #. Interference with impounding officers.

It is unlawful for any person to interfere with, or attempt to prevent, a city enforcement agent from capturing or impounding any animal which may be legally impounded or otherwise interfering with the city enforcement agent while carrying out his or her lawful duties.
(Code 1996, art. 2.05; Ord. No. 695-01, 3/5/01)

Sec. 2.04.002. Procedure generally.

(a) If, by identification tag, the owner of an impounded animal can be identified, the city enforcement agent will, as soon as practical, notify the owner either in person or by telephone of said impoundment. If the animal is locally owned within the city and telephone contact cannot be made, the city enforcement agent will leave a notice at the owner's residence indicating that the animal has been impounded.

(b) All impounded animals shall be kept for not less than five days, unless the animal is reclaimed earlier by the owner under acceptable conditions. However, no impoundment period is required for an animal voluntarily delivered and released to the animal control facility or city animal control officer by its owner.

(c) After the expiration of any required impoundment period, the impounded animal shall be released to the animal control facility. At that time, the animal shall be disposed of by adoption from the facility, by offering it to a local animal humane group for adoption, or by humanely destroying the animal. No record shall be kept by the city animal control department as to the disposition of an individual animal after release is made to the animal control facility.

(d) Any animal, whether licensed or unlicensed, which is in great pain and suffering due to injury and probably will not recover, or which appears to have rabies, or which is at large and is posing an imminent danger to human beings or to other animals, may be destroyed by the city animal control officer.

(e) Any owner or person redeeming an unsterilized animal from the animal control facility for the fourth time within any 12-consecutive months must have the animal sterilized within 30 days of the date the animal is released from the facility. Proof of sterilization must be provided to the animal control facility within ten days of compliance.
(Code 1996, § 2.04.002; Ord. No. 695-01, 3/5/01)

Sec. 2.04.004. Adoption.

Unedited First Draft

(a) A person may adopt a dog or cat from the animal control facility that has been spayed or neutered and classified as adoptable. If the animal has not been spayed or neutered the adopting person must sign an agreement to have the animal spayed or neutered within a given period of time determined by an animal control agent. Written confirmation of such sterilization must be provided to animal control within seven days of the given date. The new owner shall be solely and legally responsible for compliance with all requirements specified in the adoption receipt and sterilization agreement executed at the time the animal is adopted.

(1) The animal control officer may establish an adoption receipt and sterilization agreement for use in the adoption process, and violation of any term of such agreement shall constitute a violation of this chapter.

(2) Any person who fails to sterilize the animal as set forth in the sterilization agreement is guilty of a misdemeanor offense and, upon conviction, is punishable by a fine in accordance with the general penalty provision found in section 1.01.009 of this Code.

(b) The animal control officer may refuse to allow a person to adopt an animal for any reason, including but not limited to a person to whom he/she has reason to believe:

(1) Would not have proper facilities to contain or care for the animal.

(2) Wants the animal for the purpose of resale or for purposes other than pet ownership.

(3) That there are reasonable grounds to believe the animal would be subjected to abandonment or cruelty.

(4) The person is under the age of 18.

(5) That the purpose of the adoption is to avoid, or assist in the avoidance of, the enforcement of any provision of this chapter.

(c) The person adopting the animal shall pay all applicable costs of adoption as set forth in the city fee schedule.

(d) The animal control officer shall be the sole judge as to whether an animal is suitable to offer for adoption; however, a decision to offer a particular animal for adoption shall not constitute any warranty, expressed or implied, of the health, temperament, or age of the animal.

(e) The city and its agents, employees and officers shall have no liability associated with the adoption or impoundment of any animal.
(Code 1996, § 2.04.004; Ord. No. 695-01, 3/5/01)

Sec. 2.04.005. Reclamation of adopted animals.

(a) If animal control does not receive written confirmation of sterilization or other written disposition regarding an adopted animal, as required in this chapter, after the seventh day after the sterilization completion date specified in the adoption receipt and sterilization agreement executed at the time the animal was adopted, animal control may promptly reclaim the animal from the new owner, or require the new owner to return the animal to animal control, or impose any other penalty as provided in this chapter.

Unedited First Draft

(b) A person shall not be entitled to any refund, reimbursement, or other compensation regarding an animal reclaimed or returned under this section.
(Code 1996, § 2.04.005; Ord. No. 695-01, 3/5/01)

Sec. 2.04.006. Requirements to redeem an impounded animal.

(a) An animal which has been impounded under the provisions of this chapter may be redeemed by its owner or the lawful representative, provided that the redeeming person:

(1) Is at least 18 years of age;

(2) Identifies himself or herself as the owner of the impounded animal or provides proof that he or she is the lawful representative of such owner;

(3) Presents identification, which verifies his/her identity and date of birth;

(4) Properly completes all applicable redemption forms as required; and

(5) Pays the applicable redemption fees and charges in the amount provided in the city fee schedule.

(b) The owner of an impounded animal, which is subject to the rabies vaccination requirements of this chapter, shall be required to provide positive proof that the animal is currently vaccinated against rabies at the time it is redeemed. If the owner cannot or refuses to provide proof that the animal is currently vaccinated against rabies at the time of redemption, the owner shall also be required to sign an agreement, as prescribed by animal control, and cause the animal to be vaccinated against rabies within three days. Failure to provide written confirmation of current rabies vaccinations is a violation of this chapter and subject to a fine.
(Code 1996, § 2.04.006; Ord. No. 695-01, 3/5/01)

Unedited First Draft

Chapter 6

BUSINESSES AND OCCUPATIONS

ARTICLE I. IN GENERAL

ARTICLE II. MASSAGE ESTABLISHMENTS[33]

Sec. 4.02.001. Definitions.[34]

The following words, terms and phrases, when used in this article, shall have the meanings ascribed to them in this section, except where the context clearly indicates a different meaning:

~~Chief of police. The police chief or his duly authorized representative.~~

Massage. Any process consisting of kneading, rubbing, or otherwise manipulating the skin of the body of a human being, either with the hand or by means of electrical instruments or apparatus, or other special apparatus, but shall not include massage by any person not subject to the provisions of this article.

Massage establishment. A place of business that advertises or offers massage therapy or other massage services. The term includes a place of business that advertises or offers any service described by a derivation of the terms "massage therapy" or "other massage services." ~~Any building, room, place, or establishment, other than a regularly licensed hospital, where manipulative massage or manipulative exercises are practiced upon the human body by anyone subject to the provisions of this article, whether with or without the use of mechanical, therapeutic or bathing devices, and shall include Turkish bathhouses. This term shall not include, however, any premises required or permitted to be licensed or permitted under Art. 4512K, V.T.C.S., or any other applicable state law.~~
(Code 1996, § 4.02.001)

Sec. 4.02.002. Enforcement.

The city police chief shall have the primary responsibility for administration and enforcement of this article.
(Code 1996, § 4.02.002)

Sec. 4.02.003. License required.

It is unlawful for any person to operate a massage establishment without first having obtained a license therefor from the police chief in accordance with the provisions of this article, or to operate a massage establishment after such license has been revoked, or during the period for which such license has been

---

[33] **Art. II. Massage Establishments.** Throughout this article, sections have been conformed to the provisions of V.T.C.A., Occupations Code, ch. 455, including 2025 amendments. I suggest that the city attorney review this article specifically to ensure that he/she concurs with the recommended updates.

[34] **Sec. 4.02.001. Definitions.** A standardized introduction is substituted for consistency, self-defining term is stricken, and definition of massage establishment is conformed to V.T.C.A., Occupations Code, § 455.001. (Art. 4512K cited in the stricken definition was repealed in 1999.)

Unedited First Draft

suspended. Such license shall be issued only upon the payment of the fees specified in section 4.02.007 and upon approval in writing of the police chief and issuance of a massage therapy license. Such license shall expire on December 31 of each year.
(Code 1996, § 4.02.003)

Sec. 4.02.004. License display.

The license required by this article shall be posted and kept in some conspicuous place in the massage establishment.
(Code 1996, § 4.02.004)

Sec. 4.02.005. Investigation.

After an investigation has been made for issuance of an original license or a renewal of an existing license to operate a massage establishment as defined herein, the police chief, as principal enforcement officer of this article, shall determine whether the applicant has been finally convicted in any court of theft, sodomy, procuring, pandering, keeping a bawdy house, keeping an assignation house, engaging in prostitution or engaging in assignation, or whether such establishment employs any person who has been finally convicted in any court of theft, sodomy, procuring, pandering, keeping a bawdy house, keeping an assignation house, engaging in prostitution or engaging in assignation.
(Code 1996, § 4.02.005)

Sec. 4.02.006. Information required on license application.[35]

At the time of making application for the license required by this article the applicant shall furnish to the police chief the following:

(1) Names, addresses, race, sex, dates of birth, driver's license numbers, and telephone number of the applicant, his spouse, and of all employees of the massage establishment.

(2) Evidence that all employees have obtained a health certificate from a physician certifying that such persons employed or to be employed by such establishment are free from any kind of infectious or communicable diseases.

(#) Evidence of required state licensures pursuant to V.T.C.A., Occupations Code, ch. 455.

(3) Name, address, date of birth, telephone number, social security number and driver's license number of any person, organization, corporation, partnership, business, or other entity owning or having any interest or otherwise controlling the applicant, including but not limited to natural persons, partnerships, corporations, associations or other legal entities, and:

a. If the applicant is a corporation, the applicant must state whether it is organized under the laws of the state or is a foreign corporation, and must show the mailing address, business location, telephone number, name of the main individual in charge of the local office of such corporation, if any, the names of all officers and directors and trustees of such corporation, and if a foreign corporation, the place of incorporation.

---

[35] **Sec. 4.02.006. Information required on license application.** Requirement for proof of state licensure is added as shown.

Unedited First Draft

b. If a partnership, the name of all partners and the principal business address and telephone number of each partner.

c. If an association, then the association's principal business address and telephone number, if any, and the names of principal business or residence addresses and telephone numbers of all members of the association.

(4) Name, address, date of birth and telephone number of any person, officer, director or stockholder of a corporation, partners or any other entity which own or has an interest or otherwise controls the applicant or the establishment which has been convicted of, entered a plea of nolo contendere or guilty to, or received deferred adjudication for an offense under V.T.C.A., Penal Code, ch. 20A; V.T.C.A., Penal Code, §§ 22.011, 22.021, 43.021, 43.03, 43.031, 43.032, 43.04, 43.041, or 43.05, or any other defense defined by state law as a sexual offense, or an offense under federal law or the laws of another state containing elements that are substantially similar to the elements of an offense described by any of the listed statutes. ~~a final conviction in any court of theft, sodomy, procuring, pandering, keeping a bawdy house, keeping an assignation house, engaging in prostitution or engaging in assignation, occurring within five years of the date of the application.~~

(5) Name, address, and telephone numbers of any other establishment owned, operated or managed by applicant during the five years immediately preceding the date of the application.

(6) A statement listing for the applicant and all employees of the applicant any conviction of, entry of a plea of nolo contendere or guilty to, or deferred adjudication for an offense under V.T.C.A., Penal Code, ch. 20A; V.T.C.A., Penal Code, §§ 22.011, 22.021, 43.021, 43.03, 43.031, 43.032, 43.04, 43.041, or 43.05, or any other defense defined by state law as a sexual offense, or an offense under federal law or the laws of another state containing elements that are substantially similar to the elements of an offense described by any of the listed statutes. ~~any final conviction in any court of theft, sodomy, procuring, pandering, keeping a bawdy house, keeping an assignation house, engaging in prostitution or engaging in assignation, of the applicant and any employees.~~
(Code 1996, § 4.02.006)

Sec. 4.02.007. License fee.

The application for the license required by this article shall be accompanied by a nonrefundable license fee as provided in the city fee schedule~~found in appendix A to this code~~. The license fee shall be on an annual basis. If the license is obtained between January 1 and June 30 of any year, the full amount of such fee shall be paid. If such license is obtained between July 1 and December 31 of any year, the fee shall be one-half of such amount. No refund of license fee shall be made. Each applicant shall be required to pay a renewal fee.
(Code 1996, § 4.02.007)

Sec. 4.02.008. Refusal to issue or renew license.

(a) The police chief shall refuse to approve issuance or renewal of any license required by this article to any applicant or license holder who has been convicted of, entered a plea of nolo contendere or guilty to, or received deferred adjudication for an offense under V.T.C.A., Penal Code, ch. 20A; V.T.C.A., Penal Code, §§ 22.011, 22.021, 43.021, 43.03, 43.031, 43.032, 43.04, 43.041, or 43.05, or any other defense defined by state law as a sexual offense, or an offense under federal law or the laws of another state containing elements that are substantially similar to the elements of an offense described by any of the

Unedited First Draft

listed statutes. ~~been finally convicted in any court of theft, sodomy, procuring, pandering, keeping a bawdy house, keeping an assignation house, engaging in prostitution or engaging in assignation, or to any applicant who employs in such establishment any person who has been finally convicted in any court of theft, sodomy, procuring, pandering, keeping a bawdy house, keeping an assignation house, engaging in prostitution or engaging in assignation~~.

(b) The police chief shall refuse to approve issuance or renewal of any license required by this article to any applicant or license holder whose required state license has been suspended or revoked under V.T.C.A., Occupations Code, ch. 455.

(c) The police chief shall refuse to approve issuance or renewal of any license required by this article to any applicant or license holder whose state license is subject to suspension on the grounds provided in V.T.C.A., Occupations Code, § 455.251(a) or revocation on the grounds provided in V.T.C.A., Occupations Code, § 455.251(b) or (c).
(Code 1996, § 4.02.008)

Sec. 4.02.009. Revocation or suspension of license.

(a) A license issued pursuant to this article shall be revoked if the license holder has been convicted of, entered a plea of nolo contendere or guilty to, or received deferred adjudication for an offense under V.T.C.A., Penal Code, ch. 20A; V.T.C.A., Penal Code, §§ 22.011, 22.021, 43.021, 43.03, 43.031, 43.032, 43.04, 43.041, or 43.05, or any other defense defined by state law as a sexual offense, or an offense under federal law or the laws of another state containing elements that are substantially similar to the elements of an offense described by any of the listed statutes. ~~upon final conviction in any court of the holder of such license for the offense of theft, fornication, sodomy, procuring, pandering, keeping a bawdy house, keeping an assignation house, engaging in prostitution, or engaging in assignation.~~

(b) A license issued pursuant to this article shall be suspended for a period of not less than 30 days nor more than 90 days upon the license holder's conviction of or entry of a plea of nolo contendere or guilty to ~~final conviction in any court of the holder of such license for~~ the operation of the massage establishment in violation of any state statute or any provision of this Code.

(c) Any license issued pursuant to this article shall be suspended for a period of 90 days if an employee of the massage establishment has been convicted of, entered a plea of nolo contendere or guilty to, or received deferred adjudication for an offense under V.T.C.A., Penal Code, ch. 20A; V.T.C.A., Penal Code, §§ 22.011, 22.021, 43.021, 43.03, 43.031, 43.032, 43.04, 43.041, or 43.05, or any other defense defined by state law as a sexual offense, or an offense under federal law or the laws of another state containing elements that are substantially similar to the elements of an offense described by any of the listed statutes. ~~upon the final conviction in any court of any employee of such massage establishment for the offense of theft, sodomy, procuring, pandering, keeping a bawdy house, keeping an assignation house, engaging in prostitution or engaging in assignation, or violation of any provision of this article.~~

(#) Any license issued pursuant to this article shall be suspended or revoked upon the suspension or revocation of any massage related license required by V.T.C.A., Occupations Code, ch. 455. If the state license is suspended, the city license shall be suspended for the same period as the state suspension.

(d) Written notice of revocation or suspension shall be given by the police chief to the holder of such license at the holder's last known business address.
(Code 1996, § 4.02.009)

Unofficial First Draft

Sec. 4.02.010. Appeal of license denial, revocation or suspension.

In the event the police chief shall refuse to approve the issuance of an original license or the renewal of a license to any applicant, or revokes or suspends the license issued to any license holder under this article, this action shall be final unless the license holder files an appeal to the city manager or his designated representative by submitting a letter to the police chief within ten days of the aggrieved action. A hearing shall be held within 15 days of the appeal. The city manager or his representative shall render a decision on the appeal within one day of the date of the hearing. The decision of the city manager or his designated representative shall be final.
(Code 1996, § 4.02.010)

Sec. 4.02.011. Hours.

No massage establishment shall be kept open for any purpose between the hours of 10:00 p.m. and 8:00 a.m., and no such establishment shall be operated or conducted in connection with, either directly or indirectly, any place used for living or sleeping quarters.
(Code 1996, § 4.02.011)

Sec. 4.02.012. Inspection and examination of employees.

(a) The police chief shall be authorized to make or cause to be made inspections to determine the condition of any massage establishment in order to safeguard the health, safety and welfare of the public and to make examinations through licensed physicians as are necessary to determine whether employees of the massage establishments are infected with any infectious or communicable disease.

(b) If, in the opinion of the police chief, there is probable cause to enter a massage establishment for the purpose of making inspections and examinations pursuant to this article, he shall request the owner or occupant thereof to grant permission for such entry, and if refused, he shall make application to a magistrate for a search warrant, showing said magistrate why such search warrant should be issued for the purpose herein.
(Code 1996, § 4.02.012)

Sec. 4.02.013. List of employees.

The manager or person in charge of the massage establishment shall keep a list of the names, addresses and telephone numbers of all employees, both on-duty and off-duty, and such list shall be shown to all proper authorities of the police, health and other departments of the city upon request.
(Code 1996, § 4.02.013)

Sec. 4.02.014. Operation in residential area prohibited.

It is unlawful for any massage establishment to operate in any section of the city which is zoned for residential purposes.
(Code 1996, § 4.02.014)

~~**Sec. 4.02.015. Sanitation requirements.**~~[36]

[36] **Sec. 4.02.015. Sanitation requirements.** Stricken as preempted by V.T.C.A., Occupations Code, § 455.005.

~~(a) It shall be the duty of every person conducting or operating a massage establishment to keep the same at all times in a clean and sanitary condition. All instruments and mechanical, therapeutic, and bathing devices or parts thereof, that come into contact with the human body, shall be sterilized by a modern and approved method of sterilization before initial use. Any such instruments and devices, or parts thereof, after having been used upon one patron shall be sterilized before being used upon another. All towels and linens furnished for the use of one patron shall not be furnished for use of another until thoroughly laundered.~~

~~(b) All masseurs and operators shall wash there hands thoroughly before administering massage manipulation to each patron accommodated.~~

~~(c) No person suffering from any communicable or infectious disease shall work or be employed in a massage establishment.~~

~~(d) No person shall be accommodated as a patron with a massage establishment when to the knowledge of the owner, person in control, or any employee, such person is suffering from a communicable or infectious disease.~~
~~(Code 1996, § 4.02.015)~~

~~Sec. 4.02.016. Administering massage.~~[37]

~~(a) It is unlawful for any person to administer a massage to any person; provided, however, that this section shall not apply to any person licensed or registered by the state as a physician, chiropractor, physical therapist, nurse, massage therapist, cosmetologist, or athletic trainer, or as a member of a similar profession, subject to state licensing and registration, while performing duties authorized by the state license or registration.~~

~~(b) No patron shall receive a massage unless said patron is covered by opaque material such as a towel or shorts covering the private areas, hips, genitals, anal areas, and if the patron is a female, the private areas shall include the breasts.~~

~~(c) No employee of the establishment shall touch the private areas, genitals or anal area of any patron or the breasts, if the patron is a female, nor shall a patron touch the private areas, genitals or anal area of an employee of the establishment, and if the employee is a female, the private areas shall include the breasts.~~

~~(d) No alcoholic beverages shall be sold, distributed, stored, or dispensed on the premises of any establishment.~~

~~(e) All rooms in an establishment shall be illuminated permitting clear visibility of the entire room. Each room in an establishment in which massages are administered shall be open and not secured by a door.~~

~~(f) Massagers and other persons employed by or working in massage establishments shall, at all times when in the massage establishment, wear clothing which cannot be seen through and which covers~~

Unedited First Draft

~~the torso and extends at least to the knee.~~
~~(Code 1996, § 4.02.016)~~

Sec. 4.02.017. Transfer of license.

A licensee shall not transfer a license to another. In addition, no licensee shall operate a massage establishment under the authority of a license at any place other than the address designated in the application.
(Code 1996, § 4.02.017)

Sec. 4.02.018. Penalty.

Any person who violates any provision of this article, except section 4.02.012 or 4.02.014, upon conviction is punishable by a fine as provided for in the general penalty provision found in section 1.01.009 of this Code. Any person who violates section 4.02.012 or 4.02.014 of this article pertaining to health and sanitation and zoning, upon conviction, is punishable by a fine in accordance with the general penalty provision found in section 1.01.009 of this Code.
(Code 1996, § 4.02.018)

ARTICLE III. COIN-OPERATED AMUSEMENT DEVICES[38]

Sec. 4.03.001. Definitions.[39]

The following words, terms and phrases, when used in this article, shall have the meanings ascribed to them in this section, except where the context clearly indicates a different meaning:

Coin-operated amusement device. Any amusement machine or device operated by means of the insertion of a coin, token, or similar object, for the purpose of amusement or skill and for the playing of which a fee is charged. The term does not include vending machines in which are not incorporated gaming or amusement features, nor does the term include any coin-operated mechanical musical devices.

Commercial establishment. Any amusement establishment, office, store, restaurant, or business establishment which is designed for the purposes of carrying on any trade, profession, or business.

Operator. Any person, firm, corporation, partnership, or association located within the city who sets up for operation by another or leases or distributes for the purpose of operation by another, any coin-operated amusement device as herein defined, whether such setting up for operation, leasing, or distributing be for a fixed charge or rental or on the basis of a division of the income derived from such device or otherwise.

Proprietor or owner. Any person, firm, corporation, partnership, association, or club who, as the owner, lessee, or proprietor, has under his or its control any commercial establishment, place, or premises in or at which such device is placed or kept for use or play, or on exhibition for the purpose of use or play.
(Code 1996, § 4.03.001)

Sec. 4.03.002. Permit or license required.

---

[38] **Art. III. Coin-Operated Amusement Devices.** Note that an occupation tax for these devices is authorized by V.T.C.A., Occupations Code, § 2153.451.

[39] **Sec. 4.03.001. Definitions.** A standardized introduction is substituted for consistency.

Unedited First Draft

No person, firm or corporation operating or being the proprietor of a commercial establishment shall engage in the business of an operator or proprietor of coin-operated amusement devices, as the terms are herein defined, without first having obtained the proper license or permit therefor.
(Code 1996, § 4.03.002)

Sec. 4.03.003. License fee for operator.

The license fee for each operator shall be as provided for in the city fee schedule ~~found in appendix A to this code~~. All operator's license fees shall be payable annually in advance; provided, however, that where application is made after the expiration of any portion of any year a license may be issued for the remainder thereof upon payment of a proportionate part of the annual fee. In no case shall any portion of the license fee be refunded to the permittee.
(Code 1996, § 4.03.003)

Sec. 4.03.004. Permit fee for device.

The permit fee for each device as herein defined shall be for the maximum amount allowed by state law as provided for in the city fee schedule ~~found in appendix A to this code~~. All device permit fees shall be payable annually in advance, provided that when application is made after the expiration of any portion of any permit year a permit may be issued for the remainder thereof upon payment of a proportionate part of the annual fee. In no case shall any portion of the permit fee be repaid to the permittee.
(Code 1996, § 4.03.004)

Sec. 4.03.005. Application for license or permit; term; display; transfer.

(a) Application for license or permit hereunder shall be filed in writing with the city, on a form to be provided by the city, and shall specify:

(1) The name and address of the applicant, and if a firm, corporation, partnership, or association, the principal officers thereof and their addresses.

(2) The address of the premises where the licensed devices are to be operated, together with the character of the business as carried on at such place.

(3) The trade name and general description of the device or devices to be permitted, the name of the manufacturer and the serial number, and, if the applicant is a proprietor, the number of devices to be permitted.

(4) The name and address of the operator of the device or devices, if other than the proprietor.

(b) The proper fee shall accompany the application.

(c) All licenses and permits under this article shall expire on December 31 following their issuance.

(d) The operator's license shall be posted in a conspicuous place in the establishment of the licensee. The device permit shall be posted on the device in a conspicuous place.

(e) Such permits shall be nonassignable and nontransferable, and in case of a proprietor or owner

Unedited First Draft

shall apply only to the premises for which such permit is issued.
(Code 1996, § 4.03.005)

Sec. 4.03.006. Gambling.

No person shall gamble, wager, or bet on the outcome of any activity engaged in on the premises of a commercial establishment, nor shall any operator, employee, owner or license holder permit any such gamble, wager, or bet to be conducted on said premises.
(Code 1996, § 4.03.006)

Sec. 4.03.007. Minors prohibited on premises licensed to sell alcoholic beverages.[40]

No operator, owner, manager, or employee of a commercial establishment shall knowingly or recklessly permit a patron who has not yet attained his 19th birthday to remain on the premises when the premises has been licensed by the state alcoholic beverage commission to sell or dispense alcoholic beverages unless accompanied by his parent or legal guardian.
(Code 1996, § 4.03.007)

Sec. 4.03.008. Controlled substances prohibited.

No operator, owner, manager, or employee of a commercial establishment shall, knowingly or recklessly, permit any person to illegally possess, use, or sell any drugs or controlled substances on the premises.
(Code 1996, § 4.03.008)

Sec. 4.03.009. Location of establishments.

No permit shall be issued hereunder nor be renewed to any commercial establishment located within 300 feet of any school, public or private, church, or any hospital, home for the aged or infirmed, or funeral parlor.
(Code 1996, § 4.03.009)

Sec. 4.03.010. Evidence of ownership of newly acquired devices.

Any proprietor purchasing a device after the effective date of this article shall file with the city evidence of ownership thereof before exhibiting or placing the device or devices for use or play.
(Code 1996, § 4.03.010)

ARTICLE IV. PEDDLERS, SOLICITORS, AND ITINERANT VENDORS

Sec. 4.04.001. Definitions.[41]

The following words, terms and phrases, when used in this article, shall have the meanings ascribed to them in this section, except where the context clearly indicates a different meaning:

Canvasser. Any individual, whether a resident of this city or not, traveling by foot, wagon, automobile,

---

[40] **Sec. 4.03.007. Minors prohibited on premises licensed to sell alcoholic beverages.** Change age to 18 years old?

[41] **Sec. 4.04.001. Definitions.** A standardized introduction is substituted for consistency.

Unedited First Draft

motor truck of any other type of conveyance, from place to place, from house to house, or from street to street, for the promotion of political or religious ideas, usually through handbills, questionnaires, and verbal messages, but who does not ask for donations.

Interstate commerce. Soliciting, selling, taking orders for, or offering to take orders for any goods, wares, merchandise, photographs, magazines, or things which, at the time the order is taken, are in any federal district or territory, any commonwealth, or in any state other than Texas and shipped or introduced into the city in fulfillment of such orders.

Itinerant vendor. Any individual, whether a resident of this city or not, who offers for sale food, beverages, goods, merchandise, delivery, or services to be performed immediately or in the future, from a certain location which is not within a building or structure for which a certificate of occupancy is required by the city. This term shall not apply to businesses that operate from within a building or structure within the city for which a certificate of occupancy is required but which display or sell food, beverages, goods, or merchandise outside the building or structure. The term shall include itinerant merchant.

Motor vehicle. Any vehicle used for displaying, storing, or transporting of articles for sale by a itinerant vendor which is required to be licensed and registered by the state department of motor vehicles. The term is to include trailers, trucks, and automobiles.

Peddler. Any individual, whether a resident of this city or not, traveling by foot, wagon, automobile, motor truck or any other type of conveyance, from place to place, from house to house, or from street to street, for the sale of goods, wares and merchandise, personal property of any nature whatsoever for future or immediate delivery, or for services to be performed immediately or in the future, whether or not such individual has, carries or exposes for sale a sample of the subject of such sale or whether he or she is collecting advance payments on such sales. The word “peddler” shall include the [term] “solicitor” but not the term “canvasser.” The word “peddler” shall not include individuals traveling to businesses, houses, or places at the invitation of the resident or owner.

Public way. All areas legally open to public use, such as public streets, sidewalks, roadways, highways, parkways, alleys, parks, as well as the interior and areas surrounding public buildings.

Special event. Any occasion including, but not limited to, fairs, shows, exhibitions, city-wide celebrations, festivals, etc., within a specifically defined area of the city for a period of time established by the council.

Stand. Any newsstand, table, bench, booth, rack, handcart, pushcart, vehicle or any other fixture or device used for the display or storage of articles offered for sale by an itinerant vendor or peddler. Such stands must be located at least ten feet away from all property lines adjacent to a street. All stands must be removed from the property on which business is conducted each day.
(Code 1996, § 4.04.001; Ord. No. O-26-10, 10/18/10)

Sec. 4.04.002. Business and residence displaying “no soliciting” notice.

It is unlawful for any peddler or itinerant vendor to go to a residence, business, or commercial establishment for the purpose of taking orders or the selling of merchandise or services if the establishment has posted a sign which states “No Soliciting.” This warning must be displayed prominently at the main entrance to the residence or business. (Code 1996, § 4.04.002; Ord. No. O-26-10, 10/18/10)

Unedited First Draft

Sec. 4.04.003. Sales tax permit required.

It is unlawful for any peddler or itinerant vendor to engage in business within the city without having obtained and presented a sales tax permit issued by the state.
(Code 1996, § 4.04.003; Ord. No. O-26-10, 10/18/10)

Sec. 4.04.004. Sales tax permit exemptions.

The following are exempt from having to present a sales tax permit:

(1) Farmers who sell agricultural products that were raised or grown by them.

(2) Nonprofit organizations.

(3) Any other business or activity exempt by the state comptroller from collecting a state sales tax.
(Code 1996, § 4.04.004; Ord. No. O-26-10, 10/18/10)

Sec. 4.04.005. Peddler/itinerant vendor permit required.

It is unlawful for any peddler or itinerant vendor to solicit or to engage in business within the city without first obtaining a permit from the police chief or designee as provided in this article.
(Code 1996, § 4.04.005; Ord. No. O-26-10 adopted 10/18/10)

Sec. 4.04.006. Peddler/itinerant vendor permit exemptions.

The following are excluded from permitting provisions:

(1) Newspaper carriers.

(2) Farmers who sell agricultural products that were raised or grown by them when located within a public way and at a time designated by the city manager.

(3) Peddlers and itinerant vendors operating within a designated public way in connection with a special event approved by the city manager and appropriate body organizing and implementing the special event.

(4) Religious proselytizing.

(5) Individuals advocating for or against a political party, candidate, or ballot measure.

(6) Ordinary commercial travelers who sell or exhibit for sale goods or services to local firms or businesses and not to residences.

(7) Insurance salesmen, real estate salesmen, and other professionals licensed by the state, except that insurance salesmen shall personally solicit only at the specific request of the owner or occupant of the business or residence at which the solicitation is being made.
(Code 1996, § 4.04.006; Ord. No. O-26-10, 10/18/10)

Sec. 4.04.007. Written application for permit required.

Unedited First Draft

Any peddler or itinerant vendor desiring to engage in business within the city must file a written application for permit with the police chief or his/her designee, and which shall provide the following information:

(1) Applicant's name, telephone number, address, birthdate, physical description, and either:

(A) Driver's license number and state; or

(B) Social security number and an official, government-issued picture identification card.

(2) If the applicant is peddling or making solicitations for any commercial, charitable or political organization, the name, telephone number and address of such organization.

(3) Full and complete list of goods or services to be sold.

(4) If different than or in addition to the applicant, for each individual involved as a peddler or itinerant vendor: name, telephone number, address, birthdate, physical description, and either:

(A) Driver's license number and state; or

(B) Social security number and official, government-issued picture identification card number.

(5) Description (year, make, type) and license plate number and state of all motor vehicles to be used in soliciting and peddling.

(6) A statement that the applicant has not been convicted of any felonies of any nature or any other crimes of moral turpitude in this state or any other state; and, if having been so convicted, a full statement as to the place of conviction and crime for which the applicant was convicted.

(7) Itinerant vendors, except for special events, shall provide the following additional information:

(A) A letter from the owner of the property on which the itinerant vendor intends to conduct business stating that the itinerant vendor has permission to operate at that location.

(B) A site plan of the subject property indicating where the itinerant vendor will be located in relation to the adjacent right-of-way, adjacent buildings, and the location of two nine- by eighteen-foot (9' x 18') on-site parking spaces with a twenty-foot backup lane.
(Code 1996, § 4.04.007; Ord. No. O-26-10, 10/18/10)

Sec. 4.04.008. Permit application fee.

A nonrefundable application fee for a peddler/itinerant merchant permit in the amount of $50.00 shall be paid upon application for such permit, provided, however, when any person, firm, company, partnership, corporation or association acts through one or more agents or employees, such person, firm, company, partnership, corporation or association shall, in addition to such $50.00 fee, pay an application fee of $25.00 for each agent or employee so engaged.
(Code 1996, § 4.04.008; Ord. No. O-26-10, 10/18/10)

Sec. 4.04.009. Permit fee exemption.

Unedited First Draft

Any individual soliciting or peddling for a philanthropic, charitable, political or religious organization provided such activity is for the sole exclusive benefit of that organization and so long as the person engaging in such activity does not receive compensation in the form of a commission, salary, or other monies paid to him for such activity.
(Code 1996, § 4.04.009; Ord. No. O-26-10, 10/18/10)

Sec. 4.04.010. Permit issuance; investigation.

A copy of the application for permit will be referred to the police chief who will undertake an investigation of the applicant's record and background such as shall be reasonably necessary to protect the public. An applicant for permit under this article may be reasonably denied if he or she is currently wanted on a warrant for arrest, or if the applicant has been convicted of a felony involving theft, fraud, bribery, perjury, or any proof is developed that false information was presented for purposes of permit issuance.
(Code 1996, § 4.04.010; Ord. No. O-26-10, 10/18/10)

Sec. 4.04.011. Procedures for permit issuance; permit term.

(a) If the police chief or designee finds that all of the conditions precedent to the issuance of an itinerant vendor permit have been met and the applicant is qualified to receive a peddler and itinerant vendor permit, the police chief or designee shall issue the permit. Said determination shall be made within a reasonable time of the filing of the application or registration information, but in no case shall such time be longer than 10 business days. Permits will be issued for a period of up to one year, ending on December 31 of the same year. Renewal permits shall be issued for a period of one year beginning on January 1 and ending on December 31 of the same year.

(b) Any changes to agents or itinerant vendors must be submitted as an addendum to the original application and subject to the same permit fees and investigation. Failure to register new agents will be grounds for cancellation of the permit.
(Code 1996, § 4.04.011; Ord. No. O-26-10, 10/18/10)

Sec. 4.04.012. Identification of solicitors and itinerant vendors.

(a) Upon issuance of a permit, the city shall also issue a badge or other identification to the permit holder.

(b) All permit holders shall keep such badge or identification plainly visible on their person while engaging in any solicitation or itinerant vending, or any other activity which would require the issuance of a permit under this article. Such badge or identification must be clearly displayed so that individuals will know that the solicitor is complying with this article.

(c) It is unlawful for any permit holder to fail to clearly and visibly display such badge or city- issued identification while the permit holder is engaged in solicitation or itinerant vending, or any other activity which would require the issuance of a permit under this article.
(Code 1996, § 4.04.012; Ord. No. O-26-10, 10/18/10)

Sec. 4.04.013. Bond required.

(a) Solicitors requiring cash deposits or payment for future delivery or who require a contract of agreement to finance the sale of goods or services for future delivery, or for services to be performed in

Unedited First Draft

the future, shall furnish to the city a bond with the application in the amount listed below. This bond is to be signed by the applicant and a surety company authorized to do business in the state, conditioned:

(1) For the final delivery of goods or services in accordance with the terms of any order obtained;

(2) To indemnify purchasers for defects in material or workmanship that may exist in the goods sold and that are discovered within 30 days after delivery; and

(3) For the use and benefit of persons, firms, or corporations that may make a purchase or give an order to the principal of the bond or to the agent or employee of the principal of the bond.

(b) If the applicant is a person, firm, or corporation engaging in solicitation activities through one or more agents or employees, only one bond is required for the activities of all the agents or employee solicitors.

(c) The required bond amount shall be calculated based upon the total estimated amount that the permit holder will collect in cash deposits and other payments for the duration of the permit. This estimated amount must be provided by the permit holder, with supporting documentation. The amount of the required bond shall be 25% of the total estimated amount of cash deposits and other payments the permit holder anticipates that he or she will collect during the duration of the permit. In the event that the permit holder does not have sufficient supporting documentation to justify their proposed bond amount, the city may require a bond amount satisfactory to the city.
(Code 1996, § 4.04.013; Ord. No. O-26-10, 10/18/10)

Sec. 4.04.014. Permit revocation.

After the registration provided for in this article has been issued, the police chief of the city or his/her duly authorized representative may revoke such registration if it is found that:

(1) The registration was obtained by false representation;

(2) The holder of the registration has violated any ordinance of the city, or any law of the state in connection with any soliciting by such holder or in connection with the collecting or attempted collection of any account due to such registration holder or his employer or in connection with the repossession or attempted repossession of goods sold;

(3) The holder of the registration is convicted of a felony, misdemeanor, or ordinance violation involving a sexual offense, assault, possession or sale of a controlled substance, or any violent act against person or property. Also any judgment based upon or conviction for fraud, deceit, or misrepresentation or involving moral turpitude; or

(4) If the holder of registration has endangered the health or safety of a citizen of the city.
(Code 1996, § 4.04.014; Ord. No. O-26-10, 10/18/10)

Sec. 4.04.015. Permit renewal.

Upon application by a permit holder, a current permit may be renewed for a one-year period, beginning on January 1, and ending on December 31 of the same year. The requirements for receiving a permit renewal are the same as the requirements for an initial permit. Renewal fees shall be the same as the permit fees stated above. Renewal record and background checks will be performed at the discretion of

Unedited First Draft

the police chief.
(Code 1996, § 4.04.015; Ord. No. O-26-10, 10/18/10)

Sec. 4.04.016. Appeals from decisions of police chief.

If the applicant for a permit under this article or the holder of such permit is dissatisfied with any holding or finding of the police chief, he or she shall have the right to appeal to the city manager by filing a written notice of such appeal with the city secretary within ten days from the making and filing of such decision of the police chief. Upon filing of such notice of appeal, the application for the permit and all papers possessed by the police chief in connection with such application and such permit shall be delivered to the city manager. And such matter as may be in controversy shall be heard by the city manager within ten working days after the filing of the notice of appeal.
(Code 1996, § 4.04.016; Ord. No. O-26-10, 10/18/10)

Sec. 4.04.017. Use of public ways prohibited.

Unless otherwise permitted or exempted by section 4.04.04, 4.04.006, or 4.04.016, it is unlawful for any peddler or itinerant vendor to engage in business within any public way within the city.
(Code 1996, § 4.04.017; Ord. No. O-26-10, 10/18/10)

Sec. 4.04.018. Use of public ways exemption.

(a) Itinerant vendors may locate within a designated public way in connection with a special event approved by the city manager and the appropriate body organizing and implementing the special event; provided, however, that a business location for an itinerant vendor will not be allowed if it results in a reduction in the number of parking spaces serving an existing business to a number below that required by this Code..

(b) Farmers may sell agricultural products that were raised or grown by them within a public way at a time designated by the city manager.

(c) Permitted or exempted peddlers may utilize streets and roads to travel from house to house or place to place in pursuit of their business.
(Code 1996, § 4.04.018; Ord. No. O-26-10, 10/18/10)

Sec. 4.04.019. Time restrictions.

It is unlawful for any peddler or itinerant vendor to vend, sell, or solicit at a private residence at any time other than between the hours of 8:00 a.m. to 9:00 p.m., or such other hours posted by the occupant unless a prior invitation from the occupant has been received.
(Code 1996, § 4.04.019; Ord. No. O-26-10, 10/18/10)

Sec. 4.04.020. Distribution of handbills and commercial flyers.

In addition to the other regulations contained herein, a solicitor or canvasser leaving handbills or commercial flyers in the city shall observe the following regulations:

(1) No handbill or flyer shall be left at or attached to any sign, utility pole, transit shelter or other structure within the public right-of-way. The police are authorized to remove any handbill or flyer found within the right-of-way.

Unedited First Draft

(2) No handbill or flyer shall be left at or attached to any privately owned property in a manner that causes damage to such privately owned property.

(3) No handbill or flyer shall be left at or attached to any of the property having a "no solicitors" sign.

(4) Any person observed distributing handbills or flyers shall be required to identify himself/herself to the police (either by producing a license or other form of identification). This is for the purpose of knowing the likely identity of the perpetrator if the city receives a complaint of damage caused to private property during the distribution of handbills or flyers.
(Code 1996, § 4.04.020; Ord. No. O-26-10, 10/18/10)

Sec. 4.04.021. Penalty.

Any person, firm, or corporation violating any provision of this article or failing to observe any provisions hereof shall be deemed guilty of a misdemeanor and upon conviction shall be fined not less than one hundred dollars ($100.00) nor more than five hundred dollars ($500.00) and each day or fraction of a day during which this article or any part thereof is further violated shall be deemed a separate offense and punishable as such.
(Code 1996, § 4.04.021; Ord. NO. O-26-10, 10/18/10)

ARTICLE V. SEXUALLY ORIENTED BUSINESSES

Sec. 4.05.001. Purpose and intent.[42]

(a) It is the purpose of this article to regulate sexually oriented businesses to promote the health, safety, morals, and general welfare of the citizens of the city, and to establish reasonable and uniform regulations to prevent the continued concentration of sexually oriented businesses within the city. The provisions of this article have neither the purpose nor effect of imposing a limitation or restriction on the content of any communicative materials, including sexually oriented materials. Similarly, it is not the intent nor effect of this article to restrict or deny access by adults to sexually oriented materials protected by the First Amendment, or to deny access by the distributors and exhibitors of sexually oriented entertainment to their intended market.

(b) It is the intent of the city council that the location regulations of section 4.05.013 of this article are promulgated pursuant to V.T.C.A., Local Government Code, ch. 243. It is the intent of the city council that all other provisions of this article are promulgated pursuant to the city charter and V.T.C.A., Local Government Code, ch. 9 ~~article 1175, Revised Civil Statutes of Texas and its successor provisions in the Local Government Code~~.
(Code 1996, § 4.05.001)

Sec. 4.05.002. Definitions.[43]

---

[42] **Sec. 4.05.001. Purpose and intent.** Citation is updated as shown.

[43] **Sec. 4.05.002. Definitions.** A standardized introduction is substituted for consistency. Self-defining term and term duplicative of chapter 1 provisions are stricken as shown.

Unedited First Draft

The following words, terms and phrases, when used in this article, shall have the meanings ascribed to them in this section, except where the context clearly indicates a different meaning:

Adult arcade. Any place to which the public is permitted or invited wherein coin-operated or slug-operated or electronically, electrically, or mechanically controlled still or motion picture machines, projectors, or other image producing devices are maintained to show images to five or fewer persons per machine at any one time, and where the images so displayed are distinguished or characterized by the depicting or describing of “specified sexual activities” or “specified anatomical areas.”

Adult bookstore or adult video store. A commercial establishment which as one of its principal business purposes offers for sale or rental for any form of consideration any one or more of the following:

(1) Books, magazines, periodicals or other printed matter, or photographs, films, motion pictures, videocassettes or video reproductions, slides, or other visual representations which depict or describe “specified sexual activities” or “specified anatomical areas”; or

(2) Instruments, devices, paraphernalia which are designed for use in connection with “specified sexual activities.”

Adult cabaret. A nightclub, bar, restaurant, or similar commercial establishment which regularly features:

(1) Persons who appear in a state of nudity; or

(2) Live performances which are characterized by the exposure of “specified anatomical areas” or by “specified sexual activities”; or

(3) Films, motion pictures, videocassettes, slides, or other photographic reproductions which are characterized by the depiction or description of “specified sexual activities” or “specified anatomical areas.”

Adult motel. A hotel, motel or similar commercial establishment which:

(1) Offers accommodations to the public for any form of consideration; provides patrons with closed-circuit television transmissions, films, motion pictures, videocassettes, slides, or other photographic reproductions which are characterized by the depiction or description of “specified sexual activities” or “specified anatomical areas”; and has a sign visible from the public right-of-way which advertises the availability of this adult type of photographic reproductions; or

(2) Offers a sleeping room for rent for a period of time that is less than ten hours; or

(3) Allows a tenant or occupant of a sleeping room to subrent the room for a period of time that is less than ten hours.

Adult motion picture theater. A commercial establishment where, for any form of consideration, films, motion pictures, videocassettes, slides, or similar photographic reproductions are regularly shown which are characterized by the depiction or description of “specified sexual activities” or “specified anatomical areas.”

Adult theater. A theater, concert hall, auditorium or similar commercial establishment which regularly features persons who appear in a state of nudity or live performances which are characterized by the

Unedited First Draft

exposure of “specified anatomical areas” or by “specified sexual activities.”

Board of adjustment. The board of adjustment of the city, which shall act as the appeals board for all purposes of this article.

~~Chief of police. The police chief or his designated agent.~~

Escort. A person who, for consideration, agrees or offers to act as a companion, guide, or date for another person, or who agrees or offers to privately model lingerie or privately perform a striptease for another person.

Escort agency. A person or business association who furnishes, offers to furnish, or advertises to hire escorts as one of its primary business purposes, for a fee, tip, or other consideration.

Establishment. Any of the following:

(1) The opening or commencement of any sexually oriented business as a new business;

(2) The conversion of an existing business, whether or not a sexually oriented business, to any sexually oriented business;

(3) The addition of any sexually oriented business to any other existing sexually oriented business; or

(4) The relocation of any sexually oriented business.

Licensee. A person in whose name a license to operate a sexually oriented business has been issued, as well as the individual listed as an applicant on the application for a license.

Nude model studio. Any place where a person who appears in a state of nudity or displays “specified anatomical areas” is provided to be observed, sketched, drawn, painted, sculptured, photographed, or similarly depicted by other persons who pay money or any form of consideration.

Nudity or a state of nudity.

(1) The appearance of a human bare buttock, anus, male genitals, or female breast; or

(2) A state of dress which fails to opaquely cover a human buttock, anus, male genitals, female genitals, or areola of the female breast.

Operates or causes to be operated. To cause to function or to put or keep in operation. A person may be found to be operating or causing to be operated a sexually oriented business whether or not that person is an owner, part owner, or licensee of the business.

~~Person. An individual, proprietorship, partnership, corporation, association, or other legal entity.~~

Residential district. A single-family, duplex, townhouse, multiple-family or mobile home zoning district as defined in the city zoning ordinances as amended.

Residential use. A single-family, duplex, multiple-family, townhouse, or mobile home park use as defined

Unedited First Draft

in the city zoning ordinances as amended.

Semi-nude. A state of dress in which clothing covers no more than the genitals, pubic region, and areolae of the female breast, as well as portions of the body covered by supporting straps or devices.

Sexual encounter center. A business or commercial enterprise that, as one of its primary business purposes, offers for any form of consideration:

(1) Physical contact in the form of wrestling or tumbling between persons of the opposite sex; or

(2) Activities between male and female persons or persons of the same sex when one or more of the persons is in a state of nudity or seminude.

Sexually oriented business. An adult arcade, adult bookstore, or adult video store, adult cabaret, adult motel, adult motion picture theater, adult theater, escort agency, nude model studio, or sexual encounter center.

Specified anatomical areas. Human genitals in a state of sexual arousal. Specified sexual activities. Any of the following:

(1) The fondling or other erotic touching of human genitals, pubic region, buttocks, anus, or female breasts;

(2) Sex acts, normal or perverted, actual or simulated, including intercourse, oral copulation, or sodomy;

(3) Masturbation, actual or simulated; or

(4) Excretory functions as part of or in connection with any of the activities set forth in (1) through (3) above.

Substantial enlargement of a sexually oriented business. The increase in floor area occupied by the business by more than 25 percent, as the floor area exists as of the date of adoption of this article.

Transfer of ownership or control of a sexually oriented business. Any of the following:

(1) The sale, lease, or sublease of the business;

(2) The transfer of securities which constitute a controlling interest in the business, whether by sale, exchange, or similar means; or

(3) The establishment of a trust, gift, or other similar legal device which transfers the ownership or control of the business, except for transfer by bequest or other operation of law upon the death of the person possessing the ownership or control.

(Code 1996, § 4.05.002)

Sec. 4.05.003. Classification.

Sexually oriented businesses are classified as follows:

Unedited First Draft

(1) Adult arcades;

(2) Adult bookstores or adult video stores;

(3) Adult cabarets;

(4) Adult motels;

(5) Adult motion picture theaters;

(6) Adult theaters;

(7) Escort agencies;

(8) Nude model studios; and

(9) Sexual encounter centers.

(Code 1996, § 4.05.003)

Sec. 4.05.004. License required.

(a) A person commits an offense if he operates a sexually oriented business without a valid license, issued by the city for the particular type of business.

(b) An application for a license must be made on a form provided by the police chief. The application must be accompanied by a sketch or diagram showing the configuration of the premises, including a statement of total floor space occupied by the business. The sketch or diagram need not be professionally prepared but must be drawn to a designated scale or drawn with marked dimensions of the interior of the premises to the accuracy of plus or minus six inches. Applicants who must comply with section 4.05.019 of this article shall submit a diagram meeting the requirements of section 4.05.019.

(c) The applicant must be qualified according to the provisions of this article.

(d) If a person who wishes to operate a sexually oriented business is an individual, he must sign the application for a license as applicant. If a person who wishes to operate a sexually oriented business is other than an individual, each individual who has a 20 percent or greater interest in the business must sign the application for a license as applicant. Each applicant must be qualified under section 4.05.005 and each applicant shall be considered a licensee if a license is granted.

(e) The fact that a person possesses a valid license for any other type of business does not exempt him from the requirement of obtaining a sexually oriented business license.

(Code 1996, § 4.05.004)

Sec. 4.05.005. Issuance of license.

(a) The police chief shall approve and issue any license required hereunder to an applicant within 30 days after receipt of an application unless the police chief finds one or more of the following to be true:

(1) An applicant is under 18 years of age.

Unedited First Draft

(2) An applicant or an applicant's spouse is overdue in payment to the city of taxes, fees, fines, or penalties assessed against or imposed upon the applicant or the applicant's spouse in relation to a sexually oriented business.

(3) An applicant has failed to provide information reasonably necessary for issuance of the license or has falsely answered a question or request for information on the application form.

(4) An applicant or an applicant's spouse has been convicted of a violation of a provision of this article, other than the offense of operating a sexually oriented business without a license, within two years immediately preceding the application. The fact that a conviction is being appealed shall have no effect.

(5) The license fee required by this article has not been paid.

(6) An applicant has been employed in a sexually oriented business in a managerial capacity within the preceding 12 months and has demonstrated an inability to operate or manage a sexually oriented business premises in a peaceful and law-abiding manner, thus necessitating action by law enforcement officers.

(7) An applicant or the proposed establishment is in violation of or is not in compliance with section 4.05.007, 4.05.012, 4.05.013, 4.05.015, 4.05.016, 4.05.017, 4.05.018, 4.05.019, or 4.05.020 of this article.

(8) An applicant or an applicant's spouse has been convicted of a crime.

(A) Involving:

(i) Any of the following offenses as described in V.T.C.A., Penal Code, ch. 43:

(aa) Prostitution;

(bb) Promotion of prostitution;

(cc) Aggravated promotion of prostitution;

(dd) Compelling prostitution;

(ee) Obscenity;

(ff) Sale, distribution, or display of harmful material to a minor;

(gg) Sexual performance by a child;

(hh) Possession of child pornography;

(ii) Any of the following offenses as described in V.T.C.A., Penal Code, ch. 21:

(aa) Public lewdness;

(bb) Indecent exposure; (cc) Indecency with a child;

Unedited First Draft

(dd) Sexual assault or aggravated sexual assault as described in V.T.C.A., Penal Code, ch. 22;

(ee) Incest, solicitation of a child, or harboring a runaway child described in V.T.C.A., Penal Code, ch. 25; or

(ff) Criminal attempt, conspiracy, or solicitation to commit any of the foregoing offenses;

(B) For which:

(i) Less than two years have elapsed since the date of conviction or the date of release from confinement imposed for the conviction, whichever is the later date, if the conviction is a misdemeanor offense;

(ii) Less than five years have elapsed since the date of conviction or the date of release from confinement for the conviction, whichever is the later date, if the conviction is of a felony offense; or

(iii) Less than five years have elapsed since the date of the last conviction or the date of release from confinement for the last conviction, whichever is the later date, if the convictions are of two or more misdemeanor offenses or combination of misdemeanor offenses occurring within any 24 month period.

The fact that a conviction is being appealed shall have no effect on the disqualification of the applicant or applicant's spouse.

(c) An applicant who has been convicted or whose spouse has been convicted of an offense listed in subsection 4.05.005(a)(8)(A) may qualify for a sexually oriented business license only when the time period required by subsection 4.05.005(a)(8)(B) has elapsed.

(d) The license, if granted, shall state on its face the name of the person or persons to whom it is granted, the expiration date, and the address of the sexually oriented business. The license shall be posted in a conspicuous place at or near the entrance to the sexually oriented business so that it may be easily read at any time.
(Code 1996, § 4.05.005)

Sec. 4.05.006. License fees.

The annual fee for a sexually oriented business license shall be as provided for in the city fee schedule ~~found in appendix A to this code~~.
(Code 1996, § 4.05.006)

Sec. 4.05.007. Inspection.

(a) An applicant or licensee shall permit representatives of the police department, health department, fire department, planning department, code services department, and building inspection department to inspect the premises of a sexually oriented business for the purpose of insuring compliance with the law, at any time it is occupied or open for business.

Unedited First Draft

(b) A person who operates a sexually oriented business or his agent or employee commits an offense if he refuses to permit a lawful inspection of the premises by a representative of the city at any time it is occupied or open for business.

(c) The provisions of this section do not apply to areas of an adult motel which are currently being rented by a customer for use as a permanent or temporary habitation.
(Code 1996, § 4.05.007)

Sec. 4.05.008. Expiration of license.

Each license shall expire one year from the date of issuance and may be renewed only by making application as provided in section 4.05.004. Application for renewal should be made at least 30 days before the expiration date, and when made less than 30 days before the expiration date, the expiration of the license will not be affected.
(Code 1996, § 4.05.008)

Sec. 4.05.009. Suspension of license.

The police chief shall suspend a license for a period not to exceed 30 days if he determines that a licensee or an employee of a licensee has:

(1) Violated or is not in compliance with sections 4.05.007, 4.05.012, 4.05.013, 4.05.015, 4.05.016, 4.05.017, 4.05.018, 4.05.019, and 4.05.020 of this article;

(2) Engaged in excessive use of alcoholic beverages while on the sexually oriented business premises;

(3) Refused to allow an inspection of the sexually oriented business premises as authorized by this article;

(4) Knowingly permitted gambling by any person on the sexually oriented business premises;

(5) Demonstrated inability to operate or manage a sexually oriented business in a peaceful and law-abiding manner thus necessitating action by law enforcement officers.
(Code 1996, § 4.05.009)

Sec. 4.05.010. Revocation of license.

(a) The police chief shall revoke a license if a cause of suspension in section 4.05.009 occurs and the license has been suspended within the preceding 12 months.

(b) The police chief shall revoke a license if he determines that:

(1) A licensee gave false or misleading information in the material submitted to the police chief during the application process;

(2) A licensee or an employee has knowingly allowed possession, use, or sale of controlled substances on the premises;

(3) A licensee or an employee has knowingly allowed prostitution on the premises;

Unedited First Draft

(4) A licensee or an employee knowingly operated the sexually oriented business during a period of time when the licensee's license was suspended;

(5) A licensee has been convicted of an offense listed in section 4.05.005(a)(8)(A) for which the time period required in section 4.05.005(a)(8)(B) has not elapsed;

(6) On two or more occasions within a 12 month period, a person or persons committed an offense occurring in or on the licensed premises of a crime listed in section 4.05.005(a), for which a conviction has been obtained, and the person or persons were employees of the sexually oriented business at the time the offenses were committed;

(7) A licensee or an employee has knowingly allowed any act of sexual intercourse, sodomy, oral copulation, masturbation, or sexual contact to occur in or on the licensed premises. The term "sexual contact" shall have the same meaning as it is defined in V.T.C.A., Penal Code, § 21.01; or

(8) A licensee is delinquent in payment to the city for taxes related to the sexually oriented business.

(c) The fact that a conviction is being appealed shall have no effect on the revocation of the license.

(d) Subsection 4.05.010(b)(7) does not apply to adult motels as a ground for revoking the license unless the licensee or employee knowingly allowed the act of sexual intercourse, sodomy, oral copulation, masturbation, or sexual contact to occur in a public place or within public view.

(e) When the police chief revokes a license, the revocation shall continue for one year, and the licensee shall not be issued a sexually oriented business license for one year from the date revocation became effective. If, subsequent to revocation, the police chief finds that the basis for the revocation has been corrected or abated, the applicant may be granted a license if at least 90 days have elapsed since the date the revocation became effective. If the license was revoked under subsection (b)(5), an applicant may not be granted another license until the appropriate number of years required under subsection 4.05.005(a)(8)(B) has elapsed.
(Code 1996, § 4.05.011)

Sec. 4.05.011. Appeal of license denial, suspension or revocation.

(a) If the police chief denies the issuance of a license or suspends or revokes a license, the police chief shall send to the applicant, or licensee, by certified mail, return receipt requested, written notice of the action and the right to an appeal. In the case of suspension or revocation of an existing license, written notice shall also be posted upon the business premises.

(b) Upon receipt of written notice of the denial, suspension, or revocation, the licensee whose application for a license has been denied or whose license has been suspended or revoked shall have the right to appeal to the board of adjustment. The filing of an appeal stays the action of the police chief in suspending, denying or revoking a license until the board of adjustment makes a final decision.

(c) The decision of the board of adjustment shall be final and any appeal shall be made directly to the state district court. An appeal to the state district court must be filed within 30 days after the receipt of notice of the decision of the board of adjustment. The licensee shall bear the burden of proof in court.
(Code 1996, § 4.05.011)

Unedited First Draft

Sec. 4.05.012. Transfer of license.

A licensee shall not transfer his license to another, nor shall a licensee operate a sexually oriented business under the authority of a license at any place other than the address designated in the application. (Code 1996, § 4.05.012)

Sec. 4.05.013. Location of sexually oriented businesses.

(a) A person commits an offense if he operates or causes to be operated a sexually oriented business within fifteen hundred (1,500) feet of:

(1) A church, rectory, or church-related structure;

(2) A public, private or parochial elementary or secondary school, or a school zone in which the speed of traffic is regulated by posted signs during certain school hours;

(3) A boundary of a residential district or historical district;

(4) A public park, playground or recreational facility, library, day care center, nursery school or kindergarten; or

(5) The property line of a lot devoted to a residential use;

(6) Any public transportation facility (DART Park & Ride).

The above location restrictions apply whether or not the church, rectory, church-related structure, public school, private school, parochial school, elementary school, secondary school, school zone, residential district boundary, public park, playground, recreational facility, library, day care center, nursery school, kindergarten or property line devoted to residential use is located within or outside the city.

(b) A person commits an offense if he causes or permits the operation, establishment, substantial enlargement, or transfer of ownership or control of a sexually oriented business within one thousand (1,000) feet of another sexually oriented business.

(c) A person commits an offense if he causes or permits the operation, establishment, or maintenance of more than one sexually oriented business in the same building, structure, or portion thereof, or the increase of floor area of any sexually oriented business in any building, structure, or portion thereof containing another sexually oriented business.

(d) For the purposes of subsection (a), measurement shall be made in a straight line, without regard to intervening structures or objects, from the nearest portion of the building or structure used as a part of the premises where a sexually oriented business is conducted, to the nearest property line of the premises of a church, rectory, public or private elementary or secondary school, day care center, nursery school, kindergarten, or to the nearest boundary of an affected public park, playground, library, recreational facility, residential district, or residential lot.

(e) For purposes of subsection (b) of this section, the distance between any two sexually oriented businesses shall be measured in a straight line, without regard to intervening structures or objects, from the closest exterior wall of the structure in which each business is located.

Unedited First Draft

(f) Any sexually oriented business lawfully operating on the effective date of this article (July 18, 1994), that is in violation of subsection (a), (b), or (c) shall be deemed a nonconforming use. The nonconforming use will be permitted to continue for a period not to exceed three years, unless sooner terminated for any reason or voluntarily discontinued for a period of 30 days or more. Such nonconforming uses shall not be increased, enlarged, extended or altered except that the use may be changed to a conforming use. If two or more sexually oriented businesses are within one thousand (1,000) feet of one another and otherwise in a permissible location, the sexually oriented business which was first established and continually operating at a particular location is the conforming use and the later established business is nonconforming.

(g) A sexually oriented business lawfully operating on July 18, 1994, as a conforming use is not rendered a nonconforming use by the location, subsequent to grant or renewal of the sexually oriented business license, of a church, rectory, or church-related structure; a public, private or parochial elementary or secondary school, or a school zone in which the speed of traffic is regulated by posted signs during certain school hours; a boundary of a residential district or historical district within fifteen hundred (1,500) feet of the sexually oriented business; a public park, playground or recreation facility, library, day care center, nursery school or kindergarten; or the property line of a lot devoted to a residential use. This provision applies only to the renewal of a valid license and does not apply when an application for a license is submitted after a license has expired or has been revoked.
(Code 1996, § 4.05.013)

Sec. 4.05.014. Appeal from locational restrictions.

(a) If the police chief denies the issuance of a license to an applicant because the location of the sexually oriented business establishment is in violation of section 4.05.013, then the applicant may, not later than ten calendar days after receiving notice of the denial, file with the police chief a written request for an exemption from the locational restrictions of section 4.05.013.

(b) If the written request is filed with the police chief within the ten day limit, the board of adjustment shall consider the request. The board shall set a date for the hearing within 60 days from the date the written request is received.

(c) A hearing by the board may only proceed if all the board members are present. The board shall hear and consider evidence offered by any interested person. The formal rules of evidence do not apply.

(d) The board may, in its discretion, grant an exemption from the locational restrictions of section 4.05.013 if it makes the following findings:

(1) That the location of the proposed sexually oriented business will not have a detrimental effect on nearby properties or be contrary to the public safety or welfare;

(2) That the granting of the exemption will not violate the spirit and intent of this article;

(3) That the location of the proposed sexually oriented business will not downgrade the property values or quality of life in the adjacent areas or encourage the development of urban blight;

(4) That the location of an additional sexually oriented business in the area will not be contrary to any program of neighborhood conservation nor will it interfere with any efforts of urban renewal or restoration; and

Unedited First Draft

(5) That all other applicable provisions of this article will be observed.

(e) The board shall grant or deny the exemption by a majority vote. A majority of the members shall be necessary to affirm, modify or reverse any decision. Disputes of fact shall be decided on the basis of a preponderance of the evidence. The decision of the board is final.

(f) If the board grants the exemption, the exemption is valid for one year from the date of the board's action. Upon the expiration of an exemption, the sexually oriented business is in violation of the locational restrictions of section 4.05.013 until the applicant applies for and receives another exemption.

(g) If the board denies the exemption, the applicant may not reapply for an exemption until at least 12 months have elapsed since the date of the board's action.

(h) The grant of an exemption does not exempt the applicant from any other provisions of this article other than the locational restrictions of section 4.05.013.
(Code 1996, § 4.05.014)

Sec. 4.05.015. Additional regulations for escort agencies.

(a) An escort agency shall not employ any person under the age of 18 years.

(b) A person commits an offense if he acts as an escort or agrees to act as an escort for any person under the age of 18 years.
(Code 1996, § 4.05.015)

Sec. 4.05.016. Additional regulations for nude model studios.

(a) A nude model studio shall not employ any person under the age of 18 years.

(b) A person under the age of 18 years commits an offense if he appears in a state of nudity in or on the premises of a nude model studio. It is a defense to prosecution under this subsection if the person under 18 years was in a restroom not open to public view or persons of the opposite sex.

(c) A person commits an offense if he appears in a state of nudity or knowingly allows another to appear in a state of nudity in an area of a nude model studio premises which can be viewed from the public right-of-way.

(d) A nude model studio shall not place or permit a bed, sofa, or mattress in any room on the premises which can be viewed from the public right-of-way.
(Code 1996, § 4.05.016)

Sec. 4.05.017. Additional regulations for adult theaters and adult motion picture theaters.

(a) The requirements and provisions of this article remain applicable to adult theaters and adult motion picture theaters.

(b) A person commits an offense if he knowingly allows a person under the age of 18 years to appear in a state of nudity in or on the premises of an adult theater or adult motion picture theater.

(c) A person under the age of 18 years commits an offense if he knowingly appears in a state of

Unedited First Draft

nudity in or on the premises of an adult theater or adult motion picture theater.

(d) It is a defense to prosecution under subsections (b) and (c) if the person under 18 years was in a restroom not open to public view or persons of the opposite sex.
(Code 1996, § 4.05.017)

Sec. 4.05.018. Additional regulations for adult motels.

(a) Evidence that a sleeping room in a hotel, motel, or similar commercial establishment has been rented and vacated two or more times in a period of time that is less than ten hours creates a rebuttable presumption that the establishment is an adult motel as that term is defined in this article.

(b) A person commits an offense if, as the person in control of a sleeping room in a hotel, motel, or similar commercial establishment that does not have a sexually oriented business license, he rents or subrents a sleeping room to a person and within ten hours from the time the room is rented, he rents or subrents the same sleeping room again.

(c) For purposes of subsection (b) above, the term “rent” or “subrent” means the act of permitting a room to be occupied for any form of consideration.
(Code 1996, § 4.05.018)

Sec. 4.05.019. Exhibition of sexually explicit films or videos.

(a) A person who operates or causes to be operated a sexually oriented business, other than an adult motel, which exhibits on the premises in a viewing room of less than one hundred fifty (150) square feet of floor space, a film, videocassette, or other video reproduction which depicts specified sexual activities or specified anatomical areas, shall comply with the following requirements:

(1) Upon application for a sexually oriented business license, the application shall be accompanied by a diagram of the premises showing a plan thereof specifying the location of one or more manager’s stations and the location of all overhead lighting fixtures and designating any portion of the premises in which patrons will not be permitted. A manager’s station may not exceed thirty-two (32) square feet of floor area. The diagram shall also designate the place at which the permit will be conspicuously posted, if granted. A professionally prepared diagram in the nature of an engineer’s or architect’s blueprint shall not be required; however, each diagram should be oriented to the north or to some designated street or object and should be drawn to a designated scale or with marked dimensions sufficient to show the various internal dimensions of all areas of the interior of the premises to an accuracy of plus or minus six inches. The police chief may waive the foregoing diagram for renewal applications if the applicant adopts a diagram that was previously submitted and certifies that the configuration of the premises has not been altered since it was prepared.

(2) The application shall be sworn to be true and correct by the applicant.

(3) No alteration in the configuration or location of a manager’s station may be made without the prior approval of the police chief or his designee.

(4) It is the duty of the owners and operator of the premises to ensure that at least one employee is on duty and situated in each manager’s station at all times that any patron is present inside the premises.

(5) The interior of the premises shall be configured in such a manner that there is an unobstructed

Unedited First Draft

view from a manager's station of every area of the premises to which any patron is permitted access for any purpose excluding restrooms. Restrooms may not contain video reproduction equipment. If the premises has two or more manager's stations designated, then the interior of the premises shall be configured in such a manner that there is an unobstructed view of each area of the premises to which any patron is permitted access for any purpose from at least one of the manager's stations. The view required in this subsection must be by direct line of sight from the manager's station.

(6) It shall be the duty of the owners and operator and it shall also be the duty of any agents and employees present in the premises to ensure that the view area specified in subsection (a)(5) remains unobstructed by any doors, walls, merchandise, display racks or other materials at all times that any patron is present in the premises and to ensure that no patron is permitted access to any area of the premises which has been designated as an area in which patrons will not be permitted in the application filed pursuant to subsection (a)(1) of this section.

(7) The premises shall be equipped with overhead lighting fixtures of sufficient intensity to illuminate every place to which patrons are permitted access at an illumination of not less than one (1.0) footcandle as measured at the floor level.

(8) It shall be the duty of the owners and operator and it shall also be the duty of any agents and employees present in the premises to ensure that the illumination described above is maintained at all times that any patron is present in the premises.

(b) A person having a duty under subsections (1) through (8) of subsection (a) above commits an offense if he knowingly fails to fulfill that duty.
(Code 1996, § 4.05.019)

Sec. 4.05.020. Display of sexually explicit material to minors.

(a) A person commits an offense if, in a business establishment open to persons under the age of 17 years, he displays a book, pamphlet, newspaper, magazine, film, or videocassette, the cover of which depicts, in a manner calculated to arouse sexual lust or perversion for commercial gain, any of the following:

(1) Human sexual intercourse, masturbation, or sodomy;

(2) Fondling or other erotic touching of human genitals, pubic region, buttocks, or female breasts;

(3) Less than completely and opaquely covered human genitals, buttocks, or that portion of the female breast below the top of the areola; or

(4) Human male genitals in a discernibly turgid state, whether covered or uncovered.

(b) In this section, "display" means to locate an item in such a manner that, without obtaining assistance from an employee of the business establishment:

(1) It is available to the general public for handling and inspection; or

(2) The cover or outside packaging on the item is visible to members of the general public.
(Code 1996, § 4.05.020)

Unedited First Draft

Sec. 4.05.021. Enforcement.

(a) Except as provided by subsection (b) below, any person violating section 4.05.013 of this article, upon conviction, is punishable by a fine in accordance with the general penalty provision found in section 1.01.009 of this code.

(b) If the sexually oriented business involved is a nude model studio or sexual encounter center, then violation of section 4.05.013 of this article is punishable as a class A misdemeanor.

(c) Except as provided by subsection (b) above, any person violating a provision of this article other than section 4.05.013, upon conviction, is punishable by a fine as provided for in the general penalty provision found in section 1.01.009 of this code.

(d) It is a defense to prosecution under sections 4.05.004(a), 4.05.013, 4.05.016(d) that a person appearing in a state of nudity did so in a modeling class operated:

(1) By a proprietary school licensed by the state, a college, junior college, or university supported entirely or partly by taxation;

(2) By a private college or university which maintains and operates educational programs in which credits are transferable to a college, junior college, or university supported entirely or partly by taxation; or

(3) In a structure:

(A) Which has no sign visible from the exterior of the structure and no other advertising that indicates a nude person is available for viewing; and

(B) Where in order to participate in a class a student must enroll at least three days in advance of the class; and

(C) Where no more than one nude model is on the premises at any one time.

(e) It is a defense to prosecution under section 4.05.004(a) or section 4.05.013 that each item of descriptive, printed, film, or video material offered for sale or rental, taken as a whole, contains serious literary, artistic, political, or scientific value.
(Code 1996, § 4.05.021)

Sec. 4.05.022. Injunction.

A person who operates or causes to be operated a sexually oriented business, without a valid license or in violation of section 4.05.013 of this article is subject to a suit for injunction as well as prosecution for criminal violations.
(Code 1996, § 4.05.022)

ARTICLE VI. DANCE HALLS

Unedited First Draft

Sec. 4.06.001. Definitions.[44]

The following words, terms and phrases, when used in this article, shall have the meanings ascribed to them in this section, except where the context clearly indicates a different meaning:

Board of adjustment. The board of adjustment of the city, which shall act as the appeals board for all purposes of this article.

Dance hall. A place where dancing by patrons or customers is permitted or dance, drama, opera, music or any similar live performance is presented to the public, classified as follows:

Class A dance hall. Any place where dancing is permitted three days or more a week.

Class B dance hall. Any place where dancing is permitted less than three days a week.

Class C dance hall. Any place where dancing is scheduled one day at a time.

Class D dance hall. Any place where dancing is permitted one day a week or more by a person in a state of seminudity or simulated nudity or that is advertised either on or off the premises:

(A) As topless;

(B) As a gentleman's club, bar or saloon;

(C) As adult entertainment;

(D) As X-rated; or

(E) By any other term calculated to attract patrons with nudity, seminudity or simulated nudity.

Class E dance hall. Any place where dancing is permitted seven days a week for persons from age 14 through age 18 only.

In session. The status of a school during the fall or spring term when students are required to attend the school.

Late hours permit. A permit authorizing a licensee to operate a class A, B, C or D dance hall until 4:00 a.m.

License. A permit to operate a dance hall.

Licensee. A person in whose name a license to operate a dance hall has been issued, as well as the individual listed as an applicant on the application for a dance hall license.

---

[44] **Sec. 4.06.001. Definitions. A standardized introduction is substituted for consistency.** Also, definitions duplicative of chapter 1 are stricken as shown.

Unedited First Draft

~~Person. An individual, partnership, corporation, association, or other legal entity.~~

Private club. An association of persons for the promotion of some common object, which operates not for a profit a place for the accommodation of its members and guests only.

School. A public or private elementary or secondary school.

Seminudity. A state of dress in which clothing covers no more than the genitals, pubic region, buttocks, and areolae of the female breast, as well as parts of the body covered by supporting straps or devices.

Simulated nudity. A state of dress in which any device or covering, exposed to view is worn that simulates any part of the genitals, buttocks, pubic region, or areolae of the female breast.
(Code 1996, § 4.06.001)

Sec. 4.06.002. License required; application; exceptions; defenses.

(a) A person commits an offense if he operates a dance hall without a license.

(b) An application for a license must be made on a form provided by the police chief. The applicant must be qualified according to the provisions of this article.

(c) A person who wishes to operate a dance hall must sign the application for a license as applicant. If a person who wishes to operate a dance hall is other than an individual, each individual who has a 20 percent or greater interest in the business must sign the application for a license as an applicant. Each applicant must meet the requirements of section 4.06.006 and each applicant shall be considered a licensee if a license is granted.

(d) It is a defense to prosecution under this article that the actor is conducting a dance at:

(1) A private residence from which the general public is excluded;

(2) A place owned by the federal, state or local government;

(3) A public or private elementary school, secondary school, college or university;

(4) A place owned by a religious organization; or

(5) A private club.

(e) A person who obtains a valid sexually oriented business license is not required to obtain a dance hall license. A person who operates a dance hall that is also a sexually oriented business shall comply with the requirements and provisions of article 4.05 of this code, as well as the requirements and provisions of this chapter.
(Code 1996, § 4.06.002)

Sec. 4.06.003. Location of Class E dance halls restricted.

(a) In this section, “business that serves or sells alcoholic beverages” means a bar, lounge, tavern, liquor store use, or similar establishment.

Unedited First Draft

(b) No license may be issued for a class E dance hall under this section if the dance hall will be located within one thousand (1,000) feet of a lawfully existing business that serves or sells alcoholic beverages.

(c) For purposes of this section, measurements shall be made in a straight line, without regard to intervening structures or objects, from the nearest entry door in the part of a building used as a class E dance hall to the nearest entry door in the part of a building used as a business that serves or sells alcoholic beverages.

(d) If, on July 18, 1994, a business operating as a class E dance hall is located within one thousand (1,000) feet of a business that serves or sells alcoholic beverages, then the business that was first lawfully established and continually operating at that particular location is deemed a conforming use and the later established business is deemed a nonconforming use. A nonconforming use is exempted from the location requirement of subsection (b) of this section for the first three license renewals after the effective date of this article, unless the use is sooner terminated for any reason or voluntarily discontinued for a period of 30 days or more. A nonconforming use may not be increased, enlarged, extended, or altered, except that the use may be changed to a conforming use.
(Code 1996, § 4.06.003)

Sec. 4.06.004. Location of class D dance halls restricted.

(a) A person commits an offense if he operates or causes to be operated a class D dance hall within fifteen hundred (1,500) feet of:

(1) A church, rectory, or church-related structure;

(2) A public, private or parochial elementary or secondary school, or a school zone in which the speed of traffic is regulated by posted signs during certain school hours;

(3) A boundary of a residential district or historical district as defined in article 4.05 of this chapter;

(4) A public park, playground or recreation facility, library, day care center, nursery school, or kindergarten; or

(5) The property line of a lot devoted to a residential use as defined in article 4.05 of this chapter, whether such use is within the city limits or not.

(6) Any public transportation facility (DART).

(b) A person commits an offense if he causes or permits:

(1) The operation, establishment, substantial enlargement, or transfer of ownership or control of a class D dance hall within one thousand (1,000) feet of another class D dance hall;

(2) The operation, establishment, or maintenance of a class D dance hall in a building, structure, or part of a building or structure containing another class D dance hall; or

(3) The increase of floor area of any class D dance hall in any building, structure, or part of a building or structure containing another class D dance hall.

Unedited First Draft

(c) For purposes of subsection (a) above, measurement shall be made in a straight line, without regard to intervening structures or objects, from the nearest part of the building or structure used as a part of the premises where a class D dance hall is conducted, to the nearest property line of the premises of a church, rectory, or church-related structure; a public, private or parochial elementary of secondary school, or a school zone in which the speed of traffic is regulated by posted signs during certain school hours; a boundary of a residential district or historical district within fifteen hundred (1,500) feet of the sexually oriented business; a public park, playground or recreation facility, library, day care center, nursery school or kindergarten; or the property line of a lot devoted to a residential use.

(d) For purposes of subsection (b) above, the distance between any two class D dance halls shall be measured in a straight line, without regard to intervening structures or objects, from the closest exterior wall of the structure in which each class D dance hall is located.

(e) Any class D dance hall lawfully operating on July 18, 1994, that is in violation of subsection (a) or (b) above shall be deemed a nonconforming use. The nonconforming use will be permitted to continue for a period not to exceed 18 months, unless sooner terminated for any reason or voluntarily discontinued for a period of 30 days or more. The nonconforming use shall not be increased, enlarged, extended, or altered, except that the use may be changed to a conforming use. If a class D dance hall is within one thousand (1,000) feet of another class D dance hall and otherwise in a permissible location, the class D dance hall that was first established and continually operating at a particular location is the conforming use and the later established class D dance hall is the nonconforming use.

(f) A class D dance hall lawfully operating as a conforming use is not rendered a nonconforming use by the location, subsequent to the grant or renewal of the class D dance hall license, of a church, rectory, or church-related structure; a public, private or parochial elementary or secondary school, or a school zone in which the speed of traffic is regulated by posted signs during certain school hours; a boundary of a residential district or historical district within fifteen hundred (1,500) feet of the sexually oriented business; a public park, playground or recreation facility, library, day care center, nursery school or kindergarten; or the property line of a lot devoted to a residential use, within fifteen hundred (l,500) feet of the class D dance hall. This provision applies only to the renewal of a valid license and does not apply when an application for a license is submitted after a license has expired or been revoked.
(Code 1996, § 4.06.004)

Sec. 4.06.005. Exemption from locational restrictions for class D dance halls.

(a) If the police chief denies the issuance of a class D dance hall license to an applicant because the location of the class D dance hall is in violation of section 4.06.004 of this article, then the applicant may, not later than ten calendar days after receiving notice of the denial, file with the police chief a written request for an exemption from the locational restrictions of section 4.06.004.

(b) If the written request is filed with the police chief within the ten day limit, the board of adjustment shall consider the request. The board of adjustment shall set a date for the hearing within 60 days from the date the written request is received.

(c) A hearing by the board may proceed only if all the board members are present. The board shall hear and consider evidence offered by any interested person. The formal rules of evidence do not apply.

(d) The board may, in its discretion, grant an exemption from the locational restrictions of section 4.06.004 if it finds that:

Unedited First Draft

(1) The location of the proposed class D dance hall will not have a detrimental effect on nearby property or be contrary to the public safety or welfare;

(2) The granting of the exemption will not violate the spirit and intent of this article;

(3) The location of the proposed class D dance hall will not downgrade the property value or quality of life in any adjacent area or encourage the development of urban blight;

(4) The location of an additional class D dance hall in the area will not be contrary to any program of neighborhood conservation or interfere with any efforts of urban renewal or restoration; and

(5) All other applicable provisions of this article will be observed.

(e) The board shall grant or deny the exemption by majority vote. Failure to reach a majority vote shall result in denial of the exemption. Any dispute of fact must be decided on the basis of a preponderance of the evidence. The decision of the board is final.

(f) If the board grants the exemption, the exemption is valid for one year from the date of the board's action. Upon the expiration of an exemption, the class D dance hall is in violation of the locational restrictions of section 4.06.004 until the applicant applies for and receives another exemption.

(g) If the board denies the exemption, the applicant may not reapply for an exemption until at least 12 months have elapsed since the date of the board's action.

(h) The grant of an exemption does not exempt the applicant from any provision of this article other than the locational restrictions of section 4.06.004.
(Code 1996, § 4.06.005)

Sec. 4.06.006. Issuance of license; posting.

(a) The police chief shall issue a license to an applicant within 30 days after receipt of an application unless the police chief finds one or more of the following to be true:

(1) An applicant is under 18 years of age.

(2) An applicant or an applicant's spouse is not of good moral character and does not have a good reputation for being peaceable and law-abiding in the community where the applicant or the applicant's spouse resides or does business.

(3) An applicant or applicant's spouse is overdue in payment to the city of taxes, fees, fines, or penalties assessed against or imposed upon the applicant or the applicant's spouse.

(4) An applicant uses alcoholic beverages to excess.

(5) An applicant is physically or mentally incapacitated to an extent that the applicant cannot operate a dance hall.

(6) An applicant has failed to answer or falsely answers a question or request for information on the application form provided.

Unedited First Draft

(7) An applicant or an applicant's spouse has been convicted of a violation of a provision of this article, other than the offense of operating a dance hall without a license, within two years immediately preceding the application. The fact that a conviction is being appealed shall have no effect.

(8) An applicant is residing with a person who has been denied a license by the city to operate a dance hall within the preceding 12 months, or residing with a person whose license to operate a dance hall has been revoked within the preceding 12 months.

(9) The license fee required by this article has not been paid.

(10) An applicant or an applicant's spouse has been convicted of a crime;

(A) Involving:

(i) Any of the following offenses as described in V.T.C.A., Penal Code, ch. 43:

(aa) Prostitution;

(bb) Promotion of prostitution;

(cc) Aggravated promotion of prostitution;

(dd) Compelling prostitution;

(ee) Obscenity;

(ff) Sale, distribution, or display of harmful material to minor;

(gg) Sexual performance by a child; or

(hh) Possession of child pornography.

(ii) Any of the following offenses as described in V.T.C.A., Penal Code, ch. 21:

(aa) Public lewdness;

(bb) Indecent exposure; or

(cc) Indecency with a child.

(iii) Sexual assault or aggravated sexual assault as described in V.T.C.A., Penal Code, ch. 22;

(iv) Incest, solicitation of a child, or harboring a runaway child as described in V.T.C.A., Penal Code, ch. 25 or

(v) Criminal attempt, conspiracy, or solicitation to commit any of the offenses listed in subsections (a)(10)(A)(i) through (iv) of this section;

(B) For which:

Unedited First Draft

(i) Less than two years have elapsed since the date of conviction or the date of release from confinement imposed for the conviction, whichever is the later date, if the conviction is of a misdemeanor offense;

(ii) Less than five years have elapsed since the date of conviction or the date of release from confinement for the conviction, whichever is the later date, if the conviction is of a felony offense; or

(iii) Less than five years have elapsed since the date of the last conviction or the date of release from confinement for the last conviction, whichever is the later date, if the convictions are of two or more misdemeanor offenses or combination of misdemeanor offenses occurring within any 24 month period.

(11) An applicant has been employed in a dance hall within the preceding 12 months and has demonstrated an inability to operate or manage a dance hall premises in a peaceful and law-abiding manner.

(12) Alcoholic beverages are possessed, consumed, or sold on premises used or to be used by the applicant for a class E dance hall.

(13) An applicant for a Class E dance hall license is in violation of the locational requirements of section 4.06.003 of this article.

(14) An applicant for a Class D dance hall license is in violation of the locational requirements of section 4.06.004 of this section.

(b) The fact that a conviction is being appealed shall have no effect on the disqualification of the applicant or the applicant's spouse.

(c) An applicant who has been convicted or whose spouse has been convicted of an offense listed in subsection (a)(10)(A) may qualify for a dance hall license only when the time period required by subsection (a)(10)(B) has elapsed.

(d) The license shall state on its face the name of the person to whom it is granted, the expiration date, the address of the dance hall, and whether it is issued for a Class A, B, C, D, or E dance hall.

(e) The license, along with any late hours permit, shall be posted, in a conspicuous place at or near the entrance to the dance hall so that it may be easily read at any time.
(Code 1996, § 4.06.006)

Sec. 4.06.007. Late hours permit.

(a) A person who is issued a Class A, B, C, or D dance hall license may apply, on a form provided by the police chief, for a late hours permit. Upon receipt of the application and payment of the late hours permit fee, the police chief shall issue a late hours permit to the applicant.

(b) Once issued, a late hours permit is considered a part of the license for a Class A, B, C, or D dance hall and is valid only when the dance hall license it accompanies is valid.
(Code 1996, § 4.06.007)

Sec. 4.06.008. Fees.

Unedited First Draft

License and permit fees are as provided for in the city fee schedule ~~found in appendix A to this code~~.
(Code 1996, § 4.06.008)

Sec. 4.06.009. Hours of operation.

(a) A person without a late hours permit commits an offense if he operates a Class A, B, C, or D dance hall between the hours of 2:00 a.m. and 7:00 a.m. Monday through Saturday, or between 2:00 a.m. and 12:00 noon on Sunday.

(b) A person with a late hours permit commits an offense if he operates a Class A, B, C, or D dance hall between the hours of 4:00 a.m. and 7:00 a.m., Monday through Saturday, or between 4:00 a.m. and 12:00 noon on Sunday.

(c) A person commits an offense if he operates a class E dance hall during any hours other than the following:

(1) When school is in session in the school district in which the dance hall is located, between the hours of:

(A) 4:00 p.m. and 10:00 p.m., Monday through Thursday;

(B) 4:00 p.m. and 12:00 midnight, Friday;

(C) 1:00 p.m. and l2:00 midnight, Saturday; and

(D) 1:00 p.m. and 10:00 p.m. Sunday; or

(2) When school is not in session in the school district in which the dance hall is located, between the hours of 1:00 p.m. and 12:00 midnight, Monday through Sunday.
(Code 1996, § 4.06.009)

Sec. 4.06.010. Inspection.

(a) Representatives of the police, planning, fire, building and code services departments may inspect the premises of a dance hall, for the purpose of insuring compliance with the law, at any time it is open for business or occupied.

(b) A person who operates a dance hall or a person designated as the dance hall supervisor commits an offense if he refuses to permit a lawful inspection of the premises of a dance hall by a representative of the police department or authorized representative at any time it is open for business or occupied.
(Code 1996, § 4.06.010)

Sec. 4.06.011. Dance hall supervisor.

(a) A person who operates a dance hall must designate a person as dance hall supervisor and register that person’s name with the police chief.

(b) A person designated dance hall supervisor must remain on the premises of the dance hall during the time dancing is permitted and until 30 minutes after the end of the dance to insure that the dance is conducted in an orderly manner.

Unedited First Draft

(Code 1996, § 4.06.011)

Sec. 4.06.012. Persons under 17 prohibited.

(a) No person under the age of 17 years may enter a Class A, B, or C dance hall unless accompanied by a parent or guardian.

(b) A person commits an offense if he falsely represents himself to be either a parent or guardian of a person under the age of 17 years for the purpose of gaining the person's admittance into a Class A, B, or C dance hall.

(c) A licensee or employee of a Class A, B, or C dance hall commits an offense if he knowingly allows a person under the age of 17 years to enter or remain on the premises of the dance hall unless the person is accompanied by a parent or guardian.

(d) A licensee of a Class A, B, or C dance hall commits an offense if he maintains the premises without posting a sign at each entrance to the business that reads: "It is unlawful for any person under 17 years old to enter this location without a parent or guardian."
(Code 1996, § 4.06.012)

Sec. 4.06.013. Persons under 14 and over 18 prohibited in Class E dance halls.

(a) No person under the age of 14 years or over the age of 18 years may enter a Class E dance hall.

(b) A person commits an offense if he is over the age of 18 years and:

(1) Enters a Class E dance hall; or

(2) For the purpose of gaining admittance into a Class E dance hall, he falsely represents himself to be:

(A) Of an age from 14 years through 18 years;

(B) A licensee or an employee of the dance hall;

(C) A parent or guardian of a person inside the dance hall; or

(D) A governmental employee in the performance of official duties.

(c) A licensee or an employee of a Class E dance hall commits an offense if he knowingly allows a person to enter or remain on the premises of the dance hall who is:

(1) Under the age of 14 years; or

(2) Over the age of 18 years.

(d) It is a defense to prosecution under subsections (b)(1) and (c)(2) above that the person is:

(1) A licensee or employee of the dance hall;

Unedited First Draft

(2) A parent or guardian of a person inside the dance hall; or

(3) A governmental employee in the performance of official duties.

(e) A licensee of a Class E dance hall commits an offense if he maintains the premises without posting a sign at each entrance to the dance hall that reads: "It is unlawful for any person under 14 years old to enter this location without a parent or guardian. It is unlawful for any person over 18 years old to enter this location."
(Code 1996, § 4.06.013)

Sec. 4.06.014. Persons under 18 prohibited in Class D dance halls.

(a) No person under the age of 18 years may enter a Class D dance hall.

(b) A person commits an offense if he falsely represents himself to be a person 18 years of age or older for the purpose of gaining admittance into a Class D dance hall.

(c) A licensee or employee of a Class D dance hall commits an offense if he knowingly allows a person under the age of 18 years to enter or remain on the premises of the dance hall.

(d) A licensee of a Class D dance hall commits an offense if he maintains the premises without posting a sign at each entrance to the dance hall that reads: "It is unlawful for any person under 18 years old to enter this location."
(Code 1996, § 4.06.014)

Sec. 4.06.015. Expiration of license or permit.

(a) A license for a Class A, B, C, D, or E dance hall expires one year from the date of issuance and may be renewed only by making application as provided in section 4.06.002. Application for renewal should be made at least 30 days before the expiration date, and when made less than 30 days before the expiration date, the expiration of the license will not be affected.

(b) A late hours permit for a Class A, B, C, or D dance hall expires in conjunction with the accompanying dance hall license and may be renewed only by making application as provided in section 4.06.007.

(c) A license for a Class C dance hall expires at 2:00 a.m., or 4:00 a.m., if a late hours permit has been issued, on the day following the day of the dance.

(d) When the police chief denies renewal of a license, the applicant shall not be issued a license for one year from the date denial becomes final. If, subsequent to denial, the police chief finds that the basis for denial of the renewal license has been corrected or abated, the applicant may be granted a license if at least 90 days have elapsed since the date denial became final. If a renewal of a license is denied under section 4.06.006(a)(13) only, the applicant may be granted a license immediately upon compliance with section 4.06.003 of this article. If a renewal of a license is denied under section 4.06.006(a)(14) only, the applicant may be granted a license immediately upon compliance with section 4.06.004 of this article.
(Code 1996, § 4.06.015)

Sec. 4.06.016. Suspension of license.

Unedited First Draft

The police chief shall suspend a dance hall license for a period of time not exceeding 30 days if the police chief determines that a licensee or an employee of a licensee has:

(1) Violated section 4.06.006(d), 4.06.009, 4.06.012, 4.06.013, 4.06.014, or 4.06.019 of this article;

(2) Engaged in excessive use of alcoholic beverages while on the dance hall premises;

(3) Refused to allow an inspection of the dance hall premises as authorized in this article;

(4) Knowingly permitted an intoxicated person to remain on the premises;

(5) Knowingly permitted gambling by any person on the dance hall premises;

(6) Demonstrated inability to operate or manage a dance hall premises in a peaceful and law-abiding manner, thus necessitating action by law enforcement officers; or

(7) Knowingly permitted the possession, consumption, or sale of an alcoholic beverage on the premises of a class E dance hall.
(Code 1996, § 4.06.016)

Sec. 4.06.017. Revocation of license.

(a) The police chief shall revoke a license if a cause of suspension in section 4.06.016 occurs and the license has been suspended within the preceding 12 months.

(b) The police chief shall revoke a license if the police chief determines that one or more of the following is true:

(1) A licensee has given false or misleading information in the material submitted to the police chief during the application process.

(2) A licensee or an employee is unable to lawfully operate the dance hall because of physical or mental impairment.

(3) A licensee or an employee has knowingly allowed possession, use or sale of controlled substances on the premises.

(4) A licensee or an employee has knowingly allowed prostitution on the premises.

(5) A licensee or an employee knowingly permitted dancing or a live performance during a period of time when the dance hall license was suspended.

(6) A licensee has been:

(A) Convicted of an offense listed in section 4.06.006(a)(10)(A) for which the time period required in section 4.06.006(a)(10)(B) has not elapsed; or

(B) Convicted of or is under indictment for any felony offense while holding a dance hall license.

(7) While an employee of the dance hall and while on the licensed premises, a person has committed

Unedited First Draft

an offense listed in section 4.06.006(a)(10)(A), for which a conviction has been obtained, two or more times within a 12 month period.

(8) A licensee of a Class E dance hall is in violation of the locational requirements of section 4.06.003 of this article.

(9) A licensee of a Class D dance hall is in violation of the locational requirements of section 4.06.004 of this article.

(c) The fact that a conviction is being appealed shall have no effect on the revocation of the license.

(d) When the police chief revokes a license, the revocation shall continue for one year and the licensee shall not be issued a dance hall license for one year from the date revocation became final. If subsequent to revocation the police chief finds that the basis for the revocation action has been corrected or abated, the applicant may be granted a license if at least 90 days have elapsed since the date the revocation became final. If the license was revoked under subsection (b)(8) above only, the applicant may be granted a license immediately upon compliance with section 4.06.003 of this article. If the license was revoked under subsection (b)(9) above only, the applicant may be granted a license immediately upon compliance with section 4.06.004 of this article. If the license was revoked under subsection (b)(7) above, an applicant may not be granted another license until the appropriate number of years required under section 4.06.006(a)(10)(B) has elapsed.
(Code 1996, § 4.06.01)

Sec. 4.06.018. Appeal of license denial, suspension or revocation.

(a) If the police chief denies the issuance of a license or suspends or revokes a license, the police chief shall send to the applicant, or licensee, by certified mail, return receipt requested, written notice of the action and the right to an appeal. The aggrieved party may appeal the decision of the police chief to the board of adjustment. The filing of an appeal stays the action of the police chief in suspending or revoking a license until the board makes a final decision. If within a ten day period the police chief suspends, revokes, or denies issuance of a sexually oriented business license for the same location involved in the city police chief's actions on the dance hall license, then the city police chief may consolidate the request for appeals of those actions into one appeal.

(b) If the police chief denies the issuance of a Class D dance hall license or suspends or revokes a Class D dance hall license, the police chief shall send to the applicant, or licensee, by certified mail, return receipt requested, written notice of the action and the right to an appeal. Upon receipt of written notice of the denial, suspension, or revocation, the licensee whose application for a license has been denied or whose license has been suspended or revoked shall have the right to appeal to the state district court. An appeal to the state district court must be filed within 30 days after the receipt of notice of the decision of the police chief. The licensee shall bear the burden of proof in court.
(Code 1996, § 4.06.018)

Sec. 4.06.019. Transfer of license or late hours permit.

A licensee shall not transfer a license or late hours permit to another, nor shall a licensee operate a dance hall under the authority of a license, or a late hours permit, at any place other than the address designated in the application.
(Code 1996, § 4.06.019)

Unedited First Draft

Sec. 4.06.020. Penalty.

Any person who violates any provision of this article, except sections 4.06.003 and 4.06.004, upon conviction is punishable by a fine as provided for in the general penalty provision found in section 1.01.009 of this code. Any person who violates section 4.06.004 or 4.06.003 of this article pertaining to zoning, upon conviction, is punishable by a fine in accordance with the general penalty provision found in section 1.01.009 of this code.
(Code 1996, § 4.06.020)

Sec. 4.06.021. Injunction.

A person who operates or causes to be operated a dance hall without a valid license or in violation of section 4.06.003 or 4.06.004 of this article is subject to a suit for injunction as well as prosecution for criminal violations.
(Code 1996, § 4.06.021)

ARTICLE VII. SECONDARY METAL RECYCLERS

Sec. 4.10.001. Purpose; authority.

This article is an exercise of the city's police power to promote, through regulation of secondary metal recyclers, the recovery of stolen property. This article provides licensing and recordkeeping requirements and enforcement procedures that will enable the police department to identify and recover public and private property composed of certain metals that may have been illegally appropriated.
(Code 1996, § 4.10.001; Ord. No. O-19-08, 6/16/08)

Sec. 4.10.002. Definitions.[45]

The following words, terms and phrases, when used in this article, shall have the meanings ascribed to them in this section, except where the context clearly indicates a different meaning:

~~Chief. The police chief for the city or a designated representative.~~

Ferrous metal. A metal that contains significant quantities of iron or steel.

Hold notice. Written notification by the city police chief to a secondary metals recycler stating that the secondary metals recycler may not sell, redeem or dispose of certain regulated metal property that the city police chief has reasonable cause to believe has been stolen.

Licensee. A person in whose name a license has been issued under this article or a person listed as an applicant on the application for a license.

Nonferrous metal. A metal that does not contain significant quantities of iron or steel including yet not limited to copper, brass, aluminum, bronze, lead, zinc, nickel and their alloys.

Passport. A passport issued by the United States government or issued by another country and recognized by the United States government.

---

[45] **Sec. 4.10.002. Definitions.** Definitions duplicative of chapter 1 are stricken as shown.

Unedited First Draft

~~Person. An individual, partnership, corporation, joint venture, trust, association and any other legal entity.~~

Personal identification certificate. A personal identification card issued by the state department of public safely under V.T.C.A., Transportation Code, ch. 521, subchapter E, or a similar card or certificate issued by another state.

Purchase transaction. A transaction in which a secondary metals recycler gives consideration in exchange for regulated metal property.

Regulated metal property. Any item composed in whole or in part of any ferrous or nonferrous metal other than an item composed in whole of tin.

Secondary metals recycler. Any person who engages in the business of purchasing, collecting or soliciting regulated metal property or operates or maintains a facility where regulated metal property is purchased or kept for shipment, sale, transfer or salvage.

Seller. Any person who in a purchase transaction receives consideration from a secondary metals recycler in exchange for regulated metal property.
(Code 1996, § 4.10.002; Ord. No. O-19-08, 6/16/08)

Sec. 4.10.003. Records required.

(a) A secondary metals recycler shall maintain an accurate and legible record of each purchase transaction. Each transaction must be recorded separately.

(b) The record of each purchase transaction must be in English and contain the following information:

(1) The name and address of the secondary metals recycler;

(2) The name or initials of the individual recoding the information required by this section for this secondary metals recycler;

(3) The seller's name, address, sex and birthdate as well as the identifying number from the seller's driver's license, military identification card, passport or personal identification certificate;

(4) The license number of any motor vehicle in which the regulated metal property is delivered in a purchase transaction;

(5) The place, date and time of the purchase transaction;

(6) The weight, quantify or volume and a description made in accordance with the custom of the trade of the regulated metal property purchased;

(7) A general description of the predominant types of regulated metal property purchased in the purchase transaction;

(8) The amount of consideration given in a purchase transaction for the regulated metal property;

Unedited First Draft

(9) A signed statement from the seller in a purchase transaction affirming a legal right of ownership and the right to sign over title to the regulated metal property offered for sale;

(10) A digital photograph, videotape or similar likeness of the seller that clearly depicts the seller's facial features; and

(11) A clear thumbprint of the seller.

(c) A person selling or attempting to sell regulated metal property to a secondary metals recycler shall:

(1) Display to the secondary metals recycler the person's driver's license, military identification card, passport or personal identification certificate; and

(2) Sign a written statement provided by the secondary metals recycler affirming that the person is a legal owner or is lawfully entitled to sell the regulated material offered for sale.

(d) The secondary metals recycler or the recycler's agent shall visually verify the accuracy of the identification presented by the seller at the time of each purchase of regulated metal property.

(e) A secondary metals recycler shall maintain on file the information required by this section for not less than one year from the date of the purchase transaction. A secondary metals recycler shall make these records available for inspection by any police officer, upon request, at the secondary metals recycler's place of business during the usual and customary business hours of the secondary metals recycler.

(f) The recordkeeping requirements of this section, other than subsection (b)(7) and (b)(10), do not apply to purchase transactions involving regulated metal property composed solely of the following nonferrous metal materials for which definitions and recordkeeping requirements are provided by V.T.C.A., Occupations Code, ch. 1956, subchapter A.

(1) Copper or brass material in excess of 50 pounds.

(2) Bronze material.

(3) Aluminum material in excess of 40 pounds.

(g) It is a defense to prosecution under subsection (b)(10) of this section that:

(1) A photograph of the seller, taken within the preceding six months, was currently on file with the secondary metals recycler; and

(2) At the time of the purchase transaction, the secondary metals recycler or an employee of the secondary metals recycler visually verified that the seller was actually the person depicted in the file photograph.

(Code 1996, § 4.10.003; Ord. No. O-19-08, 6/16/08)

Sec. 4.10.004. Notice to sellers.

(a) A secondary metals recycler shall at all times maintain in a prominent place in the secondary metals recycler's place of business, in open view to a seller of regulated metal property, a notice in two-

Unedited First Draft

inch lettering that contains the following or similar language approved by the city police chief: "A person attempting to sell any regulated metal property must present sufficient identification required by City of Glenn Heights ordinance."

(b) The notice required by this section may be contained on a sign that contains another notice required by law to be displayed by the secondary metals recycler.
(Code 1996, § 4.10.004; Ord. No. O-19-08, 6/16/08)

Sec. 4.10.005. Facsimile, telecopier or similar equipment required.

A secondary metals recycler shall maintain at its place of business or otherwise have immediate access to a facsimile, telecopier or other equipment of similar function on which notifications of stolen property or other notifications relating to regulated metal property may be expeditiously received from the police department. The equipment must be operable at all times during the usual and customary business hours of the secondary metals recycler. The secondary metals recycler shall maintain the facsimile number or other access number of the equipment on file with the city police chief and shall notify the city police chief within 24 hours after any change in the number.
(Code 1996, § 4.10.005; Ord. No. O-19-08, 6/16/08)

Sec. 4.10.006. Restrictions on purchase of regulated metal property.

(a) A secondary metals recycler shall conduct all purchase transactions only between the hours of 7:00 a.m. and 7:00 p.m.

(b) A secondary metals recycler shall not purchase any item of regulated metal property from an intoxicated person.

(c) A secondary metals recycler shall not purchase any item of regulated metal property from an individual who does not arrive at the secondary metals recycler in a motor vehicle.

(d) A secondary metals recycler shall not purchase any item of regulated metal property using cash payments.

(e) A secondary metals recycler shall not purchase any of the following items of regulated metal property without obtaining proof that the seller owns the property (such as by receipt or bill of sale) or proof that the seller is an employee, agent or contractor of a governmental entity, utility company, cemetery, railroad, manufacturer or other person, business or entity owning the property and the seller is authorized to sell the item of regulated metal property on behalf of the person, business or entity owning the property:

(1) A manhole cover.

(2) An electric light pole and its fixtures and hardware.

(3) A guard rail.

(4) A street sign, traffic sign or traffic signal and its fixtures and hardware.

(5) Communication, transmission and service wire.

Unedited First Draft

(6) A funeral marker or funeral vase.

(7) An historical marker.

(8) Railroad equipment including yet not limited to a tie plate, switch plate, E-clip or rail tie junction.

(9) Any metal item that is marked with any form of the name, initials or logo of a governmental entity, utility company, cemetery or railroad.

(10) A copper or aluminum condensing or evaporator coil from a heating or air conditioning unit.

(11) An aluminum or stainless steel container or bottle designed to hold propane for fueling forklifts.

(f) A secondary metals recycler shall maintain on file the information required by subsection (e) of this section for not less than one year from the date of the purchase of the item of regulated metal property. A secondary metals recycler shall make these records available for inspection by any police officer, upon request, at the secondary metal recycler's place of business during the usual and customary business hours of the secondary metals recycler.

(g) The requirements of subsections (e) and (f) of this section do not apply to purchase transactions involving regulated metal property composed solely of the following nonferrous metal materials for which definitions, recordkeeping requirements and other regulations are provided by V.T.C.A., Occupations Code, ch. 1956: copper or brass material in excess of 50 pounds, bronze material, or aluminum material in excess of 40 pounds.
(Code 1996, § 4.10.006; Ord. No. O-19-08, 6/16/08)

Sec. 4.10.007. Hold on regulated metal property; segregation, labeling and inspection; exceptions.

(a) Except as provided in subsection (c) of this section, a secondary metals recycler shall retain possession of purchased regulated metal property at the secondary metals recycler's local place of business and withhold the property from alteration, processing, resale or salvage use for 72 hours after purchase unless the property is released sooner by written order of the city police chief or by order of a court of competent jurisdiction.

(b) Except as provided in subsection (c) of this section, a secondary metals recycler shall segregate all regulated metal property purchased from a seller from regulated metal property purchased from other sellers and attach to the property, or to the container in which the property is held, a label indicating the name of the seller, the date on which the property was purchased and the number of the receipt on which the purchase information is recorded. If in any single purchase transaction there are multiple items of regulated metal property of the same general type, only one representative item from each type of regulated property must be segregated and labeled in accordance with this subsection.

(c) The hold, segregation and labeling requirements of subsections (a) and (b) of this section do not apply to any item of regulated metal property composed solely of ferrous metal material unless the secondary metals recycler has received notice that the city police chief has, in accordance with this subsection, designated the item or type of item as being subject to those requirements. The city police chief shall periodically review theft statistics on ferrous regulated metal property and establish a list of items or types of items that the city police chief determines are subject to the requirements of subsections (a) and (b). A current list must be maintained on file in the city police chief's office or in another designated office of the police department so that it may be inspected by the public during the city's

Unedited First Draft

normal business hours. Notice of the list must be given to secondary metals recyclers in accordance with schedules and procedures established by the city police chief. A secondary metals recycler is presumed to have received notice of the list if the police department transmits the list to the facsimile number or access number provided by the secondary metals recycler under section 4.10.005.

(d) While in possession of purchased regulated metal property, a secondary metals recycler shall make the property available for inspection by any police officer at the secondary metals recycler's place of business during the usual and customary business hours of this secondary metals recycler.
(Code 1996, § 4.10.007; Ord. No. O-19-08, 6/16/08)

Sec. 4.10.008. Hold on stolen regulated metal property; hold notice.

(a) When a police officer has reasonable cause to believe that certain items of regulated metal property in the possession of a secondary metals recycler are stolen, the city police chief may issue a hold notice. The hold notice must:

(1) Identify those items of regulated metal property alleged to be stolen and subject to hold; and

(2) Inform the secondary metals recycler of the restrictions imposed on the regulated metal property under subsection (b) of this section.

(b) A secondary metals recycler may not, for 60 days from the date of receiving a hold notice under this section, process or remove from the secondary metals recycler's place of business any regulated metal property identified in the hold notice unless the property is released sooner by the city police chief or by order of a court of competent jurisdiction. At the expiration of the hold period, the hold is automatically released and the secondary metals recycler may dispose of the regulated material unless otherwise directed by a court of competent jurisdiction.

(c) This section does not apply to items of regulated metal property composed solely of the following nonferrous metal materials for which definitions and hold notice requirements are provided by V.T.C.A., Occupations Code, ch. 1956: copper or brass material in excess of 50 pounds, bronze material, or aluminum material in excess of 40 pounds.
(Ord. No. O-19-08, 6/16/08)

§ 4.10.009. Offenses; defenses; penalty.

(a) A person who knowingly violates any provision of this article or who knowingly fails to perform a duty required of him under this article commits an offense. A person is guilty of a separate offense for each item of regulated metal property involved in a violation of this article. An offense under this article is punishable by a fine not to exceed $500.00.

(b) It is a defense to prosecution under this article that the regulated metal property involved:

(1) Was purchased from a charitable, philanthropic, religious, fraternal, civic, patriotic, social or school-sponsored organization or association, or from any organization that is exempt from taxation under section 501(c)(3) of the Internal Revenue Code;

(2) Was purchased from any public officer acting in an official capacity as a trustee in bankruptcy, executor, administrator, or receiver, from any public official acting under judicial process or authority, or from a sale on the execution or by virtue of any process issued by a court;

Unedited First Draft

(3) Consists of aluminum food or beverage containers, used food or beverage containers, or similar food or beverage containers for the purpose of recycling other than beer or beverage kegs; or

(4) Was purchased from a manufacturing, industrial or other commercial vendor that generates or sells regulated metal property in the ordinary course of its business.
(Code 1996, § 4.10.008; Ord. No. O-19-08, 6/16/08)

ARTICLE VIII. VEHICLES FOR HIRE[46]

Sec. 4.11.001. Definitions.

The following words, terms and phrases, when used in this article, shall have the meanings ascribed to them in this section, except where the context clearly indicates a different meaning:

Limousine. Any chauffeured motor vehicle for general passenger use with a rated passenger capacity of not more than 15 passengers and which operates on a prearranged appointment basis only whereby such prearrangement is made not less than 1 hour in advance of the time transportation is to begin. At no time shall such vehicle operate on a call-and-demand basis as a taxicab.

Taxicab. A chauffeured motor vehicle having a rated passenger capacity of 8 or less which typically operates on irregular routes and schedules and on a call-and-demand basis. The term shall not apply to motor vehicles operating under a license or certificate of the railroad commission of the state or the Interstate Commerce Commission nor to a limousine.

Vehicle service for hire. Any motor or other vehicle operated within the city for the purpose of carrying passengers for hire from within the city, except motor buses operating on fixed routes as specified in this article, specially chartered buses and driverless vehicles (rental cars). The term “vehicles for hire” includes limousine and taxicab, as defined. The term specifically excludes demand services by public entities relative to providing transportation for senior citizens and disabled persons.
(Code 1996, § 4.11.001; Ord. No. O-24-08, 9/2/08)

Sec. 4.11.002. Applicability of article; exclusions.[47]

(a) The operation of vehicles for hire shall be subject to this article, except that this article does not apply to a vehicle that is:

(1) Used to transport a person from a point of origination outside the city to a destination inside the city (including a round-trip transport), so long as the vehicle leaves the city without receiving a different passenger from inside the city;

---

[46] **Art. VIII. Vehicles for Hire.** The city should review this article carefully in light of local circumstances and the current provisions of V.T.C.A., Occupations Code, ch. 2402. Depending on the type of local for hire vehicles the city has to regulate some or all of this article may be obsolete. The city can regulate traditional taxis and, in certain circumstances, limousines, but not TNCs which may fall under the definition of vehicles for hire above. Please review and advise.

[47] **Sec. 4.11.002. Applicability of article; exclusions.** Obsolete text is stricken as shown.

Unedited - First Draft

(2) Owned and operated by the federal or state government, or by a political subdivision of the state; or

(3) Used in a carpool to transport the person and others on a prearranged basis between their homes and places of employment or places of common destination, if only a fee calculated to reasonably cover expenses is charged.

(b) It is unlawful to operate or cause to be operated from within the city any vehicle for hire unless a license therefor shall have been issued to the owner or operator thereof in accordance with t this article. ~~Provided, however, the owner or operator of an existing, approved vehicle for hire service required to obtain a license as herein provided shall file an application for license on or before the 90th day after passage of this article, or , 2008.~~

(Code 1996, § 4.11.002; Ord. No. O-24-08, 9/2/08)

Sec. 4.11.003. License application, contents, amendment and revocation.

(a) Every person, entity or business desiring to own or operate a vehicle for hire, or operate a business for vehicles for hire, shall file with the city secretary a written application signed by such applicant and stating:

(1) The name of the owner of the business or owner of the vehicle for hire if different than the business owner:

(A) If the owner is a person, the mailing address, physical address, work telephone number, home telephone number, driver's license number, and state of issuance of such driver's license;

(B) If the owner is a partnership, the name of all partners, the principal business address and telephone number of each partner;

(C) If the owner is a corporation, the state of incorporation, the name and address of the registered agent, the names of all officers, and the contact information of any local office of such corporation.

(2) Name, place of residence, sex, age, customary occupation; the name of any other person, firm or corporation who owns any interest in the business; and the name of the person, firm or corporation that owns any title or interest in any vehicle used in the business.

(3) The year, make and model of each vehicle proposed to be used.

(4) If applicable, the address and description of the stand at which taxicabs will remain while not in actual service.

(5) Binder or policy for commercial liability insurance in the single limit amount of $300,000.00 bodily injury and property damage.

(6) The experience of the applicant in the business and a statement of proposed rates.

(7) It shall be the responsibility of the applicant to prove to the council in writing that public convenience and necessity for an additional taxicab service or vehicle service for hire exists.

Unedited First Draft

(8) A copy of a current, valid Texas driver's license of every operator of every taxicab or vehicle service for hire that operates within the city limits.

(9) Signature of the applicant verifying information submitted for government approval and shall be considered a government document.

(b) A new application or amendment shall be filed promptly if and when any changes have occurred in the information then on file with the city and set forth on the license application.

(c) As to taxicabs only, before the city secretary shall issue a license, a certificate declaring that public convenience and necessity require the issuance of such license shall first be obtained from the city manager. The number of taxicabs authorized to operate in the city and for which certificate of public convenience and necessity may be issued under this article shall be based upon the public convenience and necessity as found and determined by the city manager.

(d) A license issued under this article shall be nonassignable. A license issued under this article may be revoked by the city council at any time it shall appear to council that the licensee has violated any provision of this article, or for other good cause.

(e) No license shall be issued under this article unless and until the applicant has furnished copies of such insurance policies. Such policy shall contain a provision that the city shall be given at least 30 days' prior written notice of cancellation, nonrenewal or material change of the required insurance coverage. This action shall be evidenced by registered or certified mail.

(f) The owner or operator of each taxicab or vehicle service for hire shall post in a conspicuous place on the inside of each vehicle a card showing the rates charged and the owner or operator may not charge an amount in excess of the rates so displayed. Such rates shall correspond with the rates furnished to the city secretary annually.
(Code 1996, § 4.11.003; Ord. No. O-24-08, 9/2/08)

Sec. 4.11.004. License fees; renewal; exemptions.

(a) At the time of original issuance of a license, the licensee shall pay to the city secretary the sum of $25.00, regardless of the number of vehicles covered by the license; provided that no license fee or license renewal fee is required for a license covering only a vehicle service for hire that has been licensed by the state railroad commission or the federal department of transportation.

(b) A license shall be valid for one year. Thereafter, the licensee shall renew such license, each year, by:

(1) Paying $25.00 for the renewal, subject to the exemption from fees referenced in subsection (a) of this section.

(2) Furnishing the city copies of the insurance policies required under this article with 30-day prior written cancellation/change notice.

(3) As to taxicabs only, furnishing the city a statement of rates, unless the city council has adopted a rate schedule by ordinance applicable to all taxicabs in the city.

(4) Valid Texas driver's license of all operators of any vehicle service for hire.

Unedited First Draft

(c) Fees for city permits, open stands and other fees shall be as provided in the city fee schedule ~~established by resolution of the city council~~.
(Code 1996, § 4.11.004; Ord. No. O-24-08, 9/2/08)

Sec. 4.11.005. Required vehicle for hire identification.

(a) The owner or driver of a vehicle for hire shall obtain a decal, indicating the vehicle's authority to operate, from the city. Such decal shall indicate a period of time in which the taxicab is authorized to operate within the city. A decal must be attached to the lower right corner of the front windshield of the vehicle. A decal assigned to one person is not transferable to another without prior written consent of the city.

(b) City identification card. Each operator shall obtain a city identification card prior to operation of a vehicle for hire.
(Code 1996, § 4.11.005; Ord. No. O-24-08, 9/2/08)

Sec. 4.11.006. Vehicle maintenance requirements.

(a) Each vehicle for hire shall comply with all equipment and safety standards contained in applicable state or local law. No vehicle for hire shall be operated with more passengers than the manufacturer's recommendations for the maximum number of occupants.

(b) Each vehicle for hire shall be regularly maintained in good operating condition and such maintenance records shall be business records subject to inspection by the city.

(c) Each vehicle for hire shall be inspected and registered and display current inspection and registration certificates as required by applicable state law.
(Code 1996, § 4.11.006; Ord. No. O-24-08, 9/2/08)

Sec. 4.11.007. City not liable, indemnity.

(a) The city shall not be liable to any person whatsoever for damages arising out of the operation or ownership of any vehicle for hire, or arising out of the enforcement, or lack of enforcement, of this article.

(b) The regulation of vehicles for hire is a governmental function.

(c) The owner and operator of every vehicle for hire business operated on the streets of the city, whether licensed under this article or not, shall indemnify and save the city harmless from all liabilities arising out of the ownership or operation of any such vehicles, even though it be alleged, or even proved, that city negligence caused (in whole or in part) such liability. This subsection is a part of every license whether stated therein or not.
(Code 1996, § 4.11.007; Ord. No. O-24-08, 9/2/08)

Sec. 4.11.008. Refusal to grant license.

(a) If any of the representations in any application filed under this article are found to be false or fraudulent, such application may be refused.

(b) The city council shall have and hereby reserves the right to determine whether additional vehicle

Unedited First Draft

for hire service is required for efficiently and properly meeting and serving public interests and necessity in the city, and without other cause existing, to refuse any application filed unless the council decides that the granting of same will serve public convenience and necessity.

(c) The city council may revoke or refuse to grant a license where the license holder has committed numerous offenses under this article such that the continued operation of the business is not in the best interest of the safety and welfare of the citizens of the city. In such event, the city council shall provide a written statement of the reasons for the revocation or refusal to grant or renew a license.
(Code 1996, § 4.11.008; Ord. No. O-24-08, 9/2/08)

Sec. 4.11.009. Transfer of license prohibited; operation of taxi limited.

(a) No license issued under the terms of this article shall be transferred to any other person, nor shall such license be used for the operation of any vehicle for hire except the vehicles for hire for which the license is issued; provided, however, that in the event a vehicle for hire becomes disabled or is withdrawn from service for repairs, another vehicle may be substituted for such disabled vehicle only until same is repaired.

(b) No vehicle for hire for which a license has been issued under this article shall be operated by anyone except the licensee thereof or an employee of the licensee.
(Code 1996, § 4.11.009; Ord. No. O-24-08, 9/2/08)

Sec. 4.11.010. Insurance.

Before the city shall issue any license under this article, or before any renewal of such license shall be granted, an applicant shall file with the city secretary and thereafter maintain in full force and effect, a policy of commercial liability and property damage insurance executed by an insurance company duly authorized to do business in the state and performable in the county, insuring the public against any loss or damage that may result to any person or property from the operation of such vehicle or vehicles in the minimum single limit amount of $300,000.00.
(Code 1996, § 4.11.010; Ord. No. O-24-08, 9/2/08)

Sec. 4.11.011. Violations.

It is unlawful for any person in the city to:

(1) Falsify or omit any material information on the license application. The license application is a government record and as such, falsification, tampering, and other offenses may be prosecuted as provided by state law.

(2) Operate a vehicle service for hire or taxicab without a current and valid decal for such vehicle.

(3) Fail to update any material information on the license application upon renewal.

(4) Fail or refuse to provide business records during regular business hours upon reasonable request.

(5) Assign or transfer the license.

(6) Fail to comply with applicable federal, state and local laws, regulations or ordinances that apply to the use and operation of vehicle service for hire or taxicabs.

Unedited First Draft

(7) Own or operate a vehicle for hire on any of the streets of the city, advertising transportation services, unless a license for such vehicle or vehicles has been issued by the city for the current calendar year.

(8) Hold a license under this article and license or allow an unlicensed driver to operate a vehicle service for hire or taxicab.

(9) Operate a vehicle for hire with an expired decal or with no decal affixed to it;

(10) Attach a decal to a vehicle not authorized to operate as a vehicle for hire;

(11) Forge, alter, or counterfeit a vehicle for hire decal required by this article;

(12) Possess a forged, altered, or counterfeited vehicle for hire decal required by this article;

(13) Display more than one vehicle for hire decal issued by the city on a vehicle at the same time; or

(14) Fail to display upon demand the city-issued identification card for operators of vehicles for hire.

(Code 1996, § 4.11.011; Ord. No. O-24-08, 9/2/08)

Sec. 4.11.012. Penalty for violation.

(a) A person who violates a provision of this article, or who fails to perform an act required by this article, commits a misdemeanor offense. A person commits a separate offense each day or portion of a day during which a violation is committed, permitted, or continued.

(b) Every charge made, every trip made upon the street of this city, and answering a call or carrying a person not authorized by a vehicle for hire license shall constitute a separate offense

(c) An offense under this article is punishable by a fine not to exceed $500.00.

(d) Allegation and evidence of a culpable mental state is not required for proof of an offense defined by this article.

(Code 1996, § 4.11.012; Ord. No. O-24-08, 9/2/08)

ARTICLE IX. GARAGE SALES

Sec. 4.12.001. Definitions.[48]

The following words, terms and phrases, when used in this article, shall have the meanings ascribed to them in this section, except where the context clearly indicates a different meaning:

Garage or home sale. The sale of personal property on the same lot as a residential dwelling within a residential zoning district and means to include yard sales, estate sales, and moving sales. It shall not include the sale of retail merchandise sold for the benefit of a commercial retail establishment

[48] **Sec. 4.12.001. Definitions.** A standardized introduction is substituted for consistency.

Unedited First Draft

Nonprofit organization. A charitable, religious, educational, fraternal, governmental, or civic organization that is located in the city.
(Code 1996, § 4.12.001; Ord. No. O-12-13, 10/22/13)

Sec. 4.12.002. Unlawful for commercial retailers to offer or sell merchandise at garage sale.

It is unlawful under this article for a commercial retail establishment (e.g., department stores, warehouses, etc.) to sell or offer for sale merchandise at a garage sale.
(Code 1996, § 4.12.002; Ord. No. O-12-13, 10/22/13)

Sec. 4.12.003. Permit.

Prior to the commencement date of any garage or home sale, the person desiring to engage in the sale shall obtain from the city building inspector a permit for such sale. Any person desiring a permit under this article shall make application for such permit to the building inspector or code enforcement officer, setting forth the location, time and date of said sale, the name and address of the person holding said sale and the type of goods, wares and merchandise to be sold.
(Code 1996, § 4.12.003; Ord. No. O-12-13, 10/22/13)

Sec. 4.12.004. Permit fee.

A nonrefundable permit fee in the amount provided in the city fee schedule ~~set forth in the fee schedule in appendix A of this code, as amended,~~ shall accompany the permit application to cover the cost of administration of this provision. For permits issued after sale has commenced, the permit fee shall be double.
(Code 1996, § 4.12.004; Ord. No. O-12-13, 10/22/13)

Sec. 4.12.005. Number, duration of sales.

Two garage or home sales may be held per year per household covered by the permit application. No other such sales shall be held at that location during that year, which year consists of 365 days, between January 1 and December 31. Each sale may be held from Thursday through Sunday, dawn to dusk, and no more than four consecutive days in duration. If the sale continues for more than one day, the days must be consecutive. No more than two permits shall be issued for any one premises during said year.
(Code 1996, § 4.12.005; Ord. No. O-12-13, 10/22/13)

Sec. 4.12.006. Signs.

(a) The permittee shall be entitled to one on-premises sign placed one day prior to the garage sale. The permittee shall be entitled to post four additional signs off-premises for the purpose of notifying the public of the date, time and location of the sale; provided, however, no sign shall be placed in a public right-of-way, in any sight visibility triangle, utility pole, official sign, tree, nor be in excess of three feet above ground level or exceed six square feet in area.

(b) All off-premises signs shall have the address and dates of the sale on the sign. The off-premises signs may be placed one day prior to the sale.

(c) All signs or notices posted in regard to any garage or home sale for which a permit is issued under the provisions of this article shall be located so as not to constitute an impairment to or obstruction of traffic. All signs must be removed within 24 hours after the sale has concluded.

Unedited First Draft

(d) All signs shall be constructed from a weatherproof material. Cardboard and paper signs are prohibited.
(Code 1996, § 4.12.006; Ord. No. O-12-13, 10/22/13)

Sec. 4.12.007. Sales by nonprofit organizations.

A nonprofit organization may obtain a permit to engage in a garage, yard, sidewalk or similar sale open to the public, conducted from or on any property located in any residential zone or at the premises of the organization. In the event that such sale is to be held at a site that is not owned by the nonprofit organization, the applicant shall furnish the city with satisfactory proof of its authority to conduct the sale at that site. The city may require proof of the nonprofit or similar status of the organization. The city may waive the permit fee for such sale.
(Code 1996, § 4.12.007; Ord. No. O-12-13, 10/22/13)

Sec. 4.12.008. Penalties for violation.

Any person violating any of the provisions or terms of this article shall, upon conviction in the municipal court, be punished by a fine not to exceed $200.00 for each offense, and every day such violation shall continue shall be deemed to constitute a separate offense.
(Code 1996, § 4.12.008; Ord. No. O-12-13, 10/22/13)

Unedited First Draft

Chapter 8

EMERGENCY MANAGEMENT AND SERVICES

ARTICLE I. IN GENERAL

Sec. #. Basic emergency operations plan adopted and incorporated by reference.

A basic emergency operations plan for the city has been approved and adopted for use by all city departments, agencies, and employees. A copy of the plan is on file in the office of the city secretary and is incorporated herein by reference.
(Code 1996, art. 9.08)

Sec. 1.14.009. Declaration of local state of disaster by mayor.[49]

~~As provided for under article 5890e, V.T.C.S.,~~ Pursuant to V.T.C.A., Government Code, § 418.108 the mayor is hereby authorized to declare a local state of disaster ~~state of emergency~~ when necessary to protect lives and property of the inhabitants of the city.
(Code 1996, § 1.14.009)

ARTICLE II. EMS ORGANIZATION

Sec. 1.14.001. Composition; functions.

The operational emergency management organization of the city shall consist of the officers and employees of the city so designated by the director in the emergency management plan, as well as organized volunteer groups. The functions and duties of this organization shall be distributed among such officers and employees in accordance with the terms of the emergency management plan.
(Code 1996, § 1.14.001)

Sec. 1.14.002. Emergency management director; designation, powers, and duties.[50]

(a) The city has established the office of emergency management director which position shall be held by the mayor in accordance with state law. An emergency management coordinator may be appointed by and serve at the pleasure of the director.

(b) The director shall be responsible for a program of comprehensive emergency management within the city for carrying out the duties and responsibilities set forth in this article. He/she may delegate authority for execution of these duties to the coordinator, but ultimate responsibility for such execution shall remain with the director.

(c) The duties and responsibilities of the emergency management director shall include the following:

---

[49] **Sec. 1.14.009. Declaration of state of emergency by mayor.** VTCS art. 5890e was repealed in 1987. See suggested corrections.

[50] **Sec. 1.14.002. Emergency management director; designation, powers, and duties.** Citation corrected as shown.

Unedited First Draft

(1) Conduct an ongoing survey of actual or potential hazards which threaten life and property within the city and an ongoing program of identifying and requiring or recommending the implementation of measures which would tend to prevent the occurrence or reduce the impact of such hazards if disaster did occur.

(2) Supervision of the development and approval of an emergency management plan for the city and shall recommend for adoption by the city council all mutual aid arrangements deemed necessary for the implementation of such plan.

(3) Authority to declare a local state of disaster which may not be continued for renewed or a period in excess of seven days except by or with the consent of the city council.

(4) Issuance of necessary proclamations, regulations or directives which are necessary for carrying out the purposes of this article.

(5) Direction and control of the operations of the emergency management organization as well as the training of the emergency management personnel.

(6) Determination of all questions of authority and responsibility that may arise within the emergency management organization of the city.

(7) Maintenance of liaison with other municipal, county, district, state, regional or federal emergency management organizations.

(8) Marshaling of all necessary personnel, equipment or supplies from any department of the city to aid in the carrying out of the provisions of the emergency management plan.

(9) Supervision of the drafting and execution of mutual aid agreements, in cooperation with the representatives of the state and of other local political subdivisions of the state, and the drafting and execution, if deemed desirable, of an agreement with the county in which the city is located and with other municipalities within the county, for the countywide coordination of emergency management efforts.

(10) Supervision of and final authorization for the procurement of all necessary supplies and equipment, including acceptance of private contributions which may be offered for the purpose of improving emergency management within the city.

(11) Authorizing of agreements, after approval by the city attorney, for use of private property for public shelter and other purposes.

(12) Survey of the availability of existing personnel, equipment, supplies and services which could be used during a disaster, as provided for herein.

(13) Other requirements as specified in the Texas Disaster Act of 1975, V.T.C.A., Government Code, ch. 418 ~~(V.T.C.S. article 68889-7)~~.

(d) Any order or proclamation declaring, continuing, or terminating a local state of disaster shall be given prompt and general publicity and shall be filed promptly with the city secretary. Also, all proclamations, regulations, or directives shall be disseminated promptly by means calculated to bring its contents to the attention of the general public and, unless circumstances attendant on the disaster prevent

Unedited First Draft

or impede, promptly filed with the city secretary.
(Code 1996, § 1.14.002)

Sec. 1.14.003. Emergency management plan.[51]

(a) A comprehensive emergency management plan shall be developed and maintained in a current state. The plan shall set forth the form of the organization, establish and designate divisions and functions, assign responsibilities, tasks, duties, and powers, and designate officers and employees to carry out the provisions of this article. As provided by state law, the plan shall follow the standards and criteria established by the state division of emergency management.

(b) When approved, it shall be the duty of all departments and agencies to perform the functions assigned by the plan and to maintain their portion of the plan in a current state of readiness at all times.

(c) The emergency management plan shall be considered supplementary to this article and have the effect of law during the time of a disaster.
(Code 1996, § 1.14.003)

Sec. 1.14.004. Interjurisdictional program.

The mayor is authorized to join with the county judges of the Counties of Dallas and Ellis in the formation of an emergency management council for the Counties of Dallas and Ellis and shall have the authority to cooperate in the preparation of a joint emergency management coordinator, as well as all powers necessary to participate in a countywide program of emergency management insofar as the program may affect the city.
(Code 1996, § 1.14.004)

Sec. 1.14.005. Override.

At all times when the orders, rules, and regulations made and promulgated pursuant to this article shall be in effect, they shall supersede and override all existing ordinances, orders, rules, and regulations insofar as the latter may be inconsistent therewith.
(Code 1996, § 1.14.005)

Sec. 1.14.006. Liability.

(a) This article is an exercise by the city of its governmental functions for the protection of the public peace, health, and safety and neither the city, the agents and representatives of the city, nor any individual, receiver, firm, partnership, corporation, association, or trustee, nor any of the agents thereof, in good faith carrying out, complying with or attempting to comply with any order, rule, or regulation promulgated pursuant to the provisions of this article shall be liable for any damage sustained to persons as the result of the activity.

(b) Any person owning or controlling real estate or other premises who voluntarily and without compensation grants to the city a license or privilege, or otherwise permits the city to inspect, designate and use the whole or any part or parts of such real estate or premises for the purpose of sheltering persons

---

[51] **Sec. 1.14.003. Emergency management plan.** Is this different than the basic emergency operations plan in article I? If not, has this plan been adopted?

Unedited First Draft

during an actual, impending or practice enemy attack or natural or manmade disaster shall, together with his successors in interest, if any, not be civilly liable for the death of, or injury to, any person on or about such real estate or premises under such license, privilege or other permission or for loss of, or damage to, the property of such person.
(Code 1996, § 1.14.006)

Sec. 1.14.007. Commitment of funds.

No person shall have the right to expend any public funds of the city in carrying out any emergency management activity authorized by this article without prior approval by the city council, nor shall any person have any right to bind the city by contract, agreement or otherwise without prior and specific approval of the city council unless during a declared disaster. During a declared disaster, the mayor may expend or commit public funds of the city when deemed prudent and necessary for the protection of health, life, or property.
(Code 1996, § 1.14.007)

Sec. 1.14.008. Offenses; penalties.

(a) It is unlawful for any person willfully to obstruct, hinder, or delay any member of the emergency management organization in the enforcement of any rule or regulation issued pursuant to this article, or to do any act forbidden by any rule or regulation issued pursuant to the authority contained in this article.

(b) It shall likewise be unlawful for any person to wear, carry or display any emblem, insignia or any other means of identification as a member of the emergency management organization of the city, unless authority to do so has been granted to such person by the proper officials.

(c) Any unauthorized person who shall operate a siren or other device so as to simulate a warning signal, or the termination of a warning, shall be deemed guilty of a violation of this article and shall be subject to the penalties imposed by this article.

(d) Convictions for violations of the provisions of this article shall be punishable by a fine as provided for in the general penalty provision found in section 1.01.009 of this code.
(Code 1996, § 1.14.008)

ARTICLE III. CITY AMBULANCE SERVICE[52]

Sec. 1.15.001. Under supervision of fire chief.

The ambulance service equipment held by the city shall be utilized as an ambulance service for persons requesting or utilizing such service, which shall be subject to the further provision of this article, and such ambulance service is under the immediate supervision of the fire chief, and under the overall supervision of the city manager and such equipment shall be maintained at locations under the direction of such fire chief, subject to the approval of the city manager.
(Code 1996, § 1.15.001)

---

[52] **Art. III, City Ambulance Service.** I assume this is now EMS, which indicates this article needs updating, at a minimum with regard to current titles and terminology. Also, see the provisions in the fire chapter regarding collection of fees (including EMS fees). Should those be moved into this chapter? Please review and advise.

Unedited First Draft

Sec. 1.15.002. Charges for service.

Any person who utilizes the ambulance service of the city, whether such person requested the same or not, by reason of emergencies then existing, shall pay for the service the amounts as provided for in the city fee schedule ~~found in appendix A of this code~~.
(Code 1996, § 1.15.002)

Sec. 1.15.003. Failure to pay service.

Any person who utilizes the ambulance service of the city and who fails to pay for the service within 30 days after a statement of costs for such service has been mailed to the address of the user or parent, in the event a minor is the user, which address shall be sufficient for the purpose of this section, in accordance with the address which is supplied to the operator of the ambulance or which is obtained from the hospital where such person is delivered, shall be prima facie evidence by the copy of notice of statement as forwarded by the city for the purposes of this section.
(Code 1996, § 1.15.003)

Sec. 1.15.004. Notice of indebtedness.

It shall be prima facie evidence that the person utilizing such service did so with the intent to defraud upon a showing that such person was notified in writing of the indebtedness for such service, which notice in writing shall be by certified or registered mail to the address as is set forth in section 1.15.003 hereof or by personal service of a peace officer of the city, and upon failure of such person to pay such indebtedness within ten days after receipt of notice. A copy of the caption of the ordinance adopting this section shall accompany the notice forwarded to the user of such services by certified or registered mail.
(Code 1996, § 1.15.004)

Sec. 1.15.005. Restrictions on use.

Ambulances owned and operated by the city shall be restricted to responding to emergency calls in its incorporated areas of Dallas and Ellis Counties. Ambulances owned and operated by the city shall not be used for the transport of nonemergency patients.
(Code 1996, § 1.15.005)

ARTICLE IV. E-911 EMERGENCY SERVICE FEE

Sec. 1.16.001. Emergency service fee.[53]

(a) The city has imposed on each telephone subscriber's local exchange access line, or its equivalent, in the city, an E-911 emergency service fee, as provided in the city fee schedule ~~for in the fee schedule found in appendix A of this code~~. The fee is based upon the base rate for residential, business and business trunk lines as established by Southwestern Bell and approved by the public utility commission of the state. Such fees shall be used to provide for the purchase, installation, operating and maintenance expenses of E-911 service to be furnished pursuant to an application for service dated between the city and Southwestern Bell Telephone Company for E-911 services. (A copy of the application for service is on file in the office of the city manager.)

---

[53] **Sec. 1.16.001. Emergency service fee.** Citation is corrected as shown.

Unedited First Draft

(b) The city manager is authorized to execute a contract on behalf of the city with Southwestern Bell Telephone Company pursuant to the provisions of this article, to provide for the implementation and maintenance of E-911 emergency service for all telephone subscribers located within the municipal boundaries of the city. Such contract shall contain no provision or term inconsistent with V.T.C.A., Health and Safety Code, ch. 772, ~~article 1432d or 1432e, Vernon's Annotated Texas Statutes~~ or approved by the public utility commission of the state.

(c) The E-911 emergency service fee imposed by this article shall be subject to the following restrictions and limitations: A fee may not be imposed upon more than 100 local exchange access lines per telephone subscriber per location; nor may a fee be imposed upon any coin operated or coin/card reader operated telephone equipment. The fee shall be separately stated on each subscriber's bill; and the fee may not exceed six percent (6%) of Southwestern Bell's base rate (recurring) charge, exclusive of all taxes, fees, license costs or similar charges, for local exchange access lines or trunks or their equivalent. Furthermore, the fee is uniformly applied to all local exchange access lines within the city limits.

(d) The fees imposed by this article may not be imposed until the E-911 service is fully operational within the city. Southwestern Bell shall be advised with a certified copy of this article at least 120 days prior to the desired first billing date of the fees imposed by this article. One or more public hearings shall be conducted prior to the amendment of the emergency service fees imposed by this article. In the event the city council desires to amend such fees, it will provide Southwestern Bell Telephone Company at least 90 days written notice prior to the desired implementation date of such amended fees.

(e) Southwestern Bell will provide the city with a list of subscribers who have specifically refused a pay the E-911 emergency service fee. Such list shall be provided not more than once per calendar year. Southwestern Bell will not be obligated to take any legal action to enforce the collection of any billed emergency service fees, nor will it be obligated to disconnect any subscriber's telephone service for failure to pay the emergency service fees.

(f) Southwestern Bell will retain records of the fees collected pursuant to this article. Such records will be retained for a period not to exceed two years from the date of collection. The city may, at its sole cost and expense, audit Southwestern Bell's records of the collected fees not more often than once annually.

(g) Southwestern Bell will remit the collected E-911 emergency service fees to the city on a periodic basis, not more frequently than monthly, on/or before the 60th day after the close of the month in which such fees have been collected. Southwestern Bell will retain, from its remittance to the city, two percent of the collected E-911 emergency service fees as its compensation for providing such collection. (Code 1996, § 1.16.001)

ARTICLE VI. ALARM SYSTEMS

Sec. 4.08.001. Definitions.

The following words, terms and phrases, when used in this article, shall have the meanings ascribed to them in this section, except where the context clearly indicates a different meaning:

Alarm site. A premises served by an alarm system or CATV alarm system.

Unedited First Draft

Alarm system. A device or system which transmits a signal which is intended to summon an emergency service of the city. For the purposes of this definition, the categories of alarm systems are robbery, burglary and emergency assistance. The term includes an alarm that emits an audible signal on the exterior of the structure. Alarm system does not mean an alarm installed on a vehicle, unless used for a habitation at a permanent site, or an alarm designed to alert only the inhabitants within the premises, but does include a local alarm as defined in this section.

Alarm system company or alarm system monitor. Any person or company that sells, installs, services, monitors or responds to burglar alarm signal devices, burglar alarms, television cameras, still cameras or any other electronic device used:

(1) To prevent or detect burglary, theft, shoplifting, pilferage or other losses of that type;

(2) To detect or prevent intrusion; or

(3) Primarily to detect and summon aid for other emergencies, and includes persons relaying alarm notifications.

Appeal hearing official. The city manager or his designee.

Burglar alarm notification. A notification that summons the police, which was initiated or triggered by an alarm system designed to respond to a stimulus characteristic of unauthorized intrusion.

CATV alarm system. A device or system that transmits or relays a signal by community antenna television cable, or indirectly, intended to summon emergency police services of the city.

Commercial unit. Any business establishment.

Director. The police chief or his authorized representative.

False burglar alarm notification. A notification of criminal activity reported to law enforcement that:

(1) That is based solely on electronic information remotely received by an alarm system monitor;

(2) That is uncorroborated by eyewitness, video, or photographic evidence that an emergency exists; and

(3) Concerning which an agency of the city has verified that no emergency exists after an on-site inspection of the location from which the notification originated.

False robbery alarm notification. A robbery alarm notification to the police, when the responding police officer reasonably finds there is no evidence of a robbery or an attempted robber.

Financial institution. An institution required to have an alarm system by the provisions of the Bank Protection Act of 1968, 12 USC § 1882.

Governmental unit. Any agency of the federal or state government or a political subdivision of the state.

Local alarm. Any alarm system, other than an alarm system monitored by an alarm system company that results in notification to and response by members of the police department due to activation of audio or

Unedited First Draft

visual signaling devices.

Panel alarm. An alarm that is directly monitored by the public safety communications section of the police department.

Permit. A certificate, license, permit or other form of permission that authorizes a person to engage in an action.

Permit holder. The person who has received an alarm permit and is directly responsible for management and control of the alarm site. In any multiple-family dwelling unit (more than four dwelling units per building), the permit holder shall be the owner of the premises or his representative.
(Code 1996, § 4.08.001; Ordinance O-01-16 adopted 1/11/16)

Sec. 4.08.002. Permit required.

A person commits an offense if he operates or causes to be operated an alarm system or a CATV alarm system without first obtaining an alarm permit from the director. An alarm permit must be obtained by the person directly responsible for management and control of the alarm site. A separate permit is required for each alarm site. For purposes of this section, governmental units are exempt from all permit requirements.
(Code 1996, § 4.08.002; Ord. No. O-01-16, 1/11/16)

Sec. 4.08.003. Permit application.

(a) Each application for a permit required under this article must contain the following information:

(1) Name, address and telephone number of the person who will be the permit holder and be responsible for the proper maintenance and operation of the general alarm system or CATV system and payment of the fees assessed under this article.

(2) The street address of the property on which the alarm system is to be installed and operated.

(3) Classification of the alarm site as either residential, commercial, multifamily, or governmental unit.

(4) Any business name or title used for the premises on which the alarm system is to be installed or operated.

(5) The name of two other persons who have agreed to respond to an alarm in the event the permit holder is not available.

(6) Any other information required by the director which is necessary for he enforcement of this article.

(b) Application for a permit under the provisions of this article constitutes a grant of approval for members of the police department to conduct a search for intruders or the fire department to conduct a search for injured or ill persons on the interior of any building on the alarm site found to be unsecured when responding to the alarm site as a result of an alarm notification.

(c) Any false statement or misrepresentation of a material fact made by an applicant for the purpose

Unedited First Draft

of obtaining an alarm permit or renewal, or while making a change thereto, shall be sufficient cause of refusal to grant, or revocation of, a permit under this article.

(d) Upon receipt of a completed application form for a permit, the director shall issue a permit unless there is cause to believe the equipment responsible for initiating an alarm will not be maintained or operated in accordance with this article or the applicant will not comply with each provision of this article. Burglary/robbery panel alarms will be limited to financial institutions.

(e) An alarm permit cannot be transferred to another person. However, the individual designated to respond to an alarm or relay an alarm may be changed. A permit holder must inform the director of any change that alters information listed on the permit application. No fee will be assessed for such changes.

(f) The director may refuse to permit particular systems which in his discretion have a history of unreliability.

(g) For purposes of this article, information contained in the permit application will be used for law enforcement purposes. All information contained in any permit application shall be deemed confidential, pursuant to V.T.C.A., Government Code, ch. 552 and V.T.C.A., Occupations Code, § 1702.284. To the extent allowed by law, the information contained in the permit application shall not be subject to public disclosure.
(Code 1996, § 4.08.003; Ord. No. O-01-16, 1/11/16)

Sec. 4.08.004. Biennial permit fee.

Applicants shall pay a nonrefundable permit fee at the time application for a permit is made and then on the biennial anniversary thereafter in an amount provided in the city fee schedule ~~set forth in appendix A of this code~~. Permits are nontransferable.
(Code 1996, § 4.08.004; Ord. No. O-01-16, 1/11/16)

Sec. 4.08.005. Denial or revocation of permit.

(a) If the director denies the issuance of a permit; or revokes a permit, he shall send to the applicant or permit holder by certified mail, return receipt requested, written notice of his action setting forth the reason for such action and advising the applicant or permit holder of the right of an appeal.

(b) The applicant, or permit holder, may appeal the decision of the director to the appeal hearing official by filing a written request for a hearing, setting forth his objections to the action of the director; within ten days after receipt of the notice from the director.

(c) The filing of a request for an appeal hearing with the appeal hearing official shall stay the action of the director in denying the issuance of or revocation of a permit until a final decision on the appeal is made by the appeal hearing official.
(Code 1996, § 4.08.005; Ord. No. O-01-16, 1/11/16)

Sec. 4.08.006. Penalty for operation without a permit.

A person commits an offense if he operates any alarm system as defined in this article without having a valid permit in accordance with the provisions of this article and upon conviction in the municipal court of the city, shall be punished by a fine in accordance with the general penalty provision found in section 1.01.009 of this code. It shall be an affirmative defense to prosecution that, prior to any resultant court

Unedited First Draft

date for the violation, the violator obtains an alarm permit from the city.
(Code 1996, § 4.08.006; Ord. No. O-01-16, 1/11/16)

Sec. 4.08.007. Responsibilities of permit holder.

A permit holder must:

(1) Adjust or modify the sensory mechanism of his alarm system to suppress false indications of force so that the alarm system will not be activated by impulses due to:

(A) Transient pressure changes in water pipes;

(B) Flashes of light;

(C) Wind noise caused by the vibrating or rattling of doors or windows;

(D) Vehicular noise adjacent to the installation; and

(E) Other forces unrelated to actual emergencies.

(2) Maintain the premises containing an alarm system in a manner that ensures proper operation of the alarm system. It is the responsibility of the permit holder to properly maintain the alarm system to prevent false activations.

(3) Ensure that an alarm system that includes a local alarm, with an audible signaling device mounted on the exterior of a structure, is installed in such a manner whereby the audible signaling device may not be falsely activated or continuously reactivated for a period longer than a total of 30 minutes after initial activation. The occurrence of more than three such false activations in any 12-month period will result in revocation of the alarm permit until such time as the director has determined that the audible signaling device has either been rendered inoperable or repaired so as to comply with the provisions of this article. In the event the director suspends a permit under these circumstances, the permit holder may appeal the suspension as provided in section 4.08.005 of this article.
(Code 1996, § 4.08.007; Ord. No. O-01-16, 1/11/16)

Sec. 4.08.008. Responsibilities of alarm system companies.

(a) A person who is engaged in the business of relaying alarm notifications to the city shall:

(1) Send notification of an alarm to the city by an individual. The reporting of alarms by means of a recorded message is prohibited;

(2) Keep his business premises locked and secured at all times;

(3) Allow an inspection of his business premises by authorized agents of the director;

(4) Notify the city when:

(A) A permit holder has initiated, disconnected or transferred service; and

(B) A new person is listed as permit holder.

Unedited First Draft

(5) Report alarms only to a telephone number, or numbers, designated by the city;

(6) Send alarm notifications to the city in a manner and form determined by the city;

(7) Maintain a sufficient staff to ensure that valid alarms are relayed immediately to the city;

(8) Inform their customers of permit requirements; and

(9) Relay current permit numbers with all alarms.

(b) An alarm system company may be assessed a service fee in an amount set forth in appendix A of this code for each incorrect permit number relayed to the city with an alarm notification. Any service fee assessed under the provisions of this subsection must be paid within 30 days of receipt of notice that it has been assessed by the director. If the assessed fee becomes 90 days delinquent, a ten percent late charge will be added.
(Code 1996, § 4.08.008; Ord. No. O-01-16, 1/11/16)

Sec. 4.08.009. Service fees for excessive false alarm notifications.

(a) False burglar alarm notifications. If the permit holder has had five false burglar alarm notifications in the 12-month period immediately preceding any false burglar alarm, he shall be assessed a service fee in an amount set forth in appendix A this code for each subsequent false burglar alarm notification.

(b) False robbery alarm notifications. If the permit holder has had five false robbery alarm notifications in the 12-month period immediately preceding any false robbery alarm notification, he shall be assessed a service fee in an amount set forth in appendix A of this code for each subsequent false robbery alarm notification.

(c) Payment of fees. A permit holder shall pay assessed fees for any false alarm notification within ten days after notification from the director, by certified mail, that such fees have been assessed. Failure to pay fees may result in revocation of the alarm permit.

(d) Governmental unit. No service fee shall be assessed against a governmental unit.
(Code 1996, § 4.08.009; Ord. No. O-01-16, 1/11/16)

Sec. 4.08.010. Protection of financial institutions.

(a) A financial institution may install, with the permission of the director, a panel alarm in the police department for the purpose of reporting burglaries and robberies. If such installation is made, all other provisions of this article must be met. The financial institution shall execute a letter of agreement with the city permitting the installation of all necessary equipment on an indicator panel located in the communications section of the police department. The installation must be accomplished at the financial institution’s expense.

(b) The letter of agreement shall contain provisions granting a right of inspection to the director, requiring payment of an annual nonrefundable fee as provided for in the fee schedule in appendix A of this code for each indicator installed. The rights of a financial institution under such a letter of agreement with the city are not transferable. In addition to the matters set forth in this section, the letter of agreement

Unedited First Draft

shall include, but not be limited to, the following:

(1) The director annually may inspect the alarm system at the alarm site and shall require necessary repairs or improvements. If the director finds that the signaling device fails to comply with the requirements of this article, he may terminate the letter of agreement and require the removal of equipment and indicators from the police department. Such removal shall be at the expense of the financial institution;

(2) The financial institution shall, at its expense, provide service for the alarm system at the request of the financial institution or the director. In no event shall the city become liable for service charges for repairs and maintenance for any such alarm system; or

(3) The financial institution may cancel its letter of agreement with the city at any time by giving written notice to the director. Upon giving such notice thereof, the financial institution shall promptly remove its equipment and indicators from the monitoring panel in the police department. Such removal shall be at the expense of the financial institution.
(Code 1996, § 4.08.010; Ord. No. O-01-16, 1/11/16)

Sec. 4.08.011. Exclusion of certain alarm systems by owner.

(a) A property owner or agent of the property owner authorized to make decisions regarding the use of the property may elect to exclude the city from receiving an alarm signal by an alarm system located on the owner's property by filing such exclusion on a form provided by the city.

(b) If the police department response is requested to a signal from the alarm system in subsection (a) and such alarm signal is a false alarm, a fee shall be imposed on the property owner in an amount set forth in appendix A of this code for each response.
(Code 1996, § 4.08.011; Ord. No. O-01-16, 1/11/16)

Unedited First Draft

Chapter 10

ETHICS

ARTICLE I. IN GENERAL

Sec. 1.23.001. Policy.

(a) General policy statement. It is the policy of the city that all city officials shall conduct themselves both inside and outside the city's service so as to give no occasion for distrust of their integrity, impartiality or devotion to the best interest of the city and the public trust which the city holds.

(b) Appearance of impropriety. Public service is a public trust. All city officials are stewards of the public trust. They have a responsibility to the citizens of the city to administer and enforce the city charter and city ordinances. To ensure and enhance public confidence in city government, each city official must strive not only to maintain technical compliance with the principles of ethical conduct set forth in this article and in state law, but also to avoid the appearance of impropriety at all times.

(c) Purpose. This chapter has five purposes:

(1) To encourage ethical conduct on the part of city officials;

(2) To encourage public service with the city;

(3) To establish standards for ethical conduct for city officials by defining and prohibiting conduct that is incompatible with the interests of the city;

(4) To require disclosure by city officials of their economic interests that may conflict with the interests of the city; and

(5) To serve as a basis for disciplining those who fail to abide by its terms.

(d) Intention. This chapter is not intended to be used as a political weapon or to intimidate or embarrass affected persons. The officials charged with administration of this chapter shall administer it in a manner that avoids any such use of this chapter.
(Code 1996, § 1.23.001; Ord. No. O-12-19, 10/15/19)

Sec. 1.23.002. Application.

(a) This chapter applies to members of the city council, all city boards, committees or commissions.

(b) This chapter applies to the conduct or actions of public officers which occurs in whole or in part after October 15, 2019. This chapter applies to officers only while such persons hold their position or office.

(c) This chapter does not apply to employees, including those individuals employed on a full-time, part-time or internship basis nor to independent contractors of the city. The standards of conduct for employees are governed by the city's personnel policies.
(Code 1996, § 1.23.002; Ord. No. O-12-19, 10/15/19)

Unedited First Draft

Sec. 1.23.003. Definitions.[54]

The following words, terms and phrases, when used in this chapter, shall have the meanings ascribed to them in this section, except where the context clearly indicates a different meaning:

Benefit. Anything reasonably regarded as pecuniary gain or pecuniary advantage, including any money, real or personal property, purchase, sale, lease, contract, option, credit, loan, discount, service or other tangible or intangible thing of value. Benefit includes a pecuniary gain or pecuniary advantage to any other person in whose welfare the beneficiary has a direct and substantial interest.

Board member. A member of a board or commission whose membership is wholly appointed by the city council.

Business entity. A sole proprietorship, partnership, firm, corporation, holding company, joint-stock company, receivership, trust, unincorporated association, or any other entity recognized by law, including a nonprofit organization or governmental entity.

Candidate. Every person who declares for or files for any city office to be filled by election.
Compensation. Any benefit received in return for labor, services, property or investment.

Economic interest. Includes a legal or equitable interest in real property, personal property, or intangible property, or a contractual right. Service by a city official as an officer, director, advisor, or other active participant in a nonprofit educational, religious, charitable, fraternal, or civic organization does not create for that city official an economic interest in the property of the organization. Ownership of an interest in a mutual or common investments fund that holds securities or other assets is not an economic interest in the securities or other assets unless the person in question participates in the management of the fund.

Employee. Any person employed by the city, whether under civil service regulations or not, including those individuals on a part-time basis, but not including any independent contractor.

Family member. The spouse and any dependent children of any official or candidate.

Gift. A benefit received other than as compensation but not including campaign contributions reported as required by state law.

Identification. For an individual, the person's name, street address, city and state. For any entity other than an individual, the term "identification" means the name, address, city and state of the entity's principal location or place of business; the type or nature of the entity's principal location or place of business; the type or nature of the entity; the date on which it came into existence; the state of incorporation, if any; and the names of the partners or officers of the entity.

Immediate family. The spouse, children, brothers, sisters and parents of an officer or employee.

Income. A benefit received.

Officer or official. The mayor or any member of the city council and any appointive member of a city

---

[54] **Sec. 1.23.003. Definitions.** Definitions from throughout the chapter are combined in this section.

Unedited First Draft

board, commission or committee established by ordinance, charter or state law on a permanent basis.

Source of income. Any business entity, employment, investment or activity which earned or produced income, including interest, dividends, royalties or rents.
(Code 1996, §§ 1.23.003, 1.23.014; Ord. No. O-12-19, 10/15/19)

ARTICLE II. POLICY AND RULES

Sec. 1.23.004. Prohibition against involvement in actions affecting economic interests.

(a) General rule. It is unlawful for a city official to take any official action that he or she knows is likely to:

(1) Affect an economic interest of:

(A) The official;

(B) His or her immediate family member;

(C) A member of his or her household;

(D) An outside employer of the official or of his or her immediate family member;

(E) A business entity in which the official or his or her immediate family member holds an economic interest;

(F) A business entity for which the city official serves as an officer or director or in any other policy making position; or

(G) A person or business entity from whom the official or his or her immediate family member, has solicited, received and not rejected, or accepted an offer of employment within the past twelve months; or

(2) Confer a benefit on the official, or deprive the official of a benefit, where the effect of the action on the official is distinguishable from the effect of the action on members of the public in general or a substantial segment of the public.

(b) Meaning of "affect". In subsection (a)(1) above, an action is likely to affect an official's economic interest if it meets all of the following:

(A) The action is likely to have an effect on that interest, either positive or negative, that is distinguishable from its effect on members of the public in general or a substantial segment of the public.

(B) The effect of the action on that interest is direct, and not secondary or indirect. However, the action need not be the only producing cause of the effect in order for the effect to be direct.

(C) The effect on the interest must be more than insignificant or de minimis in nature or value.

In determining whether a person, entity or property is or was affected by vote or decision, it will not be necessary to prove the actual existence or occurrence of an economic effect or consequence if the effect or consequence would be reasonably expected to exist or occur.

Unedited First Draft

(c) Recusal and disclosure. A city official whose conduct would otherwise violate subsection (a), or a state conflict of interest law, if he or she took an action must abstain from participation in the action in accordance with the following:

(1) Immediately refrain from further participation in the matter, including discussions with any persons likely to consider the matter, from the time he or she discovers ore reasonably should have discovered the matter triggering the recusal;

(2) Promptly file a form for disclosing the nature and extent of the interest triggering the recusal with the city secretary; and

(3) Promptly disclose the interest triggering the recusal, if the person is a member of a city board or commission, to other members of the board or commission, and leave the room in which the board or commission is meeting during the board or commission's discussion of, or voting on, the matter.
(Code 1996, § 1.23.004; Ord. No. O-12-19, 10/15/19)

Sec. 1.23.005. Standards of conduct.

(a) Representation and appearance at meetings. No city officer shall knowingly:

(A) Appear before the body of which the officer is a member as a representative for any private person, including the officer or any immediate family member, or any group or interest;

(B) Represent, directly or indirectly, any private person, including the officer or any immediate family member, or any group or interest in any action or proceeding against the interests of the city or in any litigation in which the city or any department, agency, commission or board thereof is a party;

(C) Accept other employment or engage in outside activities incompatible with the full and proper discharge of city duties or that might impair independent judgment in the performance of city duties;

(D) make a false statement of material fact at a public meeting.

This subsection shall not be construed to deprive an officer of the right to due process under the law, including the right to represent himself/herself in a court proceeding.

(b) Representation by councilmembers. No city council member shall knowingly represent any private person, including the city council member or any immediate family member, or any group or interest in any matter before any department, agency, commission or board of the city, except that city council members may represent their interests in their owner-occupied homesteads before a board, agency, commission or department of the city other than the city council.

(c) Representation in municipal court. In any action or proceeding in the municipal court which is instituted by a city officer in the course of official duties:

(1) No city council member shall knowingly represent any private person other than himself or herself. If a city council member elects to have a trial in municipal court, the city council, without the participation of the affected city council member, will appoint a special judge to preside over the trial.

Unedited First Draft

(2) No city officer shall knowingly represent any private person other than himself or herself, including any immediate family member, or any group or interest.

(d) Representation in land use and development matters. A member of the planning and zoning commission shall not knowingly represent the member or any other person, group or interest in any matter before the development regulation variance board involving land use or development, and a member of the development regulation variance board shall not knowingly represent the member or any other person, group or interest in any matter before the planning and zoning commission involving land use or development. This subsection does not apply to members representing their interests in their owner-occupied homesteads.

(e) Prohibited use of city position. A city official shall not use his or her position to unfairly advance or impede private interests, or to grant or secure, or attempt to grant or secure, for any person (including himself or herself) any form of special consideration, treatment, exemption, or advantage beyond that which is lawfully available to other persons. A city official who represents to a person that the official may provide an advantage or impediment to the person based on the official's office or position violates this rule.
(Code 1996, § 1.23.005; Ord. No. O-12-19, 10/15/19)

Sec. 1.23.006. Contracts with city; eligibility for appointment or election to office.

(a) No member of the city council shall have a financial interest in the sale to the city of any land, materials, supplies or service, outside of the person's position with the city. Any person having an interest shall be ineligible for election as a city council member, and any city council member who acquires an interest shall forfeit the office. Any violation of this subsection with the actual or constructive knowledge of the city council member shall render the contract voidable by the city manager or the city council.

(b) In this section 1.23.006, the term "sale to the city" includes a sale to city-sponsored entities and organizations subject to substantial control by the city in one or more of the following respects:

(1) All or a majority of the governing body of the entity or organization is appointed by the city council;

(2) The city provides more than one-half of the operating funds of the entity or organization;

(3) The city has approval authority over purchasing decisions made by the entity or organization;

(4) The city has approval authority over bonds or other indebtedness issued by the entity or organization; or

(5) The city has approval authority over the budget of the organization.

(c) This article does not apply to acquisition of property by the city as a result of eminent domain proceedings or the threat of eminent domain proceedings
(Code 1996, § 1.23.006; Ord. No. O-12-19, 10/15/19)

Sec. 1.23.007. Restrictions on former officials.

No former city officer or official shall, for a period of one year from the date of leaving office knowingly

Unedited First Draft

represent, directly or indirectly, any private person or any group or interest in any action or proceeding against the interests of the city or in any litigation in which the city or any department, agency, commission, or board thereof is a party.
(Code 1996, § 1.23.007; Ord. No. O-12-19, 10/15/19)

Sec. 1.23.008. Ethics review commission; established, composition, terms of members.

An ethics review commission is established, to be composed of seven members, all of whom will reside in the city. Members of the commission will be appointed by a majority vote of the city council for staggered three-year terms and will serve until their respective successors are appointed.
(Code 1996, § 1.23.008; Ord. No. O-12-19, 10/15/19)

Sec. 1.23.009. Organization; rules and regulations.

The ethics review commission each year will elect from its membership its chairperson and will promulgate its own rules and regulations as to its forms and procedures and maintain proper records of its opinions and proceedings.
(Code 1996, § 1.23.009; Ord. No. O-12-19, 10/15/19)

Sec. 1.23.010. Authority and duties.

(a) Review and recommendations. The ethics review commission will meet at least once a year to review this article and may make recommendations to the city council.

(b) Hearings. The ethics review commission shall consider and conduct hearings on complaints of violations of this article and of state conflict of interest laws in accordance with section 1.23.011.

(c) Advisory opinions. The commission shall render advisory opinions on potential conflicts of interest or violation of this article at the request of a public official, subject to the terms of this article. The opinion must relate to an action proposed to be taken by the person requesting the opinion.

(d) Opinions binding. Any advisory opinion rendered by the commission to a person is binding on the commission in any subsequent complaint concerning the person about whom the opinion was requested and who acted in reliance on it in good faith, unless material facts were omitted or misstated by the person in connection with the opinion.
(Code 1996, § 1.23.010; Ord. No. O-12-19, 10/15/19)

Sec. 1.23.011. Complaints; review and hearing; sanctions for violations.

(a) Complaint procedure.

(1) Any officer, official, or employee of the city who believes an official has violated a provision of this article or a state conflict of interest law may file a written complaint with the city attorney. The complaint must:

(A) Identify the complainant and the person who allegedly committed the violation;

(B) Provide a sufficient statement of the facts which if true would constitute a prima facie violation of a provision of this article or a state conflict of interest law;

Unedited First Draft

(C) Specify the provision of this article or a state conflict of interest law which is alleged to have been violated;

(D) Identify sources of evidence, if any, that the complainant recommends should be considered by the commission; and

(E) Be filed on a form prescribed by the commission.

(2) The city attorney will acknowledge the receipt of the complainant and provide a copy of the complaint to the commission and to the person accused.

(b) Review of complaints by commission.

(1) The commission shall review each complaint prior to conducting a hearing to determine whether the complaint is in proper form and alleges sufficient facts to constitute a prima facie violation of a provision of this article or a state conflict of interest law.

(2) If the commission determines that the complaint is defective in form or does not allege sufficient facts to constitute a prima facie violation of a provision of this article or a state conflict of interest law, the commission shall dismiss the complaint, and provide notice, including the reasons for the dismissal, to the complainant and to the person accused.

(3) If the commission determines that the complaint is in proper form and alleges sufficient facts to constitute a prima facie violation of a provision of this article or a state conflict of interest law, the commission shall schedule a hearing on the complaint.

(c) Hearings.

(1) The commission will adopt rules of procedure to govern hearing on complaints. The rules will allow for the presentation of evidence by the complainant and the person accused, and cross examination of witnesses.

(2) The chair of the commission or any person acting in that capacity, and the recording secretary of the commission, are authorized to administer oaths to persons who testify at hearings conducted by the commission.

(d) Ex parte communications. It is unlawful for a person who has filed a complaint alleging a violation of this article or a state conflict of interest law by a city officer, or a person against whom such a complaint has been filed, to communicate verbally or in writing about the subject matter of the complaint with a member of the ethics review commission at any time other than during a public meeting of the commission. All such communications by such persons to the commission outside of a public meeting of the commission must be directed to the city attorney. The city attorney will collect all such communications and provide them to the commission with the agenda materials for the meeting at which the complaint is considered. The city attorney will make copies of these communications available to interested persons in accordance with state law.

(e) Sanctions. If the commission determines at the conclusion of a hearing that a violation has occurred, it may impose or recommend any of the following sanctions:

(1) A letter of notification, if the violation is clearly unintentional, or when the official’s action was

Unedited First Draft

made in reliance on a written opinion of the city attorney. A letter of notification shall advise the official of any steps to be taken to avoid future violations.

(2) A letter of admonition, if the commission finds that the violation is minor and may have been unintentional but calls for a more substantial response than a letter of notification.

(3) A reprimand, if the commission finds that the violation:

(A) was minor and was committed knowingly, intentionally or in disregard of this article or a state conflict of interest law; or

(B) was serious and may have been unintentional.

A copy of any reprimand directed to an official shall be sent to the city council.

(4) A recommendation of suspension from office, if the commission finds that the violation:

(A) was serious and that was committed knowingly, intentionally or in disregard of this article or a state conflict of interest law; or

(B) was minor but similar to a previous violation by the person, and was committed knowingly, intentionally or in disregard of this article or a state conflict of interest law.

A recommendation of suspension of an official appointed by the city council shall be transmitted to the city council, and the council will have final authority on whether to impose a suspension.

(5) A recommendation for recall or removal from office, if the commission finds that the violation was serious and was committed knowingly, intentionally or in disregard of this article or a state conflict of interest law. A recommendation for recall of a city council member or removal of an official appointed by the city council will be forwarded to the city council.

(6) In addition to a sanction under subsections (1) through (5) above, the commission may recommend to appropriate authorities that a person be prosecuted for a violation of this article or a state conflict of interest law.
(Code 1996, § 1.23.011; Ord. No. O-12-19, 10/15/19)

Sec. 1.23.012. Special counsel.

An independent outside attorney approved by the city council, who does not otherwise represent the city, shall be retained to serve as special counsel to the ethics review commission in the following situations:

(1) When a complaint is filed alleging that the mayor or a member of the city council, or the city manager or city secretary violated this article or a state conflict of interest law.

(2) When an advisory opinion is requested under section 1.23.010(c) by the mayor or a member of the city council, or by the city manager or the city secretary.
(Code 1996, § 1.23.012; Ord. No. O-12-19, 10/15/19)

Sec. 1.23.013. Discipline for violations.

Unedited First Draft

The penalties prescribed herein do not limit the power of the city council to discipline its members for violations of this article, the home rule charter, any ordinance of the city, or a state conflict of interest law.
(Code 1996, § 1.23.013; Ord. No. O-12-19, 10/15/19)

Sec. 1.23.015. Financial disclosure statement required.

(a) Between March 15 and April 30 of each year, every city council member, and the city manager and city secretary shall file a sworn financial disclosure statement with the city secretary reflecting the financial situation of the official as of December 31 of the previous year and the official's financial activity between January 1 to December 31 of the previous year.

(b) A newly elected city council member and a newly appointed city manager, or city secretary shall file a sworn financial disclosure statement with the city secretary within 30 days from the date the position is assumed. The statement shall reflect the financial condition as of the date and financial activity for the previous 12 months.

(c) A candidate for city council shall file a sworn statement with the city secretary not later than ten days from the date the candidate files with the city secretary an application to be placed on the official ballot. This statement shall include:

(1) A list of any financial interest the person has, direct or indirect, in real property located within the corporate limits or within the extraterritorial jurisdiction of the city.

(2) A list of any financial interest the person has, direct or indirect, in any business entity located in the city or its extraterritorial jurisdiction or any business entity doing business with the city.

(3) The financial interests listed by the person shall include those held at any time during the 12 months preceding the date of filing for office and shall include any interest held by the candidate or a family member of the candidate.

(d) All board members shall file a disclosure statement with the city secretary within 30 days after their initial appointment, and thereafter between October 1st and October 31st of each year, regarding their relevant substantial interests in business entities and real property during the 12-month period preceding the date of the statement. The statement shall be on a form provided by the city. For purposes of this section, the term "business entity" and the determination of substantial interests in business entities and real property shall be as defined and determined under V.T.C.A., Local Government Code, ch. 171.

(e) Any person filing a statement required by this section may include additional time periods.
(Code 1996, § 1.23.015; Ord. No. O-12-19, 10/15/19)

Sec. 1.23.016. Information required on financial disclosure statement.

(a) Every person required to file a financial disclosure statement under section 1.23.015(a) or (c) shall include in that statement the following information:

(1) The person's name, the name of each family member and all names under which the person or family members do business.

(2) Identification of each source of income amounting to more than $100.00 received in the reporting

Unedited First Draft

periods by the person or family members, stating the name, address, and nature of the source of income and stating the amount of income received; and identification of each option held, owned, acquired or sold during the reporting period, stating the nature of the option, the amount of transaction, and identification of the other parties to the transaction.

(3) Identification of each business entity, nonprofit entity or union in which the person or family member:

(A) Was a partner, manager, officer, member of the board of directors, proprietor or beneficiary, during the reporting period, stating the position held; or

(B) Had an ownership interest of more than $100.00 at the fair market value at any time during the reporting period, stating the value and a description of that ownership interest; provided that, where the ownership interest includes or consists of shares of stock, the number of shares owned shall be stated together with the number of outstanding shares; and if sold during the reporting period a statement of the net gain or loss realized from the sale.

(4) Identification by street address, legal or lot-and-block description of all real property located within the city and its extraterritorial jurisdiction, together with its fair market value and present use, in which the person or family member has an interest as:

(A) Fee simple owner;

(B) Beneficial owner;

(C) Partnership owner, naming the partners;

(D) Joint owner with an individual or corporation, naming them;

(E) Board member, officer or the owner of more than five per cent of a corporation that has title to the real property, naming the corporation; or

(F) A leaseholder, naming the person or corporation from whom the property is leased and the amounts of annual rental.

The form shall note whether the person claims a homestead exemption on any real property owned by the person.

(5) Identification of persons, business entities or guarantors to whom the person or a family member owed a debt of more than $100.00 during the reporting period, stating the amount, but not including debts owed to persons related within the second degree of consanguinity or affinity and excluding loans to a political campaign which were reported as required by law. If this debt was repaid during the reporting period, the date and amount of repayment shall also be stated.

(6) This information is not privileged by law, identification of persons, entities or guarantors who owed the person or a family member a debt of more than $100.00 during the reporting period, stating the amount, including all bonds, notes and other commercial paper held or owed by the person reporting or any family member during the reporting period, but not including debts owed by persons related within the second degree of consanguinity or affinity. If this debt was repaid during the reporting period, the date and amount of repayment shall also be stated.

Unedited First Draft

(7) Identification of the source of each gift or accumulation of gifts from one source of more than $100.00 in value received by the person or family member, or received by another person for the use and benefit of the person or family member, within the reporting period, stating the amount; but this requirement does not include:

(A) A gift received from a relative if given because of kinship; or

(B) A gift received by will, by intestate succession or as distribution from an inter vivos or testamentary trust established by a spouse or ancestor.

(8) Provided this information is not privileged by law, if the person filing the statement is the owner of five per cent or more of any business entity, the person shall list all customers from whom the entity received at least ten per cent of its gross income during the reporting period.

(9) Identification of any financial interest in or any transaction during the reporting period with any holder of any franchise issued by the city, other than as a utility or franchise customer or patron, stating the nature and amount of interest and transaction, including transactions by any family member and any business entity in which the person filing the statement has an ownership interest of five per cent or more.

(b) Except for the identification of transactions and amounts required by subsection (a)(9) of this section, any amount required to be reported under subsection (a) of this section may be reported by categories as follows:

(1) Category I. At least $100.00 but less than $10,000.00;

(2) Category II. At least $10,000.00 but less than $20,000.00; or

(3) Category III. At least 20,000.00 but less than $50,000.00.

(4) Category IV. At least $50,000.00 but less than $75,000.00;

(5) Category V. At least $75,000.00 but less than $100,000.00; and

(6) Category VI. $100,000.00 or more, report to nearest $100,000.
(Code 1996, § 1.23.016; Ord. No. O-12-19, 10/15/19)

Sec. 1.23.017. Retention of statements and inspection.

(a) The city secretary shall maintain all statements required to be filed with the city clerk under section 1.23.015 as public records and shall retain them for a period of three years, after which the statements will be returned to the person filing them or will be destroyed.

(b) The financial disclosure statement file maintained by the city secretary under this section shall be kept in alphabetical order for each year in which statements are filed. This file is open to public inspection during normal hours. The city secretary shall maintain a list of all persons requesting to inspect these files, identifying the files inspected.
(Code 1996, § 1.23.017; Ord. No. O-12-19, 10/15/19)

Sec. 1.23.018. Forms of statements.

Unedited First Draft

Financial disclosure statements shall be filed on the form promulgated by the city secretary. The city secretary will provide a form to any person requesting one and not less than ten days before the last day set for filing a statement by any person, shall send a form to the person.
(Code 1996, § 1.23.018; Ord. No. O-12-19, 10/15/19)

Unedited First Draft

Chapter 12

FIRE PREVENTION AND PROTECTION

ARTICLE I. IN GENERAL

Sec. 5.02.005. Authority of city manager to provide central management and oversight.

The city manager has the right to appoint and remove the fire chief or the police chief, or to combine the management and oversight duties of the fire department and police department into one position, which position may be created and staffed by the city manager.
(Code 1996, § 5.02.005; Ord. No. 696-00, 12/4/00)

Sec. 5.07.001. Arson reward.[55]

(a) *Established.* The city will pay out of the general fund of the city, the sum of $250.00 as a reward to any person or persons giving information or otherwise causing the arrest and conviction of any person or persons found guilty of committing the crime of arson within the corporate limits of the city. This reward is a standing offer. The city council shall be the sole and exclusive judge in determining whether a person is entitled to such reward and in determining the proration between persons where more than one person is entitled to such reward, and the conclusions of the city council in such cases shall be final.

(b) *Posting.* The city secretary is directed to cause placards measuring eight inches by 12 inches in size to be printed with the following language thereon: "Arson Reward. The City of Glenn Heights, Texas, offers a reward of $250.00 for the arrest and conviction of any person found guilty of committing the crime of arson within the corporate limits of the city. This reward is a standing offer and shall be paid out of the general fund of the city." ~~The city secretary shall post in public buildings within the corporate limits not less than six of such placards behind glass, to keep an additional supply of such placards on hand and replace any placards worn or defaced, and furnish to the state board of insurance a certified copy of this article, a copy of one such placard, and a list of the buildings where the placards have been posted in the corporate limits.~~
(Code 1996, §§ 5.07.001, 5.07.002)

ARTICLE II. FIRE DEPARTMENT

Sec. 5.02.001. Created and established; purpose.

The city has created and established a fire department in and for the city for the purpose of preservation of life and property from the ravages of fire, injury and sudden illness. The fire department, which shall be known as the Glenn Heights Fire Department ("GHFD") is and shall be a full, bona fide department of the city. The department head, entitled as "fire chief," shall be appointed by and immediately subordinate and accountable to the city manager or other person designated by the city manager.
(Code 1996, § 5.02.001; Ord. No. 696-00, 12/4/00)

Sec. 5.02.002. Officers, members and employees.

---

[55] **Sec. 5.07.001. Arson reward.** Does the city wish to retain this section? Also, the details for posting and distribution are stricken in that I assume those acts have been accomplished.

Unedited First Draft

The GHFD shall be composed of volunteer members and paid employees, whether full time or part time. All members, whether volunteer or paid, shall obey all superior officers whether they are volunteer or paid and shall comply with all rules and regulations of the GHFD. All officers shall ensure fair and impartial direction, leadership and discipline as administered to paid employees/volunteer members alike according to the department's rules and procedures. All officers shall be selected for promotion in a manner consistent with the city's ordinances and policies.
(Code 1996, § 5.02.001; Ord. No. 696-00, 12/4/00)

Sec. 5.02.003. Fire chief's duties and powers generally.

(a) The fire chief, or other person designated by the city manager, shall be the chief executive officer of the GHFD and shall fulfill all responsibilities pertaining to his department including, but not limited to, personnel management, planning and organization, budget preparation and control, establishing policies and procedures, training of personnel, vehicle and facility maintenance, fire service communications, inventory control, emergency scene management/coordination, fire prevention and education activities, and submitting necessary records and reports pertaining to the fire department.

(b) The fire chief, or other person designated by the city manager, shall have full authority to reprimand or suspend any member, whether paid or volunteer, who fails to comply with the department rules, regulations or procedures. The fire chief shall have the authority to recommend the employment and discharge of any member to the city manager.
(Code 1996, § 5.02.003; Ord. No. 696-00, 12/4/00)

Sec. 5.02.004. Organization.

The fire chief, or other person designated by the city manager, shall organize the GHFD in a logical manner to facilitate the accomplishment of the department's goal and objectives in a safe, orderly and efficient manner. The fire chief, or other person designated by the city manager, may establish bureaus, divisions, sections, etc., as he deems appropriate, and shall designate officers to head each of those subunits and specify the chain of command of those officers as well as the duties of each. The fire chief, or other person designated by the city manager, shall designate the order of succession of the assistant fire chiefs, and shall establish a chain of command in case of an emergency.
(Code 1996, § 5.02.004; Ord. No. 696-00, 12/4/00)

ARTICLE III. FIRE REGULATIONS

DIVISION 1. GENERALLY

Sec. 5.03.001. Fire code and other publications adopted by reference.[56]

The city has adopted in section 3.04.001 of this Code the 2021 Edition of the International Fire Code, subject to amendments as provided in section 3.04.002 of this Code. In addition to the International Fire Code, the city adopts the most recent version of the National Fire Prevention Association 99C Standard on Gas and Vacuum Systems (NFPA 99C), including all appendices, except as modified or amended in

[56] **Sec. 5.03.001. Fire code and other publications adopted by reference.** A reference to the fire code adoption as part of the adoption of the ICC code family in the buildings chapter is inserted.

Unedited First Draft

this article. A copy of NFPA 99c shall be on file in the office of the city secretary.
(Code 1996, § 5.03.001; Ord. No. O-04-18, 2/20/18; Ord. No. O-13-24, § 7, 6-18-2024)

Sec. 5.03.004. Storage of certain flammable or combustible liquids prohibited.

The storage of flammable or combustible liquids in outside aboveground tanks is prohibited within the corporate city limits.
(Code 1996, § 5.03.004)

Sec. 5.03.005. Storage of liquefied petroleum gases restricted.

No bulk storage of liquefied petroleum gases and no storage of liquid petroleum gases for resale shall be allowed within the corporate city limits. Only that liquefied petroleum gas which is being consumed by the occupant for either personal or business needs will be allowed within the corporate city limits.
(Code 1996, § 5.03.005)

Sec. 5.03.006. Storage of explosives and blasting agents prohibited.[57]

The limits referred to in **Table 2703.1.1(1) of the adopted fire code** ~~**2006 International Fire Code**~~ in which storage of explosives and blasting agents is limited to certain amounts per control area, is amended to disallow all storage of explosives and blasting agents within the corporate city limits.
(Code 1996, § 5.03.006; Ord. No. O-847-07, § 3, 7/16/07)

Sec. 5.03.007. Appeals.

When the chief disapproves an application or refuses to grant a permit applied for, or when it is claimed that the provisions of the fire code do not apply or that the true intent and meaning of the code have been misconstrued or wrongly interpreted, the applicant may appeal from the decision of the chief to the city manager within 30 days from the date of the decision appealed.
(Code 1996, § 5.03.007)

Sec. 5.03.008. New materials, processes or occupancies which may require permits.

The city manager, the fire chief and the chief of the bureau of fire prevention shall act as a committee to determine and specify, after giving affected persons an opportunity to be heard, any new materials, processes or occupancies for which permits are required in addition to those now enumerated in the code. The chief of the bureau of fire prevention shall post such list in a conspicuous place in his office and distribute copies thereof to interested persons.
(Code 1996, § 5.03.008)

Sec. #. Outdoor burning.

Outdoor burning shall be done only in accordance with the rules and regulations of the state natural resource conservation commission.
(Code 1996, art. 5.05)

---

[57] **Sec. 5.03.006. Storage of explosives and blasting agents prohibited.** Please update the table reference, if necessary, to that appearing in the 2021 code rather than the 2006 code.

Unedited First Draft

Sec. 5.03.009. Penalties.

(a) Any person who shall violate this article or fail to comply with any order made thereunder, or who shall build in violation of any detailed statement of specifications or plans submitted and approved thereunder, and from which no appeal has been taken, or who shall fail to comply with such an order as affirmed or modified by the city manager or by a court of competent jurisdiction, within the time fixed herein, shall severally for every such violation and noncompliance, respectively, be guilty of a misdemeanor, punishable by a fine as provided for in the general penalty provision found in section 1.01.009 of this code, or by imprisonment for not less than three days nor more than 30 days or by both such fine and imprisonment.

(b) The imposition of one penalty for any violation shall not excuse the violation or permit it to continue, and all such persons shall be required to correct or remedy such violations or defects within a reasonable time.

(c) When not otherwise specified, each ten days that prohibited conditions are maintained shall constitute a separate offense.

(d) The application of the above penalty shall not be held to prevent the enforced removal of the prohibited conditions.
(Code 1996, § 5.03.009)

DIVISION 2. FIREWORKS

Sec. 5.06.001. Definitions.[58]

The following words, terms and phrases, when used in this division, shall have the meanings ascribed to them in this section, except where the context clearly indicates a different meaning:

Fireworks means a composition or device designed for entertainment to produce a visible or audible effect by combustion, explosion, deflagration, or detonation and defined by 49 CFR. § 173.56(j) (1996). ~~any sparkler, squib, rocket, firecracker, Roman candle, torpedo, fire balloon, star shell, cannon cracker, garb, or any other substance in whatever combination by any designated name used to obtain a visible or audible pyrotechnic display, and shall include all articles or substances within the commonly accepted meaning of fireworks, whether herein specifically designated and defined or noted.~~

Fireworks 1.4G means a small fireworks device primarily designed to produce visible or audible effects by combustion, deflagration, or detonation, that complies with the construction, labeling, and chemical composition requirements of the United States Consumer Product Safety Commission in 16 CFR Part 1507, and that is classified by the department in 49 CFR Part 173.

~~Person. Any natural person, association of persons, partnership, corporation, agent, or officer; and shall include all warehousemen, common and private carriers, bailees, trustees, receivers,~~

[58] **Sec. 5.06.001. Definitions.** Definition of fireworks is conformed to V.T.C.A., Occupations Code, § 2154.001. A definition of 1.3G fireworks is added, and duplicative definition of "person" is stricken.

Unverified First Draft

~~executors, administrators, parents, and guardians.~~
(Code 1996, § 5.06.001)

Sec. 5.06.002. Fireworks prohibited.

It is unlawful except as otherwise provided in this division, for any person to have, keep, store, discharge, use, manufacture, assemble, sell, handle, transport, receive, offer for sale, or have in his possession with intent to sell, use, discharge, cause to be discharged, ignite, detonate, fire, or otherwise set in action any fireworks of any description, within the city limits and within an area immediately adjacent and contiguous to the city limits and extending for a distance of 5,000 feet.
(Code 1996, § 5.06.002)

Sec. 5.06.003. Exceptions.[59]

This article shall not apply to the retail sale of class "C" (1.4 G) common fireworks ~~(as defined by V.T.C.A., Insurance Code, art. 5.43-4)~~ and related activities, on certain properties within 5,000 feet of the city limits, provided that:

(1) No fireworks warehouse is permitted.

(2) The retail locations are adjacent to and fronting on Interstate 35E and were issued fireworks retail permits as of **June 1994**, or before.[60]

(3) Retail sales are permitted only from June 24 through July 4 and from December 20 through January 1 of each year ~~in accordance with the Texas Insurance Code, article 5.43-4, section 8(a)(1) and (2)~~.[61]

(4) Retail fireworks sales are only allowed from fireworks buildings constructed in accordance with 28 Tex. Adm. Code § 34.382 ~~37 Tex. Adm. Code § 591.17~~.[62]

(5) All retail fireworks sales must be strictly in accordance with the general requirements as set forth in 28 Tex. Adm. Code § 34.817 ~~37 Tex. Adm. Code section 591.17~~.

(6) No manufacturing or magazine facilities as defined by 28 Tex. Adm. Code §§ 34.801—34.832 ~~37 Tex. Admin. Code chapter 591~~ shall be permitted.
(Code 1996, § 5.06.003)

---

[59] **Sec. 5.06.003. Exceptions.** Art. 5.43-4 was repealed in 1999. Class C (1.4G) fireworks are now defined in V.T.C.A., Occupations Code, § 2154.001 as shown in the definitions section.

[60] **Sec. 5.06.003. Exceptions—Contd.** In subsection (2), what is the complete date (June ?, 1994)? Also, is subsection (2) obsolete?

[61] **Sec. 5.06.003. Exceptions—Contd.** Art. 5.43-4 was repealed in 1999. V.T.C.A., Occupations Code, § 2154.202(g) provides the permissible time for retail sales and 2154.202(h) allows the county to establish additional permissible time frames. Does the city wish to conform to the cited statute? Does the city wish to authorize retail sales at all times that the county authorizes such sales?

[62] **Sec. 5.06.003. Exceptions—Contd.** Citations to TAC are corrected as shown.

Unedited First Draft

Sec. 5.06.004. Fireworks as a public nuisance.

(a) The presence of any fireworks within the jurisdiction of the city and within an area immediately adjacent and contiguous to the city limits and extending for a distance of 5,000 feet in violation of this division is declared to be a nuisance.

(b) The fire chief is directed and required to seize and cause to be destroyed any fireworks found in violation of this section, and any police officer of the city or any other peace officer is empowered to stop the transportation of and detain any fireworks found being transported illegally or to close any building where any fireworks are found stored illegally until the fire chief can be notified in order that the fireworks may be seized and destroyed in accordance with the terms of this section.

(c) Notwithstanding any penal provision of this section, the city attorney is authorized to file suit on behalf of the city and the fire chief, or both, for such injunctive relief as may be necessary to prevent unlawful storage, transportation, the keeping, or the using of fireworks as prohibited herein, and to aid the fire chief in the discharge of his duties and to particularly prevent any person from interfering or attempting to interfere with the seizure and destruction of such fireworks. It shall not be necessary to obtain any such injunctive relief as a prerequisite to such seizure and destruction.

(d) The fire chief is authorized to enter any building where the unlawful presence of fireworks is suspected in order to inspect the same for the presence of such fireworks. If the fire chief or his duly authorized assistant has probable cause to believe that fireworks are being stored in a building, he shall promptly enter the building for the purpose of inspection. It is the duty of the owner, lessee, their agents, or anyone else thereof to open and permit the entry of authorized inspectors to the building.
(Code 1996, § 5.06.005)

Sec. 5.06.005. Territorial applicability.

This article shall also be applicable and in force within the area immediately adjacent and contiguous to the city limits and extending for a distance outside the city limits for a total of 5,000 feet, and it is unlawful to do or perform any act in violation of this article within such area of 5,000 feet outside the city limits provided that this article shall not apply within any portion of such 5,000-foot area which is contained within the territory of any other municipal corporation.
(Code 1996, § 5.06.005)

Sec. 5.06.006. Not necessary to negative exceptions.

In any prosecution for any violation of this article, it shall not be necessary for the prosecution to negate any provisions of exception, but the same may be raised by the defendant by way of defense.
(Code 1996, § 5.06.006)

DIVISION 3. SMOKE DETECTORS

Sec. 5.08.001. Definitions.[63]

The following words, terms and phrases, when used in this division, shall have the meanings ascribed to them in this section, except where the context clearly indicates a different meaning:

---

[63] **Sec. 5.08.001. Definitions.** A standardized introduction is substituted for consistency.

Unedited First Draft

Bedroom. Any room which is designed with the intent that it be used for sleeping purposes. Corridor. A passage which connects parts of the dwelling unit.

Dwelling unit. A home, mobile home, duplex unit, apartment unit, condominium unit, or any dwelling unit in a multi-unit residential structure, which is not owner occupied. It also shall mean one or more rooms which are subject to a single rental agreement and which are rented to a tenant or tenants for use by persons as a permanent residence.

Landlord. The owner, lessor, or sublessor of a dwelling unit. A managing agent or leasing agent, whether residing or officing on-site or off-site, shall be considered the agent of the landlord for purposes of notice and other communications required or allowed under this article. Otherwise, a manager or agent of the landlord shall be considered a landlord only if the manager or agent purports to be the owner, lessor, or sublessor in the rental agreement.

Smoke detector. A device which is:

(1) Designed to detect visible or invisible products of combustion;

(2) Designed with an alarm audible to the bedrooms it serves;

(3) Powered by either battery, alternating current, or other power source;

(4) Tested and listed for use as a smoke detector by Underwriters' Laboratories, Inc., Factory Mutual Research Corporation, or United States Testing Company, Inc.; and

(5) In good working order.

Tenant. Any person who is entitled to occupy a dwelling unit to the exclusion of others and who is obligated to pay rent for the dwelling unit under a written or oral rental agreement.

Test of smoke detector. The performance of the act or acts which the manufacturer of a smoke detector recommends for that particular model of smoke detector as a simple test of whether or not the smoke detector is in good working order.
(Code 1996, § 5.08.001)

Sec. 5.08.002. Location and installation standards.

(a) For all dwelling units, at least one smoke detector shall be installed by the landlord outside of each separate bedroom in the immediate vicinity of the bedroom, except that:

(1) Where the dwelling unit is designed with the intent that a single multi purpose room be used for dining, living, and sleeping purposes, the smoke detector shall be located inside the room rather than outside;

(2) Where the bedrooms are served by the same corridor, at least one smoke detector shall be installed in the corridor in the immediate vicinity of the bedrooms; and

(3) Where one or more bedrooms are located on a level above the cooking and living area the smoke detector shall be placed at the center of the ceiling directly above the top of the stairway.

Unedited First Draft

(b) A smoke detector required by this article shall be installed prior to commencement of possession of the dwelling unit by the tenant in accordance with the manufacturer's recommended procedures, subject to the following:

(1) A smoke detector shall be installed on a ceiling or wall;

(2) If installed on a ceiling, the smoke detector shall be installed no closer than six inches to a wall;

(3) If installed on a wall, the smoke detector shall be installed no closer than six inches to the ceiling and no further than 12 inches from the ceiling;

(4) A smoke detector may be located elsewhere if permitted by ordinance or by written authority of a city, county, or state fire marshal; and

(5) If a smoke detector is electrically operated rather than battery operated, the power system and installation procedures for the smoke detector shall comply with applicable provisions of this Code.

(Code 1996, § 5.08.002)

Sec. 5.08.003. Duty to install in existing units.[64]

For all dwelling units constructed **before the adoption of this division**, at least one smoke detector shall be installed by the landlord in accordance with section 5.08.002 above. A smoke detector required by this section shall be installed in accordance with the location and installation procedure requirements of section 5.08.002(b) above.

~~Prior to January 1, 1984, a tenant may install a battery-operated smoke detector in a unit covered by section 5.08.004(a) of this article without prior consent of the landlord, provided the smoke detector is installed in accordance with the location and installation procedure requirements of section 5.08.002 above. At the end of the rental period or the renewal or extension of the rental period, the tenant may remove a smoke detector installed by the tenant; but the tenant shall be liable to the landlord for any unnecessary damages to the dwelling unit in removing the smoke detector.~~

(Code 1996, § 5.08.003)

Sec. 5.08.004. Duty to inspect and repair.

(a) Upon commencement of a tenant's possession of a dwelling unit containing a smoke detector, the landlord shall have a duty to test the smoke detector to verify that it is in good working order. Upon installation of a smoke detector by a landlord after commencement of the tenant's possession of a dwelling unit, the landlord shall have a duty to test the smoke detector at that time to verify that it is in good working order.

(b) During the term of the rental agreement or any renewal or extension thereof, the landlord shall have a duty to inspect and repair a smoke detector only if the tenant has given notice to the landlord of malfunction or made a request to the landlord for inspection or repair. The notice to the landlord need not

---

[64] **Sec. 5.08.003. Duty to install in existing units.** Do we have the actual date of adoption of this section? Also, obsolete text is stricken as shown.

Unedited First Draft

be in writing unless written notice is required in the written rental agreement. The landlord shall comply with the tenant's request for inspection and repair within a reasonable time, considering the availability of material, labor, and utilities.

(c) A landlord shall not have a duty to inspect or repair a smoke detector if the damage or malfunction is caused by the tenant or the tenant's family, guests, or invitees during the term of the rental agreement or any renewal or extension period of the rental agreement; provided, however, a landlord shall have a duty to repair or replace a smoke detector covered by this subsection if the tenant pays in advance for the reasonable cost of the repair or replacement, including labor, materials, taxes, and overhead.

(d) A landlord shall have satisfied his duty to inspect or repair a damaged or malfunctioning smoke detector if, after a test of the smoke detector, the test indicates that the smoke detector is in good working order.
(Code 1996, § 5.08.004)

Sec. 5.08.005. Duty to replace batteries.

After commencement of possession by the tenant of a dwelling unit, the landlord shall have no duty to provide replacement batteries for a battery-operated smoke detector which was in good working order according to a test of the smoke detector at the time of commencement of possession by the tenant.
(Code 1996, § 5.08.005)

Sec. 5.08.006. Exemptions.

This article shall not apply to dwelling units which are owner-occupied and not rented or leased to a tenant, in whole or in part, or nursing and convalescent homes licensed by the state department of health and certified to meet the life safety code under federal law.
(Code 1996, § 5.08.006)

Sec. 5.08.007. Waiver not permitted.

The landlord's duty of installation of smoke detectors under this division may not be waived.
(Code 1996, § 5.08.007)

Sec. 5.08.008. Required in hotels and motels.

Every guest room in an existing hotel or lodging house used for sleeping purposes shall be provided with smoke detectors conforming to building code standards.
(Code 1996, § 5.08.008)

ARTICLE 5.04 FIRE MARSHAL

Sec. 5.04.001. Office created.

The city has established the office of fire marshal which is independent of other city departments. The office shall be filled by appointment by the city manager.
(Code 1996, § 5.04.001)

Sec. 5.04.002. Investigation.

Unedited First Draft

(a) The fire marshal shall investigate the cause, origin, and circumstances of every fire occurring within the city by which property has been destroyed or damaged and shall especially make investigation as to whether such fire was the result of carelessness or design. Such investigation shall be begun within 24 hours, not including Sunday, of the occurrence of such fire. The fire marshal shall keep in his office a record of all fires, together with all facts, statistics, and circumstances, including the origin of the fires and the amount of the loss, which may be determined by the investigation required by this article.

(b) The fire marshal, when in his opinion further investigation is necessary, shall take or cause to be taken the testimony, on oath, of all persons supposed to be cognizant of any facts or to have means of knowledge in relation to the matter under investigation, and shall cause the same to be reduced to writing. If he shall be of the opinion that there is evidence sufficient to charge any person with the crime of arson, or with the attempt to commit the crime of arson, or of conspiracy to defraud, or criminal conduct in connection with such fire, he shall cause such person to be lawfully arrested and charged with such offense or either of them, and shall furnish to the proper prosecuting attorney all such evidence, together with the names of witnesses and all of the information obtained by him, including a copy of all pertinent and material testimony taken in the case.

(c) The fire marshal shall have the power to summon witnesses before him to testify in relation to any matter which is, by the provisions of this section, a subject of inquiry and investigation and may require the production of any book, paper, or document deemed pertinent thereto. The fire marshal is authorized and empowered to administer oaths and affirmations to any persons appearing as witnesses before him.

(d) Any witness who refuses to be sworn or who refuses to appear or testify, or who disobeys any lawful order of the fire marshal, or who fails or refuses to produce any book, paper, or document touching any matter under examination, or who is guilty of any contemptuous conduct during any of the proceedings of the fire marshal in the matter of the investigation or inquiry, after being summoned to give testimony in relation to any matter under investigation as shall be deemed guilty of a misdemeanor; and it shall be the duty of the fire marshal to cause all such offenders to be prosecuted. Any person being convicted of any such demeanor shall be fined as provided for in the general penalty provision found in section 1.01.009 of this code; provided, however, that any person so convicted shall have the right of appeal.

(e) All investigations held by or under the direction of the fire marshal may, in his discretion, be private, and persons other than those required to be present may be excluded from the place where such investigation is held, and witnesses may be kept separate and apart from each other and not allowed to communicate with each other until they have been examined.
(Code 1996, § 5.04.002)

Sec. 5.04.003. Inspections.

(a) The fire marshal shall have the authority at all times of day or night, when necessary, in the performance of the duties imposed upon him by the provisions of this article, to enter upon and examine any building or premises where any fire has occurred, and other buildings and premises adjoining or near the same, which authority shall be exercised only with reason and good discretion. Should entry be denied, the fire marshal shall obtain a search warrant in order to attain entry.

(b) The fire marshal, upon complaint of any person having an interest in any building or property adjacent and without any complaint, shall have a right at all reasonable hours, for the purpose of examination, to enter into and upon all buildings and premises within the city.

Unedited First Draft

(c) It shall be his duty, monthly or more often, to enter upon and make or cause to be entered and made a thorough examination of all mercantile, manufacturing, and public buildings, together with the premises belonging thereto. When he shall find any building or other structure which, for want of repair, or by reason of age or dilapidated condition, or for any cause, is especially liable to fire, and which is so situated as to endanger other buildings or property, or so occupied that fire would endanger persons or property therein, and when he shall find an improper or dangerous arrangement of stoves, ranges, furnaces, or other heating appliances of any kind, including chimneys, flues, and pipes with which the same may be connected, or a dangerous arrangement of lighting devices or systems, or a dangerous or unlawful storage of explosives, compounds, petroleum, gasoline, kerosene, dangerous chemicals, vegetable products, ashes, combustibles, inflammable and refuse materials, or other conditions which may be dangerous in character or liable to cause or promote fire or create conditions dangerous to the firemen or occupants, he shall order the same to be removed or remedied, and such order shall be forthwith complied with by the owner or occupant of the building or premises.

(d) If the owner or occupant deems himself aggrieved by an order of the fire marshal, he may, within five days, appeal to the mayor, who shall investigate the cause of the complaint and unless by his authority the order is revoked, such order shall remain in force and be forthwith complied with by the owner or occupant.

(e) At the end of each month the fire marshal shall report to the state fire marshal all existing hazardous conditions, together with separate reports on each fire in the city during the month.
(Code 1996, § 5.04.003)

Sec. 5.04.004. Responsibility of owner and occupant.

(a) Any owner or occupant of a building or other structure or premises, who shall keep or maintain the same when for want of repair, or by reason of age or dilapidated condition, or for any cause, it is especially liable to fire, and which is so situated as to endanger buildings or property of others, or is especially liable to fire and which is so situated as to endanger buildings or property of others, or is especially liable to fire and which is so occupied that fire would endanger other persons or their property therein, shall be punished by a fine as provided for in the general penalty provision found in section 1.01.009 of this code.

(b) Any owner or occupant of any building or other structure or premises, who shall keep or maintain the same with an improper arrangement of a stove, range, furnace, or other heating appliance of any kind whatever, including chimneys, flues, and pipes with which the same may be connected, so as to be dangerous in the matter of fire, health, or safety of persons or property of others; or who shall keep or maintain any building, other structure, or premises with an improper arrangement of a lighting device or system, or with a storage of explosives, petroleum, gasoline, kerosene, chemicals, vegetable products, ashes, combustibles, inflammable materials, refuse, or with any other condition which shall be dangerous in character to the person, health, or property of others; or which shall be dangerous in the matter of promoting, augmenting, or causing fires; or which shall create conditions dangerous to firemen, or occupants of such building/structure, or premises other than the maintenance thereof, shall be punished by a fine as provided for in the general penalty provision found in section 1.01.009 of this code.
(Code 1996, § 5.04.004)

Sec. 5.04.005. Notice required.

No prosecution shall be brought under section 5.04.004 until the order provided for in section 5.04.003(b)

Unedited First Draft

be given, and the party notified shall fail or refuse to comply with the same.
(Code 1996, § 5.04.005)

Sec. 5.04.006. Penalties.

The penalties provided for herein shall be recovered by the city in the same manner as provided by law for the enforcement of fines, forfeitures, and punishments for offenses against the city.
(Code 1996, § 5.04.006)

ARTICLE IV. FIRE PROTECTION AND EMERGENCY SERVICES FEES

Sec. 5.09.001. Collection of fees.

(a) The chief of the fire department, or his designee, shall collect all fees for fire prevention and protection services and for other public safety and emergency services rendered by the department. Such fees include but are not limited to the use of equipment, materials, maintenance and overhead expenses and costs of whatever nature which constitute full reimbursement to the fire department for services actually rendered and as hereinafter authorized.

(b) Within 30 days of the date of providing fire prevention and protection services or other public safety and emergency services, the chief of the fire department, or his designee, shall submit an invoice for all costs, fees, charges and expenses related to providing such services, in the minimum amount found in the appendix of this code, to the customer, client, owner, designated agent, representative or insurance company who received, covered or otherwise benefited from these services.

(c) Any bills, fines or penalties, including but not limited to clean up costs, fees or expenses that are imposed upon the city or the fire department by any local, state or federal agency, related to the rendering of fire protection or prevention services or for other public safety and emergency services, may be included in the billing or billed separately within 30 days of receipt.

(d) Any fees or expenses billed by the chief, or his designee, shall be payable in full within 60 days of the date of the invoice. Failure to timely make payment may result in the accumulation of interest on any unpaid balances at the rate of 10 percent per annum for any unpaid balances.
(Code 1996, § 5.09.001)

Sec. 5.09.002. Fee schedule.

Fees and expenses shall be billed in accordance with the city fee schedule ~~found in the appendix of this code and incorporated herein by reference as if fully set forth herein~~.
(Code 1996, § 5.09.002)

Sec. 5.09.003. Enforcement.

The city may enforce the provisions of this article by any action allowed by law for the collection of any amounts due hereunder, including reasonable and necessary attorney's fees, costs and expenses, in a court of competent jurisdiction.
(Code 1996, § 5.09.003)

Unedited First Draft

Chapter 14[65]

HEALTH AND PUBLIC WELFARE

ARTICLE I. IN GENERAL

Sec. #. Standards of care for city youth programs adopted.[66]

Pursuant to V.T.C.A., Human Resources Code, § 42.041(b)(14), the city council has adopted minimum standards of care for the city parks and recreation department's youth programs. The programs operated by the city are recreational in nature and are not licensed by the state as certified day-care programs. A copy of the standards is on file in the office of the city secretary and provided by the parks and recreation department to the parents of each program participant. Parents of each program participant shall be informed that the program is not licensed by the state and is not advertised as a child-care facility.
(Ord. No. O-09-24, att.(intro. ¶), 5-21-2004)

ARTICLE II. SMOKING IN PUBLIC PLACES

Sec. 8.06.001. Definitions.[67]

The following words, terms and phrases, when used in this article, shall have the meanings ascribed to them in this section, except where the context clearly indicates a different meaning:

Administrative area. The area of an establishment not generally accessible to the public, including but not limited to individual offices, stockrooms, employee lounges, or meeting rooms.

Bar. An establishment which has more than fifty-one (51) percent of its annual gross sales from alcoholic beverages and which is devoted to the serving of alcoholic beverages pursuant to state law for consumption by guests on the premises and in which the serving of food is only incidental to the consumption of such beverages and where minors are not allowed admittance unless accompanied by a parent or legal guardian. Food establishments that contain a bar are not considered a "bar."

Business. A sole proprietorship, partnership, joint venture, corporation, or other business entity, either for-profit or not-for-profit, including retail establishments where goods or services are sold; professional corporations and other entities where legal, medical, dental, engineering, architectural, or other professional services are delivered; and private clubs.

Conspicuous. Of a size and contrast that is clearly visible and legible to the general public and

[65] **Chapter 14. Health and Public Welfare.** The nuisance provisions formerly in this chapter have been moved to the offenses and nuisances chapter and grouped with other nuisance regulations with the exception of the smoking article which is moved here from the offenses chapter.

[66] **Sec. #. Standards of care for city youth programs adopted.** I suggest that the standards be omitted from codification and replaced with this acknowledgment of their adoption.

[67] **Sec. 8.06.001. Definitions.** A standardized introduction is substituted for consistency and definition duplicative of chapter 1 stricken as shown. .

Unedited First Draft

unobstructed from view.

Director. The director of the department designated by the city manager to enforce and administer this article, or the director's designated representative.

Electronic cigarette or e-cigarette. Any electronic or mechanical device usually composed of a mouthpiece, heating element or atomizer, battery, and electronic circuits that provides, or is manufactured to provide, a vapor or gas derived from liquid nicotine or other substances delivered or deliverable to the user to inhale in simulation of smoking. The term includes every version and type of such devices whether they are manufactured or marketed as electronic cigarettes, e-cigarettes, electronic cigars, e-cigars, electronic pipes, e-pipes, electronic vaping device, mechanical PV's, electronic nicotine delivery system, or other similar device under any other product name or description.

Employee. A person who is employed by an employer in consideration for direct or indirect monetary wages or profit, and a person who volunteers his or her services for a nonprofit entity.

Employer. A person, business, partnership, association, corporation, including a municipal corporation, trust, or nonprofit entity that employs the services of one or more individual persons.

Enclosed area. All space between a floor and a ceiling that is bounded on at least two sides by walls, doorways, or windows, whether open or closed. A wall includes any retractable divider, garage door, or other physical barrier, whether temporary or permanent and whether or not containing openings of any kind.

Food service establishment or restaurant. An eating establishment, including but not limited to, coffee shops, cafeterias, sandwich stands, and private and public school cafeterias, which gives or offers for sale food to the public, guests, or employees, as well as kitchens and catering facilities in which food is prepared on the premises for serving elsewhere. The term "restaurant" shall include a bar area within the restaurant.

Health-care facility. An office or institution providing care or treatment of diseases, whether physical, mental, or emotional, or other medical, physiological, or psychological conditions, including but not limited to, hospitals, rehabilitation hospitals or other clinics, including weight control clinics, nursing homes, long-term care facilities, homes for the aging or chronically ill, laboratories, and offices of surgeons, chiropractors, physical therapists, physicians, psychiatrists, dentists, and all specialists within these professions. This definition shall include all waiting rooms, hallways, private rooms, semiprivate rooms, and wards within health-care facilities.

Hospital. An institution that provides medical, surgical and overnight facilities for patients.

Liquid nicotine. Any liquid product composed either in whole or in part of nicotine, propylene glycol or any other substance and manufactured for use with electronic cigarettes or e-cigarettes.

Motion picture theater. Any theater engaged in the business of exhibiting motion pictures to the public.

~~Person. Any individual, firm, partnership, association, or other legal entity.~~

Place of employment. An area under the control of a public or private employer, including, but

Unedited First Draft

not limited to, work areas, private offices, employee lounges, restrooms, conference rooms, meeting rooms, classrooms, employee cafeterias, hallways, construction sites, temporary offices, and vehicles. A private residence is not a “place of employment” unless it is used as a child-care, adult day-care, or health-care facility.

Playground. Any park or recreational area designed in part to be used by children that has play or sports equipment installed or that has been designated or landscaped for play or sports activities, or any similar facility located on public or private school grounds or on city grounds.

Private club. An organization, whether incorporated or not, which is the owner, lessee, or occupant of a building or portion thereof used exclusively for club purposes at all times, which is operated solely for a recreational, fraternal, social, patriotic, political, benevolent, or athletic purpose, but not for pecuniary gain, and which only sells alcoholic beverages incidental to its operation. The affairs and management of the organization are conducted by a board of directors, executive committee, or similar body chosen by the members at an annual meeting. The organization has established bylaws or a constitution to govern its activities. The organization has been granted an exemption from the payment of federal income tax as a club under 26 U.S.C. § 501.

Public business. Any deliberation between a quorum of members of any board, commission, department, committee, or agency within the executive or legislative department of the state, or the city council, or any board or commission of the city council, or any board or commission of the city, at which any public business or public policy is discussed or considered, or at which any formal action is taken.

Public place or area. An area to which the public is invited or in which the public is permitted, including but not limited to, bars, educational facilities, financial institutions, gaming facilities, health- care facilities, hotels and motels, laundromats, parking structures, public transportation vehicles and facilities to include all ticketing, boarding, and waiting area, reception areas, restaurants, retail food production and marketing establishments, retail service establishments, retail stores, shopping malls, sports arenas, theaters, and waiting rooms. A private residence is not a “public place” unless it is used as a child-care, adult day-care, or health-care facility.

Public service area. Any area to which the general public routinely has access for municipal services or which is designated a public service area in a written policy prepared in compliance with this article.

Retail or service establishment. Any establishment which sells goods or services to the general public, including but not limited to, department stores, grocery stores, liquor stores, banks, gasoline service stations, drugstores, theaters, stadiums, auditoriums and movie houses.

Retail tobacco store or tobacco store. A retail store where 75% of quarterly sales are from tobacco products and accessories, to include electronic or digital cigarettes, and in which the sale of other products is merely incidental.

Service line. An indoor or outdoor line in which one or more persons are waiting for or receiving service of any kind, whether or not the service involves the exchange of money, including but not limited to, ATM lines, concert lines, food vendor lines, movie ticket lines, and sporting event lines.

Unedited First Draft

Shopping mall. An enclosed or unenclosed public walkway or hall area that serves to connect retail or professional establishments.

Smoking. Inhaling, exhaling, burning, or carrying any lighted or heated cigar, cigarette, or pipe, or any other lighted or heated tobacco or plant product intended for inhalation, including hookahs and marijuana, whether natural or synthetic, in any manner or in any form. "Smoking" also includes the use of an electronic cigarette or electronic smoking device of any kind which creates an aerosol or vapor from the lighting, heating or burning of a tobacco product, liquid nicotine or any tobacco substitute, in any manner or in any form, or the use of any oral smoking device for the purpose of circumventing the prohibition of smoking in this article.

Sports arena. A place where people assemble to engage in physical exercise, participate in athletic competition, or witness sports or other events, including sports pavilions, stadiums, gymnasiums, health spas, boxing arenas, swimming pools, roller and ice rinks, and bowling alleys.

Vapor shop. For the purposes of this article shall mean a store used primarily for the sale of electronic or digital cigarettes or substances used in those or similar devices to produce inhalable vapors and in which the sale of other products is incidental and where 80% of quarterly sales are from the sale of these devices or substances.

Workplace. Any enclosed area of a structure, or portion thereof, intended for occupancy by employees who provide primarily clerical, professional, or business services of a business entity, or which provide primarily clerical, professional or business services to other business entities, or to the public at that location.

(Code 1996, § 8.069.001; Ord. No. O-18-15, 12-8-2015)

Sec. 8.06.005. Application of article to city-owned facilities and property.

All enclosed areas, including buildings and vehicles owned, leased, or operated by the city, as well as all outdoor property adjacent to such buildings and under the control of the city, shall be subject to the provisions of this article.
(Code 1996, § 8.06.005; Ord. No. O-18-15, 12-8-2015)

Sec. 8.06.002. Smoking prohibited in enclosed public places.[68]

Smoking shall be prohibited in all enclosed public places within the city, including but not limited to, the following places:

(1) Galleries, libraries, and museums;

(2) Areas available to the general public in businesses and nonprofit entities patronized by the public, including but not limited to, financial institutions, Laundromats, professional offices, and retail service establishments;

(3) Child-care and adult day-care facilities;

---

[68] **Sec. 8.06.002. Smoking prohibited in enclosed public places.** References to food establishment and workplace restrictions are added for clarity.

Unedited First Draft

(4) Convention facilities and meeting areas;

(5) Educational facilities, both public and private;

(6) Elevators and escalators;

(7) Gaming facilities, including but not limited to bowling and billiard facilities;

(8) Health-care facilities and hospitals;

(9) Lobbies, hallways, and other common areas in apartment buildings, condominiums, trailer parks, nursing homes, assisted living and independent living facilities, and other multiple- unit residential facilities;

(10) Parking structures;

(11) Polling places;

(12) Private and semi-private rooms in nursing homes;

(13) Public transportation vehicles, including buses and taxicabs, under the authority of the city, and ticket, boarding, and waiting areas of public transportation facilities, including bus, train, and airport facilities;

(14) Restrooms, lobbies, reception areas, hallways, and other common-use areas;

(15) Retail stores, except as provided in section 8.06.003(3);

(16) Rooms, chambers, places of meeting or public assembly, including school buildings, under the control of an agency, board, commission, committee or council of the city or a political subdivision of the state, to the extent the place is subject to the jurisdiction of the city;

(17) Service lines;

(18) Shopping malls;

(19) Sports arenas, including enclosed places in outdoor arenas;

(20) Theaters and other facilities primarily used for exhibiting motion pictures, stage dramas, lectures, musical recitals, or other similar performances;

(21) Enclosed areas in food establishments as provided in section 8.06.006; and

(22) Enclosed areas of workplaces as provided in section 8.07.001.

(Code 1996, § 8.06.002(a); Ord. No. O-18-15, 12-8-2015)

Unedited First Draft

Sec. 8.06.002. Prohibited in certain outdoor public places.[69]

Smoking shall be prohibited in the following outdoor public places within the city:

(1) Within a reasonable distance of 50 feet outside entrances, operable windows, and ventilation systems of enclosed areas where smoking is prohibited, so as to prevent tobacco smoke from entering those areas;

(2) On all outdoor property that is adjacent to buildings owned, leased, or operated by the city, and that is under the control of the city;

(3) In outdoor shopping malls, including parking structures;

(4) In all outdoor arenas, stadiums, and amphitheaters. Smoking shall also be prohibited in, and within 50 feet of, bleachers and grandstands for use by spectators at sporting and other public events;

(5) In outdoor recreational areas, including parking lots;

(6) City-owned public parks, including parking lots;

(7) In, and within 50 feet of, all outdoor playgrounds;

(8) In, and within 50 feet of, all outdoor public events;

(9) In, and within 50 feet of, all outdoor public transportation stations, platforms, and shelters under the authority of the city;

(10) In all outdoor service lines, including lines in which service is obtained by persons in vehicles, such as service that is provided by bank tellers, parking lot attendants, and toll takers. In lines in which service is obtained by persons in vehicles, smoking is prohibited by both pedestrians and persons in vehicles, but only within 50 feet of the point of service;

(11) In outdoor common areas of apartment buildings, condominiums, manufactured home/ trailer parks, retirement facilities, nursing homes, and other multiple-unit residential facilities, except in designated smoking areas, not to exceed twenty-five percent (25%) of the total outdoor common area, which must be located at least 50 feet outside entrances, operable windows, and ventilation systems of enclosed areas where smoking is prohibited.

(12) Outdoor areas of food establishments as provided in section 8.06.006; and

(13) Outdoor areas of workplaces as provided in section 8.07.001.

(Code 1996, § 8.06.002(b); Ord. No. O-18-15, 12-8-2015)

Sec. 8.07.001. Employer may restrict smoking in workplaces.

---

[69] **Sec. 8.06.002. Prohibited in certain outdoor public places.** References to food establishment and workplace restrictions are added for clarity.

Unedited First Draft

(a) An employer who owns, occupies, or controls workplace may:

(1) Designate the workplace or portions thereof as non-smoking areas;

(2) Have and implement a written policy on smoking which conforms to this article;

(3) Make the policy available for inspection by employees and communicate the policy to all employees at least three weeks prior to its adoption;

(4) Prominently display reasonably sized signs that smoking is prohibited; and

(5) Provide facilities in sufficient numbers and in such locations as to be readily accessible for the extinguishment of smoking materials.

(b) An employer may not discharge, retaliate or discriminate against an employee who files a complaint or causes a proceeding to be instituted under or related to this article; testifies or will testify in a proceeding instituted under this article, or exercises on his own behalf or the behalf of others any right afforded by this article.

(c) A person commits an offense if he smokes a cigarette, cigar, cigarillo, pipe, or electronic cigarette or possesses a burning tobacco, weed, or other plant product in any portion of the workplace which has been designated as a nonsmoking area or if he violates any other provisions of an employer's written policy adopted, implemented, and maintained in accordance with this article.
(Code 1996, § 8.07.001; Ord. No. O-18-15, 12-8-2015)

Sec. 8.06.006. Smoking in food service establishments restricted.

(a) The owner or manager of any publicly or privately owned food service establishment, including but not limited to a coffee shop, cafeteria, short order cafe, luncheonette, sandwich shop, soda fountain, restaurant, or other similar eating establishment serving food, which has indoor or enclosed dining areas must provide separate indoor or enclosed dining areas for non-smoking and smoking patrons. A non-smoking area must:

(1) Be separated, where feasible, from smoking areas by a minimum of four feet of contiguous floor space;

(2) Be ventilated, where feasible, and situated so that air from the smoking area is not drawn into or across the non-smoking area;

(3) Be clearly designated by appropriate signs visible to patrons within the dining area indicating that the area is designated non-smoking area;

(4) Have ashtrays or other suitable containers for extinguishing smoking materials at the perimeter of the non-smoking area.

(b) Each food service establishment's entrance indicating that smoking is permitted in designated areas only.

(1) Have and implement a written policy on smoking which conforms to this article;

Unedited First Draft

(2) Make the policy available for inspection by employees and the director or his authorized representative; and

(3) Have a sign at the establishment's entrance indicating that smoking is permitted in designated areas only.

(c) Any non-dining areas of any food service establishment affected by this article to which patrons have general access, including, but not limited to, food order areas, food service areas, waiting areas, restrooms, and cashier areas, shall be designated as non-smoking areas.

(d) It shall be a defense to prosecution under this section that the smoking took place in a physically separated bar area of a food service establishment otherwise regulated by this section.

(e) A person commits an offenses if he smokes a cigarette, cigar, cigarillo or pipe or possesses a burning tobacco, weed, or other plant product in an area of a food service establishment designated as non-smoking.
(Code 1996, § 8.06.006)

Sec. 8.06.003. Places smoking not prohibited.

Notwithstanding any other provision of this article to the contrary, the following areas shall be exempt from provisions of this article:

(1) Private residences, unless used as a childcare, adult day-care, or health-care facility;

(2) Private automobiles; and

(3) Retail tobacco stores and vapor shops for sampling of the products sold in such stores, so long as such smoking does not cause smoke or aerosol/"vapor" to cross into other areas where smoking is not allowed.

(Code 1996, § 8.06.003; Ord. No. O-18-15, 12-8-2015)

Sec. 8.06.004. Posting of signs and removal of ashtrays.[70]

The owner, operator, manager, or other person in control of a public place where smoking is prohibited by this article shall:

(1) Clearly and conspicuously post "no smoking" signs or the international "no smoking" symbol (consisting of a pictorial representation of a burning cigarette enclosed in a red circle with a red bar across it) in that place;

(2) Clearly and conspicuously post at every entrance to that place a sign stating that smoking is prohibited or, in the case of outdoor places, clearly and conspicuously post "no smoking" signs in appropriate locations as determined by the director or an authorized designee;

---

[70] **Sec. 8.06.004. Posting of signs and removal of ashtrays.** Obsolete provision is stricken as shown.

Unedited First Draft

(3) Clearly and conspicuously post on every vehicle that constitutes a place of employment under this article at least one sign, visible from the exterior of the vehicle, stating that smoking is prohibited; and

(4) Remove all ashtrays from any area where smoking is prohibited by this article, except for ashtrays displayed for sale and not for use on the premises.

~~(b) The owner, operator, manager, or other person in control of a public place where smoking is prohibited by this article shall have until February 1, 2016 to erect and install the sign(s) required in this section.~~

(b) It shall be a defense to prosecution under this article that the place where the offense takes place does not have a sign displayed in accordance with this section.
(Code 1996, § 8.06.003; Ord. No. O-18-15, 12-8-2015)

Sec. 8.06.007. Enforcement.

(a) This article shall be enforced by the director.

(b) Notice of the provisions of this article shall be given to all applicants for a certificate of occupancy in the city.

(c) Any citizen who desires to register a complaint under this article may initiate enforcement with the director.

(d) An owner, manager, operator, or employee of place regulated by this article shall direct a person who is smoking in violation of this article to extinguish or turn off the product being smoked. If the person does not stop smoking, the owner, manager, operator, or employee shall refuse service and shall immediately ask the person to leave the premises. If the person in violation refuses to leave the premises, the owner, manager, operator, or employee shall contact a law enforcement agency.

(e) Notwithstanding any other provision of this article, an employee or private citizen may bring legal action to enforce this article.

(f) In addition to the remedies provided by the provisions of this section, the director or any person aggrieved by the failure of the owner, operator, manager, or other person in control of a public place to comply with the provisions of this article may apply for injunctive relief to enforce those provisions in any court of competent jurisdiction.
(Code 1996, § 8.06.007; Ord. No. O-18-15, 12-8-2015)

Sec. 8.06.008. Violations and penalties.

(a) A person who smokes in an area where smoking is prohibited by the provisions of this article shall be guilty of an infraction, punishable by a fine not to exceed $2,000.00 for each violation.

(b) Violation of this article is declared to be a public nuisance, which may be abated by the city director or authorized designee by restraining order, preliminary and permanent injunction, or other means provided for by law, and the city may take action to recover the costs of the nuisance abatement.

(c) Each day on which a violation of this article occurs shall be considered a separate and distinct

Unedited First Draft

violation.
(Code 1996, § 8.06.008; Ord. No. O-18-15, 12-8-2015)

ARTICLE III. FOOD SERVICE REGULATIONS

DIVISION 1. GENERALLY

Sec. 6.03.004. State rules adopted.[71]

The enforcement of this article shall be in accordance with "Texas Retail Food Rules," 25 Tex. Adm. Code, §§ 228.1—228.278 which are adopted by reference as though fully set forth herein to the extent applicable within the city. All establishments subject to this article shall comply with the requirements of the adopted rules unless specifically exempt in this article.

~~Definitions.~~
~~City. The City of Glenn Heights, Texas or its designee.~~
~~Person. Any natural person, firm, company, corporation, partnership, or other business or legal entity.~~
~~Texas Retail Food Rules or food code. The Texas Retail Food Establishment Rules, 25 TAC sections 228.1 through 228.278.~~
(Code 1996, § 6.03.004; Ord. No. O-11-23, 9-19-2023)

Sec. 6.03.011. Review of plans.

(a) Submission. When a food service establishment is constructed or extensively remodeled and when an existing structure is converted to use as a food service establishment, properly prepared plans and specifications for such construction, remodeling, or conversion shall be submitted to the city for review and approval before construction, remodeling or conversion is begun. The plans and specifications shall indicate the proposed layout, arrangement, mechanical plans, and construction materials of work areas, and the type and model of proposed fixed equipment and facilities. The city shall approve the plans and specifications if they meet the requirements of this article. No food service establishment shall be constructed, extensively remodeled, or converted except in accordance with plans and specifications approved by the city.

(b) Preoperational inspection. When plans and specifications are required by subsection (a) of this section to be submitted to the city, the city shall inspect the food service establishment prior to the start of operations, to determine compliance with the approved plans and specifications and with the requirements of this article.
(Code 1996, § 6.03.011; Ord. No. O-11-23, 9-19-2023)

Sec. 6.03.001. Permit, license, or certificate required; display; transfer.

No person shall operate a food service establishment or temporary food establishment who does not have a valid permit, license, or certificate issued to him by the city in accordance with this article. Only a person who complies with the requirements of this article shall be entitled to receive or retain such permit, license, or certificate. The fee for issuance of a permit, license, or certificate shall be in the amount

---

[71] **Sec. 6.03.004. State rules adopted.** Definitions are replaced with an adoption by reference of the state rules. The remaining two definitions are duplicative of chapter 1.

Unedited First Draft

provided in the city fee schedule. Permits, licenses, or certificates are not transferable. A valid permit, license, or certificate shall be posted in every food service establishment.
(Code 1996, § 6.03.001; Ord. No. O-11-23, 9-19-2023)

Sec. 6.03.014. Issuance.

(a) Any person desiring to operate a food service establishment, food sales, temporary vending of food shall make written application for a permit on forms provided by the city. Such application shall include the name and address of each applicant, the location and type of the proposed food being served or sold and the signature of the applicant.

(b) Prior to approval of an application for a permit, license, or certificate, the city shall inspect the proposed temporary food establishment to determine compliance with the requirements of this article. If the applicant has been convicted of a felony or misdemeanor, the application shall be considered in accordance with Vernon's Ann. C.C.P. art. 62.

(c) The city shall issue a permit, license, or certificate to the applicant if its inspection reveals that the proposed temporary food establishment complies with the requirements of this article and the state regulations adopted herein.
(Code 1996, § 6.03.014; Ord. No. O-11-23, 9-19-2023)

Sec. 6.03.015. Suspension of permit, license, or certificate; notice and hearing.[72]

(a) The city may, without warning, notice, or hearing, suspend any permit, license, or certificate to operate a food service establishment if the holder of the permit, license, or certificate does not comply with the requirements of this article, or if the operation of the establishment does not comply with the requirements of this article, or if the operation of the food service establishment otherwise constitutes a substantial hazard to public health, or if the holder has been convicted of a misdemeanor or felony, as provided in Vernon's Ann. C.C.P. art. 62. Suspension is effective upon service of the notice required by this section. When a permit, license, or certificate is suspended, food service operations shall immediately cease.

(b) ~~Whenever a permit, license, or certificate is suspended the holder of the permit, license, or certificate shall be afforded an opportunity for hearing within 20 days of receipt of a request for hearing.~~ When a permit, license, or certificate is suspended, the holder of the permit, license, or certificate, or the person in charge shall be notified in writing that the permit, license, or certificate is, upon service of the notice, immediately suspended and that an opportunity for hearing will be provided if a written request for hearing is filed with the city by the holder of the permit, license or certificate within ten days. If no written request for hearing is filed within ten days, the suspension is sustained. The city may end the suspension at any time if reasons for suspension no longer exist.

(c) The hearing provided for in this article shall be conducted by the city at a time and place designated by it. Any oral testimony given at a hearing shall be reported verbatim, and the presiding

---

[72] **Sec. 6.03.015. Suspension; notice and hearing.** Duplicative and conflicting sentence is stricken. Please clarify 10 vs. 20 days in this section. The time within which a hearing must be requested is 10 days or 20 days? Does the stricken sentence intend to state that the hearing must be held within 20 days? If so, 20 days of what—the suspension or the request for hearing?

Unofficial First Draft

officer shall make provision for sufficient copies of the transcript. The city shall make a final finding based upon the complete hearing record and shall sustain, modify or rescind any notice or order considered in the hearing. A written report of the hearing decision shall be furnished to the holder of the permit, license, or certificate by the city.
(Code 1996, § 6.03.015; Ord. No. O-11-23, 9-19-2023)

Sec. 6.03.016. Revocation of permit, license, or certificate; notice and hearing.

(a) The city may, after providing opportunity for hearing, revoke a permit, license, or certificate for serious or repeated violations of any of the requirements of this article or for interference with the city in the performance of duty, or upon conviction of a felony or misdemeanor, as provided in Vernon's Ann. C.C.P. art. 62.

(b) Prior to revocation, the city shall notify the holder in writing of the permit, license, or certificate, or the person in charge, of the specific reasons for which the permit, license, or certificate is to be revoked and that the permit, license, or certificate shall be revoked at the end of the ten days following service of such notice unless a written request for hearing in filed with the city by the holder of the permit, license, or certificate within such ten-day period.

(c) If no request for hearing is filed within the ten-day period, the revocation of the permit, license, or certificate becomes final.
(Code 1996, § 6.03.016; Ord. No. O-11-23, 9-19-2023)

Sec. 6.03.017. Application after revocation.

When a revocation of a permit, license, or certificate has become final, the holder of the revoked permit, license, or certificate may make written application for a new permit, license, or certificate.
(Code 1996, § 6.03.001; Ord. No. O-11-23, 9-19-2023)

DIVISION 2. OPERATION STANDARDS AND SPECIFICATIONS

Sec. 6.03.009. Food manager certification requirements.

(a) No person or company shall operate a food establishment unless the establishment has a person on duty who has completed an approved state department of health food protection management class.

(b) A food establishment with multiple shifts shall ensure that a person in charge of each shift has completed an approved food protection management class.

(c) The person on duty and in charge shall make available to the city personnel their food manager certificate when inspections are conducted or when proof of class completion is required.

(d) The food manager certificate shall be valid for not less than five years at which time an approved food protection recertification class must be completed within 45 days after the expiration of the original certificate, and every five years thereafter.

(e) Temporary food vendors, mobile food vendors who sell only prepackaged foods, and small retail vendors who sell only prepackaged foods shall be exempt from the requirements of this section.
(Code 1996, § 6.03.009(a); Ord. No. O-11-23, 9-19-2023)

Unedited First Draft

Sec. 6.03.009. Food employee requirements.

(a) All food employees shall complete a state-approved food handler class within 30 days of employment at a local food establishment. A food employee is any person employed in a food premises, who at any time may be involved in the manufacturing, preparation, serving or packing of food for sale.

(b) Food handler cards shall be made available to city personnel when inspections are conducted or when proof of course completion is requested.

(c) Food handler cards shall be valid for not less than two years, at which time the card must be renewed. Employees must renew the card within 45 days of the expiration of the original card and every two years thereafter.

(d) Any person not completing a food protection management class must complete an approved food handler class.

(e) A food handler class may not be taken in place of a required food protection management class.

(f) Mobile food vendors who sell only prepackaged foods shall be exempt from this subsection.

(g) Temporary food vendors shall be exempt from this subsection.
(Code 1996, § 6.03.009(b); Ord. No. O-11-23, 9-19-2023)

Sec. 6.03.018. Mobile vending unit requirements.

(a) A health permit is required for all mobile vending units. All mobile vending units will be inspected before a permit is issued and one time each six months. The applicant must provide proof of automobile insurance with the permit application.

(b) The hours of operation for mobile vending units shall be 7:00 a.m. until sunset.

(c) Operation of mobile vending units is prohibited in all city parks, within one block of a school one hour before or after school hours, or within 100 feet of a street intersection. No vendor shall remain stationary at one location for more than 15 minutes.

(d) Ice cream trucks shall have the following equipment:

(1) Sign on front and back of truck that states in three-inch lettering "watch for children."

(2) Company's name and phone number on the vehicle.

(3) Serving window shall be located on curbside only.

(4) Mirrors shall be provided on the truck with capability to see around the entire truck.

(5) Operable yellow/amber flashing lights on front and rear of truck.

(6) A truck rear bumper cover required to prevent children from jumping on the rear of the vehicle.

Unedited First Draft

(e) Sound equipment shall be limited to music or human speech which is not audible more than 100 yards from the truck. Sound shall be no louder than 80 dBA and shall be turned off while the vehicle is stopped for vending.

(f) All drivers of ~~ice cream trucks and~~ vehicles vending products to children shall submit a copy of their driver's license to the city and obtain the permit described in this article before operating such vehicle.
(Code 1996, § 6.03.018; Ord. No. O-11-23, 9-19-2023)

DIVISION 3. ADMINISTRATION AND ENFORCEMENT

Sec. 6.03.013. Service of notices.

A notice provided for in this article is properly served when it is delivered to the holder of the permit, license, or certificate, or the person in charge, or when it is sent by registered or certified mail, return receipt requested, to the last known address of the holder of the permit, license, or certificate. A copy of the notice shall be filed in the records of the city.
(Code 1996, § 6.03.013; Ord. No. O-11-23, 9-19-2023)

Sec. 6.03.010. Examination and condemnation of food.

(a) Food may be examined or sampled by the city as often as necessary for enforcement of this article. The city may, upon written notice to the owner or person in charge, specifying with particularity the reasons therefor, place a hold order on any food which it believes is in violation of 25 Tex. Adm. Code, §§ 228.1—228.278 or any section of this article.

(b) The city shall tag, label, or otherwise identify any food subject to the hold order. No food subject to a hold order shall be used, served, or moved from the establishment. The city shall permit storage of food under conditions specified in the hold order, unless storage is not possible without risk to the public health, in which case immediate destruction shall be ordered and accomplished.

(c) The hold order shall state that a request for hearing may be filed within ten days and that if no hearing is requested, the food shall be destroyed. If a request for hearing is received, the hearing shall be held within 20 days after receipt of this request.

(d) On the basis of evidence produced at that hearing, the hold order may be vacated or the owner or person in charge of the food may be directed by written order to denature or destroy such food or to bring it into compliance with the provisions of this article.
(Code 1996, § 6.03.010; Ord. No. O-11-23, 9-19-2023)

Sec. 6.03.003. Inspections.

(a) An inspection of each food service establishment shall be performed at least once every six months by the city. Additional inspections of each food service establishment shall be performed as often as necessary for the enforcement of this article.

(b) Representatives of city, including any sanitarian employed by the health department of Dallas or Ellis County, after proper identification, shall be permitted to enter any food service establishment at any reasonable time for the purpose of making inspections to determine compliance with this article. The representatives shall be permitted to examine the records of the establishment to obtain information

Unedited First Draft

pertaining to food and supplies purchased, received, or used.

(c) All food service establishments, mobile food establishments and temporary food establishments shall be subject to an inspection of the establishment and vehicle as application; compliance with requirements for the issuance, suspension and revocation of any permits to operate; and compliance with the prohibition of the sale of unsound or mislabeled food or drink.
(Code 1996, §§ 6.03.002, 6.03.003, 6.03.005, 6.03.006; Ord. No. O-11-23, 9-19-2023)

Sec. 6.03.007. Inspection report.

(a) When an inspection of a food establishment is made, the findings shall be recorded on the inspection report form set out in 25 Tex. Adm. Code, §§ 228.1—228.278. The inspection report form shall summarize the requirements of this article and shall set forth a weighted point value for each requirement. Inspectional remarks shall be written to reference, by section number, the section violated and shall state the correction to be made.

(b) The rating of the establishment shall be the total of the weighted point values for all violations, subtracted from 100. A copy of the completed inspection report form shall be furnished to the person in charge of the establishment at the conclusion of the inspection.

(c) The completed inspection report form is a public document that shall be made available for public disclosure to any person who requests it according to law.
(Code 1996, § 6.03.007; Ord. No. O-11-23, 9-19-2023)

Sec. 6.03.008. Correction of violations.

(a) The completed inspection report form shall specify a reasonable period of time for the corrections of the violations found, which shall not be later than 90 days from the date of inspection; and correction of the violations shall be accomplished within the period specified, in accordance with the following:

(1) If an imminent health hazard exists, such as complete lack of refrigeration or sewage backup into the establishment, the establishment shall immediately cease food service operations. Operations shall not be resumed until authorized by the city;

(2) All violations of four- or five-point weighted items shall be corrected as soon as possible, but in any event, within ten days following inspection. Within 15 days after the inspection, the holder of the permit, license, or certificate shall submit a written report to the city stating that the four- or five-point weighted violations have been corrected. A follow-up inspection shall be conducted to confirm correction;

(3) All one- or two-point weighted items shall be corrected as soon as possible, but in any event, by the time of the next routine inspection;

(4) When the rating score of the establishment exceeds 30 demerits, the establishment shall initiate corrective action on all identified violations within 48 hours. One or more reinspections will be conducted at reasonable time intervals to ensure correction;

(5) In the case of temporary food service establishments all violations shall be corrected within 24 hours. If violations are not corrected within 24 hours, the establishment shall immediately cease food service operations until authorized to resume by the city.

Unedited First Draft

(b) The inspection report shall state that failure to comply with any time limits for corrections may result in cessation of food service operations. An opportunity for hearing on the inspection findings or the time limitations or both will be provided if a written request is filed with the city within ten days following cessation of operations. If a request for hearing is received, a hearing shall be held within 20 days of receipt of the request.

(c) When a food service establishment is required under the provisions of this section to cease operations, it shall not resume operations until it is shown on reinspection that conditions responsible for the order to cease operations no longer exist. Opportunity for reinspection shall be offered within a reasonable time.
(Code 1996, § 6.03.001; Ord. No. O-11-23, 9-19-2023)

Sec. 6.03.012. Procedure when infection is suspected.[73]

When the city has reasonable cause to suspect possible disease transmission by an employee of a food service establishment, it may secure a morbidity history of the suspected employee or make any other investigation as indicated and shall take appropriate action. The city may require any or all of the following measures:

(1) The immediate exclusion of the employee from employment in food establishments.

(2) The immediate closing of the food service establishment concerned until, in the opinion of the city, no further danger of disease outbreak exists.

(3) Restriction of the employee's services to some area of the establishment where there would be no danger of transmitting disease.

(4) Adequate medical and laboratory examination of the employee and of other employees and of his and their body discharges.

~~Fees for inspection services. Fees for inspection services shall be as provided in the city fee schedule.~~
(Code 1996, § 6.03.012; Ord. No. O-11-23, 9-19-2023)

Sec. 6.03.019. Penalties; injunctive relief.

(a) Violations of this article constitute misdemeanors that, upon conviction, are subject to a fine not to exceed the sum of $2,000.00 for each offense. Every day the violation is continued shall constitute a separate offense. Allegation and evidence of culpable mental state is not required for proof of an offense.

(b) In addition to the penalties specified, the city may seek equitable relief to enjoin violations of this article in addition to other forms of relief under law.
(Code 1996, § 6.03.019; Ord. No. O-11-23, 9-19-2023)

ARTICLE #. DONATION BOXES

[73] **Sec. 6.03.012. Procedure when infection is suspected.** Duplicative sentence is stricken as shown.

Unedited First Draft

Sec. 6.04.001. Purpose.

The purpose of this article is to protect the public health, safety and welfare of city residents by requiring the permitting, regulation, and maintenance of donation boxes within the city limits. This article further serves to protect the aesthetic quality of the community and promote the tidy and ordered appearance of developed property by regulating donation boxes and ensuring that material is not allowed to accumulate outside of donation boxes. The article additionally serves to ensure that donation boxes do not pose a hazard to pedestrian and vehicular traffic. The provisions included herein are intended to provide efficient legal remedies for unpermitted or poorly maintained donation boxes that threaten the orderly development of the city.
(Code 1996, § 6.04.001; Ord. No. O-13-17, 9/12/17)

Sec. 6.04.002. Definitions.[74]

The following words, terms and phrases, when used in this article, shall have the meanings ascribed to them in this section, except where the context clearly indicates a different meaning:

Administrator means the director of the department designated by the city manager to enforce and administer this article and the director's designees.

Donation box means a box, trailer, receptacle, container, accessory structure or other similar structure located outside of an enclosed building in a place accessible to the public and designed or intended for the collection and temporary storage of donated personal property.

Operator means a person who owns, operates or is otherwise in control of a donation box.

~~Person. An individual, partnership, association, firm, company, organization, corporation, or entity of any kind.~~

Property owner means the person or entity that is the owner of the real property upon which the donation box is located.
(Code 1996, § 6.04.002; Ord. No. O-13-17, 9/12/17)

Sec. 6.04.003. Permit required; issuance.

Notwithstanding any other provision of law to the contrary, no person shall place, use or employ a donation box within the city limits unless they have a current permit for a period of one year issued under this article by the city upon application filed with the administrator. The city shall issue a permit to the operator of a donation box upon payment of the nonrefundable annual permit fee and submission of an annual permit application establishing that the donation box is in compliance with all requirements of this article and not in violation of or conflict with any other law.
(Code 1996, § 6.04.003; Ord. No. O-13-17, 9/12/17)

Sec. 6.04.004. Permit fee.

A non-refundable annual permit fee in the amount provided in the city fee schedule ~~is as provided for in~~

---

[74] **Sec. 6.04.002. Definitions.** A standardized introduction is substituted for consistency and definitions duplicative of chapter 1 are stricken as shown.

Unedited First Draft

~~the fee schedule found in appendix A of this code. The fee~~ must be paid at the time of submission of the annual permit application. To the extent that any person may be exempt from paying this annual permit fee pursuant to any other law, that person must still annually apply for and secure a permit.
(Code 1996, § 6.04.004; Ord. No. O-13-17, 9/12/17)

~~Sec. 6.04.005. Application to existing donation boxes.~~[75]
~~(a) The operator of a donation box in existence within the city limits at the time of adoption of this article and the owner of the property on which the existing box is located shall be given written notice by the city that they have 30 days to either obtain an annual permit for the existing donation box or remove the donation box from the property. The operator of an existing donation box or the owner of the property on which the box is located may, alternatively, within this 30 day time period, give the city written permission to remove and dispose of the existing donation box.~~
~~(b) The notice required by this section shall be mailed to the address of the property owner listed on the appraisal district records and the address posted on the donation box, if any. The notice shall also be posted on the donation box itself. The operator and property owner shall have 30 days from the day the notice is placed in the U.S. mail or posted on the box, whichever is later, to obtain a permit or otherwise comply with the requirements of this article.~~
~~(c) If the city removes and disposes of a donation box under this section, the property owner and donation box operator shall be responsible, jointly and severally, for payment to the city for the reasonable and necessary costs of removal and disposal.~~
~~(Code 1996, § 6.04.005; Ord. No. O-13-17, 9/12/17)~~

Sec. 6.04.006. Permit application requirements.

An application for a donation box permit under this article shall be submitted annually upon a form provided by the city and shall include:

(1) The address or other identification of the property where the donation box would be situated;

(2) A site plan showing where on the property the donation box will be located and specifically containing:

(A) Location and dimensions of all parcel boundaries;

(B) Location of all buildings;

(C) Proposed donation box location;

(D) Distance between the proposed donation box and parcel lines and buildings; and

(E) Location and dimensions of all existing and proposed driveways, garages, carports, parking spaces, maneuvering aisles, pavement and striping/marking.

(3) An elevation of the donation box showing the appearance, materials, and dimensions of all sides of the donation box;

---

[75] **Sec. 6.04.005. Application to existing donation boxes.** Obsolete grandfather provision is stricken.

Unedited First Draft

(4) A description or diagram of the proposed locking mechanism of the donation box;

(5) The name, physical address, mailing address, and telephone number of the applicant and all owners of the donation box as well as all persons which may share in or profit from any donations collected via the donation box;

(6) Written consent from the property owner to place the donation box on the property;

(7) A detailed maintenance and collection schedule for the donation box which collection will include removal of items and debris on and around the donation box; and

(8) Evidence of compliance with section 6.04.007 of this article.
(Code 1996, § 6.04.006; Ord. No. O-13-17, 9/12/17)

Sec. 6.04.007. Donation box requirements.

All donation boxes located within the city limits must meet the following requirements:

(1) A donation box shall only be placed on a lot which contains a building that is occupied.

(2) A donation box shall only be placed on a lot within a retail or commercial zoning district.

(3) No more than one donation box may be permitted for placement on any one lot. In the case of shopping center or office development that consists of multiple platted lots, the administrator shall treat the shopping center or office development as if it is one contiguous lot.

(4) A donation box shall be located so as not to interfere with visibility triangles, on-site vehicle or pedestrian circulation, landscaping, and required parking.

(5) A donation box shall be placed on a concrete or asphalt surface.

(6) A donation box shall not be placed in a required building setback, buffer yard, access easement, drainage easement, floodplain, utility easement or fire lane.

(7) No donation box shall be located in or impede access to any required parking or driveways, pedestrian routes, emergency vehicle routes, building ingress or egress, required disabled access routes, required easements, trash enclosure areas or access to trash bins or trash enclosures, or any place that would impede the functioning of exhaust, ventilation or fire extinguishing systems.

(8) A donation box shall not be placed within two hundred (200) feet of any residentially zoned property, said distance to be measured from lot line to lot line.

(9) No donation box shall be located closer than 200 feet from any other box even if located on different tracts of land or lots.

(10) At least one parking space shall be required for use of persons accessing the donation box.

(11) A donation box shall be enclosed by use of a receiving door and locked so that the contents of the donation box may not be accessed by anyone other than those responsible for the retrieval of the contents.

Unedited First Draft

(12) A donation box shall not cover a ground surface area of more than fifty square feet, nor be more than seven feet in height.

(13) Each donation box shall be screened from the nearest public street or right-of-way. If a donation box is located on a corner of a lot, then the box shall be screened on a minimum of two sides. Minimum screening shall consist of a seven foot masonry wall. All screening shall be constructed to prevent the storage or placement of donations outside the donation box, with the screening wall itself being no more than two feet from the screened donation box.

(14) A donation box shall be constructed from metal material and be painted a solid color. No high-intensity or fluorescent colors shall be used for the box or associated signage.

(15) Each donation box shall clearly indicate in writing on the side of each box that all donations must fit into and be placed within the box.
(Code 1996, § 6.04.007; Ord. No. O-13-17, 9/12/17)

Sec. 6.04.008. Maintenance and upkeep.

(a) The operator and the property owner shall be held jointly and severally liable and responsible for compliance with this section, for the maintenance, upkeep and servicing of the donation box, and for clean-up and removal of any donations left on the property outside.

(b) Each donation box shall be maintained in good working order and free from graffiti, damaged signs and notifications, peeling paint, rust, and broken parts or operating mechanisms.

(c) Donation boxes shall be serviced not less than weekly between 7:00 a.m. and 7:00 p.m. on weekdays and 10:00 a.m. and 6:00 p.m. on weekends. This service includes the maintenance of the donation box, the removal of collected material, and the abatement of any graffiti, litter, or nuisance condition in, on and around the donation box.

(d) The operator and property owner of each donation box shall ensure that each box is emptied of its contents periodically, in accordance with the maintenance and collection schedule submitted with the permit application for the donation box and more frequently if necessary, to prevent overflow of donated items into the area surrounding the donation box. In cases where items are found outside the donation box, whether on the ground around the donation box or on top of the donation box, the operator and property owner shall be found to be in violation of this article.

(e) The operator and property owner shall maintain, or cause to be maintained, the area within 20 feet of the donation box free from any junk, debris, overflow items, dumped materials, or other materials. The property owner and operator shall be responsible to the extent provided by law for the city's cost to abate any nuisance.

(f) The visual and structural integrity of the donation box must be maintained continuously.

(g) Each donation box shall at all times clearly and conspicuously display on the exterior of the donation box the name, address, and telephone number of the operator of the donation box and the permit number and its date of expiration as well as a statement that a copy of the permit application is on file with the city secretary.

(h) The operator shall maintain on file with the city an active email address and a 24-hour telephone

Unedited First Draft

service with recording capability for the public to register complaints.

(i) Any conditions that are in violation of this section must be remedied or abated within 48 hours of being reported to the operator or property owner.
(Code 1996, § 6.04.008; Ord. No. O-13-17, 9/12/17)

Sec. 6.04.009. Violations; revocation of permit; removal of donation boxes.

(a) In addition to any other penalties and remedies available under local, state, or federal law, the following penalties and remedies shall apply to violations of this article:

(b) The operator and property owner shall be given written notice of any conditions constituting a violation of this article. Any conditions that are in violation of this article and not remedied within 48 hours of receipt of written notice thereof shall result in revocation of the permit for the donation box at issue.

(c) The administrator shall have the right to revoke any permit issued hereunder if any of the grounds upon which the administrator may refuse to issue a permit is found by the administrator to exist. In addition, the failure of the operator or property owner to comply with the provisions of this article or other provisions of this code or other law shall also constitute grounds for revocation of the permit. The administrator shall provide written notice to the operator, and property owner stating the specific grounds for revocation.

(d) Upon revocation, the donation box shall be removed from the property within 30 calendar days and if not removed within this time period, the city may remove and dispose of the donation box and the operator and property owner will be jointly and severally liable for payment to the city of the reasonable and necessary costs of such removal and disposal. Upon revocation, the affected operator and property owner shall be prohibited from applying for a permit for a period of two years.

(e) In addition, any operator, property owner, or other person violating this article shall be punished by a fine not to exceed $500.00 for each offense. Every day a violation shall continue shall be deemed to constitute a separate offense.
(Code 1996, § 6.04.009; Ord. No. O-13-17, 9/12/17)

Chapter 16

HUMAN RELATIONS AND SOCIAL SERVICES

ARTICLE I. IN GENERAL

ARTICLE II. FAIR HOUSING[76]

Sec. 4.07.001. Definitions.

The following words, terms and phrases, when used in this article, shall have the meanings ascribed to them in this section, except where the context clearly indicates a different meaning:

Age. The calendar age of an individual 18 years of age or over.

Creed. Any set of principles, rules, opinions and precepts formally expressed and seriously adhered to or maintained by a person.

Discriminatory housing practice. An act that is unlawful this article.

Dwelling. Any building, structure or portion thereof which is occupied as, or designed and intended for occupancy as, a residence by one or more families or any vacant land which is offered for sale or lease for the construction or location thereon of any such building, structure or portion thereof.

Family. Includes a single individual or a group of individuals living together under one common roof.

Major life activities. Functions such as, but not limited to, caring for one's self, performing manual tasks, walking, seeing, hearing, speaking, breathing, learning and working.

Marital status. An individual's status as a single, married, divorced, widowed or separated person.

Parenthood. A person's status as a parent or legal guardian of a child or children under the age of 18.

Person. Includes one or more individuals, corporations, partnerships, associations, labor organizations, legal representatives, mutual companies, joint stock companies, trusts, unincorporated organizations, trustees, fiduciaries, and any other organization or entity of whatever character.

Physical or mental disability. Any physical or mental impairment which substantially limits one or more major life activities. Physical or mental impairment shall include:

(1) Any physiological disorder or condition, cosmetic disfigurement or anatomical loss affecting one

---

[76] **Art. II. Fair Housing.** Has the city been certified by the federal department of housing and urban development as a substantially equivalent fair housing agency? Also, is this article needed? Both federal and state law prohibit housing discrimination and provide mechanisms to address it. Should this article be replaced with a reference to the Texas Workforce Commission which is responsible for enforcement of the state Fair Housing Act.

Unedited First Draft

or more of the following body systems: neurological; musculoskeletal; special sense organs; respiratory, including speech organs; cardiovascular; reproductive; digestive; genitourinary; hemic and lymphatic; skin; and endocrine; or

(2) Any mental or psychological disorder, such as mental retardation, organic brain syndrome, emotional or mental illness, and specific learning disabilities.

Senior adult. A person 55 years of age or older.

To rent. Includes to lease, to sublease, to let, and otherwise to grant for a consideration the right to occupy premises not owned by the occupant.
(Code 1996, § 4.07.001; Ord. No. 698-01, 3/19/01)

Sec. 4.07.002. Interpretation and effect.

This article shall in no way be interpreted as creating a judicial right or remedy which is the same or substantially equivalent to the remedies provided under title VIII of the Civil Rights Act of 1968, as amended, or the federal Equal Credit Opportunity Act (15 U.S.C. 1691). All aggrieved parties shall retain the rights granted to them by title VIII of the Civil Rights Act of 1968, as amended, and the federal Equal Credit Opportunity Act. In construing this article, it is the intent of the city council that the courts shall be guided by federal court interpretations of title VIII of the Civil Rights Act of 1968, as amended, and the federal Equal Credit Opportunity Act, where appropriate.
(Code 1996, § 4.07.001; Ord. No. 698-01, 3/19/01)

Sec. 4.07.007. Fair housing administrator.

The mayor shall appoint and the council shall confirm a fair housing administrator (hereinafter referred to as “administrator”), who shall have the responsibility for implementing this article. The administrator may delegate his authority to investigate and conciliate complaints to other city employees under his direction.
(Code 1996, § 4.07.007; Ord. No. 698-01, 3/19/01)

Sec. 4.07.003. Discrimination in the sale or rental of housing.

Except as exempted it is unlawful for any person to:

(1) Refuse to sell or rent, after the making of a bona fide offer, or to refuse to negotiate for the sale or rental of, or otherwise make unavailable or deny, a dwelling to any person because of race, color, creed, sex, religion or national origin, physical or mental disability, marital status, parenthood or age.

(2) Discriminate against any person in the terms, conditions, or privileges of sale or rental of a dwelling, or in the provision of services or facilities in connection therewith, because of race, color, creed, sex, religion or national origin, physical or mental disability, marital status, parenthood or age.

(3) Make, print, publish, or cause to be made, printed or published any notice, statement or advertisement regarding the sale or rental of a dwelling that indicates any preference, limitation or discrimination based on race, color, creed, sex, religion or national origin, physical or mental disability, marital status, parenthood or age, or any intention to make any such preference, limitation or discrimination.

Unedited First Draft

(4) Represent to any person because of race, color, creed, sex, religion or national origin, physical or mental disability, marital status, parenthood or age that any dwelling is not available for inspection, sale or rental when such dwelling is in fact so available.

(5) Induce or attempt to induce any person to sell or rent any dwelling by representations regarding the entry or prospective entry into the neighborhood of a person or persons of a particular race, color, creed, sex, religion or national origin, physical or mental disability, marital status, parenthood or age.
(Code 1996, § 4.07.003; Ord. No. 698-01, 3/19/01)

Sec. 4.07.004. Discrimination in the financing of housing.

It is unlawful for any bank, building and loan association, insurance company or other corporation, association, firm or enterprise whose business consists in whole or in part of the making of commercial or residential real estate loans to deny a loan or other financial assistance to a person applying therefor for the purpose of purchasing, constructing, improving, repairing or maintaining a dwelling, or to discriminate against any such person in the fixing of the amount, interest rate, brokerage points, duration, or other terms or conditions of such loan or their financial assistance, because of:

(1) The race, color, creed, sex, religion or national origin, physical or mental disability, marital status, parenthood or age of such person or of any person associated with him in connection with such loan or other financial assistance; or

(2) The race, color, creed, sex, religion or national origin, physical or mental disability, marital status, parenthood or age of the present or prospective owner, lessees, tenants, or occupants of the dwelling or dwellings for which such a loan or other financial assistance is to be made or given.
(Code 1996, § 4.07.004; Ord. No. 698-01, 3/19/01)

Sec. 4.07.005. Discrimination in the provision of brokerage services.

It is unlawful for any person to deny access to or membership or participation in any multiple listing service, real estate brokers' organization or other service, organization or facility relating to the business of selling or renting dwellings, or to discriminate in the terms or conditions of such access, membership or participation, on account of race, color, creed, sex, religion or national origin, physical or mental disability, marital status, parenthood or age.
(Code 1996, § 4.07.005; Ord. No. 698-01, 3/19/01)

Sec. 4.07.006. Exemptions and exclusions.

(a) Nothing in this article shall apply to:

(1) The rental of units in dwellings containing living quarters occupied or intended to be occupied by no more than four families living independently of each other if the owner actually maintains and occupies one of such units as his residence.

(2) The rental of a single room in a dwelling containing living quarters occupied or intended to be occupied by no more than one family if the person offering such room for rental actually maintains and occupies the remainder of such dwelling as his residence and not more than four such rooms are offered.

(3) The sale or rental of any single house by a private individual who owns such house, provided that:

Unedited First Draft

(A) The sale or rental is made without the use in any manner of the sales or rental facilities or the sales or rental services of any real estate broker, agent or salesman, or of such facilities or services of any person in the business of selling or renting dwellings or of any employee or agent of any such broker, agent, salesman, or person; and

(B) The sale is made without the publication, posting or mailing of any advertisement or written notice in violation of this article (this shall not prohibit the use of attorneys, escrow agents, abstractors, title companies, and other such professional assistance as necessary to perfect or transfer the title); and

(C) The owner does not own more than three single-family houses at the time of the sale; and

(D) (Reserved)

(E) The owner does not own any interest in, nor is there owned or reserved on his behalf, under any express or voluntary agreement, title to or any right to all or any portion of the proceeds from the sale or rental or more than three such single-family houses at any one time.

(F) If the owner does not reside in the house at the time of sale or was not the most recent resident of such house prior to the sale, the exemption granted by this subsection shall apply only with respect to one such sale within any twenty-four month period.

(b) Nothing in this article shall prohibit a religious organization, association, or society or any nonprofit institution or organization operated, supervised, or controlled by or in conjunction with a religious association or society from limiting the sale, rental, or occupancy of dwellings which it owns or operates for other than a commercial purpose to persons of the same religion, or from giving preference to such persons, unless membership in such religion is restricted on account of race, color, national origin, sex, mental or physical disability, marital status, parenthood or age.

(c) Nothing in this article shall prohibit a bona fide private club, not in fact open to the public, which as an incident to its primary purpose provides lodging which it owns or operates for other than a commercial purpose from limiting the rental or occupancy of such lodgings to its members or from giving preference to its members.

(d) Nothing in this article shall bar any person from owning and operating a housing accommodation in which a room or rooms are leased, subleased or rented only to persons of the same sex, when such housing accommodation contains common lavatory, kitchen or similar facilities available for the use of all persons occupying such housing accommodation.

(e) Nothing in this article shall prohibit the sale, rental, lease or occupancy of any dwelling designed and operated exclusively for senior adults and their spouses, unless the sale, rental, lease or occupancy is further restricted on account of race, color, creed, religion, sex, national origin, physical or mental handicap or marital status.

(f) Nothing in this article shall bar a person who owns, operates or controls rental dwellings, whether located on the same property or on one or more contiguous parcels of property, from reserving any grouping of dwellings for the rental or lease to tenants with a minor child or children; provided, however, in the event that said reserved area is completely leased or rented, the person owning, operating or controlling said rental dwelling may not refuse to rent or lease any other available dwelling to the prospective tenant on the basis of the tenant’s status as parent or any other of the protected classifications

Unedited First Draft

set forth in this article.
(Code 1996, § 4.07.006; Ord. No. 698-01, 3/19/01)

Sec. 4.07.008. Complaints.

(a) Any person who claims to have been injured by a discriminatory housing practice who believes he will be irrevocably injured by a discriminatory housing practice that has occurred or is occurring (hereinafter referred to as person charging party) may file a complaint with the administrator. Such complaints shall be in writing and shall identify the person alleged to have committed or alleged to be committing a discriminatory housing practice and shall state the facts upon which the allegations of a discriminatory housing practice are based. The administrator shall prepare complaint forms and furnish them without charge to any person, upon request.

(b) A copy of all complaints filed with the city shall also be forwarded to the Fair Housing and Equal Opportunity Division of the Region VI office of the Department of Housing and Urban Development.

(c) The administrator shall provide for free administrative counseling to those complainants who wish to file a private suit for relief in the local, state, or federal court.

(d) If at any time the administrator shall receive or discover credible evidence and shall have probable cause to believe that any person or persons have committed or are committing a discriminatory housing practice as to which no complaint has been filed, the administrator may prepare and file a complaint upon his own motion and in his own name, and such complaint shall thereafter be treated in the same manner as a complaint filed by a person aggrieved.

(e) The administrator shall receive and accept notification and referral complaints from the U.S. Attorney General and the Secretary of Housing and Urban Development pursuant to the provisions of title VIII, Fair Housing Act of 1968, Public Law 90-284, and shall treat such complaints hereunder in the same manner as complaints filed pursuant to subsection (a) of this section.

(f) All complaints shall be filed within 180 days following the occurrence of an alleged discriminatory housing practice. Upon the filing or referral of any complaint, the administrator shall provide notice of the complaint by furnishing a copy of such complaint to the persons named therein who allegedly committed or were threatening to commit an alleged discriminatory housing practice. The accused may file an answer to the complaint within 15 days of receipt of the written complaint.

(g) All complaints and answers shall be subscribed and sworn to before an officer authorized to administer oaths.
(Code 1996, § 4.07.008; Ord. No. 698-01, 3/19/01)

Sec. 4.07.009. Investigation.

(a) Upon the filing or referral of a complaint as herein provided, the administrator shall cause to be made a prompt and full investigation of the matter stated in the complaint.

(b) If the administrator determines that there is not probable cause to believe that a particular alleged discriminatory housing practice has been committed, the administrator shall take no further action with respect to that alleged offense.

(c) During or after the investigation, but subsequent to the mailing of the notice of complaints, the

Unedited First Draft

administrator shall, if it appears that a discriminatory housing practice has occurred or is threatening to occur, attempt by informal endeavors to effect conciliation, including voluntary discontinuance of the discriminatory housing practice and adequate assurance of future voluntary compliance with the provisions of this article. Nothing said or done in the course of such informal endeavors may be made public by the administrator, by the complainant or by any other party to the proceedings without the written consent of all persons concerned.

(d) Upon completion of the investigation and informal endeavors at conciliation by the administrator, but within 30 days of the filing of the complaint with the administrator, if the efforts of the administrator to secure voluntary compliance have been unsuccessful, and if the administrator has made a determination that a discriminatory housing practice has in fact occurred, the administrator shall recommend to the city attorney that such violations be prosecuted in the municipal court. With such recommendations, the administrator shall refer his entire file to the city attorney. The city attorney shall, within 30 days after such referral, make a determination as to whether to proceed with prosecution of such complaint in municipal court. If the city attorney determines to prosecute, he shall institute a complaint and prosecute same to conclusion within 30 days after such determination or as soon thereafter as practicable.
(Code 1996, § 4.07.009; Ord. No. 698-01, 3/19/01)

Sec. 4.07.010. Cumulative legal effect.

This article is cumulative in its legal effect and is not in lieu of any and all other legal remedies which the person aggrieved may pursue.
(Code 1996, § 4.07.010; Ord. No. 698-01, 3/19/01)

Sec. 4.07.011. Unlawful intimidation.

It is unlawful for any person to harass, threaten, harm, damage or otherwise penalize any individual, group or business because he or they have complied with the provisions of this article, because he or they have exercised his or their rights under this article, or enjoyed the benefits of this article, or because he or they have made a charge, testified or assisted in any investigation or in any proceeding hereunder or have made any report to the administrator.
(Code 1996, § 4.07.011; Ord. No. 698-01, 3/19/01)

Sec. 4.07.012. Cooperation with the secretary of housing and urban development.

The administrator and the city attorney are authorized to cooperate with the Secretary of Housing and Urban Development and the U.S. Attorney General pursuant to the provisions of title VII, Fair Housing Act of 1968, Public Law 90-284, and may render such service to the secretary as they shall deem appropriate to further the policies of this article.
(Code 1996, § 4.07.012; Ord. No. 698-01, 3/19/01)

Sec. 4.07.013. Education and public information.

In order to further the objectives of this article, the administrator may conduct educational and public information programs.
(Code 1996, § 4.07.013; Ord. No. 698-01, 3/19/01)

Sec. 4.07.014. Penalties and other remedies.

(a) Any person, firm, or corporation violating any provision of this article shall be guilty of a

Unedited First Draft

misdemeanor, and upon conviction, shall be fined a sum not to exceed $300.00 for each violation. Each day a violation continues after passage of 75 days from date of the filing of the initial complaint with the administrator shall constitute a separate and distinct offense.

(b) Any person, firm, or corporation violating any provision of this article may be enjoined by order of a court of competent jurisdiction, and this remedy is in addition to any other penalty provision.
(Code 1996, § 4.07.014; Ord. No. 698-01, 3/19/01)

Unedited First Draft

Chapter 18

LAW ENFORCEMENT

ARTICLE I. IN GENERAL

ARTICLE II. POLICE DEPARTMENT

Sec. 9.05.001. Established.

~~The office of town marshal is hereby abolished.~~ The city has established a police department for the city known as the Glenn Heights Police department and referred to as GHPD in this chapter. ~~The police department as previously established is ratified and reestablished as the police department of the city.~~
(Code 1996, § 9.05.001; Ord. No. 696-00, 12-4-2000)

Sec. 9.05.002. Department staffing and management.

(a) As provided by section 5.08 of the charter, the city manager has authority to appoint and remove the fire chief or the police chief, or to combine the management and oversight duties of the fire department and police department into one position, which position may be created and staffed by the city manager.

(b) The police chief or other person designated by the city manager, shall have the authority to recommend the employment and discharge of personnel of the GHPD to the city manager. It shall be the responsibility and duty of the police chief, or other person designated by the city manager, to establish department policies, and he shall have full authority to discipline and direct all members of the GHPD.
(Code 1996, §§ 9.05.002, 9.05.004; Ord. No. 696-00, 12/4/00)

Sec. 9.05.003. Authority of department personnel.

The police chief, and the GHPD and its personnel, shall have all such powers, duties, immunities, and authority as are provided by state and federal law and the city council.
(Code 1996, § 9.05.003; Ord. No. 696-00, 12/4/00)

Sec. 9.06.001. Police code of conduct.

(a) The city adopted a code of conduct for the police department dated June 1, 1987. The code, as amended from time to time, is maintained on file in the office of the city secretary and governs the conduct of every sworn member of the police department.

(b) The police chief is authorized to make such deletions, changes, and additions to the code of conduct as he shall deem appropriate and necessary. The police chief is directed to make the code of conduct and any amendments thereto available to every member of the police department.
(Code 1996, § 9.06.001)

ARTICLE III. POLICE RESERVE FORCE

Sec. 9.07.001. Establishment; composition; compensation.

(a) The city has established the police reserves for the city police department, which shall be a

Unedited First Draft

voluntary force of reserve police officers referred to as the "police reserves." The police reserves shall be composed of personnel who have volunteered to join the organization and serve without compensation, whose applications for membership have been accepted, and who have complied with all the rules, regulations and orders provided for the conduct and the control of the members thereof.

(b) Appointments to the police reserve shall be made by the police chief. The police chief shall establish the size, composition and organization of the police reserves, which shall be determined by the need of the police department.
(Code 1996, § 9.07.001)

Sec. 9.07.002. Force to be supplementary.

Reserve police officers shall act only in a supplementary capacity to the regular police force and shall in no case assume full-time duties of regular police officers.
(Code 1996, § 9.07.002)

Sec. 9.07.003. Police chief to control reserves.

The police reserves shall function under the general direction and control of the police chief, subject to the supervision of the city manager, and subject to such rules, regulations and orders as may be promulgated from time to time by the police chief in accordance with the authority vested by the city charter and this Code.
(Code 1996, § 9.07.003)

Sec. 9.07.004. Training requirements.

(a) No person shall serve as a police reserve officer prior to receiving training in accordance with the requirements of the state commission on law enforcement officer standards and education and without receiving certification by the commission as a certified peace officer or reserve police officer. Such initial training and certification will be at the applicant's expense and time.

(b) The police chief may authorize the payment of any appropriate schooling for the police reserves at an authorized training school to enhance the skills that are deemed necessary in the performance of their duties. All appointments to said schools will be at the direction and discretion of the police chief.
(Code 1996, §§ 9.07.004, 9.07.008)

Sec. 9.07.005. Political campaigning restricted; reserve officers not to hold public office.

While in uniform or on active duty, a reserve officer may not take an active part in another person's political campaign for an elective position of the municipality. Reserve officers may not hold publicly elected office and must resign immediately from the reserves if they have filed to run for an elected office.
(Code 1996, § 9.07.005)

Sec. 9.07.006. Termination of membership.

Members of the police reserve shall serve at the discretion of the police chief. Any reserve officer may be terminated by the police chief at any time for any cause deemed sufficient by the police chief, and any reserve officer may resign from the police reserve at any time, but it shall be the duty of such member to notify the police chief of his resignation and surrender his badge and identification card to him.

Unedited First Draft

(Code 1996, § 9.07.006)

Sec. 9.07.007. Uniforms and badges.

The police chief shall prescribe the uniform and badge for members of the police reserves and direct the manner in which the same shall be worn. All reserve officers will be responsible for the purchase of the uniform and its upkeep, to include all leather goods and sidearms.
(Code 1996, § 9.07.007)

Sec. 9.07.009. Weapons.

No person appointed to the police reserves may carry a weapon while serving as a police reserve officer except at the expressed direction of the police chief. Off-duty carrying of weapons shall be at the discretion of the police chief. No reserve officer shall carry any weapon that is in direct conflict with general orders set out by the department and shall not carry authorized weapons until such time as they have qualified with that weapon.
(Code 1996, § 9.07.009)

Sec. 9.07.010. Worker's compensation benefits.

Worker's compensation benefits will be provided for reserves; therefore, a police reserve officer who sustains injury in the course of performing official duties may receive hospital and medical assistance in the same manner as provided for full-time police officers; provided, however, that nothing in this article shall be construed to authorize or permit a member of the police reserves to become eligible for participation in any pension fund created pursuant to state statute, of which regular officers may become members by payroll deductions or otherwise.
(Code 1996, § 9.07.010)

Sec. 9.07.011. Disciplinary actions.

In addition to the penalties provided by law, any violation of law under color of performance of their duties as a member of the police reserves, and any breach of the rules and regulations as established by the police chief shall subject any member to disciplinary action, including dismissal and termination.
(Code 1996, § 9.07.011)

~~Sec. 9.07.012. Penalties.~~[77]
~~Any person, firm or corporation that violates, disobeys or refuses to comply with any provision of this article, upon conviction in the municipal court, shall be subject to a fine as provided for in the general penalty provision found in section 1.01.009 of this code, and every day such violation continues shall constitute a separate offense.~~
~~(Code 1996, § 9.07.012)~~

[77] **Sec. 9.07.012. Penalties.** The penalty section is duplicative of chapter 1 general penalties. Also, is this intended to apply to police department reserve personnel or all personnel? If so, language to that effect should be added to the section regarding disciplinary action and a penalty provision should clarify that violations may be charged and punished as code violations.

Unedited First Draft

Chapter 20

MUNICIPAL COURT

Sec. 7.01.003. Definitions and terms adopted.

Definitions and terms used in V.T.C.A., Government Code, ch. 30, are adopted and incorporated herein for all purposes.
(Code 1996, § 7.01.003; Ord. No. O-31-08, 10-6-2008)

Sec. 7.01.001. Court of record established.[78]

Pursuant to V.T.C.A., Government Code, § 30.00003, the city council has established a city municipal court as a court of record in order to provide a more efficient disposition of cases arising in the city and to more effectively enforce the ordinances of the city. This municipal court of record is established pursuant to the authority granted in V.T.C.A., Government Code, ch. 30. ~~The municipal court shall become a municipal court of record from and after the __ day of __, 200_, and shall be designated the "Municipal Court of Record in the City of Glenn Heights, Texas."~~

(b) All prosecutions in the municipal court of record shall be conducted as provided in the Uniform Municipal Courts of Record Act, V.T.C.A., Government Code, § 30.00001 et seq. and Vernon's Ann. C.C.P. ch. 27. ~~Vernon's Ann. C.C.P. art. 45.002~~. Complaints and pleadings must substantially conform to the relevant provisions of Vernon's Ann. C.C.P. chs. 27 and 45A ~~27 and 45~~.
(Code 1996, § 7.01.001; Ord. No. O-31-08, adopted 10/6/08)

Sec. 7.01.002. Jurisdiction of court.[79]

(a) The municipal court of record has the jurisdiction and authority provided by V.T.C.A., Government Code, § 30.00005, and shall have:

(1) Criminal jurisdiction for the purpose of enforcing municipal ordinances enacted under ordinances authorized by V.T.C.A., Government Code, §§ 215.072, 217.042, 341.903 and 551.002 ~~401.002~~;

(2) Concurrent jurisdiction with a justice court in any precinct in which the municipality is located in criminal cases that arise within the territorial limits of the municipality and are punishable only by fine;

(3) Civil jurisdiction for the purpose of enforcing municipal ordinances enacted under V.T.C.A., Local Government Code, ch. 214 ~~subchapter A, chapter 214, Local Government Code,~~ or ~~subchapter E, chapter 683,~~ V.T.C.A., Transportation Code, ch. 683;

---

[78] **Sec. 7.01.001. Court of record established.** Incomplete and unnecessary text is stricken as shown. Also, Vernon's Ann. C.C.P. art. 45.002 was repealed effective January 1, 2025.

[79] **Sec. 7.01.002. Jurisdiction of court.** Subsection (a)(1) is conformed to V.T.C.A., Government Code, § 30.00005. The remainder of the citations are corrected as to citation form.

Unedited First Draft

(4) Concurrent jurisdiction with a district court or a county court at law under V.T.C.A., Local Government Code, ch. 54 within the municipality's territorial limits and property owned by the municipality located in the municipality's extraterritorial jurisdiction for the purpose of enforcing health and safety and nuisance abatement ordinances; and

(5) Authority to issue:

a. Search warrants for the purpose of investigating a health and safety or nuisance abatement ordinance violation; and

b. Seizure warrants for the purpose of securing, removing, or demolishing the offending property and removing the debris from the premises.

(b) The municipal court of record has all jurisdiction and authority provided by any state statute or judicial decision for municipal courts or municipal courts of record. Nothing contained in this section shall be construed to limit or otherwise restrict the jurisdiction of the municipal court of record.
(Code 1996, § 7.01.002; Ord. No. O-31-08, 10-6-2008)

Sec. 7.01.004. Judge.

(a) Establishment of office. The municipal court of record shall be presided over by a municipal judge appointed and compensated by the city council according to the provisions of the city charter, section 6.02, and V.T.C.A., Government Code, § 30.00006. The municipal judge must be a licensed attorney in good standing in the state and must have two or more years of experience in the practice of law in Texas. The municipal judge must be a citizen of the United States and a resident of the state. A person may not serve as a municipal judge if the person is employed by the city. A municipal judge who accepts employment with the city vacates the judicial office.

(b) Alternate municipal court judge. An alternate municipal court judge may be appointed and compensated by the city council according to the provisions of the city charter, section 6.02.

(c) Supervision and control of the municipal court of record. The municipal judge shall supervise and control the operation and clerical functions of the administrative department of the municipal court of record including the court personnel, during the proceedings or docket of the court according to V.T.C.A., Government Code, §§ 30.00006 and 30.00009. At all other times, the operation and clerical functions of the administrative department of the municipal court of record is under the supervision and direction of the city manager or his designee.

(d) Removal of judge. In conformity with V.T.C.A., Government Code, § 30.000085, the municipal judge may be removed from office by the city council with the advice and consent of the city manager as set forth in section 6.02 of the city charter.
(Code 1996, § 7.01.004; Ord. No. O-31-08, 10-6-2008)

Sec. 7.01.005. Appointment of court clerk and court personnel.[80]

(a) Appointment. Pursuant to section 6.03 of the city charter and V.T.C.A., Government Code, §

[80] **Sec. 7.01.005. Appointment of court clerk and court personnel.** Citations are corrected as shown.

Unofficial First Draft

30.00009, the city manager has the authority to appoint a clerk of the municipal court of record, who shall be known as the municipal court clerk. The municipal court clerk shall keep the records of the municipal court of record, issue process, and generally perform the duties of a clerk of a county court at law exercising criminal jurisdiction. In the annual budget, the city council may provide for deputy clerks, warrant officers, and other personnel as needed for the proper operation of the municipal court of record. The municipal court clerk shall supervise the selection of persons for jury service in the municipal court of record. Trial by jury, including the summoning of jurors, must substantially conform to Vernon's Ann. C.C.P. chs. 45A ~~45, Code of Criminal Procedure~~.

(b) Seal. The court clerk is directed to acquire a seal in conformance with state law for the municipal court of record. The appearance and use of the seal must substantially conform to Vernon's Ann. C.C.P. art. 45A.052 ~~45.012~~, but must also include the phrase "Municipal Court of/in Glenn Heights, Texas."

(c) Court reporter. A court reporter shall be provided to preserve the record in cases tried before the municipal court of record according to V.T.C.A., Government Code, § 30.00010, subject to the following:

(1) The court reporter must meet the qualifications provided by law for official court reporters.

(2) The court reporter or court staff may use written notes, transcribing equipment, video or audio recording equipment, or a combination of those methods to record the proceedings of the court.

(3) The court reporter or court staff are not required to record testimony in any case unless the judge or one of the parties requests a record in writing, and files the request with the court before trial.

(4) If a record is made, it shall be kept for the 20-day period beginning the day after the last day of the court proceeding, trial or denial of motion for new trial, whichever occurs last.

(5) The court reporter is not required to be present during proceedings of the municipal court of record, provided that proceedings that are required to be recorded are recorded by a good quality electronic recording device.

(6) If a case is appealed, the proceedings shall be transcribed from the recording by an official court reporter.

(Code 1996, § 7.01.005; Ord. No. O-31-08, 10-6-2008)

Sec. 7.01.006. Appeals.

(a) Appeals. A defendant has the right of appeal from a judgment or conviction in the municipal court of record. The state has the right to appeal as provided by Vernon's Ann. C.C.P. art. 44.01. Such appeals shall be in accordance with and conform to V.T.C.A., Government Code, §§ 30.00014–30.00027.

(b) Transcript preparation fee. In the event of an appeal, the appellant shall pay a transcript preparation fee in the amount of $25.00. The transcript preparation fee does not include the fee for an actual transcript of the proceedings. The clerk shall note the payment of the fee on the docket of the court. If the case is reversed on appeal, the transcript preparation fee of $25.00 shall be refunded to the appellant. In addition to the transcript preparation fee, the fee for the actual transcript of the proceedings and statement of facts must be paid by the appellant, pursuant to V.T.C.A., Government Code, §§ 30.00014 and 30.00019.

Unedited First Draft

(Code 1996, § 7.01.006; Ord. No. O-31-08, 10-6-2008)

Sec. #. Consolidated municipal court building security and technology fund.[81]

(a) The city has established a consolidated municipal court building security and technology fund pursuant to Vernon's Ann. C.C.P. art. 102.175, as a fund in the municipal court treasury. The fund consists of money allocated to the fund under V.T.C.A., Local Government Code, § 134.103.

(b) Money deposited in a consolidated municipal court building security and technology fund may be used only for the purposed authorized under Vernon's Ann. C.C.P. art. 102.017(b) or (c) for use of a municipal court technology fund or Vernon's Ann. C.C.P. art. 102.0172(b) for use of a municipal court technology fund.

(c) The consolidated municipal court building security and technology fund shall be administered by or under the direction of the city council.

~~Sec. 7.02.001. Municipal court technology fund.~~

~~(a) The city has established a municipal court technology fund pursuant to Vernon's Ann. C.C.P. art. 102.0172. The fund may be maintained in an interest-bearing account and may be maintained in the general revenue account. The fund shall be administered by or under the direction of the city council.~~

~~(b) The city imposes a fee of $4.00 to be assessed and collected from defendants upon conviction for a misdemeanor offense in the municipal court as a cost of court. A defendant is considered convicted if a sentence is imposed on the defendant, or if the defendant is placed on community supervision (including deferred adjudication community supervision), or if the court defers final disposition on the defendant's case.~~

~~(c) The clerk of the court shall collect the fee and pay the fee to the treasurer of the city, who shall deposit the fee into the municipal court technology fund.~~

~~(d) The fund shall be used only to finance the purchase of technological enhancements for the municipal court of the city including:~~

~~(1) Computer systems, networks, hardware, and software;~~
~~(2) Imaging systems;~~
~~(3) Electronic kiosks;~~
~~(4) Electronic ticket writers; or~~
~~(5) Docket management systems.~~

~~(Code 1996, §§ 7.02.001—7.02.003)~~

~~**Sec. 7.03.001. Municipal court building security fund.**~~

~~(a) There is hereby established a municipal court building security fund to be used only to finance the following items when used for the purpose of providing security services for buildings housing a~~

---

[81] **Sec. #. Consolidated municipal court building security and technology fund.** See Vernon's Ann. C.C.P. art.102.0175 effective May 29, 2025. The city may wish to adopt this new provision by ordinance rather than by recodification inclusion.

~~(b) A defendant convicted in a trial for a misdemeanor offense in the municipal court of the city shall pay a $3.00 security fee as costs of court. A person is considered convicted if:~~

~~(1) A sentence is imposed on the person;~~
~~(2) The person receives community supervision, including deferred adjudication; or~~
~~(3) The court defers final disposition of the person's case.~~

~~(c) The clerk of the municipal court shall collect the costs and pay them to the municipal treasurer for deposit in a fund to be known as the municipal court security fund.~~
~~(Code 1996, § 7.03.001)~~

Unedited First Draft

Chapter 22

OFFENSES AND NUISANCES

ARTICLE I. IN GENERAL

Sec. 8.01.001. Certain misdemeanors under state law constitute city offenses.

All misdemeanors named in the penal code and civil statutes of the state for which the municipal court has jurisdiction are declared to be offenses against the city, and the fines and penalties and other punishments shall be the same as is prescribed in the penal code and civil statutes.
(Code 1996, § 8.01.001)

Sec. 1.13 Warrant issuance fee.

A fee, as provided for in the city fee schedule ~~found in appendix A of this code,~~ shall be collected for the issuance and service or attempted service of all warrants.
(Code 1996, Art. 1.13)

Sec. 8.01.002. Loitering restricted.

(a) It is unlawful for any person to loiter within the city between the hours of 2:00 a.m. and 6:00 a.m. of any day and for any person under the age of 18 to loiter within the city between the hours of 12:01 a.m. and 6:00 a.m. of any day.

(b) The term “loiter” as used in this section includes any of the following activities:

(1) Lingering in the streets, sidewalks, parking lots, or vicinity of a business, in which the person has no ownership or employment interest, either within or outside of a vehicle, when the premises are not open for business to the public without permission of the owner.

(2) Failure to leave private property when requested to do so by the owner, manager, proprietor, or lessee of such property.

(3) Walking, standing, driving a vehicle, or parking a vehicle in the city under circumstances that show no apparent business or employment-related need for such activity.

(4) Lingering in the streets, sidewalks, or vicinity of a residence, either within or outside of a vehicle, without the permission of the owner or tenant of the residence.

(c) The following activities shall not be considered “loitering” and shall be exempt from the provisions of this division:

(1) A person shall not be considered loitering while in direct route, and not lingering, to or from work or to or from a place of residence.

(2) A person shall not be considered loitering while engaged in the repair of a disabled vehicle.

(3) A person under the age of 18 shall not be considered loitering while engaged in or in direct route to school, church, or entertainment activities with permission of his or her parent or guardian.

Unedited First Draft

(4) A person shall not be considered loitering while sleeping in a vehicle, provided the vehicle is parked on private property with the permission of the owner or manager of the premises, or if the vehicle is parked on public property, with permission of a peace officer of the city.

(Code 1996, § 8.01.003)

Sec. 8.01.003. Unlawful consumption of alcoholic beverages in public places.

It is unlawful for any person to consume, drink, or possess an open container of an alcoholic beverage in any public place in the city, other than the following:

(1) A premises operated by a person possessing a private club registration permit from the state alcoholic beverage commission, issued for such premises; or

(2) A special event being held in city recreational facility, meeting room in a city building, or other city facility pursuant to a special event alcoholic beverage permit approved by the city manager or his/her designee.

(Code 1996, § 8.01.003; Ord. No. O-20-22, § 2, 1/3/2023)

Sec. 8.04.001. Unlawful discharge of firearms within city limits.

It is unlawful to discharge within the corporate limits of the city any firearm, air gun, BB gun, pellet gun, or any other mechanism projecting lead or other missiles. This section shall not be construed to prohibit the following:

(1) Any officer of the law from discharging a firearm in the lawful performance of his duty.

(2) Any citizen from discharging a firearm when lawfully defending person or property.

(3) The use of workers in the construction business of any mechanism designed to propel nails, bolts, screws, rivets, or other fasteners, so long as such mechanism is being used in the manner in which it was intended.

(4) The discharge of “blanks” during official celebrations, athletic events, etc., when written permission is received from the police chief, or his designee.

(5) The operation of any commercial shooting range otherwise lawfully operating under all other applicable laws and ordinances.

(Code 1996, §§ 8.04.001, 8.04.002)

Sec. 12.10.003. Obstructing public ways.

It is unlawful for any person to place, leave standing, or store any property, structure or any obstruction in or on any public street, alley, sidewalk, public right-of-way or other public property of the city for a time period of more than 24 hours, and such is declared a public nuisance.

(Code 1996, § 12.10.003; Ord. No. 748-03, 4/7/03 ; Ordinance O-12-10, sec. 3, 6/21/10)

ARTICLE II. NUISANCES

DIVISION 1. GENERALLY

Unedited First Draft

Sec. 8.01.004. General nuisances.

(a) Any act, condition or thing existing, or in being within the city which endangers the public peace, property, health and safety of the citizens of the city is hereby declared to be a public nuisance and shall be abated as provided in this Code.

(b) When the city council shall have legally declared any thing, act, or commission to be a nuisance and through the police chief instructed the party guilty of maintaining or creating such nuisance to abate or remove the same within a designated or reasonable time, and notice of the action shall have been served upon the party to be so charged, and he shall fail to obey the same within the time so reasonably designated, he shall be deemed guilty of a misdemeanor, which, upon conviction therefor, shall be punishable by fine as provided for in the general penalty provision found in section 1.01.009 of this code. Every day for the existence of such public nuisance shall be and constitute a separate and distinct offense and shall be punishable as herein provided.

(c) When any nuisance has been declared to exist, and the city council has ordered the same to be abated, corrected, or removed, and the author of such nuisance shall fail or refuse to obey such order, the city manager shall direct the police chief to abate the same, who shall proceed at once to carry out such order, calling such assistance as he deems necessary, and all costs accruing therein shall be taxed against the author of such nuisance and collected as other costs.

(d) No act, condition, or thing may be abated as a public nuisance, nor may any person be prosecuted for doing, maintaining, or permitting any such act, condition, or thing as a public nuisance, unless and until same shall have been by ordinance of the city council declared to be a public nuisance, and until such person or persons so doing, making, or permitting such act, condition, or thing shall be notified in writing to cease, remove, or abate same, and a reasonable time, not to exceed five days, shall have been allowed within which same shall have not ceased, been removed, or abated.

(e) Without limiting the power of the city council to declare as public nuisances any other act, condition, or thing, as herein provided, the following specific acts, conditions, and things are, each and all of them, hereby declared to be and constitute public nuisances:

(1) Spitting upon any sidewalk or upon the floor or wall of any public building, or upon any streetcar, bus, automobile, or person.

(2) The accumulation of water in which mosquito larvae breed.

(3) The accumulation of scrap iron and metal, inoperative automobiles, worn out household appliances, scrap wood, and abandoned and decaying structures where rats, mice, rodents, snakes, and wild or abandoned animals may be concealed.

(4) The maintenance of any but sanitary toilets, and these only in compliance with the public health laws, ordinances and regulations of the state, county and city.

(5) The disposal or accumulation of any vile, decaying, or putrescent substance or other offensive material dangerous to public health, in or upon any lot, street or highway, or the escape of any gases or odors to such an extent that the same or any of them shall by reason of such offensive odors become a source of discomfort to persons living or passing in the vicinity.

Unedited First Draft

(6) The deposit or accumulation of manure or other noxious fertilizer, unless it be in fly-proof receptacles.

(7) The presence of polluted water in a well, cistern, spring, or other source of water supply, when the water therefrom is used for human consumption.

(8) The deposit of garbage in any but fly-proof, watertight receptacles.

(9) Growth of weeds or grass where mosquitoes may harbor or rubbish be concealed.

(10) The congregating and living together of persons of either sex in any house or tenement in this city, in such numbers and under such circumstances as to endanger the health of the city, or to create contaminating diseases therein, as declared by the health officer of the city, or, in his absence, of the County of Dallas.

(11) The keeping or allowing to be kept in any pen, place, or premises within the city, of any animal or animals, in such manner as to be dangerous, offensive, or an annoyance to any other person whatsoever.

(12) The keeping of any hogs or pigs within the city.

(13) Trespassing upon public or private property; or the throwing, or causing to be thrown, of garbage or refuse or any noxious, offensive, or dangerous substance upon any property in the city; or the unlawful interference in any way with the person or property of others.

(Code 1996, § 8.01.004)

DIVISION 2. NUISANCE PROPERTY CONDITIONS

Sec. 6.02.001. Definitions.[82]

The following words, terms and phrases, when used in this chapter, shall have the meanings ascribed to them in this section, except where the context clearly indicates a different meaning:

Brush. Shrub vegetation or dense undergrowth.

Carrion. The dead and putrefying flesh of any animal, fowl or fish.

~~City. The City of Glenn Heights, Texas, or its agents.~~

Code enforcement official. A city employee or person or entity acting under a contract with the city, authorized to enforce the provisions of this division and city ordinances, including yet not limited to the building official, inspector, code enforcement officer or his/her designee.

Dump. To dispose, discharge, place, deposit, throw, leave, sweep, scatter, unload or toss. Filth. Any matter in a putrescent state.

---

[82] **Sec. 6.02.001. Definitions.** A standardized introduction is substituted for consistency and definitions duplicative of chapter 1 are stricken as shown.

Unedited First Draft

Garbage. Any kitchen refuse, foodstuffs or related material, including all decayable waste.

Impure or unwholesome matter. Any putrescible or nonputrescible condition, object or matter that may, could or tends to cause injury, death or disease to human beings.

Junk. All worn-out, worthless or discarded material, including yet not limited to any of the following materials, or parts of said materials or any combination thereof: new or used iron, steel or nonferrous metallic scrap, brass or waste materials; used or inoperative household appliances, household electrical or plumbing fixtures, floor coverings or window coverings not currently in use; used lumber, brick, cement block, wire, tubing and pipe, tubs, drums, barrels or roofing material not currently in use; air-conditioning and heating equipment not currently in use; used vehicle components and parts not currently in use; used furniture other than that designed for outdoor use or what would normally be considered as antique furniture, used or inoperative residential lawn care equipment and machinery not currently in use; used pallets, windows or doors not currently in use; new or used sheet metal, structural steel or chain not currently in use; used or inoperable vending machines, radios or televisions not currently in use; and, any other type of used or inoperable machinery or equipment not currently in use.

Matter. That of which any physical object is composed.

Nuisance. Any condition, object, material or matter that is dangerous or detrimental to human life or health; or that renders the ground, the water, the air or food a hazard or likely to cause injury to human life or health; or that is offensive to the senses; or that threatens to become detrimental to the public health; and shall include but not be limited to: any abandoned or uncovered (including unsecured covered) wells, shafts or basements, abandoned refrigerators, stagnant or unwholesome water, sinks, privies, filth, carrion, rubbish, junk, trash, debris or refuse, impure or unwholesome matter of any kind, and any objectionable, unsightly, or unsanitary matter of whatever nature.

Objectionable, unsightly or unsanitary matter. Any matter, condition or object that is objectionable, unsightly or unsanitary to a person of ordinary sensitivities.

Owner. Any person or entity shown as the property owner on the latest property tax assessment rolls or any person having or claiming to have any legal or equitable interest in the property, including any agent who is responsible for managing, leasing or operating the property; provided, however, an individual who is an employee of the owner or management company is not personally liable for criminal or civil penalties if the individual provides the property owner's name, street address and telephone number to the code enforcement official, if the violation relates to a certificate of occupancy or certificate of completion relative to the construction of improvements on the property yet not as to violations in construction or development of the property, consistent with state law as it exists and as it may be amended.

~~Person. Any individual, firm, partnership, association, business, corporation or other entity.~~

Property. All privately owned, occupied or unoccupied property, including vacant land or a building designed or used for residential, commercial, business, industrial or religious purposes. The term shall also include a yard, ground, wall, driveway, fence, porch, steps or other structure appurtenant to the property.

Putrescible. The decomposition of organic matter with the formation of foul-smelling,

Unedited First Draft

incompletely oxidized products.

Refuse. Heterogeneous accumulation of worn-out, used, broken, rejected or worthless materials, including yet not limited to garbage, rubbish, paper or litter and other decayable or nondecayable matter.

Rubbish. Junk, trash, debris, rubble, stone, useless fragments of building materials, and other miscellaneous, useless waste or rejected matter.

Trash and debris. All manner of refuse, including yet not limited to: mounds of dirt, piles of leaves, grass and weed clippings, paper trash, useless fragments of building materials, rubble, furniture other than furniture designed for outside use, useless household items and appliances, items of salvage, such as scrap metal and wood, old barrels, old tires, objects that hold water for an extended period of time, tree and brush trimmings, dead standing or fallen trees and other miscellaneous wastes or rejected matter.

Urban nuisance. Any condition that exists and because of violations of this division, is in a state of disrepair, such that it could reasonably cause injury, damage, harm or inconvenience to a considerable portion of the community and the use and enjoyment of property, materially interfering with the property [proper] use or comfort and enjoyment of surrounding property, taking into consideration the nature and use of the properties in the area and the character of the community in which they are situated, which condition would be substantially offensive and annoying to persons of ordinary sensibilities, taste and habits in the community. Such urban nuisance includes yet is not limited to:

(1) Fences that are leaning, falling down, missing boards or otherwise deteriorated;

(2) Motor vehicles, or parts thereof, that do not qualify as junked vehicles as defined by city ordinances and state statutes but that are wrecked, dismantled or partially dismantled, on blocks, stands, trailers, under tarps or other similar covering.

Vegetative growth. Any grass, weeds, shrubs, trees, brush, bushes or vines.

Weeds. Any vegetation that because of its height is objectionable, unsightly or unsanitary, excluding: shrubs, bushes, trees, cultivated flowers and cultivated crops.

(Code 1996, § 6.02.001; Ord. No. O-05-08, 2/4/08 ; Ord. No. O-09-10, 6/21/10)

Sec. 6.02.002. Prohibited nuisance conditions.[83]

(a) It is unlawful and declared a nuisance for any person owning, claiming, occupying or having supervision or control of any real property, occupied or unoccupied, within the territorial limits of the city, to knowingly or intentionally permit or allow any stagnant or unwholesome water, sinks, refuse, filth, carrion, weeds, rubbish, brush, refuse, trash, debris, junk, garbage, impure or unwholesome matter of any kind, or other objectionable or unsightly matter of whatever nature, to accumulate or remain upon any such real property or within any public easement on or across such real property or upon any adjacent public street or alley right-of-way between the property line of such real property and where the paved

[83] **Sec. 6.02.002. Prohibited nuisance conditions.** A reference to the weed and grass restriction is added for clarity.

Unedited First Draft

surface of the street or alley begins.

(b) It is unlawful and declared a nuisance for any person to knowingly or intentionally dump, or permit to be dumped, upon or along any drain, gutter, alley, sidewalk, street, park, right-of-way or vacant lot into or adjacent to water, or any other public or private property within the territorial limits of the city, any unwholesome water, refuse, rubbish, trash, debris, filth, carrion, weeds, brush, junk, garbage, impure or unwholesome matter of any kind, or other objectionable or unsightly matter of any kind.

(c) It is unlawful and declared a nuisance for any person owing, claiming or occupying or having supervision or control of any real property, occupied or unoccupied, within the territorial limits of the city, to knowingly or intentionally permit or allow an urban nuisance to exist on any residentially zoned property, or on property that abuts a residential use. It shall be an affirmative defense that:

(1) A permit was issued for the repair of the fence and such repair work is being diligently performed within the time frames authorized under the permit;

(2) The urban nuisance has existed on the property for less than 30 days and the person has documented proof of anticipated date of removal;

(3) The urban nuisance is completely contained on an improved surface, fully screened from public view behind a fence or within a structure.

(d) Weeds and brush in violation of section 6.02.003.
(Code 1996, § 6.02.001; Ord. No. O-05-08, 2/4/08 ; Ord. No. O-09-10, 6/21/10)

Sec. 6.02.003. Weeds and brush over ten inches in height prohibited.

(a) It is unlawful for any person owning, claiming, occupying or having supervision or control of any real property, occupied or unoccupied, within the territorial limits of the city to knowingly or intentionally permit weeds, brush or any objectionable or unsightly matter to grow to a height greater than ten inches upon such real property within 200 feet of any property line that abuts street rights-of-way, alleys, utility easements, subdivided additions, developed property or any buildings or other structures.

(b) It shall be the duty of such person to keep the area from the line of his property to the curbline next adjacent to it, if there is a curbline, and, if not, then to the centerline of the adjacent unpaved street, or to the edge of the pavement, cleared of the matter referred to above.

(c) All vegetation (including hay unless the hay is cultivated on property that has been granted an agricultural property tax exemption on the most recent tax roll as certified by the county appraisal district in the county in which the property is located), except regularly cultivated row crops, that exceeds ten inches in height shall be presumed to be objectionable and unsightly matter; provided further that regularly cultivated row crops shall not be allowed to grow within the right-of-way of any public street or easement nor shall such crops be allowed to obstruct the necessary view to and from adjacent rights-of-way, but shall be kept mowed as provided herein.

(d) With respect to lots, tracts or parcels of land of five or more acres, the provisions of this section shall not apply to any area situated more than 200 feet from any open public street or thoroughfare, as measured from the right-of-way line of said street or thoroughfare, and situated more than 200 feet from any adjacent property under different ownership and on which any building is located or on which any improvement exists, as measured from the property line.

Unedited First Draft

(Code 1996, § 6.02.003; Ord. No. O-05-08, 2/4/08 ; Ord. No. O-09-10, 6/21/10)

Sec. 6.02.004. Inspections.

For purposes of ascertaining whether violations of this division exist, the code enforcement official is authorized to inspect the exterior of a structure and premises that contain no structure. If entry onto the property is refused, the code enforcement official shall have every recourse provided by law, including yet not limited to an administrative search warrant or an injunction to secure entry. If the owner, occupant, or person in control cannot be identified or located, the code enforcement official shall be authorized to enter the property to the extent allowed by, and in accordance with, law.
(Code 1996, § 6.02.004; Ord. No. O-05-08, 2/4/08 ; Ord. No. O-09-10, 6/21/10)

Sec. 6.02.005. Duty of owner or occupant to prevent nuisance conditions.

It shall be the duty of any person owning, claiming, occupying or having supervision or control of any real property, occupied or unoccupied to:

(1) Remove, drain or fill all prohibited matter or conditions and to cut and remove all weeds, brush, vegetative growth, and other objectionable or unsightly matter as often as may be necessary to comply with sections 6.02.002 and 6.02.003 and to use every precaution to prevent the same from occurring or growing on such property.

(2) Maintain the exterior of all structures, such as fences, in good repair, structurally sound and sanitary, so as not to pose a threat to the public health, safety and welfare.

(3) Maintain all exterior property and premises in a clean, safe and sanitary condition.

(4) Keep the sidewalks in front of their property free and clear of all such matter, and to fill up, drain or regrade any lots, ground or yards that have stagnant water thereon, and to cleanse and disinfect any house, building, establishment, lot, yard or ground from refuse, rubbish, trash, filth, carrion, or objectionable, unsightly or unsanitary matter of any kind, or other impure or unwholesome matter of any kind.
(Code 1996, § 6.02.005; Ord. No. O-05-08, 2/4/08 ; Ord. No. O-09-10, 6/21/10)

Sec. 6.02.006. Notice of violation and to abate; failure to comply; abatement by city.

(a) If a violating the terms of this division fails or refuses to comply with the demand for compliance contained in the aforementioned notice within seven days after the date of notification as provided herein, the city shall have the authority as provided by law to enter upon such property and do or cause to be done the work necessary to obtain compliance with this division. All reasonable costs, charges and expenses incurred in doing or in having such work done shall be a charge to, and be a personal liability of, such person.

(b) It shall be the duty of the police chief or his/her duly appointed representative to give a minimum of seven days' official notice in writing to such person violating the terms of this division, subject to the provisions herein stated. The notice shall be in writing and may be served on such person violating the terms of this division:

(1) By delivering it to him or her in person; or

Unedited First Draft

(2) By letter or written notice addressed to such person at the person's address as recorded in the appraisal district in which the property is located and delivered by United States certified mail, return receipt requested, with a second copy by United States regular mail; or

(3) Unless required otherwise by state law, by letter or written notice addressed to such person at the person's address as recorded in the appraisal district in which the property is located and delivered by United States regular mail along with posting the notice on or near the front door of each building on the property to which the violation relates; or

(4) Or, if personal service cannot be obtained:

(A) By publication at least once within seven consecutive days in the city's official newspaper; or

(B) By posting the notice on or near the front door of each building on the property to which the violation relates; or

(C) By posting the notice on a placard attached to a stake driven into the ground on the property to which the violation relates, if the property contains no buildings.

(c) If the city mails a notice to the property owner in accordance with subsection (b) herein and the United States Postal Service returns the notice as "refused" or "unclaimed," the validity of the notice is not affected and the notice shall be considered as delivered.

(d) The city, in the notice provided herein, may inform the owner by certified mail, return receipt requested, or regular mail and a posting on the property, or by personally delivering the notice, that if the owner commits another violation of the same kind or nature that poses a danger to the public health and safety on or before the first anniversary of the date of such notice, the city, without further notice, may correct the violation at the owner's expense and assess the expense against the property. If the violation covered by a notice under this subsection occurs within said one-year period, and the city has not been informed in writing by the owner of an ownership change, then the city, without notice, may take any action permitted by subsection (a) herein, and assess its reasonable expenses incurred as provided by section 6.02.008, below.
(Code 1996, § 6.02.006; Ord. No. O-05-08, 2/4/08 ; Ord. No. O-09-10, 6/21/10)

Sec. 6.02.007. Additional authority to abate nuisance.

(a) The city may abate, without notice, weeds that have grown higher than 48 inches and are an immediate danger to health, life or safety of any person.

(b) Not later than the tenth day after the date the city abates weeds under this section, the city shall give notice to the property owner in the manner required by section 6.02.006, herein. The notice shall contain:

(1) An identification, which is not required to be a legal description, of the property;

(2) A description of the violations that occurred on the property;

(3) A statement that the city abated the weeds; and

(4) An explanation of the property owner's right to request an administrative hearing about the city's

Unedited First Draft

abatement of the weeds.

(c) The city shall conduct an administrative hearing before the city council on the abatement of weeds under this section if, not later than the 30th day after the date of the abatement of the weeds, the property owner files with the city a written request for a hearing. An administrative hearing conducted under this section shall be conducted not later than the 20th day after the date a request for a hearing is filed. The owner may testify or present any witnesses or written information relating to the city's abatement of the weeds.

(d) The city may assess reasonable expenses and create liens under this section as it assesses expenses and creates liens under section 6.02.008. A lien created under this section is subject to the same conditions as a lien created under section 6.02.008. The authority granted the city by this section is in addition to the authority granted by section 6.02.008.
(Code 1996, § 6.02.007; Ord. No. O-05-08, 2/4/08)

Sec. 6.02.008. Expenses incurred by city; lien.

(a) If a notice as provided for herein is delivered to the owner of such real property, and he or she fails or refuses to comply with such demand for compliance within the seven day time period established herein, the aforementioned charges shall be, in addition to a charge to and personal liability of said owner, a privileged lien upon and against such real property, including all fixtures and improvements thereon. In order to perfect such lien, the code enforcement official first shall give such owner written notice of demand for payment of such charges. Such written notice may be given by any one of the methods provided for herein for the giving of the initial notice demanding compliance with the terms of this division.

(b) If such owner fails or refuses to make complete payment of said charges within 30 days of his or her receipt of said notice, the city manager, or designated authorized representative, such as the code enforcement official, shall file a written statement of such charges with the county clerk for filing in the county land and deed records where the property is located. Said statement shall be deemed sufficient if it contains the following minimum information; however, it may also contain such other additional information deemed appropriate by the city manager, the code enforcement official or duly appointed representative:

(1) The name of the owner of the real property, if known;

(2) A legal description of the real property;

(3) A statement of the charges incurred by the city in doing or in having such work done as necessary to bring the real property into compliance with this division; and

(4) A notarized affidavit executed by the code enforcement official stating that all prerequisites required by this division for the imposition of the charges and the affixing of the lien have been met and that all statements or representatives [representations] made therein are true and correct.

(c) All such charges shall bear interest at the rate of ten percent per annum from the date of payment by the city. The lien obtained is security for the expenditures made and is inferior only to tax liens and liens for street improvements. The city may bring suit to collect the charges, institute foreclosure proceedings, or both. The written statement of such charges provided for herein, or a certified copy thereof, shall be prima facie evidence of the city's claim for charges or right to foreclose the lien. The

Unedited First Draft

owner of the real property or any other persons claiming, occupying or having supervision or control of the real property shall be jointly and severally liable for such charges.

(d) The remedy is in addition to any penal provision provided herein.
(Code 1996, § 6.02.008; Ord. No. O-05-08, 2/4/08)

Sec. 6.02.009. Enforcement.

The provisions of this division shall be enforced by the code enforcement official and it is unlawful for any person to interfere with or hinder the code enforcement official in the exercise of their duties under this division. Notwithstanding any provisions contained herein to the contrary, the code enforcement officials are hereby granted the authority to issue immediate citations to persons violating any provision of this division in their presence.
(Code 1996, § 6.02.009; Ord. No. O-05-08, 2/4/08)

Sec. 6.02.010. Penalty.

(a) Any person violating or failing to comply with any provision or requirement of this division, who continues to violate or fail to comply with same within seven days after notice is given and received as set forth in section 6.02.006, shall also be deemed guilty of a misdemeanor and, upon conviction thereof, shall be fined in an amount not to exceed $2,000.00, such offense being a violation of the health and safety ordinances of the city. A separate offense shall be deemed committed upon each day during or on which a violation or failure to comply occurs or continues to occur. This section shall be in addition to and cumulative of the provisions for abatement of the nuisance by the city and charging the cost of same against the owner of the property.

(b) Notwithstanding the foregoing, any violation of any provision of this division that constitutes an immediate danger or threat to the health, safety and welfare of the public may be enjoined in a suit brought by the city for such purpose.

(c) In addition to any other remedies or penalties contained herein, the city may enforce the provisions of this division pursuant to the applicable provisions of V.T.C.A., Local Government Code, ch. 54.
(Code 1996, § 6.02.010; Ord. No. O-05-08, 2/4/08)

DIVISION 3. NOISE NUISANCES

Sec. 8.02.001. Purpose and enforcement.

(a) The purpose of this division is to make it unlawful for any person or entity to make, cause to be made or allow any loud or unreasonably loud and disturbing noise of such character, intensity and duration as to be detrimental or offensive to the ordinary sensibilities of the inhabitants of the city, or which renders the enjoyment of life, health and property uncomfortable or interferes with public peace and comfort.

(b) The police department, code enforcement officer, director of municipal services or their designees may enforce the provisions of this division, including yet not limited to the issuance of citations or notices of violation.
(Code 1996, § 8.02.001; Ord. No. O-859-07, 11/19/07)

Unedited First Draft

Sec. 8.02.002. Definitions.[84]

(a) The following words, terms and phrases, when used in this division, shall have the meanings ascribed to them in this section, except where the context clearly indicates a different meaning:

~~City. The City of Glenn Heights, employees or any authorized representative of the city.~~

Construction. Any site preparation, assembly, erection, substantial repair, alteration or similar action (excluding demolition) of public or private right-of-way surfaces, structures, utilities or similar property.

Demolition. Any dismantling, intentional destruction or removal of public or private right-of-way surfaces, structures, utilities or similar property.

Device. Any mechanism which is intended to produce, or which actually produces, noise when operated or handled.

Emergency vehicle. A motor vehicle used in response to a public calamity or to protect persons or property from an imminent exposure to danger.

Motor vehicle. Any vehicle propelled by mechanical power, such as, yet not limited to, any passenger car, truck, truck-trailer, semi-trailer, camper, motorcycle, mini-bike, pocket bike, go-cart, dune buggy or racing vehicle.

Noise disturbance. Any sound which annoys or disturbs, or which causes or tends to cause an adverse psychological effect upon, the sensibilities of a reasonable, prudent, adult person; any loud or disturbing noise which unreasonably disturbs or interferes with the peace, comfort and repose of persons or ordinary sensibilities.

Noise disturbance per se. A noise not requiring extraneous evidence or support to establish the existence of a noise disturbance.

Owner. Any person having supervision or control of any property.

Nonresidential district. Any district not classified by the zoning ordinance as containing residential homes, apartments or condominiums.

Power equipment. Any motorized electric or fuel powered equipment, including yet not limited to tractors, lawnmowers and other similar device or equipment.

Power motor vehicle. Any self-propelled airborne, waterborne or land-borne plane, vessel or vehicle, which is not designed to carry persons, including yet not limited to, any model airplane, boat, car or rocket.

Property. Any lot, tract, parcel of land or a portion thereof, occupied or unoccupied, improved or unimproved, public or private, within the territorial limits of the city.

---

[84] **Sec. 8.02.002. Definitions.** A standardized introduction is substituted for consistency and definitions duplicative of chapter 1 are stricken as shown.

Unedited First Draft

Property boundary. An imaginary line exterior to any enclosed structure, at the ground surface and its vertical extension, which separates the real property owned by one person from that owned by another person.

Quiet zone. Property on which a school, hospital, clinic, library or other noise disturbance sensitive facility is operated.

Residential district. Any district classified by the zoning ordinance as containing residential homes, apartments, condominiums or dwelling units.

Roadway. Any street, alley, parkway, sidewalk or gutter.

(b) All terminology used in this division, and not specifically defined above, shall retain its meaning in conformance with applicable publications of the American National Standards Institute (ANSI) or its successor body or the latest volume of Webster's Collegiate Dictionary.
(Code 1996, § 8.02.003; Ord. No. O-859-07, 11/19/07)

Sec. 8.02.003. Specific noise disturbances prohibited.

(a) *Generally.* No person shall allow, make or cause to be made any unreasonably loud or disturbing noise which is offensive to the sensibilities of a reasonable, prudent adult person, renders the enjoyment of life or property uncomfortable, interferes with public peace and comfort, or causes a noise disturbance. This prohibition includes, but is not limited to, the following sounds and activities which can create unreasonably loud or disturbing noises in violation of this division, including activities which are noise disturbances per se, unless an exemption exists or a permit of variance was first obtained as provided in section 8.03.005:

(1) Owning, keeping, possessing or harboring any animal or fowl which by frequent or habitual noise making, unreasonably disturbs or interferes with the peace, comfort or repose of citizens, or causes a noise disturbance as defined herein. The provisions of this division shall apply to all private or public facilities including any animal shelter or commercial kennel, which holds or treats animals.

(2) The using, operating or permitting to be played, used or operated any sound production or reproduction device, radio, receiving set, musical instrument, drums, phonograph, television set, loudspeaker and sound amplifiers or other machine or device for the producing or reproducing of sound within a residential or a nonresidential area in such a manner as to cause a noise disturbance.

(3) The using, operating or permitting to be played, used or operated any sound production or reproduction device, radio, receiving set, musical instrument, drums, phonograph, television set, loudspeakers and sound amplifiers or other machine or device that produces or reproduces sound for the purpose of attracting attention to any cause or demonstration, or to any performance, show, sale or display of merchandise so as to attract attention to such cause, demonstration or premises when such use is done in a manner which causes a noise disturbance.

(4) The using, operating or permitting to be played, used or operated any sound production or reproduction device, radio, receiving set, musical instrument, drums, phonograph, television

Unedited First Draft

set, loudspeakers and sound amplifiers or other machine or device on trucks or other moving vehicles for the purpose of attracting attention to any cause or demonstration, or for advertising any show, sale or display of merchandise when such use is done in a manner which causes a noise disturbance.

(b) *Motor vehicle sound devices.* It is a violation of this division to operate or control a motor vehicle in either a public or private place within the city while operating a sound device which is part of, or connected to, any radio, stereo receiver, compact disc player, cassette tape player or other similar device in the motor vehicle in such a manner that, when operated, it is audible at a distance of thirty feet (30'), or when operated, causes a person to be aware of the vibration accompanying the sound at a distance of thirty feet (30') from the source when such operation is done in a manner which causes a noise disturbance.

(c) *Peddlers, hawkers, etc.* It is a violation of this division for any peddler, hawker, or other person to yell, shout, cry, hoot, whistle or sing in such a manner to cause a noise disturbance.

(d) *Loading and unloading vehicles.* It is a violation of this division to load or unload a vehicle in such a manner as to cause a noise disturbance.

(e) *Construction/maintenance work.* The following construction and maintenance activities are violations of this division:

(1) Operating or permitting to be operated any equipment used in construction, maintenance, repair, alteration or demolition work on buildings, structures, streets, alleys, lawns, golf courses or appurtenances thereto or the erection, including excavation, demolition, alteration or repair of any building within a residential district or quiet zone, or within five hundred feet (500') of any residence or quiet zone, in such a manner as to cause a noise disturbance. Furthermore, any such activity shall create a noise disturbance per se if conducted between the hours of 9:00 p.m. and 6:00 a.m.

(2) Operating or permitting to be operated any gravel pit, rock crusher or other machinery for the separation, gathering, grading, loading or unloading of sand, rock or gravel within a residential district or quiet zone, or within five hundred feet (500') of a residence or quiet zone. Furthermore, any such activity shall create a noise disturbance per se if conducted between the hours of 9:00 p.m. and 6:00 a.m.

(3) Operating or permitting to be operated any equipment used in construction, maintenance, repair, alteration or demolition work on buildings, structures, streets, alleys, lawns, golf course or appurtenances thereto within a nonresidential district in such a manner as to cause a noise disturbance.

(4) Operating or permitting to be operated any gravel pit, rock crusher or other machinery for the separation, gathering, grading, loading or unloading of sand, rock or gravel within a nonresidential district in such a manner as to cause a noise disturbance.

(f) *Power equipment.* The following activities involving power equipment are violations of this division:

(1) Operating or permitting to be operated any power equipment (as defined herein and excluding construction equipment which is specifically regulated above) within a residential district or

Unedited First Draft

quiet zone, or within five hundred feet (500') of any residence or quiet zone, in such a manner as cause a noise disturbance. Furthermore, any such activity shall create a noise disturbance per se if conducted between the hours of 9:00 p.m. and 6:00 a.m.

(2) Operating or permitting to be operated any power equipment (as defined herein and excluding construction equipment which is specifically regulated above) within a nonresidential district in such a manner as to cause a noise disturbance.

(g) *Repairs or testing of motor vehicles.* The following activities involving the repair or testing of motor vehicles are violations of this division:

(1) The repairing, rebuilding, modifying or testing of any motor vehicle (including off-road vehicles) or watercraft within a residential district or quiet zone, or within five hundred feet (500') of any residence or quiet zone, in such a manner as to cause a noise disturbance. Furthermore, any such activity shall create a noise disturbance per se if conducted between the hours of 9:00 p.m. and 6:00 a.m.

(2) The repairing, rebuilding, modifying or testing of any motor vehicle (including off-road vehicles) or watercraft within a nonresidential district in such a manner as to cause a noise disturbance.

(h) *Use of loud and defective motor vehicles.* The following activities involving the use of loud or defective motor vehicles are violations of this division:

(1) The use of any automobile, motorcycle or other vehicle so out of repair, so modified, or so loaded, which emits or creates loud or unnecessary grating, grinding or rasping noise, the excessive spinning of tires, or the racing of a motor vehicle engine unnecessarily within a residential district or quiet zone, in such a manner as to cause a noise disturbance. Furthermore, such activity shall create a noise disturbance per se if conducted between the hours of 9:00 p.m. and 6:00 a.m.

(2) The use of any automobile, motorcycle or other vehicle so out of repair, so modified, or so loaded, which emits or creates loud or unnecessary grating, grinding or rasping noise, the excessive spinning of the tires, or the racing of a motor vehicle engine unnecessarily within a nonresidential district in such a manner as to cause a noise disturbance.

(i) *Motor vehicle exhaust discharges.* It is a violation of this division to discharge emissions into the open air from the exhaust of any motor vehicle in such a manner as to cause a noise disturbance, except as discharged through a muffler or other device which effectively and efficiently prevents loud and unusual noises and annoying smoke.

(j) *Explosive devices.* Explosive sound sources including, but not limited to, the use of fireworks, explosives, the firing of guns or other explosive devices in such a manner as to cause a noise disturbance is a violation of this division; provided, however, no such noise disturbance shall be deemed to exist when the activity is allowed or sanctioned by this Code or other lawful authority and the activity is conducted in strict accordance with such authority.

(k) *Powered model mechanical devices.* The following activities involving powered model mechanical devices are violations of this division:

Unedited First Draft

(1) The flying of model aircraft powered by internal combustion engines, whether tethered or not, or the firing or operating of model rocket vehicles or other similar noise-producing devices, within a residential district or quiet zone, or within five hundred feet (500') of any residence or quiet zone, in such a manner as to cause a noise disturbance. Furthermore, any such activity shall create a noise disturbance per se if conducted between the hours of 9:00 p.m. and 6:00 a.m.

(2) The flying of model aircraft powered by internal combustion engines, whether tethered or not, or the firing or operating of model rocket vehicles or other similar noise-producing devices within a nonresidential district in such a manner as to cause a noise disturbance.

(l) *Refuse compacting vehicles.* Operating or permitting to be operated any refuse compacting, processing or collection vehicles in any residential district or quiet zone or within 500 feet of any residence or quiet zone in such a manner as to cause a noise disturbance is a violation of this division. Furthermore, any such activity shall create a noise disturbance per se if conducted between the hours of 9:00 p.m. and 6:00 a.m. No noise disturbance shall be deemed to occur when the noise is created in the regular course of the activity for which the equipment is designed and the noise occurs for no longer than reasonably necessary to conduct the activity and the hours of operation occur between 6:01 a.m. and 8:59 p.m.

(m) *Noise in quiet zones.* It is a violation of this division to create a noise disturbance on any street adjacent to any school, hospital, clinic, library or other noise sensitive facility.

(n) *Stationary non-emergency signaling devices.* Sounding or permitting the sounding of any electronically activated or amplified signal from any stationary bell, chime, siren, whistle, or similar device, intended primarily for non-emergency purposes, from any place for more than five minutes during any consecutive 60 minute period which causes a noise disturbance is a violation of this division. Such signaling device is allowed if used as a danger signal, residential alarm or as required by law if vehicles are backing, starting or turning in such a way as to likely cause a collision.

(o) *Vibrations.* Using or causing to use any device that creates any ground vibration which is perceptible without instruments at any point on or beyond the property boundary of the source is a violation of this division.
(Code 1996, § 8.02.003; Ord. No. O-859-07, 11/19/07)

Sec. 8.02.004. Exemptions.

The following sources of potential noise disturbance shall be exempt from the regulations of this division:

(1) Safety signals, storm warning sirens or horns and the testing of such equipment, emergency vehicle sirens or horns used when responding to an emergency, and emergency pressure relief valves.

(2) Sound caused in the performance of emergency or public service work, including police, fire and public utility operations, acting in the performance of lawful duties to protect the health, safely or welfare of the community.

(3) Sounds caused by natural phenomena.

(4) Activities conducted on public parks and playgrounds which are approved, sponsored or

Unedited First Draft

sanctioned by the city. Activities conducted on public or private school grounds including, yet not limited to, school athletic and school entertainment events which are approved, sponsored or sanctioned by the school.

(Code 1996, § 8.02.004; Ord. No. O-859-07, 11/19/07)

Sec. 8.02.005. Permits for relief.

(a) The police chief, or his/her designated representative, is authorized to grant permits for relief of any provision in this division on the basis of undue hardship in cases when the sound source will be of short duration and the activity cannot be conducted in a manner as to comply with this division, additional time is necessary for the applicant to alter or modify their activity or operation to comply with this division, or no reasonable alternative is available to the applicant.

(b) An automatic variance will be granted without the payment of permit fees for the purpose of conducting parades or other public events provided that any noise disturbance created by such activity will be abated when such request is made by the police chief, or his/her designated representative.

(c) The police chief, or his/her designated representative, may prescribe any reasonable conditions or requirements deemed necessary to minimize adverse effects and may suspend any permit issued for violating any provisions prescribed in the permit of relief.

(d) A fee of $25.00 shall be charged to each applicant for processing permit applications.

(Code 1996, § 8.02.005; Ord. No. O-859-07, 11/19/07)

Sec. 8.02.006. Appeals.

(a) Any applicant who has been denied a permit or any permittee whose permit has been suspended, shall have the right to a hearing before the city manager.

(b) Request for a hearing shall be made in writing and received by the police chief, or his/her designated representative, within ten days of the date of the denial or the date of the notice of the suspension. The city manager may review the appeal at a staff level and has the authority to reject the action of his/her designated representative and order that a permit be granted or to reinstate a suspended permit. However, should the city manager uphold the denial or suspension of a permit, he/she shall, or his/her designated representative shall, schedule a hearing within 30 days of receipt of the request.

(c) The city manager shall have the authority to review all pertinent files and information regarding the applicant/permittee which are in the custody of the police chief, or his/her designated representative. Additionally, the city manager shall have the authority to accept written and verbal testimony from the police chief, his/her designated representative, any appropriate city staff member, applicant/permittee and interested citizens. The city manager shall also have the authority to place time restrictions on the testimony to be given at the hearing.

(d) The city manager shall have the authority to assess whether the police chief, or his/her designated representative, acted properly within the powers granted under this division in the denial or suspension of a permit. Upholding the action of the police chief, or his/her designated representative, shall affirm the denial or suspension. Rejection of the police chief, or his/her designated representative's action, shall automatically grant a permit or reinstate a suspended permit.

(e) No person whose permit has been denied or suspended shall create or allow the creation of the

Unedited First Draft

noise disturbance in dispute prior to a determination by the city manager.
(Code 1996, § 8.02.006; Ord. No. O-859-07, 11/19/07)

Sec. 8.02.007. Penalty.

(a) Any person violating any of the provisions of this division shall be deemed guilty of a misdemeanor, and upon conviction thereof shall be punished by a fine not to exceed five hundred dollars ($500.00). A separate offense shall be deemed committed upon each day during or on which a violation or failure to comply occurs.

(b) Notwithstanding the foregoing, in the event a citation is issued for a violation hereof and the violator commits another act on the same day in the same manner, a separate violation shall be deemed to exist for which a separate citation may issue and an enhanced penalty may be assessed not to exceed the maximum penalty ascribed herein.

(c) Allegation and evidence of a culpable mental state is not required for the proof of an offense under this division.
(Code 1996, § 8.02.007; Ord. No. O-859-07, 11/19/07)

Sec. 8.02.008. Injunctive relief and abatement authority.

In addition to and accumulative of all other penalties, the city shall have the right to seek injunctive relief for any and all violations of this division. In the case of noise disturbances created by construction activity, the city shall have the authority to issue stop work orders, or invalidate any permit issued for the activity until compliance with this division is assured.
(Code 1996, § 8.02.008; Ord. No. O-859-07, 11/19/07)

DIVISION 4. JUNKED VEHICLES

Sec. 8.03.001. Definitions.[85]

The following words, terms and phrases, when used in this division, shall have the meanings ascribed to them in this section, except where the context clearly indicates a different meaning:

Antique vehicle. A passenger car or truck that is at least 25 years old.

Inoperable. Not capable of being used or operated due to legal or mechanical incapability. Junked vehicle. A vehicle that is self-propelled and:

(1) Does not have lawfully attached to it an unexpired license plate and a valid motor vehicle inspection certificate;

(2) Is wrecked, dismantled or partially dismantled, or discarded; or

(3) Is inoperable and has remained inoperable for more than 72 consecutive hours if the vehicle is on public property or 30 consecutive days if the vehicle is on private property.

---

[85] **Sec. 8.03.001. Definitions**. A standardized introduction is substituted for consistency.

Unedited First Draft

Motor vehicle collector. A person who owns one or more antique or special interest vehicles and acquires, collects or disposes of an antique or special interest vehicle or part of an antique or special interest vehicle for personal use to restore and preserve an antique or special interest vehicle for historic interest.

Special interest vehicle. A motor vehicle or any age that has not been changed from original manufacturer's specifications and, because of its historic interest, is being preserved by a hobbyist.
(Code 1996, § 8.03.001; Ord. No. O-854-07, 9/17/07)

Sec. 8.03.002. Junked vehicles declared public nuisance.

A junked vehicle, including a part of a junked vehicle, that is visible at any time of the year from a public place or public right-of-way:

(1) Is detrimental to the safety and welfare of the public;

(2) Tends to reduce the value of private property; invites vandalism;

(3) Creates a fire hazard;

(4) Is an attractive nuisance creating a hazard to the health and safety of minors;

(5) Produces urban blight adverse to the maintenance and continuing development of municipalities; and

(6) Is a public nuisance.

(Code 1996, § 8.03.002; Ord. No. O-854-07, 9/17/07)

Sec. 8.03.003. Offenses.

A person commits an offense if the person maintains a public nuisance described by this division. An offense under this section is a misdemeanor punishable by a fine not to exceed $200.00. In addition, the court shall order abatement and removal of the nuisance on conviction.
(Code 1996, § 8.03.003; Ord. No. O-854-07, 9/17/07)

Sec. 8.03.004. Abatement procedure and effect.

(a) *Authority; administration.* The city may remove from private or public property or a public right-of-way a junked vehicle or part of a junked vehicle that constitutes a public nuisance as provided in this division. The city police chief or his designee shall administer and enforce this division, provided that any designee must be a regularly salaried, full-time employee of the city.

(b) *Right of entry.* The police chief or his designee may enter private property to examine a public nuisance, to obtain information to identify the nuisance and to remove or direct the removal of the nuisance, consistent with state and federal law.

(c) *Relocating vehicles does not abate nuisance.* The removal of a junked vehicle that is a public nuisance to another location in the city after a proceeding for the abatement and removal of a junked vehicle has commenced has no effect on the proceeding if the junked vehicle constitutes a public nuisance at the new location.

Unedited First Draft

(d) *Service of notice of violation.* Notice of the nature of the nuisance must be personally delivered, sent by certified mail with a five-day return requested, or delivered by the United States Postal Service with signature confirmation service to the last known registered owner of the nuisance, each lienholder of record, and the owner or occupant of the property on which the nuisance is located or, if the nuisance is located on a public right-of-way, the property adjacent to the right-of-way.

(1) If the post office address of the last known registered owner of the nuisance is unknown, notice may be placed on the nuisance or, if the owner is located, hand delivered.

(2) If notice is returned undelivered, action to abate the nuisance shall be continued to a date not earlier than the 11th day after the date of the return.

(3) If the city mails a notice to the property owner in accordance with this subsection and the United States Postal Service returns the notice as “refused” or “unclaimed,” the validity of the notice is not affected and the notice is considered as delivered.

(e) *Content of notice.* The notice of violation must state that the nuisance must be abated and removed not later than the 10th day after the date of the notice and a request for a hearing must be made before the 10-day period expires (which shall also be the date by which the nuisance must be abated and removed).

(f) *No notice required if citation is issued.* No notice is required for issuance of a citation for an offense under this division.

(g) *Hearing.* The municipal court shall have full authority to enforce the abatement procedures including, but not limited to, issuing all necessary orders. The municipal court judge shall conduct hearings relative to the abatement of junked vehicles, subject to the following:

(1) A public hearing must be conducted prior to the removal of the public nuisance not earlier than the 11th day after the date of service of notice.

(2) If a hearing is requested by a person for whom notice is required under subsection (b)(1)(C) herein, by no later than the date by which the nuisance must be abated and removed, the hearing shall be held not earlier than the 11th day after the date of the service of notice.

(3) At the hearing, the junked motor vehicle is presumed, unless demonstrated otherwise by the owner, to be inoperable.

(4) If the information is available a resolution or order requiring removal of the nuisance must include the vehicle description, identification (VIN) number, and license plate number.

(h) *Reconstruction prohibited.* As part of the order authorizing removal or abatement of the public nuisance, the court shall prohibit a vehicle from being reconstructed or made operable after removal and require that notice identifying the vehicle or part of the vehicle be given to the department of public safety not later than the fifth day after the date of removal.

(i) *Cancellation of certificate of title.* On receipt of notice of removal, the department shall immediately cancel the certificate of title issued for the vehicle.

(j) *Exceptions.* The procedure provided in this section shall not apply to a vehicle or vehicle part

Unedited First Draft

that:

(1) Is completely enclosed in a building in a lawful manner and is not visible from the street or other public or private property; or

(2) Is stored or parked in a lawful manner on private property in connection with the business of a licensed vehicle dealer or junkyard; or

(3) Is an antique or special interest vehicle stored by a motor vehicle collector on the collector's property, if the vehicle or part thereof, and the outdoor storage area, if any:

a. Is maintained in an orderly manner;

b. Does not constitute a health hazard; and

c. Is screened from ordinary public view by appropriate means, including a fence, rapidly growing trees, or shrubbery. A vehicle or part thereof, covered by a tarp, car blanket, or similar covering does not meet the requisite screening requirements of this division.

(k) *Ordinance public view defined.* For purposes of this section, "ordinary public view" means the view from private or public property, or public right-of-way from average grade of the surrounding property.

(Code 1996, §§ 8.03.004, 8.03.005; Ord. No. O-854-07, 9/17/07)

DIVISION 5. GRAFFITI

Sec. 8.08.001. Definitions.[86]

The following words, terms and phrases, when used in this division, shall have the meanings ascribed to them in this section, except where the context clearly indicates a different meaning:

Graffiti means any marking, including, but not limited to, any inscription, slogan, drawing, design, painting, symbol, logo, name, character, or figure, that is scratched, painted, sprayed, or placed on any surface of public or private buildings, structures or other facility or upon any other property regardless of the nature of the material of the structured component of property.

Graffiti implement means any spray paint container, liquid paint in cans or other containers, graffiti stick, paint stick, or etching tool capable of scarring or otherwise defacing glass, metal, concrete or wood.

Guardian means a person who under court order is the guardian of the minor or a public or private agency with whom a minor has been placed by a court.

Minor means any person under 18 years of age.

---

[86] **Sec. 8.08.001. Definitions.** A standardized introduction is substituted for consistency and definitions from throughout the division are combined in this section and duplication eliminated.

Unedited First Draft

Owner means any person with the legal right of possession to tangible property.

Paint stick or *graffiti stick* means any device containing a solid form of paint, chalk, wax or other similar substance capable of being applied to a surface by pressure and upon application, leaving a visible mark that is not water soluble.

Parent means a person who is the natural parent, adoptive parent, or stepparent of another person.

Spray paint means any pressurized spray cans containing paint, including but not limited to a clear or pigmented lacquer finish.

(Code 1996, § 8.08.001)

Sec. 8.08.001. Duty of property owner to remove.[87]

(a) An owner of property in the city commits an offense if he/she fails to remove all graffiti from the property that is visible from any public property or right-of-way, or from any private property other than the property on which the graffiti exists~~, unless the graffiti was created on the property with the owner's consent and it does not violate any applicable city ordinance or state or federal law~~.

(b) Before issuing a citation for violation under this section, the police chief or the city's code enforcement officer shall serve the property owner where the graffiti is located with written notice to remove the graffiti within 21 calendar days from the date the notice is served.

(c) The notice may be served by handing it to the owner in person, or by United States certified mail, five-day return receipt requested, addressed to the owner at the owner's post office address as shown on the tax rolls of the city or of the county where the property is located. If the owner cannot be found and the notice is returned by the United States Postal Service, then the owner may be notified by:

(1) Publication two times, within ten consecutive days in the official newspaper adopted by the city council;

(2) Posting the notice on or near the front door of each building on the property to which the violation relates; or

(3) Posting the notice on a placard attached to a stake driven into the ground on the property to which the violation relates, if the property contains no buildings.

(d) The 21 calendar day period referred to in this section will be counted:

(1) From the date the notice is personally served on the owner or from the sixth day after the notice is placed in the United States certified mail; or

(2) If the owner cannot be found or the notice is returned by the United States Postal Service, from the date the notice is published for the second time in accordance with subsection (c)(1) of this section or posted in accordance with subsection (c)(2) or (3) of this section.

---

[87] **Sec. 8.08.001. Duty of property owner to remove.** Duplicative defense is stricken as shown.

Unedited First Draft

(e) If, after the expiration of the 21-day notice the graffiti is not removed, the police chief or the code enforcement officer shall remove or cause to be removed all the graffiti by any means deemed sufficient by the officials. All costs of the abatement of the graffiti shall be charged to the property owner. Recovery of the expenses will be done in accordance with any and all state and federal regulations or laws. (Code 1996, § 8.08.001)

Sec. 8.08.002. Responsibility of parent or guardian for graffiti created by a minor.

A parent or guardian of a minor commits an offense if he/she intentionally, knowingly or recklessly permits, or by insufficient control, allows the minor to create graffiti on tangible property in the city without the property owner's consent. It is a defense to prosecution under this section if the minor has been emancipated from parental control as mandated by state or federal regulations or laws. (Code 1996, § 8.08.003)

Sec. 8.08.003. Graffiti implement related violations.

(a) *Possession by a minor.* It is unlawful for a minor to be in possession of any sort of graffiti implement unless the minor is accompanied by a parent or guardian, or a teacher in connection with a bona fide school project, or a supervisor during the minor's regular employment. It is a defense to prosecution under this subsection if the minor's possession was in connection with an event sponsored by the city or a church or some other officially recognized entity and with the express permission of the property's owner or owner's agent. It is also a defense to prosecution under this subsection if the minor has been emancipated from parental control as mandated by state or federal regulations or laws.

(b) *Possession by persons other than minors.* It is unlawful for any person to have in his or her possession any graffiti implement on private property not open to the public, for the purpose of defacing property. The graffiti implement shall be presumed to be for the purpose of defacing property if it is in the holder's possession while the holder is on private property closed to the public, without permission from either the owner or the owner's lawful agent.

(c) *Possession in certain public places.* It is unlawful for any person to have in his or her possession any graffiti implement in city hall or in a public park, public swimming pool, other public recreational facility, or other public ground of the city when the facility is closed to the public. With regard to prosecution of minors for violation of this subsection, it is a defense to such prosecution that the minor's possession was in connection with an event sponsored or supervised by the city.

(d) *Permitting minor to be in unlawful possession in designated public places.* It is unlawful for the parent or guardian of a minor to intentionally, knowingly or recklessly, or by insufficient control permit a minor to be in possession of any graffiti implement in city hall or in a public park, public swimming pool, other public recreational facility, or other public ground of the city when the facility is closed to the public.

(e) *Sale of implement to minor*. It is unlawful for any person to sell or otherwise transfer any spray paint, graffiti stick, paint stick or any other graffiti implement to a minor unless, at the time of purchase or transfer, the minor is accompanied by a parent or guardian, or a teacher in connection with a bona fide school project, or a supervisor during the minor's regular employment. It is a defense to prosecution under this subsection if the minor has been emancipated from parental control as mandated by state or federal regulations or laws.

(f) *Presenting false evidence of age.* It is unlawful for any minor to furnish fraudulent evidence of

Unedited First Draft

majority to purchase or obtain any spray paint container, graffiti stick, paint stick, or any other graffiti implement.
(Code 1996, § 8.08.003)

Sec. #. Other defenses.

In addition to other defenses enumerated in this division, it is a defense to prosecution under this division that:

(1) No notice was served on the property owner in compliance with subsection (c) of this section;

(2) The property owner has removed graffiti from that particular property three or more times within the preceding 12 months;

(3) Before being issued a citation under this section, the property owner gave the police chief or the city's code enforcement officer written authorization to allow persons to enter onto the property and remove the graffiti pursuant to a volunteer or community service program approved by the city's code enforcement officer in which the property is eligible to participate; or

(4) The property owner gave consent for the graffiti to be placed on the tangible property, and the graffiti is not in violation of any regulation of the city.

(Code 1996, § 8.08.001)

Sec. 8.08.004. Penalty.

A person who violates a provision of this division shall be fined in accordance with the general penalty provision in section 1.01.009 of this code. A separate offense shall be deemed committed on each day during or on which a violation occurs or continues.
(Code 1996, § 8.08.004)

ARTICLE III. SEX OFFENDER RESIDENCY

Sec. 8.09.001. Definitions.[88]

The following words, terms and phrases, when used in this article, shall have the meanings ascribed to them in this section, except where the context clearly indicates a different meaning:

Minor. A minor is a person younger than 17 years of age.

Permanent residence. A place where a person abides, lodges, or resides for 14 or more consecutive days.

Temporary residence. A place where a person abides, lodges, or resides for a period of 14 or more days in the aggregate during any calendar year and which is not the person's permanent address, or a place where a person routinely abides, resides, or lodges for a period of four or more consecutive or nonconsecutive days in any month and which is not the person's permanent residence.

---

[88] **Sec. 8.09.001. Definitions.** A standardized introduction is substituted for consistency.

Unedited First Draft

(Code 1996, § 8.09.001; Ord. No. 829-06, 10/16/06)

Sec. 8.09.002. Residency offense.

For each person required to register on the state department of public safety's sex offender database (the database) because of a violation involving a victim who was less than 17 years of age, it is unlawful for that person to establish a permanent residence or temporary residence within 1,000 feet of a playground, school, video arcade facility, youth center or public swimming pool, as those terms are defined in V.T.C.A., Health and Safety Code, § 481.134.
(Code 1996, § 8.09.002; Ord. No. 829-06, 10/16/06)

Sec. 8.09.003. Evidentiary matters; measurements.

(a) It shall be prima facie evidence that this division applies to a person if that person's record appears on the database and the database indicates that the victim was less than 17 years of age.

(b) For the purposes of determining the minimum distance separation, the requirement shall be measured by following a straight line from the outer property line of the permanent or temporary residence to the nearest property line of the premises described hereinabove, or, in the case of multiple residences on one property, measuring from the nearest wall of the building or structure occupied or the parking lot or driveway, whichever is closer to the nearest property line of the premises, as described herein.

(c) A map depicting the prohibited areas shall be maintained by the city police department. The city shall review the map at least annually for changes. Said map will be available to the public at the police department.
(Code 1996, § 8.09.003; Ord. No. 829-06, 10/16/06)

Sec. 8.09.004. Culpable mental state not required.

Neither allegation nor evidence of a culpable mental state is required for the proof of a residency offense under this article.
(Code 1996, § 8.09.004; Ord. No. 829-06, 10/16/06)

Sec. 8.09.005. Affirmative defenses.

It is an affirmative defense to prosecution that any of the following conditions apply:

(1) The person required to register on the database established the permanent or temporary residence and has complied with all of the sex offender registration laws of the state, prior to the date of the adoption of this division.

(2) The person required to register on the database entered into a residential lease or rental agreement prior to the date of the adoption of this division.

(3) The person required to register on the database was a minor when he or she committed the offense requiring such registration and was not convicted as an adult.

(4) The person required to register on the database is a minor or a ward under guardianship.

Unedited First Draft

(5) The prohibited premises, as specified herein, within 1,000 feet of the permanent or temporary residence of the person required to register on the database was opened after the person established the permanent or temporary residence and complied with all sex offender registration laws of the state.

(6) The person required to register on the database maintains a permanent or temporary residence at a jail, prison, juvenile facility or other correctional institution or facility.

(7) The information on the database is incorrect, and, if corrected, this division would not apply to the person who was erroneously listed on the database.
(Code 1996, § 8.09.005; Ord. No. 829-06, 10/16/06)

Sec. 8.09.006. Exemption hearing.

(a) A person who is required to register on the database because of a violation involving a victim who was less than 17 years of age may petition the city council, in writing, for an exemption from the requirements of this division.

(b) The city council may authorize an exemption from this division when, in its opinion, undue hardship will result from compliance or an individualized recidivist assessment indicates an exemption should be granted. In granting an exemption, the council shall take into account the probable effect the exemption will have upon the public health, safety and welfare of the community.

(c) No exemption shall be granted without first having held a public hearing on the exemption petition and unless the city council makes written findings regarding the following:

(1) The person lives with his/her family in the only home available and affordable to the family;

(2) The number of victims;

(3) The diversity of victims;

(4) The person’s relationship to the victims;

(5) A history of juvenile sexual offenses;

(6) A history of abuse and neglect;

(d) Such findings of the city council, together with the specific facts upon which such findings are based, shall be incorporated into the official minutes of the council meeting at which such exemption is granted. Exemptions may be granted only when in harmony with the general purpose and intent of this division so that the public health, safety and welfare may be secured and that substantial justice may be done.
(Code 1996, § 8.09.006; Ord. No. 829-06, 10/16/06)

Sec. 8.09.007. Prohibition against renting or leasing.

(a) It is unlawful for the owner, lessee or occupant (collectively referred to as “lessor”) of any place, residence, structure, dwelling, manufactured dwelling, mobile home, camping trailer or other conveyance, with knowledge that it will be used as a temporary or permanent residence of such person, to rent or lease

Unedited First Draft

the same, or any part thereof, to a person required to register on the database because of a violation involving a victim who was less than 17 years of age, if such place, residence, structure, dwelling, manufactured dwelling, mobile home, camping trailer or other conveyance is located within 1,000 feet of any playground, school, video arcade facility, youth center or public swimming pool, as those terms are defined in V.T.C.A., Health and Safety Code, § 481.134.

(b) An owner, lessee or occupant (collectively referred to as "lessor") of any place, residence, structure, dwelling, manufactured dwelling, mobile home, camping trailer or other conveyance, shall be deemed to have knowledge that another person is required to register on the database because of a violation involving a victim who was less than 17 years of age if such person's record appears on the database and the database indicates that the victim was less than 17 years of age on the earlier of:

(1) The date of receipt of a lease application, rental application or similar document by lessor or lessor's officers, agents, employees or volunteers; or

(2) The date the person first occupies lessor's place, residence, structure, dwelling, manufactured dwelling, mobile home, camping trailer or other conveyance.
(Code 1996, § 8.09.007; Ord. No. 829-06, 10/16/06)

Sec. 8.09.008. Penalties.

(a) Civil and criminal penalties. The city shall have the power to administer and enforce the provisions of this division as may be required by governing law. Any person violating any provision of this division [is] subject to suit for injunctive relief as well as prosecution for criminal violations.

(b) Criminal prosecution. Except as may otherwise be provided herein, any person violating any provision of this division shall, upon conviction, be fined a sum not exceeding $500.00. Except as may otherwise be provided herein, each day that a provision of this division is violated shall constitute a separate offense. An offense under this division is a misdemeanor.

(c) Civil remedies. Nothing in this division shall be construed as a waiver of the city's right to bring a civil action to enforce the provisions of this division, and to seek remedies as allowed by law, including, but not limited to the following:

(1) Injunctive relief to prevent specific conduct that violates this division or to require specific conduct that is necessary for compliance with this division;

(2) Except as may otherwise be provided herein, a civil penalty up to one hundred dollars ($100.00) a day when it is shown that the defendant was actually notified of the provisions of this division and after receiving notice committed acts in violation of the article or failed to take action necessary for compliance with this division; and

(3) Other available relief.
(Code 1996, § 8.09.008; Ord. No. 829-06, 10/16/06)

Unedited First Draft

Chapter 24

PARKS AND RECREATION

ARTICLE I. IN GENERAL

Sec. 1.18.001. Authority of city over city parks.

The city shall have exclusive control of all city parks within the city limits and shall have the power to control, regulate or remove all obstructions, and prevent all encroachments thereupon.
(Code 1996, § 1.18.001)

Sec. 1.18.002. Hours of operation of recreational facilities.

The park and recreational facilities of the city will be available for general use and occupancy during the hours designated by the city. The city may revise operational hours as its seems necessary and appropriate; however, the normal hours of operation and use are 5:00 a.m. to 11:00 p.m. Sunday through Thursday and 5:00 a.m. to 12:00 a.m. (midnight) on Friday and Saturday.
(Code 1996, § 1.18.002)

Sec. 1.18.003. Vehicle driving and parking in city recreational areas.

(a) It is unlawful to drive, stand, park, or to permit the driving of any motor vehicle on any picnic area, walkway, or ball field within the park.

(b) All vehicles will remain parked or driven only on clearly established and maintained roadways, driveways, and parking lots. However, any motor vehicle actually engaged in the maintenance or service of or to such park areas or any facility therein may deviate from said roadway, driveway, or parking lot for as long as needed to perform said maintenance or service.

(c) This section shall not apply to any vehicle actually engaged in any emergency service involved in the saving or preservation of human life or property within the confines of the park.
(Code 1996, § 1.18.003)

Sec. 1.18.004. Speed limit in city park.

The designated speed limit for the operation of any motor vehicle within the confines of the park is ten miles per hour at all times.
(Code 1996, § 1.18.004)

Sec. 1.18.005. Fires and excavations within the city park restricted.

No person shall start any type of fire within the confines of the park except in the designated picnic areas and then only in the designated barbecue grills. There shall at no time be any excavation of the grounds within the park for fires of any type and for any purpose.
(Code 1996, § 1.18.005)

Sec. 1.18.006. Gambling or wagering within city park permitted.

No gambling or wagering of any type shall be permitted within the park or at any designated event held at

Unedited First Draft

the park by any person, group, or civic organization.
(Code 1996, § 1.18.006)

Sec. 1.18.007. Alcoholic beverages within city park prohibited.

At no time will any person, group, or civic organization be permitted to possess or consume any type of alcoholic beverage within the confines of the park.
(Code 1996, § 1.18.007)

Sec. 1.18.008. Concessions in recreational facilities restricted.

The sale of concessions in conjunction with any event scheduled at the park or recreational facility is prohibited unless otherwise approved in advance by the city.
(Code 1996, § 1.18.008)

Sec. 1.18.009. Penalties.

Any person violating this article shall be deemed guilty of a misdemeanor and, upon conviction in the municipal court of the city, shall be fined in accordance with the general penalty provision found in section 1.01.009 of this code.
(Code 1996, § 1.18.009)

ARTICLE II. PRIVATE USE OF CITY RECREATIONAL FACILITIES

Sec. 1.18.101. Designation of city facilities.

The city manager shall from time-to-time designate the city recreational facilities and other city facilities that are available for use by the public for public or private events and meetings. The term 'use' as used in this division, includes but is not limited to use pursuant to rental or use agreement, license, or permit, and use with or without charge.
(Code 1996, § 1.18.101; Ord. No. O-20-22, § 1, 1/3/2023)

Sec. 1.18.102. City manager to establish policy for use.

The city manager is authorized to establish a policy for the use of city facilities as provided in this division 4 and the use of city facilities as provided in this division shall be subject to the policy for use of city facilities established by the city manager from time-to-time.
(Code 1996, § 1.18.102; Ord. No. O-20-22, § 1, 1/3/2023)

Sec. 1.18.103. Use permits.

The city manager, or his/her designee, is authorized to issue permits, licenses, rental or use agreements, or other agreements with respect to the reservation, rental, or use of city recreational facilities, meeting rooms in city buildings, and other city facilities for events and meetings, including permits, licenses or other agreements for the service of alcoholic beverages in such facilities.
(Code 1996, § 1.18.103; Ord. No. O-20-22, § 1, 1/3/2023)

Sec. 1.18.104. Fees.

The city manager is authorized to establish fees and deposits for the use of city facilities, including special

Unedited First Draft

event alcoholic beverage permits unless the fee or deposit has been established by city ordinance or by resolution of the city council.
(Code 1996, § 1.18.104; Ord. No. O-20-22, § 1, 1/3/2023)

Sec. 1.18.105. Alcoholic beverages at special events.[89]

(a) No person shall sell, store, possess, or consume an alcoholic beverage in any city facility except as authorized in this section. Pursuant to V.T.C.A., Alcoholic Beverage Code, § 1.04, the term 'alcoholic beverage' as used in this section means alcohol, or any beverage containing more than one-half of one percent of alcohol by volume, which is capable of use for beverage purposes, either alone or when diluted. ~~shall be defined as used in the Texas Alcoholic Beverage Code.~~

(b) The city manager or his/her designee may grant a special event alcoholic beverage permit to allow for the consumption, possession, or sale of beer and wine in a city recreational facility, meeting room in a city building, or other city facility. In issuing such permit, the city manager shall designate a specific area within the city facility for the serving and consumption of alcoholic beverages under such permit and shall establish such hours that the alcoholic beverages may be dispensed and consumed. The city manager is further authorized to implement such other appropriate safety and control regulations as he or she deems necessary for the public safety and general welfare.
(Code 1996, § 1.18.105; Ord. No. O-20-22, § 1, 1/3/2023)

ARTICLE III. PARK LAND DEDICATION

Sec. 1.18.041. Purpose.

(a) The requirements contained in this article are intended for the purpose of assuring open space and community park facilities are available and adequate to meet the needs created by such development while maintaining current and proposed park and recreation standards pursuant to the city parks, recreation and open space master plan.

(b) The city has imposed a park dedication fee on residential development, and all fees collected shall be used solely and exclusively for the purpose of acquisition and development of new community parks and existing park facilities intended for access and use by the entire city. Acceptable park land that meets the criteria to be dedicated in lieu of the imposed park fee may be accepted by the city.
(Code 1996, § 1.18.041; Ord. No. O-04-08, 2/4/08)

Sec. 1.18.042. Supplement fees established.

(a) The city has established a city-wide park fee and a neighborhood park fee. A city-wide park fee of $618.00 per dwelling unit shall be imposed on all residential development in the city. A neighborhood park fee shall be calculated and collected as provided in section 1.18.045 of this article.

(b) The park dedication requirement established by this division is additional and supplemental to, and not in substitution to, any other requirements imposed by the city on the development of land. Such dedication requirement is intended to be consistent with and to further the policies of the city's comprehensive plan, the master park plan, the city's unified development code, the city's subdivision

---

[89] **Sec. 1.18.105. Alcoholic beverages at scheduled events.** Definition from state statute is inserted for clarity.

Unedited First Draft

rules and regulations and all other city policies, ordinances and resolutions by which the city seeks to promote orderly growth and preserve natural resources.
(Code 1996, §§ 1.18.042, 1.18.043; Ord. No. O-04-08, 2/4/08)

Sec. 1.18.044. Developer contribution by land dedication in lieu of park fee.

(a) In lieu of the imposed park fee, the developer of any area zoned and to be used for single-family, duplex or multifamily residential purposes within the city may elect to apply a contribution of dedication of community park land acceptable to the city at the rate of not less than one acre of land per 50 ultimate units of such residential subdivision and public parks shall not be smaller than five acres in size.

(b) The developer shall propose dedication of park land in conjunction with approval of the subdivision plat.

(c) The dedicated land required hereby shall be well drained, relatively level, in areas that are proposed for active park uses and shall be suitable for appropriate recreational and leisure activities as defined in a community park. All park land offered for dedication under this section shall meet the requirements for location and for physical land characteristics outlined in the master park plan. Areas having environmentally sensitive ecosystems, attractive views, topographical interests or unique natural features shall be preferred and encouraged for park land dedication. Areas which are relatively featureless, barren of natural trees and vegetative cover and which are not physically attractive in some other way, may not be typically acceptable.

(d) The location and size of public parks within the city shall be determined in all instances by the city council upon recommendations from the city manager or the city manager's designee. That determination shall be based upon existing circumstances at the time and shall be in accordance with the adopted parks, recreation and open space master plan and as may thereby be amended from time to time by the city.

(e) Dedicated park land shall be easily accessible to the public, enhance the visual character of the city and minimize conflict with adjacent land uses.
(Code 1996, § 1.18.044; Ord. No. O-04-08, 2/4/08)

Sec. 1.18.045. Neighborhood park fees and funds.

(a) A neighborhood park fee shall be due and collectable for residential units to be constructed in any area in the city for which park and recreation facilities are suitable and desirable, is consistent with the master park plan and which has been identified by the city manager and the city manager's designee for future construction as a neighborhood park.

(b) Upon the filing of a subdivision plat, concept plan, site plan, proposal for agreement, proposal for planned development (PD) district, application for plat or replat, or other form of authorization that adequately informs the city of a plan to construct residential units in the city, staff shall ascertain whether such units are in an area from which a neighborhood park is contemplated, and if so, shall inform the applicant or other person filing such document of the requirements for payment of a neighborhood park fee.

(c) The maximum neighborhood park component fee shall be calculated by the staff separately for each neighborhood park, by dividing the average cost of that type of park facility for the entire area that is reasonably expected to be benefitted by such park and which is reasonably susceptible to and authorized

Unedited First Draft

for development for residential purposes.

(d) A separate neighborhood park fee fund shall be established for each neighborhood park that is identified pursuant to this section.

(e) Fees collected for the neighborhood park funds shall be used for the purpose of acquisition and development of neighborhood parks located in reasonable proximity to the residential development from which the park fee was received. Fees collected may be used for site preparation, the extension of utilities to or within sites, the installation of landscaping, play equipment, or recreation improvements and attendant engineering and planning costs associated with park development.
(Code 1996, § 1.18.045; Ord. No. O-04-08, 2/4/08)

Sec. 1.18.046. Processing and collection of fees.

(a) *Fee determination.* The developer has the duty to submit the information concerning the number of dwelling units. Upon receipt of an application for a building permit, the city shall calculate the amount of the applicable city-wide park fee due and any neighborhood park fee. The applicable fees shall be collected prior to the issuance of the building permit. No permit shall be issued nor shall any construction be allowed to begin until payment of all fees required by this article are paid.

(b) *Credit against park fee for developer contributions of land.* Park land that has been dedicated in lieu of the park fee shall be reviewed and approved by the city council subsequent to a recommendation from the park and recreation board. When review of development applications has resulted in the acceptance of land dedication, such land dedication shall be shown on a final plat and shall contain clear fee simple dedication of that land to the city.
(Code 1996, § 1.18.046; Ord. No. O-04-08, 2/4/08)

Sec. 1.18.047. Use of park fees.

(a) Fees collected for the city-wide park fund shall be used for the purpose of acquisition and development of new centralized community parks and the improvement of existing park facilities intended for use and access by the entire city. Fees collected may be used for land acquisition, site preparation, the extension of utilities to or within sites, the installation of landscaping, play equipment, or recreation improvements, installation of expansions, new features, athletic fields, parking lots, swimming pools and water recreation facilities, and similar facilities normally associated with parks and recreation, including attendant engineering, architectural, legal, planning or other consultant costs associated with such park development.

(b) All expenditures of fees collected shall be made in accordance with the city parks, recreation and open space master plan, advice or recommendation of the staff and the parks and recreation board, and as approved by the city council to best benefit the citizens of the city.

(c) Any monies paid into the city-wide or neighborhood park fund must be expended by the city within ten years from the date received by the city. If such funds are not expended within ten years following final plat approval, the property owner shall be entitled to a refund of such funds upon written request, less any amounts expended for such purposes.
(Code 1996, § 1.18.047; Ord. No. O-04-08, 2/4/08)

ARTICLE IV. NAMING CITY RECREATIONAL FACILITIES

Unedited First Draft

Sec. 1.18.081. Definitions.[90]

The following words, terms and phrases, when used in this article, shall have the meanings ascribed to them in this section, except where the context clearly indicates a different meaning:

Ancillary feature. Individual exterior or interior features or facilities within the larger park or facility, including, but not limited to, meeting rooms, landscaped grounds, flower gardens, sculptures, picnic shelters, play lots, ball fields, and other similar items.

Deceased. A person who has been dead for more than two years.

Elected official. Any person who acquires local, regional, or national office through an election.

Family member or relative. Any person having a current or past familial relationship including natural born, adopted, or legally connected persons.

Naming. The intention of permanently identifying a human created object, open space, waterway, or other feature occurring in the natural environment.
(Code 1996, § 1.18.081; Ord. No. O-16-12, 7/16/12)

Sec. 1.18.082. Procedure.

(a) Because temporary "working" designations tend to be retained, the park and recreation board will carry out the required naming recommendation to city council for a new park facility within 12 months after its acquisition or development. Facilities will bear number designations until the naming process results in adoption of a name.

(b) The parks and recreation board can initiate the naming process whenever deemed necessary and in the best interest of the city. In the absence of any naming request, the parks and recreation board shall adhere to the criteria stated in this policy for recommendation of name. All requests for naming a park or facility are to be presented to the park and recreation board for consideration.

(c) Only a naming request for a recently deceased individual will have a two year waiting period before the request may be proposed for consideration.

(d) The city staff will log in each request by date and time and review the request for completeness before submitting the request to the park and recreation board for consideration.

(e) Those submitting a name request should show how the proposed name is consistent with the criteria stated in this policy. When naming after a person, the application will describe the contributions to the city along with submitted written documentation as required.

(f) City staff will review the proposal for adherence to the stated criteria and authentication of statements relative to contributions in the case of the request being brought forward to the park and recreation board. If the request is incomplete staff will contact the applicant in writing and provide them with the opportunity to resubmit a revised request.

---

[90] **Sec. 1.18.081. Definitions.** A standardized introduction is substituted for consistency.

Unedited First Draft

(g) The park and recreation board will place one public notice in the city's newsletter or other media 30 days before the board's meeting where discussion will take place; conduct two consecutive public meetings to offer an opportunity for public input on the proposed name. Public input to be considered shall be postmarked 30 days prior to the public meeting and presented in writing and with supporting documentation to the director of public works who shall forward the input to the park and recreation board.

(h) The city council will review the application and supporting documents at next scheduled council meeting and evaluate merit of public input and documentation for disposition.

(i) City council will inform the park and recreation board of final decision who will forward decision to the park department for final notification to applicant and will have closure of request on disposition log.
(Code 1996, § 1.18.082; Ord. No. O-16-12, 7/16/12)

Sec. 1.18.083. Park and open space naming policies.

Parks, open spaces, waterways and other elements of the natural environment shall be subject to the following city policy:

(1) Council to name city parks. The city council shall designate the names of public parks and recreation facilities. The city council will not make its selection until after receiving written recommendations from the parks and recreation board. Such recommendations shall state how the proposed name(s) meet the naming criteria. If a contest or competition is held to help determine the name of a park or recreation facility, the parks and recreation board shall establish recommended guidelines to the city council. Citizen input shall be encouraged in the naming of the parks, subject to the criteria below.

(2) Naming criteria. The naming of public parks and recreation facilities shall be made upon one or more of the following criteria and preferably in the following order:

a. The proposed name fits a neighborhood or geographical identification (e.g., Lake Hollywood, Courtney Lane Park, Cinnamon Springs, and Gateway);

b. The proposed name fits a natural or geological feature historical, or cultural significance, geographical location and the wishes of the community in which it is located (e.g., Magnolia Creek, Red Oak Creek, Bear Creek);

c. The proposed name is a historical figure or of local cultural or historical significance (e.g., Ida Glenn);

d. The proposed name is for a deceased individual who has made a significant land or monetary contribution or a significant contribution of personal time, effort, or service to the park system that is commensurate with the value of the recognition but only after said person has been deceased for at least two years, and only after, through due diligence, it has been found that said person's character, achievements, reputation, and contributions are above reproach;

e. The proposed name is to recognize a contribution made "in memoriam" for the donor or entity, when the name has been stipulated as a condition of the donation;

Unedited First Draft

f. The proposed name is for a civic group or corporation whose mission statement is compatible with city goals and objectives and that has made a significant land or monetary contribution of time, effort, or service to the park system;

g. The proposed name is for a city employee who has made extraordinary and significant contributions to the park system, and held a position with the city for at least 20 years and deceased for two years or more;

h. To avoid duplication, confusing similarity, or inappropriateness, the board or committee, in the considering name suggestions, will review existing park and facility names in the park system;

i. No park shall be given the same name as an existing school site or public facility, except where they abut one another;

j. Requests that are rejected or received disapproved from the board are ineligible to resubmit to the parks department without adhering to stated policy and application requirements and only after a period of 12 months.

(3) Naming of ancillary features. A park or open space, individual ancillary features or facilities may have names other than that of the entire park or open space. These names shall be subject to the same general criteria.

(4) Naming through fundraisers. The city council may authorize a feature of a park or open space to be developed or established through a fundraising effort that may include naming. It is not the intent of this policy to prohibit such fundraising activities that involve naming as part of the fundraising effort. Examples may include but are not limited to: a “named bricks” fundraiser to pave a path; “named seats” to fundraise for a bleacher; “named bushes” to fundraise for a rose garden, etc.

(5) Naming of donated property - conditions. The naming of donated public park property, facility, or ancillary feature should ordinarily be with the intent for it to be a perpetual recognition of the individual, family, corporation, foundation, association or other entity from whom the donation was received. The naming should be commensurate with the value of the donation. The renaming of a donated facility is generally discouraged. Rescinding the name of a donated facility shall occur only under extraordinary circumstances after thorough study and the receipt of written recommendations from the park and recreation board. The city council may rescind the naming of a facility donated after the effective date of this policy only under the following circumstances:

a. The individual, family, corporation, foundation, association or other entity for which the facility has been named has been convicted of a felony, a crime involving moral turpitude, or participated in any other illegal or disreputable behavior which would bring discredit to the city and do substantial harm to the reputation and mission and vision of the city and the facility;

b. The useful life of the facility has expired and the facility must be replaced or substantially renovated;

c. The specific agreed upon period of time for the retention of the name has expired; or

Unedited First Draft

d. The donor, or their legally authorized representative, has requested or consented to a renaming action by the city.

(6) Signage. Following selection of a name, the park department shall identify the specific facility with appropriate signage specifying the name.

(Code 1996, § 1.18.083; Ord. No. O-16-12, 7/16/12)

Sec. 1.18.084. Naming of other city facilities.

(a) General policy. Other city facilities, such as city hall, police stations, annexes, maintenance buildings, community centers, senior centers, and related manmade structures shall be subject to the policies outlined in this section. As a general policy, public building names shall be named to reflect the functionality of the facility by simply stating its purpose without further description (example: Glenn Heights Senior Center, Glenn Heights Performing Arts Center, and Public Safety Building).

(b) City council to name city facilities. The city council shall designate the names of city facilities, including ancillary features. In making this selection, the city council may request a written recommendation from the park and recreation board. Such recommendations shall state how the proposed names meet the naming criteria outlined below.

(c) Naming criteria. The naming of general city facilities shall be made upon one or more of the following criteria:

(1) The building name simply reflects the functionality of the facility without further description;

(2) The proposed name fits a neighborhood or geographical identification (e.g., Glenn Heights, Bear Creek);

(3) The proposed name is for an individual deceased for two years that has made a significant financial contribution or contribution of time, effort, or service to the city that is commensurate with the value of the recognition;

(4) The proposed name is to recognize a contribution made “in memoriam” for an individual, when the name has been stipulated as a condition of a significant donation.

(d) Naming of ancillary features. A facility’s significant individual interior or exterior features or rooms may have names designated other than that of the general facility. These names shall be subject to the same general criteria designated in this section but may be lessened or modified to include and commensurate with the value of the ancillary feature so named.

(e) Naming through fundraisers. The city council may authorize a feature of a building to be developed or established through a fundraising effort that may include naming. It is not the intent of this policy to prohibit such fundraising activities that involve naming as part of the fundraising effort. Examples may include: “named bricks” to fundraise for a floor, path, or sidewalk; “named bushes” to fundraise for a garden, etc.

(Code 1996, § 1.18.084; Ord. No. O-16-12, 7/16/12)

Sec. 1.18.085. Name plates for minor ancillary features.

Nothing in this policy shall be construed to prohibit the city from fixing a name plate or providing similar

Unedited First Draft

recognition to a minor feature in a park or other city facility. Such recognition shall be made only for those persons who have made a significant contribution to the city or otherwise donated the feature to the city. Examples include trees, bushes, flower beds, park benches, kiosks, play toys, water fountains, and similar items.
(Code 1996, § 1.18.085; Ord. No. O-16-12, 7/16/12)

Sec. 1.18.086. Nomination and notification from citizens.

A completed citizen nomination should include a completed application with attached narrative to support the proposed name change nomination, letters of support, and a maximum of ten attachments that may include newspaper articles, listing of accomplishments or affiliations, resumes, photos, etc. Individuals submitting applications will receive notification by mail of the status of the application.
(Code 1996, § 1.18.086; Ord. No. O-16-12, 7/16/12)

Sec. 1.18.087. Administration of policy.

(a) The city shall provide a good faith, discretionary administration of this policy for the benefit of the public in general, but the city makes no promise for the specific application of any part or the whole of this document to any individual. This document is not intended to provide an enforceable right, expectation, or property interest to any third party providing donations or bequests to the city.

(b) Proper and thoughtful consideration and due diligence should be exercised in naming similar facilities uniformly. For example: If the soccer fields are to be named, they should have a similar theme, such as naming them all after indigenous wildflowers or city founders. Consideration should also be given to the level of significance a person played in the city and the size of the amenity to be named, if it is to be named after a person. It seems only fitting that larger facilities be named after someone who played a much larger role in founding the city or parks/park facilities, with smaller facilities/amenities being named after those who played important yet lesser roles.

(c) Established criteria will be the primary rating tool, though, there may be some unforeseen situations in which applications may be looked at on a case-by-case basis.
(Code 1996, § 1.18.087; Ord. No. O-16-12, 7/16/12)

Unedited First Draft

Chapter 26

SOLID WASTE

ARTICLE I. IN GENERAL

Sec. 13.06.001. Definitions.[91]

The following words, terms and phrases, when used in this chapter, shall have the meanings ascribed to them in this section, except where the context clearly indicates a different meaning:

Bulky items. Stoves, refrigerators, water tanks, washing machines, furniture and other similar waste materials. This term shall include loose brush greater than four inches in diameter that cannot be bundled in four-foot lengths and weighs more than 50 pounds Items of loose brush shall not exceed five feet in length and 50 pounds

Bundle. Trees, shrubs and brush trimmings or newspapers and magazines securely tied together forming an easily handled package not exceeding four feet in length, six in diameter, or 50 pounds in weight. The total amount of "bundled" material set out for collection shall not exceed two cubic yards (6' x 3' x 3') during each collection period.

Construction debris. Waste building materials resulting from construction, remodeling, repair, demolition or landscaping operations.

Customer. An occupant of a residential unit or commercial establishment who generates refuse.

Dead animals. Animals or portions thereof equal to or greater than ten pounds in weight that have expired from any cause, except those slaughtered or killed for human use.

Garbage or trash. Any and all dead animals of less than ten pounds in weight, except those slaughtered for human consumption, every accumulation of waste (animal, vegetable or other matter) that results from the preparation, consumption, dealing in, handling, packing, canning, storage, transportation, decay or decomposition of meats, fish, fowl, birds, fruits, grains or other animal or vegetable matter (including, but not by way of limitations, used tin cans and other food containers; and all putrescible or easily decomposable waste animal or vegetable matter, which is likely to attract flies or rodents); except (in all cases) any matter included in the definition of bulky items, construction debris, dead animals, hazardous waste, rubbish or stable matter.

Hazardous waste. Any chemical, compound, mixture, substance or article which is designated by the United States Environmental Protection Agency or appropriate agency of the state to be "hazardous" as that term is defined by or pursuant to police or state law.

Recyclable material. Post-consumer products that are not placed in a landfill or incinerated but are diverted from the waste stream for reuse or reprocessing as another product. Except as otherwise provided, recyclable material shall be included as a part of the term garbage for all provisions of this article related to the collection, pickup and disposal of garbage.

---

[91] **Sec. 13.06.001. Definitions.** A standardized introduction is substituted for consistency.

Unedited First Draft

Residential unit. A single-family, duplex, triplex or fourplex dwelling within the corporate limits of the city. A residential unit shall be deemed occupied when city water or sewer or waste removal services are provided to it by reason of human habitation of the premises.

Rubbish. All waste wood, wood products, tree trimmings, grass cuttings, dead plants, weeds, leaves, dead trees or branches thereof, chips, shavings, sawdust, printed matter, paper, pasteboard, rags, straw, used and discarded mattresses, used and discarded clothing, used and discarded shoes and boots, combustible waste pulp and other products such as are used for packaging or wrapping crockery and glass, cinders, floor sweeping, glass, mineral or metallic substances, and any and all other waste materials not included in the definition of bulky items, construction debris, dead animals, garbage, hazardous waste or stable matter.

Stable matter. All manure and other waste matter normally accumulated in or around a stable, or any animal, livestock, poultry enclosure, and resulting from the keeping of animals, poultry, or livestock.
(Code 1996, § 13.06.001; Ord. No. O-19-16, 10-18-2016)

Sec. 13.06.004. Charges, billing, and delinquencies.[92]

(a) The charge to be made for garbage pickup service shall be as fixed by the franchise agreement between the city and the service provider.

(b) Any garbage collection bill not paid in full within 15 days of the due date shall be deemed past due, and a delinquent payment charge shall be assessed. When water, wastewater services and garbage services or a combination of any of the three services are included in a bill, payment in full for all services must be made or otherwise the entire bill will be considered delinquent. Any services for which charges continue to be delinquent for 20 days from the due date are subject to termination by the city.
(Code 1996, §§ 13.06.004, 13.06.005)

Sec. 13.06.011. Penalty for violations.

Except as otherwise provided in this chapter, any person, firm or corporation violating any term or provision of this chapter shall be deemed guilty of a misdemeanor and, upon conviction, shall be subject to a fine not to exceed the sum of $200.00 for each offense.
(Code 1996, § 13.06.011; Ord. No. O-19-16, 10-18-2016)

ARTICLE II. COLLECTION AND DISPOSAL

Sec. 13.06.002. Mandatory use of services.

All residences in the city shall use garbage pickup facilities as provided by the city. The use of such facilities shall be mandatory and bills for such services shall be added to the monthly water bill of the city.
(Code 1996, § 13.06.002)

Sec. 13.06.003. Pickup schedule.[93]

---

[92] **Sec. 13.06.004. Charges, billing, and delinquencies.** Clarification of “franchise” is added as shown.

[93] **Sec. 13.06.003. Pickup schedule.** Minor text adjustment is recommended as shown.

Unedited First Draft

The city shall provide or make available garbage pickup service so that garbage will be picked up once weekly at each residential location in the city. The weekly residential pickup day shall be Wednesday unless otherwise provided by the city council ~~provided that the city council may change the day from time to time by resolution and written notice to residential customers~~.
(Code 1996, § 13.05.003; Ord. No. O-19-16, 10-18-2016)

Sec. 13.06.006. Collection time; placement of garbage for collection.

(a) Garbage, including all permitted containers and bags, shall be placed either at the front of the premises adjacent to the public street or at the rear of the premises adjacent to a public alley for pickup service at such location. Garbage may be placed out for pickup no earlier than 7:00 p.m. on the day before the scheduled day of pickup and shall be removed no later than 10:00 p.m. on the day of the scheduled pickup. Violations of this subsection shall be subject to a fine of $25.00 for the first offense, $50.00 for a second offense, and $75.00 for the third and all subsequent offenses.

(b) For residential customers, service shall be between 7:00 a.m. and 8:00 p.m. on the scheduled pickup day. Service on Sundays or holidays shall not be provided. There will be at least one pickup per week of a holiday. Holidays for the purpose of this article shall be New Year's Day, Memorial Day, Independence Day, Labor Day, Thanksgiving Day and Christmas Day; provided that the city may designate additional holidays by resolution from time to time and with notice to city customers.
(Code 1996, §§ 13.06.006, 13.06.0010, 13.06.0011; Ord. No. O-19-16, 10-18-2016)

Sec. 13.06.007. Container requirements.

(a) All garbage and trash placed on the exterior of a premises shall be kept in a garbage container. Garbage containers shall meet the following minimum requirements:

(1) The container shall be equipped with suitable lifting handles or handle on the outside, and a securely fitting cover or lid equipped with a handle.

(2) The container must not have any inside structures, such as inside bands and reinforcing angles or anything within the container to prevent the free discharge of the contents.

(3) The container shall not be deteriorated or damaged to the extent that the container has jagged or sharp edges capable of causing injury to garbage collectors or other persons whose duty it is to handle the containers or the container's cover does not fit securely so as to protect the interior from the elements or small animals, including birds and rodents.

(4) Containers shall be watertight, constructed of a solid and durable grade of metal, fiberglass or plastic, and not exceed 35 gallons in capacity. The combined weight of the refuse container and its contents shall not exceed 50 pounds.

(b) Polycart containers shall be rubber-wheeled, watertight, constructed of a solid and durable grade of metal, fiberglass or plastic and not exceed 95 gallons in capacity. The combined weight of the polycart container and its contents shall not exceed 175 pounds.

(c) Recycling containers shall be watertight, constructed of a durable grade plastic with a minimum capacity of 18 gallons. The container shall be designed for the purpose of curbside collection of recycling materials.

Unedited First Draft

(d) Containers that do not meet the minimum applicable requirements in this section may be condemned and, after written notice to the owner of the container and property owner, confiscated by the city.
(Code 1996, § 13.06.007; Ord. No. O-19-16, 10-18-2016)

Sec. 13.06.008. Collection of nonconforming containers or bags.

When garbage is not placed in a garbage container as described in this article or in a watertight garbage bag when permitted, it will not be picked up by the garbage collector except by special arrangement with the collector for such service; provided, however, that the collector, in his/her sole discretion, may pick up garbage placed for pickup that is not secured in a container or bag.
(Code 1996, § 13.06.008; Ord. No. O-19-16, 10-18-2016)

Sec. 13.06.009. Exclusions.

Garbage collection under this article does not include removal of hazardous, toxic or radioactive wastes or substances as currently or in future defined as such by applicable police, state or local laws or regulations. The city will not be responsible for hauling human or animal waste, hazardous waste, auto parts, rocks, concrete, sand, gravel, dirt, or construction debris, unless specifically contracted for with the generator of such refuse.
(Code 1996, § 13.06.009)

Unedited First Draft

Chapter 28

STREETS, SIDEWALKS, AND OTHER PUBLIC PLACES

ARTICLE I. IN GENERAL

ARTICLE II. CONSTRUCTION IN PUBLIC WAYS

~~Sec. 3.17.001. Definitions.~~[94]
~~Director. The public works director or his designated agent.~~
~~Permit. A written document signed by the public works director or his designated representative.~~
~~Public right-of-way. Only public streets, highways, roadways, alleys or sidewalks.~~
~~(Code 1996, § 3.17.001)~~

Sec. 3.17.002. Permit required; exceptions.

(a) Any person or franchise utility who undertakes to perform any work upon, in, under, above, or about any public street, roadway, alley or sidewalk (herein collectively called "public right-of- way"), shall be required to obtain a permit issued by the public works director or his designated representative. The permit must be acquired before any work has begun. This subsection does not apply to work done on private property.

(c) A homeowner's permit may be obtained to cover work by the homeowner on the public right-of-way adjacent to his property, and no bond will be required for this work.
(Code 1996, § 3.17.002)

Sec. 3.17.003. Work required.

(a) It shall be the responsibility of the permit holder to provide, erect, place and maintain proper traffic control devices and barricades as required by the state manual on uniform traffic control devices or as required by the public works director.

(b) It shall be the responsibility of the permit holder to perform all work as required by this article, which work may include, but is not limited to, sawing, cutting, excavation, removal of spoil material, compacted emplacement of subgrade, compacted emplacement of base, and emplacement of asphalt.

(c) All work as required by the permit shall be performed in a timely manner as determined by the public works director. Failure to perform work in a timely manner may result in 10-days' formal notice by the public works director that work is not satisfactory ten days, except for emergencies or hazardous conditions, and

(1) Notification that city crews will perform the work; or

(2) Notice that the work will be performed by a private contractor;

If work is performed at the direction of the city, then the minimum charge shall be as provided in the city fee schedule ~~for in the fee schedule found in appendix A of this code~~.

---

[94] **Sec. 3.17.001. Definitions.** Unnecessary definitions are stricken.

Unedited First Draft

(d) All work covered by this permit shall be in accordance with the provisions of standard specifications for public works construction by the North Texas Council of Governments as adopted by city council or contained within the city subdivision rules and regulations and standard specifications. Except in cases where existing utilities must be tapped under a street or where leaks and repairs are required on existing lines under a street, all placement of lines under a street shall be done by tunneling, jacking or boring.

(e) All work done by the city shall meet the standards established by this article and standard specifications for public works construction.
(Code 1996, § 3.17.003)

Sec. 3.17.004. Application for permit.

An applicant for a permit hereunder shall file with the director an application showing:

(1) Name and address of the contractor or agent in charge of the proposed work.

(2) Name and address of the owner for whom the work is done.

(3) Location of the work.

(4) Plan or sketch showing the details for the proposed construction.
(Code 1996, § 3.17.004)

Sec. 3.17.005. Special requirements.

(a) The director may, at the time of issuance of the permit, require the use or specific location of additional barricades, that only a specified area or number of street lanes be blocked at any one time, and that work be performed only at specific times.

(b) Any work performed, other than normal city operating hours, including weekends and holidays, shall be approved by the public works director;

(c) An approved plan or sketch showing details of the construction must be on the job site at all times.
(Code 1996, § 3.17.005)

Sec. 3.17.006. Fee schedule.

Permit and inspection fees are as provided for in the city fee schedule ~~fee schedule found in appendix A of this code~~.
(Code 1996, § 3.17.006)

Sec. 3.17.007. Bond required.

(a) A bond is required except as otherwise provided in this Code. No person shall construct, cut, repair, alter or grade any sidewalk, curb, curb cut, driveway, storm sewer, or street in the city without executing and delivering to the city a surety bond in the amount of $2,000.00. The bond guarantees that all work will be done in a workmanlike manner, will strictly comply with all ordinances and regulations

Unedited First Draft

of the city, will maintain all work for a period of one year after completion of work, and will indemnify and hold harmless the city for any work performed. Bonding is required prior to issuance of the permit except for franchise utilities where work is performed by utility and not franchisee contractor.
(Code 1996, § 3.17.007)

ARTICLE III. RIGHT-OF-WAY MANAGEMENT[95]

Sec. 3.19.001. Purpose.

The purpose of this article is to:

(1) Assist in the management of facilities placed in, on or over the public rights-of-way in order to minimize the congestion, inconvenience, deterioration, visual impact and other adverse affects and the costs to the citizens resulting from the placement of facilities within the public rights-of-way.

(2) Govern the use and occupancy of the public rights-of-way.

(3) Assist the city in its efforts to protect the public health, safety and welfare.

(4) Conserve the limited physical capacity of the public rights-of-way held in public trust by the city.

(5) Preserve the physical integrity of the streets and highways.

(6) Control the orderly flow of vehicles and pedestrians.

(7) Keep track of the different entities using the public rights-of-way to prevent the interference between them.

(8) Assist in scheduling common trenching and street cuts.

(9) Protect the safety, security, appearance and condition of the public rights-of-way.

(Code 1996, § 3.19.001; Ord. No. O-860-07, 11/19/07)

Sec. 3.19.002. Authority; scope.[96]

This article applies to all persons that place facilities in, on or over public rights-of-way. Compensation for use of the public rights-of-way shall be paid in accordance with all applicable state or federal law, including, but not limited to, the federal Cable Act, 47 USC § 541 et seq.; V.T.C.A., Local Government Code, ch. 283; V.T.C.A., Tax Code, § 182.025; and V.T.C.A., Local Government Code, § 590.0001 ~~Civil Statutes art. 1175(1)~~ as applicable.
(Code 1996, § 3.19.002; Ord. No. O-860-07, 11/19/07)

---

[95] **Art. III. Right-of-Way Management.** This article would benefit from reorganization but I think some updates may also be in order which we should do first. Please review for current accuracy.

[96] **Sec. 3.19.002. Authority; scope.** Citation is corrected as shown.

Unedited First Draft

Sec. 3.19.003. Definitions.[97]

The following words, terms and phrases, when used in this article, shall have the meanings ascribed to them in this section, except where the context clearly indicates a different meaning:

Cable or video service provider (or CVSP). Means the same as defined in Texas Utilities Code, section 66.002(3) and (11) (any entity that has been issued a certificate of franchise authority by the public utility commission of the state to offer cable or video service).

Capital improvements program or project. The official proposed schedule of all future public projects listed in order of construction priority together with cost estimates and the anticipated means of financing each project as adopted by the city council.

Certificated telecommunications provider (or CTP). Means the same as defined in V.T.C.A., Local Government Code, § 283.002(2) ~~Tex. Loc. Gov't Code section 283.002(2)~~.

~~City. The territorial, corporate and geographic limits of the city. As used throughout, the term "city" also includes the designated agent of the city.~~

City property. All city buildings, infrastructure, bridges, parks, golf courses, parking lots and all other real property that is not dedicated for utility or street transportation purposes.

~~Direction of the city. All ordinances, laws, rules, resolutions and regulations of the city that are not inconsistent with this article and that are now in force or may hereafter be passed and adopted.~~

Director or director of municipal services. The city manager, director of municipal services **(formerly public works)** or such director's designated representative.

Facilities or facility. Any and all wires, cables, fibers, duct spaces, manholes, poles, conduits, pipes, lines, conduits, underground and overhead passageways and other equipment, structures, plant and appurtenances and all associated physical equipment placed in, on or under the public rights-of-way.

~~Person. A natural person (an individual), corporation, company, association, partnership, firm, limited liability company, joint venture, joint stock company or association and other such legal entity.~~

Public rights-of-way. As defined in V.T.C.A., Local Government Code, § 283.002(6) ~~Tex. Loc. Gov't Code section 283.002(6), and Texas Utility Code, section~~ and V.T.C.A., Utility Code, § 66.002(8), which includes (the area on, below or above a public roadway, highway, street, public sidewalk, alley, waterway or utility easement in which the city has an interest. The term does not include the airwaves above a public right-of-way with regard to wireless telecommunications.
(Code 1996, § 3.19.003; Ord. NO. O-860-07, 11/19/07)

Sec. 3.19.004. City authorization required.

---

[97] **Sec. 3.19.003. Definitions.** A standardized introduction is substituted for consistency. Also, does the city still use the title "public works director"? The title is used in various places in the code, but these definitions indicate that the title has been replaced with "municipal services director."

Unedited First Draft

(a) Any person seeking to place facilities on, in or over the public rights-of-way, shall pay a $500.00 construction permit application fee (except CTPs and CVSPs and their contractors to the extent exempted by V.T.C.A., Local Government Code, ch. 283 and V.T.C.A., Utilities Code, ch. 66, ~~Tex. Loc. Gov't Code, chapter 283 and Tex. Utilities Code chapter 66),~~ shall file an application for such construction permit with the director and shall abide by the terms and provisions of this article pertaining to use of the public rights-of-way. If there are additional direct costs to the city in processing the applications, the city may recover those from the applicant prior to the issuance of the construction permit.

(#) With the application, applicants shall submit to the director written applications identifying the applicant and all the applicant's affiliates that may have physical control of facilities within the public rights-of-way, with a map of the proposed installations, general description of the services to be provided, a construction schedule and a general description of the effect on public rights-of-way as detailed in section 3.19.006(3) below.

(b) Any person, except a CTP or CVSP, prior to placing, reconstructing or altering facilities in, on or over the public rights-of-way, must obtain separate municipal authorization from the city, such as a license agreement or franchise, as may be applicable. For use of the public rights-of-way, all users of the public rights-of-way shall compensate the city on the value of the public rights-of- way used, being typically either on a gross receipts basis or linear foot basis, to the fullest extent allowed by law.

(c) Any person with a current, unexpired consent, franchise, agreement or other authorization from the city ("grant") to use the public rights-of-way that is in effect at the time this article takes effect shall continue to operate under and comply with the grant (except to the extent the police powers regulations in such grant are inconsistent with this article, in which event, this article will control) until the grant expires or until it is terminated by mutual agreement of the city and the person, or it is terminated as otherwise provided for in law.

(d) Prerequisites to issuance of construction permit. Each person must register with the city. In order for the city to know which person or persons owns or has physical control over facilities in a public right-of-way within the city, each such person who owns or has physical control over facilities shall register with the city and provide the following information at a minimum:

(1) Person's name, address and telephone numbers; and

(2) A 24 hour telephone numbers to a contact persons with decision-making authority for the person.

Each person shall update and keep current his/her registration with the city at all times.
(Code 1996, § 3.19.004; Ord. No. O-860-07, 11/19/07)

Sec. 3.19.005. Administration and enforcement.

(a) The director shall administer and enforce compliance with this article.

(b) A person shall report information related to the use of the public rights-of-way that the director requires in the form and manner reasonably prescribed by the director.

(c) The director shall report to the city council upon the determination that a person has failed to comply with this article and the same shall be subject to the penalty provisions provided herein for violation of this article.
(Code 1996, § 3.19.005; Ord. No. O-860-07, 11/19/07)

Unedited First Draft

Sec. 3.19.006. Construction obligations.

(a) A person is subject to reasonable police power regulation of the city to manage its public rights-of- way in connection with the excavation, construction, installation, expansion, reconstruction, relocation, alteration, removal, maintenance or repair of facilities in the public rights-of-way, pursuant to the city's rights as a custodian of public property based upon the city's historic rights under state and federal laws. Such regulations include, but are not limited to, those set forth in this section.

(1) At the city's request, a person shall furnish the city accurate and complete information relating to the excavation, construction, installation, expansion, reconstruction, relocation, alteration, removal, maintenance or repair of facilities performed within the public rights-of-way underground according to the applicable city requirements unless the person makes a compelling demonstration that, in any specific instance, this requirement is not reasonable, feasible or equally applicable to other similar users of the public rights-of-way.

(A) The underground placement of facilities is encouraged. In any event, facilities shall be installed underground where existing utilities are already underground. If there are no facilities in the public rights-of-way, then the facilities shall be placed underground. The utility owning the underground facilities shall make a reasonable determination as to whether space is available to accommodate the new facilities. A negative determination shall not relieve the person of the responsibility to underground its facilities in underground utility areas. To the degree reasonably feasible previously installed aerial facilities shall be placed underground in concert, and on a cost-sharing basis, with other utilities when such other utilities convert from aerial to underground construction. All undergrounding of facilities shall be at a depth of 24 feet or more unless otherwise directed by the city.

(B) Underground conduits and ducts shall be installed in the public rights-of-way between the adjacent property line and curbline unless otherwise directed by the city.

(C) Conduits and ducts shall be installed parallel with the curbline and cross the public rights- of-way perpendicular to the public rights-of-way centerline unless otherwise directed by the city.

(D) Ducts and conduits shall be installed by trenchless excavation or directional boring when placing these facilities under paved public rights-of-way centerline unless otherwise directed by the city.

(2) A person shall perform excavations and other construction in the public rights-of-way in accordance with all applicable city requirements including the obligation to use trenchless technology whenever commercially economical and practical and consistent with obligations on other similar users of the public right-of-way. The city shall waive the requirement of trenchless technology if it determines that, based upon information provided to the city by the person, the particular field conditions warrant a waiver. All excavations and other construction in the public right-of-way shall be conducted so as to minimize interference with the use of public and private property. Any plant or facility placed within the public rights-of-way which is [shall be] suspended at a height not less than twenty-two feet (22') above ground level, unless otherwise approved by the director, yet not in the event less than fifteen feet (15'), except to the extent state law controls. A person shall follow all reasonable construction directions given by the city in

Unedited First Draft

order to minimize any such interference.

(3) A person must obtain a permit, as reasonably required by applicable city codes, including subsection (B) of this section, at least 72 hours prior to excavation, construction, installation, expansion, reconstruction, relocation, alteration, removal, maintenance or repair of the person's facilities, which 72 hours may be waived or altered by the city for good cause shown by the applicant. All permit applications shall be accompanied by the certification of a professional engineer licensed in Texas that the drawings, plans and specifications submitted with the application comply with applicable technical codes, rules and regulations when required by state law.

(A) Bonding will be required as in subsection (11) below and insurance as in section 3.19.008 herein.

(B) A construction permit is not required for routine maintenance that does not require excavation of the public rights-of-way or which does not block traffic lanes or sidewalks during peak traffic periods between 7:00 a.m. to 9:00 p.m. and 4:00 p.m. to 6:30 p.m. on weekdays or for more than two hours during any non-peak traffic period. The failure of the person to request and obtain a permit from the city prior to performing any of the above- listed activities in, on or over any public right-of-way, except in an emergency as provided for in subsection (10) [(9)] below, will subject the person to a stop-work order from the city and enforcement action pursuant to the city's Code of Ordinances. If the person fails to act upon any permit within 90 calendar days of issuance, the permit shall become invalid unless extended by the city upon showing of a good cause. Upon expiration of a permit, a person shall be required to obtain another permit pursuant to the requirements of this article.

(C) At least forty-five (45) days prior to submission of an application for a construction permit for a capital improvements project, a person shall furnish the director with construction plans and maps using the standard format adopted by the department of municipal services, showing the location and plans and specifications for a permit for construction of a capital improvements project [and a permit shall not be issued] until all required plans and drawings have been approved in writing by the city, which approval will not be unreasonably withheld, taking due consideration of the surrounding area and alternative locations for the facilities and routing.

(D) At least three days before beginning excavation, construction, installation, expansion, reconstruction, relocation, alteration, removal, maintenance or repair of facilities for a project that involves an alteration to the surface or subsurface of the public rights-of-way but is not a capital improvements project, a person shall submit an application for a permit for the standard format adopted by the department of municipal services, showing the location and proposed routing of the excavation, construction, installation, expansion, reconstruction, relocation, alteration, removal, maintenance or repair unless otherwise approved by the director. A person may not begin construction until the location of new facilities and proposed routing of the new construction or reconstruction and all required plans and drawings have been approved in writing by the city and a permit has been issued, which issuance will not be unreasonably withheld, taking due consideration of the surrounding area and alternative locations for the facilities and routing.

Unedited First Draft

(E) Construction plans and maps shall show all features within the public rights-of-way that would affect the placement of the proposed facilities such as, yet not limited to, existing underground and aerial wires or conduits, ducts, poles, wires, pipes, sewerage, water lines and cables as well as their ownership; traffic signal and streetlight poles; fire hydrants; driveways; curbs, inlets and drains; sidewalk; wheelchair ramps; and trees and large shrubs. Drawings shall be drawn to an appropriate scale of no larger than one inch (1") equals fifty feet (50') using the standard formats adopted by the municipal services department. State plane coordinates shall be shown for benchmarks, curblines and elevations. If typical are used, they shall reference the station numbers for which they are to be applied. Traffic- control plans shall be in conformance with the latest revision of the Texas Manual on Uniform Traffic Control Devices (MUTCD).

(F) A person shall use its best efforts to coordinate joint trenching with any other persons and/ or public utilities which may be constructed in and along the same public rights-of-way in a time frame reasonably similar to the person's construction timetable. The department of municipal services may mandate such coordination to the fullest extent allowed by law.

(G) To the extent known, plans for ongoing repair, maintenance and improvements which involve cutting into paved city roads and streets shall be submitted to the director of municipal services on an annual basis, no later than April of each year and updated based upon any changes. This does not require any proprietary information such as equipment or customer-specific information. Such information may be designated confidential and to the extent allowed by law will be kept confidential by the city. Alternatively, a person may meet with the appropriate representative of municipal services each calendar quarter to provide such plans to the extent known.

(H) Once a permit is issued, the department of municipal services shall be notified at least 24 hours in advance that construction in the public rights-of-way is ready to proceed by a person or its representative. Information signs (at least three feet (3') by three feet (3') in size (3' x 3') stating the identity of the person doing the work, their telephone number and the person's identity and telephone number shall be placed at the location where construction is to occur 48 hours prior to the beginning of work in the public rights-of-way and shall continue to be posted at the location during the entire time the work is occurring or until permanent repairs are completed.

(I) Erosion control measures and advance warning signs, markers, cones and barricades must be in place before work begins. A person may be required to show proof of engineered plans relating to stormwater and erosion when applicable or a letter stating a person is not required to obtain such plans. A person shall be responsible for stormwater management erosion control that complies with city, state and federal guidelines as applicable.

(J) Lane closures on major thoroughfares will be limited to between 9:00 a.m. and 4:00 p.m. unless the department of municipal services grants prior approval. Arrow boards will be required on lane closures with all barricades, advance warning signs and thirty-six inch (36") reflector cones placed according to the specification of the city. Working hours in the public rights-of-way are limited to the hours between 7:00 a.m. to 6:00 p.m. Monday through Friday. Work to be performed after 6:00 p.m. on Monday through Friday or on Saturday must be approved by the department of municipal services

Unedited First Draft

in advance. Directional boring is permitted only Monday through Friday 7:00 a.m. to 6:00 p.m. No work in the public rights-of-way shall be performed except for emergencies on Sundays or on holidays.

(K) Without affecting the legal relationship between a person and its contractors, a person is responsible for the workmanship and any damages by a contractor or subcontractor.

(L) If additional poles and [on an] existing aerial utility route are required, a person shall negotiate with the utility company for the installation of the needed poles in accordance with existing statutes and regulations. However, if the utility will not install new poles on a reasonable basis, then a person may erect its own poles.

(4)

(A) Within 14 days of complete excavation, construction, installation, expansion, reconstruction, relocation, alteration, removal, maintenance or repair of facilities or other work in the public rights-of-way, a person shall temporarily restore and repair the public rights-of-way in accordance with applicable sections of the Code of Ordinances of the city. Within 30 calendar days after completion of work in the public rights-of-way, the person shall permanently restore, replace, re-lay or repair the surface, base, curbs, drainage systems, irrigation systems, landscape treatment or other city facilities and infrastructure located on, in and under any public rights-of-way that has been excavated, altered or damaged by reason of the excavation, construction, installation, expansion, reconstruction, relocation, alteration, removal, maintenance or repair of the person's facilities in accordance with existing standards of the city in effect at the time of the work. Upon a showing of good cause, the city may at its sole discretion extend the time for restoration and repair of the public rights-of-way under this subsection. Unless the person provides a recent dated photograph or a videotape of the public rights-of-way before the construction, the condition of the public rights-of-way before construction should be presumed in good condition, subject only to reasonable wear and tear as determined by the director.

(B) Whenever a person shall disturb or destroy any right-of-way markers or monuments, it shall restore the same within 30 days after construction has ceased. A person shall furnish three sets of drawings, blueline or blackline, detailing the restored monumentation. State plane coordinates shall be shown for all monumentation (existing or restored). The drawings shall be signed (original signature), sealed and certified by a registered professional land surveyor and delivered to the director of municipal services for approval no later than 30 days after construction has ceased.

(5) Upon failure of a person to perform any such repair or replacement work after five days' written notice has been given by the city to the person, and in the event repairs have not been initiated during such five day period, the city may repair such portion of the public rights-of- way as may have been disturbed by the person, its contractors or agents. The city may, at its discretion for good cause, alter the five day period. Upon receipt of an invoice from the city, the person shall reimburse the city for the costs so incurred within 30 calendar days from the date of the city invoice.

(6) Should the director reasonably determine within one year from the date of the completion of the repair work that the surface, base, curbs, drainage systems, irrigation systems, landscape

Unedited First Draft

treatment or other city facilities and infrastructure located on, in or under any public rights-of-way requires additional restoration, replacement or repair work to meet existing standards of the city, a person shall perform such additional restoration, replacement or repair work to the satisfaction of the city, subject to all city remedies as provided herein.

(7) Notwithstanding the foregoing in subsection (6), if the director determines that the failure of a person to properly repair or restore the public rights-of-way constitutes a safety hazard to the public, the city may undertake emergency repairs and restoration efforts after emergency notice has been provided to the extent reasonable under the circumstances and the person failed to respond within a reasonable time specified by the city. Upon receipt of an invoice from the city a person shall promptly reimburse the city for all costs incurred by the city within 30 calendar days from the date of the city invoice.

(8) If the director declares an emergency with regard to the health and safety of the citizens and requests by written notice the removal or abatement of facilities, a person shall remove or abate the person's facilities by the deadline provided in the director's request. The person and the city shall cooperate to the extent possible to assure continuity of service. If the person, after notice, fails or refuses to act, the city may remove or abate the facility at the sole cost and expense of the person without paying compensation to the person and without the city incurring liability for damages.

(9) Except in the case of customer service interruptions and imminent harm to property and persons ("emergency conditions"), a person may not excavate the pavement of a street or public rights- of-way without first complying with city requirements. The city department of municipal services shall be notified as promptly as possible regarding work performed under such emergency conditions and the persons shall comply with the requirements of city standards and of this article for restoration, replacement or repair of the public rights-of-way. Any emergency repairs requiring saw cuts shall be performed in accordance with standards established by the director.

(10)

(A) Within 120 days of completion of each new permitted section of a person's facilities, the person shall supply the city with a complete set of "as built" drawings for the segment in a format used in the ordinary course of the person's business to the extent they are prepared in the ordinary course of business, excluding customer-specific, proprietary or confidential information and as reasonably prescribed by the city as is described below, and as may be allowed by law. Such "as built" maps may be corrected and revised construction plans. In the event the facilities were built as specified in the originally submitted plans, the person may certify to the city that there were no changes. The city may, at its discretion, accept in lieu of "as built" drawings any reasonable alternative which provides adequate information as to the vertical depth, linear location and size of facilities in the public rights-of-way which may include direct on-line access to such information.

(B) To the extent the person's customary as-built format will conform without economic impracticability, a person shall furnish the city "as-built" drawings as follows: Drawings shall show ownership of conduits, ducts, poles, cables and other facilities placed within the public rights-of-way. Drawings shall be drawn to a scale of one inch (1") equals twenty feet (20') on twenty-four inch (24") by thirty-six inch (36") sheets (24 x 36) and one inch (1") equals forty feet (40') on eleven inch (11") by seventeen inch (17") sheets (11 x 17) using the standard format

Unedited First Draft

adopted by the department of municipal services. A person shall provide one set of all such drawings on diskette in Autocad or Microstation format drawn to full scale and one set of blue- or black-lined "as built" drawings on vellum or mylar to the director of the department of municipal services. State plane coordinates shall be shown for benchmarks, curblines and structures. Drawings shall show horizontal dimensions from the curbline and elevations.

(C) All persons who have facilities in the public rights-of-way existing as of the date of this article and who have not provided "as built" drawings shall do so no later than 60 days after the passage of this article, unless the person demonstrates an economic impracticality to provide such "as built" drawings in the above format. The city may waive such "as built" maps as to existing facilities for good cause.

(D) If "as built" drawings submitted under this section include information expressly designated by the person as a trade secret or other confidential proprietary information protected from disclosure by state or federal law, the director may not disclose that information to the public without the consent of the person, unless otherwise required by an opinion of the attorney general pursuant to the Texas Public Information Act, as amended, or by a court having jurisdiction of the matter pursuant to applicable law or as otherwise required by law. This subsection may not be construed to authorize a person to designate all matters as confidential or as trade secrets.

(11) Except as to CVSPs to the extent modified by the Texas Utility Code, chapter 66, the director shall require reasonable bonding requirements of a person, as are required of other entities that place facilities in the public rights-of-way. Such bonding amounts will be reasonably determined by the director depending on several factors as to public safety and risk of harm to persons and property. Such factors include:

(A) The nature of the construction project (overhead, trenchless, open trench);

(B) Type of facility (gas, electric, water, telecommunications, cable, fiber);

(C) Past construction history of person in the city as to any damage claims, repairs and timeliness of construction.

The city may in a non-discriminatory manner waive or reduce the amount of the bond in the event the person provides written documentation as to reserves available to compensate the city for damages and has a two year history of no claims or damages to city property by the city or of prompt payment on such claims.

(12) In determining whether any requirement under this section is unreasonable or unfeasible, the director or his/her designee shall consider, among other things, whether the requirement would subject the person or persons to an unreasonable increase in risk or service interruption, or to an unreasonable increase in liability for accidents, or to an unreasonable delay in construction or in availability of its services or to any other unreasonable technical or economic burden.

(13) A person issued a permit pursuant to this article shall, at all times, employ the standard of care attendant to the risks involved to prevent actions, failures and accidents which may cause damage, injury or nuisance to persons, the public, the facilities or of other persons, or to any city structures or structures owned by other persons located in the public rights-of-way. A person issued a permit pursuant to this article shall observe all federal and state statutes and regulations and all applicable city ordinances and

Unedited First Draft

safety codes. A person issued a permit pursuant to this article shall keep and maintain its facilities in a safe and suitable condition and in good order and repair sufficient for its intended purpose.
(Code 1996, § 3.19.007; Ord. No. O-860-07, 11/19/07)

Sec. 3.19.007. Conditions of public rights-of-way occupancy.

(a) In the exercise of governmental functions, the city has first priority over all other users of the public rights-of-way. The city reserves the right to lay sewer, gas, water facilities and any other pipelines or cables and conduits, and to do underground and overhead work and have attachments and require restructuring or changes in the city's aerial facilities in, across, along, over or under a public street, alley or public rights-of-way that may be occupied by a person and to change the curb, route or grade of sidewalks and streets, to the fullest extent allowed by law.

(b) The city shall assign the location in or over the public rights-of-way among competing users of the public rights-of-way with due consideration to the public health and safety considerations of each user type, and to the extent that the city can demonstrate that there is limited space available for additional users, may limit new users, as allowed under state or federal law. As a priority, each user of the public rights-of-way will be allowed one alignment on one side of the street for placement of its facilities, provided there is adequate space available. In the event an additional alignments or both sides of the street have been requested by a user, the director will grant such request, provided there is adequate space available and the requestor has demonstrated the financial or technical impracticability of the use of the requestor's single alignment or use of only one side of the street.

(c) If the city authorizes abutting landowners to occupy space under the surface of any public street, alley, or public rights-of-way, the grant to an abutting landowner shall be subject to the rights of the previously authorized user of the public rights-of-way.

(d) (1) If the director gives written notice, a person shall, at its own expense, temporarily or permanently, remove, relocate, change or alter the position of person's facilities that are in the public rights-of-way within 120 days, except in circumstances that require additional time as reasonably determined by the city based upon information provided by the person.

(2) For projects expected to take longer than 120 days to remove, relocate, change or alter, the director will confer with the person before determining the alterations to be required and the timing thereof. The director shall give notice whenever the city has determined that removal, relocation, change or alteration is reasonably necessary for the construction, operation, repair, maintenance or installation of a city governmental public improvement in the public rights-of-way. This section shall not be construed to prevent a person's recovery of the cost of relocation or removal from private third parties who initiate the request for relocation or removal, nor shall it be required if improvements are solely for beautification purposes without prior joint deliberation and agreement with the person. On a non-discriminatory basis, the director and a person may agree in writing to different time frames than those provided above if circumstances reasonably warrant such a change.

(e) If the person fails to relocate facilities in the time allowed by the director in this section, the person may be subject to liability to the city for such delay and as set forth in the city codes or ordinances, now or hereafter enacted.

(f) A person may trim trees or other vegetation in or over the public rights-of-way as needed for the safe and reliable operation, use and maintenance of its facilities. All tree trimming shall be performed in accordance with standards promulgated by the city. Should the person, its contractor or agent, fail to

Unedited First Draft

remove such trimmings within 24 hours, the city may remove the trimmings or have them removed, and upon receipt of a bill from the city, the person shall promptly reimburse the city for all costs incurred within 30 working days. A person shall not be responsible for tree trimming or removal, except as to the trimming required to construct, maintain or restore utility service.

(g) A person shall temporarily remove, raise or lower its aerial facilities to permit the moving of houses or other bulky structures, if the requesting party provides written notice to [such person] no less than five days, except for good cause shown. The expense of these temporary rearrangements shall be paid by the party or parties requesting and benefiting from the temporary arrangements. The person may require prepayment or prior posting of a bond from the party requesting the temporary move.

(h) In the event a person's use of the facilities is discontinued, the person shall be notified by the city and thereafter shall forthwith remove its facilities therefrom unless specifically permitted to continue the same, and on the removal thereof shall restore, repair or reconstruct the street area where such removal has occurred, and place the street area where such removal has occurred in the condition prior to the removal, as determined by the city. In the event of failure, neglect or refusal of the person, after 30 days' notice by the director to repair, improve or maintain such street portion, the city may do such work or cause it to be done, and the reasonable cost thereof as determined by the city shall be paid by the person and collection may be made by court action or otherwise.
(Code 1996, § 3.19.007; Ord. No. O-860-07, 11/19/07)

Sec. 3.19.008. Insurance requirements.

(a) Except as to CVSPs to the extent modified by V.T.C.A., Utility Code, ch. 66, a person shall obtain and maintain insurance in the amounts reasonably prescribed by the director with an insurance company licensed to do business in the state and acceptable to the city. A person shall furnish the director with proof of insurance at the time of the request for construction permits. The director reserves the right to review the insurance requirements and to reasonably adjust insurance coverage and limits when the director determines that changes in statutory law, court decisions or the claims history of the industry or the person may require adjustment for coverage. For purposes of this section, the city will accept certificates of self-insurance issued by the state or letters written by the person in those instances where the state does not issue such letters, and in all such instances, the person that self-insures shall provide written documentation as to substantially the same coverage, claims process and defense to the city as would be provided by an insurance carrier as required herein, all as may be detailed in the information provided to the city. However, for the director to accept such self-insurance coverage the person must demonstrate by written information that it has adequate financial information requested by and furnished to the city. The city's insurance requirements are described in exhibit A attached to Ordinance O-860-07.

(b) A person shall furnish to the director, at no cost to the city, copies of certificates of insurance evidencing the coverage required by this section. The city may request the deletion, revision or modification of particular policy terms, conditions, limitations or exclusions, unless the policy provisions are established by a law or regulation binding the city, the person or the underwriter. If the city requests a deletion, revision or modification, a person shall exercise reasonable efforts to pay for and to accomplish the change.

(c) The insurance certificate required under subsection (b) shall:

(1) Name the city and its officers, employees, board members and elected representatives as additional insureds for all applicable coverage;

Unedited First Draft

(2) Provide for 30 days' written notice to the city for cancellation, non-renewal or material change; and

(3) Provide that written notice of claims shall be provided to the director by certified mail.

(d) A person shall file and maintain proof of insurance with the director. An insurance certificate obtained in compliance with this section is subject to city attorney approval. The city may require the certificate to be changed to reflect changing liability limits. A person shall immediately advise the city attorney of actual or potential litigation that may develop or affect an existing carrier's obligation to defend and indemnify.

(e) An insurer has no right of recovery against the city. The required insurance policies shall protect the person and the city. The insurance shall be primary coverage for losses covered by the policies.

(f) The policy clause "Other Insurance" shall not apply to the city if the city is an insured under the policy.

(g) A person shall pay premiums and assessments for the insurance required under this section. A company which issues an insurance policy has no recourse against the city for payment of a premium or assessment. Insurance policies obtained by a person must provide that the issuing company waives all right of recovery by way of subrogation against the city in connection with damage covered by the policy. (Code 1996, § 3.19.008; Ord. No. O-860-07, 11/19/07)

Sec. 3.19.009. Indemnity.

(a) Except as to CTPs and CVSPs each person placing facilities in the public rights-of-way shall agree to promptly defend, indemnify and hold the city harmless from and against all damages, costs, losses or expenses:

(1) For the repair, replacement or restoration of the city's property, equipment, materials, structures and facilities which are damaged, destroyed or found to be defective as a result of the person's acts or omissions;

(2) From and against any and all claims, demands, suits, causes of action and judgments for:

(A) Damage to or loss of the property of any person (including yet not limited to the person, its agents, officers, employees and subcontractors, city's agents, officers and employees and third parties); or

(B) Death, bodily injury, illness, disease, loss of services, or loss of income or wages to any person (including yet not limited to the agents, officers and employees of the person, person's subcontractors and city third parties), arising out of, incident to, concerning or resulting from the negligent or willful act or omissions of the person, its agents, employees or subcontractors, in the performance of activities pursuant to or authorized under this article.

Upon commencement of any suit, proceeding at law or in equity against the city relating to or covering any matter covered by this indemnity, to indemnify and hold the city harmless, or to pay said final judgment and costs, as the case may be, the city shall give the person reasonable notice that the city shall have the right to defend the same in addition of to being reimbursed for any such judgment that may be rendered against the city, together with all court costs incurred therein, the person shall promptly reimburse the city for attorney's fees, including those employed by the city in such case or cases, as well

Unedited First Draft

as all expenses incurred by the city by reason of undertaking the defense of such suit or suits, whether such suit or suits are successfully defended, settled, compromised or fully adjudicated against the city.

(b) This indemnity provision shall not apply to any liability resulting from the negligence of the city, its officers, employees, agents, contractors or subcontractors.

(c) The provisions of this indemnity are solely for the benefit of the city and is not intended to create or grant any rights, contractual or otherwise, to any person or entity.

(d) To the fullest extent permitted by law, a person shall pay all expenses incurred by the city in defending itself with regard to all damages and penalties provided in this article. These expenses shall include all out-of-pocket expenses such as attorney's fees and shall also include the reasonable value of any services rendered by any employees of the city. In the event the city is compelled to undertake the defense of any such suit by reason of a person's failure to perform as hereinabove provided, the city shall have the full right and authority to make or enter into any settlement or compromise of such adjudication as the city council shall deem in the best interest of the city, this without the prior approval or consent of the person with respect to the terms of such compromise or settlement.
(Code 1996, § 3.19.009; Ord. No. O-860-07, 11/19/07)

Sec. 3.19.010. Governing law.

This article shall be construed in accordance with the city codes in effect on the date of passage of this article to the extent that such codes are not in conflict with or in violation of the constitution and laws of the United States of the state, subject to the city's ongoing authority to adopt reasonable police power based regulations to manage its public rights-of-way, pursuant to sections 3.19.006 and 3.19.007 herein or as otherwise provided by law.
(Code 1996, § 3.19.010; Ord. No. O-860-07, 11/19/07)

Sec. 3.19.011. Unauthorized use of public rights-of-way; penalty.

(a) The city may institute all appropriate legal action to prohibit any person from knowingly utilizing the public rights-of-way unless the person has complied with the provisions of this article.

(b) A person commits a class C misdemeanor offense if that person knowingly commences or continues with the construction or installation of facilities within the public rights-of-way, except as permitted by this article or state law, as it exists or as it may be amended. Each day that a person continues with the construction or installation of facilities or knowingly engages in maintenance that requires excavation or blocks the public rights-of-way in violation of this article constitutes a separate offense.
(Code 1996, § 3.19.011; Ord. No. O-860-07, 11/19/07)

Sec. 3.19.012. Construction permit application.

Each construction permit application to use the public rights-of-way shall contain or have attached, the following statement: "By this application for a construction permit to use the public rights-of-way, I, _____ as the lawful representative of _____ [not the contractor but a representative of the facility owner with authority to bind the owners], hereby agree to use the city's public rights-of-way management regulations." Name Title Date
(Code 1996, § 3.19.012; Ord. No. O-860-07, 11/19/07)

Chapter 30

TAXATION

ARTICLE I. IN GENERAL

ARTICLE II. PROPERTY TAXES

Sec. 11.02.001. Tax collector office established.

(a) The city has established the office of tax collector for the city. The tax collector shall be appointed by the city manager. The position of tax collector may be combined with other positions at the discretion of the city council. The tax collector shall receive such compensation as may be allowed by the city council.

(b) The tax collector shall provide for collection of all property taxes due the city, assist the city council in complying with tax increase notices, issue tax certificates, prepare delinquent tax rolls, make reports to the city council on taxes collected and perform such other duties as may be required by state property tax laws and directives of the city council.

(c) The tax collector shall give the city a bond in the amount of $10,000.00. The tax collector shall be registered and certified as may be required by state law.
(Code 1996, § 11.02.001)

Sec. 11.02.002. Participation in appraisal district.

The city has elected to participate in the Dallas County Appraisal District. The appraisal district shall be authorized to perform all appraisal and assessment functions required under the state property tax code. The city shall retain collection functions.
(Code 1996, § 11.02.002)

Sec. 11.02.003. Residence homestead exemptions for elderly and disabled.[98]

(a) Elderly exemption. Pursuant to article VIII, section 1-b of the Texas Constitution, $25,000.00 of assessed value of the residential homesteads of persons 65 years of age or older shall be exempt from city ad valorem taxes when taxes are levied for the year 2003, and for all subsequent levies, upon the owner's compliance with the following requirements:

(1) The owner of the residence homestead, or one of the spouses if the residence homestead is owned by a married couple, shall be 65 years of age or older as of January 1 of each tax year, beginning with 2003.

(2) All prior year's taxes be paid, and all special assessment payments shall be kept current before exemption hereunder may be granted.

---

[98] **Sec. 11.02.003. Residence homestead exemptions for elderly and disabled.** Unnecessary dates are stricken as shown.

Unedited First Draft

(3) The owner of the residence homestead shall submit to the Dallas Central Appraisal District, before May first of each year, an affidavit that the owner or one of the spouses if the residence homestead is owned by a married couple, is 65 years of age or older. The initial exemption claim shall be accompanied by adequate proof of such age. An exemption, once allowed, need not be claimed in subsequent years. The exemption applies to the property until it changes ownership or the person's qualification for the exemption changes.

(b) Disabled exemption. ~~There be and is hereby ordained for the fiscal year beginning on October 1, 2005, and ending on September 30, 2006, and~~ For each fiscal year ~~thereafter~~ until otherwise provided, the city has ordained a $25,000.00 ad valorem tax exemption for disabled persons on the assessed value of residential homesteads within the corporate limits for the city.
(Code 1996, § 11.02.003; Ord. No. 755-03, 6/16/03; Ord. No. 794-05, 6/6/05)

Sec. 11.02.005. Tax due date.

The property taxes levied by the city each year shall become due on the first day of October of each year for which the levy is made and shall become delinquent on the following first day of February. Penalties and interest for delinquent taxes shall incur in accordance with V.T.C.A., Property Tax Code, § 33.01.
(Code 1996, § 11.02.005)

Sec. 11.02.006. Recovery of costs and expenses.[99]

In addition to other costs authorized by law, the city is entitled to recover costs and expenses in a suit to collect delinquent taxes as provided for in V.T.C.A., Tax Code, § 33.48 ~~of the state Property Tax Code~~.
(Code 1996, § 11.02.006)

Sec. 11.02.007. Additional penalty for collection costs.

(a) The tax collector of this jurisdiction is hereby directed to cause to be mailed, as expeditiously as possible, notices to all delinquent taxpayers, where addresses are available, of the additional penalty to be imposed, as hereinafter set forth, on all taxes delinquent.

(b) The tax collector is directed to annually mail notices during the month of May to all current year delinquent taxpayers advising them of the additional penalty, as hereinafter set forth, to be imposed as of July 1 on all unpaid current year delinquent taxes.

(c) An additional penalty of 15 percent of the taxes, penalty and interest shall be incurred; furthermore, taxes becoming delinquent shall incur this additional penalty July 1 of the year in which they become delinquent.
(Code 1996, § 11.02.007)

Sec. 11.02.008. Taxation of freeport goods.

All of that property described in the Texas Constitution, article VIII, section 1-j, shall be fully taxable in the city.
(Code 1996, § 11.02.008)

---

[99] **Sec. 11.02.006. Recovery of costs and expenses.** Citation is corrected as shown.

Unedited First Draft

ARTICLE III. SALES TAX

Sec. 11.03.001. Local sales tax adopted.[100]

A local sales tax of one percent as provided for in the Local Sales and Use Tax Act of 1967 was adopted by the voters of the city as a result of an election held for that purpose on April 3, 1971, and is continued under the Municipal Sales and Use Tax Act, V.T.C.A., Tax Code, § 321.001 et seq.
(Code 1996, § 11.03.001)

Sec. 11.03.002. Local sales tax retained on residential gas and electricity.[101]

The tax imposed by the city pursuant to the ~~provisions of the~~ Local Sales and Use Tax Act of 1967 ~~is hereby retained~~ on receipts from the sale, production, distribution, lease or rental of, and the use, storage or other consumption of gas and electricity for residential use, is continued as authorized by V.T.C.A., Tax Code, § 321.105 ~~section 6 of House Bill No. 1, Acts 1978, 65th Legislature, Second Called Session~~.
(Code 1996, § 11.03.002)

Sec. 11.03.003. Taxation of telecommunications services.[102]

(a) The city has imposed a tax on all telecommunications services sold within the city. For purposes of this section, the sale of telecommunications service is consummated at the location of the telephone or other telecommunications device from which the call or other communication originates. If the point of origin cannot be determined, the sale is consummated at the address to which the call or other communication is billed.

(b) The rate of the tax imposed by this section shall be the same as the rate imposed by the city for all other local sales and use taxes as authorized by the legislature of the state.

~~The city secretary shall forward to the comptroller of the state by United States registered mail a copy of this section along with a copy of the minutes of the city council's vote and discussion of this section.~~
(Code 1996, § 11.03.003)

ARTICLE IV. COIN-OPERATED MACHINES TAX

Sec. 11.04.001. Coin-operated machines tax.[103]

(a) An occupation tax by the city is hereby levied and imposed on each coin-operated machine that an owner exhibits or displays, or permits to be exhibited or displayed, the rate to be one-fourth of the maximum permitted state rate ~~currently being a tax of one-fourth (1/4) of sixty dollars ($60.00) per machine, or fifteen dollars ($15.00) per machine~~.

---

[100] **Sec. 11.03.001. Local sales tax adopted.** Citation is added as shown.

[101] **Sec. 11.03.002. Local sales tax retained on residential gas and electricity.** Citations are updated

[102] **Sec. 11.03.003. Taxation of telecommunications services.** Unnecessary text is stricken as shown.

[103] **Sec. 11.04.001. Coin-operated machines tax.** Tax amount is stricken as unnecessary.

Unedited First Draft

(b) The following coin-operated machines shall be exempt from the tax imposed by subsection (a) of this article, in accordance with V.T.C.A., Occupations Code, § 2153.004:

(1) A stamp vending machine;

(2) A service coin-operated machine; or

(3) If subject to an occupation or gross receipts tax, a:

(A) Gas meter;

(B) Food vending machine;

(C) Confection vending machine;

(D) Beverage vending machine;

(E) Merchandise vending machine; or

(F) Cigarette vending machine.

(Code 1996, § 11.04.001; Ord. No. 700-01, 4/16/01)

ARTICLE IV. HOTEL OCCUPANCY TAX

Sec. 11.05.001. Definitions.[104]

The following words, terms, and phrases, when used in this article, shall have the meanings ascribed to them in this article, except where the context clearly indicates a different meaning:

Consideration. The monetary cost of a room or sleeping space in a hotel only if the room is one ordinarily used for sleeping and shall not include the cost of any food served or personal services rendered to the occupant of such room not related to the cleaning and readying of such room for occupancy.

Hotel. Any building or buildings in which members of the public may, for consideration, obtain sleeping accommodations. The term includes hotels, motels, bed and breakfasts, tourist homes, houses or courts, lodging houses, inns, rooming houses, or other buildings where rooms are furnished for consideration, but "hotel" shall not include hospitals, sanitariums, nursing homes, or dormitories or other housing facilities owned or leased and operated by an institution of higher education or a private or independent institution of higher education.

Occupancy. The use or possession, or the right to the use or possession, of any room or space in a hotel if the room or space is one which is ordinarily used for sleeping and if the occupant's use, possession or right to use or possession extends for a period of less than 30 days.

Occupant. Anyone who, for consideration, uses, possesses, or has a right to use or possess any room in a hotel if the room is one ordinarily used for sleeping.

---

[104] **Sec. 11.05.001. Definitions.** Definition duplicative of chapter 1 is stricken as shown.

Unedited First Draft

~~Person. Any individual, corporation, or other legal entity.~~

Quarterly period. The regular calendar quarters of the year, the first quarter being composed of the months of January, February and March; the second quarter being the months of April, May and June; the third quarter being the months of July, August and September, and the fourth quarter being the months of October, November and December.
(Code 1996, § 11.05.001; Ord. No. O-04-19, 6/18/19)

Sec. 11.05.002. Tax imposed.

Under the provisions of V.T.C.A., Tax Code, § 351.002, the city has levied upon the cost of occupancy of any room furnished by any hotel within the corporate limits of the city a hotel occupancy tax equal to seven percent of the consideration paid by the occupant of such room to such hotel, where the consideration of occupancy is at the rate of $2.00 or more per day and such room or space is ordinary used for sleeping. This tax is exclusive of other occupancy taxes imposed by other governmental agencies under the law.
(Code 1996, § 11.05.002; Ord. No. O-04-19, 6/18/19)

Sec. 11.05.003. Collection of tax.

Every person owning, operating, managing, or controlling any hotel shall collect the tax levied by this section for the city.
(Code 1996, § 11.05.003; Ord. No. O-04-19, 6/18/19)

Sec. 11.05.004. Payment of tax and reporting.

The taxes provided for herein shall be paid on a monthly period basis. On or before the 20th day of the month following each calendar month, every person required by this article to collect the taxes imposed herein shall file a report with the director of finance of the city showing the consideration paid for all room occupancies in the preceding calendar month, the amount of the taxes collected on such occupancies and such other information as the director of finance may reasonably require. The report shall be submitted in a form prescribed by the director of finance of the city. Such person shall pay the taxes due on such occupancies at the time of filing of such report.
(Code 1996, § 11.05.004; Ord. No. O-04-19, 6/18/19)

Sec. 11.05.005. Rules and regulations; access to books, records.

The director of finance of the city shall have the power to make such rules and regulations as are reasonable and necessary to effectively collect the tax levied herein, and shall, upon reasonable notice, have access to all books and records of hotels subject to this article as necessary to enable the director of finance to determine the correctness of any report filed as required by this article, and the amount of taxes due under the provisions of this article.
(Code 1996, § 11.05.005; Ord. No. O-04-19, 6/18/19)

Sec. 11.05.006. Effect of failure to collect tax, file report.

(a) Any person who fails to collect the tax levied herein, fails to file a report as required herein, files a false report, or fails to pay the director of finance the tax imposed herein when due, shall owe a penalty of five percent of the total tax amount due. After the first thirty 30 days, the person shall owe an additional five percent of such tax. Delinquent taxes shall further draw interest at the rate of ten percent

Unedited First Draft

per annum beginning 60 days from the due date.

(b) The city attorney or other attorney acting for the city may bring suit against a person who is required to collect the tax imposed by this article and pay the collections over to the city and who has failed to file a tax report or pay the tax when due under this article to collect the tax not paid, to enjoin the person from operating a hotel in the city until the tax is paid or the report filed, or both, or seek any other remedy permitted by law. In addition to the amount of any tax owed under this article, the city may also seek recovery of and shall be entitled to recovery of the city's reasonable attorney's fees incurred in bringing the action.
(Code 1996, § 11.05.006; Ord. No. O-04-19, 6/18/19)

Sec. 11.05.007. Penalty of fine.

Any person violating any of the provisions of this article, including persons who fail to collect the tax, file a false return, or are delinquent in the submitting of a report or tax required by this article, shall be charged with a misdemeanor and shall, upon conviction, be fined in any sum not to exceed $500.00, and each 24 hours of any such violation shall constitute a separate offense.
(Code 1996, § 11.05.007; Ord. No. O-04-19, 6/18/19)

Sec. 11.05.008. Use of revenues.

All revenue received from any hotel occupancy tax authorized under this article shall be used only for those purposes authorized by V.T.C.A., Tax Code, ch. 351.
(Code 1996, § 11.05.008; Ord. No. O-04-19, 6/18/19)

Sec. 11.05.009. Collection procedures upon purchase of hotel.

(a) If a person who is liable for the payment of an amount under this article is the owner of the hotel and sells the hotel, the successor to the seller or the seller's assignee shall withhold an amount of the purchase price sufficient to pay the amount due until the seller provides a receipt from the tax collector/assessor of the city showing that the amount has been paid or a certificate stating that no amount is due.

(b) The purchaser of a hotel who fails to withhold an amount of the purchase price as required by this article is liable for the amount required to be withheld to the extent of the value of the purchase price.

(c) The purchaser of a hotel may request that the tax assessor/collector of the city issue a certificate stating that no tax is due or issue a statement of the amount required to be paid before a certificate may be issued. The director of finance of the city shall issue the certificate or statement not later than 60 days after receiving the request.

(d) If the tax assessor/collector of the city fails to issue the certificate or statement within the applicable period provided by subsection (c) of this section, the purchaser is released from the obligation to withhold the purchase price or pay the amount due.

(e) The period of limitation during which the tax assessor/collector of the city may assess tax against the purchaser under this section is four years from the date when the former owner of the hotel sells the hotel or when a determination is made against the former owner, whichever event occurs later. At any time within three years after a deficiency determination against the purchaser has become due and payable, the city attorney may bring an action in a district court of the county or a court of any other state

Unedited First Draft

of the United States in the name of the city to collect the delinquent amounts, together with penalties and interest and all other available legal remedies, including the recovery of the city's reasonable and necessary attorney's fees expended in bringing such action.
(Code 1996, § 11.05.009; Ord. No. O-04-19, 6/18/19)

Chapter 32

TRAFFIC AND VEHICLES

ARTICLE I. IN GENERAL

Sec. 12.01.001. Traffic division of police department established; enforcement authority.

(a) The city has established within the city police department a traffic division to be under the control of an officer of police appointed by and directly responsible to the police chief.

(b) It shall be the duty of the traffic division to make arrests for violations of this chapter, to investigate accidents and to cooperate with the city traffic engineer and other officers of the city in the administration of the street and pedestrian conditions, and to carry out the duties specifically imposed on the division by this chapter and other provisions of this Code.

(c) In carrying out its duties, the traffic division may be aided by other members of the police department or code enforcement or any person designated by the police chief to enforce city and state street and pedestrian traffic regulations.
(Code 1996, §§ 12.01.001, 12.01.002; Ord. No. 748-03, 4/7/03)

Sec. 12.01.003. Records of traffic violations.

The traffic division of the police department shall keep a record of all violations of the traffic ordinances of this city or of the state vehicle laws of which any person has been charged, together with a record of the final disposition of all such alleged offenses. Such records shall maintain a complete detail of all violations of this chapter on a continuing basis for a minimum of the immediately passed five-year period.
(Code 1996, § 12.01.003)

Sec. 12.01.004. City traffic engineer designated; authority and duties.[105]

(a) The city has established the office of city traffic engineer. The police chief shall serve as city traffic engineer in addition to his other functions until such time as the city council shall determine otherwise. The traffic engineer shall exercise the powers and duties with respect to traffic as provided in this chapter.

(b) It shall be the general duty of the city traffic engineer to determine the installation and proper timing and maintenance of traffic-control devices, to conduct engineering analysis of traffic accidents and to devise remedial measures, to conduct engineering investigation of traffic conditions, to cooperate with other city officials in the development of ways and means to improve traffic conditions, and to carry out the additional powers and duties imposed by the city.

(c) The city traffic engineer is authorized to promulgate, establish, and enforce temporary or experimental regulations to ensure enforcement of the provisions of this chapter and state traffic law and to cover emergencies. No such temporary or experimental regulations shall remain in effect for more than 30 days.

---

[105] **Sec. 12.01.004. City traffic engineer designated; authority and duties.** Text duplicative of the following sections is stricken as shown.

Unedited First Draft

~~The city traffic engineer may test traffic control devices under actual conditions in traffic, and may place signs prohibiting or restricting the stopping, standing, or parking of vehicles on any highways, roads, streets, boulevards, pathways, and alleyways where the opinion of the city traffic engineer shall deem such stopping, standing, or parking is dangerous to those using the highways, roads, streets, boulevards, pathways, and alleyways, or where the stopping, standing, or parking of vehicles would unduly interfere with the free movement of traffic thereon. Such signs shall be official signs and no person shall stop, stand, or park a vehicle in violation of the restrictions stated on such signs.~~
(Code 1996, §§ 12.01.004, 12.01.005)

Sec. 12.08.001. When vehicle removal is authorized; redemption.

(a) A police officer is authorized to remove or cause to be removed a vehicle or other property of any description from a street to a place designated by the city council when:

(1) The vehicle or property is left unattended upon a bridge or viaduct or in a tunnel or underpass;

(2) The vehicle is illegally parked so as to block the entrance to any private driveway;

(3) The vehicle is found upon a street, and report has previously been made that the vehicle has been stolen or complaint has been filed and a warrant issued charging that the vehicle has been unlawfully taken from the owner;

(4) The officer has reasonable grounds to believe that the vehicle has been abandoned as defined by state law;

(5) A vehicle upon a street is so disabled that its normal operation is impossible or impractical and the person or persons in charge of the vehicle are incapacitated by reason of physical injury or other reason to such an extent as to be unable to provide for its removal or custody, or are not in the immediate vicinity of the disabled vehicle;

(6) An officer arrests any person driving or in control of a vehicle for an alleged offense;

(7) The vehicle is standing, parked, or stopped in any portion of a street and the officer has reason to believe that the vehicle constitutes a hazard, interferes with the normal function of a governmental agency, or the safety of the vehicle is imperiled;

(8) The vehicle is standing, parked, or stopped in violation of city parking ban regulations;

(9) The vehicle is standing, parked, or stopped in violation of any provision of this chapter.

(b) A vehicle removed and towed pursuant to the provisions of this article shall be kept at the place designated by the city council until application for redemption is made by the owner or his authorized agent, who will be entitled to possession of the vehicle upon payment of costs of towing and storage.
(Code 1996, §§ 12.08.001, 12.08.002)

Sec. #. Sale of impounded vehicles.

A public auction shall be held at the old city hall building on Bear Creek Road, on such occasion as the police chief deems necessary for the purpose of selling by sealed bid vehicles impounded by the police

Unedited First Draft

department. The city reserves the right to accept or reject any or all bids at said public sale. All sales are final. No refunds or exchanges will be authorized. All vehicles must be removed within five days following the date of sale. No city employee or member of their family shall submit a bid either directly or indirectly for any item. The purchaser of the motor vehicle shall take title to the motor vehicle free and clear of all liens and claims of ownership, shall receive a sales receipt from the police department and shall be entitled to register the purchased vehicle and receive a certificate of title.
(Code 1996, art. 12.06)

ARTICLE II. TRAFFIC-CONTROL DEVICES

~~Sec. 12.02.001. Authority to install traffic-control devices.~~[106]
~~The city traffic engineer shall cause to be placed and maintained traffic-control signs, signals, and devices when and as required under the traffic ordinances of this city to effect and enforce the provisions of said ordinances, and may place and maintain such additional traffic-control devices as he may deem necessary to regulate traffic under the traffic ordinances of this city or under state law, or to guide or warn traffic.~~
~~(Code 1996, § 12.02.001)~~

Sec. #. Ratification of existing traffic-control devices.

All traffic-control signs, signals, devices, and markings placed or erected prior to the adoption of this code and in use for the purpose of regulating, warning, or guiding traffic are affirmed, ratified, and declared to be official traffic-control devices; provided such traffic-control devices are not inconsistent with the provisions of this article or state law.
(Code 1996, art. 12.09)

Sec. 12.02.002. Duty and authority to city traffic engineer install and maintain traffic control devices.[107]

(a) *Determination of necessity.* The city traffic engineer shall determine the necessity for installation and maintenance of traffic-control devices on the public streets and highway within the corporate limits of the city based upon a traffic and engineering study and install or cause to be installed all such traffic-control devices determined necessary.

(b) *Safety zones, marking traffic and pedestrian lanes* The city traffic engineer is authorized to:

(1) Designate and maintain, by appropriate devices, marks, or lines upon the surface of the roadway, crosswalks at intersections where in his opinion there is particular danger to pedestrians crossing the roadway, and at such other places as he may deem necessary.

(2) Establish safety zones of such kind and character and at such places as he may deem necessary for the protection of pedestrians.

(3) Mark lanes for traffic on street pavements at such places as he may deem advisable, consistent with the traffic ordinances of this city.

---

[106] **Sec. 12.02.001. Authority to install traffic-control devices.** Section duplicative of section below is stricken as shown.

[107] **Sec. 12.02.002. Duty and authority to city traffic engineer install and maintain traffic control devices.** Sections are combined as indicated in history note.

Unedited First Draft

(c) *Report of installation.* When the traffic engineer has erected and installed such traffic-control devices, he or she shall file a report with the city secretary stating the type of any such traffic-control devices that were installed and the date when and location where such devices were installed.

(d) *Removal of devices authorized.* The city traffic engineer to remove any and all traffic-control devices which he determines in a like manner to be no longer necessary.

(e) *Maintenance of devices.* The traffic engineer shall maintain any other existing traffic-control devices and any and all existing traffic-control devices previously installed within the corporate limits of the city shall be deemed to be properly installed in accordance with the provisions of this article until such time as they are removed or caused to be removed by the city traffic engineer pursuant to the terms of this article.
(Code 1996, §§ 12.02.002, 12.02.011)

Sec. 12.02.012. Duty and authority of police chief to designate construction and maintenance zones.

(a) The police chief shall have authority to establish and designate and to cause appropriate signage or other appropriate traffic-control devices or markings to be erected or placed, that establish zones in which construction or maintenance of streets, utilities or other facilities in city streets or rights-of-way is being conducted, and in which fines for motor vehicles shall be twice the maximum amount when workers are present, as provided in V.T.C.A., Transportation Code, § 542.404.

(b) The police chief shall have authority to reduce the prima facie speed limit on a street within a construction or maintenance zone that has been established when, in the opinion of the chief, a special hazard exists that justifies the reduced speed limit.

(c) In the event that the police chief has reason to believe that the speed limit in a construction or maintenance zone should be altered, but no special hazard exists, he or she shall have authority to conduct or obtain an engineering and traffic investigation to determine if the speed limit should be altered.
(Code 1996, § 12.02.012; Ord. No. 840-07, 3/22/07)

Sec. 12.02.003. Specifications for traffic-control devices.[108]

(a) All signs and signals required hereunder for a particular purpose shall as far as practicable be uniform as to type and location throughout the city. All traffic-control devices so erected and not inconsistent with the provisions of state law or this chapter shall be official traffic-control devices.

(b) Any traffic-control device installed pursuant to the authority of this article shall be in conformity with the Manual on Uniform Traffic Control Devices, Volumes 1 and 2, promulgated by the state department of transportation pursuant to V.T.C.A., Transportation Code, § 544.001 ~~article 6701d, section 29~~ and any other applicable state law or rule.
(Code 1996, § 12.02.003)

Sec. 12.02.005. When traffic devices are required for enforcement purpose.

---

[108] **Sec. 12.02.003. Specifications for traffic-control devices.** Citation is corrected as shown.

Unedited First Draft

No provision of this chapter for which signs are required shall be enforced against an alleged violator if at the time and place of the alleged violation an official sign or other traffic-control device is not in proper position and sufficiently legible to be seen by an ordinarily observant person.
(Code 1996, § 12.02.005)

Sec. 12.02.004. Obedience to official traffic-control devices.[109]

(a) The driver of any motor vehicle shall obey the instructions of any traffic-control device applicable to such vehicle installed in accordance with the provisions of this article, unless otherwise directed by a peace officer, subject to the exceptions granted to the operator of an authorized emergency vehicle in accordance with applicable state law.

(b) Drivers shall comply with traffic-control devices in the manner provided in V.T.C.A., Transportation Code, §§ 544.007—544.013. In addition, when pedestrian right-of-way control signals are installed, pedestrians shall comply with such signals in the manner provided in V.T.C.A., Transportation Code, § 552.002.

~~Sec. 12.02.006. Traffic-control signal legend.~~
~~(a) Whenever traffic is controlled by traffic-control signals exhibiting the word "go," "caution," or "stop" arrows, the following colors only shall be used and said terms and lights indicate and apply to drivers of vehicles and pedestrians as follows:~~
~~(1) Green alone or "go."~~
~~(A) Vehicular traffic facing the signal may proceed straight through or turn right or left unless a sign at such place prohibits either such turns. But vehicular traffic, including vehicles turning right or left, shall yield the right-of-way to other vehicles and to pedestrians lawfully within the intersection or an adjacent crosswalk at the time such signal is exhibited.~~
~~(B) Pedestrians facing the signal may proceed across the roadway within any marked or unmarked crosswalk.~~
~~(2) Yellow alone or "CAUTION" when shown following the green or "GO" signal.~~
~~(A) Vehicular traffic facing the signal is thereby warned that the red or "STOP" signal will be exhibited immediately thereafter and such vehicular traffic shall not enter or be crossing the intersection when the red or "STOP" signal is exhibited.~~
~~(B) Pedestrians facing such signal are thereby advised that there is insufficient time to cross the roadway, and pedestrians then starting to cross shall yield the right-of-way to all vehicles.~~
~~(3) Red alone or "STOP."~~
~~(A) Vehicular traffic facing the signal shall stop before entering the crosswalk on the near side of the intersection or, if none, then before entering the intersection and shall remain standing until green or "GO" is shown alone.~~
~~(B) No pedestrian facing such signal shall enter the roadway.~~
~~(b) In the event an official traffic-control signal is erected and maintained at a place other than an intersection, the provisions of this article shall be applicable except as to those provisions which by their nature can have no application. Any stop required shall be made at a sign or marking on the pavement indicating where the stop shall be made, but in the absence of any such sign or marking, the stop shall be made at the signal.~~
~~Sec. 12.02.007. Pedestrian traffic signals.~~
~~Whenever special pedestrian control signals exhibiting the word "walk" or "wait" are in place, such~~

---

[109] **Sec. 12.02.004. Obedience to official traffic-control devices.** Sections are combined in new subsection (b) and text of four sections stricken as shown.

Unedited First Draft

~~signals shall indicate as follows:~~
~~(1) Walk. Pedestrians facing such signal may proceed across the roadway in the direction of the signal and shall be given the right-of-way by the drivers of all vehicles.~~
~~(2) Wait. No pedestrian shall start to cross the roadway in the direction of such signal, but any pedestrian who has partially completed his crossing on the walk signal shall proceed to a sidewalk or safety zone while the "WAIT" signal is showing.~~
~~Sec. 12.02.008. Flashing signals.~~
~~Whenever flashing red or yellow signals are used they shall require obedience by vehicular traffic as follows:~~
~~(1) Flashing red (stop signal). When a red lens is illuminated with rapid intermittent flashes, drivers of vehicles shall stop before entering the nearest crosswalk at an intersection, and the right to proceed shall be subject to the rules applicable after making a stop at a stop sign.~~
~~(2) Flashing yellow (caution signal). When a yellow lens is illuminated with rapid intermittent flashes, drivers of vehicles may proceed through the intersection or past such signal only with caution.~~
(Code 1996, §§ 12.02.003, 12.02.006, 12.02.007, 12.02.008)

Sec. 12.02.009. Display of unauthorized signs, signals or markings.

(a) No person shall place, maintain, or display upon or in view of any highways, roads, streets, boulevards, parkways, and alleyways any unauthorized sign, signal, marking, or device which purports to be or is an imitation of or resembles an official traffic-control device or railroad sign or signal, or which attempts to direct the movement of traffic, or which hides from view or interferes with the effectiveness of any official traffic-control device or any railroad sign or signal, and no person shall place or maintain nor shall any public authority permit upon any highways, roads, streets, boulevards, pathways, and alleyways any traffic sign or signal bearing thereon any commercial advertising. This shall not be deemed to prohibit the erection upon private property adjacent to highways, roads, streets, boulevards, pathways, and alleyways of signs giving useful directional information and of a type that cannot be mistaken for official signs.

(b) Every such prohibited sign, signal, or marking is declared to be a public nuisance, and the authority having jurisdiction over the highways, roads, streets, boulevards, pathways, and alleyways is empowered to remove the same or cause it to be removed without notice.
(Code 1996, § 12.02.009)

Sec. 12.02.010. Interference with official traffic-control devices or railroad signs or signals.

No person shall without lawful authority attempt to or in fact alter, deface, injure, knock down, or remove any official traffic-control device or any railroad sign or signal or any inscription, shield, or insignia thereon, or any other part thereof.
(Code 1996, § 12.02.010)

ARTICLE III. SPEED REGULATIONS

Sec. 12.03.001. Speed limit generally.

A person commits an offense if he operates a vehicle on any street within the city at a speed greater than 30 miles per hour or on any public alley at a speed greater than 15 miles per hour, except as provided in this chapter. Any speed in excess of 30 miles per hour on a public street or 15 miles per hour in a public alley, unless otherwise provided by this chapter, shall be prima facie evidence that the speed is not reasonable or prudent and is unlawful.

Unedited First Draft

(Code 1996, § 12.03.001)

Sec. 12.03.002. Designated speed zones.

A person commits an offense if he operates or drives a vehicle on the following designated streets at a speed greater than the speed designated by this section for such street or portion of such street, and any speed in excess of the limit provided in this section shall be deemed prima facie evidence that the speed is not reasonable or prudent and is unlawful:

Street Name	*Extant*	*Speed*
Bear Creek	Beginning at intersection with I-35, west to the midpoint of the intersection with S. Uhl Road.	45 mph
Bear Creek	From midpoint of the intersection with S. Uhl Road, west to the midpoint of the intersection with Westmoreland Road (except special speed zone).	35 mph
Bear Creek	Beginning at the midpoint of the intersection with Westmoreland Road, west to the west city limits.	45 mph
South Hampton	All portions of the city lots subject to the limits of the safety zone provided below.	35 mph
Westmoreland Road	All portions within the city limits	45 mph
Uhl Road	All portions within the city limits	35 mph
Heritage Boulevard	All portions within the city limits	20 mph
Orvilla Road (FM 664)	Beginning at the east boundary line at S. Uhl Road, west to the west boundary line at S. Hampton Road	50 mph

(Code 1996, § 12.03.002; Ord. No. 808-05, 11/21/05)

Sec. 12.03.003. School zones.

(a) Bear Creek Road. A school zone is established on Bear Creek Road from a point 500 feet west of Heritage Boulevard, east to a point 786 feet east of Heritage Boulevard, subject to the following:

(1) A speed limit of 20 mph shall be in effect in such school zone Monday through Friday every week of the school semesters of the school districts serving the city, when specially marked signs are flashing yellow lights. The school zone shall be marked by means of special signs stating “School - 20 mph when flashing.” The police chief is authorized to coordinate the time of activation of such signs with the appropriate school authorities.

(2) The placement of a traffic-control device by the city shall be prima facie evidence that the device is installed and maintained pursuant to the authority granted herein, in accordance with state law, in proper position and in full force and effect.

(b) FM 664 (Ovilla Road). A school zone is established on FM 664 (Ovilla Road) from a point beginning at milepost 11.676 marking the western boundary of the school zone to milepost 11.546 marking the eastern boundary of the school zone being a total of 686.4 feet, subject to the following:

(1) A speed limit of 35 mph shall be in effect in said school zone Monday through Friday every

Unedited First Draft

week of the school semester of the school district serving the city, when specially marked signs are flashing yellow lights. The school zone shall be marked by means of special signs stating "School - 35 mph when flashing." The police chief is authorized to coordinate the time of activation of such signs with the appropriate school authorities.

(2) The school zone shall be in effect from 7:10 a.m. until 8:10 a.m. and from 2:40 p.m. to 3:30 p.m. Monday through Friday every week of the school semester.

(3) The placement of a traffic-control device by the city or TXDOT shall be prima facie evidence that the device is installed and maintained pursuant to the authority granted herein, in accordance with state law, in proper position and in full force and effect.

(c) Majestic Meadows Drive. A school zone is established on Majestic Meadows Drive from a point 100 feet north of West Bear Creek Road, north to a point 200 feet north of Wynnewood Drive, subject to the following:

(1) A speed limit of 20 mph shall be in effect in said school zone Monday through Friday every week of the school semester of the school district serving the city, when specially marked signs are flashing yellow lights. The school zone shall be marked by means of special signs stating "School - 20 mph when flashing." The police chief is authorized to coordinate the time of activation of such signs with the appropriate school authorities.

(2) The placement of a traffic-control device by the city or state department of transportation (TXDOT) shall be prima facie evidence that the device is installed and maintained pursuant to the authority granted herein, in accordance with state law, in proper position and in full force and effect.

(d) Wynnewood Drive. A school zone is established on Wynnewood Drive from a point 200 feet west of Majestic Meadows Drive, east to a point 1085 feet east of Majestic Meadows Drive. A speed limit of 20 mph shall be in effect in said school zone Monday through Friday every week of the school semester of the school district serving the city, when specially marked signs are flashing yellow lights. The school zone shall be marked by means of special signs stating "School - 20 mph when flashing." The police chief is authorized to coordinate the time of activation of such signs with the appropriate school authorities.

(e) South Westmoreland Road. A school zone is established on South Westmoreland Road from a point 200 feet north of Wynnewood Drive north to a point 200 feet south of Wynnewood Drive, subject to the following:

(1) A speed limit of 30 mph shall be in effect in said school zone Monday through Friday every week of the school semester of the school district serving the city, when specially marked signs are flashing yellow lights. The school zone shall be marked by means of special signs stating "School - 30 mph when flashing." The police chief is authorized to coordinate the time of activation of such signs with the appropriate school authorities.

(2) The placement of a traffic-control device by the city or TXDOT shall be prima facie evidence that the device is installed and maintained pursuant to the authority granted herein, in accordance with state law, in proper position and in full force and effect.

(Code 1996, § 12.03.002; Ord. No. 724-01, 12/17/01; Ord. No. O-02-10, § 2, 2/ 15/10)

Unedited First Draft

Sec. 12.03.004. Other speed zones.[110]

Upon the basis of an engineering and traffic investigation made as authorized by the provisions of V.T.C.A., Transportation Code, § 545.356 ~~section 169(b) of article 6701d, Vernon's Texas Civil Statutes~~, the following prima facie speed limits hereafter indicated for vehicles are determined and declared to be reasonable and safe; and such speed limits are fixed at the rate of speed indicated for vehicles traveling upon the named streets and highways, or parts thereof, described as follows:

(1) No motor vehicle shall be operated along and upon F.M. Highway No. 664 within the corporate limits of the city in excess of the speeds set forth in the following limits: beginning at said point (Station 576+10) being the west city limits thence continuing along F.M. 664 in an easterly direction for a distance of 1.129 miles, approximately, said point (Station 635+71) being the east city limits, a maximum speed of 50 miles per hour.

(2) No motor vehicle shall be operated along and upon Interstate Highway No. 35 Southbound (west) Frontage Road within the corporate limits of the city in excess of speeds now set forth in the following limits:

a. Beginning at said point (north of Bear Creek Road at the City of DeSoto/City of Glenn Heights city limits line), approximately 0.50 miles south of Parkerville Road, continuing along the southbound (west) IH-35 Frontage Road south until approximately 0.10 miles south of Bear Creek Road, or a total distance of approximately 0.60 miles, a maximum speed of 45 miles per hour.

b. Beginning at said point, approximately 0.10 miles south of Bear Creek Road, continuing along the southbound (west) IH-35 Frontage Road south until the Dallas County/Ellis County Line, or a total distance of approximately 0.80 miles, a maximum speed of 50 miles per hour.

(3) No motor vehicle shall be operated along and upon Ovilla Road, Highway FM 664, within the corporate limits of the city in excess of the speeds now set forth in the following limits: beginning at the east boundary line at South Uhl Road, west to the west boundary line at South Hampton Road, 55 mph.

(Code 1996, § 12.03.004; Ord No. O-03-12, 1/17/12)

Sec. 12.03.005. Placement of signs.

The police chief or his duly authorized representative is directed to erect appropriate signs giving notice to motorists that the aforesaid streets have been zoned by the city for the aforesaid maximum lawful prima facie speed limit as provided above, said signs to be posted at each end of the aforesaid speed zones so as to be visible to motorists entering such speed zones from either direction.
(Code 1996, § 12.03.005)

ARTICLE IV. STOP INTERSECTIONS

Sec. 12.04.001. Stop signs.

In addition to all other stop signs, stop signs at the intersections enumerated in the following list are

(Ordinance O-05-17 adopted 6/20/17)

Sec. 12.04.002. Stopping.

When such stop signs are erected, every driver of a vehicle shall stop such vehicle at such a stop sign, and shall remain stopped until the driver can proceed safely.
(Code 1996, § 12.04.002; Ord. No. O-05-17, 6/20/17)

ARTICLE V. PARKING

Unofficial First Draft

DIVISION 1. GENERALLY

Sec. #. Enforcement officers.

Code enforcement officers may assist with the enforcement of parking regulations to the extent not contrary to state law. In addition, to aid in the enforcement of this chapter, an employee designated by the police chief, in the traffic division, may immobilize a vehicle parked in violation of this chapter within the corporate city limits and remove an immobilized vehicle from a public roadway within the corporate city limits.
(Code 1996, § 12.01.002; Ord. No. 748-03, 4/7/03)

Sec. 12.11.006. Designating and placing signs for restricted parking.

(a) Generally. It shall be the duty of the city manager, or other person designated by him, to erect appropriate signs or mark curbs giving notice of the no parking and restricted parking regulations described in this article, and no such regulations shall be effective unless signs are marked or in place at the time of such alleged offense.

(b) School zones. The city manager, or his designee, is authorized to erect signs indicating no parking upon that side of any street adjacent to any school property when such parking would, in their opinion, interfere with traffic or create a hazardous situation.

(c) Designating angle parking. The city manager, or his designee, shall determine upon what streets angle parking shall be permitted and shall mark or sign such streets.

(d) Narrow streets. The city manager, or his designee, is authorized to have signs erected indicating no parking upon any street when the width of the roadway does not exceed 20 feet or upon one side of a street as indicated by such signs when the width of the roadway does not exceed 30 feet.

(e) Hazardous locations. The city manager, or his designee, is authorized to determine and designate by proper signs distances not exceeding 100 feet at places where the stopping or parking of vehicles would cause unusual delay in traffic.

(f) Passenger and freight loading zones. The city manager, or his designee is authorized to determine the location of passenger zones and freight loading zones and shall have erected and maintained appropriate signs indicating the same.

(g) No parking on closed streets during repair. In any case where any street in the city is being torn up, repaired, or paved or where any work is being done upon the same, making necessary the regulation of traffic thereon, the police chief is authorized to prevent parking either altogether or to any extent deemed wise by him for any certain period of time that may be necessary or to close the street to traffic altogether for such period of time.
(Code 1996, § 12.11.006)

Sec. #. Unauthorized parking prohibited; presumption of vehicle ownership.[111]

---

[111] **Sec. #. Unauthorized parking prohibited; presumption of vehicle ownership.** Penalty is stricken as duplicative of chapter 1 general penalty.

Unedited First Draft

(a) No operator of a vehicle shall allow, permit or suffer a vehicle to stand, stop or park upon any street within the corporate city limits in violation of any provision of this chapter regulating the standing, stopping or parking of vehicles.

(b) If any vehicle is found in violation of any provision of this article or of state statute regulating the stopping, standing or parking of a vehicle, and the identity of the driver cannot be determined, the owner or person in whose name such vehicle is registered at the time of the issuance of the citation is presumed to be the person who parked said vehicle at the time and place the offense occurred. This presumption is rebuttable and shall have the effects and consequences set forth in V.T.C.A., Penal Code, § 2.05.

(c) The state department of transportation's computer-generated record of the registered vehicle owner is prima facie evidence of the contents of the record.

~~Any person, firm or corporation violating any provision of this chapter shall be fined, upon conviction, in accordance with the general penalty provision found in section 1.01.009 of this code.~~
(Code 1996, § 12.01.002; Ord. No. 748-03, 4/7/03)

Sec. 12.11.001. Vehicle position.

Except when necessary in obedience to traffic regulations or traffic signs or signals, the driver of any vehicle shall not stop, stand, or park such vehicle in a roadway other than parallel with the edge of the roadway, headed in the direction of traffic, and with the curbside wheels of the vehicle within eighteen inches (18") of the edge of the roadway, except where the streets have been marked for angle or head- in parking to permit head-in parking.
(Code 1996, § 12.11.001)

Sec. 12.11.002. Illegally moving another's vehicle.

No person shall move a vehicle not owned by such person into a prohibited area or away from a curb such distance as is unlawful.
(Code 1996, § 12.11.002)

Sec. 12.11.004. Leaving vehicle unattended; maximum time.

(a) In addition to the provisions set out in section 12.10.002, Violation, no person shall place, park, or leave standing in any public street, public driveway, public right-of-way, public sidewalk or any other public place any vehicle unattended for a longer period of time than 24 hours.

(b) No special motor vehicles, heavy load vehicles or recreational vehicles shall be left unattended or parked for more than 24 hours within any parking lot, parking spaces, drive aisle, vacant or unused property, or pervious/unpaved surface area (except an appropriately zoned and approved and paved parking lot for such vehicles).
(Code 1996, § 12.11.004; Ordinance O-12-10, sec. 4, adopted 6/21/10)

Sec. 12.11.005. Parking for display for sale or for cleaning and maintenance prohibited.

No person shall stand or park a vehicle and no owner shall permit any vehicle belonging to him to stand or park upon any roadway for the purpose of displaying it for sale or for the purpose of washing, greasing, repairing, changing oil, transmission fluid, gear lube, antifreeze or coolant, or other such fluids that may

Unedited First Draft

spill or overflow onto a public street, alley or right-of-way or other public property, or repairing such vehicle, except repairs necessitated by an emergency.
(Code 1996, § 12.11.005; Ord. No. 748-03, 4/7/03)

Sec. 2.16.003. Parking animal hauler vehicles in residential areas.

It is unlawful for any person to park or leave standing any truck, trailer or, other vehicle that has been used for the hauling of livestock, animals, fish or fowl in a residentially zoned area of the city when notified by the city enforcement agent that such vehicle is creating a public nuisance. Upon such notification, the owner, operator, driver or other person responsible for such vehicle shall abate the public nuisance or move such vehicle to a location outside of any residentially zoned area of the city.
(Code 1996, § 2.16.003; Ord. No. 695-01, 3/5/01)

Sec. 12.11.003. Prohibited locations generally.

No person shall stand or park a vehicle, except when necessary to avoid conflict with other traffic and in compliance with the directions of a police officer or traffic-control device, in any of the following places:

(1) On a sidewalk;

(2) In front of a public or private driveway;

(3) Within an intersection;

(4) Within 15 feet of a fire hydrant;

(5) On a crosswalk:

(6) Within 20 feet of a crosswalk at an intersection;

(7) Within 30 feet of any flashing beacon, yield sign, stop sign, or traffic-control signal located at the side of a roadway;

(8) On a railroad track or within 50 feet of the nearest rail of a railroad crossing;

(9) Within 20 feet of a driveway entrance to any fire station and within 75 feet of the entrance when properly signposted;

(10) Alongside of or opposite any street excavation or obstruction when such stopping, standing, or parking would obstruct traffic;

(11) On the roadway side of any vehicle stopped or parked at the edge of a curb of a street;

(12) On any bridge, or other elevated structure upon a highway, or within a highway tunnel;

(13) Within one foot of a United States mailbox equipped for depositing mail by a passerby;

(14) Upon any street or at a place thereon at any time when signs are painted or erected showing a loading zone, except a vehicle bearing a commercial license plate and in such case, only for the time and purpose of loading or unloading as herein provided;

Unedited First Draft

(15) At any place where official traffic-control devices prohibit standing or parking;

(16) At any space properly marked and signed and reserved for vehicles transporting persons with disabilities, vehicles displaying the international symbol of access or vehicles of disabled veterans of the United States Armed Forces, it is unlawful for any vehicle to be parked in such space unless such vehicle is being operated by or for the transportation of a person with a disability and it displays either special license plates issued under V.T.C.A., Transportation Code, 504.201, or a placard placed on the rearview mirror of the vehicle's front windshield. The city manager or designee is authorized to direct property owners to erect signs indicating no parking except for disabled individuals. The city manager is further authorized to coordinate with the owners of private property to provide for designations of reserved parking spaces for disabled persons on parking lots made available to the public for the purpose of shopping or other public or semipublic uses;

(17) Within a fire lane.

(Code 1996, § 12.11.003; Ord. No. 748-03, 4/7/03 ; Ordinance O-12-10, sec. 4, 6/ 21/10)

DIVISION 2. PARKING IN RESIDENTIAL DISTRICTS

Sec. 12.05.001. Definitions.[112]

The following words, terms and phrases, when used in this division, shall have the meanings ascribed to them in this section, except where the context clearly indicates a different meaning:

Driveway. The continuous improved surface which provides ingress and egress from a garage, carport or off-street parking area to an adjacent street, alley or other improved public way.

Farm tractor. Every motor vehicle designed and used primarily as a farm implement for drawing plows, mowing machines and other implements of husbandry.

Gravel. Washed or cleaned stones with a nominal diameter of 1-1/2 inches or less.

Implements of husbandry. Every vehicle designed and adopted for use as a farm implement, machinery or tool as used in tilling the soil, but shall not include any passenger vehicle.

Improved surface. The continuous area used for the movement, parking or storage of a vehicles that is overlaid or otherwise paved with 3000 p.s.i. Portland cement concrete with a depth of not less than five inches and reinforced with number 3 reinforcement bar; solid concrete blocks; paving stones; paving bricks or other masonry paving stone suitable for such purpose installed on an approved base course or other hard-surfaced durable material designed to support vehicular weight and approved by the building official.

Park, parking. The standing of a vehicle, whether occupied or not, other than temporarily for the purpose of and while actually engaged in loading or unloading merchandise or passengers.

Privacy fence. A solid or opaque wall or partition at least six feet and not over eight feet in height; or

---

[112] **Sec. 12.05.001. Definitions.** A standardized introduction is substituted for consistency.

Unedited First Draft

vegetation consisting of a solid hedgerow or evergreen shrubs, or trees and shrubs, providing full screening from the ground to a minimum height of six feet; or any combination of the above that effectively conceals the vehicle from public view and accomplishes the required screening height; or any other form of compatible and appropriate screening as so determined by the building official.

Special motor vehicle. Includes boats, boat trailers, travel trailers, pickup campers and coaches (designed to be mounted upon automotive vehicles), motorized dwellings (recreational vehicles), tent trailers and the like as well as cases or boxes used for transporting such vehicles, whether occupied by such vehicles or not.

Unimproved surface. A driveway or parking area covered only with asphalt, bordered gravel or a combination of these.

Unscreened. Not concealed or hidden behind a privacy fence.

Vehicle. Any and every device in, upon or by which a person, persons, or property may be transported, drawn or moved upon a street, highway, waterway or airway and shall include but is not limited to any automobile, bus, truck, tractor, motorhome, farm machinery, motorcycle, scooter, moped, all-terrain vehicle, boat, boat trailer, aircraft, recreational vehicle, golf cart, trailer, fifth wheel trailer, camper, camper shell, camper trailer, wheeled towing frame, semitractor, semitractor trailer, truck bed mounted on a chassis and mobile home. This definition does not include nonmotorized bicycles, small engine lawn mowers, and devices of a similar scale.

Yard, front. A yard located in front of the front elevation of a building and extending across a lot between the side yard lines and being the minimum horizontal distance between the front property line and the outside wall of the main building.

Yard, rear. A yard extending across the rear of a lot measured between the lot lines and being the minimum horizontal distance between the rear lot line and the rear of the outside wall of the main building. On both corner lots and interior lots, the rear yard shall in all cases be at the opposite end of the lot from the front yard.

Yard, side. A yard between the building and sideline of the lot and extending from the front lot line to the rear lot line and being the minimum horizontal distance between a side lot line and the outside wall of the side of the main building.
(Code 1996, § 12.05.001; Ord. No. 748-03, 4/7/03 ; Ord. No. O-12-10, § 2, 6/21/10)

Sec. 12.05.002. Parking in residential districts.[113]

(a) In a residential district within the city:

(1) The parking of any vehicle in the front yard on an unimproved surface is prohibited.

(2) The parking of any vehicle in the side yard must be screened from public or private view behind a minimum six-foot-high privacy fence, unless the vehicle is parked on an improved surface with a minimum clearance of two feet from an adjoining property.

---

[113] **Sec. 12.05.002. Parking in residential districts.** Introductory phrases are added as shown.

Unedited First Draft

(3) The parking of any vehicle in an unscreened rear yard upon any surface other than an improved rear or side entry driveway or required parking surface shall be prohibited. In no case shall more than one vehicle be parked or stored in such an area and such screening shall be by means of a minimum six-foot-high privacy fence.

(4) Recreational vehicles, travel trailers, camper trailers, trailers, boats, boat trailers, motor homes or other recreational vehicles or equipment may not be used for on-site dwelling purposes and shall be parked and stored on an improved surface and behind the rear building facade of the main structure (i.e., the house) and screened from public view at all times of the year by a fence or perennial vegetation.

(5) No such vehicles shall be used for living, sleeping or housekeeping or similar purposes when parked or stored on a residential lot, or in any location not approved for such use, except as specified in this section.

(6) No required parking space, garage, carport, or other automobile storage space shall be used for the storage of any special motor vehicle, limousine, recreational vehicle, trailer, boat, wrecker, truck-tractor rig, trailer, camper or camper shell, or other similar recreational, dwelling or business vehicle.

(7) No heavy load vehicles are allowed to be stored or parked in residential areas on a regular or repetitive basis.

(b) The parking restrictions in subsection (a) of this section shall not apply to the following:

(1) Vehicles actively engaged in service or delivery functions for the period of time actually engaged in the service or delivery activity;

(2) Publicly owned or franchised emergency or utility vehicles making residential repair calls or emergency utility service repairs;

(3) Emergency vehicles;

(4) Street construction and maintenance vehicles; or

(5) Recreational vehicles or equipment being loaded, unloaded, or otherwise prepared for use or storage during a period of time which does not exceed 24 hours.

(Code 1996, § 12.05.002;Ord. No. 748-03, 4/7/03; Ordinance O-12-10, § 2, 6/21/10)

Sec. 12.05.003. Standards for parking surfaces; maintenance.

(a) Parking surfaces in the front and side yards must be contiguous to, and on paved concrete or asphalt surface as defined and according to the city's adopted standard construction details. For parking areas used with residences that had gravel driveways in existence before April 7, 2003, gravel may be used for additional parking spaces. When such a parking area is increased to the extent of fifty percent (50%) or more, in the area used, said surface shall meet the paving requirements of this article. Subsurface preparation for parking areas shall be approved by the building official.

(b) Parking surfaces, other than the approved driveway, shall not extend beyond the property lines,

Unedited First Draft

nor encroach over or upon any public utility easement or right-of-way.

(c) Parking spaces shall conform to the requirements for the specific district set out in the zoning ordinance and additional parking spaces in excess of the minimum shall minimally be eight by 20 feet in size. It shall not be a sufficient parking space to provide runners or pads under the tires or trailer tongue only.

(d) Parking surfaces must be in conformance with any applicable requirements of the city construction standard details manual, or the city building code. The building official shall establish and maintain a set of standard construction details for parking surfaces and driveway surfaces. Materials, such as roofing scraps, shingles, shredded tires, rubble and similar material may not be used for parking surfaces. The building official must approve any material to be utilized as an approved surface to the extent not otherwise provided herein or by other city ordinance.

(e) All parking surfaces shall be kept free of weeds and other vegetative growth.

(f) Parking areas in the front yard may not exceed 50% coverage of the front yard area. Parking areas in the rear yard may not exceed 30% coverage, and shall be consistent with the applicable requirements of the city's zoning ordinance for the district in which the parking surface is located. To the extent the zoning ordinance provides for different lot coverage, the zoning ordinance controls.

(g) Parking areas may not be used to store junk or inoperative vehicles, as that term is defined by city ordinance.

(h) It is unlawful for an operator of any vehicle to drive over a raised curb to park or stand a vehicle on property used for residential purposes.

(i) It is unlawful to leave, stand or park a vehicle on a public sidewalk or any part of a sidewalk or parkway area including the extension of a public sidewalk across a driveway except when necessary to avoid conflict with other traffic or in compliance with the direction of a peace officer or traffic-control device.

(Code 1996, § 12.05.003; Ord. No. 748-03, 4/7/03; Ordinance O-12-10, § 2, 6/21/10)

DIVISION 3. PARKING OF COMMERCIAL VEHICLES

Sec. 12.10.001. Definitions.[114]

The following words, terms and phrases, when used in this division, shall have the meanings ascribed to

---

[114] **Sec. 12.10.001. Definitions.** A standardized introduction is substituted for consistency. A definition of the preferred term "manufactured home" is added and the definition of "mobile home" is replaced, both from V.T.C.A., Occupations Code, § 1201.003. Note that V.T.C.A., Occupations Code, § 1201.004 provides that the 1201.003 definitions are "are binding as a matter of law on each person and agency in this state, including a home-rule municipality or other political subdivision" and "a mobile home is not a HUD-code manufactured home and a HUD-code manufactured home is not a mobile home for any purpose under state law. Those terms may not be defined in a manner that is not identical to the definitions provided by V.T.C.A., Occupations Code, § 1201.003.

Unedited First Draft

them in this section, except where the context clearly indicates a different meaning:

Boat trailer. A trailer or semitrailer which is designed and constructed to carry a jet ski, barge, sailboat, motorboat or other vessel used upon any body of water.

Bus. Every motor vehicle designed for carrying more than ten passengers and used for the transportation of persons, and every motor vehicle other than a taxicab, designed and used for the transportation of persons for compensation.

Commercial motor vehicle. A motor vehicle designed or used for the transportation of property, or for delivery purposes, not including a passenger bus, passenger automobile, motorcycle, panel delivery truck or pickup truck or vehicle used in the delivery of the United States mail, having a manufacturer rated carrying capacity of one ton or over or a gross vehicle weight of 11,000 pounds or over or having more than two axles.

Farm tractor. Every motor vehicle designed and used primarily as a farm implement for drawing plows, mowing machines and other implements of husbandry.

Heavy load vehicle. A self-propelled vehicle having a manufacturer's recommended gross vehicle weight (GVW) of greater than 11,000 pounds, such as large recreational vehicles, tractor-trailers, buses, vans, and other similar vehicles. The term "truck" shall be construed to mean "heavy load vehicle" unless specifically stated otherwise.

Implements of husbandry. Every vehicle designed and adopted for use as a farm implement, machinery or tool as used in tilling the soil but shall not include any passenger vehicle.

Manufactured home or manufactured housing means a HUD-code manufactured home or a mobile home.[115]

Mobile home means a structure constructed before June 15, 1976, built on a permanent chassis, designed for use as a dwelling with or without a permanent foundation when the structure is connected to the required utilities, transportable in one or more sections which, in the traveling mode, is at least eight body feet in width or at least 40 body feet in length or, when erected on site, at least 320 square feet. The term includes the plumbing, heating, air conditioning, and electrical systems of the home and does not include a recreational vehicles as defined in 24 CFR § 32.82.8(g). ~~or HUD-code manufactured housing. Structures or vehicles as defined by state law, Texas Revised Civil Statutes Ann. section 5221f, as amended.~~

Park, parking. The standing of a vehicle, whether occupied or not, other than temporarily for the purpose of and while actually engaged in loading or unloading merchandise or passengers.

---

[115] **Sec. 12.10.001. Definitions—Contd.** A definition of the preferred term "manufactured home" is added and the definition of "mobile home" is replaced, both from V.T.C.A., Occupations Code, § 1201.003. Note that V.T.C.A., Occupations Code, § 1201.004 provides that the 1201.003 definitions are "binding as a matter of law on each person and agency in this state, including a home-rule municipality or other political subdivision." I recommend that we change both definitions to "the meaning provided in V.T.C.A., Occupations Code, § 1201.003."

Unedited First Draft

Pole trailer. A vehicle without motive power designed to be drawn by another vehicle and attached to the towing vehicle by means of a reach or pole, or by being boomed, or otherwise secured to the towing vehicle, and ordinarily used for transporting long or irregularly shaped loads such as poles, pipes, or structural members capable, generally, of sustaining themselves as beams between the supporting connections.

Recreational vehicle/travel trailer/camper. A vehicular portable structure designed for a temporary or short-term occupancy for travel, recreation or vacation. The term does not apply to mobile homes or HUD-code manufactured housing which are designed for year-round occupancy.

Semitrailer. A vehicle designed with or without motive power, other than a pole trailer, for carrying persons, animals or property, or used with a motor vehicle so that part of the weight of the vehicle and its load rests on, or is carried by, another vehicle.

Trailer. A vehicle that is designed or used to carry a load wholly on its own structure and is drawn or designed to be drawn by a motor vehicle.

Truck-tractor. A motor vehicle designed or used primarily for drawing another vehicle and not constructed to carry a load other than a part of the weight of the vehicle and load to be drawn.

Vehicle. For purposes of this article shall mean any of the enumerated types of vehicles, trailers or trucks stated herein.
(Code 1996, § 12.10.001; Ord. No. 748-03, 4/7/03 ; Ordinance O-12-10, § 3, 6/21/10)

Sec. 12.10.002. Prohibited acts.

(a) Prohibitions and limitations. Except as provided in section 12.10.004 below, it is unlawful for any person or any owner to leave, park or stand any boat or boat trailer, truck-tractor, road tractor, truck trailer, semi-trailer, pole trailer, bus or any other commercial motor vehicle with a rated capacity in excess of one ton according to the manufacturer's classification or over 11,000 pounds gross vehicle weight or over or containing more than two axles, upon any public or private street, parkway, boulevard, or public place within or adjacent to any residence district as may be established in the city zoning regulations. This section shall not prevent the parking or standing of the above-described vehicles in loading zones for the purpose of expeditiously loading and unloading passengers, freight or merchandise.

(b) Blocking traffic. It is unlawful for any person or any owner to leave, park or stand any truck-tractor, road tractor, truck trailer, semi-trailer, pole trailer or any other commercial motor vehicle with a rated capacity in excess of one ton according to the manufacturer's classification or over 11,000 pounds gross vehicle weight or over or containing more than two axles, or any camper, travel trailer, mobile home, house trailer, boat trailer, stock trailer, bus, or any other type of trailer upon any public street, alley, parkway, or boulevard in such a manner as to block the flow of traffic upon the public street, alley, parkway or boulevard.

(c) Exemptions. The provisions of this section shall not apply to:

(1) The temporary parking or standing of vehicles, for the purpose of loading or unloading passengers or contents, including but not limited to buses taking on and discharging passengers at customary bus stops or other vehicles parked in designated loading zones;

(2) The connection or disconnection of such vehicles or trailers;

Unedited First Draft

(3) Street construction, maintenance and repair equipment;

(4) Trucks, equipment, trailers and vehicles used by public service utilities;

(5) A vehicle with a mechanical defect, making it unsafe to proceed further, in which event it shall be lawful to stand or park the vehicle during the time to make emergency repairs;

(6) The performance of the function for which the vehicle was intended; provided, however, that the permitted activities herein stated shall occur during the hours of 7:00 a.m. to 10:00 p.m. and shall be of only the necessary duration to accomplish the permitted activity;

(7) Public service utility vehicles; and

(8) Emergency vehicles.

(Code 1996, §§ 12.10.002, 12.10.004; Ord. No. 748-03, 4/7/03 ; Ordinance O-12-10, sec. 3, 6/21/10)

ARTICLE VI. TRUCK ROUTES

Sec. 12.12.001. Definitions.[116]

The following words, terms and phrases, when used in this article, shall have the meanings ascribed to them in this section, except where the context clearly indicates a different meaning:

Commercial motor vehicle. A motor vehicle or combination of motor vehicles used to transport persons or property that has a gross combination weight rating of 26,001 or more pounds, including a towed unit with a gross vehicle weight rating of more than 10,000 pounds; has a gross vehicle weight rating of 26,001 or more pounds; is designed to transport 16 or more passengers, including the driver; or is transporting hazardous materials and is required to be placarded under 49 C.F.R. part 172, subpart F.

Motor vehicle. Any vehicle that is self-propelled, or a vehicle that is propelled by electric power from overhead trolley wires.

Pole trailer. Any vehicle without motive power designed to be drawn by another vehicle and secured to the other vehicle by means of a reach, pole or boom or other security device to the towing vehicle and ordinarily used for transporting long or irregularly shaped loads, such as poles, pipes, or structural members capable generally of sustaining themselves as beams between the supporting connection.

Semi-trailer. Any vehicle with or without motive power, other than a pole trailer, designed to be drawn by a motor vehicle and to transport persons or property and constructed so that part of the vehicle's weight and load rests on or is carried by another vehicle.

Trailer. Any vehicle with or without motive power, other than a pole trailer, designed to be drawn by a motor vehicle and to transport persons or property and constructed so that no part of the vehicle's weight and load rests on the motor vehicle.

Truck-tractor. Any motor vehicle designed or used primarily for drawing other vehicles, and not so

---

[116] **Sec. 12.12.001. Definitions.** A standardized introduction is substituted for consistency.

Unedited First Draft

constructed as to carry a load other than a part of the weight of the vehicle and load so drawn.

Vehicle. A device that can be used to transport or draw persons or property on a highway. The term does not include a device exclusively used on stationary rails or tracks or manufactured housing, as that term is defined in V.T.C.A., Occupations Code, § 1201.003.
(Code 1996, § 12.12.001; Ordinance O-03-19 adopted 5/7/19)

Sec. 12.12.002. Applicability.

No person shall operate or cause to be operated any commercial motor vehicle, truck-tractor, trailer, semi-trailer, pole trailer, or any combination thereof, through the city in inter-city travel having a total gross weight with load in excess of 20,000 pounds without a local destination or point of origin, except upon such streets as are designated as truck routes by this article.
(Code 1996, § 12.12.002; Ordinance O-03-19 adopted 5/7/19)

Sec. 12.12.003. Exceptions.

The provisions of this article, however, shall not apply to any of the following vehicles having a gross weight with load in excess of 20,000 pounds:

(1) A vehicle traveling to or from a truck terminal, garage, place of repair, place of performing a service, or a place of loading or unloading, over the shortest practicable route to or from a point on a truck route; any such vehicle shall be permitted to proceed from one such point not on a truck route to another such point without returning to a truck route, if to so return would unreasonably increase the distance to be traveled between such points; the operator of any such vehicle shall carry evidence of the location of its last stop and of its immediate destination in order for this exception to apply;

(2) An authorized emergency vehicle operating in response to any emergency call;

(3) A vehicle operated by a public utility while cruising in an assigned area for the purpose of inspecting the facilities of said public utility or providing maintenance service to said facilities; and

(4) A vehicle operated for public service, i.e., garbage pickups, street repair and water service and maintenance.
(Code 1996, § 12.12.003; Ordinance O-03-19 adopted 5/7/19)

Sec. 12.12.004. Truck routes designated.

The following streets and parts of streets are designated truck routes under this article:

(1) Interstate Highway—From the north city limits to the south city limits.

(2) 35E FM 664—From the east city limits to the west city limits.

(3) Westmoreland—From the north city limits to the south city limits.
(Code 1996, § 12.12.004; Ordinance O-03-19, 5/7/19)

Sec. 12.12.005. Weighing loaded vehicles.

Any police officer of the city, having reason to believe that the gross weight or axle load of a loaded

Unedited First Draft

motor vehicle is unlawful, is authorized to weigh the same or cause the same to be weighed by any license and weight inspector of the state department of public safety, or any sheriff or duly authorized deputy sheriff by means of portable or stationary scales furnished or approved by the state department of public safety, or cause the same to be weighed by any public weigher, and to require that such vehicle be driven to the nearest available scales for the purpose of weighing.
(Code 1996, § 12.12.005; Ordinance O-03-19, 5/7/19)

Sec. 12.12.006. Truck route signs.

The traffic engineer or designee shall erect appropriate signs and markings to designate the truck routes established herein.
(Code 1996, § 12.12.006; Ordinance O-03-19, 5/7/19)

Sec. 12.12.007. Violation.

Except as otherwise provided for herein, it is unlawful for any person to drive, operate or move or to cause or permit to be driven, operated or moved on any public street within the city any commercial motor vehicle contrary to this article.
(Code 1996, § 12.12.007; Ordinance O-03-19, 5/7/19)

ARTICLE VII. WRECKER SERVICE REGULATIONS

Sec. 12.07.002. Definitions.[117]

The following words, terms and phrases, when used in this article, shall have the meanings ascribed to them in this section, except where the context clearly indicates a different meaning:

> Auto wrecker. Shall mean any motor vehicle used or designed for the purpose of towing, carrying, pushing, or otherwise transporting a disabled or impounded vehicle.
>
> Disabled vehicle. Shall mean any motor vehicle located on any public street, alley, sidewalk, or sidewalk area which is unable to be driven under its own power due to mechanical breakdown, collision, or for any other reason.
>
> Impounded vehicle. Shall mean any vehicle which police officers are authorized to impound and remove under the provisions of any ordinance of the city or any law of the state.

(Code 1996, § 12.07.002)

Sec. 12.07.001. Annual review by city council.

The city council shall designate and review, on an annual basis, the wrecker service and storage yard for pickup and storage of vehicles disabled or abandoned on public property, or vehicles impounded by the police department.
(Code 1996, § 12.07.001)

Sec. 12.07.003. City manager to contract annually for wrecker service.

---

[117] **Sec. 12.07.002. Definitions**. A standardized introduction is substituted for consistency.

Unedited First Draft

The city manager is authorized to contract for a wrecker service, with storage yard facilities, which shall serve the needs of the city as hereinafter provided.
(Code 1996, § 12.07.003)

Sec. 12.07.004. Storage facility to be fenced and lighted.

The designated city wrecker service shall maintain a suitable place for the storage of not less than 20 vehicles located at a business address or location acceptable to the city. Said storage area shall be fenced by a wooden fence at least six feet in height, if in the city limits, be equipped with reasonable securely locked gates and be lighted at night. A responsible person, agent, or employee of the designated city wrecker service shall be designated by said service to be available for call to allow access to the storage area on a twenty-four-hour basis.
(Code 1996, § 12.07.004)

Sec. 12.07.005. On call service to be provided.

The designated wrecker service shall provide an “on call” 24-hour auto wrecker and driver for the purpose of towing and transporting a disabled or impounded vehicle. The police chief, or his designee, shall contact the designated service as to location and description of the vehicle to be transported and impounded in the storage area.
(Code 1996, § 12.07.005)

Sec. 12.07.006. Transportation and impoundment fees; disposal of vehicles.

The designated wrecker service may charge to the vehicle owner a reasonable fee to transport an impounded vehicle or disabled vehicle to the storage area. A schedule of the towing and impoundment fees to be charged shall be submitted to the city council for approval and remain on file with the city secretary until amended by the designated service or termination of agreement with the city. Charging of fees in excess of those on file shall be an immediate cause for termination of designated wrecker service by city. Failure of owner of vehicle to reclaim or pay towing, transportation and storage fees in full may allow city to dispose of the vehicle in compliance with state law.
(Code 1996, § 12.07.006)

Sec. 12.07.007. Each wrecker and equipment to be maintained in good mechanical condition.

The designated wrecker service shall maintain each auto wrecker, and the equipment contained thereon, in good mechanical condition, and said service shall comply with all state and local regulations governing auto wreckers.
(Code 1996, § 12.07.007)

Sec. 12.07.008. Wrecker service to be bonded independent contractor.

The designated wrecker service shall not be an agent or employee of the city but shall be an independent contractor to the city. Designated wrecker service shall indemnify and hold the city harmless for any loss or damages arising out of its service and shall further give evidence of being bonded in the amount of ten thousand dollars ($10,000.00).
(Code 1996, § 12.07.008)

Sec. 12.07.009. Contracts canceled only for good cause; proposals to be accepted.

Unedited First Draft

(a) The annual contract shall be reviewed by the city and shall be canceled only for good cause, including but not limited to failure by designated service in maintaining its storage area in reasonably good condition and failure to properly maintain the property entrusted to its care.

(b) The city council shall request proposals from all interested persons or businesses regarding the proposed wrecker and storage contract with the city in accord with this article. The council shall contract with the wrecker company which is in compliance herewith and best meets the public demands and needs for removal and storage of disabled and impounded vehicles.
(Code 1996, § 12.07.009)

Sec. 12.07.010. Liability auto insurance requirements.

The designated wrecker service shall maintain liability auto insurance in the policy amount of $50,000.00.
(Code 1996, § 12.07.010)

Sec. 12.07.011. Disposition of impounded vehicles.[118]

Any motor vehicle impounded pursuant to any city ordinance or state law shall be processed, disposed, auctioned, and sold in accordance with the provisions of V.T.C.A., Transportation Code, ch. 683.
(Code 1996, §§ 12.07.011, 12.08.003)

Unedited First Draft

[118] **Sec. 12.07.011. Disposition of impounded vehicles.** Sections are combined as indicated in the history note.

Chapter 34[119]

UTILITIES

ARTICLE I. IN GENERAL

Sec. #. Definitions.[120]

The following words, terms and phrases, when used in this chapter, shall have the meanings ascribed to them in this section, except where the context clearly indicates a different meaning:

DWU means the Dallas Water Utilities.

TCEQ means the Texas Commission on Environmental Quality.

Sec. 13.02.009. Unauthorized connections.

Connections to the water and wastewater systems of the city shall be made only under the supervision of the city. No person, other than employees of the city, shall be authorized to connect, turn on, turn off, or disconnect water or wastewater services of the city, or to remove, replace, or repair any equipment connected to such service. Any person violating any provision of this subsection shall be guilty of a misdemeanor, and the city may refuse service to any such person.
(Code 1996, § 13.02.009(d))

Sec. 13.04.001. Mandatory sanitary sewer connections.

(a) *Connection to sewer required.* All owners, agents of owners or occupants of any building required by the housing code to have a water closet and which is situated on any lot or tract of land, the property line of which is situated, approaches or extends to within one hundred twenty-five feet of any sanitary line available now or in the future, are required to connect such building or buildings with such city sanitary sewer, under the supervision of the plumbing inspector of the city. In the case of any building for which a certificate of occupancy has not been issued prior to the time such sewer line is available, connection to such sanitary sewer line shall be a condition precedent to issuance of a certificate of occupancy for such building.

(b) *Septic tanks/* Use of any septic tank located on such property shall be discontinued upon connection of the building with the said sanitary sewer system. In the case of any building for which a certificate of occupancy has previously been issued by the city, connection to the sanitary sewer line shall be completed within nine months of the date such line is available.

(c) *Maintenance of facilities and sewer connection.* It shall be the duty of any such property owner, agent or occupant to keep and maintain any such sewer connection in perfect condition and free from any obstruction.

---

[119] **Chapter 34. Utilities.** The various provisions of this chapter have been rearranged for improved cohesion.

[120] **Sec. #. Definitions.** Definitions are created as shown.

Unedited First Draft

(d) *Use of privies prohibited.* It is unlawful for any person to build or use any privy vault above or below ground in the city.
(Code 1996, §§ 13.04.001—13.04.003)

Sec. 13.02.009. Connection to water and sewer system.[121]

(a) *Application.* Persons desiring water and wastewater service furnished by the city shall make application for the same to the appropriate city authority. Customers must connect to both systems except when one of such services is not available. The application shall contain the applicant's name, address, and the uses for which such water and wastewater service is desired. The city may decline or fail or cease to furnish water and wastewater service to any person who is indebted to the city for any reason except ad valorem taxes and special assessments.

(b) *Security deposit.* The application shall be accompanied by a security deposit in the amount provided in the city fee schedule. All deposits shall be held by the city, without payment of interest thereon, until such service is terminated. Any unpaid balance owed to the city shall be deducted from the deposit and the remainder shall be refunded to the customer.

(c) *Assumption of use.* All premises connected to the water or wastewater system of the city shall be assumed to be using such services, and the owner or occupant shall be charged therefor so long as such premises shall remain connected with the system.
(Code 1996, §§ 13.02.001(b), 13.02.007, 13.02.009)

Sec. 13.02.009. Meters.

(a) Meters for the measurement of water or wastewater services furnished by the city shall be provided, installed by and remain the property of the city. All new construction where water and wastewater are available shall be equipped with two water meters, a water/wastewater meter and an irrigation meter. The water/wastewater meter shall be connected to the building or dwelling and shall measure water and wastewater usage.

(b) The irrigation meter shall be for irrigation purposes only and shall measure water usage only. The installation of an irrigation system for existing dwellings or businesses shall also include the installation and connection to an irrigation meter.
(Code 1996, § 13.02.009(c))

Sec. 13.02.010. Termination of service; reconnection.

(a) *Grounds for termination.* The city shall have the right to disconnect or refuse to connect or reconnect any water or wastewater service for any of the following reasons:

(1) Failure of the customer to meet the applicable provisions of law;

(2) Violation by the customer of rules and regulations pertaining to utility services;

(3) Nonpayment of bills;

---

[121] **Sec. 13.02.009. Connection to water and sewer system.** Should solid waste service be added to the application since all utilities are billed together?

Unedited First Draft

(4) Willful or negligent waste of service due to improper or imperfect pipes, fixtures, appliances, or otherwise;

(5) Molesting any meter, seal, or other equipment controlling or regulating the supply of utility service;

(6) Theft or diversion or use of service without payment therefor; or

(7) Vacancy of premises.

(b) *Notice of termination.* Unless arrangements are made for extended or installment payments, accounts not paid in full within 15 days of the due date are delinquent. As soon thereafter as possible, a written notice shall be sent to the customer by regular mail informing the customer that service is subject to termination if all charges (including the delinquent payment charge) are not paid in full by the 20th day after the bill becomes due. If payment in full is not received by the date specified in the notice, the city shall attempt to leave a tag on the door at the address to be disconnected prior to such disconnection. Failure of the city to so tag the premises shall not be a defense to any termination of service.

(c) *Emergency termination.* The city reserves the right at any time to restrict or prevent the use of any service furnished by the city during periods of emergency or circumstances demanding such restriction or prevention of the use. Water and wastewater services may be cut off without notice in case of an emergency. When any interruption in service is necessary for the maintenance and improvement of the system affected, customers will be notified as circumstances permit.

(d) *Reconnection.* No reconnections shall be made unless all fees and charges have been paid, unless provisions have been made for extended payments. A reconnect fee shall be assessed for all reconnections and shall be paid prior to such reconnection. City personnel shall be available after 5:00 p.m. on weekdays and weekends for reconnections on a standby and rotational basis. Cash payments to employees shall be strictly accounted for, and assignments shall be recorded and verified.
(Code 1996, § 13.02.010)

Sec. 13.02.001. Inspections; right of entry.

Any authorized city inspector shall have access at all reasonable times to premises supplied with water or wastewater services by the city for the purpose of examination to protect the utilities from abusive use.
(Code 1996, § 13.02.001(d))

Sec. 13.02.001. City not liable for damages.

The city shall not be liable for any damage to any utility customer caused by backflow of any wastewater system, failure of supply, interruption of service, or any other cause outside the direct control of the city.
(Code 1996, § 13.02.001(e))

Sec. 13.02.001. Prohibited acts.

It is unlawful for any person to:

(1) Connect to the city's water or wastewater system without the consent of the city;

Unedited First Draft

(2) Turn on or off any water from a street stop cock or to tap any street main or pipe belonging to the city, or to do any work in any street, alley, or public ground in connection with the installation of service connections without the consent of the city;

(3) Damage or destroy property of the city's water or wastewater systems;

(4) Extend, replace, or repair lateral lines or septic tanks in areas where wastewater service is available;

(5) Tamper with, molest, damage, or trespass upon any equipment or premises belonging to the city's water or wastewater system; or

(6) Fail or refuse to pay the charges for services as provided in this article.

(Code 1996, § 13.02.001(c))

Sec. 13.09.001. Prevention of contamination of city water supply sources.

(a) *Purpose.* The purpose of this article is to protect the water supply sources serving the citizens of the city by means of sanitary control measures designed to prevent contamination.

(b) *Public water system defined.* A public water system is a system providing water to the public for human consumption through pipes or other constructed conveyances having at least 15 service connections or serving at least 25 individuals for at least 60 days out of the year. An individual served by a public water system if he lives in, uses as his place of employment, or works in a place to which drinking water is supplied from the system. The term includes:

(1) Any collection, treatment, storage, and distribution facilities under the control of the operator of such system and used primarily in connection with such system;

(2) Any collection or pretreatment storage facilities not under such control which are used primarily in connection with such system; and

(3) Two or more systems each having a potential to serve less than 15 connections or less than 25 individuals but owned by the same person or entity and located on adjacent land when the total potential service connections in the combined systems are 15 or greater or if the total number of individuals served by the combined systems total 25 or greater at least 60 days out of the year.

(c) *Prohibitions.* The following acts are prohibited:

(1) No person may locate a tile or concrete sanitary sewer, a sewerage appurtenance, a septic tank, a stormsewer, a cemetery, a septic tank perforated drain field, areas irrigated by low dosage, low angle spray on-site sewage facilities, an absorption bed, an evapotranspiration bed, an improperly constructed water well, or an underground petroleum and chemical storage tank or a liquid transmission pipeline which is within 150 feet of a public water source.

(2) No person may locate a sewage treatment plant within 500 feet of a public water source or a sewage wet well, sewage pumping station, or a drainage ditch which contains industrial waste

Unedited First Draft

discharges or the wastes from sewage treatment systems within 300 feet of a public water source.

(3) No person may locate animal feed lots, solid waste disposal sites, lands on which sewage plant or septic tank sludge is applied, or lands irrigated by sewage plant effluent within 500 feet of a public water source.

(4) No person may allow livestock in pastures within 50 feet of a public water source.

(d) *Violations, penalties, and enforcement.* The city public works director or his designee shall enforce the provisions of this section. Violations of this section constitute misdemeanors punishable upon conviction as provided in section 1.01.009 for a public health and safety offense, provided that:

(1) Misdemeanor penalties shall be in addition to and cumulative of the authority of the city to abate a nuisance and charge the cost thereof against the owner of the property.

(2) In addition to all other remedies available to the city, violation of this section that constitute an immediate danger or threat to the health, safety and welfare of the public may be enjoined in a suit brought by the city for such purpose.

(3) In addition to all other remedies or penalties in this section, the city may enforce this section pursuant to V.T.C.A., Local Government Code, ch. 54, which provides for the enforcement of municipal ordinances.

(4) Allegation and evidence of a culpable mental state is not required for the proof of violation of this section.

(Code 1996, §§ 13.09.001—13.09.005; Ordinance 790-05 adopted 3/21/05)

Sec. 13.11.001. Water well drilling.

(a) *Generally.* No water well may be drilled or installed unless the water supply is protected in accordance with TCEQ rules and regulations for public water systems and this section.

(b) *Permit required; fee.* A city-issued permit is required prior to the drilling and installation of water wells within the territorial limits of the city or its extraterritorial jurisdiction. A permit fee of $100.00 is established to administer and inspect the installation of water wells within the territorial limits of the city or its extraterritorial jurisdiction.

(c) *Installation by licensed drillers only.* Wells may be drilled and installed only by licensed water well drillers and water well pump installers as provided by the state department of licensing and regulation, as those rules and regulations exist and as they may be amended.

(d) *Violations and penalties.* Violations of this section constitute misdemeanors punishable upon conviction as provided in section 1.01.009 for a public health and safety offense, provided that:

(1) Misdemeanor penalties shall be in addition to and cumulative of the authority of the city to abate a nuisance and charge the cost thereof against the owner of the property.

Unedited First Draft

(2) In addition to all other remedies available to the city, violation of this section that constitute an immediate danger or threat to the health, safety and welfare of the public may be enjoined in a suit brought by the city for such purpose.

(3) In addition to all other remedies or penalties in this section, the city may enforce this section pursuant to V.T.C.A., Local Government Code, ch. 54, which provides for the enforcement of municipal ordinances.

(Code 1996, §§ 13.11.001—13.11.004; Ordinance O-17-08 adopted 6/16/08)

ARTICLE II. RATES, CHARGES, BILLINGS, AND COLLECTIONS

Sec. 13.02.002. Fees and other charges generally.

(a) *Combined utilities bill; partial payment.* Water, wastewater and solid waste collection services shall be treated as one bill; partial payment is unacceptable and will not prevent the entire account from becoming delinquent.

(b) *Customers not receiving water service.* For customers not receiving water services, charges shall be based on 6,000 gallons per month water usage for purposes of calculation.

(c) *Additional fees and charges.* The city may charge the fees and charges in addition to monthly service billings as provided for in the city fee schedule.

(d) *Solid waste charges.* The charges fixed for the removal and disposal of garbage and other refuse shall be levied by the city against all residential water customers in the city. Residential solid waste collection services shall be available to out-of-city water customers at their request.

(e) *Responsibility for multi-unit building charges.* When an apartment house or other building is served water through one meter, the person in whose name the water account stands shall be responsible for payment of all charges.

(f) *Waiver of water tap fee for seniors.* The water tap fee may be waived for new customers that are 62 years of age or older.

(Code 1996, §§ 13.02.001(c), 13.02.002, 13.02.003, 13.02.004, 13.02.006)

Sec. 13.02.005. Voluntary park system development contribution.[122]

Persons who desire to voluntarily contribute to the development of park facilities may include an additional $1.00 or more in their payment for the monthly municipal utilities bill. All voluntary contributions shall be deposited in a segregated fund, separately accounted for, and used by the city council for the development of a parks system within the city. ~~In order to effectuate this provision, the city manager is directed to amend and revise the municipal utilities monthly bill in order to enable individuals or persons desiring to make such contribution to indicate the same thereon.~~

(Code 1996, § 13.02.005)

Sec. 13.02.008. Billing and payment.

---

[122] **Sec. 13.02.005. Voluntary park system development contribution.** Unnecessary text is stricken.

Unedited First Draft

(a) *Mailing.* The city shall mail a monthly bill to all customers of the city's water and wastewater systems and to all residents for solid waste collection charges as provided in section 13.02.001(b) above.

(b) *No water consumption.* Customers with no water consumption during the month will be billed the minimum charge.

(c) *Due date.* Payment of bills is due on the date shown on the billing statement.

(d) *Dishonored checks.* There will be a returned check charge in the amount provided in the city fee schedule for any check in payment of a utilities bill that is returned for any reason. Each check shall be presented twice for payment. If the check is returned, the writer of the check shall be notified by certified mail, return receipt requested, that the amount of the check plus the returned check charge must be made in full within ten days of receipt of the letter. If any charge remains unpaid, the check and all accompanying documentation shall be forwarded to the city attorney for prosecution and collection.

(e) *Delinquency.* A utilities bill not paid in full within 15 days of the due date shall be deemed past due, and a delinquent payment charge in the amount provided in the city fee schedule shall be assessed. When both water and wastewater services are included in a bill, payment in full for both services must be made or otherwise the entire bill will be considered delinquent. Any services for which charges continue to be delinquent for 20 days from the due date are subject to termination by the city. [123]

(f) *No free service.* There shall be no free city utility services provided.

(g) *Installment payments.* In unusual circumstances and in limited cases, the city manager may, at his or her discretion, enter into a written agreement with a customer for extended or installment payments. The agreement shall provide that no fees or charges shall be waived, and failure to make any payment will render the entire amount due.
(Code 1996, § 13.02.008)

Sec. 13.07.001. Natural gas rates.[124]

The general service rate for sales of natural gas rendered to residential and commercial consumers within the city limits shall be as provided in the city fee schedule and shall be binding within the city limits on the city's natural gas franchisee in accordance with the franchise contract.

~~Subject to the following provisos, effective with gas bills rendered on and after 30 days from final date of passage of this article (June 6, 1988), the maximum general service rate for sales of natural gas rendered to residential and commercial consumers within the city limits by Lone Star Gas Company, a division of ENSERCH Corporation, a Texas corporation, its successors and assigns, is fixed and determined as set forth in item A, in the attachment maintained on file in the office of the city secretary, which is incorporated herein. This section approves the elimination of the rate schedule for public free schools N and placement of those customers receiving said rate on the commercial rate set forth in item A in the attachment maintained on file in the office of the city secretary.~~

---

[123] **Sec. 13.02.008. Billing and payment.** See subsection (e). Aren't water and wastewater always included in one bill, along with garbage collection?

[124] **Sec. 13.07.001. Natural gas rates.** This section is derived from a 1988 franchise. I assume that it is largely if not completely obsolete. Please review.

Unedited First Draft

~~Proviso No. 1: If this article is finally passed and approved before the effective date stated in the statement of intent the new rates shall be effective with gas bills rendered on and after 30 days from the final date of passage of this article for the good cause of reducing regulatory lag.~~
~~Proviso No. 2: If this article is finally passed and approved after a period of suspension, the new rates shall be billable immediately in order to reduce regulatory lag. This provision is an exercise of the regulatory authority's discretion to establish the effective date of rates at any time after jurisdiction attached, and its authority pursuant to state law to establish rates for any period of suspension.~~
~~*Gas cost adjustment factor*. The residential and commercial rates shall be adjusted upward or downward from base of $3.5847 per Mcf by a gas cost adjustment factor expressed as an amount per thousand (1,000) feet (Mcf) of natural gas for changes in the intercompany city gate rate charged as authorized by the state railroad commission or other regulatory body having jurisdiction for gas delivered to the DeSoto distribution system, according to item B, in the attachment maintained on file in the office of the city secretary, which is incorporated herein.~~
~~*Tax adjustments*. Company shall also receive tax adjustments according to item C, in the attachment maintained on file in the office of the city secretary, which is incorporated herein.~~
~~*Additional reasonable charges*. In addition to the aforesaid rates, company shall have the right to collect such reasonable charges as are necessary to conduct its business and to carry out is reasonable rules and regulations in effect. The charges set forth in items D and E, in the attachment maintained on file in the office of the city secretary, which is incorporated herein, are approved. Services for which no charge is set out may be performed and charged for by company at a level established by the normal forces of competition.~~
~~*Rate case expense recovery*. In addition to the aforesaid rates, company is authorized to recover the current and any unrecovered prior rate case expense through a surcharge designed for a six-month nominal recovery period. The surcharge per Mcf will be calculated by dividing the rate case expense to be recovered by one-half of the adjusted annual sales volume to residential and commercial customers. The company will provide monthly status reports to account for the collections.~~
~~*Rates subject to amendment*. The rates set forth in this article may be changed and amended by either the city or company in the manner provided by law. Service hereunder is subject to the orders of regulatory bodies having jurisdiction, and to the company's rules and regulations currently on file in the company's office.~~
(Code 1996, §§ 13.07.001—13.07.006)

ARTICLE III. IMPACT FEES

~~Sec. 13.00.000. Short Title. This article shall be known and cited as the Glenn Heights water and wastewater impact fees article.~~[125]
~~(Code 1996, § 13.05.001; Ordinance 800-05 adopted 9/19/05)~~

Sec. 13.05.002. Purpose.

(a) This article is intended to assure the provision of adequate water and wastewater facilities to serve new development in the city by requiring each development to pay its share of the costs of such improvements necessitated by and attributable to such new development. It is not the purpose of this article to collect any money from new development in excess of the actual amount necessary to offset the demand on the city's water and wastewater facilities generated by such new development activity. It is specifically acknowledged that this article has approached the calculation of proportionate share impact

[125] **Sec. 13.00.000. Short Title.** Short titles are unnecessary after codification and should be stricken as shown.

Unedited First Draft

fees in a conservative and reasonable manner.

(b) It is in the interest of the public's health, safety, and general welfare for the city to regulate development and ensure the adequacy of water and wastewater facilities by requiring payment of proportionate share impact fees.
(Code 1996, § 13.05.002; Ordinance 800-05 adopted 9/19/05)

Sec. 13.05.003. Authority.

This article is adopted pursuant to V.T.C.A., Local Government Code, ch. 395 and the city charter. The provisions of this article shall not be construed to limit the power of the city to utilize all powers and procedures authorized under V.T.C.A., Local Government Code, ch. 395, or other methods authorized under state law or pursuant to other city powers to accomplish the purposes set forth herein, either in substitution or in conjunction with this article. Guidelines may be developed by ordinance, resolution, or otherwise to implement and administer this article.
(Code 1996, § 13.05.003; Ordinance 800-05 adopted 9/19/05)

Sec. 13.05.004. Definitions.[126]

The following words, terms and phrases, when used in this article, shall have the meanings ascribed to them in this section, except where the context clearly indicates a different meaning:

Assessment. The determination of the amount of the maximum impact fee per dwelling unit equivalent which can be imposed on new development pursuant to this article. The amount of the impact fee per dwelling unit equivalent is a measure of the water or wastewater impact on system facilities created by the new development.

Capital improvement. Any water supply, treatment and distribution facilities, or wastewater collection and treatment facilities, which have a life expectancy of three or more years and are owned and operated by or on behalf of the city.

Credit. The amount of the reduction of an impact fee arising from payments made for a capital improvement included in the water and wastewater study and made prior to September 19, 2005.[127]

Final plat approval or approval of a final plat. The point at which the applicant has complied with all conditions of approval and the plat has been released for filing with Dallas or Ellis County, whichever may be applicable.

Final plat recordation or recordation of a final plat. The point at which the applicant has complied with all conditions precedent to recording an approved final plat in Dallas or Ellis County, whichever may be applicable, including any infrastructure or other improvements required by the subdivision ordinance or any other ordinance.

Impact fee. A water or wastewater impact fee.

---

[126] **Sec. 13.05.004. Definitions.** A standardized introduction is substituted for consistency.

[127] **Sec. 13.05.004. Definitions—Contd.** Is this definition of credit obsolete?

Unedited First Draft

Land use assumptions. The projections of population and employment growth and associated changes in land uses, densities and intensities adopted by the city, as may be amended from time to time, upon which the waste and wastewater study is based.

New development. A project involving the construction, reconstruction, redevelopment, conversion, structural alteration, relocation, or enlargement of any structure, or any use or extension of land, which has the effect of increasing the requirements for capital improvements, measured by the number of dwelling unit equivalents to be generated by such activity, and which requires either the approval and filing with Dallas or Ellis County, whichever may be applicable, of a plat pursuant to the city's subdivision regulations or the issuance of a building permit.

Offset. The amount of the reduction of an impact fee designed to fairly reflect the value of system facilities or other capital improvements pursuant to rules herein established or council-approved administrative guidelines, provided by a developer pursuant to the city's subdivision regulations or requirements.

Recoup. To reimburse the city for capital improvements which the city has previously installed or caused to be installed.
(Code 1996, § 13.05.004; Ordinance 800-05 adopted 9/19/05)

Sec. 13.05.005. Applicability.

The provisions of this article apply to all new developments within the corporate boundaries of the city. The provisions of this article apply uniformly within both the water service area and the wastewater service area.
(Code 1996, § 13.05.005; Ordinance 800-05 adopted 9/19/05)

Sec. 13.05.006. Impact fees per dwelling unit equivalent.[128]

(a) Maximum impact fees per dwelling unit equivalent for water and wastewater shall be as set forth in schedule 1 attached to Ordinance 800-05 and on file in the office of the city secretary and made a part of this article by reference.

(b) The water and wastewater impact fee per dwelling unit equivalent which is to be paid by each new development shall be as set forth in schedule 2 attached to Ordinance 800-05 and on file in the office of the city secretary and made a part of this article by reference.

(c) Impact fee schedules 1 and 2 may be amended from time to time pursuant to state law.
(Code 1996, § 13.05.006; Ordinance 800-05 adopted 9/19/05)

Sec. 13.05.007. Assessment of impact fees.[129]

(a) Assessment of the impact fee for any new development shall be made as follows:

---

[128] **Sec. 13.05.006. Impact fees per dwelling unit equivalent.** Are Schedules 1 and 2 included in the city fee schedule? If not, could they be?

[129] **Sec. 13.05.007. Assessment of impact fees.** Is subsection (a)(1) of this section obsolete?

Unedited First Draft

(1) For land which is unplatted at the time of application for a building permit, or for a new development which received final plat approval prior to or on September 19, 2005, and for which no replatting is necessary pursuant to the city's subdivision regulations prior to development, assessment of impact fees shall occur at the time application is made for the building permit, and shall be the amount of the maximum impact fee per dwelling unit equivalent as set forth in schedule 1 then in effect.

(2) For a new development which is submitted for approval pursuant to the city's subdivision regulations after September 19, 2005, or for which replatting results in an increase in the number of dwelling unit equivalents after such date, assessment of impact fees shall be at the time of final plat recordation, and shall be the amount of the maximum impact fee per dwelling unit equivalent as set forth in schedule 1 then in effect.

(b) Following assessment of the impact fee pursuant to subsection (a), the amount of the impact fee assessed per dwelling unit equivalent for that development cannot be increased, unless the owner proposes to change the approved development by the submission of a new application for final plat approval, in which case new assessment shall occur at the schedule 1 rate then in effect.

(c) Following the vacating of any plat or submittal of any replat, a new assessment must be made in accordance with subsection (a)(2).

(d) Approval of an amending plat pursuant to V.T.C.S., Local Government Code, § 212.016, is not subject to reassessment for an impact fee.
(Code 1996, § 13.05.007; Ordinance 800-05 adopted 9/19/05)

Sec. 13.05.008. Payment and collection of impact fees.

(a) For all new developments, impact fees shall be collected at the time of application for a building permit. The impact fees to be paid and collected are listed in schedule 2. The city may enter into an agreement with a developer for a different time and manner of payment of impact fees, in which case the agreement shall determine the time and manner of payment.

(b) The city shall compute the impact fees for new development as set forth in the impact fee calculation section of the water and wastewater study, at pages II-12-14, attached to Ordinance 800-05 and on file in the office of the city secretary, as exhibit 1.

(c) If the building permit for which an impact fee has been paid has expired, and a new application is thereafter filed, the impact fees shall be computed using schedule 2 then in effect, with credits for previous payment of fees being applied against the new fees due.

(d) For a new development which is unplatted at the time of application for a building permit, and for which no replatting is necessary pursuant to the city's subdivision regulations prior to development, collection of impact fees shall occur at the time application is made for the building permit, and shall be the amount of the impact fee per dwelling unit equivalent, as set forth in schedule 2 then in effect.

(e) When the property owner proposes to increase the number of dwelling unit equivalents for a development, the additional impact fees collected for such new dwelling unit equivalents shall be determined by using schedule 2 then in effect, and such additional fee shall be collected at the times prescribed by this section.

(f) For a single-family residential lot of record existing on June 20, 1987, for which no replatting is

Unedited First Draft

necessary pursuant to the city's subdivision regulations prior to development, collection of impact fees shall be pursuant to schedule 2, and such fees shall be collected at the time of application for a building permit.
(Code 1996, § 13.05.008; Ordinance 800-05 adopted 9/19/05)

Sec. 13.05.009. Offsets and credits against impact fees.[130]

(a) The city shall offset the reasonable value of any water or wastewater system facility which has been dedicated to and has been accepted by the city or credit the amount of any monetary contribution to such facility, against the amount of the water or wastewater impact fees due, in accordance with the rules set forth in this section. The city may agree to offset the reasonable value of any other capital improvement which is not on the impact fee water and wastewater capital improvements plan, but which is on the city's generally adopted water and wastewater facilities plans. The value of an offset or credit may be stated in dollars or dwelling unit equivalents.

(b) This subsection applies only to an offset or credit associated with a capital improvement contributed to the city after September 19, 2005. Offsets or credits associated with a capital improvement contributed to the city prior to September 19, 2005, are addressed in subsection (c).

(1) For purposes of this subsection (b), an offset or credit associated with a capital improvement contributed to the city after September 19, 2005, is created at the time that the city accepts the system facility or other capital improvement for dedication or enters into a binding facilities agreement for the facility pursuant to the city's subdivision regulations.

(2) At the time the offset or credit is created, if no offset agreement exists or the existing agreement does not contain the terms identified herein on such date, the developer shall apply for an offset agreement, and the agreement thereafter shall be enforced in accordance with the following terms, providing:

(A) Identification of the plat with which the offset or credit is to be associated, with the exception of school districts;

(B) The amount of the capacity created by the capital improvement, expressed in dwelling unit equivalents;

(C) A provision stating that the offset or credit may be used to reduce impact fees imposed on new developments contained within the land subject to the associated plat after the effective date of the agreement;

(D) A provision that the amount of the offset or credit shall be determined by estimating the number of dwelling unit equivalents of capacity supplied by the capital improvement, reduced by:

(i) The number of dwelling unit equivalents developed within the plat since the contribution of the water or wastewater facility, using the dwelling unit equivalency table set forth at table II-9 in the water and wastewater study at page II-12; by

---

[130] **Sec. 13.05.009. Offsets and credits against impact fees.** I assume the highlighted sentence in subsection (b) is obsolete. Please confirm.

Unedited First Draft

(ii) The amount of the city's participation in the excess costs of the facility (expressed in dwelling unit equivalents); and by

(iii) The amount of any payments received from other new developments utilizing the facility (expressed in dwelling unit equivalents);

(E) A provision for reimbursement of any unused offsets or credits consistent with section 13.05.009(b)(4); and

(F) A provision stating that the city may elect to buy back outstanding offsets or credits in accordance with section 13.05.009(f).

The developer may assign the offset agreement with the city's consent, but in no event shall the offsets and credits provided for in the agreement be transferred to any development not subject to the plat associated with such offsets and credits with the exception of school districts which may transfer the credits to any future development by the school district.

(3) The developer may petition the city council for offsets for contribution of a water or wastewater capital improvement, which is not identified in the impact fee water and wastewater capital improvements plan, if the improvement will supply capacity to new developments other than to the development seeking the offset, at the time the facility is accepted by the city or a binding facilities agreement for the facility is executed pursuant to the city's subdivision regulations. In no event, however, may offsets attributable to such facility be used to reduce impact fees until the water or wastewater improvements plan has been amended to include all or a portion of the capital improvement. If the petition is granted, the terms shall be incorporated into an offset agreement as provided in section 13.05.009(b)(2). The agreement also shall provide that the amount of the offset shall not exceed the capacity of the capital improvement that is included in the water or wastewater improvements plan.

(4) As provided in the offset agreement required by section 13.05.009(b)(2), the developer may apply for reimbursement of excess offsets or credits following either completion of all development subject to the plat with which the offsets or credits are associated or after ten years following execution of the offset agreement. The following rules apply to such reimbursement, and shall be incorporated into the offset agreement:

(A) The developer must apply for reimbursement within six months following either:

(i) Completion of all development subject to the plat with which the offsets or credits are associated; or

(ii) Ten years after the date of execution of the offset agreement.

(B) The following terms shall be incorporated in the reimbursement agreement and the agreement shall be enforced in accordance with such terms:

(i) A provision stating that the amount to be reimbursed shall be equal to the number of unused offsets (expressed as a number of dwelling unit equivalents) multiplied by a fraction equal to the impact fee per dwelling unit equivalent to be collected, as set forth in schedule 2 in effect on the date of execution of the offset agreement, divided by the maximum impact fee per service unit, as set forth in schedule 1 in effect on the date of execution of the offset agreement;

Unedited First Draft

(ii) A provision stating that the amount to be reimbursed may be further equitably reduced, if fewer than fifty percent (50%) of the number of dwelling unit equivalents in the plat with which the capital improvement giving rise to the offset have been developed on the date of application for reimbursement;

(iii) A provision stating that repayment shall be made within five years from the date of execution of the reimbursement agreement, from water or wastewater impact fees, subject to the availability of such funds;

(iv) A provision that termination or reduction of the city's authority under state law to impose impact fees for water or wastewater facilities shall terminate or correspondingly reduce any obligation to make payments under the offset agreement; and

(v) A provision stating that, in converting the offsets from dwelling unit equivalents to a dollar value, the number of dwelling unit equivalents shall be multiplied by the value of a dwelling unit equivalent expressed in dollars using schedule 1 in effect at the time the offset agreement was executed.

(C) Execution of a reimbursement agreement shall automatically terminate any offsets or credits associated with a plat pursuant to an offset agreement. Thereafter, new development within the area subject to the plat shall pay water and wastewater impact fees in accordance with schedule 2 then in effect.

(c) This subsection applies only to offsets or credits associated with a capital improvement contributed to the city prior to September 19, 2005, and for which no development agreement exists providing for dedication or construction of system facilities and for offsets or credits against impact fees in proportion thereto. Any person who dedicated a system facility to the city or financed such facility prior to September 19, 2005, or any person who is subject to an impact fee for a new development in a plat associated with the system facility, may create offsets or credits for such facility by entering into an offset agreement within two years of September 19, 2005. [131] The agreement shall be enforced in accordance with the following terms, providing:

(1) Identification of the plat with which the offset or credit is to be associated, with the exception of school districts;

(2) The amount of the capacity created by the capital improvement, expressed in dwelling unit equivalents;

(3) A provision stating that the offset or credit may be used to reduce impact fees imposed on new developments contained within the land subject to the associated plat after the effective date of the agreement;

(4) A provision stating that the amount of the offset or credit shall be determined by estimating the number of dwelling unit equivalents capacity supplied by the system facility, reduced by:

(A) The number of dwelling unit equivalents developed within the plat since the contribution of the water or wastewater facility, using the dwelling unit equivalency table set forth at table II-9 in the water and wastewater study at page II-12; by

---

[131] **Sec. 13.05.009. Offsets and credits against impact fees—Contd.** I assume the highlighted text in subsection (c) is obsolete. Please confirm.

Unedited First Draft

(B) The amount of the city's participation in the excess costs of the facility (expressed in dwelling unit equivalents); and by

(C) The amount of any. payments received from other new developments utilizing the facility (expressed in dwelling unit equivalents);

(5) A provision stating, that offsets or credits created pursuant to the offset agreement shall expire at the time that development subject to the associated plat is completed;

(6) A provision stating that once the offset or credit has expired, no reimbursement for unused offsets or credits shall be due;

(7) A provision stating that, in converting offsets from dwelling unit equivalents to a dollar value, the number of dwelling unit equivalents shall be multiplied by the value of a dwelling unit equivalent expressed in dollars using schedule 1 in effect at the time the offset agreement was executed; and

(8) A provision stating that the city may elect to buy back outstanding offsets or credits in accordance with section 13.05.009(f).

The developer may assign the offset agreement with the city's consent, but in no event shall the offsets and credits provided for in the agreement be transferred to any development not subject to the plat associated with such offsets and credits, with the exception of school districts.

(d) All offsets and credits against water and wastewater impact fees shall be subject to the following limitations and shall be granted based on this article and additional standards promulgated by the city council, which may be adopted as council-approved administrative guidelines.

(1) No offset or credit shall be given for the dedication of land or easements for or the construction of site-related facilities.

(2) No offset or credit shall exceed the documented and city approved costs to the developer of the capital improvement which was dedicated to and accepted by the city, or the amount of the monetary contribution actually made.

(3) The costs or dwelling unit equivalents used to calculate the offsets shall not exceed those assumed for the specific capital improvement included in the impact fees capital improvements plan or the actual costs of that improvement, whichever is less.

(e) Offsets or credits shall be associated with the approved preliminary plat for the new development and shall apply to development of all land subject to such plat, with the exception of school districts. For new developments that are to be developed in phases, offsets or credits may be created sequentially and may be applied to any undeveloped portions of the plat with which the offset or credit is associated. The offset shall be expressed in service unit equivalents. The available offset or credit associated with the plat shall be applied against an impact fee in the following manner:

(1) For single-family residential lots which have received final plat approval, the offset or credit shall be applied to reduce the impact fee equally for all such lots within the final plat at the time of final plat recordation.

Unedited First Draft

(2) For all other types of new developments, the offset or credit shall be applied to reduce the impact fee at the time of issuance of the first building permit, and thereafter to all subsequently issued building permits, for each new development within the associated plat, until the offset or credit has been exhausted.

(f) Notwithstanding any other provisions of this section relating to offsets and credits, the city in its sole discretion may choose to acquire all or a portion of any outstanding offsets or credits associated with a new development by giving the property owner 60 days written notice of such intent and by tendering the dollar value of such offsets or credits using schedule 1 in effect at the time the applicable offset agreement was executed.

(g) Notwithstanding any other provision of this article to the contrary, for new developments subject to a development agreement predating September 19, 2005, which agreement provides for dedication or construction of system facilities and for offsets or credits against water or wastewater impact fees in proportion thereto, offsets or credits shall apply to the amount of impact fees to be collected for each service unit pursuant to schedule 2 then in effect in accordance with the terms of such development agreement.
(Code 1996, § 13.05.009; Ordinance 800-05 adopted 9/19/05)

Sec. 13.05.010. Use of proceeds of impact fees.

(a) The water and wastewater impact fees collected by the city may be used to finance, pay for or to recoup the costs of any water and wastewater facilities identified in the water and wastewater study, including the construction contract price, surveying and engineering fees, land acquisition costs (including land purchases, court awards and costs, attorney's fees, and expert witness fees), and amounts designated in any reimbursement agreements executed pursuant to section 13.05.009.

(b) Impact fees may be used to pay for the contract services of an independent qualified engineer or financial consultant preparing or updating the water and wastewater improvements plan who is not an employee of the political subdivision.

(c) Impact fees also may be used to pay the principal sum and interest and other finance costs on bonds, notes or other obligations issued by or on behalf of the city to finance such capital improvement.
(Code 1996, § 13.05.010; Ordinance 800-05 adopted 9/19/05)

Sec. 13.05.011. Appeals.

(a) The property owner or applicant for development may appeal the following administrative decisions to the city council:

(1) The applicability of an impact fee to the development;

(2) The amount of the impact fee due;

(3) The availability of, the amount of, or the expiration of an offset or a credit;

(4) The application of an offset or credit against an impact fee due;

(5) The amount of the impact fee in proportion to the benefit received by the new development; or

Unedited First Draft

(6) Amount of a refund due, if any.

(b) The appellant shall state the basis for the appeal in writing with particularity. The burden of proof shall be on the appellant to demonstrate that the amount of the fee or the amount of the offset or credit was not calculated according to the rules set forth in this article or by administrative guideline. The appellant shall submit any traffic study or other documents upon which he relies to the city with the request for appeal.

(c) The appellant must file a notice of appeal with the city secretary within 30 days following the decision. If the notice of appeal is accompanied by a bond or other sufficient surety satisfactory to the city attorney in an amount equal to the original determination of the impact fee due, the development application may be processed while the appeal is pending.
(Code 1996, § 13.05.011; Ordinance 800-05 adopted 9/19/05)

Sec. 13.05.012. Refunds.

(a) Any impact fee or portion thereof collected pursuant to this article which has not been expended for an authorized purpose within ten years from the date of payment shall be refunded, upon application, to the record owner of the property at the time the refund is paid or, if the impact fee, was paid by another governmental entity, to such governmental entity, together with interest calculated from the date of collection to the date of refund at the statutory rate as set forth in V.T.C.A., Finance Code, § 302.002. The application for refund pursuant to this section shall be submitted in writing within 60 days after the expiration of the ten year period for expenditure of the fee. An impact fee shall be considered expended on a first-in, first-out basis.

(b) An impact fee collected pursuant to this article shall be considered expended if the total expenditures for capital improvements authorized in section 13.05.010 within ten years following the date of payment exceed the total fees collected for such improvements during such period.

(c) If a refund is due pursuant to sections 13.05.012(a) or (b), the city shall prorate the refund by dividing the difference between the amount of expenditures and the amount of the fees collected by the total number of dwelling unit equivalents for the period to determine the refund due per dwelling unit equivalents. The refund to the record owner shall be calculated by multiplying the refund due per dwelling unit equivalents by the number of dwelling unit equivalents for the development for which the fee was paid, and interest due shall be calculated upon that amount.

(d) Upon completion of all the capital improvements identified in the water and wastewater improvements plan, the city shall recalculate the maximum impact fee per dwelling unit equivalents using the actual costs for the improvements or expansions. If the maximum impact fee per dwelling unit equivalent based on actual cost is less than the impact fee per dwelling unit equivalent paid, the city shall refund the difference, if such difference exceeds the impact fee paid by more than ten percent. The refund to the record owner shall be calculated by multiplying such difference by the number of dwelling unit equivalent for the development for which the fee was paid, and interest due shall be calculated upon that amount.

(e) If the building permit for a new development for which an impact fee has been paid has expired, and a modified or new application has not been filed within six months of such expiration, the city shall, upon written application, refund the amount of the impact fee to the applicant. The city may establish guidelines for refunding of impact fees collected for which construction plans have been abandoned.
(Code 1996, § 13.05.012; Ordinance 800-05 adopted 9/19/05)

Unedited First Draft

Sec. 13.05.013. Relief procedures.

(a) Any person who has paid an impact fee or an owner of land upon which an impact fee has been paid may petition the city council to determine whether any duty required by this article has not been performed within the time so prescribed. The petition shall be in writing and shall state the nature of the unperformed duty and request that the act be performed within 60 days of the request. If the city council determines that the duty is required pursuant to this article and is late in being performed, it shall cause the duty to commence within 60 days of the date of the request and to continue until completion.

(b) The city council may grant a variance or waiver from any requirement of this article, upon written request by a developer or owner of property subject to this article, following a public hearing, and only upon finding that a strict application of such requirement would when regarded as a whole result in confiscation of the property.

(c) If the city council grants a variance or waiver to the amount of the impact fee due for a new development under this section, it may cause to be appropriated from other city funds the amount of the reduction in the impact fee to the account for the water or wastewater benefit area in which the property is located.
(Code 1996, § 13.05.013; Ordinance 800-05 adopted 9/19/05)

Sec. 13.05.031. Facilities land use assumptions and benefits area.[132]

(a) The land use assumptions are adopted as the city's land use assumptions for water and wastewater facilities and system. The land use assumptions are set forth as exhibit A to the impact fee study, a copy of which is attached to Ordinance 800-05 and on file in the office of the city secretary as exhibit 1 and incorporated by reference herein.

(b) There is established one service area for water and wastewater impact fees, as depicted in plates 1 and 2, respectively, of the land use assumptions.

(c) The boundaries of the water and wastewater impact fee service areas may be amended from time to time, or new water or wastewater impact fee service areas may be delineated.
(Code 1996, § 13.05.031; Ordinance 800-05 adopted 9/19/05)

Sec. 13.05.032. Multiyear financial plan.[133]

(a) The financial plan is adopted. The financial plan is set forth as exhibit B to the impact fee study, a copy of which is attached to Ordinance 800-05 and on file in the office of the city secretary as exhibit 1 and incorporated by reference herein.

(b) The financial plan may be amended from time to time.
(Code 1996, § 13.05.032; Ordinance 800-05 adopted 9/19/05)

---

[132] **Sec. 13.05.031. Facilities land use assumptions and benefits area.** Is referring to Exhibit A as "on file" still acceptable?

[133] **Sec. 13.05.032. Multiyear financial plan.** Is referring to Exhibit B as "on file" still acceptable?

Unedited First Draft

Sec. 13.05.033. Impact fee study.[134]

(a) The water and wastewater study is adopted. The water and wastewater study is set forth as exhibit C to the impact fee study, a copy of which is attached to Ordinance 800-05 and on file in the office of the city secretary as exhibit 1 and incorporated by reference herein.

(b) The water and wastewater study may be amended from time to time.
(Code 1996, § 13.05.033; Ordinance 800-05 adopted 9/19/05)

Sec. 13.05.034. Impact fee amounts.

(a) The maximum water and wastewater impact fees per dwelling unit equivalent are adopted and incorporated in schedule 1 attached to Ordinance 800-05 and on file in the office of the city secretary and made a part hereof by reference.

(b) The water and wastewater impact fees per dwelling unit equivalent, which are to be paid by each new development, are adopted and incorporated in schedule 2 attached to Ordinance 800-05 and on file in the office of the city secretary and made a part hereof by reference.

(c) The impact fees per dwelling unit equivalent for water and wastewater facilities may be amended from time to time.
(Code 1996, § 13.05.034; Ordinance 800-05 adopted 9/19/05)

ARTICLE IV. WATER CONSERVATION AND DROUGHT CONTINGENCY PLAN

Sec. I: Policy, purpose, and intent.

(a) The purpose of this article is to conserve the available city water supply and protect the integrity of water supply facilities, with particular regard for domestic water use, sanitation, and fire protection, and to protect and preserve public health, welfare, and safety and minimize the adverse impacts of water supply shortage or other water supply emergency conditions.

(b) Water uses restricted or prohibited under the drought contingency plan are considered to be non-essential and continuation of such uses during times of water shortage or other emergency water supply condition are deemed to constitute a waste of water which subjects the offender to penalties as defined in in this article.

(c) The objectives of the drought contingency plan are to:

(1) Conserve the available water supply in times of drought and emergency;

(2) Maintain supplies for domestic water use, sanitation, and fire protection;

(3) Protect and preserve public health, welfare, and safety;

(4) Minimize the adverse impacts of water supply shortages; and

---

[134] **Sec. 13.05.033. Impact fee study**. Is referring to Exhibit C as “on file” still acceptable?

Unedited First Draft

(5) Minimize the adverse impacts of emergency water supply conditions.

(Ord. No. O-10-24, exh. A(I), 6-4-2024)

Sec. II: Public involvement

Opportunity for the public to provide input into the preparation of the plan was provided by the city by means of providing a copy of the draft version of this plan to any person who requested it and convening a public meeting to accept input on the plan.

(Ord. No. O-10-24, exh. A(II), 6-4-2024)

Sec. III: Public education

The city will periodically provide the public with information about the plan, including information about the conditions under which each stage of the plan is to be initiated or terminated and the drought response measures to be implemented in each stage. This information may be provided by means of, but not limited to, an appropriate combination of the following items:

(1) Newspaper and magazine articles and announcements

(2) Press releases, media alerts and social media

(3) Email and telephone notifications to customers

(4) Mailed water bill inserts

(5) Distribution of fact sheets, brochures, and pamphlets

(6) Customer service representatives

(7) Public meetings and hearings

(8) Public education seminars

(Ord. No. O-10-24, exh. A(III), 6-4-2024)

Sec. IV: Coordination with regional water planning groups

The service area of the city is located within the Region C Water Planning Group and the city will provide a copy of this plan to the group.

(Ord. No. O-10-24, exh. A(IV), 6-4-2024)

Sec. V: Authorization

The city manager or his/her designee is authorized and directed to implement the applicable provisions of this plan upon determination that such implementation is necessary to protect public health, safety, and welfare. or in conjunction with and upon written notice by the supplier. The city manager or his/her designee shall have the authority to initiate or terminate drought or other water supply emergency response measures as described in this plan.

(Ord. No. O-10-24, exh. A(V), 6-4-2024)

Unedited First Draft

Sec. VI: Application.

The provisions of this plan shall apply to all persons, customers, and property utilizing water provided by the city. The terms "person" and "customer" as used in the plan include individuals, corporations, partnerships, associations, and all other legal entities.
(Ord. No. O-10-24, exh. A(VI), 6-4-2024)

Sec. VII: Definitions.[135]

The following words, terms and phrases, when used in this article, shall have the meanings ascribed to them in this section, except where the context clearly indicates a different meaning:

Aesthetic water use: water use for ornamental or decorative purposes such as fountains, reflecting pools, and water gardens.

Automatic Irrigation System: means a site-specific system of delivering water, generally for landscape irrigation, via a system of pipes or other conduits installed below ground that will automatically cycle water using landscape sprinklers according to a preset program, whether on a designated timer or through manual operation.

~~city manager: The city manager for the city.~~

Commercial and institutional water use: water use which is integral to the operations of commercial and non-profit establishments and governmental entities such as retail establishments, hotels and motels, restaurants, and office buildings.

Conservation: those practices, techniques, and technologies that reduce the consumption of water, reduce the loss or waste of water, improve the efficiency in the use of water or increase the recycling and reuse of water so that a supply is conserved and made available for future or alternative uses.

Customer: any person, company, or organization using water supplied by city.

Domestic water use: water use for personal needs or for household or sanitary purposes such as drinking, bathing, heating, cooking, sanitation, or for cleaning a residence, business, industry, or institution.

Even number address: street addresses, box numbers, or rural postal route numbers ending in 0, 2, 4, 6, or 8 and locations without addresses.

Foundation watering: an application of water to the soils directly abutting (within 2 feet) the foundation of a building, structure.

Industrial water use: the use of water in processes designed to convert materials of lower value into forms having greater usability and value.

Landscape irrigation use: water used for the irrigation and maintenance of landscaped areas, whether publicly or privately owned, including residential and commercial lawns, gardens, golf courses, parks,

---

[135] **Sec. VII: Definitions.** A standardized introduction is substituted for consistency. Also, self-defining terms and terms duplicative of chapter 1 definitions are stricken.

Unedited First Draft

and rights-of-way and medians.

Non-essential water use: water uses that are not essential nor required for the protection of public, health, safety, and welfare, including:

(a) irrigation of landscape areas, including parks, athletic fields, and golf courses, except otherwise provided under this plan;

(b) use of water to wash any motor vehicle, motorbike, boat, trailer, airplane or other vehicle;

(c) use of water to wash down any sidewalks, walkways, driveways, parking lots, tennis courts, or other hard-surfaced areas;

(d) use of water to wash down buildings or structures for purposes other than immediate fire protection;

(e) flushing gutters or permitting water to run or accumulate in any gutter or street;

(f) use of water to fill, refill, or add to any indoor or outdoor swimming pools or Jacuzzi-type pools;

(g) use of water in a fountain or pond for aesthetic or scenic purposes except where necessary to support aquatic life;

(h) failure to repair controllable leaks within a reasonable period after having been given notice directing the repair of such leaks; and

(i) use of water from hydrants for construction purposes or any other purposes other than firefighting.

Odd numbered address: street addresses, box numbers, or rural postal route numbers ending in 1, 3, 5, 7, or 9.

Plan: The drought contingency plan adopted by the city.

Recreational water use: Water used for leisure and entertainment purposes. Examples include but are not limited to swimming pools, Jacuzzi-type pools, water theme parks, wading pools and water toys.

Retail customers: Any water customer that receives water supply from the city water supply system.

Supplier: Dallas Water Utilities.

Trigger: A condition that would require certain operating conditions prescribed in the plan.
(Ord. No. O-10-24, exh. A(VII), 6-4-2024)

Sec. VIII: Criteria for Initiation and Termination of Drought Response Stages

1) The city manager and his/her designee shall monitor water supply or demand conditions on a daily basis, or in conjunction with and upon written notice by the supplier and shall determine when conditions warrant initiation or termination of each stage of the plan. Public notification of the response stages shall be by means of signs and posters in public places, or handouts or local media.

Unedited First Draft

2) After implementation, the city manager shall immediately notify the mayor and city council. Public notification shall be made by handouts, website postings, local news media, signs or posters in public places.

3) Once the authorization has been given, operations shall continue under the drought contingency plan, with progression from one stage to another as determined by the appropriate trigger conditions as notified by the supplier and executed by the city manager or his/her designee. Operations may be returned to normal procedures once the trigger conditions have dissipated and by authorization of the city manager. The mayor and city council will be notified immediately of the return to normal operations.

4) The triggering criteria described below are based on the following:

a. Available water supplies from the supplier, Dallas Water Utilities:

i. DWU determines the total raw water supply in connected lakes (east and west); or the western lakes or the eastern lakes has dropped below 65% (35% depleted) of DWU's share of the total conservation storage of the lakes; or

ii. Water demand has reached or exceeded 85% of delivery capacity for 4 consecutive days; or

iii. Water demand approaches a reduced delivery capacity for all or part of the system, as determined by DWU; or

iv. Natural or manmade contamination of the water supply sources occurs.

b. Demand causes severe stress on water facilities;

c. Equipment failure;

d. Natural disaster; or

e. Contamination of water supply.

Initiation of drought response stage.

1) The supplier or the city manager or his/her designee may order the implementation of a drought response stage or water emergency when one or more of the trigger conditions for that stage is met. The following actions will be taken when a drought stage is initiated:

a) The public will be notified through mail-outs, newsletters, website postings, posters, or the local newspaper.

b) If any mandatory provisions of the drought contingency plan are activated, the city manager will notify the executive director of the TCEQ within five business days.

2) The supplier or the city manager may decide not to order the implementation of a drought response stage or water emergency even though one or more of the trigger criteria for the stage are met. Factors which could influence such a decision include, but are not limited to, the time of the year, weather conditions, the anticipation of replenished water supplies, or the anticipation that additional facilities will

Unedited First Draft

become available to meet needs.

Termination of drought stage.

1) The supplier or the city manager or his/her designee may order the termination of a drought response stage or water emergency when the conditions for termination are met or at his/her discretion. The following actions will be taken when a drought stage is terminated:

a) The public will be notified through mail-outs, newsletters, website postings, posters or the local newspaper.

b) When any mandatory provisions of the drought contingency plan that have been activated or terminated, the city manager will notify the executive director of the TCEQ within five business days.

2) The supplier or city manager may decide not to order the termination of a drought response stage or water emergency even though the conditions for termination of the stage are met. Factors which could influence such a decision include, but are not limited to, the time of the year, weather conditions, or the anticipation of potential changed conditions that warrant the continuation of the drought stage.

Utilization of alternative water sources or alternative delivery mechanisms:

The city does not have an alternative water source or delivery mechanism.

Stage 1 Triggers

(A) Requirements for initiation

Customers shall be requested to comply with the requirements and restrictions on certain non- essential water uses provided in Section IX of this plan when:

- Water demand has reached or exceeded 85% of delivery capacity for 4 consecutive days; or
- Water demand approaches a reduced delivery capacity for all or part of the system, as determined by the city; or
- Water line breaks or pump or system failures, which impact the ability of the city to provide treated water service; or
- Natural or man-made contamination of the water supply sources occurs; or
- Notification by DWU that Stage 1 of its plan has been activated.

(B) Requirements for termination

- Stage 1 may be terminated when Stage 1 conditions no longer exist and would be unlikely to recur upon termination.

Stage 2 Triggers

(A) Requirements for initiation

Unedited First Draft

Customers shall be required to comply with requirements and restrictions on certain non-essential water uses provided in Section IX of this plan when:

- Any conditions from Stage 1; or
- Water demand has reached or exceeded 90% of delivery capacity for 3 consecutive days; or
- Water demand equals a reduced delivery capacity for all or part of the system, as determined by the city; or
- Water line breaks or pump or system failures occur, which impact the ability of the city to provide treated water service; or
- Natural or man-made contamination of the water supply sources occurs; or
- Notification by DWU that Stage 2 of its plan has been activated.

(B) Requirements for termination

- Stage 2 may be terminated when Stage 2 conditions no longer exist and would be unlikely to recur upon termination.

Stage 3 Trigger

Customers shall be required to comply with the requirements and mandatory restrictions on certain non-essential water uses provided in Section IX of this plan when:

(A) Requirements for initiation

- Any conditions from Stage 1 or 2; or
- Water demand has reached or exceeded 95% of delivery capacity for 2 consecutive days; or
- Water demand exceeds a reduced delivery capacity for all or part of the system, as determined by the city; or
- Water line breaks or pump or system failures occur, which impact the ability of the city to provide treated water service; or
- Natural or man-made contamination of the water supply sources occurs; or
- Notification by DWU that Stage 3 of its plan has been activated.

(B) Requirements for termination

Stage 3 of the plan may be terminated when the Stage 3 conditions no longer exist and would be unlikely to recur upon termination.
(Ord. No. O-10-24, exh. A(VIII), 6-4-2024)

Unedited First Draft

Sec. IX: Drought response stages.

The city manager or his/ her designee shall monitor water supply or demand conditions on a weekly basis and, in accordance with the triggering criteria set forth in Section VIII of this plan, shall determine if conditions exist that would trigger any of the designated drought stages, and if so, shall implement the following actions:

Notification of executive director.

As required by the Texas Administrative Code, any mandatory restrictions adopted in this drought contingency plan require notification of the executive director of the TCEQ. Upon initiation of these restrictions, the city manager shall notify the executive director within five business days.

The city manager or his/ her designee shall notify the public by means of:

- Public Service Announcements
- Signs Posted in Public Places
- City Website
- Billing Stuffers

Additional Notification:

The city manager or his/ her designee shall notify directly, or cause to be notified directly, the following individuals and entities:

- Mayor and members of the city council
- Fire chief
- City or county emergency management coordinators
- State disaster district / department of public safety
- TCEQ (required when mandatory restrictions are imposed)
- Critical water users, i.e. hospitals
- Parks / street superintendents & public facilities managers

(1) Stage 1 Response

Upon written notification from DWU, that conditions exist and this level of the drought plan, including but not limited to the rationing of the water supply, has been initiated, the city shall implement the following:

Target: Achieve a 5 percent reduction in total gallons per capita per day.

Unedited First Draft

Water Use Restrictions for Demand Reduction:

Following is a menu of possible actions. Specific actions taken during any drought situation will be determined by the director of the water department or designee. The director of the water department or designee may also take other actions not listed, if deemed necessary.

All Water Users

Landscape Uses:

A. All water customers are reminded to observe the mandatory maximum 2-days- per-week landscape watering schedule and require watering only during the allowed watering hours of 6:00 pm and 10:00 am as defined in Section VII.

B. Encourage reduction of water use through voluntary maximum 1-day-per-week landscape watering schedule.

C. Discourage planting of new landscapes, including lawns, hydro-seeding and sod.

Swimming Pools and Other Recreational Uses:

(A) Encourage reduction in frequency in draining and refilling of swimming pools.

(B) Prohibit recreational water usage, including the use of faucets, hoses or hydrants, which results in water run-off or other prohibited waste of water.

Foundations:

Foundations may be watered on any day of the week and at any time. Foundations may be watered with a drip irrigation system, soaker hose or a hand-held hose equipped with a positive shutoff nozzle.

Vehicle Washing:

Restrict washing of any motor vehicle, motorbike, boat, trailer, airplane or other vehicle to the use of a hand-held bucket or a hand-held hose equipped with a positive shut-off nozzle for quick rinses.

Vehicle washing may be done at any time on the immediate premises of a commercial vehicle wash facility or commercial service station. Companies with an automated on-site vehicle washing facility may wash vehicles at any time.

City Government:

(A) Initiate public education campaign teaching and encouraging reduced water use practices.

(B) Intensify normal leak detection and repair activities on water pipes and mains.

(C) Require reduction of water use through mandatory maximum twice weekly landscape watering schedule for city parks.

(D) Encourage reduction of water use in city-owned ornamental fountains.

Unedited First Draft

(E) Encourage additional reduction in landscape uses for parks.

(F) Encourage 25 percent reduction in frequency of and city vehicle washing and rinsing.

(G) Increase enforcement efforts through proactive code enforcement.

Commercial Customers:

(A) Identify and encourage voluntary reduction measures by high-volume water users through water use audits.

(B) Require reduction of water use through mandatory maximum twice weekly landscape watering schedule for private parks.

(C) Encourage additional reduction in landscape uses for parks.

(D) Encourage reduction in water use for landscape nursery stock.

(E) Encourage area restaurants to serve customers water by request only.

(2) Stage 2 Response

Upon written notification from DWU that conditions exist and this level of the drought plan, including but not limited to the rationing of the water supply, has been initiated, the city shall implement the following:

Target: Achieve a 15 percent reduction in total gallons per capita per day.

Water Use Restrictions for Demand Reduction:

Following is a menu of possible actions. Specific actions taken during any drought situation will be determined by the director of the water department. The director of the water department may also take other actions not listed, if deemed necessary. All requirements of Stage 1 shall remain in effect during Stage 2, and the following additional measures will be required:

All Water Users:

Landscape Uses:

(A) Irrigation of landscaped areas with hose-end or automatic sprinklers shall be limited to Monday, Wednesday and Friday with even- numbered houses and Tuesday, Thursday and Saturday with odd-numbered houses and further limited to the hours of 6:00 p.m. to 6:00 a.m. Watering is permitted at any time if it is by means of a hand-held hose or a faucet-filled bucket;

Swimming Pools and Other Recreational Uses:

(A) Use of water to fill, refill or add to swimming pools or Jacuzzi-type pools is prohibited except on watering days from 6:00 p.m. to 6:00 a.m.

Unedited First Draft

(B) Continue to prohibit recreational water usage, including the use of faucets, hoses or hydrants, which results in water run-off or other prohibited waste of water.

Foundations:

Foundations may be watered on any day of the week and at any time. Foundations may be watered with a drip irrigation system, soaker hose or a hand-held hose equipped with a positive shut-off nozzle.

Vehicle Washing:

Restrict washing of any motor vehicle, motorbike, boat, trailer, airplane or other vehicle to the use of a hand-held bucket or a hand-held hose equipped with a positive shutoff nozzle for quick rinses. Vehicle washing may be done at any time on the immediate premises of a commercial vehicle wash facility or commercial service station. Companies with an automated on-site vehicle washing facility may wash vehicles at any time.

City Government:

(A) Initiate engineering studies to evaluate alternatives to mitigate drought conditions should conditions worsen.

(B) Accelerate public education campaign teaching and encouraging reduced water use practices.

(C) Continue intensified leak detection and repair activities on water pipes and mains.

(D) Prohibit flushing of new mains not immediately required to provide service.

(E) City government restricted to mandatory maximum once weekly landscape watering schedule.

(F) Require reduction of water use through mandatory once weekly landscape watering schedule for city parks.

(G) Prohibit operation of city-owned ornamental fountains and water features.

(H) Reduce frequency of city vehicle washing or rinsing by 50 percent.

(I) Increase enforcement efforts through proactive code enforcement.

Commercial Customers:

Require reduction of water use through mandatory maximum once weekly landscape watering schedule for private parks.

(3) Stage 3 Response

Upon written notification from DWU, that conditions exist and this level of the drought plan, including but not limited to the rationing of the water supply, has been initiated, the city shall implement the following:

Target: Achieve a 20 percent reduction in total gallons per capita per day.

Unedited First Draft

Water Use Restrictions for Reducing Demand:

Following is a menu of possible actions. Specific actions taken during any drought situation will be determined by the Director of the Water Department. The Director of the Water Department may also take other actions not listed, if deemed necessary. All requirements of Stages 1 and 2 shall remain in effect during Stage 3, and the following additional measures will be required:

All Water Users

Landscape Uses:

(A) All water customers are reminded to observe all requirements of the Water Conservation Ordinance, as established in the city Chapter 13 Utilities, Article 13.03 Water Conservation and Drought Contingency Plan Irrigation of landscaped areas shall be limited to one day every seven days between the hours of 6:00 a.m. [to] 10:00 a.m. and 6:00 p.m. to 12:00 a.m. - hose-end or hand-held devices shall be limited to these same hours. Even-numbered houses shall be allowed to water on Tuesday and odd-numbered houses shall be allowed to water on Thursday. (Exceptions: foundations and new plantings (first year) of trees and shrubs may be watered for up to (two) 2 hours during off-peak hours on the watering schedule by a hand-held hose or a soaker hose. Golf courses may water greens and tee boxes without restrictions. Restrictions do not apply to locations using treated wastewater effluents for irrigation.) Requires notification to TCEQ;

(B) Installation of new landscapes or turf areas is prohibited.

(C) Operation of any water feature, ornamental fountain or pond that uses potable water is prohibited except where supporting aquatic life or water quality.

Swimming Pools and Other Recreational Uses:

(A) Prohibit the filling, draining and refilling of existing swimming pools, wading pools, Jacuzzi and hot tubs except to maintain structural integrity, proper operation and maintenance or alleviate a public safety risk. Existing pools may add water to replace losses from normal use and evaporation.

(B) Permitting of new swimming pools, wading pools, water features, Jacuzzi and hot tubs is prohibited.

(C) Continue to prohibit recreational water usage, including the use of faucets, hoses or hydrants, which results in water run-off or other prohibited waste of water.

Foundations:

Foundations may be watered one day per week on the Stage 2 watering schedule within the permitted watering hours. Foundations may be watered with a drip irrigation system, soaker hose or a hand-held hose equipped with a positive shutoff nozzle. Water run-off is absolutely prohibited.

Vehicle washing:

Use of water to wash any motor vehicle, motorbike, boat, trailer or other vehicle not occurring on the premises of a commercial vehicle wash facility or commercial service stations is prohibited. Companies

Unedited First Draft

with an automated on-site vehicle washing facility may wash its vehicles at any time. Further, such washing may be exempt from these requirements if the health, safety and welfare of the public are contingent upon frequent vehicle cleansing, such as garbage trucks and commercial vehicles used to transport food and perishables.

Impervious surface cleaning:

Hosing and washing of paved areas, buildings, structures, windows or other surfaces is prohibited except by variance

High Demand Surcharge:

(A) Residential Customers A 50 percent rate increase for high water demand users (greater than 15,000 gallons per month per account) shall be initiated to discourage non-essential use.

(B) Commercial Customers A 50 percent rate increase for high water demand users (greater than 10,000 gallons and 1.4 times annual average monthly usage per account) shall be initiated to discourage non-essential use.

New Service: No application for new, additional, expanded, or increased-in-size water service connections, meters, service lines, pipeline extensions, mains, or water service facilities of any kind shall be approved, and time limits for approval of such applications are suspended for such time as this drought response stage or a higher-numbered stage shall be in effect.

City Government: City vehicle washing or rinsing is prohibited except for reasons of public health, safety and welfare.

Commercial Customers: Watering of private parks is prohibited. watering hours as defined in Section VII; unless the private park uses a water source other than that provided by the city.
(Ord. No. O-10-24, exh. A(IX), 6-4-2024)

Sec. X: Enforcement

(A) No person shall knowingly or intentionally allow the use of water from the city for residential, commercial, industrial, agricultural, governmental, or any other purpose in a manner contrary to any provision of this plan, or in an amount in excess of that permitted by the drought response stage in effect at the time pursuant to action taken by the city manager or his/her designee, in accordance with provisions of this plan.

(B) Any person who violates this plan is guilty of a misdemeanor and, upon conviction shall be punished by a fine of not less than $250.00 and not more than $2,000.00. Each day that one or more of the provisions in this plan is violated shall constitute a separate offense. If a person is convicted of three or more distinct violations of this plan, the city manager or his/her designee shall, upon due notice to the customer, be authorized to discontinue water service to the premises where such violations occur. Services discontinued under such circumstances shall be restored only upon payment of a reconnection charge, established at $150.00, and any other costs incurred by the city in discontinuing service. In addition, suitable assurance must be given to the city that the same action shall not be repeated while the plan is in effect.

(C) Any person, including a person classified as a water customer of the city, who is in apparent

Unedited First Draft

control of the property where a violation occurs or originates shall be presumed to be the violator, and proof that the violation occurred on the person's property shall constitute a rebuttable presumption that the person in apparent control of the property committed the violation, but any such person shall have the right to show that he/she did not commit the violation. Parents shall be presumed to be responsible for violations of their minor children and proof that a violation committed by a child, occurred on property within the parents' control shall constitute a rebuttable presumption that the parent committed the violation. but any such parent may be excused if he/she proves that he/she had previously directed the child not to use the water as it was used in violation of this plan and that the parent could not have reasonably known of the violation.

(D) The police chief or his/her designee or other city employees designated by the city manager or his/her designee may issue a citation to a person he/she reasonably believes to be in violation of this article. The citation shall be prepared in duplicate and shall contain the name and address of the alleged violator, if known, the offense charged and shall direct him/her to appear in the city municipal court on the date shown on the citation for which the date shall not be less than three days nor more than 15 days from the date the citation was issued. The alleged violator shall be served a copy of the citation. Service of the citation shall be complete upon delivery of the citation to the alleged violator, to an agent or employee of a violator, or to a person over 14 years of age who is a member of the violator's immediate family or is a resident of the violator's residence. The alleged violator shall appear in city municipal court to enter a plea of guilty or not guilty for the violation of this plan. If the alleged violator fails to appear in city municipal court, a warrant for his/her arrest may be issued. A summons to appear may be issued in lieu of an arrest warrant. These cases shall be expedited and given preferential setting in the city municipal court before all other cases.
(Ord. No. O-10-24, exh. A(X), 6-4-2024)

Sec. XI: Variances

(A) The city manager or his/her designee may, in writing, grant a temporary variance for existing water uses otherwise prohibited under this plan if it is determined that failure to grant such variance would cause an emergency condition adversely affecting the health, sanitation, or fire protection for the public or of the person requesting such variance, and if one or more of the following conditions are met:

1. Granting of a variance must not cause an immediate significant reduction in the city's water supply.

2. The health, safety, or welfare of other persons will not be adversely affected by granting of the variance.

3. The applicant must demonstrate that the extreme hardship or need is related to the health, safety, or welfare of the person requesting it.

4. Compliance with this plan cannot be technically accomplished for the duration of the water supply shortage or other condition for which the plan is in effect; or

5. Alternative methods can be implemented which will achieve the same level of reduction in water use.

(B) Persons requesting an exemption from the provisions of this article shall file a written petition for variance with the city within five days after the plan or a particular drought response stage has been invoked. All petitions for variances shall be reviewed by the city manager or his/her designee until such

Unedited First Draft

time that the matter can be considered by the city council. A decision by the city council shall be final.

(C) The petition for variance must be in writing and include the following information:

1. Name and address of the petitioners;

2. Purpose of water use;

3. Specific provisions of the plan from which the petitioner is requesting relief;

4. Detailed statement as to how the specific provision of the plan adversely affects the petitioner or what damage or harm will occur to the petitioner or others if petitioner complies with this article;

5. Description of the relief requested;

6. Period of time for which the variance is sought;

7. Alternative water use restrictions or other measures the petitioner is taking or proposes to take to meet the intent of this plan and the compliance date; and

8. Other pertinent information.

(D) Variances granted by the city shall be subject to the following conditions, unless waived or modified by the city council:

a. A timetable for compliance; or

b. Expiration when the plan is no longer in effect, unless the petitioner has failed to meet specified requirements.

(E) No variance shall be retroactive or otherwise justify a violation of the plan occurring prior to the issuance of the variance.
(Ord. No. O-10-24, exh. A(XI), 6-4-2024)

Sec. XII: Review and Update of Drought Contingency Plan.

The city shall review and update, as appropriate, the drought contingency plan, at least every five years, based on new and updated information, such as the adoption and revision of the regional water plan.
(Ord. No. O-10-24, exh. A(XII), 6-4-2024)

~~**Sec. XIII: Severability.**~~[136]
~~It is declared to be the intention of the city that the sections, paragraphs, sentences, clauses, and phrases of this plan are severable and, if any phrase, clause, sentence, paragraph, or section of this plan shall be declared unconstitutional by the valid judgment or decree of any court of competent jurisdiction, such unconstitutionality shall not affect any of the remaining phrases, clauses, sentences, paragraphs, and sections of this plan, since the same would have been enacted by the city without the incorporation into this plan of any such unconstitutional phrase, clause, sentence, paragraph, or section.~~

---

[136] **Sec. XIII: Severability.** Section duplicative of chapter 1 general provisions is stricken.

Unedited First Draft

~~(Ord. No. O-10-24, exh. A(XIII), 6-4-2024)~~

ARTICLE V. CROSS-CONNECTION CONTROL

Sec. 13.08.001. General.[137]

No water service connection shall be made to any establishment where a potential or actual contamination hazard exists unless the water supply is protected in accordance with the state natural resource conservation commission rules and regulations for public water systems (~~TNRCC~~ TCEQ rules) and this article. Water service shall be discontinued by the water purveyor if a required backflow prevention assembly is not installed, maintained and tested in accordance with the ~~TNRCC~~ TCEQ rules and this article.
(Code 1996, § 13.08.001)

Sec. 13.08.002. Backflow prevention assembly installation, testing and maintenance.

(a) All backflow prevention assemblies shall be tested upon installation by a recognized backflow prevention assembly tester and certified to be operating within specifications. Backflow prevention assemblies which are installed to provide protection against health hazards must also be tested and certified to be operating within specifications at least annually by a recognized backflow prevention assembly tester. A test report must be completed by a recognized backflow prevention assembly tester for each assembly tested. The signed and dated original form must be submitted to the city within five working days of the test.

(b) All backflow prevention assemblies shall be installed and tested in accordance with the manufacture's instructions, the American Water Works Association's Recommended Practice for Backflow Prevention and Cross-Connection Control (Manual M14) or the University of Southern California Manual of Cross-Connection Control.

(c) Assemblies shall be repaired, overhauled, or replaced at the expense of the customer whenever said assemblies are found to be defective. Original forms of such tests, repairs, and overhauls shall be kept and submitted to the city within five working days of the test, repair or overhaul of each backflow prevention assembly.

(d) No backflow prevention assembly or device shall be removed from use, relocated, or other assembly or device substituted without the approval of the city. Whenever the existing assembly is moved from the present location or cannot be repaired, the backflow prevention assembly shall be replaced with a backflow prevention assembly or device that complies with this article, the American Water Works Association Manual M14, current edition University of Southern California Manual of Cross-Connection Control, current addition, or the current plumbing code of the city, whichever is most stringent.

(e) Test gauges used for backflow prevention assemblies testing shall be calibrated at least annually in accordance with the American Water Works Association's Recommended Practice for Backflow Prevention and Cross-Connection Control (Manual M14) or the University of Southern California's

---

[137] **Sec. 13.08.001. General.** The Texas Natural Resource Conservation Commission (TNRCC) was renamed the Texas Commission on Environmental Quality (TCEQ) in 2001.

Unedited First Draft

Manual of Cross-Connection Control. The original calibration form must be submitted to the city within five working days after calibration.

(f) A recognized backflow prevention assembly tester must hold a current endorsement from the state natural resource conservation commission.
(Code 1996, § 13.08.002)

Sec. 13.08.003. Customer service inspections.

(a) A customer service inspection shall be completed prior to providing continued water service to all new construction, on any existing service when the water purveyor has reason to believe that cross-connections or other contaminant hazards exist, or after any material improvement, correction, or addition to the private water distribution facilities.

(b) Only individuals with the following credentials shall be recognized as capable of conducting a customer service inspection:

(1) Plumbing inspectors and water supply protection specialists that have been licensed by the state board of plumbing examiners.

(2) Customer service inspectors who have completed a commission-approved course, passed an examination administered by the commission or its designated agent and hold current certification or endorsement as a customer service inspector issued by the commission.

(c) Customer service inspection must certify that:

(1) No direct connection between water supply and a potential source of contamination is permitted. Potential sources of contamination shall be isolated from the public water system by an air gap or an appropriate backflow prevention device.

(2) No cross-connection between the public drinking water supply and a private water system is permitted. These potential threats to the public drinking water supply shall be eliminated at the service connection by the installation of an air gap or a reduced pressure zone backflow prevention device.

(3) No connection which allows water to be returned to the public drinking water supply is permitted.

(4) No pipe or pipe fitting which contains more than 8.0% lead may be used for the installation or repair of plumbing at any connection which provides water for human use.

(5) No solder or flux which contains more than 0.2 percent lead can be used for the installation or repair of plumbing at any connection which provides water for human use. A minimum of one lead test shall be performed for each inspection.
(Code 1996, § 13.08.003)

Sec. 13.08.004. Remedies nonexclusive.

The remedies provided for in this article are not exclusive of any other remedies that the city may have under state or federal law or other city ordinances. The city may take any, all, or any combination of these actions against a violator. The city may take more than one enforcement action against any violator. These actions may be taken concurrently.

Unedited First Draft

(Code 1996, § 13.08.004)

Sec. 13.08.005. Penalty for violation.

Any person or entity violating this division shall be deemed guilty of a misdemeanor, and upon conviction shall be punished by fine in accordance with the general penalty provision found in section 1.01.009 of this code. Every day such violation shall continue shall constitute a separate offense.
(Code 1996, § 13.08.005)

ARTICLE VI. DRAINAGE UTILITY SYSTEM

Sec. 13.12.001. Definitions.

(a) In addition to the definitions set out in V.T.C.A., Local Government Code, § 552.044, the following definitions shall apply when used in this article:

Developed. A parcel which has had improvements, structures, grading, or other construction which increased the natural impervious runoff value from an undeveloped or agricultural land.

Private. Parts of a stormwater system located on land not owned by the city outside of public easements. These partial systems connect to the public stormwater utility but are separate and distinct by ownership and maintenance responsibilities. This definition of “private” includes other government-owned land in the city for the purposes of this article, e.g. Dallas County, Ellis County, state department of transportation, etc.

Service area. The municipal boundaries of the city as those municipal boundaries are altered from time to time in accordance with state law and the charter and ordinances of the city.

Undeveloped. A parcel which has not had a building or structure located within its limits.

(b) Definitions not explicitly stated in this article shall be defined first as within the current TPDES general permit, then as within other sections of this Code. When differences exist, the most stringent of the definitions shall apply.
(Code 1996, § 13.12.001; Ordinance O-08-09, sec. 2, adopted 9/21/09)

Sec. 13.12.002. Adoption and declaration of public utility.

(a) In the interest of public health and safety and a more efficient and economic operation of drainage facilities of the city, by adoption of this article by a majority vote of its governing body, the city council creates a municipal drainage utility system, which shall be a public utility. V.T.C.A., Local Goverment Code, ch. 552, subchapter C, which is adopted and incorporated into this article by reference, and any other provisions of the city’s code relating to drainage shall govern the operation of the utility.

(b) Nothing in this section shall be construed to restrict the city council’s ability to make other rules or policies governing the operation of the utility. The city shall have full authority to operate such municipal drainage utility system. Drainage service will be offered on nondiscriminatory, reasonable and equitable terms within the service area.
(Code 1996, § 13.12.002; Ordinance O-08-09, sec. 3, adopted 9/21/09)

Sec. 13.12.003. Drainage service area.

Unedited First Draft

The service area of the city's municipal utility drainage system shall be that area within the corporate boundaries of the city.
(Code 1996, § 13.12.003; Ordinance O-08-09, sec. 4, adopted 9/21/09)

Sec. 13.12.004. Incorporation of existing facilities; no assumed liability.

(a) The city incorporates all of the existing drainage facilities with city easements or ownership, materials, and supplies owned and controlled by the city into the drainage utility system.

(b) All other private systems shall remain privately controlled.

(c) In order for a private system to be transferred to the public utility, the drainage structures shall meet current design standards, be inspected by the city engineer or his/her designee and be found to be in acceptable condition according to the current standards. Only then may an easement be filed for approval and acceptance by the city council.

(d) Floods from drainage and stormwater runoff may occasionally occur which exceed the capacity of the drainage system maintained and financed with the drainage charges. In addition, surface water stagnation and pollution arising from non-point source runoff may occasionally occur which exceed the capacity of the drainage system maintained and financed with drainage charges. This article does not imply that properties subject to charges shall always be free from flooding or flood damage, surface water stagnation or non-point source pollution or that all flood control and water treatment projects to control the quantity and quality of runoff can be constructed effectively.

(e) Nothing in this article should be construed as or be deemed to create additional duties on the part of the city to hold the city liable for any damages incurred in a flood or from adverse water quality due to drainage runoff. Nothing in this article shall be deemed to waive the city's immunity under state law or reduce the need or necessity for flood insurance by property owners within or without the city.
(Code 1996, § 13.12.004; Ordinance O-08-09, sec. 5, adopted 9/21/09)

Sec. 13.12.005. Administration; adoption of rules.

(a) The city council must approve municipal drainage system fees and exception rules of section 13.12.008.

(b) The city manager or his/her designees shall be responsible for the administration of this article including, but not limited to adopting rules for the administration of the drainage charge by the utility billing staff and for the drainage utility technical design and construction standards, policies, and permits and consideration of variances.
(Code 1996, § 13.12.005; Ordinance O-08-09, sec. 6, adopted 9/21/09)

Sec. 13.12.006. Creation of drainage utility fund; drainage charges.[138]

(a) A separate fund, within the city's fund structure, shall be created as of the effective date of this article, known as the drainage utility fund, for the purpose of identifying and controlling all revenues and

---

[138] **Sec. 13.12.006. Creation of drainage utility fund; drainage charges.** Fee amounts are stricken below and a reference to the fee schedule is inserted here.

Unedited First Draft

expenses attributable to municipal drainage services.

(b) All drainage fees collected by the city after the effective date of this article and such other monies as may be available by or to the city for the purpose of drainage shall be deposited in the drainage utility fund. Such drainage revenues shall be used for the purpose of the creation, operation, planning, engineering, inspection, construction, repair, maintenance, improvement, reconstruction, administration and other reasonable and customary charges associated with the operation of drainage services of the city. The income derived from the operation of municipal drainage services must be segregated in one or more accounts and completely identifiable from other city accounts.

(c) The city shall charge all benefitted property, except those exempted in section 13.12.008, for drainage service based on area of land related to drainage and on classifications and individual calculations found to be nondiscriminatory, equitable, and reasonable. In accordance with state law, the city has based its methodology on data gathered from the Dallas County Appraisal District and the Ellis County Appraisal District as well as the city's own utility billing information.

(d) The city has adopted a schedule of drainage charges as provided in the city fee schedule ~~as referenced herein~~. The most current drainage fee charges shall also be posted on the city website and available at the utility billing counter. Drainage charges shall be reasonably set in accordance with the capital improvement plan for the city and annual operating costs including the addition of the new stormwater management program requirements.

(e) Billing, nonpayment and deposits. The municipal drainage system fee shall be included on the monthly utility bill, along with water, wastewater and garbage charges. Nonpayment of the municipal drainage utility system fee shall be treated the same as nonpayment of the water, wastewater and garbage bill with delinquent fees and current utility cut-off procedures applied as defined in chapter 13. Water service may be cut off for nonpayment of municipal drainage system fees. The city shall not require a deposit for drainage service as a precondition to accepting surface flow in the drainage utility system.
(Code 1996, § 13.12.006; Ordinance O-08-09, sec. 7, adopted 9/21/09)

Sec. 13.12.007. Appeals process.

(a) If an owner or a person legally authorized to represent a nonresidential property owner wishes to appeal a municipal drainage system fee amount, they may do so by filing a notice of appeal with the city engineer and paying a $100.00 application fee. An appeal can be filed by completing a form that describes the basis for the claimant appealing the data, including the provision of independent engineering reports supporting a more accurate area calculation. The information submitted to the city must be complete in order to conduct an evaluation of the appeal. A response will be provided within 10 days of the receipt of the completed appeal form and supporting material. Any utility billing adjustments made after adoption of this article shall be applied only to the next billing cycle following a decision made by the city.

(b) The city manager shall review and make determinations of area appeals. Further appeals may be heard by the city council.
(Code 1996, § 13.12.007; Ordinance O-08-09, sec. 8, adopted 9/21/09)

Sec. 13.12.008. Exemptions.

Exemptions shall be allowed as listed under the schedule of municipal drainage system fees as adopted herein.

Unedited First Draft

The following governmental entities and a lot or tract in which the governmental entity holds a freehold interest are exempt from the provisions in this article:

a. State of Texas.

b. Dallas and Ellis County. c. City of Glenn Heights. The following shall also be exempt from the provisions of this article:

a. Property with proper construction and maintenance of a wholly sufficient and privately owned drainage system;

b. Property held and maintained in its natural state, until such time that the property is developed and all of the public infrastructure constructed has been accepted by the city; and

c. A subdivided lot, until a structure has been built on the lot and a certificate of occupancy has been issued by the city.

(Code 1996, § 13.12.008; Ordinance O-08-09, sec. 9, adopted 9/21/09 ; Ordinance O-19-10 adopted 9/7/10)

~~Appendix A. Municipal Drainage System Fees~~

~~Residential properties: $5.08 per month.~~

~~Nonresidential properties are based on lot size as shown below:~~

~~*Property Size*~~	~~*Monthly Fee*~~
~~Less than or equal to 25,000 square feet~~	~~$15.00~~
~~Greater than 25,000 square feet and less than or equal to 43,560 square feet~~	~~$30.00~~
~~Greater than 43,560 square feet and less than or equal to 130,680 square feet~~	~~$50.00~~
~~Greater than 130,680 square feet and less than or equal to 217,800 square~~	~~$100.00~~
~~Greater than 217,800 square~~	~~$175.00~~

Part III

LAND USE AND DEVELOPMENT

Chapter 50

BUILDINGS AND CONSTRUCTION

ARTICLE I. IN GENERAL

Sec. 3.02.001. Building inspector.

(a) *Position established; appointment; compensation.* The city council has created the position of building inspector. The building inspector shall be appointed by the city manager. The building inspector may receive such financial compensation as may be tendered by the city.

(b) *Duties and authority.* The building inspector is authorized and directed to administer the building code, plumbing code, electrical code, housing code, zoning regulations, and such other codes and ordinances as the council may from time to time specify. The building inspector shall have power as may be necessary in the interest of public health, safety, and general welfare to interpret and implement the provisions of city codes and ordinances and shall have the authority to enter any building or premises within the city for the purpose of inspection or for the prevention of violations thereof.

(c) *Liability.* The building inspector shall not be personally liable while acting for the city, and he is relieved from all personal liability for any damage that may accrue to persons or property as a result of any act required or permitted in the discharge of his official duties.
(Code 1996, §§ 3.02.001—3.02.005)

Sec. 3.03.001. Fees.[139]

All fees authorized under this chapter shall be in the amount provided in the city fee schedule. ~~The schedule of fees, as provided for in the fee schedule found in appendix A of this code, shall be charged for permits for the construction of buildings inside the city and for the alteration, addition, and repair of existing buildings in the city.~~
(Code 1996, § 3.03.001)

Sec. 3.03.002. Appeals.

The board of adjustment shall hear and determine all appeals arising under the construction codes adopted in this chapter.
(Code 1996, § 3.03.002)

Sec. 3.04.003. Building permits.

(a) *Conditions for issuance.* No building permit shall be issued under this chapter unless the

---

[139] **Sec. 3.03.001. Fees.** References to fees in this article have been adjusted based on the inclusion of this section to eliminate duplication.

Unedited First Draft

improvements set forth and described in the application for a permit demonstrate that the improvements shall comply with all applicable regulations of the city, including but not limited to those regulating housing standards, zoning, building, plumbing, development of additions or subdivisions, and electrical installations.

(b) *Removal of buildings in violation.* Structures erected without first obtaining a building permit or erected in violation of this Code shall be removed.

(c) *Penalty.* In addition to any remedial action or abatement procedure contained in the building code adopted in this article, any person violating any provisions thereof shall be punished as provided for in section 1.01.009 of this Code. Each day of continuance of a violation shall constitute a distinct and separate offense.
(Code 1996, §§ 3.04.003—3.04.005)

ARTICLE II. CONSTRUCTION CODES

DIVISION 1. GENERALLY

Sec. 3.04.001. Technical codes adopted by reference.[140]

(a) The city has adopted the following codes published by the International Code Council (ICC) and National Fire Protection Association (NFPA) subject to the local amendments and additions provided in this article:

(1) ICC International Building Code, 2021 Edition
(2) ICC International Residential Code, 2021 Edition
(3) ICC International Plumbing Code, 2021 Edition
(4) ICC International Mechanical Code, 2021 Edition
(5) ICC International Existing Building Code, 2021 Edition
(6) ICC International Fuel Gas Code, 2021 Edition
(7) ICC International Energy Conservation Code, 2021 Edition
(8) ICC International Swimming Pool and Spa Code, 2021 Edition
(9) ICC International Property Maintenance Code, 2021 Edition including Appendix A
(10) ICC Fire Code, 2021 Edition
(11) NFPA National Electric Code, 2023 Edition

(b) Unless otherwise specifically provided in this article, the amendments to the adopted code approved and recommended by the North Central Texas Council of Governments are adopted by the city as local amendments to the adopted codes. Future updates and revisions to the adopted codes approved and recommended by the council shall be automatically incorporated into the codes adopted in this section.

(c) Copies of the adopted codes and amendments thereto shall be maintained on file in the office of

---

[140] **Sec. 3.04.001. Technical codes adopted by reference.** I have regrouped code adoptions and amendments and rewritten the sections to eliminate extensive duplicative provisions. I have also moved the property maintenance adoption into this chapter, but I have stricken the local amendments (at the end of this chapter) in that they amend the 2015 edition while the 2021 edition is adopted. Please review

Unofficial First Draft

the city secretary for permanent record and inspection.

(d) The adopted codes shall be controlling in the construction of all buildings and structures within the corporate limits of the city.
(Code 1996, arts. 3.04—3.08, § 3.13.002)

Sec. 3.04.002. Amendments to adopted codes.[141]

(a) *International Building Code.* The recommended amendments of the North Central Texas Council of Governments adopted in section 3.04.001 shall be those in Option B.

(b) *International Residential Code.* Section M2005.1 shall prohibit all water heaters from being installed in any location except the ground floor or a basement.

(c) *International Plumbing Code.* Chapter 5, section 52.3, of the adopted code shall prohibit all water heaters from being installed in any location except the ground floor or a basement.

(d) *International Fire Code.* The recommended amendments of the North Central Texas Council of Governments adopted in section 3.04.001 shall be those in Option B.

(e) *National Electric Code.* Local amendments are as provided in division 2 of this article.
(Code 1996, arts. 3.04—3.08)

DIVISION 2. LOCAL ELECTRICAL CODE ADDITIONS AND REVISIONS

Sec. 3.06.002. Conflicting provisions.[142]

Except for specific amendments provided in this section, in the event of a conflict between the adopted electrical code and any other provision of this Code, the provisions of this Code shall prevail.
(Code 1996, § 3.06.002)

Sec. 3.06.003. Applicability.

This division shall apply to all installations of electrical conductors, fittings, devices, signs, fixtures, motors, generators, starters, controls, and raceways, hereinafter referred to as "electrical equipment," within or on public and private buildings and premises within the city.
(Code 1996, § 3.06.003)

Sec. 3.06.008. Amendments to adopted code.

(a) *Amended provisions.* The North Central Texas Council of Governments recommended amendments to the 2023 National Electrical Code herein are modified as follows:

(1) Article 590.3(a) – Permit Required. Temporary electrical power and lighting installations

---

[141] **Sec. 3.04.002. Amendments to adopted codes.** See preceding footnote.

[142] **Sec. 3.06.002. Conflicting provisions.** Limiting language is added. Without it, this section would negate all amendments to the electric code in this chapter since they are in conflict with the adopted code provisions.

United First Draft

may be permitted during the period of construction, remodeling, maintenance, repair, or demotion of buildings, structures, equipment, or similar activities where, for good and sufficient causes, it is necessary to have electricity on any such installation before a final certificate can be issued; provided, that all parts to which the current is applied are in safe condition and meet all applicable requirements hereof. A permit will be required for any such temporary service. Application for a temporary service permit shall be made before such permit is issued; a fee as set forth in the fee schedule in appendix A to the Code of Ordinances shall be paid by the applicant.

(2) Article 590.3(b) – Permit Valid for 120 Days. A temporary service permit shall expire after 120 days from the date issued. If at the end of this 120 days, the installation is still incomplete, another permit must be taken out for the next 30 days and each succeeding 30 days while the installation is incomplete.

(b) *Additional provisions.* The National Electric Code adopted herein is amended by the addition of the following provisions:

(1) *General standard.* All electrical equipment installed or used in the city shall be reasonably safe to persons and property in conformity with the standards provided in the codes adopted herein, applicable state statutes, and any rules and regulations issued by authority thereof.

(2) *Knob-and-tube wiring.* Knob-and-tube wiring shall not be permitted when installing or repairing electrical installations.

(3) *Electric power companies not to connect until authorized.* It is unlawful for any electric, light, heat, or power company to do any wiring of any nature in or on any building (except power houses and substations of electric, light, heat, and power companies operating under a franchise granted by the city) or to make any electrical connection to any building or electrical wiring or apparatus until a certificate, stating that electrical wiring has been approved, or written permit authorizing connection, has been issued by the electrical inspector. All firms, corporations, or individuals, whether operating under a regular franchise granted by the city or not, shall upon written notice by the electrical inspector disconnect from any such circuit, including main service wires, branch feeder wires, or distribution as designated by the notice, and shall not reconnect to the installation except upon written notice from the electrical inspector.

(4) *When wires may be ordered disconnected.* Every company, firm, partnership, corporation, or individual owning or controlling electrical wires and apparatus for the transmission of light, heat, or power shall in time of fire or in case of severe climatic conditions or any other emergency wherein lives or property of the citizens of the city may be endangered by the operation of such wires and apparatus, upon notice by the electrical inspector, the mayor, or the chief of the fire department or police chief, disconnect such dangerous wires from current or service as are designated by the electrical inspector.

(5) *Places where electrical metallic tubing required.* All electrical wiring installed in or on all metal buildings, public buildings with a seating capacity of 100 or more, churches, and schools located within the city limits shall be installed in electrical metallic tubing (EMT).

(Code 1996, §§3.06.008—3.06.012)

Sec. 3.06.006. Electrical permits.

Unedited First Draft

(a) *Required.* No individual, firm, or corporation shall erect, construct, alter, or change any electrical installation, machinery, apparatus, work, or wiring in the city until a permit has been issued by the city. When required by the electrical inspector, plans and specifications for the proposed work must be filed before the permit is granted.

(b) *Exception to permit requirement.* No permit will be required for the installation of wires to operate electrical bells, gas lighting apparatus, house annunciators, burglar alarms, telephones, telegraphs, district messengers, watch clocks, fire alarms, or other similar instruments if current operating is of less than twenty-five (25) volts potential.

(c) *Assumption with regard to use.* When any wiring or apparatus is installed in such a manner that the same could be used for electric light or power purposes under the provisions of this section, it shall be deemed that the wiring or apparatus is to be used for such purposes, and permit shall be required and inspection made as provided for such.
(Code 1996, § 3.06.006)

Sec. 3.06.004. Liability of city.

This division shall not be construed to affect the responsibility or liability of any party owning, operating, controlling, or installing any electrical equipment for damages to persons or property which were caused by any defect in such equipment or in the installation thereof, nor shall the city be held as assuming any liability by reason of the inspection, failure to inspect, or reinspection authorized herein or the certificates of conformance or nonconformance issued as herein provided, or by reason of the approval or disapproval of any equipment authorized herein.
(Code 1996, § 3.06.004)

Sec. 3.06.005. Electrical inspector office established; duties.

(a) Office of electrical inspector created. The office of electrical inspector of the city is hereby created. Such electrical inspector shall be competent to perform the duties of this office and shall be appointed by the city manager and shall receive such compensation as fixed by the city council. The position of electrical inspector may be combined with any other position in the city at the discretion of the mayor.

(b) General duties and authority of electrical inspector. The electrical inspector shall ensure that all provisions of this article are fully complied with and make inspections of electrical installations. He or she shall also keep complete records of all permits issued, inspections made, and any other official work performed.

(c) Enforcement; notice of violations. The electrical inspector shall inspect all electrical wiring and apparatus in the city at any time in order to ascertain whether such electrical wiring or apparatus is in any respect dangerous to life or property and, if any part of the electrical wiring or apparatus shall be found to be defective or in dangerous condition, he shall notify in writing the owner of such wiring or equipment to have the defect corrected within a reasonable time.

(d) Notice to electric current provider to disconnect service. The electrical inspector shall notify the service company, firm, or individual furnishing electric current to defective wiring or equipment to cease to supply electricity to same. Upon receipt of such notice, the service company, firm, or individual furnishing electric current to such defective wiring or equipment shall immediately disconnect the service

Unedited First Draft

or feed wires and cease to supply current to the defective installation until the defects have been corrected (Code 1996, § 3.06.005)

Sec. 3.06.007. Registration of electricians.[143]

(a) Required. No individual, firm, or corporation shall erect, construct, alter, or change any electrical installation, work, wiring, or setting of electrical machinery or equipment until such individual, firm, or corporation has registered with the city and obtained a registration license therefor. No electrical permit will be issued unless such person performing such work has first registered with the city ~~and paid an annual license fee as provided for in the fee schedule found in appendix A of this code~~. Such registration license shall expire on December 31 next following issuance thereof.

(b) Application for registration license. Any individual, firm, or corporation desiring a registration license shall make application to the city secretary. Such application shall contain the person's name, address, telephone, and any other information that might seem pertinent or necessary. Any changes in address shall be immediately filed with the city secretary. When the holder of a registration license changes the firm name or where additional members are taken into the firm, or where the firm is incorporated, a notice of such change shall be forwarded to the city secretary; otherwise such registration license is liable to be revoked because of its questionable ownership. Applicant must show evidence of being licensed in at least two other cities in order to be granted a license in this city.

(c) Registration license is not transferable. It is unlawful for any individual, firm, or corporation holding a registration license issued by the city to transfer same or to allow the use of the same, directly or indirectly, by any other person for the purpose of obtaining a permit to do any electrical work herein specified.

(d) Revocation. Any failure on the part of the holder of such registration license to comply with the provisions of any section hereof or any other applicable ordinance of the city regulating electrical work or to faithfully carry out the conditions of a contract for electrical work shall be deemed sufficient cause for revoking the registration license, together with all rights and privileges thereunder. The city may also refuse to issue a registration license to any person associated with such previous holder of a revoked registration license.
(Code 1996, § 3.06.007)

ARTICLE III. ADDITIONAL LOCAL BUILDING REGULATIONS

Sec. 3.16.001. Fence construction.

(a) *Permit required.* It is unlawful for any person to construct a fence over two and one-half feet in height on any lot without having first obtained a fence permit therefor from the building inspection department. Adequate plans and specifications, as determined by the building official, must accompany each application for a permit as described hereafter. This article shall apply to all persons constructing

---

[143] **Sec. 3.06.007. Registration of electricians.** V.T.C.A., Occupations Code, § 1305.151, requires a state license for most electrical work (subject to exceptions). If the electrician holds a state license the city is prohibited from charging a fee for local licensure (V.T.C.A., Occupations Code, § 1305.201 as amended in 2017). Should this section be changed to simply require state licensure, to require state and local licensure with no local fee, or stricken entirely?

Unedited First Draft

any such fence, regardless of whether acting as owner, agent or contractor.

(b) *Permit application.* Any person desiring to obtain the issuance of a fence permit shall submit application to the city building inspection department together with the appropriate permit fee.

(c) *Location and height restrictions.* Fencing shall be in compliance with the following location and height restrictions:

(1) No fence shall exceed eight feet in height on any residential lot.

(2) No fence or any part of any fence shall be constructed upon or caused to protrude over public property. All fences must be maintained in a vertical plane so as not to overhang public property.

(3) No fence shall be constructed on any platted residential lot which shall obstruct the right-of-way of any public street within the city.

(4) No fence shall be constructed which will extend further than the front building line of any building on the right-of-way of any public road on any platted lot within the city.

(5) Any fence located within any public easement shall be subject to removal upon request of those agencies having an interest in such easement.

(6) No fences ~~trees, berms or other obstructions~~ shall be constructed, maintained or planted within such distances of the intersections of public streets or at such elevations as to obstruct a motorist's view of oncoming traffic within 50 feet of such intersection.

(d) *Materials.* Materials permitted for fence construction shall be wood, masonry, chain link or other metal suitable for the construction of fences as determined by the building inspector. The use of barbed wire, razor ribbon, sheet metal, plastics or similar material are prohibited, except that barbed wire is permitted in rear and side yards of industrial zoned districts if the barbed wire strands are at least six feet above ground level and located a minimum of 300 feet from any residential district.
(Code 1996, §§ 3.16.001—3.16.004)

Sec. 3.18.001. Green building program standards.

(a) *Program established.* The city has established within the city an energy conservation program to be known as the green building program. The green building program sets forth the minimum standards for energy efficiency, water conservation, indoor air quality, and waste recycling for all single-family residential buildings platted after November 30, 2001 (minimum standards), as provided in this article.

(b) *Energy efficiency standard.* The minimum standard for energy efficiency of single-family residential structures shall be the Environmental Protection Agency's Energy Star designation as it currently stands or may be amended.

(c) *Water conservation standard.* The minimum standards for water conservation are as follows:

(1) Must provide a drought tolerant landscaping option for homebuyers (turf and plants).

(2) Must provide information in models concerning the benefits of xeriscaping and water

Unedited First Draft

conservation practices.

(3) If bedding areas are installed, they must be mulched (recycled-content mulch or compost).

(4) If an irrigation system is installed, it must include a rain and freeze sensor, installed to manufacturer's specifications.

(5) If an irrigation system is installed, it must be a zoned irrigation system.

(d) *Indoor air quality*. The minimum standards for indoor air quality are as follows:

(1) Mechanical room walls exposed to living area insulated to R-11.

(2) Provide range hood vented to outside.

(3) Unvented fireplaces and gas logs having a fan that blows any portion of the combustion gases into living spaces are not allowed.

(4) One carbon monoxide (CO) detector, hardwired, shall be installed per 1,000 square feet of living space (minimum of one per floor) in all houses where an attached garage or any combustion appliance is used.

(5) All joints in the air distribution system shall be sealed with duct mastic or approved equivalent.

(6) Total duct leakage measured in CFI at 25 Pascal's pressure, shall be less than or equal to 5% of the square footage served by each unit or equal to or less than 10% of the fan flow at high speed for each system installed.

(7) Airflow to each room will match designed airflow calculations to within +/- 10%.

(8) Exterior ventilation system installed per ASHRAE standards must perform at: kitchen - 100 CFM; bathroom - 20 CFM (continuous) or 50 CFM (spot); master bedroom - 20 CFM; other bedrooms -10 CFM.

(9) Provide a furnace or duct-mounted electronic/electrostatic air cleaner option for homebuyers.

(10) If central vacuum system is installed, it must exhaust to the outside.

(11) HVAC plenums on the supply side must be constructed of sheet metal (no duct board) with external insulation (minimum R-6 if located in unconditioned space).

(e) *Waste recycling*. The minimum standards for waste recycling are as follows:

(1) Construction waste (brick and wood) hauled from the building site by the builder shall be taken to a site or facility legally empowered to accept it for recycling as approved by the county and state in which the facility is located.

(2) Construction waste reduction/reuse plan written and followed by builder.

Unedited First Draft

(3) Donate unwanted building materials to a nonprofit building organization.

(4) Provide a built-in recycling center option with two or more bins (minimum of 5 gallons each) for homebuyers.

(5) Provide a composting system option installed in yard for homebuyer (manufactured or made at site).

(Code 1996, §§ 3.18.001—3.18.005; Ord. No. 720-02, 3/4/02)

ARTICLE IV. MOVING OR DISMANTLING BUILDINGS

Sec. 3.11.001. Permit required.

(a) *Moving structures.* It is unlawful for any person, firm, or corporation to move or cause to be moved a house or building from one location to another within the city, or to move a house or building from without the city to a location within the city, or to move a house or building within the city to a point outside the city, or to move a house or building through or across the city, without giving the city secretary notice of such intent 72 hours prior to such move, and the securing of a permit therefor as provided in this article.

(b) *Wrecking or dismantling structures.* It is unlawful for any person, firm, or corporation to wreck or dismantle any house or building, the value of which exceeds $1,000.00 within the city without securing a permit therefor as provided in this article.

(c) *Exception.* Nothing in this article will be applicable to buildings not exceeding 500 square feet used for storage, hobby, or workshop purposes.

(Code 1996, § 3.11.001)

~~Sec. 3.11.002. Permit fees.~~[144]

~~The city secretary shall issue a permit upon payment of a fee as provided for in the fee schedule found in appendix A of this code.~~

~~(Code 1996, § 3.11.002)~~

Sec. 3.11.003. Bond required.

(a) Any person, firm, or organization who desires to dismantle a building within the city or move a building or house into, within, or through the city is hereby required to post a bond with the office of the city secretary as a guarantee that the following conditions will be met:

(1) That the building moved into or within the city will be restored within 180 days to meet city building, plumbing, housing, and electrical codes, and that the grounds will be completely cleared and cleaned.

(2) That any damage done to the streets belonging to the city or privately owned property within the city shall be repaired and restored to its original condition before the damage was incurred. Such repairs must be made within a period of 30 days from the date of the moving of the building.

---

[144] **Sec. 3.11.002. Permit fees.** Duplicative section is stricken as shown.

Unedited First Draft

(3) That any structure being torn down will be completely dismantled, and the grounds cleared, within 90 days after permit is issued.

(b) The amount of the bond for a house mover shall be $20,000.00. In addition, a performance bond in the amount of $5,000.00 shall be required of any person moving a building into the city or within the city which does not meet city construction codes. Such performance bond shall guarantee that the building will be restored in a manner that meets all city construction codes within 180 days.
(Code 1996, § 3.11.003)

Sec. 3.11.004. Route to be disclosed.

Prior to the securing of a permit to move a structure through or within the city, the proposed route of movement must be disclosed to the city secretary at least 24 hours prior to the move. The city secretary shall inform the police department of the proposed route, and the city secretary and the police chief shall set the time of the move through the city and approve the route.
(Code 1996, § 3.11.004)

Sec. 3.11.005. Construction codes applicable.

Any structure moved from one place to another within the city or any structure moved into the city limits shall be set on concrete slab or pier and beam foundation and shall comply with the city building, plumbing, housing, and electrical code specifications.
(Code 1996, § 3.11.005)

Sec. 3.11.006. Damages.

(a) If within a 30-day period after the building has been moved it shall appear to the city secretary that any damage has been done to the streets, wires, trees, or any other public or private property within the city, the city secretary shall assess the amount of such damage suffered by the city or the owner of such property damaged.

(b) The party who secured the permit to move the building shall be held responsible for any and all damages, and written notice shall be given to the party by certified mail notifying the permit holder that he has 30 days to compensate the city or private property owners for damage or repair, to the satisfaction of the city council, for any damage suffered as a result of the move.

(c) Should compensation or repairs not be made within 30 days, the city shall file suit in the appropriate court to collect damages brought about by the city's loss. In addition, the bond posted for the security of a permit as provided for in this article shall be ordered forfeited, and the sureties on the bond shall be immediately notified of the damages suffered and demand shall be made on the principal and surety of the bond for immediate payment.
(Code 1996, § 3.11.006)

Sec. 3.11.007. Conflicting provisions.

Nothing in this article shall be construed to overcome, modify, or in any way affect city zoning regulations. In the event of ambiguity or conflict arising of the comparison of this article and the zoning regulations, the zoning regulations shall be controlling.
(Code 1996, § 3.11.007)

Unedited First Draft

ARTICLE V. RENTAL REGISTRATION PROGRAM

Sec. 3.20.001. Purpose and intent.

This article is enacted to provice a residential rental property registration and inspection program within the city to ensure compliance with city and state life safety, health, fire, and zoning codes and to further provide a means to encourage both absentee and local landlords to correct violations and to maintain their residential rental property in a safe and habitable condition for tenants.
(Code 1996, § 3.20.001; Ord. No. O-03-16, 3/1/16)

Sec. 3.20.002. Definitions.[145]

The following words, terms and phrases, when used in this article, shall have the meanings ascribed to them in this section, except where the context clearly indicates a different meaning:

Building. Any structure having a roof that is built, maintained, or intended for use for the shelter or enclosure of persons, animals, or property of any kind.

~~Building official. The building official, or his/her designee, for the City of Glenn Heights, Texas. City. The City of Glenn Heights, Texas, including all areas within its corporate limits.~~
~~City council. The city council of the City of Glenn Heights, Texas.~~
~~City manager. The city manager for the City of Glenn Heights, Texas, or his/her designee.~~

Dwelling. Any enclosed space wholly or partly used or intended to be used for human habitation, living, sleeping, cooking, eating, and sanitation and shall include any outhouse or appurtenance belonging thereto.

Dwelling unit. A room or group of rooms located within a dwelling forming a single habitable unit with facilities used or intended to be used by a single family for human occupancy such as living, sleeping, cooking, and eating purposes.

Family. One or more persons related by blood, adoption or marriage, living and cooking together as a single housekeeping unit. A number of persons, but not exceeding two, living and cooking together as a single housekeeping unit, though not related by blood, adoption or marriage, shall be deemed to constitute a family.

Landlord. Any person who leases, barters, or rents a rental unit to another.

Manufactured home or HUD-code manufactured home. A structure constructed on or after June 15, 1976, according to the rules of the United States Department of Housing and Urban Development, transportable in one or more sections which, in the traveling mode, is eight body feet or more in width, 40 body feet or more in length, or, when erected on site is 320 or more square feet, and which is built on a permanent chassis and designed to be used as a dwelling with or without a permanent foundation when connected to the required utilities, and includes plumbing, heating, air- conditioning, and electrical systems. The term does not include a recreational vehicle as that term is defined by 24 C.F.R. section 3282.8(9). ~~A structure,~~

[145] **Sec. 3.20.002. Definitions.** A standardized introduction is substituted for consistency and unnecessary and duplicative definitions are stricken as shown.

Unedited First Draft

~~transportable in one or more sections, which in the traveling mode is 8 body feet (2438 body mm) or more in width or 40 body feet (12 192 body mm) or more in length, or, when erected on site, is 320 square feet (30 m2) or more, and which is built on a permanent chassis and designed to be used as a dwelling with or without a permanent foundation when connected to the required utilities, and includes the plumbing, heating, air-conditioning and electrical systems contained therein. This term shall include any structure that meets all the requirements of this paragraph except the size requirements and with respect to which the manufacturer voluntarily files a certification required by the secretary (HUD) for such homes. For the purpose of this article, a mobile home shall be considered a manufactured home.~~[146]

Multifamily rental unit. A multifamily structure containing three or more dwelling units located on a single lot designed to be occupied by three or more families living independently of one another, excluding hotels or motels.

Owner. Any person, agent, operator, firm or corporation having a legal or equitable interest in the property; or recorded in the official records of the state, county or municipality as holding title to the property; or otherwise having control of the property, including the guardian of the estate of any such person, and the executor or administrator of the estate of such person if ordered to take possession of real property by a court.

~~Person. An individual, corporation, business trust, estate, trust, partnership or association, two or more persons having a joint interest, or any other legal or community entity.~~

Property manager. The owner or the person appointed or hired by the owner to be responsible for the daily operation of a rental unit.

Rent. The offering, holding out or actual leasing of a rental unit to a person other than the owner and generally involves the payment of an amount of money as consideration for the right to occupy the rental unit, although other forms of consideration or no consideration at all may be involved.

Rental unit. A single-family dwelling, two-family dwelling (duplex), or a multifamily dwelling, or portion thereof that is rented or offered for rent as a residence.

Single-family dwelling. A freestanding building or manufactured home on one lot occupied by not more than one family.

Tenant. Any person who rents or leases a rental unit for living or dwelling purposes.

Two-family dwelling (duplex). A freestanding building or manufactured home on one lot, having separate accommodations for and occupied by not more than two families, one family in each dwelling unit.
(Code 1996, § 3.20.002; Ord. No. O-03-16, 3/1/16)

Sec. 3.20.003. Building official, power and duties.

The building official is shall administer and enforce this article. In addition to the powers and duties otherwise prescribed for the building official, the building official shall have the authority to:

---

[146] **Sec. 3.20.002. Definitions—Contd.** V.T.C.A., Occupations Code, § 1201.004 prohibits this definition of manufactured home which deems mobile and manufactured home terms synonymous. See suggested correction.

Unedited First Draft

(1) Administer and enforce all provisions of this article.

(2) Keep records of all licenses issued.

(3) Adopt rules and regulations, not inconsistent with the provisions of this article, with respect to the form and content of application for registration, the investigation of applicants, and other matters incidental or appropriate to his powers and duties as may be necessary for the proper administration and enforcement of the provisions of this article.

(4) Conduct periodic inspections of residential rental properties throughout the city to ensure compliance with this article and all other city ordinances and state laws related to the purpose or enforcement of this article.

(Code 1996, § 3.20.003; Ord. No. O-03-16, 3/1/16)

Sec. 3.20.004. Registration required.[147]

(a) Each owner of a rental unit within the city shall register each such rental unit with the city in accordance with procedures contained in this article. A separate registration shall be required for each rental unit for each registration. ~~Every owner of a rental unit as of the date of adoption of this article shall complete an initial registration application and pay an initial registration fee on or before May 1, 2016.~~

(b) Unless otherwise provided in this section, each owner of a rental unit within the city shall make application for registration with the city and schedule an inspection of the rental unit with the building official within 30 days after the date of acquiring ownership of a rental unit or within 30 days after the date an owner of a dwelling unit converts the dwelling unit into a rental unit.

(c) Application for rental registration shall be made upon a form provided by the city for such purpose, and shall include, at a minimum, the following information:

(1) Owner's name, address, and work and home telephone number, driver's license number, or identification card number and state of issuance of the owner;

(2) If owner is a partnership, the names of all partners, the principal business address, and telephone number of each partner;

(3) If owner is a corporation, the person registering must state whether the corporation is organized under the laws of this state or is a foreign corporation, and must show the mailing address, business location, telephone number, name of the main individual in charge of the local office of such corporation, if any, and the names of all officers and directors or trustees of such corporation, and, if a foreign corporation, the place of incorporation;

(4) Name, address and telephone number of the property manager or person having the authority to act on behalf of the owner;

(5) Street address of the rental unit; and

---

[147] **Sec. 3.20.004. Registration required.** Obsolete text is stricken.

Unedited First Draft

(6) Signature of the owner or owner's agent.

(d) The city shall, within 30 days after receipt of the registration application, either issue a certificate of registration or notify the owner that the application does not comply with the requirements of this article.

(e) Unless otherwise provided in this article, a certificate of registration shall be valid for each rental unit until such time as there is a change in ownership for that unit. A change in ownership shall be deemed to have occurred upon any of the following:

(1) Any change in the individual ownership of the unit;

(2) Any change in the ownership of any entitys in whose names the current registration for the unit is issued;

(3) Where the unit is managed by a property manager, upon any change in the individual property manager or the property manager's ownership; or

(4) Upon the dissolution of any entity having ownership over the unit or upon the entity petitioning for reorganization under the Bankruptcy Code, being adjudged bankrupt, or becoming insolvent or having a receiver appointed due to the insolvency.

(f) A nonrefundable registration fee ~~in an amount set forth in appendix A of this code~~ shall be paid to the city by the owner with at the same time as the registration application for each rental unit is submitted to the city. Any registration fee required to be paid under this article shall be deemed late if received by the city after the due date established by the article or the building official, as the case may be, and the owner shall be required to submit a nonrefundable late registration fee ~~in an amount set forth in appendix A of this code~~.

(h) A nonrefundable inspection fee ~~in an amount set forth in appendix A of this code~~ shall be paid to the city by the owner for the inspection of each rental unit at the same time the registration fee is paid. A certificate of registration shall not be issued for a rental unit until the registration and inspection fees for the unit are paid in full to the city. The inspection fee shall be required under this article regardless of whether an inspection occurs and regardless of whether the owner or tenant has denied the building official access to the rental unit to complete the inspection.

(i) No rental unit may be occupied by a tenant without first having a valid certificate of registration. It is an offense for an owner of a rental unit within the city to permit or allow a tenant to occupy any rental unit without first being issued a valid certificate of registration for the rental unit in accordance with this article. If an owner is required to register more than one rental unit, the owner's failure to register any individual rental unit shall constitute a separate offense. Every day that the owner continues to fail to register a rental unit within the city shall also constitute a separate offense.

(j) It is unlawful for any person to file a false rental registration application with the city.
(Code 1996, § 3.20.004; Ord. No. O-03-16, 3/1/16)

Sec. 3.20.005. Change of ownership registration.

(a) A certificate of registration issued under this article shall remain in effect until such time as a change of ownership occurs in the manner defined in section 3.20.004(e).

Unedited First Draft

(b) Upon a change of ownership, the new owner of each rental unit shall complete a change of ownership registration application for each unit in the manner provided by this article and deliver the same together with all applicable registration and inspection fees to the building official's office within 30 days of the change in ownership. A change in ownership registration application submitted after 30 days following the change of ownership shall be considered a late registration and the owner shall pay to the city a nonrefundable late registration fee in an amount set forth in appendix A of this code.

(c) The building official shall not be required to send notice to an owner for a change of ownership registration required under this section.
(Code 1996, § 3.20.004; Ord. No. O-03-16, 3/1/16)

Sec. 3.20.006. Inspection required upon change in occupancy.

(a) The owner shall provide written notice to the building official upon every change in occupancy. A change in occupancy shall mean a change in all tenants occupying a rental unit. The notice required by this section shall clearly indicate whether there was a change in tenants or whether the rental unit was vacated by the previous tenants and is presently unoccupied.

(b) An inspection of the rental unit shall be required upon the city's receipt of written notice of a change in occupancy required to be submitted pursuant to this section. Inspections required under this section shall be performed in the same manner as and in accordance with the applicable inspection procedures established by this article for the rental unit.
(Code 1996, § 3.20.006; Ord. No. O-03-16, 3/1/16)

Sec. 3.20.007. Single, two-family dwellings and manufactured home inspections.

(a) The building official shall annually inspect the exterior of a single-family, two-family or manufactured home rental unit to determine compliance with applicable state and local laws. The building official shall provide written notice of the date and time that the exterior inspection will be conducted. Upon request or consent of the owner if the rental unit is vacant, or tenants if the rental unit is occupied, the building official may conduct an inspection of the interior of a rental unit.

(b) If the owner or tenant fails to make the exterior of the rental unit available for inspection, the building official may conduct the inspection from the public right-of-way. If the owner or tenant does not provide consent for the inspection and the building official must enter onto the property to conduct the inspection, the building official shall be required to obtain a warrant in the manner provided by subsection (c) below prior to entry on the property.

(c) The building official or his agent shall enforce the provisions of this article upon presentation of proper identification to the owner or tenant in charge of any rental unit and with the owner or tenant's permission, may inspect the rental unit in accordance with this section between the hours of 8:00 a.m. and 6:00 p.m. The building official's authority to conduct both exterior and interior inspections is subject to all limitations provided in state and federal law. If entry is refused by the owner or any occupant or if consent to enter the rental unit could not be obtained, the building official is authorized to seek a warrant permitting the building official's entry. Any warrant issued will constitute authority for the building official to enter upon and inspect the premises described therein.
(Code 1996, § 3.20.007; Ord. No. O-03-16, 3/1/16)

Sec. 3.20.008. Multifamily inspections.

Unedited First Draft

(a) The building official shall inspect all building exteriors, all exterior and interior common areas of multifamily rental units to determine compliance with applicable state and local laws on an annual basis and at any other times necessary to ensure compliance with this article. Upon request or consent of the owner if the rental unit is vacant, or tenants if the rental unit is occupied, the building official may conduct an inspection of the interior of a rental unit.

(b) Within 30 days after the annual registration of a multifamily rental unit, the owner of the unit shall request the building official to conduct an inspection and shall make the unit available for inspection by the building official as provided in subsection (a) above. The owner and the building official shall agree on a reasonable date and time for the required inspection. Upon each inspection by the building official, all building exteriors, all exterior common areas, interior common areas and all other inspected premises of the multifamily rental unit shall be in compliance with all applicable state laws and local ordinances.

(c) The building official or his agent shall enforce the provisions of this article upon presentation of proper identification to the owner or tenant in charge of any rental unit and with the owner or tenant's permission, may inspect the rental unit in accordance with this section between the hours of 8:00 a.m. and 6:00 p.m. The building official's authority to conduct interior inspections is subject to all limitations provided in state and federal law. If entry is refused by the owner or any occupant or if consent to enter the rental unit could not be obtained, the building official is authorized to seek a warrant permitting the building official's entry. Any warrant issued will constitute authority for the building official to enter upon and inspect the premises described therein.
(Code 1996, § 3.20.008; Ord. No. O-03-16, 3/1/16)

Sec. 3.20.009. Penalty.

Any person who violates this article shall be prosecuted within the limits provided by law and, upon conviction, shall be punished by a fine not to exceed $500.00 for each offense. Each day that a violation continues shall constitute a separate offense. Unless otherwise specified in this article, no culpable mental state is required for the commission of an offense under this article.
(Code 1996, § 3.20.009; Ord. No. O-03-16, 3/1/16)

Sec. 3.20.010. Other remedies.

(a) Nothing in this article shall prohibit the city from enforcing any administrative, civil or criminal enforcement remedies concurrently herewith or availing itself of any other remedy allowed by law in connection with the administration or enforcement of this article.

(b) The city may refuse to provide city utility service or approve an application for city utility service for a multifamily rental unit that is vacant at the time a registration application is required to be submitted for the unit until such time as the application is approved by the city and all applicable fees are paid.

(c) The city may initiate termination of city utility services or place a hold on reconnecting or reinstituting utility services that have been terminated, as the case may be, to or for a dwelling unit that is substandard, or unfit for human habitation by certifying, in writing, that the dwelling unit or property is substandard or unfit for human habitation. Upon initiating a utility termination or hold, the city shall promptly notify the owner by written notice. The owner may appeal the request by serving the building official with a written notice of appeal within 5 days from the date the notice was mailed. Upon receipt of a timely appeal, the building official shall promptly review the owner's written notice of appeal for

Unedited First Draft

sufficiency and shall provide the owner with written information describing the appeal process. The city's determination upon appeal shall be in all things final and the owner shall not be entitled to further appeal under this subsection.
(Code 1996, § 3.20.010; Ord. No. O-03-16, 3/1/16)

~~Sec. 3.13.002. International Property Maintenance Code.~~[148]

~~The International Property Maintenance Code, **2021 edition** with amendments, including appendix A "boarding standard," a copy of which is on file in the office of the city secretary, is hereby adopted and designated as the property maintenance code of the city, the same as though such code were copied in full herein.~~

~~(b) Amendments to the International Property Maintenance Code. The following sections of the International Property Maintenance Code, **2015 edition**, are hereby amended to read as follows:~~

~~101.1 Title. These regulations shall be known as the International Property Maintenance Code of the City of Glenn Heights, Texas.~~

~~(2) Section 101.3; change to read as follows:~~

~~101.3 Intent. This chapter shall be constructed to secure its expressed intent, which is to ensure public health, safety and welfare insofar as they are affected by the continued occupancy and maintenance of structures and premises. Existing structures and premises that do not comply with these provisions shall be altered or repaired to provide a minimum level of health and safety as required within. Repairs, alterations, additions to and change of occupancy in existing buildings shall comply with the building codes as adopted by the city.~~

~~(3) Section 103.4; delete the section.~~

~~(4) Section 103.5; change to read as follows:~~

~~103.5 Fees. The fees for activities and services performed by the department in carrying out its responsibilities under This chapter shall be as indicated in the city's master fee schedule.~~

~~(5) Section 104.1; change to read as follows:~~

~~104.1 General. The building official, code official or the city manager's designee(s) shall enforce the provisions of this chapter.~~

~~(6) Section 106.2; delete the section.~~

~~(7) Section 106.3; delete the section.~~

~~(8) Section 106.4; delete the section.~~

~~(9) Section 106.5; delete the section.~~

---

[148] **Sec. 3.13.002. International Property Maintenance Code.** See footnote at section 3.04.001 in article II.

Unedited First Draft

~~(10) Section 107.1; change to read as follows:~~

~~107.1 Notice to person responsible. Whenever the code official determines that there has been a violation of this chapter or has grounds to believe that a violation has occurred, notice shall be given in the manner prescribed in sections 107.2 and 107.3 to the person responsible for the violation as specified in this chapter as a matter of due process. Notices for condemnation procedures shall also comply with section 108.3.~~

~~(11) Section 107.5; delete the section.~~

~~(12) Section 110.1; change to read as follows:~~

~~110.1 General. The code official or buildings standards commission shall order the owner of any structure, which in their judgment is so old, dilapidated or has become so out of repair as to be dangerous, unsafe, unsanitary or otherwise unfit for human habitation or occupancy, and such that it is unreasonable to repair the structure, to demolish and remove such structure; or if such structure is capable of being made safe by repairs, to repair and make safe and sanitary or to demolish and remove at the owner's option; or where there has been a cessation of normal construction of any structure for a period of more than two years, to demolish and remove such structure.~~

~~(13) Section 111.1; change to read as follows:~~

~~111.1 Application for appeal. Any person directly affected by a decision of the code official or a notice under This chapter shall have the right to appeal to the building standards commission, provided that a written application for appeal is filed within 20 days after the day the decision, notice or order was served. An application for appeal shall be based on a claim that the intent of this chapter or the rules legally adopted thereunder have been incorrectly interpreted, the provisions of this chapter do not fully apply, or the requirements of this chapter are adequately satisfied by other means. A person's exercise of an appeal does not preclude or abate criminal enforcement for a violation of this chapter.~~

~~(14) Section 111.2 through section 111.8; delete these sections.~~

~~(15) Section 112.4; change to read as follows:~~

~~112.4 Failure to comply. Any person who shall continue any work after having been served with a stop-work order, except such work as that person is directed to perform to remove a violation or unsafe conditions, shall be criminally liable for such offense in a fine amount not to exceed the sum of two thousand dollars ($2,000.00).~~

~~(16) Section 302.4; delete the section.~~

~~(17) Section 303.2; change to read as follows:~~

~~303.2 Enclosures. Private swimming pools, hot tubs and spas, containing water more than 24 inches (610 mm) in depth shall be completely surrounded by a fence or barrier at least 48 inches (1,219.2 mm) in height above the finished ground level measured on the side of the barrier away from the pool. The maximum height for the fence or barrier shall not exceed 96 inches (2,438.4 mm). Gates and doors in such barriers shall be self-closing and self- latching. Where the self-latching device is less than 54 inches (1,372 mm) above the bottom of the gate, the release mechanism shall be located on the poolside of the~~

Unedited First Draft

~~gate. Self-closing and self-latching gates shall be maintained such that the gate will positively close and latch when released from an open position of 6 inches (152 mm) from the gatepost. No existing pool enclosure shall be removed, replaced or changed in a manner that reduces its effectiveness as a safety barrier.~~

~~(Text of exception unchanged)~~

~~(18) Section 304.3.1 and 304.3.2; add to read as follows:~~

~~304.3.1 Building numbers required. For multifamily dwellings, each building shall have the building number placed in a position to be plainly legible and visible. Each building number shall be illuminated so that the number is plainly visible from the street level at night.~~

~~304.3.2 Unit/apartment numbers on front doors. For multifamily dwellings, each apartment or unit number shall be plainly legible and visible on the front door of each unit. These numbers shall contrast with their background.~~

~~(19) Section 304.14; change to read as follows:~~

~~304.14 Insect screens. Every door, window and other outside opening required for ventilation of habitable rooms, food preparation areas, food service areas or any areas where products to be included or utilized in food for human consumption are processed, manufactured, packaged or stored shall be supplied with approved tightly fitting screens of not less than 16 mesh per inch (16 mesh 25 mm), and every screen door used for insect control shall have a self-closing device in good working condition.~~

~~(Text of exception unchanged)~~

~~(20) Section 304.18.1; change to read as follows:~~

~~304.18.1 Doors. Doors providing access to a dwelling unit, rooming unit or housekeeping unit that is rented, leased or let shall be equipped with a deadbolt lock designed to be readily openable from the side from which egress is to be made without the need for keys, special knowledge or effort and shall have a lock throw of not less than 1 inch (25 mm). Such deadbolt locks shall be installed according to the manufacturer's specifications and maintained in good working order. For purposes of this section, a sliding bolt shall not be considered an acceptable deadbolt lock. Front doors shall also be equipped with a 180° peephole.~~

~~(21) Section 602.3; change to read as follows:~~

~~602.3 Heat supply. Every owner and operator of any building who rents, leases or lets one or more dwelling units or sleeping units on terms, either expressed or implied, to furnish heat to the occupants thereof shall supply heat to maintain a temperature of not less than 68°F (20°C) in all habitable rooms, bathrooms and toilet rooms. (Text of exceptions 1 and 2 unchanged)~~

~~(22) Section 602.4; change to read as follows:~~

~~602.4 Occupiable work spaces. Indoor occupiable work spaces shall be supplied with heat to maintain a temperature of not less than 65° during the period the spaces are occupied.~~
~~(Code 1996, § 3.13.002; Ord. No. O-10-10, 6/21/10; Ord. No. O-07-22, 6/7/2022; Ord. No. O-12-24, § 8, 6-18-2024)~~

Chapter 52

DESIGN AND CONSTRUCTION STANDARDS

ARTICLE I. IN GENERAL

Sec. 15.04.001. Building materials.

Notwithstanding any other law, any building product or material may be used in the construction, renovation, maintenance, or other alteration of a residential or commercial building if:

(1) The building product or material is approved for use by a national model code published within the last three code cycles that applies to the construction, renovation, maintenance, or other alteration of the building or

(2) The standard for a building product, material, or aesthetic method in construction, renovation, maintenance, or other alteration of a residential or commercial building is more stringent than a standard for the product material or aesthetic method under a national model code published within the last three code cycles that applies to the construction, renovation, maintenance, or other alteration of the building.

The provisions of this subsection are subject to the exceptions set out in V.T.C.A., Government Code, § 3000.002(b).
(Code 1996, § 15.04.001; Ordinance O-11-19 adopted 11/12/19)

Sec. 15.05.001. Variance and special exceptions.

A person seeking a variance or special exception to any of the requirements of this chapter shall submit a written application for such variance or special exception to the board of adjustment as provided in city zoning regulations. The city zoning board of adjustment is granted authority to determine such applications for variance or special exception.
(Code 1996, § 15.05.001;Ordinance O-03-20 adopted 5/5/20)

ARTICLE II. RESIDENTIAL DISTRICT STANDARDS

Sec. 15.04.002. Mailboxes.

Location, height and distance from the roadway of all mailboxes must be approved by the U. S. Post Office.

(1) Single-unit mailbox. The exterior veneer of the support structure for mailboxes installed to serve a single lot or tract must be constructed of like and similar natural or manmade masonry material to that of the majority of the primary structure located on the lot or tract served by said mailbox.

(2) Multi-unit mailboxes. The exterior veneer of the pedestal and exterior cabinet for each multi- unit mailbox must be 100 percent brick or other such manmade masonry material approved in this division.

(3) Concrete foundation required. Each single-family or multi-unit mailbox must be constructed with a concrete foundation of not less than three inches in thickness and in conformance with the city's adopted standard construction details.

Unedited First Draft

(Code 1996, § 15.04.002; Ordinance O-03-09, adopted 4/20/09 ; Ordinance O-19-11, sec. 4(3) adopted 12/5/11)

Sec. 15.04.003. Accessory buildings.

Accessory buildings, other than agricultural structures, with a floor area of 250 square feet or larger must be "site built" and conform to the following conditions:

(1) The exterior must be constructed of like and similar materials to those of the primary structure.

(2) In single-family residential districts A, SF-E and SF-1 the accessory building, including any item attached to its roof, shall not exceed a maximum height of 15 feet at its tallest point. In SF-2, SF-3, SF-4 and MH the maximum height shall be ten feet at its tallest point.

(3) The accessory building shall be constructed with a roof pitch matching that of the primary structure.

(4) Accessory buildings located closer than ten feet from a side or rear lot line of a corner lot, must be screened from the side and rear with an opaque fence of a minimum six feet in height.
(Code 1996, § 15.04.003; Ordinance O-03-09, adopted 4/20/09 ; Ordinance O-19-11, sec. 4(3) adopted 12/5/11)

Sec. 15.04.004. Driveways.

(a) Driveways must contain a minimum concrete paved width of 12 feet from the curb to the required driveway apron.

(b) No garage shall open to the road frontage giving public view into the interior. Front-entry, J-lot garages must be side-loaded and not swing-loaded (i.e., the garage entrance is located away from the front door of the home such that a vehicle entering the garage, or parking in front of it, does not pass/park in front of the front door, the garage door faces a side lot line rather than the front door of the residence).

(c) A concrete paved area ("driveway apron") must be constructed immediately adjacent to the entry of each garage. Each driveway apron must have a minimum concrete paved width of 25 feet as measured parallel to the garage door opening and a minimum concrete paved depth of 25 feet as measured perpendicular to the garage door opening. Driveway apron construction must meet or exceed the city's adopted building regulations for paving of residential driveways.

(d) A minimum distance of 27 feet as measured from the side lot line to the garage door opening is required in addition to an adequate, paved turnaround (e.g., hammerhead) for on-site maneuvering.

[GRAPHIC - Entry diagram]

(Code 1996, § 15.04.004; Ordinance O-03-09, adopted 4/20/09 ; Ordinance O-19-11, sec. 4(3) adopted 12/5/11)

Sec. 15.04.005. Sidewalks.

(a) In all single-family residential districts except agricultural "A" and the provisional districts, SF-4 and MH, an uninterrupted concrete sidewalk, a minimum width of four feet, shall be constructed parallel

Unedited First Draft

with the residential street connecting one property with the next for a continuous pedestrian walking path. In the MF provisional district the sidewalk paralleling the parking lot shall be a minimum of six feet wide allowing for head-in parking and a two-foot bumper overhang.

(b) In all single-family residential and provisional districts a concrete walkway with a minimum paved width of four feet shall either be constructed from the front sidewalk to the front door of each primary structure or may be constructed to attach to the driveway if the driveway is increased in width by an additional three feet in concrete paved width.
(Code 1996, § 15.04.005; Ordinance O-03-09, adopted 4/20/09 ; Ordinance O-19-11, sec. 4(3) adopted 12/5/11)

Sec. 15.04.007. Special requirements.

(a) Recreational vehicles, travel trailers, camper trailers, campers, trailers, boats, boat trailers, motor homes or other recreational vehicles or equipment may not be used for on-site dwelling purposes, and shall be parked and stored on an improved surface and behind the rear building facade of the main structure (i.e., the house) and screened from public view at all times of the year by a fence or perennial vegetation.

(b) Electrical fencing and barbed wire allowed in the agricultural "A" district on parcels of three acres or larger for containment of farm animals and is prohibited in any other zoning district.

(c) Open storage is prohibited (except for usable materials for the resident's personal use or consumption such as firewood, garden materials, farm equipment that is in usable and running condition, etc., which cannot be stored in any required setback and which shall be screened from view of public streets and neighboring properties).

(d) The elimination of any required garage space by enclosing the garage with a stationary building wall shall be prohibited unless another garage of the then-required size (i.e., that has the same number of parking spaces) is built elsewhere, simultaneously with the garage enclosure, on the same lot as the primary structure within the proper setbacks, not exceeding the maximum lot coverage, etc.

(e) Swimming pools, spas and hot tubs shall comply with the International Swimming Pool and Spa Code adopted by the city ~~Standard Swimming Pool Code and the Uniform Swimming Pool, Spa and Hot Tub Code, as adopted and as may be amended,~~ and provisions of this Code pertaining to same. All swimming pools shall be enclosed behind the main structure.[149]

(f) Site plan approval shall be required for any nonresidential use (e.g., school, church, childcare center, private recreation facility, etc.) within a residential district. Any nonresidential land use which may be permitted in this district shall conform to the "NS" - neighborhood service district standards with respect to building setbacks, landscaping, exterior building construction, screening requirements, lighting, signage, etc.

(g) All utility service lines shall be constructed underground.
(Code 1996, § 15.04.007; Ordinance O-03-09, adopted 4/20/09 ; Ordinance O-19-11, sec. 4(3) adopted 12/5/11)

---

[149] **Sec. 15.04.007. Special requirements.** Reference to current swimming pool and spa code is corrected as shown.

Unedited First Draft

ARTICLE III. NON-RESIDENTIAL DISTRICT STANDARDS

Sec. 15.04.031. Driveway spacing.[150]

(a) The following standards shall apply to driveway spacing in nonresidential districts:

(1) Arterial street. One driveway per 200 linear feet of frontage.

(2) Collector street. One driveway per 100 linear feet of frontage.

(3) Local street. One driveway per 50 linear feet of frontage, unless a platted lot's frontage is less than 50 feet but is in conformance with the minimum lot frontage, in which case one driveway shall be allowed per platted lot.

(4) Minimum distance from driveway to street corner. 200 linear feet for arterial or collector streets or 75 linear feet local/residential streets as measured from the street corner radius point of tangency.

(b) Anything less than the minimum distances provided in this section may be permitted via site plan approval by city council, upon recommendation by the planning and zoning commission, provided that the lesser distance is subject to generally established engineering practices and is approved in writing by the city manager or his/her designee (such as the city's police chief) or, if located on a state roadway, it is approved in writing by the local representative of the state department of transportation.

(c) In the event lots are too narrow to accommodate the required driveway spacing the city will require shared driveways between projects and encourages shared parking lots.
(Code 1996, § 15.04.031; Ordinance O-03-09, adopted 4/20/09 ; Ordinance O-19-11, sec. 4(3) adopted 12/5/11)

Sec. 15.04.032. Sidewalks.

In all nonresidential districts, including all planned developments, an uninterrupted concrete sidewalk, a minimum width of six feet shall be constructed parallel with all streets and thoroughfares.
(Code 1996, § 15.04.032; Ordinance O-03-09, adopted 4/20/09 ; Ordinance O-19-11, sec. 4(3) adopted 12/5/11)

~~**Sec. 15.04.033. Building materials.**[151]~~
~~Notwithstanding any other law, any building product or material may be used in the construction, renovation, maintenance, or other alteration of a residential or commercial building if the building product or material is approved for use by a national model code (e.g. IRC, IBC) published within the last three code cycles that applies to the construction, renovation, maintenance, or other alteration of a residential or commercial building if the standard is more stringent than a standard for the product, material, or aesthetic method under a national model code published within the last three code cycles that applies to the construction, renovation, maintenance, or other alteration of the building. The provisions of this section are subject to the exceptions set out in section 3000.002(b) of the Government Code.~~

---

[150] **Sec. 15.04.031. Driveway spacing.** Introductory text is added as shown.
[151] **Sec. 15.04.033. Building materials.** Duplicative text is stricken. See article I.

Unedited First Draft

~~(Code 1996, § 15.04.033; Ordinance O-01-20, sec. 1, adopted 3/17/20)~~

Sec. 15.04.034. Swimming pools, spas, and hot tubs.[152]

Swimming pools, spas and hot tubs shall comply with the International Swimming Pool and Spa Code adopted by the city ~~Standard Swimming Pool Code and the Uniform Swimming Pool, Spa and Hot Tub Code, as adopted and as may be amended,~~ and provisions of this Code pertaining to same. All swimming pools shall be enclosed behind the main structure.
(Code 1996, § 15.04.034; Ordinance O-03-09, adopted 4/20/09 ; Ordinance O-19-11, sec. 4(3) adopted 12/5/11)

Sec. 15.04.035. Site plan review.

Review and approval of a site plan by the planning and zoning commission and the city council (in accordance with section VIII.13 of the city zoning regulations) shall be required for any tract/lot within the nonresidential district. No certificate of occupancy shall be issued unless all construction and development conforms to the site plan as approved by the city council.
(Code 1996, § 15.04.035; Ordinance O-03-09, adopted 4/20/09 ; Ordinance O-19-11, sec. 4(3) adopted 12/5/11)

Sec. 15.04.036. Building facade plans (elevations).

Building facade (i.e., elevation) plans shall be submitted for review and approval along with the site plan. Facade plans shall clearly show how the buildings will look from all sides, with particular detail given as viewed from the major thoroughfare upon which the property faces or sides, and will portray a reasonably accurate depiction of the materials and colors to be used. The city manager or his/her designee may, as he/she deems appropriate, require submission of additional information and materials (possibly actual samples of materials to be used) during the site plan review process. Building facade plans (elevations) shall be acted upon by the planning and zoning commission and require approval of the city council. The plans shall be made an exhibit to the ordinance approving the zoning or project.
(Code 1996, § 15.04.036; Ordinance O-03-09, adopted 4/20/09 ; Ordinance O-19-11, sec. 4(3) adopted 12/5/11)

Sec. 15.04.037. Specific on-site storage prohibited.

Recreational vehicles, travel trailers, motor homes or storage units may not be used for on-site dwelling, residential or nonresidential purposes and shall not be stored on premises. In the commercial “C” and industrial “I” districts the storage of any of these items require a specific use permit (SUP).
(Code 1996, § 15.04.037; Ordinance O-03-09, adopted 4/20/09 ; Ordinance O-19-11, sec. 4(3) adopted 12/5/11)

Sec. 15.04.038. Signs.

All signs shall comply with the city’s sign regulations.
(Code 1996, § 15.04.038; Ordinance O-03-09, adopted 4/20/09 ; Ordinance O-19-11, sec. 4(3) adopted 12/5/11)

---

Chapter 54[153]

FLOODPLAIN MANAGEMENT

ARTICLE I. IN GENERAL

Sec. 3.12.001. Findings and purpose.

(a) Purpose. The Flood Control and Insurance Act, V.T.C.A., Water Code, § 16.311 et seq. ~~Texas Water Code, section 16.315~~, requires local governmental units to adopt regulations designed to minimize flood losses.

(b) Findings of fact.

(1) The flood hazard areas of the city are subject to periodic inundation, which results in loss of life and property, health and safety hazards, disruption of commerce and governmental services, and extraordinary public expenditures for flood protection and relief, all of which adversely affect the public health, safety and general welfare.

(2) These flood losses are created by the cumulative effect of obstructions in floodplains which cause an increase in flood heights and velocities, and by the occupancy of flood hazard areas by uses vulnerable to floods and hazardous to other lands because they are inadequately elevated, floodproofed or otherwise protected from flood damage.

(c) Statement of purpose. It is the purpose of this article to promote the public health, safety and general welfare and to minimize public and private losses due to flood conditions in specific areas by provisions designed to:

(1) Protect human life and health;

(2) Minimize expenditure of public money for costly flood control projects;

(3) Minimize the need for rescue and relief efforts associated with flooding and generally undertaken at the expense of the general public;

(4) Minimize prolonged business interruptions;

(5) Minimize damage to public facilities and utilities such as water and gas mains, electric, telephone and sewer lines, streets and bridges located in floodplains;

(6) Help maintain a stable tax base by providing for the sound use and development of floodprone areas in such a manner as to minimize future flood blight areas; and

(7) Ensure that potential buyers are notified that property is in a flood area.

(d) Methods of reducing flood losses. In order to accomplish its purposes, this article uses the

---

[153] **Chapter 54. Floodplain Management.** I note that this model ordinance is more than a decade old. The city may wish to adopt a more recent model.

Unedited First Draft

following methods:

(1) Restrict or prohibit uses that are dangerous to health, safety or property in times of flood, or cause excessive increases in flood heights or velocities;

(2) Require that uses vulnerable to floods, including facilities which serve such uses, be protected against flood damage at the time of initial construction;

(3) Control the alteration of natural floodplains, stream channels, and natural protective barriers, which are involved in the accommodation of floodwaters;

(4) Control filling, grading, dredging and other development which may increase flood damage;

(5) Prevent or regulate the construction of flood barriers which will unnaturally divert floodwaters or which may increase flood hazards to other lands.
(Code 1996, § 3.12.001; Ord. No. O-05-13, 3/19/13)

Sec. 3.12.002. Definitions.[154]

The following words, terms and phrases, when used in this article, shall have the meanings ascribed to them in this section, except where the context clearly indicates a different meaning:

Alluvial fan flooding. Flooding occurring on the surface of an alluvial fan or similar landform which originates at the apex and is characterized by high-velocity flows; active processes of erosion, sediment transport, and deposition; and unpredictable flow paths.

Apex. A point on an alluvial fan or similar landform below which the flow path of the major stream that formed the fan becomes unpredictable and alluvial fan flooding can occur.

Appurtenant structure. A structure which is on the same parcel of property as the principal structure to be insured and the use of which is incidental to the use of the principal structure.

Area of future conditions flood hazard. The land area that would be inundated by the 1-percent-annual chance (100 year) flood based on future conditions hydrology.

Area of shallow flooding. A designated AO, AH, AR/AO, AR/AH, or VO zone on a community's flood insurance rate map (FIRM) with a 1-percent or greater annual chance of flooding to an average depth of 1 to 3 feet where a clearly defined channel does not exist, where the path of flooding is unpredictable and where velocity flow may be evident. Such flooding is characterized by ponding or sheet flow.

Area of special flood hazard. The land in the floodplain within a community subject to a 1-percent or greater chance of flooding in any given year. The area may be designated as zone A on the flood hazard boundary map (FHBM). After detailed rate making has been completed in preparation for publication of the FIRM, zone A usually is refined into zones A, AO, AH, A1-30, AE, A99, AR, AR/A1-30, AR/ AE, AR/AO, AR/AH, AR/A, VO, V1-30, VE or V.

Base flood. The flood having a 1-percent chance of being equaled or exceeded in any given year.

---

[154] **Sec. 3.12.002. Definitions.** A standardized introduction is substituted for consistency.

Unedited First Draft

Base flood elevation (BFE). The elevation shown on the flood insurance rate map (FIRM) and found in the accompanying flood insurance study (FIS) for zones A, AE, AH, A1-A30, AR, V1-V30, or VE that indicates the water surface elevation resulting from the flood that has a 1% chance of equaling or exceeding that level in any given year - also called the base flood.

Basement. Any area of the building having its floor subgrade (below ground level) on all sides.

Breakaway wall. A wall that is not part of the structural support of the building and is intended through its design and construction to collapse under specific lateral loading forces, without causing damage to the elevated portion of the building or supporting foundation system.

Critical feature. An integral and readily identifiable part of a flood protection system, without which the flood protection provided by the entire system would be compromised.

Development. Any manmade change to improved and unimproved real estate, including but not limited to buildings or other structures, mining, dredging, filling, grading, paving, excavation or drilling operations or storage of equipment or materials.

Elevated building. For insurance purposes, a nonbasement building, which has its lowest elevated floor, raised above ground level by foundation walls, shear walls, posts, piers, pilings, or columns.

Existing construction. For the purposes of determining rates, structures for which the “start of construction” commenced before the effective date of the FIRM or before January 1, 1975, for FIRMs effective before that date. “Existing construction” may also be referred to as “existing structures.”

Existing manufactured home park or subdivision. A manufactured home park or subdivision for which the construction of facilities for servicing the lots on which the manufactured homes are to be affixed (including, at a minimum, the installation of utilities, the construction of streets, and either final site grading or the pouring of concrete pads) is completed before the effective date of the floodplain management regulations adopted by a community.

Expansion to an existing manufactured home park or subdivision. The preparation of additional sites by the construction of facilities for servicing the lots on which the manufactured homes are to be affixed (including the installation of utilities, the construction of streets, and either final site grading or the pouring of concrete pads).

Flood elevation study. An examination, evaluation and determination of flood hazards and, if appropriate, corresponding water surface elevations, or an examination, evaluation and determination of mudslide (i.e., mudflow) or flood-related erosion hazards.

Flood insurance rate map (FIRM). An official map of a community, on which the Federal Emergency Management Agency has delineated both the special flood hazard areas and the risk premium zones applicable to the community.

Flood insurance study (FIS). See flood elevation study.

Flood or flooding. A general and temporary condition of partial or complete inundation of normally dry land areas from the overflow of inland or tidal waters or the unusual and rapid accumulation or runoff of surface waters from any source.

Unedited First Draft

Flood protection system. Those physical structural works for which funds have been authorized, appropriated, and expended and which have been constructed specifically to modify flooding in order to reduce the extent of the area within a community subject to a "special flood hazard" and the extent of the depths of associated flooding. Such a system typically includes hurricane tidal barriers, dams, reservoirs, levees or dikes. These specialized flood modifying works are those constructed in conformance with sound engineering standards.

Floodplain management. The operation of an overall program of corrective and preventive measures for reducing flood damage, including but not limited to emergency preparedness plans, flood control works and floodplain management regulations.

Floodplain management regulations. Zoning regulations, subdivision regulations, building codes, health regulations, special purpose regulations (such as a floodplain, grading, and erosion control regulations) and other applications of police power. The term describes such state or local regulations, in any combination thereof, which provide standards for the purpose of flood damage prevention and reduction.

Floodplain or floodprone area. Any land area susceptible to being inundated by water from any source (see definition of flooding).

Floodproofing. Any combination of structural and nonstructural additions, changes, or adjustments to structures which reduce or eliminate flood damage to real estate or improved real property, water and sanitary facilities, structures and their contents.

Floodway. See regulatory floodway.

Functionally dependent use. A use, which cannot perform its intended purpose unless it is located or carried out in close proximity to water. The term includes only docking facilities, port facilities that are necessary for the loading and unloading of cargo or passengers, and shipbuilding and ship repair facilities, but does not include long-term storage or related manufacturing facilities.

Highest adjacent grade. The highest natural elevation of the ground surface prior to construction next to the proposed walls of a structure.

Historic structure. Any structure that is:

(1) Listed individually in the National Register of Historic Places (a listing maintained by the Department of the Interior) or preliminarily determined by the Secretary of the Interior as meeting the requirements for individual listing on the National Register;

(2) Certified or preliminarily determined by the Secretary of the Interior as contributing to the historical significance of a registered historic district or a district preliminarily determined by the Secretary [of the Interior] to qualify as a registered historic district;

(3) Individually listed on a state inventory of historic places in states with historic preservation programs which have been approved by the secretary of the interior; or

(4) Individually listed on a local inventory of historic places in communities with historic preservation programs that have been certified either by an approved state program as determined by the secretary of the interior or directly by the secretary of the interior in states without approved programs.

Unedited First Draft

Levee. A manmade structure, usually an earthen embankment, designed and constructed in accordance with sound engineering practices to contain, control, or divert the flow of water so as to provide protection from temporary flooding.

Levee system. A flood protection system which consists of a levee, or levees, and associated structures, such as closure and drainage devices, which are constructed and operated in accordance with sound engineering practices.

Lowest floor. The lowest floor of the lowest enclosed area (including basement). An unfinished or flood resistant enclosure, usable solely for parking of vehicles, building access or storage in an area other than a basement area is not considered a building's lowest floor; provided that such enclosure is not built so as to render the structure in violation of the applicable nonelevation design requirement of section 60.3 of the National Flood Insurance Program regulations.

Manufactured home. A HUD-code manufactured home, which is a structure constructed on or after June 15, 1976, according to the rules of the United States Department of Housing and Urban Development, transportable in one or more sections which, in the traveling mode, is eight body feet or more in width, 40 body feet or more in length, or, when erected on site is 320 or more square feet, and which is built on a permanent chassis and designed to be used as a dwelling with or without a permanent foundation when connected to the required utilities, and includes plumbing, heating, air- conditioning, and electrical systems. The term does not include a recreational vehicle as that term is defined by 24 C.F.R. section 3282.8(9). ~~A structure transportable in one or more sections, which is built on a permanent chassis and is designed for use with or without a permanent foundation when connected to the required utilities. The term "manufactured home" does not include a "recreational vehicle."~~[155]

Manufactured home park or subdivision. A parcel (or contiguous parcels) of land divided into two or more manufactured home lots for rent or sale.

Mean sea level. For purposes of the National Flood Insurance Program, the North American Vertical Datum (NAVD) of 1988 or other datum, to which base flood elevations shown on a community's flood insurance rate map are referenced.

New construction. For the purpose of determining insurance rates, structures for which the "start of construction" commenced on or after the effective date of an initial FIRM or after December 31, 1974, whichever is later, and includes any subsequent improvements to such structures. For floodplain management purposes, "new construction" means structures for which the "start of construction" commenced on or after the effective date of a floodplain management regulation adopted by a community and includes any subsequent improvements to such structures.

New manufactured home park or subdivision. A manufactured home park or subdivision for which the construction of facilities for servicing the lots on which the manufactured homes are to be affixed (including at a minimum, the installation of utilities, the construction of streets, and either final site grading or the pouring of concrete pads) is completed on or after the effective date of floodplain management regulations adopted by a community.

---

[155] **Sec. 3.12.002. Definitions—Cntd.** The mandatory definition is substituted and is consistent with the manufactured home chapter definition. See footnotes in that chapter.

Unedited Final Draft

Recreational vehicle. A vehicle which is built on a single chassis, 400 square feet or less when measured at the largest horizontal projections, designed to be self-propelled or permanently towable by a light duty truck, and designed primarily not for use as a permanent dwelling but as temporary living quarters for recreational, camping, travel, or seasonal use.

Regulatory floodway. The channel of a river or other watercourse and the adjacent land areas that must be reserved in order to discharge the base flood without cumulatively increasing the water surface elevation more than a designated height.

Riverine. Relating to, formed by, or resembling a river (including tributaries), stream, brook, etc. Special flood hazard area. See area of special flood hazard.

Start of construction. For other than new construction or substantial improvements under the Coastal Barrier Resources Act (Pub. L. 97-348), includes substantial improvement and means the date the building permit was issued, provided the actual start of construction, repair, reconstruction, rehabilitation, addition placement, or other improvement was within 180 days of the permit date. The actual start means either the first placement of permanent construction of a structure on a site, such as the pouring of slab or footings, the installation of piles, the construction of columns, or any work beyond the stage of excavation; or the placement of a manufactured home on a foundation. Permanent construction does not include land preparation, such as clearing, grading and filling; nor does it include the installation of streets or walkways; nor does it include excavation for basement, footings, piers or foundations or the erection of temporary forms; nor does it include the installation on the property of accessory buildings, such as garages or sheds not occupied as dwelling units or not part of the main structure. For a substantial improvement, the actual start of construction means the first alteration of any wall, ceiling, floor, or other structural part of a building, whether or not that alteration affects the external dimensions of the building.

Structure. For floodplain management purposes, a walled and roofed building, including a gas or liquid storage tank, that is principally above ground, as well as a manufactured home.

Substantial damage. Damage of any origin sustained by a structure whereby the cost of restoring the structure to its before damaged condition would equal or exceed 50 percent of the market value of the structure before the damage occurred.

Substantial improvement. Any reconstruction, rehabilitation, addition, or other improvement of a structure, the cost of which equals or exceeds 50 percent of the market value of the structure before “start of construction” of the improvement. This term includes structures which have incurred “substantial damage,” regardless of the actual repair work performed. The term does not, however, include either:

(1) Any project for improvement of a structure to correct existing violations of state or local health, sanitary, or safety code specifications which have been identified by the local code enforcement official and which are the minimum necessary to assure safe living conditions; or

(2) Any alteration of a “historic structure,” provided that the alteration will not preclude the structure’s continued designation as a “historic structure.”

Variance. A grant of relief by a community from the terms of a floodplain management regulation. (For full requirements see section 60.6 of the National Flood Insurance Program regulations.)

Violation. The failure of a structure or other development to be fully compliant with the community’s

Unedited First Draft

floodplain management regulations. A structure or other development without the elevation certificate, other certifications, or other evidence of compliance required in section 60.3(b)(5), (c)(4), (c)(10), (d)(3), (e)(2), (e)(4), or (e)(5) [of the National Flood Insurance Program regulations] is presumed to be in violation until such time as that documentation is provided.

Water surface elevation. The height, in relation to the North American Vertical Datum (NAVD) of 1988 (or other datum, where specified), of floods of various magnitudes and frequencies in the floodplains of coastal or riverine areas.
(Code 1996, § 3.12.002; Ord. No. O-05-13, 3/19/13)

Sec. 3.12.019. Penalties for noncompliance.

No structure or land shall hereafter be constructed, located, extended, converted, or altered without full compliance with the terms of this article and other applicable regulations. Violation of the provisions of this article by failure to comply with any of its requirements (including violations of conditions and safeguards established in connection with conditions) shall constitute a misdemeanor. Any person who violates this article or fails to comply with any of its requirements shall upon conviction thereof be fined not more than $500.00 for each violation, and in addition shall pay all costs and expenses involved in the case. Nothing herein contained shall prevent the city from taking such other lawful action as is necessary to prevent or remedy any violation.
(Code 1996, § 3.12.019; Ord. No. O-05-13, 3/19/13)

Sec. 3.12.003. Lands to which this article applies.

This article shall apply to all areas of special flood hazard within the jurisdiction of the city.
(Code 1996, § 3.12.003; Ord. No. O-05-13, 3/19/13)

Sec. 3.12.004. Basis for establishing the areas of special flood hazard.

The areas of special flood hazard identified by the Federal Emergency Management Agency in the current scientific and engineering report entitled, “The Flood Insurance Study (FIS) for Ellis County, Texas and Incorporated Areas,” dated June 3, 2013, with accompanying flood insurance rate maps (FIRM) dated June 3, 2013, and “The Flood Insurance Study (FIS) for Dallas County, Texas and Incorporated Areas,” dated August 23, 2001, with accompanying flood insurance rate maps (FIRM) dated August 23, 2001, and any revisions thereto are hereby adopted by reference and declared to be a part of this article.
(Code 1996, § 3.12.004; Ord. No. O-05-13, 3/19/13)

Sec. 3.12.005. Establishment of development permit.

A floodplain development permit shall be required to ensure conformance with the provisions of this article.
(Code 1996, § 3.12.005; Ord. No. O-05-13, 3/19/13)

Sec. 3.12.006. Compliance.

No structure or land shall hereafter be located, altered, or have its use changed without full compliance with the terms of this article and other applicable regulations.
(Code 1996, § 3.12.006; Ord. No. O-05-13, 3/19/13)

Sec. 3.12.007. Abrogation and greater restrictions.

Unedited First Draft

This article is not intended to repeal, abrogate, or impair any existing easements, covenants, or deed restrictions. However, where this article and another ordinance, easement, covenant, or deed restriction conflict or overlap, whichever imposes the more stringent restrictions shall prevail.
(Code 1996, § 3.12.007; Ord. No. O-05-13, 3/19/13)

Sec. 3.12.008. Interpretation.

In the interpretation and application of this article, all provisions shall be considered as minimum requirements, liberally construed in favor of the governing body, and deemed neither to limit nor repeal any other powers granted under state statutes.
(Code 1996, § 3.12.008; Ord. No. O-05-13, 3/19/13)

Sec. 3.12.009. Warning and disclaimer of liability.

The degree of flood protection required by this article is considered reasonable for regulatory purposes and is based on scientific and engineering considerations. On rare occasions greater floods can and will occur and flood heights may be increased by manmade or natural causes. This article does not imply that land outside the areas of special flood hazards or uses permitted within such areas will be free from flooding or flood damages. This article shall not create liability on the part of the community or any official or employee thereof for any flood damages that result from reliance on this article or any administrative decision lawfully made hereunder.
(Code 1996, § 3.12.009; Ord. No. O-05-13, 3/19/13)

Sec. 3.12.010. Designation of the floodplain administrator.

The director of public works is appointed the floodplain administrator to administer and implement the provisions of this chapter and other appropriate sections of 44 CFR (Emergency Management and Assistance - National Flood Insurance Program regulations) pertaining to floodplain management.
(Code 1996, § 3.12.010; Ord. No. O-05-13, 3/19/13)

Sec. 3.12.011. Duties and responsibilities of the floodplain administrator.

Duties and responsibilities of the floodplain administrator shall include, but not be limited to, the following:

(1) Maintain and hold open for public inspection all records pertaining to the provisions of this article.

(2) Review permit applications to determine whether to ensure that the proposed building site project, including the placement of manufactured homes, will be reasonably safe from flooding.

(3) Review, approve or deny all applications for development permits required by adoption of this article.

(4) Review permits for proposed development to assure that all necessary permits have been obtained from those federal, state or local governmental agencies (including section 404 of the Federal Water Pollution Control Act Amendments of 1972, 33 U.S.C. 1334) from which prior approval is required.

(5) Where interpretation is needed as to the exact location of the boundaries of the areas of special

Unedited First Draft

flood hazards (for example, where there appears to be a conflict between a mapped boundary and actual field conditions) the floodplain administrator shall make the necessary interpretation.

(6) Notify, in riverine situations, adjacent communities and the state coordinating agency which is the Texas Water Development Board (TWDB), prior to any alteration or relocation of a watercourse, and submit evidence of such notification to the Federal Emergency Management Agency.

(7) Assure that the flood carrying capacity within the altered or relocated portion of any watercourse is maintained.

(8) When base flood elevation data has not been provided in accordance with section 3.12.004, the floodplain administrator shall obtain, review and reasonably utilize any base flood elevation data and floodway data available from a federal, state or other source, in order to administer the provisions of sections 3.12.014 through 3.12.018.

(9) When a regulatory floodway has not been designated, the floodplain administrator must require that no new construction, substantial improvements, or other development (including fill) shall be permitted within zones A1-30 and AE on the community's FIRM, unless it is demonstrated that the cumulative effect of the proposed development, when combined with all other existing and anticipated development, will not increase the water surface elevation of the base flood more than one foot at any point within the community.

(10) Under the provisions of 44 CFR chapter 1, section 65.12, of the National Flood Insurance Program regulations, a community may approve certain development in zones A1-30, AE, AH, on the community's FIRM which increases the water surface elevation of the base flood by more than 1 foot, provided that the community first completes all of the provisions required by section 65.12.
(Code 1996, § 3.12.011; Ord. No. O-05-13, 3/19/13)

Sec. 3.12.012. Permit procedures.

(a) Application for a floodplain development permit shall be presented to the floodplain administrator on forms furnished by him/her and may include, but not be limited to, plans in duplicate drawn to scale showing the location, dimensions, and elevation of proposed landscape alterations, existing and proposed structures, including the placement of manufactured homes, and the location of the foregoing in relation to areas of special flood hazard. Additionally, the following information is required:

(1) Elevation (in relation to mean sea level), of the lowest floor (including basement) of all new and substantially improved structures;

(2) Elevation in relation to mean sea level to which any nonresidential structure shall be floodproofed;

(3) A certificate from a registered professional engineer or architect that the nonresidential floodproofed structure shall meet the floodproofing criteria of section 3.12.015(2);

(4) Description of the extent to which any watercourse or natural drainage will be altered or relocated as a result of proposed development;

(5) Maintain a record of all such information in accordance with section 3.12.011(1);

Unedited First Draft

(b) Approval or denial of a floodplain development permit by the floodplain administrator shall be based on all of the provisions of this article and the following relevant factors:

(1) The danger to life and property due to flooding or erosion damage;

(2) The susceptibility of the proposed facility and its contents to flood damage and the effect of such damage on the individual owner;

(3) The danger that materials may be swept onto other lands to the injury of others;

(4) The compatibility of the proposed use with existing and anticipated development;

(5) The safety of access to the property in times of flood for ordinary and emergency vehicles;

(6) The costs of providing governmental services during and after flood conditions including maintenance and repair of streets and bridges, and public utilities and facilities such as sewer, gas, electrical and water systems;

(7) The expected heights, velocity, duration, rate of rise and sediment transport of the floodwaters and the effects of wave action, if applicable, expected at the site;

(8) The necessity to the facility of a waterfront location, where applicable;

(9) The availability of alternative locations, not subject to flooding or erosion damage, for the proposed use.

(Code 1996, § 3.12.012; Ord. No. O-05-13, 3/19/13)

Sec. 3.12.013. Variance procedures.

(a) The appeal board, as established by the community, shall hear and render judgment on requests for variances from the requirements of this article.

(b) The appeal board shall hear and render judgment on an appeal only when it is alleged there is an error in any requirement, decision, or determination made by the floodplain administrator in the enforcement or administration of this article.

(c) Any person or persons aggrieved by the decision of the appeal board may appeal such decision in the courts of competent jurisdiction.

(d) The floodplain administrator shall maintain a record of all actions involving an appeal and shall report variances to the Federal Emergency Management Agency upon request.

(e) Variances may be issued for the reconstruction, rehabilitation or restoration of structures listed on the National Register of Historic Places or the State Inventory of Historic Places, without regard to the procedures set forth in the remainder of this article.

(f) Variances may be issued for new construction and substantial improvements to be erected on a lot of 1/2 acre or less in size contiguous to and surrounded by lots with existing structures constructed below the base flood level, providing the relevant factors in section 3.12.012(b) have been fully considered. As the lot size increases beyond the 1/2 acre, the technical justification required for issuing the variance

Unedited First Draft

increases.

(g) Upon consideration of the factors noted above and the intent of this article, the appeal board may attach such conditions to the granting of variances as it deems necessary to further the purpose and objectives of this article (section 3.12.001(c)).

(h) Variances shall not be issued within any designated floodway if any increase in flood levels during the base flood discharge would result.

(i) Variances may be issued for the repair or rehabilitation of historic structures upon a determination that the proposed repair or rehabilitation will not preclude the structure's continued designation as a historic structure and the variance is the minimum necessary to preserve the historic character and design of the structure.

(j) Prerequisites for granting variances:

(1) Variances shall only be issued upon a determination that the variance is the minimum necessary, considering the flood hazard, to afford relief.

(2) Variances shall only be issued upon:

(A) Showing a good and sufficient cause;

(B) A determination that failure to grant the variance would result in exceptional hardship to the applicant; and

(C) A determination that the granting of a variance will not result in increased flood heights, additional threats to public safety, extraordinary public expense, create nuisances, cause fraud on or victimization of the public, or conflict with existing local laws or ordinances.

(3) Any application to which a variance is granted shall be given written notice that the structure will be permitted to be built with the lowest floor elevation below the base flood elevation, and that the cost of flood insurance will be commensurate with the increased risk resulting from the reduced lowest floor elevation.

(k) Variances may be issued by a community for new construction and substantial improvements and for other development necessary for the conduct of a functionally dependent use provided that:

(1) The criteria outlined in subsections (a)–(i) of this section are met; and

(2) The structure or other development is protected by methods that minimize flood damages during the base flood and create no additional threats to public safety.
(Code 1996, § 3.12.013; Ord. No. O-05-13, 3/19/13)

ARTICLE II. STANDARDS AND SPECIFICATIONS

Sec. 3.12.014. General standards for flood hazard reduction.

In all areas of special flood hazards the following provisions are required for all new construction and substantial improvements:

Unedited First Draft

(1) All new construction or substantial improvements shall be designed (or modified) and adequately anchored to prevent flotation, collapse or lateral movement of the structure resulting from hydrodynamic and hydrostatic loads, including the effects of buoyancy;

(2) All new construction or substantial improvements shall be constructed by methods and practices that minimize flood damage;

(3) All new construction or substantial improvements shall be constructed with materials resistant to flood damage;

(4) All new construction or substantial improvements shall be constructed with electrical, heating, ventilation, plumbing, and air-conditioning equipment and other service facilities that are designed or located so as to prevent water from entering or accumulating within the components during conditions of flooding;

(5) All new and replacement water supply systems shall be designed to minimize or eliminate infiltration of floodwaters into the system;

(6) New and replacement sanitary sewage systems shall be designed to minimize or eliminate infiltration of floodwaters into the system and discharge from the systems into floodwaters; and

(7) On-site waste disposal systems shall be located to avoid impairment to them or contamination from them during flooding.
(Code 1996, § 3.12.014; Ord. No. O-05-13, 3/19/13)

Sec. 3.12.015. Specific standards for flood hazard reduction.

In all areas of special flood hazards where base flood elevation data has been provided as set forth in sections 3.12.004, 3.12.011(8), or 3.12.016(c), the following provisions are required:

(1) Residential construction. New construction and substantial improvement of any residential structure shall have the lowest floor (including basement), elevated to or above the base flood elevation. A registered professional engineer or land surveyor shall submit a certification to the floodplain administrator that the standard of this subsection as proposed in section 3.12.012(a)(1), is satisfied.

(2) Nonresidential construction. New construction and substantial improvements of any commercial, industrial or other nonresidential structure shall either have the lowest floor (including basement) elevated to or above the base flood level or together with attendant utility and sanitary facilities, be designed so that below the base flood level the structure is watertight with walls substantially impermeable to the passage of water and with structural components having the capability of resisting hydrostatic and hydrodynamic loads and effects of buoyancy. A registered professional engineer or architect shall develop or review structural design, specifications, and plans for the construction, and shall certify that the design and methods of construction are in accordance with accepted standards of practice as outlined in this subsection. A record of such certification which includes the specific elevation (in relation to mean sea level) to which such structures are floodproofed shall be maintained by the floodplain administrator.

(3) Enclosures. New construction and substantial improvements, with fully enclosed areas below the lowest floor that are usable solely for parking of vehicles, building access or storage in an area other than a basement and which are subject to flooding shall be designed to automatically equalize hydrostatic

Unedited First Draft

flood forces on exterior walls by allowing for the entry and exit of floodwaters. Designs for meeting this requirement must either be certified by a registered professional engineer or architect or meet or exceed the following minimum criteria:

(A) A minimum of two openings on separate walls having a total net area of not less than 1 square inch for every square foot of enclosed area subject to flooding shall be provided.

(B) The bottom of all openings shall be no higher than 1 foot above grade.

(C) Openings may be equipped with screens, louvers, valves, or other coverings or devices provided that they permit the automatic entry and exit of floodwaters.

(4) Manufactured homes.

(A) Require that all manufactured homes to be placed within zone A on a community's FHBM or FIRM shall be installed using methods and practices which minimize flood damage. For the purposes of this requirement, manufactured homes must be elevated and anchored to resist flotation, collapse, or lateral movement. Methods of anchoring may include, but are not limited to, use of over-the-top or frame ties to ground anchors. This requirement is in addition to applicable state and local anchoring requirements for resisting wind forces.

(B) Require that manufactured homes that are placed or substantially improved within zones A1-30, AH, and AE on the community's FIRM on sites:

(i) Outside of a manufactured home park or subdivision;

(ii) In a new manufactured home park or subdivision;

(iii) In an expansion to an existing manufactured home park or subdivision; or

(iv) In an existing manufactured home park or subdivision on which a manufactured home has incurred "substantial damage" as a result of a flood; be elevated on a permanent foundation such that the lowest floor of the manufactured home is elevated to or above the base flood elevation and be securely anchored to an adequately anchored foundation system to resist flotation, collapse, and lateral movement.

(C) Require that manufactured homes be placed or substantially improved on sites in an existing manufactured home park or subdivision with zones A1-30, AH and AE on the community's FIRM that are not subject to the provisions of subsection (4) of this section be elevated so that either:

(i) The lowest floor of the manufactured home is at or above the base flood elevation; or

(ii) The manufactured home chassis is supported by reinforced piers or other foundation elements of at least equivalent strength that are no less than 36 inches in height above grade and be securely anchored to an adequately anchored foundation system to resist flotation, collapse, and lateral movement.

(5) Recreational vehicles. Require that recreational vehicles placed on sites within zones A1-30, AH, and AE on the community's FIRM either:

(A) Be on the site for fewer than 180 consecutive days;

Unedited First Draft

(B) Be fully licensed and ready for highway use; or

(C) Meet the permit requirements of section 3.12.012(a), and the elevation and anchoring requirements for "manufactured homes" in subsection (4) of this section.

A recreational vehicle is ready for highway use if it is on its wheels or jacking system, is attached to the site only by quick disconnect type utilities and security devices, and has no permanently attached additions.
(Code 1996, § 3.12.0152; Ord. No. O-05-13, 3/19/13)

Sec. 3.12.016. Standards for subdivision proposals.

(a) All subdivision proposals including the placement of manufactured home parks and subdivisions shall be consistent with sections 3.12.001(b), (c), and (d) of this article.

(b) All proposals for the development of subdivisions including the placement of manufactured home parks and subdivisions shall meet floodplain development permit requirements of section 3.12.005; section 3.12.012; and the provisions of sections 3.12.014–3.12.018 of this article.

(c) Base flood elevation data shall be generated for subdivision proposals and other proposed development including the placement of manufactured home parks and subdivisions which is greater than 50 lots or 5 acres, whichever is lesser, if not otherwise provided pursuant to section 3.12.004 or section 3.12.011(8) of this article.

(d) All subdivision proposals including the placement of manufactured home parks and subdivisions shall have adequate drainage provided to reduce exposure to flood hazards.

(e) All subdivision proposals including the placement of manufactured home parks and subdivisions shall have public utilities and facilities such as sewer, gas, electrical and water systems located and constructed to minimize or eliminate flood damage.
(Code 1996, § 3.12.016; Ord. No. O-05-13, 3/19/13)

Sec. 3.12.017. Flood hazard reduction standards for areas of shallow flooding (AO/AH zones).

Located within the areas of special flood hazard established in section 3.12.004, are areas designated as shallow flooding. These areas have special flood hazards associated with flood depths of 1 to 3 feet where a clearly defined channel does not exist, where the path of flooding is unpredictable, and where velocity flow may be evident. Such flooding is characterized by ponding or sheet flow; therefore, the following provisions apply:

(1) All new construction and substantial improvements of residential structures have the lowest floor (including basement) elevated to or above the base flood elevation or the highest adjacent grade at least as high as the depth number specified in feet on the community's FIRM (at least 2 feet if no depth number is specified).

(2) All new construction and substantial improvements of nonresidential structures;

(A) Have the lowest floor (including basement) elevated to or above the base flood elevation or the highest adjacent grade at least as high as the depth number specified in feet on the community's FIRM (at least 2 feet if no depth number is specified); or

Unedited First Draft

(B) Together with attendant utility and sanitary facilities be designed so that below the base specified flood depth in an AO zone, or below the base flood elevation in an AH zone, level the structure is watertight with walls substantially impermeable to the passage of water and with structural components having the capability of resisting hydrostatic and hydrodynamic loads of effects of buoyancy.

(3) A registered professional engineer or architect shall submit a certification to the floodplain administrator that the standards of this section, as proposed in section 3.12.012 are satisfied.

(4) Require within zones AH or AO adequate drainage paths around structures on slopes, to guide floodwaters around and away from proposed structures.
(Code 1996, § 3.12.017; Ord. No. O-05-13, 3/19/13)

Sec. 3.12.018. Floodways.

Floodways located within areas of special flood hazard established in section 3.12.004, are areas designated as floodways. Since the floodway is an extremely hazardous area due to the velocity of floodwaters which carry debris, potential projectiles and erosion potential, the following provisions shall apply:

(1) Encroachments are prohibited, including fill, new construction, substantial improvements and other development within the adopted regulatory floodway unless it has been demonstrated through hydrologic and hydraulic analyses performed in accordance with standard engineering practice that the proposed encroachment would not result in any increase in flood levels within the community during the occurrence of the base flood discharge.

(2) If subsection (1) above is satisfied, all new construction and substantial improvements shall comply with all applicable flood hazard reduction provisions of sections 3.12.014–3.12.017.

(3) Under the provisions of 44 CFR Chapter 1, section 65.12, of the National Flood Insurance Program regulations, a community may permit encroachments within the adopted regulatory floodway that would result in an increase in base flood elevations, provided that the community first completes all of the provisions required by section 65.12.
(Code 1996, § 3.12.018; Ord. No. O-05-13, 3/19/13)

Unedited First Draft

Chapter 56

GAS AND WELL DRILLING

ARTICLE I. IN GENERAL

Sec. 4.09.001. Purpose.

The exploration, development and production of gas in the city are activities which necessitate reasonable regulation to ensure that all property owners, mineral and otherwise, have the right to enjoy their property and its benefits and revenues. It is hereby declared to be the purpose of this article to establish reasonable and uniform limitations, safeguards and regulations for operations related to the exploring, drilling, developing, producing, transporting and storing of gas and other substances produced in association with gas within the city to protect the health, safety and general welfare of the public, minimize the potential impact to property and mineral rights owners, protect the quality of the environment and encourage the orderly production of available mineral, and gas resources.
(Code 1996, § 4.09.001; Ord. No. O-18-08, 6/16/08)

Sec. 4.09.002. Definitions.[156]

All technical industry words or phrases related to the drilling and production of gas wells not specifically defined in this article shall have the meanings customarily attributable thereto by prudent and reasonable gas industry operators. In addition, the following words, terms and phrases, when used in this article, shall have the meanings ascribed to them in this section, except where the context clearly indicates a different meaning:

Abandonment. Means “abandonment” as defined by the state railroad commission and includes the plugging of the well and the restoration of any well site as required by this article and applicable state law.

All-weather hard surface. A permanent surface that as a minimum is a base course constructed such that it meets the requirements of the International Fire Code be at least twenty feet (20') wide, have an overhead clearance of fourteen feet (14'), drains appropriately, remains water resistant, is free of litter, debris, weeds, grass or other objectionable materials or objects and is visibly dust free.

Base flood. The flood having a one percent (1%) chance of being equaled or exceeded in any given year.

Berm. A mound of soil, either natural or manmade, used to obstruct a view. The side slope shall not exceed a three-foot (3') horizontal and a one-foot (1') vertical slope.

Blowout preventer. A mechanical, hydraulic, pneumatic or other device or combination of such devices secured to the top of a well casing, including valves, fittings and control mechanisms connected therewith, which can be closed around the drill pipe, or other tubular goods which completely close the top of the casing and are designed for preventing blowouts.

Building. Any primary structure used or intended for supporting or sheltering any use or occupancy. The

---

[156] **Sec. 4.09.002. Definitions.** Self-defining terms and terms duplicative of chapter 1 provisions are stricken as shown.

Unedited First Draft

term “building” shall be construed as if followed by the words “or portions thereof.”

Cathodic protection. An electrochemical corrosion control technique accomplished by applying a direct current to the structure that causes the structure potential to change from the corrosion potential to a protective potential in the immunity region. The required cathodic protection current is supplied by sacrificial anode materials or by an impressed current system.

~~City. The City of Glenn Heights, Dallas and Ellis County, Texas.~~

~~City attorney. The city attorney of the City of Glenn Heights, Texas.~~

~~City code. The Code of Ordinances of the City of Glenn Heights, Texas, as adopted and as may be amended.~~

~~City council. The governing body of elected officials for the City of Glenn Heights, Texas. City manager. The city manager of the City of Glenn Heights, Texas.~~

Closed loop system. A series of tanks including filters, separators and shakers on the discharge side of the drilling process that contains byproducts of drilling such as cuttings and earthen materials. The means to contain the byproducts and recycle usable materials for reuse in the drilling process.

Commission. The state railroad commission.

Community development department. The community development department of the city.

Completion. The date the work is completed for the drilling, re-drilling or re-working of a well and the crew is released by completing its work or contract or by its employer. Once all phases have been completed and natural gas is put into the pipeline.

Day. A calendar day.

Derrick. Any portable framework, tower, mast or structure which is required or used in connection with drilling or re-working a well for the production of gas.

Development review committee (DRC). An internal staff review committee that includes, but is not limited to, representatives of the community development department, inspections, municipal services, fire, police, parks and recreation, neighborhood services, economic development, and the gas inspector.

Drilling. Digging or boring a new well for the purpose of exploring for, developing or producing gas or for the purpose of injecting gas, water or any other fluid or substance into the earth.

Drilling equipment. The derrick, together with all parts of and appurtenances to such structure, [and] every piece of apparatus, machinery or equipment used or erected or maintained for use in connection with drilling.

Drill site. The immediate area used during the drilling, re-drilling or re-working of a well.

Emergency response plan. A plan put in place to deal with emergency situations that may occur at the site during all stages of the drilling and production process.

Unedited First Draft

Exploration. Geologic or geophysical activities, including seismic surveys, related to the search for gas or other subsurface hydrocarbons.

Filed. For purposes herein shall mean administratively complete and all technical requirements have been met for purposes of review by the appropriate authority as stated herein, including the payment of all required fees.

~~Fire chief. The fire chief of the City of Glenn Heights, Texas.~~

~~Fire department. The fire department of the City of Glenn Heights, Texas.~~

Flaring. The burning of unwanted gas through a pipe (also called a flare). Flaring is a means of disposal used when there is no way to transport the gas to market and the operator cannot use the gas for a another purpose.

Flow-back operations. To include work over and means necessary to expel water from the drilling hole in order to facilitate the production of gas.

Frac tank. A manmade water storage tank designed using earthen berms to contain approximately 4 million gallons of water. These can be from existing ponds or other water storage tanks. Manmade tanks shall be lined with plastic with an appropriate mil spec rating.

Fracturing. The injecting of a fluid into a well to cause pressure that “cracks” or opens up fractures already present in the formation.

Gas. Any fluid, either combustible or noncombustible, which is produced in a natural state from the earth and which maintains a gaseous or rarefied state at standard temperature and pressure conditions or the gaseous components or vapors occurring in or derived from petroleum or natural gas.

Gas inspector. An individual designated by the city manager or any other person or entity so designated as an inspector by the city manager. The gas inspector shall report to the office of the fire marshal.

Gas well. Any well drilled, to be drilled, or used for the intended or actual production of natural gas.

Generator plant. The electrical service generated on-site servicing the drilling rig and all associated equipment including personal living quarters.

Grounding and bonding. The means to ground all power and equipment on the drilling site to prevent electrical discharges and lighting protection.

Hazardous material. A “hazardous substance” as that term is defined in the Comprehensive Environmental Response, Compensation and Liability Act of 1988, as enacted and a may be amended.

~~Municipal services department. The municipal services department of the City of Glenn Heights, Texas.~~

Operation site. The area used for development and production and all operational activities associated with gas after drilling activities are complete.

Operator. For each well, the person listed on the commission’s Form W-1 or Form P-4 for a gas well that is, or will be actually in charge and in control of drilling, maintaining, funding, operating, pumping or

Unedited First Draft

controlling any well, including, without limitation, a unit operator; provided, however, any such person, whether listed on the commission's W-l Form or Form P-4 that provides funding, drilling or operation of the well, at any time, shall be identified and considered an operator for all purposes under this article. If the operator, as herein defined, is not the lessee under a gas lease of any premises affected by the provisions of this article, then such lessee shall also be deemed to be an operator. In the event that there is no gas lease relating to any premises affected by this article, the owner of the fee mineral estate in the premises shall be deemed an operator.

Permit. Any written license granted by the city for the exploration, development, and production of gas wells issued pursuant to rules and regulations of this article, including but not limited to a special use permit or specific use permit, as defined herein.

~~Person. Means both the singular and the plural and means a natural person, a corporation, association, guardian, partnership, receiver, trustee, administrator, executor, and fiduciary or representative of any kind.~~

~~Planning and zoning commission. The planning and zoning commission of the City of Glenn Heights, Texas.~~

Production. The period between completion of drilling and the abandonment of the well, after the fracturing and flow-back operations have been completed and natural gas has been run through a series of separators and tank batteries to metering devices and into the pipeline.

Public building. All buildings used or designed to and intended to be used for the purpose of assembly of persons for such purposes as deliberation, entertainment, amusement, or health care. Public buildings include, but shall not be limited to, theaters, assembly halls, auditoriums, armories, mortuary chapels, dance halls, exhibition halls, museums, gymnasiums, bowling lanes, libraries, skating rinks, courtrooms, restaurants, and hospitals.

Public park. Any land area dedicated to or maintained by the city for traditional park-like recreational purposes, but shall not include privately owned amusement parks or privately owned golf courses or HOA community parks.

Re-drill. Re-completion of an existing well by deepening or sidetrack operations extending more than one hundred fifty feet (150') from the existing well bore.

Religious institution. Any building in which persons regularly assemble for religious worship and activities intended primarily for purposes connected with such worship or for propagating a particular form of religious belief.

Residence. A house, duplex, apartment, townhouse, condominium, HUD-code manufactured home or other building designed for dwelling purposes, including those for which a building permit has been issued on the date the application for a gas well permit is filed and accepted by the community development department.

Re-working. Re-completion or re-entry of an existing well within the existing bore hole or by deepening or sidetrack operations which do not extend more than one hundred fifty feet (150') from the existing well bore, or replacement of well liners or casings.

Rig-down. The day drilling has been completed and the rig is disassembled and all equipment prepared

Unedited First Draft

from movement from the pad site.

Rig-up. The process of setting up equipment and the drilling rig in order to start the drilling process.

Right-of-way. Any area of land within the city that is acquired by, dedicated to, or claimed by the city in fee simple, by easement, by prescriptive right or other interest and that is expressly or impliedly accepted or used in fact or by operation of law as public roadway, sidewalk, alley, utility, drainage, or public access easement or used for the provision of governmental services or functions. The term includes the area on, below, and above the surface of the public right-of-way. The term applies regardless of whether the public right-of-way is paved or unpaved.

Right-of-way maintenance agreement. A written agreement obligating the operator to repair damage, excluding ordinary wear and tear, if any, including but not limited to, public streets, sidewalks, pathways, trails, and bridges, caused by the operator or its employees, agents, contractors, subcontractors, or representatives in the performance of drilling or production of gas wells authorized by the city.

School. Any public or private, primary and secondary educational facilities providing education up through and including the twelfth grade level and any licensed day care centers, meaning a facility licensed by the state or by the city that provides care, training, education, custody, treatment or supervision for more than six children under 14 years of age, and for less than 24 hours per day.

Special use permit. A permit issued from the office of the fire marshal for specific uses such as perforating operations, wire line logging and welding.

Specific use permit. The use permit recommended by the planning and zoning commission, and approved by council, subject to situational suitability as provided by the city's zoning ordinance, as approved and as it may be amended.

Street. Any street, highway, sidewalk, alley, avenue, recessed parking area or other public right-of- way, including the entire right-of-way.

Tank. A container, covered or uncovered, used in connection with the drilling or production of gas or other hydrocarbons for holding or storing fluids.

Technical advisor. Such persons familiar with and educated in the gas industry or the law as it relates to gas matters who may be retained from time to time by the city, as provided in section 4.09.018 of this article.

Thoroughfare plan. The thoroughfare plan approved by the city.

Well. Any single hole or bore to any horizon, formation, or strata, for the purpose of producing gas, liquid hydrocarbons, brine water or sulphur water, or for use as an injection well for secondary recovery, disposal or production of gas, or other hydrocarbons from the earth. For each separate new hole a gas well permit is required.

Wire line logging. The use of radioactive isotopes which are used when measuring formations within the immediate vicinity of the drilling hole.
(Code 1996, § 4.09.002; Ord. No. O-18-08, 6/16/08)

Sec. 4.09.003. City oversight.

Unedited First Draft

(a) The city council shall retain the services of a gas inspector who shall enforce the provisions of this article. The gas inspector may have a degree in petroleum engineering with a background in drilling and production or demonstrate a proven background in the drilling, production, and operation of gas wells; provided, however, said gas inspector shall possess all required state law certifications and licenses. The gas inspector and other city officials shall have the authority to issue any orders or directives required to carry out the intent and purpose of this article and its particular provisions. Failure of any person to comply with any such order or directive shall constitute a violation of this article. The gas inspector shall report to the office of the fire marshal.

(b) The gas inspector shall have the authority to enter and inspect any premises covered by the provisions of this article to determine compliance with the provisions of this article and all applicable laws, rules, regulations, standards or directives of the city or state. Failure of any person to permit access to the gas inspector shall constitute a violation of this article.

(c) The gas inspector shall have the authority to request and receive any records, including any records sent to the commission, logs, reports and the like, relating to the status or condition of any permitted well necessary to establish and determine compliance with the applicable permit. Failure of any person to provide any such requested material shall be deemed a violation of this article.

(d) The gas inspector shall conduct periodic inspections at least once a year of all permitted wells in the city to determine that the wells are operating in accordance with proper safety regulations as set out in this article and in regulations of the commission.

(e) The gas inspector and other city officials authorized to enforce the provisions of this article or other ordinances and codes adopted by the city council shall have the authority to issue any orders, citations, notices of violation or directives required to carry [out] the intent and purpose of this article and its provisions.

(f) The gas inspector shall ensure that the drilling site meets all site plan conditions as approved in the drilling permit. The gas inspector shall have the authority to recommend changes to any site plan in order to preserve and protect the health, safety and welfare of the citizens of the city, including but not limited to public infrastructures, such as roads and utilities.
(Code 1996, § 4.09.003; Ord. No. O-18-08, 6/16/08)

Sec. 4.09.004. Operator's agent.

Every operator of any well shall designate an agent, who is a resident of the state, upon whom all orders and notices provided in this article may be served in person or by registered or certified mail. Every operator designating such agent shall within ten days notify the city manager or the city manager's designee, in writing, of any change in such agent or such mailing address unless operations within the city are discontinued. Failure to do so shall be deemed a violation of this article.
(Code 1996, § 4.09.004; Ord. No. O-18-08, 6/16/08)

ARTICLE II. PERMITS

Sec. 4.09.005. Seismic survey permit requirements.

A permit shall be required for seismic surveys. No seismic survey permit shall be granted unless the applicant shows proof of lease of mineral property within 200 feet of the right-of-way on which the

Unedited First Draft

survey is to be conducted. All seismic survey permit applications shall be submitted to the city manager or the city manager's designee for approval. The seismic survey shall not begin prior to the issuance of a seismic survey permit from the city. Failure to obtain a permit consistent with this section, or commencing work without a permit, shall be deemed a violation of this article. A permit shall include, but is not limited to, the following information:

(1) Operator/applicant name, phone number, fax number, physical address, and, if possible, e-mail address; if the operator is a corporation, the state of the incorporation, and if the operator is a partnership, the names and addresses of the general partners shall be provided.

(2) Detailed mapping of location and extent of seismic survey.

(3) Date and time the seismic survey will be conducted and completed.

(4) Detailed explanation of the seismic survey method to be used on-site.

(5) If the seismic survey is conducted in any city right-of-way then the operator must reimburse all costs to the city for any damages associated with the seismic survey.

(6) The permit fee for a seismic survey on city property shall be set by the city council on a case-by-case basis, calculated based upon a minimum $0.25 per linear foot, plus the costs of barricade rental and personnel required to direct and divert traffic if city forces and materials are used.

(7) An operator must submit a traffic safety and management plan with the application for a specific use permit with all seismic surveys that are conducted within the right-of-way.

(8) Under no circumstances may explosive charges, including, but not limited to, the use of dynamite, be used in any way related to the preparation or operation of conducting a seismic survey. (Code 1996, § 4.09.005; Ord. No. O-18-08, 6/16/08)

Sec. 4.09.006. Gas well permit requirements.

(a) A person wanting to engage in or operate gas production activities shall apply for and obtain a gas well permit under this article and shall indicate what type of well permit is requested. It is unlawful for any person acting either for himself or acting as an agent, employee, independent contractor, or servant for any person to drill any well, assist in any way in the site preparation, re-working, fracturing or operation of any such well or to conduct any activity related to the production of gas without first obtaining a gas well permit issued by the city in accordance with this article. Such activities include, but are not limited to, reworking, initial site preparation, drilling, operation, construction of rigs or tank batteries, fracturing and pressurizing.

(b) The operator must apply for and obtain a gas well permit for the drilling of each well. The operator shall neither apply nor obtain a "blanket" permit for more than one well if multiple wells are located on the same tract of land. Each new well established at the ground surface will be considered and require a new gas well permit.

(c) An existing gas well permit shall not constitute authority for the re-entering and drilling of an abandoned well. An operator shall obtain a new well permit in accordance with the provisions of this article if the operator is re-entering and drilling an abandoned well.

Unedited First Draft

(d) When a gas well permit has been issued to the operator for the drilling, reentering, activating or converting of a well, such gas well permit shall constitute sufficient authority for drilling, operation, production gathering or production maintenance, repair, re-working, testing, plugging and abandonment of the well or any other activity associated with mineral exploration at the site of such well. An amended gas well permit shall be obtained before such well may be modified for purposes of re-drilling, deepening or converting such well to a depth or use other than that set forth in the then-current permit for such well.

(e) Any person who intends to re-work a permitted well using a drilling rig to fracture stimulate (fracturing) a permitted well after initial completion or to conduct seismic surveys or other exploration activities shall give written notice to the gas inspector no less than ten days before the activities begin. The notice must identify where the activities will be conducted and must describe the activities in detail, including, but not limited to, whether explosive charges will be used, the duration of the activities and the time the activities will be conducted. The notice must also provide the address and 24 hour telephone number of the person conducting the activities. The person conducting the activities shall post a sign on the property giving the public notice 48 hours in advance of the fracturing activities. The sign shall comply with the requirements of section 4.09.014, “On-site and technical regulations,” (z), Signs, (1).

(f) Well setbacks for gas well permits.

(1) It is unlawful to drill, re-drill, deepen, re-enter, activate or convert any well, the center of which, at the surface of the ground, is located:

(A) Within six hundred feet (600') from any playgrounds, competition athletic fields, swimming pools, water slides and playgrounds, concession stands, pavilions or picnic areas within a public park;

(B) Within six hundred feet (600') from any residence, religious institution, public building, retail or commercial building, hospital building or school for which a building permit has been issued on the date of the application for a gas well permit is filed with the community development department;

(C) Within seventy-five feet (75') of any public street, road, highway, or right-of-way line;

(D) Within two hundred feet (200') of any existing potable water well.

(E) Within one hundred fifty feet (150') of any property line.

(F) The measurement of all distances shall be calculated from the proposed well bore, in a straight line, without regard to intervening structures or objects, to the closest exterior point of the object listed in items A through E, above. The above calculations shall be prepared by a registered professional land surveyor and contain his/her professional seal.

(2) Tank batteries, separators and compressors shall be located at least three hundred feet (300') to six hundred feet (600') from any public playground, competition athletic field, picnic area within a public park, or from any residence, religious institution, public building, hospital building or school, or any other building used, or designed and intended to be used, for human occupancy, for which a building permit has been issued on the date of the application for a gas well permit is filed. The distance shall be calculated from the closest tank batteries, separators or compressors, in a straight line, without regard to intervening structures or objects, to the closest part of the playground, competition athletic field, picnic area, residence, religious institution, public building, hospital building or schools, or any other building used or designed and intended to be used for human occupancy.

Unedited First Draft

(3) The distances set out in subsection 4.09.006(f)(1) and (2) above may be reduced at the discretion of the city council pursuant to section 4.09.019, "Appeals," of this article, but never less than three hundred feet (300') except as provided by (4) below. All distance reductions shall be documented as exceptions to the requested permit prior to issuance.

(4) Notwithstanding the provisions of this section, wells may be drilled no closer than one hundred fifty feet (150') from existing residences that are occupied by persons who in writing consent to the request to drill the well if approved by a majority vote of the city council pursuant to section 4.09.019 of this article. Said written consent is required from all residences occupied by persons within three hundred feet (300') of a proposed well bore prior to an application for a well permit being processed by city staff. Wells may be re- drilled, deepened, re-entered, activated or converted if no closer than one hundred fifty feet (150') from any residence constructed after the well was originally drilled without such consent. For purposes of the consent required by this subsection [consent] shall mean the written consent of every adult claiming an ownership or leasehold interest in such residence.

(5) Notwithstanding the provisions of this section, new residences may be built no closer than one hundred and fifty feet (150') from an existing well.

(g) A gas well permit shall automatically terminate, unless extended, if drilling is not commenced within 90 days from the date of the issuance of the permit. A well permit may be extended by the gas inspector for an additional 90 days upon written request by the operator and proof that the regulatory standards of the requested permit for such location have not changed.

(h) Permits required by this article are in addition to and are not in lieu of any permit which may be required by any other provision of the city code or by any other governmental agency.

(i) No gas well permit shall be issued for any well to be drilled within the floodway identified by the Federal Emergency Management Agency (FEMA) on the most current federal [flood] insurance rate map (FIRM). Gas wells proposed in the floodplain outside of the floodway shall comply with the requirements for development in the city code, chapter 58 [article 3.12]: "Flood Damage Prevention."

(j) No gas well permit shall be issued for any well to be drilled that is not in compliance with any standard, provision, procedure, or recommendation as described in the city's public works design manual as adopted and as may be amended.

(k) By acceptance of any permit issued pursuant to this article, the operator expressly stipulates and agrees to be bound by and comply with the provisions of this article. The terms of this article shall be deemed to be incorporated in any permit issued pursuant to this article with the same force and effect as if this article was set forth verbatim in such permit.
(Code 1996, § 4.09.006; Ord. No. O-18-08, 6/16/08)

Sec. 4.09.007. Gas well permit application; specific use permit.

(a) Every application for a gas well permit issued pursuant to this article shall be in writing signed by the operator, or some person duly authorized to sign on his behalf, and filed with the city manager, or the city manager's designee, and shall be processed consistent with the city's zoning ordinance for specific use permits, as adopted and as may be amended, and incorporated therein for all purposes.

(b) Every application shall be accompanied by a permit fee in the amount established in section 4.09.020 of this article. The application shall include the following information:

Unedited First Draft

(1) The date of the application and type of permit requested.

(2) An accurate legal description of the lease property to be used for the operation site, the parcel and the production unit and name of the geologic formation as used by the commission. Property recorded by plat shall reference subdivision, block and lot numbers.

(3) Map showing proposed transportation route and roads for equipment, chemicals or waste products used or produced by the gas operation. This proposed truck route shall include a traffic management plan, and identify all on- and off-site city thoroughfares and infrastructure.

(4) Proposed well name and well depth.

(5) Surface owner names, telephone numbers, fax numbers, physical addresses, and, if possible, e-mail addresses, of the lease property.

(6) Mineral lessee name, telephone number, fax number, physical address, and, if possible, e- mail address.

(7) Operator/applicant name, telephone number, fax number, physical address, and if possible, e-mail address and if the operator is a corporation, the state of incorporation, and if the operator is a partnership, the names and addresses of the general partners.

(8) Name, telephone number, fax number, physical address of individual designated to receive notice, or registered agent, and, if possible, e-mail address.

(9) Names and address of representatives or operator’s agent with supervisory authority over all gas operation site activities and a 24-hour telephone number.

(10) Location and description of all improvements and structures within eight hundred feet (800') of the well. Name of the owner and address of each parcel of property within six hundred feet (600') of proposed site. Such locations and descriptions shall be prepared by a registered professional land surveyor and shall contain his/her professional seal.

(11) A site plan of the proposed operation site showing the location of all improvements and equipment, including the location of the proposed wells and other facilities including, but not limited to, tanks, pipelines, compressors, separators and storage tanks or storage sheds. All site plans must include the following criteria and shall be submitted for approval as part of the specific use permit:

(A) Property boundaries with dimensions and setback lines.

(B) Location of proposed buildings and structures indicating sizes in square feet.

(C) The location and intensity of exterior lighting fixtures.

(D) The location of mechanical equipment.

(E) Outside storage areas.

(F) Curb cut locations.

Unedited First Draft

(G) Parking, loading, and maneuvering areas.

(H) The location, materials and dimensions of screening improvements as required by section 4.09.015, “Screening,” (a)(1), herein.

(I) A separate plan sheet showing the location, materials and dimension of all screening improvements as required by section 4.09.015, “Screening,” (a)(2), herein.

(J) Waste disposal locations with screening.

(K) Adjacent property lines, streets, easements immediately adjacent to the operation site.

(L) Names of owners of property immediately adjacent to the operation site.

(M) Names of subdivisions immediately adjacent to the operation.

(N) Site plans shall be submitted on a sheet size of 24" x 36" minimum.

(O) City boundaries where applicable.

(P) Date the drawing was prepared with name, address, and phone number of preparer.

(Q) Location, width, purpose of all existing easements.

(R) North arrow, at a maximum scale of 1:50 immediately adjacent to the operation site.

s All existing street names immediately adjacent to the operation site.

(T) Dimensions of all existing rights-of-way as specified on the city’s thoroughfare plan.

(U) Title block identifying gas well site location.

(V) Vicinity location map at 1" = 2000'.

(W) Zoning classifications of all properties shown on the site plan.

(X) Location of 100-year flood limits where applicable.

(Y) Texas NAD83 state plane coordinates for at least two corners.

(Z) As a minimum, a preliminary drainage study as identified in the public works design manual.

(12) Name, address and 24-hour phone number of the person to be notified in case of emergency.

(13) Exact acreage and number of wells, if applicable, included in the gas well permit application.

(14) Copies of all reports required by the commission, specifically including a copy of the approved commission Form W-l or P-4.

Unedited First Draft

(15) A signed right-of-way maintenance agreement supplied by the city that provides that the operator shall repair, at his own expense, any damage caused by any activity associated with the preparation, drilling, production, and operation of wells.

(16) A description of public utilities required during drilling and site operations.

(17) A description of the water source to be used during drilling.

(18) A copy of the stormwater pollution prevention plan (SWPPP) as required by the commission, the state commission on environmental quality (TCEQ), the United States Environmental Protection Agency (USEPA) or the city. A copy of the notice of intent (NOI) shall be submitted to the municipal services department at least three days prior to the commencement of any on-site activity.

(19) A copy of the determination by the TCEQ of the depth of usable quality groundwater.

(20) Evidence of insurance and security requirements under this article.

(21) A statement, under oath, signed by the operator or designated representative, that the information submitted with the application is, to the best knowledge and belief of the operator or designated representative, true and correct, and as such is a government record.

(22) All required application and permit fees.

(23) A tree preservation plan that conforms to the city's ordinance.

(24) A copy of a hazardous materials management plan and additionally, all material safety data sheets (MSDSs) for all hazardous materials that will be located, stored, transported or temporarily used on the drilling site shall be provided to the gas inspector and the fire department.
(Code 1996, § 4.09.007; Ord. No. O-18-08, 6/16/08)

Sec. #. Building permit required.

(1) No building or structure regulated by the current city code shall be erected, constructed, enlarged, altered, repaired, moved, improved, removed, converted, or demolished unless a separate permit for each building or structure has first been obtained from the director of the community development department, or the director's designee. No subdivision plat will be required.

(2) It shall be the responsibility of any person, firm, or corporation, upon submittal of an application for a building permit for work regulated by the current city code, to register as a general contractor with the city. Work regulated includes, but is not limited to, construction of gates, fencing, plumbing, irrigation, electricity, roadways, entrances, compressors, flow lines, pipelines, gathering lines, tank batteries, and buildings. Such registration shall be upon forms supplied by the director of the community development department, or the director's designee, and shall become null and void on December 31st of each year. An appropriate fee for registration shall be assessed in accordance with the city fee schedule. Copies of any and all state licenses required for the performance of any activity to be conducted shall be submitted with the application.
(Code 1996, § 4.09.007; Ord. No. O-18-08, 6/16/08)

Sec. 4.09.008. Gas well permit conditions; notice.

Unedited First Draft

(a) A gas well permit shall be required in accordance with the provisions of this section.

(b) Notice for a gas well permit.

(1) At least ten days prior to the date of filing of an application for a gas well permit with the gas inspector under this article, the operator shall notify, at the expense of the operator, each surface owner of property, as shown by the current tax roll, within six hundred feet (600') of the proposed well not owned by or under lease to the operator. Such notice, as outlined below, shall be by depositing the same, properly addressed and postage paid, in the United States mail. The operator shall file with the application an affidavit showing the name and last known address, as identified by the current tax roll, of each owner of property to whom notice was mailed and the names of each owner of property to whom notice is required to be given, but whose address is unknown. Notice shall be sent to all registered neighborhood associations within one-half (1/2) mile of the proposed drill site.

(2) At least ten days prior to the date of filing of an application for a gas well permit under this article with the gas inspector, the operator shall publish a copy of the notice as outlined below, at the expense of the operator, in one issue of a daily newspaper of the city for ten consecutive days. An affidavit by the printer or publisher of the newspaper indicating publication of the notice shall be filed with the application and will be prima facie evidence of such publication. The notice shall read as follows: Notice is hereby given that, acting under and pursuant to the Ordinances of the City of Glenn Heights, Texas, on the day of , 20 , will file with the gas inspector of the City of Glenn Heights, an application to drill, complete and operate a well for gas upon property located at , Glenn Heights, Dallas and Ellis County, Texas, more particularly shown on the map of record in Volume , Page , Plat records of County, Texas or per Tax Tract Number , Dallas and Ellis County, Texas.

(3) At least 20 days prior to the date of filing of an application for a gas well permit under this article with the gas inspector, the operator, at the operator's expense, shall erect at least one sign, no less than three feet (3') by three feet (3'), upon the premises upon which a gas well permit has been requested. Where possible, the sign or signs shall be located in a conspicuous place or places upon the property at a point or points nearest any right-of-way, street, roadway or public thoroughfare adjacent to such property.

(A) The signs shall substantially indicate that a gas well permit to drill for gas has been requested and shall further set forth that additional information can be acquired by telephoning the operator at the number indicated on the sign.

(B) The continued maintenance of any such signs shall not be deemed a condition precedent to the holding of a public hearing or to any other official action concerning this article.

(C) Any signs shall be removed subsequent to final action by the gas inspector.

(4) All notice provisions contained herein shall be deemed sufficient upon substantial compliance with this section.

(c) Vehicle routes for gas well permit. Vehicles associated with drilling or production in excess of three tons shall be restricted to such streets designated as either truck routes or commercial delivery routes by the city code wherever capable of being used. All vehicles shall be operated on a truck route wherever capable of being used; they shall be operated on a commercial delivery route only when it is not possible to use a truck route to fulfill the purpose for which such vehicle is then being operated. In the event that an approved route is unavailable, the operator shall propose an alternative route that may be approved by the city manager or city manager's designee, if temporary. Any permanent alternative route must be

Unedited First Draft

approved by the city council as an amendment to the specific use permit. Commercial delivery route means any street or highway so designated by the city council for the use by any commercial motor vehicle, truck-tractor, trailer, semitrailer, or any combination thereof.

(d) Processing of gas well permit. The gas inspector shall not be required to accept or process a gas well permit application until the applicant can demonstrate that the proposed activities are in compliance with the provisions of the city's comprehensive zoning regulations.

(e) Compliance with all other provisions of this article shall be required.
(Code 1996, § 4.09.008; Ord. No. O-18-08, 6/16/08)

Sec. 4.09.009. Gas well permitting procedure.

(a) All gas well permit applications will be filed with the city manager, or the city manager's designee. The city manager, or the city manager's designee, shall refer such applications to the fire department and other city departments which the city manager deems appropriate.

(b) It is the responsibility of the city manager, or the city manager's designee, to review and approve or disapprove all applications for gas well drilling permits based on the criteria established by this article and in accordance with the specific use permit.

(c) The city manager, or the city manager's designee, shall within forty-five (45) days after the filing of a completed application and remittance of all fees, insurance, bond, and security per the requirements of this article for a gas well permit, determine whether the permit application shall be approved or denied.

(d) The provisions of this article shall apply to any dwellings or buildings for which an application for a building permit has been submitted on the date the application for a gas well permit is filed with the city manager or the city manager's designee.

(1) All new or proposed construction of any buildings, structures, streets, roads, or applicable improvements to the property upon which any gas well is located must be in compliance with all applicable setback requirements enumerated in this article.

(2) If all the requirements of this article and the specific use permit are met, the city manager, or the city manager's designee, shall issue a permit for the drilling of the well or the installation of the facilities for which a permit application was made consistent with the terms and conditions of the specific use permit.

(3) If the city council denies a permit application for the requested gas well permit, the city manager, or the city manager's designee, shall notify the operator in writing of such denial stating the reasons for the denial. Within 30 days of the date of the written decision to deny the permit, the operator may cure those conditions that caused the denial and resubmit the application to the city manager, or city manager's designee, for reconsideration of approval and issuance of the permit. Additionally, the operator may file an appeal to the city council under the provisions outlined in this article pursuant to section 4.09.019 of this article.

(4) The failure of the city manager, or the city manager's designee, to review and issue a permit within the time limits specified above shall not cause the application to be deemed approved. The failure of the city manager, or the city manager's designee, to act within the time limit shall be deemed a disapproval. The operator may file an appeal to the city council under the provisions outlined in this

Unedited First Draft

article pursuant to section 4.09.019 of this article.

(e) If an application for a permit is denied by the city, nothing herein contained shall prevent a new permit application from being submitted to the city manager, or the city manager's designee, for the same well.
(Code 1996, § 4.09.009; Ord. No. O-18-08, 6/16/08)

Sec. 4.09.010. Amended permits.

(a) An amended permit may be issued for, but not limited to, the following changes in drill or operational site activities:

(1) Re-drilling;

(2) Deepening beyond one hundred fifty feet (150') of the permitted depth;

(3) Site access;

(4) Locations or quantities of equipment as determined by the gas inspector;

(5) Locations or number of drilling fluid or other types of pits; and

(6) Locations or number of buildings and structures.

(b) Applications for amended permits shall be in writing, shall be signed by the operator, and shall include the following:

(1) An application fee in the amount as established in section 4.09.020 of this article;

(2) A description of the proposed amendments;

(3) Any changes to the information submitted with the application for existing permit (if such information has not previously been provided to the city);

(4) Such additional information as is reasonably required by the gas inspector to demonstrate compliance with the applicable permit;

(5) Such additional information as is reasonably required by the gas inspector to prevent imminent destruction of property or injury to persons; and

(6) An amended site plan will be required.

(c) All applications for amended permits shall be filed with city manager, or the city manager's designee, for review by the city. Incomplete applications may be returned to the applicant, in which case the city shall provide a written explanation of the deficiencies; however, the city shall retain the application fee. The city may return any application as incomplete if there is a dispute pending before the commission regarding the determination of the operator.

(d) If the activities proposed by the amendment are not materially different from the activities covered by the existing permit then the city manager, or the city manager's designee, shall approve or

Unedited First Draft

disapprove the amendment within 15 days after the application is filed.

(e) If the activities proposed by the amendment are materially different from the activities covered by the existing permit, and do not create a risk of destruction of property or injury to persons, then the city manager, or the city manager's designee, shall approve or disapprove the amendment within forty-five (45) days after the application is filed. If, however, the activities proposed by the amendment are materially different and, in the judgment of the gas inspector, the city manager, or the city manager's designee, might create a risk of destruction of property or injury to persons that were not associated with the activities covered by the existing permit or that were not otherwise taken into consideration by the existing permit, the city manager, or the city manager's designee, may require the amendment to be processed as a new permit application.

(f) The failure of the city manager, or the city manager's designee, to review and issue an amended permit within the time limits specified above shall not cause the application for the amended permit to be deemed approved. Further, the decision of the city manager, or the city manager's designee, to deny an amendment to a permit shall be provided to the operator in writing within the time period indicated in (d) and (e) above, including an explanation of the basis for the decision. The operator may appeal any such denial to the city council, if such an appeal is filed within ten days after such denial, as provided by section 4.09.019 of this article.
(Code 1996, § 4.09.010; Ord. No. O-18-08, 6/16/08)

Sec. 4.09.011. Suspension or revocation of permits.

(a) If an operator (or its officers, employees, agents, contractors, or representatives) fails to comply with any requirement of a permit (including any requirement incorporated by reference as part of the permit), the gas inspector shall give written notice to the operator specifying the nature of the failure and giving the operator a reasonable time to cure, taking into consideration the nature and extent of the failure, the extent of the efforts required to cure, and the potential impact on the health, safety, and welfare of the community. In no event, however, shall the cure period be less than ten days unless the failure presents a risk of imminent danger of property or injury to persons or unless the failure involves the operator's failure to provide periodic reports as required by this article.

(b) If the operator fails to correct the noncompliance, the city may suspend or revoke the permit pursuant to the provisions of this article.

(c) No person shall carry on any operations performed under the terms of the permit issued under this article during any period of any permit suspension or revocation or pending a review of the decision or order of the city in suspending or revoking the permit. Nothing contained herein shall be construed to prevent the necessary, diligent and bona fide efforts to cure and remedy the default or violation for which the suspension or revocation of the permit was ordered for the safety of persons or as required by the commission.

(d) If the operator does not cure the noncompliance within the time specified in this article, the city, upon written notice to the operator, may notify the commission and request that the commission take any appropriate action.

(e) An operator may, within ten days of the date of the decision of the city in writing to suspend or revoke a permit, file an appeal to the city council under the provisions outlined in this article pursuant to section 4.09.019 of this article.
(Code 1996, § 4.09.011; Ord. No. O-18-08, 6/16/08)

Unedited First Draft

Sec. 4.09.013. Bond; letters of credit; indemnity; insurance.

(a) General requirements. The operator shall be required to:

(1) Comply with the terms and conditions of this article and the permit issued hereunder.

(2) Promptly clear drill and operation sites of all litter, trash, waste and other substances used, allowed, or occurring in the operations, and after abandonment or completion grade, level and restore such property to the same surface conditions as nearly as possible as existed before operations.

(3) Sign each permit and the city shall retain a signed original. Each such permit issued by the city shall include the following language:

Operator does hereby expressly release and discharge all claims, demands, actions, judgments, and executions which it ever had, or now has or may have, or assigns may have, or claim to have, against the City of Glenn Heights, or its departments, agents, officers, servants, successors, assigns, sponsors, volunteers, or employees, created by, or arising out of personal injuries, known or unknown, and injuries to property, real or personal, or in any way incidental to or in connection with the performance of the work performed by the operator under a permit. The operator shall fully defend, protect, indemnify, and hold harmless the City of Glenn Heights, Texas, its departments, agents, officers, servants, employees, successors, assigns, sponsors, or volunteers from and against every claim, demand, or cause of action and any and all liability, damages, obligations, judgments, losses, fines, penalties, costs, fees, and expenses incurred in defense of the City of Glenn Heights, Texas, its departments, agents, officers, servants, or employees, including, without limitation, personal injuries and death in connection therewith which may be made or asserted by operator, its agents, assigns, or any third parties on account of, arising out of, or in any way incidental to or in connection with the performance of the work performed by the operator under a permit. The operator agrees to indemnify and hold harmless the City of Glenn Heights, Texas, its departments, its officers, agents, servants, employees, successors, assigns, sponsors, or volunteers from any liabilities or damages suffered as a result of claims, demands, costs, or judgments against the city, its departments, its officers, agents, servants, or employees, created by, or arising out of the acts or omissions of the City of Glenn Heights occurring on the drill site or operation site in the course and scope of inspecting and permitting the wells including, but not limited to, claims and damages arising in whole or in part from the negligence of the City of Glenn Heights occurring on the drill site or operation site in the course and scope of inspecting and permitting gas wells. IT IS UNDERSTOOD AND AGREED THAT THE INDEMNITY PROVIDED FOR IN THIS SECTION IS AN INDEMNITY EXTENDED BY THE OPERATOR TO INDEMNIFY AND PROTECT THE CITY OF GLENN HEIGHTS, TEXAS AND/OR ITS DEPARTMENTS, AGENTS, OFFICERS, SERVANTS OR EMPLOYEES FROM THE CONSEQUENCES OF THE NEGLIGENCE OF THE CITY OF GLENN HEIGHTS, TEXAS AND/OR ITS DEPARTMENTS, AGENTS, OFFICERS, SERVANTS, OR EMPLOYEES, WHETHER THAT NEGLIGENCE IS THE SOLE OR CONTRIBUTING CAUSE OF THE RESULTANT INJURY, DEATH AND/OR DAMAGE.

(4) Promptly pay all fines, penalties and other assessments imposed due to breach of any terms of the permit.

(5) Promptly restore to its former condition any public property damaged by the gas operation.

(6) An operator may not commence or continue with drilling operations unless and until all requirements relative to the bond, letter of credit or insurance are satisfied. Any permit will be suspended

Unverified First Draft

consistent herein for failure to maintain in full force and effect any such requirements as stated herein or in the specific use permit and it shall be a specific element of default for such failure.

(b) Bond; irrevocable letter of credit. Prior to the issuance of a gas well permit the operator shall provide the city manager, or the city manager's designee, with a security instrument in the form of a bond or an irrevocable letter of credit as follows:

(1) Bond. A bond shall be executed by a reliable surety, bonding or insurance institution authorized to do business in Texas, acceptable to the city. The bond shall become effective on or before the date the gas well permit is issued and shall remain in force and effect for at least a period of six months after the expiration of the permit term or until the well is plugged and abandoned and the site is restored, whichever occurs last. The operator shall be listed as principal and the instrument shall run to the city, as obligee, and shall be conditioned that the operator will comply with the terms and regulations of this article, the specific use permit and all applicable city ordinances. The original bond shall be submitted to the city manager, or the city manager's designee, with a copy of the same provided to the city secretary.

(2) Letter of credit. An irrevocable letter of credit shall be issued by a reliable bank authorized to do business in Texas and shall become effective on or before the date the permit is issued. The letter of credit shall remain in force and effect for at least a period of six months after the expiration of the permit term or until the well is plugged and abandoned and the site is restored, whichever occurs last. The city shall be authorized to draw upon such letter of credit to recover any fines, penalties or costs assessed under this article or for purposes stated herein. Evidence of the execution of a letter of credit shall be submitted to the city by submitting an original signed letter of credit from the banking institution, to the city manager, or the city manager's designee, with a copy of the same provided to the city secretary.

(3) The principal amount of any security instrument shall be fifty thousand dollars ($50,000.00) for any single well. If, after completion of a well, the applicant/operator, who initially posted a fifty thousand dollars ($50,000.00) bond or letter of credit, has complied with all of the provisions of this article and whose well in the producing stage and all drilling operations have ceased, may submit a request to the city manager or the city manager's designee to reduce the existing bond or letter of credit to ten thousand dollars ($10,000.00) for the remainder of the time the well produces without reworking. During reworking operations, the amount of the bond or letter of credit shall be maintained at fifty thousand dollars ($50,000.00). If at any time after no less than a 15 day written notice to the operator and a public hearing, the city council shall deem any operator's bond or letter of credit to be insufficient, it may require the operator to increase the amount of the bond or letter of credit up to a maximum of two hundred fifty thousand dollars ($250,000.00) per well.

(4) When the city manager, or the city manager's designee, finds that a default has occurred in the performance of any requirement or condition imposed by this article, the specific use permit, or applicable city ordinance a written notice shall be given to the operator and in accordance with the requirements of the bond or letter of credit. Such notice shall specify the work to be done, the estimated cost and the period of time deemed by the city manager, or the city manager's designee, to be reasonably necessary for the completion of such work. After receipt of such notice, the operator shall, within the time therein specified, either cause or require the work to be performed, or failing to do so, shall pay over to the city one hundred twenty-five percent (125%) of the estimated cost of doing the work as set forth in the notice. In no event, however, shall the cure period be less than 30 days unless the failure presents a risk of imminent destruction of property or injury to persons or unless the failure involves the operator's failure to provide periodic reports as required by this article. The city shall be authorized to draw against any irrevocable letter of credit or bond to recover such amount due from the operator. Upon receipt of such monies, the city shall proceed by such mode as deemed convenient to cause the required work to be

Unedited First Draft

performed and completed, but no liability shall be incurred other than for the expenditure of said sum in hand. In the event that the well has not been properly abandoned under the regulations of the commission, such additional money may be demanded from the operator as is necessary to properly plug and abandon the well and restore the drill site in conformity with the regulations of this article.

(5) In the event the operator does not cause the work to be performed and fails or refuses to pay over to the city the estimated cost of the work to be done as set forth in the notice, or the issuer of the security instrument refuses to honor any draft by the city against the applicable irrevocable letter of credit or bond the city may proceed to obtain compliance and abate the default by way of civil action against the operator, or by criminal action against the operator, or by both such methods. Notwithstanding the foregoing, the city shall avail itself of all available legal remedies against all potential parties including but not limited to persons with an interest in the property, the operator, surety and financial institution.

(6) When the well or wells covered by said irrevocable letters of credit or bond have been properly abandoned in conformity with all regulations of this article, and in conformity with all regulations of the commission and notice to that effect has been received by the city, or upon receipt of a satisfactory substitute, the irrevocable letter of credit or bond issued in compliance with these regulations shall be terminated and cancelled.

(7) Notwithstanding anything herein to the contrary, the bond or letter of credit may be used for the following non-exhaustive purposes in conjunction with other purposes stated herein, to mitigate public losses suffered by the city associated with a well-based operation emergency, road repair or other infrastructure damages, or sales tax losses.

(c) Insurance. In addition to the bond or letter of credit required pursuant to this article, the operator shall carry a policy or policies of insurance issued by an insurance company or companies authorized to do business in Texas. In the event such insurance policy or policies are cancelled, the permit shall be suspended on such date of cancellation and the operator's right to operate under such permit shall immediately cease until the operator files additional insurance as provided herein.

(1) General requirements applicable to all policies.

(A) The city, its officials, employees, agents and officers shall be endorsed as an "additional insured" to all policies except employer's liability coverage under the operator's workers' compensation policy.

(B) All policies shall be written on an occurrence basis except for environmental pollution liability (seepage and pollution coverage) and excess or umbrella liability, which may be on a claims-made basis.

(C) All policies shall be written by an insurer with an A-:VIII or better rating by the most current version of the A.M. Best Key Rating Guide or with such other financially sound insurance carriers acceptable to the city.

(D) Deductibles shall be listed on the certificate of insurance and shall be on a "per occurrence" basis unless otherwise stipulated herein.

(E) Certificates of insurance shall be delivered to the City Manager, City of Glenn Heights, 1938 South Hampton Road, Glenn Heights, Texas 75154, evidencing all the required coverages, including endorsements, prior to the issuance of a permit.

(F) All policies shall be endorsed with a waiver of subrogation providing rights of recovery in favor

Unedited First Draft

of the city.

(G) Any failure on part of the city to request required insurance documentation shall not constitute a waiver of the insurance requirement specified herein.

(H) Each policy shall be endorsed to provide the city a minimum 30-day notice of cancellation, non-renewal, or material change in policy terms or coverage.

(I) During the term of the permit, the operator shall report, in a timely manner, to the city manager, or the city manager's designee, any known loss occurrence which could give rise to a liability claim or lawsuit or which could result in a property loss.

(J) Upon request, certified copies of all insurance policies shall be furnished to the city.

(2) Standard commercial general liability policy. This coverage must include premises, operations, blowout or explosion, products, completed operation, sudden and accidental pollution, blanket contractual liability, underground resources damage, broad form property damage, independent contractors protective liability and personal injury. This coverage shall be a minimum combined single limit of one million dollars ($1,000,000.00) per occurrence location for bodily injury and property damage.

(3) Excess or umbrella liability. Five million dollars ($5,000,000.00) excess, if the operator has a stand-alone environmental pollution liability (EPL) policy. Ten million dollars ($10,000,000.00) excess, if the operator does not have a standalone EPL policy. Coverage must include an endorsement for sudden or accidental pollution. If seepage and pollution coverage is written on a "claims made" basis, the operator must maintain continuous coverage and purchase extended coverage period insurance when necessary.

(4) Environmental pollution liability coverage. The operator shall purchase and maintain in force for the duration of the permit, insurance for environmental pollution liability applicable to bodily injury, property damage, including loss of use of damaged property or of property that has not been physically injured or destroyed; clean-up costs; and defense, including costs and expenses incurred in the investigation, defense or settlement of claims; all in connection with any loss arising from the insured site. Coverage shall be maintained in an amount of at least one million dollars ($1,000,000.00) per loss, with an annual aggregate of at least ten million dollars ($10,000,000.00.)

(A) Coverage shall apply to sudden and accidental pollution conditions resulting from the escape or release of smoke, vapors, fumes, acids, alkalis, toxic chemicals, liquids or gases, waste material or other irritants, contaminants or pollutants.

(B) The operator shall maintain continuous coverage and shall purchase extended coverage period insurance when necessary. The extended coverage period insurance must provide that any retroactive date applicable to coverage under the policy precedes the effective date of the issuance of the permit by the city.

(5) Control of well. The policy should cover the cost of controlling a well that is out of control, re-drilling or restoration expenses, seepage and pollution damage as first party recovery for the operator and related expenses, including, but not limited to, loss of equipment, experts and evacuation of residents. Five million dollars ($5,000,000.00) per occurrence/no aggregate, if available, otherwise an aggregate of ten million dollars ($10,000,000.00). Five hundred thousand dollars ($500,000.00) sub-limit endorsement may be added for damage to property for which the operator has care, custody and control.

Unedited First Draft

(6) Workers' compensation and employers liability insurance. Workers' compensation benefits shall be Texas statutory limits. Employers' liability shall be a minimum of five hundred thousand dollars ($500,000.00) per accident. Such coverage shall include a waiver of subrogation in favor of the city and provide coverage in accordance with applicable state and federal laws.

(7) Automobile liability insurance. Combined single limit of one million dollars ($1,000,000.00) per occurrence for bodily injury and property damage. Coverage must include all owned, hired and not-owned automobiles.

(8) Certificates of insurance. The company must be admitted or approved to do business in the state, unless the coverage is written by a surplus lines insurer. The insurance set forth by the insurance company must be underwritten on forms that have been approved by the state board of insurance or ISO (insurance services office), or an equivalent policy form acceptable to the city, with the exception of environmental pollution liability and control of well coverage, [and] set forth all endorsements and insurance coverage according to requirements and instructions contained herein. Shall specifically set forth the notice of cancellation, termination, or change in coverage provisions to the city. All policies shall be endorsed to read "This policy will not be cancelled or non-renewed without 30 days' advance written notice to the owner and the city except when this policy is being cancelled for nonpayment of premium, in which case ten days' advance." Original endorsements affecting coverage required by this section shall be furnished with the certificates of insurance.

(9) Notice. The individual designated to receive notice shall be a resident of Texas upon whom all orders and notices provided in this article may be served in person or by registered or certified mail. Every operator shall within ten days notify the city manager, or the city manager's designee, in writing of any change in such agent or mailing address unless operations in the city are discontinued and abandonment is complete.
(Code 1996, § 4.09.013; Ord. No. O-18-08, 6/16/08)

ARTICLE III. STANDARDS AND SPECIFICATIONS

Sec. 4.09.012. Periodic reports.

(a) The operator shall notify the gas inspector of any changes to the following information within ten days after the change occurs:

(1) The name, physical address, telephone number, and fax number, of the operator;

(2) The name, address, and telephone number of the person designated to receive notices from the city (which person must be a resident of Texas that can be served in person or by registered or certified mail) or its registered agent; and

(3) The operator's emergency action response plan (including "drive-to maps" from public rights-of-way to each drill site).

(b) The operator shall notify in writing the gas inspector and the city manager, or the city manager's designee, of any change to the name, address, and 24-hour phone number of the persons with supervisory authority over drilling or operations activities within one business day of said change.

(c) The operator shall provide a copy of any "incident reports" or written complaints submitted to the

Unedited First Draft

commission and a copy to the city within 15 days after the operator has notice of the existence of such reports or complaints.

(d) Beginning December 31 after each well is completed, and continuing on each December 31 thereafter until the operator notifies the gas inspector and the city manager, or the city manager's designee, in writing, that the well has been abandoned and the site restored, the operator shall submit a written report to the city manager, or the city manager's designee, identifying any changes to the information that was included in the application for the applicable permit that have not been previously reported to the city.
(Code 1996, § 4.09.012; Ord. No. O-18-08, 6/16/08)

Sec. 4.09.014. On-site and technical regulations.

(a) Abandoned wells. All wells shall be abandoned in accordance with the rules of the commission; however, all well casings shall be cut and removed to a depth of at least ten feet (10') below the surface unless the surface owner submits a written agreement otherwise. No structures shall be built over an abandoned well.

(b) Blowout prevention. In all cases, blowout prevention equipment shall be used on all wells being drilled, worked-over or in which tubing is being changed. Protection shall be provided to prevent blowout during gas operations as required by and in conformance with the requirements of the commission and the recommendations of the American Petroleum Institute (API). The operator must equip all drilling wells with adequate blowout preventers, flow lines and valves commensurate with the working pressures involved as required by the commission. The operator must conduct daily testing of the operation and pressure, providing a copy of the results of said testing to the city on a weekly basis.

(c) Chemical and materials storage. All chemicals or hazardous materials shall be stored in such a manner as to prevent, contain, and facilitate rapid remediation and clean-up of any accidental spill, leak, or discharge of a hazardous material. The operator shall have all material safety data sheets (MSDSs) for all hazardous materials on-site. All applicable federal and state regulatory requirements for the proper labeling of containers shall be followed. Appropriate pollution prevention actions shall be required and include, but are not limited to, chemical and materials raised from the ground (e.g., wooden pallets), bulk storage, installation and maintenance of secondary containment systems, and protection from stormwater and weather elements.

(d) The following requirements shall apply to all fracture stimulation (fracturing) operations performed on a well:

(1) At least 48 hours before operations are commenced, the operator shall post a sign, which complies with (y) [(z)], Signs, (1) of this section, at the entrance of the well site advising the public of the date the operations will commence and an anticipated completion date;

(2) "Flow-back" operations to recover fluids used during fracture stimulation shall be performed during daylight hours only unless the gas inspector approves in writing such operations during non-daylight hours and be continued until completed to prevent damage to formation;

(3) A watchperson shall be required at all times during such operations; and

(4) At no time shall the well be allowed to flow or vent directly to the atmosphere without first directing the flow through separation equipment or into a portable tank.

Unedited First Draft

(e) Compliance. The operator shall comply at all times with all applicable federal, state and city requirements.

(f) Discharge. No person shall place, deposit, discharge, or cause or permit to be placed, deposited or discharged, any oil, naphtha, petroleum, asphalt, tar, hydrocarbon substances or any refuse including wastewater or brine from any gas operation or the contents of any container used in connection with any gas operation in, into, or upon any public right-of-way, alleys, streets, lots, storm drain, ditch or sewer, sanitary drain or any body of water or any private or public property in the city.

(g) Drilling fluids. Low toxicity glycols, synthetic hydrocarbons, polymers, and esters shall be substituted for conventional oil-based drilling fluids.

(h) Drill stem testing. All open hole formation or drill stem testing shall be done during daylight hours. Drill stem tests may be conducted only if the well effluent during the test is produced through an adequate gas separator to storage tanks and the effluent remaining in the drill pipe at the time the tool is closed is flushed to the surface by circulating drilling fluid down the annulus and up the drill pipe.

(i) Drip pans and other containment devices. Drip pans and other containment devices shall be placed or installed underneath all tanks, containers, pumps, lubricating oil systems, engines, fuel and chemical storage tanks, system valves, connections, and any other areas or structures that could potentially leak, discharge, or spill hazardous liquids, semi-liquids, or solid waste materials.

(j) Dust, vibration, and odors. All drilling and production operations shall be conducted in such a manner as to minimize, so far as practicable, dust, vibration, or noxious odors, and shall be in accordance with the best accepted practices incident to drilling for the production of gas and other hydrocarbon substances. All equipment used shall be so constructed and operated so that vibrations, dust, odor or other harmful or annoying substances or effect will be minimized by the operations carried on at any drilling or production site or from anything incident thereto, to the injury or annoyance of persons living in the vicinity; nor shall the site or structures thereon be permitted to become dilapidated, unsightly or unsafe. Proven technological improvements as identified by the gas inspector in industry standards of drilling and production in this area may be adopted as they become available if capable of reducing factors of dust, vibration and odor.

(k) Electric lines. All electric lines to production facilities shall be located in a manner compatible to those already installed in the surrounding area or subdivision.

(l) Electric motors. Only electric prime movers or motors shall be permitted for the purpose of pumping wells. No electric power shall be generated on location. All electrical installations and equipment shall conform to the city's ordinances and the appropriate national codes.

(m) Emergency response plan. Prior to the commencement of any gas or other hydrocarbons production activities, the operator shall submit to the city manager or city manager's designee an emergency response plan establishing written procedures to minimize any hazard resulting from drilling, completion or producing of gas wells. Said plan shall use existing guidelines established by the commission, TCEQ, state department of transportation or the USEPA. The emergency response plan shall be kept current with any additions, modifications, or amendments concerning all construction-related activities, natural gas operations and, or natural gas production. Updated plans shall be submitted to the gas inspector within two business days. A copy of the emergency response plan shall be kept on-site.

Unedited First Draft

(n) Explosive charges. Under no circumstances shall explosives of any type be used during any phase of drilling, re-drilling, deepening, re-entering, activating, converting, fracturing, or completing a gas well without the prior consent of the fire department. The operator shall provide notice to the gas inspector at least ten days prior to such activities. The notice shall identify the date that the explosive charges will be used, the date and means of transporting the explosive charges, and the transportation route to and from the drill or operation site that will be used for the delivery of the explosive charges. A special use permit shall be issued from the fire marshal.

(o) Fire prevention; sources of ignition. Firefighting apparatus and supplies as approved by the fire department and required by any applicable federal, state, or local law shall be provided by the operator, at the operator's cost, and shall be maintained on the drilling site at all times during drilling and production operations. The operator shall be responsible for the maintenance and upkeep of such equipment. Each well shall be equipped with an automated valve that closes the well in the event of an abnormal change in operating pressure. All well heads shall contain an emergency shut-off valve to the well distribution line.

(p) Flaring operations. The agent must notify the gas inspector, fire marshal, and city's dispatch no later than 48 hours before flaring will commence. Flaring must be located at a safe distance, with piping secured. The on-site supervisor or responsible party must be on-site once flaring has commenced and until flaring is completed. A separate watchperson shall be posted at the gate and be responsible for accountability during these operations.

(q) Gas emission or burning restricted. No person shall allow, cause or permit gases to be vented into the atmosphere or to be burned by open flame except as provided by law or as permitted by the commission. If the venting of gases into the atmosphere or the burning of gases by open flame is authorized as provided by law or as permitted by the commission, then such vent or open flame shall not be located closer than five hundred feet (500') from any building not used in operations on the drilling site and such vent or open flame shall be screened in such a way as to minimize detrimental effects to adjacent property owners.

(r) Grass, weeds, and trash. All drill and operation sites shall be kept clear of high grass, weeds, and combustible trash.

s Lights. No person shall permit any lights located on any drill or operation site to be directed in such a manner so that they shine directly on public roads, adjacent property or property in the general vicinity of the operation site. To the extent practicable, and taking into account safety considerations, site lighting shall be directed downward and shielded so as to both prevent direct illumination of and minimize glare on public roads and adjacent dwellings and buildings within six hundred feet (600').

(t) Muffling exhaust. Exhaust from any internal combustion engine, stationary or mounted on wheels, used in connection with the drilling of any well or for use on any production equipment shall not be discharged into the open air unless it is equipped with an exhaust muffler, or mufflers, or an exhaust muffler box constructed of noncombustible materials sufficient to suppress noise and prevent the escape of obnoxious gases, fumes or ignited carbon or soot. All formation fracturing operations shall be conducted during daylight hours unless the operator has notified the gas inspector that fracturing will occur before or after daylight hours to meet safety requirements.

(u) Organic solvents. Organic solvents, such as trichloroethylene and carbon tetrachloride, shall not be used for cleaning any element, structure, or component of the drilling rig, platform, or associated equipment, tools, or pipes. To the maximum extent practicable, high flash point Varsol shall be used.

Unedited First Draft

(v) Pipe dope. Lead-free, biodegradable pipe dope shall be substituted for API specified pipe dope.

(w) Pits. All reserve pits, completion/workover pits, drilling fluid disposal pits, fresh makeup water pits, gas plant evaporation/retention pits, mud circulation pits, or water condensate pits shall be lined with plastic or stored above ground in tanks. The water surface elevation of the pit may not exceed twelve inches (12") above the existing ground elevation prior to any on-site construction of the pit. One foot of freeboard is required between the surface elevation and on top of berm. Such pits and contents shall be removed from the premises and the drilling site within forty (40) days after completion of the well, unless otherwise authorized by the gas inspector. No wash-out pits shall be located within the city, unless all fluid, sludge, solid waste materials, drilling fluids, waste oil, spent completion fluids, all other liquids, semi-liquids, mud, including hazardous waste inseparable by simple mechanical removal processes, and is made up primarily of natural material is immediately captured within a fully enclosed, above-ground containment tank.

(x) Private roads and drill sites. Prior to the commencement of any drilling operations, all private roads used for access to the drill site and the operation site itself shall be at least twenty-six feet (26') wide, have an overhead clearance of fourteen feet (14') and shall be an all-weather hard surface and maintained to prevent dust, mud and rutting. In particular cases these requirements governing surfacing of private roads may be altered at the discretion of the municipal services department after consideration of all circumstances including, but not limited to, the following: distances from public streets and highways; distances from adjoining and nearby property owners whose surface rights are not leased by the operation; the purpose for which the property of such owners is or may be used; topographical features; nature of the soil; and exposure to wind. The minimum approach shall be concrete for fifty (50) feet and have a minimum turn radius of 12 feet on the approach.

(y) Salt water wells. No salt water disposal wells shall be located within the city.

(z) Signs.

(1) A sign shall be immediately and prominently displayed at the gate on the temporary and permanent site fencing erected pursuant to this article. Such sign shall be durable material, maintained in good condition and, unless otherwise required by the commission, shall have a surface area of not less than 16 square feet with contrasting lettering not less than four inches (4") tall and shall be lettered with the following:

(A) Well name and number;

(B) Name of operator;

(C) The emergency 911 number; and

(D) 24-hour telephone numbers of two persons responsible for the well who may be contacted in case of emergency.

(2) Permanent weatherproof signs reading “DANGER NO SMOKING ALLOWED” in both English and Spanish shall be posted immediately upon completion of the well site fencing at the entrance of each well site and tank battery or in any other location approved or designated by the fire department of the city. Sign lettering shall be four inches (4") in height and shall be red on a white background or white on a red background. Each sign shall include the emergency notification numbers of the fire department and the operator, well and lease designations required by the commission.

Unedited First Draft

(aa) Storage of equipment. On-site storage is prohibited on the operation site. No equipment shall be stored on the drilling or production operation site, unless it is necessary to the everyday operation of the well. Lumber, pipes, tubing and casing shall not be left on the operation site except when drilling or well servicing operations are being conducted on the site. No vehicle or item of machinery shall be parked or stored on any street, right-of-way or in any driveway, alley or upon any operation site which constitutes a fire hazard or an obstruction to or interference with fighting or controlling fires. The fire department shall be the entity that determines whether equipment on the site shall constitute a fire hazard. No refinery, processing, treating, dehydrating or absorption plant of any kind shall be constructed, established or maintained on the premises. This shall not be deemed to exclude a conventional gas separator or dehydrator.

(bb) Storage tanks. All tanks and permanent structures shall conform to the API specifications unless other or additional specifications are approved by the fire department. All storage tanks shall be equipped with a secondary containment system including lining with an impervious material. The secondary containment system shall be a minimum of three feet (3') in height and one and one-half (1-1/2) times the contents of the largest tank in accordance with the fire code, and buried at least one foot (1') below the surface. Drip pots shall be provided at the pump-out connection to contain the liquids from the storage tank. All tanks shall be set back pursuant to the standards of the commission and the National Fire Protection Association. Each storage tank shall be equipped with a level control device that will automatically activate a valve to close the well in the event of excess liquid accumulation in the tank. No meters, storage tanks, separation facilities, or other above-ground facilities, other than the well head and flow lines, shall be placed in a floodway identified by FEMA on the most current FIRM. Meters, storage tanks, separation facilities, or other above-ground facilities proposed in the floodplain shall be outside of the floodway and shall comply with the requirements for development in the city code, chapter 58 [article 3.12]: “Flood Damage Prevention.”

(cc) Tank battery facilities. Tank battery facilities shall be equipped with a remote foam line and a lightning arrestor system.

(dd) Surface casing. Surface casing shall be run and set in full compliance with the applicable rules and regulations of the commission.

(ee) Valves. Each well must have a shut-off valve to terminate the well’s production. The fire department shall have access to the well site to enable it to close the shut-off valve in an emergency.

(ff) Waste disposal. Unless otherwise directed by the commission, all tanks used for storage shall conform to the following: The operator must use portable closed steel storage tanks for storing liquid hydrocarbons. Tanks must meet the API standards. All tanks must have a vent line, flame arrester and pressure relief valve. All tanks must be enclosed by a fence applicable to the issued permit classification. Drilling mud, cuttings, liquid hydrocarbons and all other field waste derived or resulting from or connected with the drilling, reworking or deepening of any well shall be discharged into an above-ground self-contained tank, or, after authorization by the city manager or city manager’s designee, a lined pit. All disposals must be in accordance with the rules of the commission and any other appropriate local, state or federal agency. Unless otherwise directed by the commission and approved by the gas inspector waste materials shall be removed from the site and transported to an off-site disposal facility not less often than every 30 days. Water stored in on-site tanks shall be removed as necessary. All waste shall be disposed of in such a manner as to comply with the applicable federal and state air and water pollution control regulations, this article and any other applicable ordinance of the city.

Unedited First Draft

(gg) Watchperson. The operator must keep a watchman or security personnel on-site during the drilling or re-working of a well when other workmen are not on the premises.

(hh) Installation of pipelines on, under or across public property. The operator shall apply to the city for a right-of-way use agreement on, over, under, along or across the city streets, sidewalks, alleys and other city property for the purpose of constructing, laying, maintaining, operating, repairing, replacing and removing pipelines. The operator shall:

(1) Not interfere with or damage existing water, sewer or gas lines or the facilities of public utilities located on, under or across the course of such rights-of way. The operator shall be responsible for the repair of any existing water, sewer or gas lines damaged as a result of use of the right-of-way.

(2) Furnish to the city manager, or the city manager's designee, a site plan showing the location of such pipelines.

(3) Construct such lines out of pipe in accordance with the city codes and regulations.

(4) Grade, level and restore such property to the same surface condition, as nearly as practicable, as existed prior to the laying of the pipeline.

(ii) Public streets. No permit shall be issued for any well to be drilled within any of the streets or alleys of the city or projected streets or alleys shown by the current comprehensive plan of the city, and no street or alley shall be blocked or encumbered or closed due to any exploration, drilling or production operations unless prior written consent is obtained from the city manager or the city manager's designee. Any consent from the city manager or the city manager's designee shall be temporary in nature and state the number of hours or days that any street or alley may be blocked, encumbered or closed. The site must not conflict with the city's thoroughfare plan.

(jj) Vehicle routes for gas well permits. Vehicles associated with drilling or production in excess of three tons shall be restricted to state arterials, and where local access is required, to those arterials, collectors or commercial routes designated on the city's thoroughfare plan and shall be identified on the site plan submitted as part of the specific use permit.

(kk) Work hours for gas well permits. Site development, other than drilling, [or] fracturing, shall be conducted only between 7:00 a.m. and 7:00 p.m. Monday through Saturday. Truck deliveries of equipment and materials associated with drilling or production, well servicing, site preparation and other related work conducted on the well site shall be limited to between the above same work-hour restrictions except in cases of fires, blowouts, explosions, and any other emergencies or where the delivery of equipment is necessary to prevent the cessation of drilling or production. The operator may request an exception from work hours and days from the city council, pursuant to section 4.09.019 of this article, or be set forth in the specific use permit as a condition of approval.

(ll) Noise restrictions for gas well permits. A noise management plan shall be submitted with the specific use permit and shall constitute a condition of approval. In addition to any restrictions or requirements set forth in the specific use permit, the following restrictions shall apply:

(1) During drilling, re-drilling or re-working, and flaring no on-site activity shall produce a sound level greater than seventy-eight (78) dB(A) when measured at a distance of three hundred feet (300') from the drilling equipment in question.

Unedited First Draft

(2) During fracturing, no on-site activity shall produce a sound level greater than eighty-five

(85) dB(A) when measured at a distance of three hundred feet (300') from the drilling equipment in question.

(3) During production, no on-site activity shall produce a sound level greater than sixty-five

(65) dB(A) when measured at a distance of three hundred feet (300') from any on-site equipment in question.

(4) Sound level measurements shall be made with a sound level meter conforming as a minimum, to the requirements of the American National Standards Institute (ANSI).

(5) If sound levels exceed the dB(A) levels referenced in this subsection, the gas inspector may require additional sound reducing techniques and devices including, but not limited to, sound-reducing mufflers, including but not limited to hospital grade mufflers on equipment.

(mm) Tank specifications for gas well permit. All tanks and permanent structures shall conform to the API specifications unless other specifications are approved by the fire department. The top of the tanks shall be no higher than twelve feet (12') above the terrain surrounding the tanks.
(Code 1996, § 4.09.014; Ord. No. O-18-08, 6/16/08)

Sec. 4.09.015. Fences; screening.

(a) Throughout the entire exploration, drilling, and production process there shall be screening improvements (fences, walls, berms and landscaping) required during each phase of the process, including but not limited to the following; provided however, additional landscaping, buffers and noise barriers may be included as conditions of approval of the specific use permit.

(1) Rig-up exploration through completion (drilling phase) to production. Once the pad site is prepared, a temporary chain-link fence with all-weather screening fabric at least six feet (6') in height shall be established around the entire operation site to obscure view of the gas drilling activities. The temporary fence shall remain standing and in a serviceable condition throughout this phase. A secured entrance gate shall be required. All gates are to be kept locked when the operator or his or her employees are not within the enclosure. A “Knox Padlock” or “Knox Box with a key” shall be provided to access the well site to be used only in case of an emergency. Once drilling of the hole is complete, the operator shall install a permanent masonry wall within 90 days if no further work is to be accomplished.

(2) Completion through abandonment (production phase). Once gas has entered the pipeline, the production phase begins and a masonry wall with landscaping shall be required to enclose and visually screen the well and all associated equipment. An earthen berm may also be required. The masonry walls, berms, and landscaping shall be in compliance with standard engineering and design practices and shall meet the following minimum requirements:

(A) The masonry wall material and design shall be generally compatible with the design of similar facilities, buildings and structures on or adjacent to the site; and

(B) Masonry walls shall be at least eight feet (8') in height.

(C) Masonry walls shall be placed upon earthen berms in order to prevent viewing of the well and

Unedited First Draft

associated equipment from a public street, playground, competition athletic field or picnic area within a public park, existing residences and residentially zoned undeveloped property contiguous to the well site where practicable as determined by the city manager or city manager's designee. However, the above-mentioned berms shall not be required unless needed to augment the height of an eight-foot (8') masonry wall in order to prevent the viewing of the well or any associated equipment from the above items.

(D) All landscape improvements shall be maintained in an attractive and healthy state by the applicant or operator so as to ensure the effective visual screening of the site throughout its use for gas production and associated activities.

(E) Screening shrubs and trees shall be evergreen species and shall be installed in conjunction with the required masonry walls or berms in order to supplement both the visual screening and noise mitigation of the well site and associated equipment. Screening shrubs shall be a minimum of five feet (5') in height at planting, having the potential to grow to a mature height of at least eight feet (8'), be planted on four-foot (4') centers and must have an irrigation system that provides total water coverage to all plant materials. Screening trees shall be planted on twenty-foot (20') centers. Trees must be a minimum of three-inch (3") caliper at time of planting and be irrigated as above. All screening shrubs and trees will comply with a list of shrubs and trees approved by the city council. Plans for landscape and irrigation shall be submitted to the planning and development department for approval.

(b) Gate specifications. All temporary fences and masonry walls shall be equipped with at least one

(1) gate. The gate shall meet the following specifications:

(1) Each gate shall be not less than twelve feet (12') wide and be composed of two gates, each of which is not less than six feet (6') wide, or one sliding gate not less than twelve feet (12') wide. If two gates are used, gates shall latch and lock in the center of the span;

(2) The gates shall be of chain-link construction, with all-weather screening fabric, that meets the applicable specifications, or of other approved material that, for safety reasons, shall be at least as secure as a chain-link fence;

(3) The gates shall be provided with a combination catch and locking attachment device for a padlock, and shall be kept locked except when being used for access to the site; and

(4) The operator must provide the fire department with a "Knox Padlock" or a "Knox Box with a key" to access the well site to be used only in case of an emergency.

(5) At each gate there shall be a sign that reads "no trespassing."
(Code 1996, § 4.09.015; Ord. No. O-18-08, 6/16/08)

Sec. 4.09.016. Clean-up and maintenance.

(a) Clean-up after well servicing. After the well has been completed or plugged and abandoned, the operator shall clean the drill site or operation site, complete restoration activities and repair all damage to public property caused by such operations within 60 days.

(b) Clean-up after spills, leaks and malfunctions. After any spill, leak or malfunction, the operator shall remove or cause to be removed to the satisfaction of the fire department and the gas inspector all waste materials from any public or private property affected by such spill, leak or malfunction. Clean-up

Unedited First Draft

operations must begin immediately. If the owner fails to begin site clean- up within 24 hours, the city shall have the right to contact the commission in order to facilitate the removal of all waste materials from the property affected by such spill, leak or malfunction.

(c) Painting. All production equipment shall be painted and maintained at all times, including wellheads, pumping units, tanks, and buildings or structures. When requiring painting of such facilities, the gas inspector shall consider the deterioration of the quality of the material of which such facility or structure is constructed, the degree of rust, and its appearance. Paint shall be of a neutral color, compatible with surrounding uses. Neutral colors shall include sand, gray and unobtrusive shades of green, blue and brown, or other neutral colors approved by the planning and development department.

(d) Blowouts. In the event of the loss of control of any well, the operator shall immediately take all reasonable steps to regain control regardless of any other provision of this article and shall notify the gas inspector and fire department as soon as practicable. The gas inspector shall certify in writing, briefly describing the same, to the city manager. If the city manager, in his opinion, believes that danger to persons and property exists because of such loss of well control and that the operator is not taking or is unable to take all reasonable and necessary steps to regain control of such well, the city may then employ any well control expert or experts or other contractors or suppliers of special services, or may incur any other expenses for labor and material which the city deems necessary to regain control of such well. The city shall then have a valid priority lien against the interest in the well of all working interest owners to secure payment of any expenditure made by the city pursuant to such action of the gas inspector in gaining control of said well.
(Code 1996, § 4.09.016; Ord. No. O-18-08, 6/16/08)

Sec. 4.09.017. Plugged and abandoned wells.

(a) Surface requirements for plugged and abandoned well. Whenever abandonment occurs pursuant to the requirements of the commission, the operator so abandoning shall be responsible for the restoration of the well site to its original condition as nearly as practicable, in conformity with the regulations of this article.

(b) Abandonment shall be approved by the city manager or city manager's designee, after restoration of the drill or operation site has been accomplished in conformity with the following requirements at the discretion of the city manager or the city manager's designee:

(1) The derrick and all appurtenant equipment thereto shall be removed from the site;

(2) All tanks, towers, and other surface installations shall be removed from the site;

(3) All concrete foundations, piping, wood, guy anchors and other foreign materials regardless of depth, except surface casing, shall be removed from the site, unless otherwise directed by the commission;

(4) If any soil was contaminated, it shall be removed from the site in accordance with city, state and federal regulations;

(5) All holes and depressions shall be filled with clean, compactable soil;

(6) All waste, refuse or waste material shall be removed from the site; and

Unedited First Draft

(7) During abandonment, the operator shall comply with all applicable sections in this article.

(c) Abandoned well requirements. The operator shall furnish the following to the gas inspector:

(1) A copy of the approval of the commission confirming compliance with all abandonment proceedings under the state law; and

(2) A notice of intention to abandon under the provisions of this section and stating the date such work will be commenced. Abandonment may then be commenced on or subsequent to the dates so stated.

(d) Abandonment requirements prior to new construction. All abandoned or deserted wells or drill sites shall meet the most current abandonment requirements of the commission prior to the issuance of any building permit for development of the property. No structure shall be built over an abandoned well.

(e) The operator can only abandon a well if the city manager or the city manager's designee has reviewed and approved the abandonment.
(Code 1996, § 4.09.017; Ord. No. O-18-08, 6/16/08)

Sec. 4.09.018. Technical advisor.

The city may from time to time employ a technical advisor or advisors who are experienced and educated in the gas industry or the law as it pertains to gas matters. The function of such advisors shall be to advise, counsel or represent the city on such matters relating to gas operations within the city as the city may want or require and the effect thereof, both present and future, on the health, welfare, comfort and safety of the citizens of the city. In the event such technical advisors is (are) employed for the purpose of advising, counseling or representing the city relative to an operator's unique and particular set of circumstances, case or request relating to this article, then the cost for such services of such technical advisors shall be assessed against and paid for by such operator in addition to any fees or charges assessed pursuant to this article. Prior to the employment of a technical advisor, the city shall inform the operator of the intended scope of work and the estimated costs and expenses. The employment of a technical advisor shall be approved by the city council.
(Code 1996, § 4.09.018; Ord. No. O-18-08, 6/16/08)

ARTICLE IV. APPEALS, FEES, AND PENALTIES

Sec. 4.09.019. Appeals.

(a) The city council shall hear and decide appeals of orders, decisions, or determinations made by the city manager, or the city manager's designee, relative to the application and interpretation of this article.

(b) The city council shall decide by majority vote requests for deviations specifically authorized by this article, such as distance of drilling sites from certain structures and improvements, and hours of operation. The city council is likewise authorized to decide by majority vote requests for deviations from landscape and screening requirements. Relevant considerations in determining whether such requests should be granted include the nature and remoteness of the site, the wishes of the owners of the immediately adjacent property impacted by the request, and any proposed measures to offset the impact of the request. The city council may impose restrictions to offset the impact of the requests. Requests shall be in writing stating the rationale for the deviation and shall be accompanied by a filing fee in the amount established in section 4.09.020 of this article.

Unedited First Draft

(c) (1) The city council shall have and exercise the authority to hear and determine appeals where it is alleged there is error or abuse of discretion regarding the issuance of a gas well permit or the revocation or suspension of any permit issued hereunder, and as provided by this article. Any person or entity whose application is denied by the city manager or the city manager's designee, or whose permit is suspended or revoked, may file an appeal to the city council. Such appeal shall be in writing, specifying the error or abuse of discretion and shall be accompanied by a filing fee in the amount established in section 4.09.020 of this article. The city council may request additional information and take testimony from fact and expert witnesses.

(2) The city council shall review the appeal and any other related information. The city council in deciding appeals regarding the issuance of a gas well permit or its revocation or suspension shall consider the grounds for the action appealed from and whether an error of fact or in interpretation of these regulations occurred. The city council may reverse or modify the action appealed from by a majority vote. The only basis for a reversal or modification shall be error in applying these regulations; hardship shall be irrelevant.

(3) Appeals of any condition of the specific use permit shall be in accordance with the provisions of the zoning ordinance as it exists and as it may be amended.

(d) Notice shall be provided of the date, time and place of a hearing for each request for a deviation and appeal by mailing such notice to the owner of record of each parcel of property located within six hundred feet (600') of the well within the city and to the city secretary of each city within such distance. Such notice shall be mailed at least ten days prior to such hearing.

(e) Judicial review of council decisions on appeals.

(1) Any of the following persons may present to a district court of Dallas and Ellis County, Texas, a verified petition requesting that a writ of certiorari be issued stating that the decision of the city council is illegal in whole or in part and specifying the grounds of the illegality:

(A) The person whose appeal was denied; or

(B) A city taxpayer.

(2) The petition must be received for filing by the clerk of the district court within 10 days after the date the decision is made by the city council.

(3) On the presentation of a verified petition meeting the foregoing requirements, the court may grant a writ of certiorari directed to the city council to review the city council's decision. The writ must indicate the time by which the council's return must be made and served on the petitioner's attorney, which must be after 10 days and may be extended by the court. Granting of the writ does not stay the proceedings on the decision under appeal, but on application and after notice to the city council the court may grant a restraining order if due cause is shown.

(4) The city council's return must concisely state any pertinent and material facts that show the grounds of the decision under appeal. The council is not required to return the original documents on which the council acted but may return certified or sworn copies of the documents or parts of the documents as required by the writ.

(5) If after receiving the return the court determines that there is substantial evidence in such return to

Unedited First Draft

constitute grounds for reasonable persons to differ as to whether the action of the city council in denying the appeal was lawful, the court shall affirm the decision. If the court finds that there is insufficient information contained in such return to make such a determination, and that testimony is necessary for the proper disposition of the matter, it may take evidence or appoint a referee to take evidence as directed. The referee shall report the evidence to the court with the referee's findings of fact and conclusions of law. The referee's report constitutes a part of the proceedings on which the court shall make its decision.

(6) The court may reverse or affirm, in whole on in part, or modify the decision that is appealed. Costs shall not be assessed against the city council.
(Code 1996, § 4.09.019; Ord. No. O-18-08, 6/16/08)

Sec. 4.09.020. Gas well fees.

(a) For services rendered, the following schedule of fees and charges is hereby adopted:

(1) New gas well permit: $6,500.00 ea.

(2) Amended permit: $540.00.

(3) Extended permit: $270.00.

(4) Supplemental permit: $180.00.

(5) Operator transfer: $720.00.

(6) Seismic site inspection: $360.00.

(7) Seismic test of city property: Fee determined by city council.

(8) Annual inspection fee (per well): $1,000.00.

(9) Appeal to city council fee: $500.00.

(10) Request to city council for deviation: $500.00.

(b) The city council or city manager shall pass through the actual cost of any non-employee expert deemed necessary to advise or provide a service to the city to protect the health, safety and welfare of the citizens of the city.

(c) No blanket well permits will be issued.
(Code 1996, § 4.09.020; Ord. No. O-18-08, 6/16/08)

Sec. 4.09.021. Penalty.

(a) It is unlawful and an offense for any person to intentionally or knowingly:

(1) Engage in any activity not permitted by the terms of a gas well permit issued under this article;

(2) Fail to comply with any condition set forth in a gas well permit issued under this article; or

Unedited First Draft

(3) Violate any provision or requirement set forth under this article.

(b) Any violation of this article shall be punished by a fine not exceeding two thousand dollars ($2,000.00) per violation per day, subject to applicable state law. Each day that a violation exists shall constitute a separate offense.

(c) The penalty provided herein shall be cumulative of other remedies provided by state law, including but not limited to, the recovery of civil penalties under V.T.C.A., Local Government Code, ch. 54. The city may institute any appropriate action or proceeding in a court of competent jurisdiction to enjoin the violation of this article. The power of injunction may be exercised in enforcing this article whether or not there has been a criminal complaint filed.
(Code 1996, § 4.09.021; Ord. No. O-18-08, 6/16/08)

Unedited First Draft

Chapter 58

LANDSCAPING, FENCING, SCREENING, AND LIGHTING

ARTICLE I. IN GENERAL

~~**Sec. 15.02.001. Title.**~~[157]
~~These regulations shall be known as the city's landscaping and screening ordinance, may be cited as such, and will be referred to herein as "this article."~~
~~(Code 1996, § 15.02.001; Ordinance O-08-13 adopted 5/7/13)~~

Sec. 15.02.002. Intent and purpose.

It is the intent of this article to:

(1) Establish minimum requirements for the installation and maintenance of landscaping and screening elements that preserve and improve the natural and urban environment. Recognize that the use of landscaping elements can contribute to the processes of air purification, oxygen regeneration, groundwater recharge, provision of habitats for wildlife, and enhance the aesthetic qualities of the city.

(2) Protect and conserve the community's soils and prevent soil erosion and silting of drainage structures and water bodies, as well as reducing the impact of development on the community's storm drainage system.

(3) Reduce the negative effects such as increase in noise, heat, and glare, and the spread of dust and debris caused by expanses of impervious and nonvegetated surfaces creating an urban heat island within the urban environment.

(4) Assure an acceptable degree of transition and reduce incompatibility between abutting or nearby uses of different character by providing visual buffering between such uses.

(5) Indirectly influencing rise in property value by eliminating nuisance, increasing security, and improving general appearance of the city.
(Code 1996, § 15.02.002; Ordinance O-08-13 adopted 5/7/13)

Sec. 15.02.007. Definitions.

The following words, terms and phrases, when used in this article, shall have the meanings ascribed to them in this section, except where the context clearly indicates a different meaning:

Automatic controller. A mechanical or electronic timer, capable of operating valve stations to set the days and length of time of a water application.

~~City. The City of Glenn Heights.~~

CCRs: Covenants, codes and restrictions.

---

[157] **Sec. 15.02.001. Title.** Short titles are unnecessary after codification and should be stricken as shown. Also, definitions duplicative of chapter 1 are stricken.

Unedited First Draft

Dilapidated fence. A fence which is decayed, deteriorated, or fallen into partial ruin.

Easement. A right created by grant, reservation, agreement, prescription, or necessary implication, which one has in the land of another. It is either for the benefit of appurtenant land such as for the right to cross, or egress, such as a public utility easement, or in specific, such as an exclusive utility easement. An easement may or may not have descriptive bounds.

Emitter. Devices which are used to control the applications of irrigation water. This term is primarily used to refer to the low flow rate devices used in micro-irrigation systems.

Fence. Any new fence, wall, boundary enclosure, or screening device commonly referred to herein as "fence."

Ground cover. Plants, other than turf grass, normally reaching an average maximum height of not more than 24 inches at maturity.

HOAs. Homeowner associations.

Infiltration rate. The rate of water entry into the soil expressed as a depth of water per unit of time (inches per hour).

Irrigator. A person who holds a license to practice irrigation in the state.

Irrigation system. A permanent artificial watering system that is designed to transport and distribute water to plants.

iSWM integrated stormwater management. A site development design manual developed by NCTCOG.

Landscape architect. A person who holds a license to practice landscape architecture in the state.

Landscaped area. The entire parcel less the building, footprint, driveways, nonirrigated portions of parking lots, landscapes such as decks and patios, and other nonporous areas.

Landscaping. Any combination of living plants (such as grass, ground cover, shrubs, vines, hedges, or trees) and nonliving landscape material (such as rocks, pebbles, sand, mulch, walls, fences, or decorative paving materials).

Mechanical equipment screening wall or mechanical equipment screening fence. A wall, fence, or architectural extension, that may be part of the structure or stand alone, that screens from view the stand alone mechanical systems of a structure, mechanical roof mounted equipment and similar type installations so that visibility through the wall shall be prevented from the exterior side of the wall or architectural extension.

Micro-irrigation (low volume). The frequent application of small quantities of water directly on or below the soil surface, usually as discrete drops, tiny streams, or miniature sprays through emitters placed along the water delivery pipes (laterals). Micro-irrigation encompasses a number of methods or concepts including drip, subsurface, bubbler, and spray irrigation, previously referred to as trickle irrigation, low volume, or low flow irrigation.

Mulch. Living, organic or synthetic materials customarily used in landscape design to retard erosion and

Unedited First Draft

retain moisture.

Native vegetation. Any plant species with a geographic distribution indigenous to all, or part, of the state.

Naturally occurring existing plant communities. See native vegetation.

NCTCOG. North Central Texas Council of Governments.

Outside storage. The storage of commodities, goods or refuse outside of an enclosed building.

Pervious paving materials. A porous asphaltic or concrete surface and a void aggregate base which allows for rapid infiltration and temporary storage of ram [rain] on, or runoff delivered to, paved surfaces.

Plant communities. A natural association of plants that are dominated by one or more prominent species, or a characteristic physical attribute.

Public right-of-way. A strip of land which is used as a roadbed for a street, alley or highway intended for use by the public at-large, or land set aside as an easement or in fee, either by agreement or condemnation.

Rain sensor device. A low voltage electrical or mechanical component placed in the circuitry of an automatic lawn irrigation system which is designed to turn off a sprinkler controller when precipitation has reached a pre-set quantity.

Rainwater harvesting zone. A landscape zone that is designed for the purpose of capturing, filtering, reusing or infiltrating rainwater with the intended purpose of protecting and conserving water resources.

Rear yard. A yard extending across the full width of the lot, the depth of which is the horizontal distance between the rear lot line and a line parallel to it at the building line.

Runoff. Water or liquid that is not absorbed by the soil or landscape to which it is applied and flows from the area.

Site specific plant. A selection of plant material that is particularly well suited to withstand the physical growing conditions that are normal for a specific location.

Soil texture. The classification of soil based on the percentage of sand, silt, and clay in the soil.

Structural soil. A soil medium, which is designed to meet or exceed pavement load bearing requirements while remaining root penetrable and supportive of tree growth.

Temporary irrigation. An irrigation system that is used to establish native and adapted plants species and is removed after a one year establishment period.

Turf or turf grass. Continuous plant coverage consisting of grass species suited to growth in the city.

Valve. Device used to control the flow of water in the irrigation system. Visibility triangle.

(1) Intersections where an alley intersects a public street right-of-way. The areas on both sides of the intersection of an alley and a public street shall have a triangular visibility area with

Unedited First Draft

two sides of each triangle being a minimum of ten feet in length from the point of intersection, and the third side being a line connecting the ends of the other two sides.

(2) Street intersection or intersection of private driveway onto a public street. These areas shall have a triangular visibility area with two sides of each triangle being a minimum of 25 feet in length along the right-of-way lines (or along the driveway curbline and the street right- of-way line) from the point of the intersection, and the third side being a line connecting the ends of the other two sides.

Water use zone. A grouping of sprays, sprinklers, or micro-irrigation emitters so that they can be operated simultaneously by the control of one valve according to the water requirements of the plants used.
(Code 1996, § 15.02.007; Ordinance O-08-13 adopted 5/7/13)

Sec. 15.02.003. Applicability and scope.

(a) The landscaping standards and criteria contained within this article are deemed to be minimum standards and shall apply to all new developments and existing developments that are expanding or redeveloping thirty percent (30%) or more land or building or both within the city. HOAs and CCRs for residential developments shall not overrule the provisions of this article by penalizing or restricting water conserving landscapes or requiring landscape materials that do not comply with this article.

(b) Any new fence, wall, boundary enclosure, or screening device erected or altered in the city shall be in conformance with the standards and requirements of this article. Any fence constructed prior to the adoption of this article shall be required to be in compliance with this article whenever the fence is repositioned, upgraded, or replaced. Regular maintenance of a fence erected prior to the adoption of this article that costs more than 50% of the total market price of the fence shall be required to be in compliance with this article. A pre-existing nonconforming fence that has become unsafe, dilapidated, or a public nuisance, then the nonconforming fence shall be repaired or replaced in compliance this article and any permits required by the city.
(Code 1996, § 15.02.003; Ordinance O-08-13 adopted 5/7/13)

Sec. 15.02.004. Conflict and compliance.

In the event of conflict between this article and other laws, the most restrictive standard applies.
(Code 1996, § 15.02.004; Ordinance O-08-13 adopted 5/7/13)

Sec. 15.02.005. Enforcement.

The provisions of this article shall be administered and enforced by the code enforcement officer of the city as appointed by the city manager or his/her designee.

(1) Violation. Failure to comply with the provisions of this article shall constitute a violation of this article. Every day a violation occurs or continues to occur, shall constitute a separate offense.

(2) Penalty. Any person, firm or corporation who violates any provision of this article shall be guilty of a misdemeanor and shall be punished by a fine upon conviction in an amount not to exceed $500.00.
(Code 1996, § 15.02.005; Ordinance O-08-13 adopted 5/7/13)

Sec. 15.02.006. Waiver.

Unedited First Draft

Request for a waiver from any provision of this article shall be processed in the manner provided by article 15.05 of this chapter.
(Code 1996, § 15.02.006; Ordinance O-08-13 adopted 5/7/13)

Sec. 15.05.001. Variance and special exceptions.

A person seeking a variance or special exception to any of the requirements of this chapter shall submit a written application for such variance or special exception to the board of adjustment as provided in city zoning regulations. The city zoning board of adjustment is granted authority to determine such applications for variance or special exception.
(Code 1996, § 15.05.001;Ordinance O-03-20 adopted 5/5/20)

ARTICLE II. REVIEW AND INSPECTIONS

Sec. 15.02.031. Review process.

The required landscape documents as outlined under section 15.02.032 of this article shall be submitted for review with the complete site plan application required by the city's zoning concept plan and site plan review process. Permits for building, paving, utilities, or construction shall not be issued prior to an approval and construction release of required landscape documents by the city.
(Code 1996, § 15.02.031; Ordinance O-08-13 adopted 5/7/13)

Sec. 15.02.032. Landscape and irrigation plan requirement.

(a) Qualifications to prepare plans. For all lots greater than or equal to one acre, landscape plans shall be prepared by a registered landscape architect. For lots less than one acre, a landscape designer or landscape contractor, knowledgeable in plant materials and landscape design may prepare the landscape plan. Irrigation plans shall be prepared by a licensed irrigator or professional engineer

(b) Landscape plan requirements. Proposed landscape plans shall be prepared by a landscape architect (if applicable), be submitted on (24"x36") sheets of paper and shall include the following information:

(1) Acceptable scale: 1" = 10', 1" = 20', 1" = 30', or as approved.

(2) North arrow, graphic and written scale.

(3) Appropriate title (i.e. landscape plan).

(4) Title block, including street address, legal description, and date of preparation.

(5) Name and address of owner.

(6) Name, address and telephone number of person preparing plan.

(7) Property line shown with dimensions.

(8) Existing utilities (water, sewer, storm drain, gas, electric, cable television, etc.).

(9) Width and type of bufferyards labeled on all sides.

Unedited First Draft

(10) Location, caliper size and species of all existing trees 6" caliper or greater which are to be preserved.

(11) Location of all plants and other landscape materials, a legend with botanical and common names, and sizes of plant materials.

(12) Size of all plant material to be used at time of planting, appropriate spacing shall be indicated on plan.

(13) Details and specifications for tree planting, soil preparation, and other applicable planting work.

(14) Landscape tabulations showing how landscape requirements have been met.

(15) Maintenance note.

(16) Label type of any enhanced pavement proposed.

(17) Visibility triangles shown.

(18) Seal and dated signature of landscape architect (if applicable).

(19) Soil analysis.

(c) Irrigation plan requirements. A detailed irrigation plan shall be prepared by an irrigator or professional engineer, at a scale that matches the landscape plan and shall be submitted on (24"x36") sheets of paper that include the following information:

(1) Acceptable scale: 1" = 10', 1" = 20', or 1" = 30', or as approved (must be at same scale as landscape plan).

(2) North arrow, graphic and written scale.

(3) Appropriate title (i.e. “irrigation plan”).

(4) Title block including street address, legal description, and date of preparation.

(5) Name and address of owner.

(6) Name, address and telephone number of person preparing plan.

(7) Property line with dimensions.

(8) All pipes labeled as to size.

(9) All sprinkler heads labeled as to type (key is acceptable).

(10) Backflow prevention device labeled with type and size.

(11) Location of water meter and connection to water service.

Unedited First Draft

(12) Legend summarizing the type and size of all components of the system, including manufacturer name and model numbers.

(13) Static water pressure in pounds per square inch at the point of connection to the public water supply.

(14) Flow rate in gallons per minute and design operating pressure in pounds per square inch for each valve.

(15) Seal of a licensed irrigator or professional engineer.

(16) Topography.

(17) Meter and point of connection.

(18) Installation details for irrigation components.

(19) Any existing utilities (water, sewer, storm drain, gas, electric, cable television, etc.).

(20) Note indicating that installation must be inspected by the city's certified irrigation inspector.

(21) Maintenance note.

(d) Other irrigation requirements. The city encourages water conservation through the use of native or adapted plant materials. Landscaping using plants from approved plant list (section 15.02.122) designated as having low water demand (LW) do not require permanent irrigation. Temporary irrigation may be necessary during the initial period of plant establishment. Landscapes using nonnative species or a mixture of native and nonnative species require an irrigation system to maintain plant viability. The city's licensed irrigation inspector has the ultimate authority to determine whether an irrigation system is required or not. Irrigation systems should be installed with rain sensors and drip irrigation to promote efficient use of water.
(Code 1996, § 15.02.032; Ordinance O-08-13 adopted 5/7/13)

Sec. 15.02.033. Maintenance.

(a) General. The owner, and tenant, if any, shall be jointly and severally responsible for the maintenance of all landscaping and irrigation. All required landscaping shall be maintained in a neat and orderly manner at all times. This shall include mowing, edging, pruning, fertilizing, watering, weeding, and other such activities common to the maintenance of landscaping. Landscaped areas shall be kept free of trash, litter, weeds and other such material or plants not a part of the landscaping. All plant materials shall be maintained in a healthy and growing condition as is appropriate for the season of the year. All irrigation heads or lines that are broken and flow water shall be replaced or repaired immediately to prevent the waste of water.

(b) Plant replacement. The owner or tenant shall be responsible for replacing all plant materials displaying dead branching over 75 percent or more of the normal branching pattern. Plant materials which die shall be replaced with plant material of similar variety and similar initial size. The owner or tenant shall make such necessary replacements within 30 days of notification by the city to replace any plant. The owner or tenant shall maintain all irrigation system equipment so as to avoid damage to any

Unedited First Draft

landscaping caused by lack of irrigation.
(Code 1996, § 15.02.033; Ordinance O-08-13 adopted 5/7/13)

Sec. 15.02.034. Inspection.

After installation of any approved landscape plan, the city's certified irrigation inspector shall inspect and approve the installation prior to the issuance of a certificate of occupancy for any building on the property. It is the owner's responsibility to request an inspection prior to the issuance of a certificate of occupancy. If a certificate of occupancy is sought during a time of year in which the city determines that it would be impractical to plant trees, shrubs or grass, or install turf, the owner shall place in escrow with the city a sum of money equal to the cost of installing all or the remaining portion of the approved landscaping. Under such circumstances the landscaping as shown and approved on the landscape plan shall be installed within five months of final acceptance of the development by the city or issuance of the first certificate of occupancywithin the development.
(Code 1996, § 15.02.034; Ordinance O-08-13 adopted 5/7/13)

Sec. 15.02.035. through Sec. 15.02.060. (Reserved)

ARTICLE III. LANDSCAPING STANDARDS AND SPECIFICATIONS

Sec. 15.02.061. General provisions.

(a) For purposes of establishing compliance with the minimum area requirements for landscaping in this article, no land within the 100-year floodplain shall be used to determine the total area of the site, nor shall be counted as fulfilling the minimum landscape area requirements.

(b) The best professional practices of the American Society of Landscape Architects, the International Society of Arboriculture and the American Nursery and Landscape Association regarding planting, installation, trimming, and fertilization, shall be followed as a guiding principle.

(c) Nursery standards shall meet the current American Standard for Nursery Stock.

(d) Tree planting standards.

(1) Tree plantings shall not include more that forty-five percent (45%) of the same tree species.

(2) Trees shall not be planted within four feet of any right-of-way (ROW) concrete pavement, utility lines, screening walls, or others structures unless approved by the city.

(3) Trees and shrubs shall not overhang or encroach upon walkways, drives, parking areas, and traffic signs to the extent that they interfere with the intended use of these facilities.

(4) Tree limbs shall be trimmed up to a height of at least eight feet above the sidewalk level. Tree limbs which overhang the public street shall be trimmed to the height of at least 13 feet above the street level.

(e) Plant materials.

(1) Quality standard. All plant material shall be of no. 1 grade, free from plant disease, of typical growth for the species, have a healthy, normal root system, rounded branching pattern, and shall conform

Unedited First Draft

to the code of standards set forth in the current edition of the American Standard for Nursery Stock.

(2) Plant materials. Shall be appropriate for the region and local soil conditions and shall be planted in accordance with good horticultural practice. Plants selected should require only low maintenance and should be temperature and drought tolerant. The applicant is encouraged to refer to the Texas Smartscape website (www.txsmartscape.com) for additional information on native and adapted species.

(3) Tree measurement. Canopy and understory trees with single trunks shall be measured by caliper size one foot above the ground line. Multi-trunk trees shall be measured by the height of the tree.

(f) Plant size and materials. Size of plant material at the time of installation shall comply with section 15.02.121 plant material size standards and the list of approved plant material provided in section 15.02.122 approved plant list.
(Code 1996, § 15.02.061; Ordinance O-08-13 adopted 5/7/13)

Sec. 15.02.062. Landscaping design requirements.

Landscaping practice on all nonresidential (including multifamily and manufactured home zoned properties) applicable properties shall follow the 'seven steps of Xeriscape' principles as outlined below in subsection (8) to achieve the stated purpose and intent of this article (section 15.02.002). Compliance with these "Xeriscape principles" is optional for all single-family residentially zoned applicable properties.

(1) Site planning and design. Site plans shall identify all vegetated areas to be preserved. Installed trees and plant materials shall be grouped together into zones according to water use needs. The water use zones shall correlate to the water use zone designations of plants listed in the recommended plant list (section 15.02.122) of this article. Plants with similar water and cultural (soil, climate, sun, and light) requirements should be grouped together and irrigated based on their water requirements. The water use zones shall be shown on the landscape plan. Newly installed plants may require regular, moderately applied watering for the first year to become established. Installed trees and vegetation shall be spaced and located to accommodate their mature size on the site. The water use zones are as follows:

(A) High water use zone (HW). High water use zone shall be limited to a maximum of fifty percent (50%) of the total required landscaped area. Plants and turf types within this area are associated with moist soils and require supplemental water in addition to natural rainfall to survive. This zone includes shallow rooted turf grass varieties.

(B) Moderate water use zone (MW). Plants within this zone survive on natural rainfall with supplemental water during seasonal dry periods. This zone includes deep-rooted turf grass varieties. This zone sometimes is referred to as rainwater harvest zone where landscape areas are strategically located to capture and utilize stormwater runoff as a source of water for trees and other landscape plants. Following design principles shall be used for rainwater harvesting:

(i) Design bio-retention beds, rain gardens, and filter strips etc. to capture runoff from impervious surfaces pursuant to iSWM guidelines.

a. Coordinate with civil drainage and storm sewer plans and provide detention volume calculations subject to the director of public works' approval.

b. Locate trees and other appropriate plants that are adapted to flood and drought conditions.

Unedited First Draft

c. Wheel stops or curb cuts shall be provided to allow stormwater to flow into rainwater harvest areas.

(ii) Design a system that stores and reuses stormwater in a pressurized irrigation system subject to the director of public works' approval. Retention ponds shall not count toward landscaping area requirements.

(C) Low water use zone (LW). Plants within this zone survive on natural rainfall without supplemental water. This zone is designed with landscapes that emulate indigenous plant communities and select and locate appropriate plants that are adapted to the conditions of the site and do not require supplemental water from irrigation, except for establishment and periods of extreme drought. Because of the relatively high water requirements of turf grass, no presently available varieties are included in this category. Impervious surfaces and materials within a landscaped area shall be limited to borders, sidewalks, step-stones, and other similar materials not to exceed twenty percent (20%) of the total required landscaped area.

(2) Soil analysis.

3

(A) Soils will vary from site to site and even within a given site. A soil analysis based on random sampling is required and will provide information that will enable proper selection of plants and, if needed, soil amendments. When appropriate, soil amendments can enhance the health and growing capabilities of the landscape by improving water drainage, moisture penetration, and a soil's water and nutrient holding capacity.

(B) A soil analysis satisfying the following conditions shall be submitted as part of the landscape plan.

(i) Determination of soil texture, indicating the percentage of organic matter.

(ii) An approximate' soil infiltration rate (either measured or derived from soil texture/ infiltration rate tables). A range of infiltration rates should be noted where appropriate.

(iii) Measurement of ph and total soluble salts.

(C) The soil tests may be done prior to submittal for site plan review. It is the responsibility of the applicant to have the soil test analyzed. The applicant shall deliver a copy of the "official" soil test information to the city's planning and permit division as part of the site plan submittal. The applicant shall note on the submitted plans the types of soil found on the site and the specifications for soil amendments. When feasible, community generated solid waste compost materials may be utilized.

(3) Appropriate plant selection. Plant selection should be based on the plant's adaptability to the landscape area, desired effect, color, texture, and ultimate plant size. Plants shall be grouped in accordance with their respective water and maintenance needs. Plant material shall be selected that is best suited to withstand the soil and physical growing conditions which are found in the microclimate of each particular location on a site. Plant species that are freeze and drought tolerant are preferred plants having similar water use shall be grouped together in distinct water use zones.

(4) Using turf wisely.

Unedited First Draft

(A) The type, location, and shape of turf areas shall be selected in the same manner as with all the other plantings. Turf shall not be treated as a fill-in material but rather as a major planned element of the landscape. Since many turf varieties require supplemental watering at frequencies different than the other types of landscape plants, turf shall be placed so that it can be irrigated separately. While turf areas provide many practical benefits in a landscape, how and where it is used can influence water use. The use of drought tolerant turf is preferred over the traditional turf grass varieties. If drought tolerant varieties are used, then turf areas are considered as part of the moderate water use zones thereby increasing ground coverage limits as set forth in this section above. Large turf areas, not subject to erosion, such as playfields, may be grassed with methods other than sod if previously approved during plan review.

(B) Turf grass areas shall be consolidated and limited to those areas on the site that receive pedestrian traffic, provide for recreation use, or provide soil erosion control such as on slopes or in swales and where turf grass is used as a design unifier, or other similar practical use. Turf areas shall be identified on the landscape plan.

(5) Efficient irrigation. If a landscape requires regular watering or if an irrigation system is desired, the system should be well planned and managed. Water can be conserved through the use of a properly designed and managed irrigation system. The irrigation system shall be designed to correlate to the organization of plants into zones as described in this section above. The water use zones shall be shown on the irrigation plan. Irrigation shall be required as follows:

(A) High water use zone. All portions of high water use zones shall be provided with central automatic irrigation systems.

(B) Moderate water use zone. All portions of moderate water use zones shall be provided with a readily available water supply within 25 feet.

(C) Low water use zone. All portions of low water use zones shall be provided with a readily available water supply within 50 feet.

(D) Retained trees, shrubs and native plant communities shall not be required to be irrigated, unless determined necessary by the planning and permit division of the city.

(E) Turfgrass areas shall be irrigated on separate irrigation zones from tree, shrub, and ground cover beds.

(F) Reclaimed or nonpotable water may be used for irrigation if an acceptable source is determined to be available by the public works director of the city.

(G) Moisture sensor or rain shut-off switch equipment shall be required on automatic irrigation systems to avoid irrigation during periods of sufficient rainfall. Said equipment shall consist of an automatic mechanical or electronic sensing device or switch which will override the irrigation cycle of the sprinkler system when adequate rainfall has occurred.

(H) The use of low volume emitters or target irrigation is required for trees, shrubs and ground covers so as to minimize irrigation overthrow onto impervious surfaces.

(6) Use of mulches.

(A) Mulches applied and maintained at appropriate depths in planting beds will assist soils in

Unedited First Draft

retaining moisture, reducing weed growth, and preventing erosion. Mulch can also be used in places where conditions aren't adequate for, or conducive to, growing quality turf or ground covers. Mulches are typically wood bark chips, wood grindings, pine straw, nutshells, small gravel, and shredded landscape clippings.

(B) A layer of organic mulch to a minimum depth of 3" shall be specified on the landscape plans in plant beds and around individual trees in turf grass areas. Mulch shall not be required in annual beds.

(7) Appropriate maintenance. A regular maintenance schedule shall be submitted as part of the landscape plan. Landscaping shall be maintained to ensure water-efficiency. A regular maintenance schedule shall include but are not be limited to checking, adjusting, and repairing irrigation equipment; resetting the automatic controller according to the season; aerating and dethatching turf areas; replenishing mulch; fertilizing; pruning, and weeding in all landscaped areas. Repair of irrigation equipment shall be done using the originally specified materials or their equivalents.

(8) Seven steps of Xeriscape.

(A) Planning and design. These are two principle elements to a seven step Xeriscape design, the site analysis and the planting plan.

(i) Group plants with similar water requirements.

(ii) Increase shade areas to decrease the water needs of plants.

(iii) Preserve areas of native vegetation.

(B) Soil analysis. Add organic, matter to flower or vegetable gardens before planting to increase the water retention ability of the soil.

(C) Appropriate plan selection.

(i) Select plants appropriate for the soil.

(ii) Natural zone plants require only natural rainfall.

(iii) Drought-tolerant zone plants require minimal irrigation.

(iv) Oasis zone plants require frequent watering. Limit these areas as much as possible.

(D) Using turf wisely. Consolidate area or consider alternatives to ease maintenance and water requirements.

(E) Efficient irrigation.

(i) Set the time on each irrigation zone to correspond to the needs of the plants grouped within that zone.

(ii) Check the system weekly to ensure it is operating properly.

(F) Use of mulches.

Unedited First Draft

(i) Use mulches for walkways as well as within the planting beds.

(ii) Mulches reduce watering needs, weeds, erosion, etc.

(G) Appropriate maintenance.

(i) Water and fertilize plants only as needed. Excessive amounts promote pest problems and increases pruning and mowing requirements.

(ii) Raise lawn mower blade(s) to promote more extensive root growth.

(iii) Prune shrubs to natural height and shape.
(Code 1996, § 15.02.062; Ordinance O-08-13 adopted 5/7/13)

Sec. 15.02.063. Landscaping area and location requirements.

Landscaping requirements on a site is divided into three groups, interior landscaping, parking lot landscaping, and perimeter landscaping where applicable. Perimeter landscaping requires landscaped buffer yards to provide visual and physical buffer from site features such as parking lots, high intensity use from low intensity use and between conflicting zoning districts, for example where residential zoning district abuts nonresidential zones.

(1) Interior landscaping.

(A) Residential.

Residential Zoning District	*Tree Requirements**	*Landscaped Area Requirements*
SF-E	Minimum 5 large shade trees and 3 medium shade trees	30% of total lot area
SF-1	Minimum 3 large shade trees and 2 medium shade trees	20% of total lot area
SF-2, SF-3, SF-4	Minimum 2 large shade trees and 2 medium shade trees	20% of total lot area

(B) Residential subdivisions - developer installed landscaping. All new homes shall follow the interior landscaping requirements as provided in subsection (A) above. All basic landscape packages installed by the developer for individual lots shall be drought tolerant and able to survive stage three drought restrictions pursuant to the city's drought contingency plan. Bermuda will be allowed as a drought tolerant turf; however, alternative drought tolerant grasses which will remain green while using 50% less water shall be offered as an option. Developer shall provide landscape water conservation information to all new homeowners.

(C) Nonresidential (including multifamily and manufactured home park).

Residential Zoning District	*Tree Requirements**	*Landscaped Area Requirements*
O - office, NS - neighborhood services	Minimum 1 shade tree per 10,000 square feet of lot area	20% of total lot area
R - Retail, TC - town center	Minimum 1 shade tree per	20% of total lot area

Unedited First Draft

	10,000 square feet of lot area	
C - commercial	Minimum 1 shade tree per 7,000 square feet of lot area	30% of total lot area
I - industrial	Minimum 1 shade tree per 5,000 square feet of lot area	30% of total lot area

* Trees shall be selected from the approved plant material list (section 15.02.122).

** 50% of required landscaping area shall be located in the designated front yard.

(2) Perimeter landscaping. Perimeter landscaping is required when any nonresidentially zoned property (including multifamily and manufactured home zoned properties) or any nonresidential use abuts a residentially zoned property or use. Perimeter landscaping shall be installed within the property limits of the nonresidentially zoned property. Landscaping shall be installed and maintained by the property owner of the more intensive use. Any parking lot of more than 30 parking spaces within private property shall provide minimum ten feet (10') wide perimeter landscaping on three sides (excluding driveways and entry/exit points) except the parking lot side adjacent to the primary building. Perimeter landscaping area cannot be counted towards interior landscaping area requirements. Trees can be informally grouped and shall follow the Xeriscape design principles as outlined in section 15.02.062. Perimeter landscaping may contain moderate water use zones as defined in section 15.02.062. Perimeter landscaping is not required when the stated more intense zoning or use is separated by a thoroughfare or a major arterial street from the residentially zoned use or district.

[GRAPHIC - Perimeter landscaping]

Zoning District/use abutting Residential zoning/use	*Perimeter Landscape Width*	*Tree Requirements**
O - office, NS - neighborhood services	Minimum 10'	Minimum 1 shade tree and 10 shrubs per 35 linear feet of lot length adjoining the residential zoned lot
R - Retail of C - commercial or TC - town center	Minimum 15'	Minimum 1 shade tree and 12 shrubs per 35 linear feet of lot length adjoining the residential zoned lot
I - industrial	Minimum 15'	Minimum 1 shade tree and 12 shrubs per 35 linear feet of lot length adjoining the residential zoned lot

(3) Parking lot interior landscaping.

(A) For parking lots with less than 30 parking spaces, planter islands shall be provided in parking areas with a minimum of 15 square feet of landscape area for each parking space. Planter islands should have a minimum area of one hundred and fifty square feet (150 sq. ft.). Each row of parking stalls shall provide the required landscape area; however in situations where it would be beneficial to combine more

Unedited First Draft

than one islands into a larger island may be considered by the applicant and shall be reviewed by the city for approval. Planter islands shall have a minimum width of 8 feet back to back, if curbed, or 9 feet edge to edge if no curb is provided. Parking lot landscaping does not count toward the total required interior landscape area.

A minimum of fifty percent (50%) of all planter islands in parking areas shall contain a minimum of one large/medium shade tree with the remaining area in shrubs, ground cover, grasses or seasonal color. Planter islands which have light poles may substitute two understory/accent trees for the required canopy tree. If the parking lot faces a thoroughfare or major arterial (as defined in the city's thoroughfare plan) then perimeter landscaping buffer shall be installed as stated in subsection (2) above.

(B) For parking lots with more than 30 parking spaces following design standards including area, location and layout guidelines shall be followed:

(i) A continuous nine feet (9') wide landscaping strip of moderate water use zone or rainwater harvest zone shall be installed within two head-in parking rows. On both sides of the rainwater harvest zone a six feet wide at-grade paved walkway shall be installed for the entire row of the parking. This paving material should be porous in nature to support natural stormwater infiltration. Site grading and slope should be designed such that stormwater should naturally drain into these rainwater harvest zones. To support the landscaping during no-rain seasons, drip irrigation should be installed in these landscaping strips. Wheel stops shall be installed next to the paved walkways to prevent cars entering the pavement or landscaping. The overall layout and design principle of parking lot landscaping is shown in the graphics below.

(ii) One medium shade tree every ten feet (10') shall be installed in the continuous landscape strip with drought tolerant ground cover at the base.

(iii) Approximately at the midway of the parking aisle and at both ends, landscape islands shall be installed as shown in the graphics below.

(iv) Water usage in parking lot landscaping shall be restricted to seasons when rainwater is not abundant. Drip irrigation shall be installed to prevent water wastage.

[GRAPHIC - Drip irrigation diagram]

(Code 1996, § 15.02.063; Ordinance O-08-13 adopted 5/7/13)

Sec. 15.02.064. Incentives.[158]

(a) Any state licensed landscape professional or licensed irrigator or landscape contractor who attends a water-efficient landscaping workshop or short course organized by any agency recognized by the city shall receive a ten percent (10%) reduction of their occupational license fee upon their next renewal date.

(b) Any development/landscape plan which incorporates the minimum water-efficient design principles and standards established by this article will be granted special staff consideration and will be expedited through the landscape review portion of the site-plan review process.

---

[158] **Sec. 15.02.064. Incentives.** Is the correct percentage here 10% or 20%?

Unedited First Draft

(c) In addition to a streamlined processing, any development/landscape plan which exceeds the minimum water-efficient design principles and standards established by this article will receive ten percent (20%) reduction in the city permit application fee.

(d) Any individual homeowner or resident who is not required to submit a development/landscape plan, yet voluntarily applies the minimum water-efficient design principles and standards established by this article will be eligible for a twenty percent (20%) reduction applied as a credit against their monthly water consumption charges, provided that the landscaped areas continue to comply with the minimum maintenance requirements and the total monthly water consumption is reduced by minimum ten percent (10%) as calculated on an annual average consumption rate. To be eligible for this credit the water efficient design principles and standards as proposed by the homeowner/resident needs to be submitted to the city's planning and permit division for review. Once the landscape and irrigation plan are approved by the city, the credit in water fee shall be effective after 6 months of landscaping installation once the reduction in water consumption has been established in gallons. The credit shall be applicable for the six-month (6) evaluation period as well and will be prorated back. This incentive shall be offered for maximum three years to any particular property.
(Code 1996, § 15.02.064; Ordinance O-08-13 adopted 5/7/13)

Sec. 15.02.065. through Sec. 15.02.090. (Reserved)

ARTICLE IV. FENCE AND SCREENING STANDARDS AND SPECIFICATIONS

Sec. 15.02.091. General provisions.

(a) Acceptable materials. Acceptable materials for constructing fence and screening device include wood, stone, preformed concrete block, concrete, brick, masonry, natural and treated woods, ornamental metal or wrought iron, and vinyl.

(b) Prohibited materials.

(1) Chainlink fence shall only be permitted in agricultural (A) zoning districts for the following uses:

(A) Electrical transmission line.

(B) Farm, ranch, garden, orchard.

(C) Railroad track or right-of-way.

(D) Sewage pumping station.

(E) Stable or barn, private.

(F) Telephone exchange, switching, relay or transmission station.

(G) Water pumping station.

(2) Corrugated metal panels or materials having similar properties shall not be permitted.

(3) Barbed wire fences are prohibited in the city except in agricultural (A) zoning districts for the

Unedited First Draft

following uses:

(A) Farm, ranch, garden, orchard.

(B) Stable or barn, private.

(4) Except as provided below, electrical fencing is prohibited within the city:

(A) Electric fences and fence charging devices are allowed only in within industrial (I) and agricultural (A) zoning districts in conjunction with agricultural and related activities for the purposes of containing horses and livestock, or for the security of crops grown on the premises, and shall be plainly labeled for ease of identification.

(B) Must be located at least six inches inside a nonelectric fence.

(C) Shall be underwriter laboratories (UL) listed and installed and maintained as per manufacturer's instructions.

(D) Shall have posted signs on all sides spaced at not more than fifty (50) foot intervals: "Danger, electric fence."

(E) Electric fences not in compliance with the above are hereby declared a nuisance per se and must be immediately removed.

(c) Temporary fences. Temporary fences are required for properties under construction, demolition, repair, or maintenance with the following standards:

(1) Property undergoing new construction.

(A) Prior to the initiation of construction and upon obtaining a required fence permit, a temporary security fence of six feet is required to be erected with sufficient anchoring to secure the new construction site.

(B) The temporary security fence is to be removed after the construction completion and prior to occupancy of the site.

(2) Property undergoing demolition or repair or maintenance.

(A) Prior to the initiation of demolition, dismantling, removing, or extensively (as determined by development review committee) repairing of a building or structure abutting a street, alley, or sidewalk; and, upon obtaining a required fence permit, protection in the form of a temporary security fence shall be provided for the site being affected.

(B) For buildings exceeding forty (40) feet in height, the temporary security fence installed with sufficient anchoring shall not be less than four feet high with approved and appropriate cautionary signage, barricades or ribbon taping. The fence shall be minimum seven feet (7') away from the building line. The temporary security fence shall be removed after completion of the demolition or repair.

(C) For buildings exceeding forty (40) feet in height, the temporary security fence shall not be less than six feet high and shall be located minimum fifteen feet (15') away from the building line. Where such

Unedited First Draft

protection is located, a special acknowledgement shall be noted on the issued permit.

(d) All mandatory or permitted fencing/screening shall be erected and maintained so as not to interfere with or obstruct the view of traffic or constitute a traffic hazard on any public or private street, alley or driveway.

(e) No fence, screen, wall, or other visual barrier shall be so located or placed that it obstructs the vision of a motor vehicle driver approaching any street or roadway intersection.

(1) Where an alley intersects with a street, no fence or plant taller than 30 inches may be placed within a sight visibility triangle.

(f) All required screening walls shall be equally finished on both sides of the wall.

(g) No person shall place, erect, install, build, construct, add as a repair item, use or maintain any fence or barrier with spikes or nails or any other sharp objects imbedded on the top or sides of a fence or barrier within any zoning district of the city.
(Code 1996, § 15.02.091; Ordinance O-05-20 adopted 5/5/20)

Sec. 15.02.092. Permit required and application process.

If applicable per section 15.02.003, permit is required to construct, repair, or replace a fence or any part of a fence within the city. A permit application and any required fees shall be submitted to the city along with structural drawings, plans, and specifications with the seal and stamp of a licensed professional engineer. The city's planning and permit department will review the application and process it through plan review process. Permits are valid for 160 days upon approval. Construction shall begin within 90 days from the date of issuance of the permit. If construction does not commence within 90 days from the date of issuance of any permit, the permit shall become null and void and a new permit application shall be required. The city's planning and permit division staff may extend the time for construction for the applicant for a period not exceeding 90 days on written request by the applicant showing that circumstances beyond the control of the applicant have prevented action from being taken. No applications shall be granted more than one extension and in no instance shall an extension exceed the original expiration date of the permit issued. The city may, in writing, suspend or revoke a permit issued under the provisions of this chapter when the permit was issued in error, on the basis of incorrect information, or in violation of any applicable law.
(Code 1996, § 15.02.092; Ordinance O-08-13 adopted 5/7/13)

Sec. 15.02.093. Material and construction detail.

All fences and screening devices, whether required or optional, shall be constructed in the manner described below:

(1) Wooden fence.

(A) Fence planks or panels must be at least five-eighths of one inch (5/8") in thickness.

(B) Fence picket material cannot be pine; must be either spruce or cedar.

(C) If adjacent to any public street, a wooden fence shall have its backside oriented away from public view. For the purposes of this section, the backside of the fence shall be the side with exposed posts or

Unedited First Draft

rails.

(D) Metal vertical posts shall be spaced every 6'–8' center to center.

(E) Vertical slats shall be nailed or screwed to horizontal bracing stringers (bottoms and top nailer boards) running from vertical post to post. One stringer will be required for every two feet (2') in height. The stringers shall be bolted to steel posts with noncorrosive metal anchor straps and one-fourth (1/4") noncorrosive bolts or screws.

(F) All nails or fasteners shall be of nonrusting, noncorrosive metal such as hot dipped galvanized steel. All nails or fasteners shall be of the type (such as screw shank or, ring shank) that when properly driven will not work free due to wind, vibration, or shrinkage of members.

(G) In no case, however, shall ground-to-fence separation exceed four inches (4").

(2) Masonry walls, fences and screening devices shall be limited to the following materials and standards:

(A) Materials. Brick, stone or decorative, split-face block, or reinforced concrete wall provided it has a finished appearance similar to masonry.

(B) Masonry columns shall be spaced a maximum of twelve feet (12') apart on-center (o.c.); the capstone of columns shall not exceed nine feet (9') in height; columns shall extend at least eight inches (8") above the remainder of the screening wall; and, columns shall extend horizontally at least three inches (3") from the vertical plane of the wall.

(C) Masonry walls and their foundations shall be engineered and have the certification or seal of a state registered engineer.

(D) It is intended that all masonry walls erected pursuant to this section be constructed in such a manner to last 30 years with minimal maintenance required during said period and are resistant to sunlight and moisture.

(3) Wrought iron or tubular steel, provided that shrubs are placed within two feet (2') parallel to the fence and planted three feet (3') on center the entire length of the fence.
(Code 1996, § 15.02.093; Ordinance O-08-13 adopted 5/7/13)

Sec. 15.02.094. Fence and screening requirements in residential zoning.

(a) Developer installed screening in single-family subdivisions. The developer of all single- family detached and two-family attached duplex residential development shall be required to construct a continuous solid masonry screening wall of eight feet height surrounding the subdivision with openings at designated entry exit points or at roadways passing through the subdivision. The material and standards shall conform to section 15.02.093(2). The developer shall construct these walls at his sole expense in accordance with the standards set forth below.

(1) Structural plans and specifications for subdivision masonry screening wall are to be submitted at the same time as construction plans for other subdivision infrastructure improvements are required. Said plans and specifications shall be prepared and sealed by a registered professional engineer and shall consider the site’s soil characteristics, wind loadings, and other environmental considerations.

Unedited First Draft

(2) All masonry screening walls shall be placed at least nine feet from any existing or proposed city water line. To provide the nine feet distance, if needed, the developer shall be required to provide up to an additional nine feet of right-of-way.

(3) All masonry screening walls required herein shall be placed on or within private property and outside of the public right-of-way.

(4) A plat note describing the location of the proposed masonry wall shall be included on the preliminary plat and the final plat. A fence schematic shall be provided along with the final plat.

(5) Prior to the city's issuance of a final certificate for residential occupancy, the developer must complete the subdivision screening wall required herein. The walls are permitted to be developed in phases as they are final platted.

(6) It shall be the responsibility of any person, firm, corporation, or other entity who shall own or occupy any lot or lots on which a screening wall was constructed pursuant to the terms of this article to adequately maintain the wall and to prevent it from becoming dilapidated or unsightly.

(b) Fence and screening regulations in residential zoning. A fence is not required for residential property abutting residential property. If a fence is installed by property owner for privacy or security reasons then a wooden or decorative wrought iron fence not-to-exceed six feet is allowed only in the designated rear yard and side yard with a side-yard fence not extending beyond the actual front building line. Wooden fences must meet the requirements set forth in section 15.02.093(1). When a rear or side yard of a residential property is adjacent to a public right-of-way then a continuous solid masonry screening wall not to exceed six feet height or a wooden fence not to exceed six feet in height is required to be installed along the side and rear yard of the residential property. Design and construction of such a wooden fence or masonry wall shall follow standards set forth in section 15.02.093(1) and (2) respectively of this article.

(c) Fence and screening regulations in nonresidential zoning (including multifamily and manufactured home zoning district).

(1) A minimum six feet tall solid masonry screening wall is required on any nonresidential property adjacent to residential property. The masonry wall shall be constructed at the sole expense of the property owner or tenant of the nonresidentially zoned (including multifamily and manufactured home park) property and shall be maintained by the same. Design and construction of such a masonry wall shall follow standards set forth in section 15.02.093(2) of this article. If the screening fence is required to screen a multifamily use from a single-family residential use or any nonresidential use, the fence shall be comprised of brick only and installed and maintained by the property owner/tenant of the property with the more intensive use.

(2) When a nonresidential property is adjacent to a public right-of-way, no screening is required except in order to screen mechanical equipment, trash receptacle, outdoor storage, or loading area in accordance with sections 15.02.096, 15.02.097, 15.02.098, or 15.02.099 as applicable.

(3) Any industrial use or industrial (I) zoned property shall have a solid, opaque masonry screening wall on all three sides except the side or sides facing the public right-of-way. The height of this wall shall be between eight feet (8') and twelve feet (12'). The material and standards shall conform to section 15.02.093(2).

Unedited First Draft

(Code 1996, § 15.02.094; Ordinance O-08-13 adopted 5/7/13)

Sec. 15.02.095. Fence and screening construction within easements.

(a) The city or any utility company may require the removal of any fence built upon a drainage or utility easement. The owner of the fence shall be responsible for the removal and rebuilding of the fence at the owner's expense.

(b) The owner of a fence shall be responsible for the design, construction and maintenance of the fence and shall be so as not to interfere with utility lines or normal drainage.

(c) Permission to build a fence upon a utility easement may only be granted by the city's public works director.

(d) Where a fence is to be placed in an easement containing underground utilities the owner or occupant shall sign a release indemnifying the city from any damages for removal of the fence and damage to the fence as a result of the need to repair or replace said utilities.
(Code 1996, § 15.02.095; Ordinance O-08-13 adopted 5/7/13)

Sec. 15.02.096. Mechanical equipment screening.

Solid, opaque screening of mechanical equipment shall be required within the city under the following provisions:

(1) Mechanical equipment located on the roof of any building shall be completely shielded from view on all the sides. Mechanical equipment on the ground shall be screened with landscaping or hard screening with any approved material listed under section 15.02.093 preferably of consistent color, material and design as the main structure. The development review committee may approve the use of landscaping or live screen if the intent of building a mechanical screen can be accomplished to achieve an aesthetic, comparable finish as required by this section.

(2) All equipment must be shielded from view of adjacent properties for a distance of two hundred (200) feet from the property line, at a point six feet above grade.

(3) All screening material shall be of consistent color, material and design with the primary structure.

(4) Mechanical equipment shall not include exhaust fans, vents or drains.

(5) Total screened areas of the roof-mounted equipment shall not exceed twenty-five percent (25%) of the roof area of the structure.

(6) When the total screened area(s) of roof-mounted structures exceeds twenty-five percent (25%) of the roof area, a parapet wall of consistent color, material and design as the main structure, at least as high as the roof-mounted equipment shall be constructed along the sides of the roof of the building where such views exist.
(Code 1996, § 15.02.096; Ordinance O-08-13 adopted 5/7/13)

Sec. 15.02.097. Trash/recycling receptacle screening.

(#) Screening of trash/recycling receptacles or any garbage, refuse and trash/recycling collection and

Unedited First Draft

storage areas within nonresidential zones (including multifamily and mobile home districts) shall be required within the city under the following provisions:

(#) Any trash/recycling receptacles or any garbage, refuse and trash/recycling collection and storage areas visible from public right-of-way shall be screening by minimum six feet tall solid, masonry wall on all three sides with an opaque metal gate on the fourth side that to be used for garbage pickup services and secure the trash storage area.
(Code 1996, § 15.02.097; Ordinance O-08-13 adopted 5/7/13)

Sec. 15.02.098. Outdoor storage screening.

Where outdoor storage is permitted in nonresidential districts it shall be subject to the following provisions:

(1) Shall consist of any combination of fences, walls, berms and landscaping that is at least six feet in height.

(2) Shall provide a permanent, opaque, yearround screening around the entire perimeter of the outdoor storage area.

(3) Evergreen plant materials are encouraged as screening. The plants shall be irrigated, pruned and maintained.

(4) The primary outdoor storage of living plant material stored on the ground is not subject to the screening requirements.

(5) All equipment, tools, vehicles etc. associated with upkeep, maintenance of living plant material that are stored outdoors are subject to screening.

(6) A periodic market held in open area such as farmer’s or flea market where a group of individual sellers offer goods for sale are not subject to outdoor storage screening regulations.

(7) General construction activity is not subject to outdoor storage screening regulations.

(8) Outdoor display areas are exempted from screening requirements.
(Code 1996, § 15.02.098; Ordinance O-08-13 adopted 5/7/13)

Sec. 15.02.099. Loading area screening.

Screening for loading docks or truck berths visible from public right-of-way is required in accordance with the following provisions:

(1) Loading docks or truck berths shall be screened by opaque walls, wooden fences, landscaped berms, or landscape areas;

(2) Shall be at least eight feet (8') in height;

(3) Must screen loading dock areas from view from the public street right-of-way with the greatest pavement width parallel to the trailer berths; and

Unedited First Draft

(4) Shall be of sufficient length to screen the maximum size trailer which can be accommodated on site and shall be parallel to trailer berths. Example: Docks and berths that accommodate a 50-foot trailer shall be screened with a 50-foot wall parallel to the berth.
(Code 1996, § 15.02.099; Ordinance O-08-13 adopted 5/7/13)

Sec. 15.02.100. Salvage and junk yards.
